Preparing today’s working adults to compete and thrive in a changing global economy.
“As we move to meet the educational needs of working adults in a mobile society, our conception of the university must extend beyond place and embrace process. An adult university cannot be campus bound, rather its borders must be defined by the lives of its students.”

Dr. John G. Sperling
Founder and Chairman of the Board

Annual Security Report Notice

The University of Phoenix annual security report includes statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by the University, and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes the sex offender registry, institutional policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other related matters. You can obtain a copy of this report by contacting your local Campus Security Authority or by accessing the following Web site: http://www.phoenix.edu/safety.

The University of Phoenix campuses in Florida are approved to offer the following degree programs to potential online students who reside in Florida:

- Associate of Arts in Elementary Education (AAEE)
- Associate of Arts in Accounting (AAACC)
- Associate of Arts Foundations in Business (AAFB)
- Associate of Arts in Criminal Justice (AACJ)
- Associate of Arts in Communications (AACOM)
- Associate of Arts in General Studies (AAGS)
- Associate of Arts in Health Care Administration (AAHCA)
- Associate of Arts in Health Care Administration/Medical Records (AAHCA/MR)
- Associate of Arts in Human Services Management (AAHSM)
- Associate of Arts in Hospitality, Travel and Tourism (AAHTT)
- Associate of Arts in Information Technology (AAIT)
- Associate of Arts in Information Technology/Web Design (AAIT/WD)
- Associate of Arts in Information Technology/Information Technology Support (AAIT/ITS)
- Associate of Arts in Information Technology/Database Development (AAIT/DBD)
- Associate of Arts in Information Technology/Programming (AAIT/PRG)
Associate of Arts in Information Technology/Networking (AAIT/N)

Associate of Arts in Psychology (AAPSY)

Bachelor of Science in Communication/Concentration in Marketing & Sales Communication (BS/COM-MS)
Bachelor of Science in Communication/Concentration in Communication & Technology (BS/COM-CT)
Bachelor of Science in Communication/Concentration in Culture and Communication (BS/COM-CC)
Bachelor of Arts in English (BA/ENG)
Bachelor of Science in Psychology (BSP)

Bachelor of Science in Criminal Justice Administration/Concentration in Human Services (BSCJA/HS)
Bachelor of Science in Criminal Justice Administration/Concentration in Management (BSCJA/M)
Bachelor of Science in Criminal Justice Administration/Concentration in Institutional Healthcare (BSCJA/IH)
Bachelor of Science in Health Administration/Concentration in Health Management (BSHA/HM)
Bachelor of Science in Health Administration/Concentration in Long Term Care (BSHA/LTC)
Bachelor of Science in Health Administration/Concentration in Emergency Management (BSHA/EM)
Bachelor of Science in Health Administration/Concentration in Health Information Systems (BSHA/HIS)
Bachelor of Science in Human Services (BSHS)
Bachelor of Science in Human Services/Management (BSHS/M)

Bachelor of Science in Business/Administration (BSB/A)
Bachelor of Science in Business/Accounting (BSB/ACC)
Bachelor of Science in Business/Finance (BSB/F)
Bachelor of Science in Business/Global Management (BSB/GM)
Bachelor of Science in Business/Human Resource Management (BSB/HRM)
Bachelor of Science in Business/Management (BSB/M)
Bachelor of Science in Business/Marketing (BSB/MKT)
Bachelor of Science in Business/Public Sector (BSB/PS)
Bachelor of Science in Business/Project Management (BSB/PM)
Bachelor of Science in Business/Small Business Management and Entrepreneurship (BSB/SBE)
Bachelor of Science in Business/Sustainable Enterprise Management (BSB/SM)
Bachelor of Science in Business/Service Sector (BSB/SVC)
Bachelor of Science in Management (BSM)
Bachelor of Science in Management/Concentration in Manufacturing Sector (BSM/MAN)
Bachelor of Science in Accounting (BSACC)

Associate of Arts with Concentrations available in (AAIT):
  Information Technology/Desktop Support
  Information Technology/General
  Information Technology/Network Support

Bachelor of Science in Information Technology with Concentrations available in (BSIT):
  Advanced Networking
  Business Systems Analysis
  Information Systems Security
  Multimedia and Visual Communication
  Software Engineering
  Web Development
  Information Management

Bachelor of Science in Nursing (BSN)

Bachelor of Science in Elementary Education for Licensure (BSED/E)

Master of Health Administration (MHA)
Master of Health Administration/Education (MHA/ED)
Master of Health Administration/Gerontology (MHA/GER)
Master of Health Administration/Informatics (MHA/INF)
Master of Science in Psychology (MSP)
Master of Science/Administration of Justice and Security (MS/AJS)

Master of Business Administration (MBA)
Master of Business Administration with concentrations available in:
  Accounting
  Energy Management
  Global Management
  Human Resource Management
  Health Care Management
  Marketing
  Project Management
  Technology Management

Master of Management (MM)

Master of Science in Accountancy (MSA)

Master of Public Administration (MPA)

Master of Information Systems (MIS)

Master of Science in Nursing (MSN)
  Master of Science in Nursing/Health Care Education (MSN/ED)
  Master of Science in Nursing/Master of Health Administration (MSN/MHA)
  Master of Science in Nursing/Specialization in Informatics (MSN/INF)
  Master of Science in Nursing/Master of Business Administration/Healthcare Management (MSN/MBA/HC)

Master of Arts in Education/Administration and Supervision (MAED/ADM)

Master of Arts in Education/Adult Education and Training (MAED/AET)
Master of Arts in Education/Early Childhood Education (MAED/ECH)
Master of Arts in Education, Curriculum and Instruction, Reading (MAED/CI-RD)
Master of Arts in Education/Teacher Leadership (MAED/TL)
Master of Science in Education/Teacher Education Elementary Licensure (MAED/TED-E)
Master of Science in Education/Teacher Education Secondary Licensure (MAED/TED-S)

Nursing/Health Care Education Certificate Program (NHCE)
Project Management Certificate Program (PM)
Human Resources Management (HRM)
Health Care Informatics (HCI)

University of Phoenix, Florida Campuses
2290 Lucien Way, Suite #400
Maitland, FL 32751
The following policy is effective as of September 1st, 2012. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the Academic Policies section of this catalog.

**Admitted (AM) Status**

The Office of Admissions and Evaluation in University Services grants a student Admitted status after all documents have been received, the applicant’s admission file has been officially reviewed, and all admission requirements have been met. Students in all programs must attain admitted status and be officially evaluated by the completion of their fourth University course. This provides the University the necessary information to develop individualized program schedules for each student and provides an opportunity for an admission decision to be made early in the program. Students who are unable to obtain an official admission status by the completion of their fourth University course will be administratively withdrawn from the University and placed on Admission Deadline Exceeded (DE) admission status.

**State Boards**

The University of Phoenix is regulated by a large number of state regulatory bodies across the country. The following is a list of those regulatory bodies, with contact information.

- **In Alabama**, the student may contact the Alabama Department of Postsecondary Education, PO Box 302130, Montgomery, AL 36130-2130; telephone (334) 242-2959.
- **In Arizona**, the student may contact the Arizona State Board for Private Postsecondary Education, 1400 W. Washington, Room 260, Phoenix, AZ 85007, telephone (602) 542-2399, website: www.azppse.gov.
- **In Arkansas**, the student may contact the Arkansas Department of Higher Education, 114 East Capitol, Little Rock, AR 72201-3818; telephone (501) 371-2065.
- **In California**, the student may contact the Bureau for Private Postsecondary Education, C/O Department of Consumer Affairs, PO Box 980818, W. Sacramento, CA 95798-0818; telephone (916) 431-6959, (888) 370-7589.
- **In Colorado**, the student may contact the Department of Higher Education, Commission on Higher Education, 1300 Broadway Road, Second Floor, Denver, CO 80203; telephone (303) 866-2723, (303) 866-4209.
- **In Delaware**, the student may contact the Delaware Department of Education, Townsend Building, 401 Federal St., Suite 2, Dover, DE 19901-3639; telephone (302) 735-4000, 302-735-4120.
- **In Florida**, the student may contact the Commission for Independent Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400; telephone (850) 245-3200.
- **In Georgia**, the student may contact the Nonpublic Postsecondary Education Commission, 2082 East Exchange Place, Suite 220, Tucker, GA 30084; telephone (770) 414-3306.
- **In Hawaii**, the student may contact the Business Registration Division of the Hawaii Department of Commerce and Consumer Affairs, P.O. Box 40, Honolulu, HI 96810; telephone 808-586-2744.
- **In Idaho**, the student may contact the Idaho State Board of Education, P.O. Box 83720, Boise, ID 83720-0037; telephone (208) 332-1587.
- **In Illinois**, the student may contact the Illinois Board of Higher Education, 431 East Adams Street, Second Floor, Springfield, IL 62701-1418; telephone (217) 557-7355, website: www.ibhe.org.
- **In Indiana**, the student may contact the State of Indiana Commission on Proprietary Education (COPE), 302 W. Washington Street, Room E201, Indianapolis, IN 46204-2767; telephone (317) 464-4400.
- **In Iowa**, the student may contact the Iowa College Student Aid Commission, 603 E. 12th Street, 9th Floor, Des Moines, IA 50319; telephone (515) 725-3400.
- **In Kansas**, the student may contact the Board of Regents, 1000 SW Jackson, Suite 520, Topeka, KS 66612-1368; telephone (785) 296-4936, 785-296-4917.
- **In Kentucky**, the student may contact the Kentucky Council on Postsecondary Education, 1024 Capital Center Drive, Suite 320, Frankfort, KY 40601-8204; telephone (502) 573-1555 ext. 350.
- **In Louisiana**, the student may contact the State of Louisiana Board of Regents, P.O. Box 3677, Baton Rouge, LA 70821; telephone (225) 342-4253.
- **In Maine**, the student may contact the Maine State Board of Education (MSBE), 23 State House Station, Augusta, ME 04333-0023; telephone (207) 624-6616.
- **In Maryland**, the student may contact the Maryland Higher Education Commission, 6 N. Liberty St., Baltimore, MD 21201; telephone (301) 974-0203.
- **In Maryland**, the student may also contact the Maryland Office of the Attorney General, 200 St. Paul Place, Baltimore, MD 21202; telephone (410) 576-6300 or (888) 743-0023; TDD (410) 576-6372; www.oag.state.md.us.
- **In Massachusetts**, the student may contact the Massachusetts Board of Higher Education, One Ashburton Place, Suite1401, Boston, MA 02108-1696; telephone (617) 994-6937.
- **In Michigan**, the student may contact the Michigan Department of Education, P.O. Box 30008 (or) 608 W. Allegan, Lansing, MI 48909; telephone (517) 373-9235.
- **In Minnesota**, the student may contact the Minnesota Office of Higher Education, 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108; telephone (651) 259-3975, (800) 657-3866.
- **In Mississippi**, the student may contact the Mississippi Institutions of Higher Learning Commission Proprietary School and College Registration Mississippi Commission on College Accreditation, 3825 Ridgewood Road, Jackson, MS 39211; telephone (601) 432-6997.
- **In Missouri**, the student may contact the State of Missouri Coordinating Board for Higher Education, 205 Jefferson Street, Jefferson City, MO 65101; telephone (573) 751-2361.
- **In Nebraska**, the student may contact the Coordinating Commission for Postsecondary Education, P.O. Box 95005, Lincoln, NE 68509-5005; telephone (402) 471-0020, (402) 471-2847.
- **In Nevada**, the student may contact the Nevada Commission on Postsecondary Education, 3663 E. Sunset Road, Suite #202, Las Vegas, NV 89120; telephone (702) 486-7330.
• In New Jersey, the student may contact the New Jersey Commission on Higher Education, 20 W. State Street, PO Box 542 Trenton, NJ 08625-0542; telephone (609) 292-4310, (609) 984-2709.

• In New Mexico, the student may contact the New Mexico Higher Education Department, 2048 Galisteo Street, Santa Fe, NM 87505-2100; telephone (505) 476-8400.

• In North Carolina, the student may contact the Board of Governors of the University of North Carolina, General Administration, 910 Raleigh Road Chapel Hill, NC 27515-2688; telephone (919) 962-4538.

• In Ohio, the student may contact the Ohio Board of Regents, registration number 1154320, 30 E. Broad Street, 36th Floor, Columbus, OH 43215-3414; telephone (614) 466-6000.

• In Oklahoma, the student may contact the Oklahoma State Regents of Higher Education, 655 Research Parkway, Suite 200, Oklahoma City, OK 73104-3603; telephone (405) 225-9100, (405) 225-9142.

• In Oregon, the student may contact the Oregon Office of Degree Authorization, 1500 Valley River Dr. Suite 100, Eugene, OR 97401; telephone (541) 687-7478.

• In Pennsylvania, the student may contact the Pennsylvania Department of Education, 333 Market Street, Harrisburg, PA 17126-0333; telephone (717) 783-6785.

• In Puerto Rico, the student may contact the Consejo de Educacion Superior de Puerto Rico / Puerto Rico Council on Higher Education, PO Box 19900, San Juan, Puerto Rico 00910-1900; telephone (787)-724-7100 ext 2022 or ext 2016.

• In South Carolina, the student may contact the Nonpublic Postsecondary Institution Licensing, 1333 Main Street, Suite 200, Columbia, SC 29201; telephone (803) 737-2281

ADDENDUM - UPDATED POLICY

The following policy is effective as of September 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the Undergraduate Programs section of this catalog.

First-Year Sequence

The following First-Year Sequence is applicable to students starting on or after February 1, 2010. Students who begin courses prior to February 1, 2010 will not be required to complete the First-Year Sequence.

All students entering undergraduate degree programs (other than LVN/BSN, LPN/BSN, BSN, BSLS, and BSED/E) who have fewer than 24 previous college credits as recognized by the university on the admissions application are required to complete the following First-Year Sequence. Courses requiring prerequisites are identified by a ~ symbol following the course number.

GEN 195 (Required as first course) ................................................. 3 credits Foundations of University Studies
SCI 163 ~ .................................................................................. 3 credits Elements of Health and Wellness
FP 120 ~ .................................................................................. 3 credits Essentials of Personal Finance
COM 170 ~ .................................................................................. 3 credits Elements of University Composition and Communication I
COM 172 ~ .................................................................................. 3 credits Elements of University Composition and Communication II
PSY 211 ~ .................................................................................. 3 credits Essentials of Psychology
HUM 114 ~ (Required as last course) ............................................. 3 credits Critical Thinking and Creative Problem Solving

Optional Course for the First-Year Sequence:

HUM 186 ~ .................................................................................. 3 credits Media Influences on American Culture

Note: Non-Degree students may not enroll in any of the University of Phoenix or Associates First-Year Sequence courses.

Course Descriptions for First-Year Sequence

GEN 195 ..................................................................................... 3 credits Foundations of University Studies

The essential information, skills, tools, and techniques necessary for academic success and personal effectiveness at the University of Phoenix are introduced in this course. The course develops and applies practical knowledge and skills immediately relevant to first-year university students. Course topics include goal setting and working with personal motivation, understanding and using University resources, developing efficient study habits, making the most of personal learning styles, and how best to manage time and reduce personal stress levels.

SCI 163 ..................................................................................... 3 credits Elements of Health and Wellness

This course reinforces the concept that learning effectively and living well involves both the mind and body. It presents the fundamentals of wellness and preventive health including strategic planning to attain and maintain personal optimal health. In addition, physical and mental diseases are discussed along with the dangers of environmental pollution, stress, addiction, and other negative factors that can affect personal health.

FP 120 ..................................................................................... 3 credits Essentials of Personal Finance

This course provides an overview of the elements necessary for effective personal financial planning and the opportunity to apply the techniques and strategies essential to this understanding. Primary areas of study include creating and managing a personal budget, understanding and paying taxes, working with financial institutions, wise use of credit cards and consumer loans, financing automobiles and homes, and the use of insurance for protecting one's family and property.

COM 170 ..................................................................................... 3 credits Elements of University Composition and Communication I

This course addresses the key elements necessary for effective academic writing in college. The course begins with focus on pre-writing strategies and builds to drafting and revising essays. In addition, the course includes skill development at the sentence and paragraph level.

COM 172 ..................................................................................... 3 credits Elements of University Composition and Communication II

This course builds upon the foundations established in Com155. It addresses the various rhetorical modes necessary for effective college essays: narration, illustration, description, process analysis, classification, definition, comparison and contrast, cause and effect, and argumentation. In addition, requirements for research essays, including the use of outside sources and appropriate formatting, are considered.

PSY 211 ..................................................................................... 3 credits Essentials of Psychology

This course overviews the foundations of psychology as the field applies to everyday life. The physical and mental aspects of psychology are traced through lifespan development with emphasis on psychological health and wellness. Further study focuses on personality; thinking, learning and memory; motivation and emotions; and gender and sexuality. Based in various historical traditions, the course is set in the context of contemporary psychological principles.

HUM 114 ..................................................................................... 3 credits Critical Thinking and Creative Problem Solving

This course focuses on developing the critical and creative thinking skills necessary to analyze and solve problems, make decisions, implement strategies, and formulate well supported points of view on key academic, social, and professional issues. The principles of creative thinking are essential to critical thinking skills. Students will learn how to evaluate their ideas and how to communicate their points of view persuasively.

HUM 186 ..................................................................................... 3 credits Media and American Culture

The course provides an introduction to the most prominent forms of media that influence and impact social, business, political, and popular culture in contemporary America. It explores the unique aspects of each medium as well as interactions across various media that combine to create rich environments for information sharing, entertainment, business, and social interaction in the U.S. and around the world.
ADDENDUM - UPDATED POLICY

The following policy is effective as of September 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the Students’ Rights and Responsibilities section of this catalog.

Procedure for Processing Alleged Violations of the Student Code of Conduct:

Procedure for Processing Alleged Violations of the Student Code of Conduct:

A. Alleged Violations:

1. An alleged violation of the Student Code of Conduct, unless related to student records or sex discrimination/harassment, shall be forwarded to the Campus Director of Academic Affairs, the Campus Director of Operations, or their designee.

2. An alleged violation of the Student Code of Conduct that relates to student records shall be forwarded in writing to the Registrar.

3. An alleged violation of the Student Code of Conduct that relates to sex discrimination/harassment shall be forwarded to the university's Title IX Coordinator, Camie Pratt, Associate Vice President, Office of Dispute Management, 1625 W. Fountainhead Parkway, Mailstop AA-S401, Tempe, AZ 85282, 602.557.3391, Camie.Pratt@phoenix.edu or designee).

4. All alleged violations of the Student Code of Conduct shall be subject to a fair and impartial process in determining whether or not a violation has occurred.

5. An alleged violation of the Student Code of Conduct may result in a warning or it may be subject to review by a committee as described below.
The following policy is effective as of September 1st, 2012. Please see the updated policy information below.

CONSUMER INFORMATION

Introduction

All institutions participating in federal financial aid programs are required to notify enrolled and potential students and current and prospective employees regarding available consumer information. This document provides required consumer information. Where applicable, each section lists specific locations where additional information is available. Additionally, the right to request and receive this information in writing is available by contacting the campus director or designee at each University of Phoenix location during regular business hours.

Student Financial Aid Consumer Information

University of Phoenix participates in the following federal financial aid programs:

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Teacher Education Assistance for College Higher Education (TEACH) Grant
- Iraq and Afghanistan Service Grant (IASG)
- Federal Perkins Loan Program
- Federal Stafford Direct Loan (DL) Program
- Federal Stafford Direct Parent Loan for Undergraduate Students (PLUS)
- Federal Stafford Direct PLUS Loan for Graduate and Professional Degree Students

Degree-seeking students who are U.S. citizens or eligible noncitizens enrolled in an eligible academic program can apply for federal financial aid as a means of assisting with financing their education. Some certificate programs may also be eligible for federal financial aid.

Students may also be eligible to receive funding through state grant or scholarship programs in their states where available. Depending on the program, student eligibility may be need-based, non-need-based, credit based, or dependent on other specific conditions.

Students should contact a local campus or an online finance advisor at 866.766.0766 for additional information on financial aid programs available at each campus. A list of campuses is available at http://www.phoenix.edu/campus_locations.html.

University of Phoenix Family Educational Rights and Privacy Act

University student records are confidential for all schools receiving funding under programs administered by the U.S. Department of Education in accordance with the Family Educational Rights and Privacy Act (FERPA) of 1974. Generally, information pertaining to a student record is not to be released to a third party without written or authorized electronic consent via a FERPA release form, judicial order, or a lawfully issued subpoena.

The University is required to provide students a copy of its FERPA policy annually and upon written request from the student. Current students can obtain a copy of the FERPA policy in the appropriate online academic catalog at https://www.phoenix.edu/programs/degree-programs/academic-catalog.html.

Access to Education Records

FERPA regulations require the University to comply with students' rights to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, University Services will respond to students' requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records the students wish to receive copies of or inspect.

Note: Under FERPA, a student is defined as an individual who is or has attended an educational institution. Students with at least one Academic Related Activity in a university course are considered a student. A student with at least one positive attendance, or Y, posted is considered an active student.

Education records are defined as all records, files, documents and materials containing information directly related to a student, and maintained by an educational institution.

The following are not interpreted as education records:

- Personal records maintained by an individual; must be kept in the sole possession of the individual and are not accessible to others
- Records of the law enforcement unit of an educational institution
- Personnel records; records related to a person as an employee not used for any other purpose
- Medical records
- Records created after the student is no longer a student; alumni records

Releasable Information - Directory

In compliance with FERPA, a University designated representative without prior written or authorized electronic consent of the student can release the following educational record information, provided the student does not have a FERPA Hold Request Form on record.

- Student name
- Home address
- Email address
- Home telephone number
- Year of birth
- Dates of attendance at the University
- Dates of admission to the University
- University programs of study
- University degree completion dates and type of degrees earned
- Current enrollment status (full-time, part-time, or withdraw)
- Most recent previous institutions attended and degree(s) earned
- Grade level (freshman, sophomore, junior or senior)
- Photographs

The new information is will supercede the existing policy located in the Consumer Information section in the body of this catalog.
• Honors and awards received
• Participation in officially recognized activities

If a student submits written or authorized electronic requests via a FERPA Hold Request form that directory information not be released to a third party, no information can be released, absent a judicial order or a lawfully issued subpoena. A FERPA Hold Request is valid throughout the student’s enrollment.

To remove a FERPA Hold Request, the student must complete and submit a FERPA Hold Release form to the Registrar's Office.

To remove previously authorized parties from record, the student completes and submits a FERPA Rescind form listing all parties to whom information should no longer be released.

**Information Not Released - Non-Directory**

In compliance with FERPA, the following student information must not be released by the University without prior written or authorized electronic consent of the student, a judicial order, or a lawfully issued subpoena. The student’s signature on the written requests shall be verified before acting upon the request.

- Place of birth*
- Month and day of birth*
- Social Security Number (SSN), Individual Record Number (IRN) or Personal Identification Number (PIN)**
- Grades or grade point averages
- Course schedules
- Employment information including: employer, position held, work address or work telephone number
- Academic performance information, such as academic suspension, probation disqualification or academic dishonesty charges
- Admission information including test scores or entry grade point averages
- Financial and accounting information
- Gender*
- Race*
- Ethnicity*
- Citizenship*
- Country of origin*

* Although this information may be disclosed without prior written consent according to FERPA, the University policy is to maintain the confidentiality of this student information. The University will notify students to provide contact information directly to a third party when this information is requested.

** Student IRNs, SSNs or PINs should not be released to a third party, unless necessary to perform a required task; for example the Student Financial Agreement, FBI request, etc.

Note: Non-directory information can only be released to third parties via telephone or in person if the student has provided written or authorized electronic consent including a security word. If the student does not complete the release information, including security word, information is not released via telephone or in person.

Note: All third-party inquiries, including parents, require a FERPA Release Form on file unless the third party meets one of the definitions under FERPA allowing access without prior written or authorized electronic consent from the student, for example, power of attorney, etc.

The University can release information to school officials with legitimate educational interest.

The University may release information under the following conditions:

- School officials with legitimate educational interest
- Person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials such as Apollo Group, Netact Scholarship Management, Aptimus, Proticiti, ACS, ECMC Solutions, National Student Clearinghouse, Paradigm, Inc., Education Sales Management, Double Positive, Hills Consulting Group, SCRIP-SAFE, Student Outreach Solutions, i3, Inside Track, Salesforce, Iron Mountain, Outsell Y-Connecting, Cerevo, IntraEdge, ITC InfoTech, Sogeti, collection agencies (CS, ARS, States Recovery, FMS, Account Control Technology-ACT, Avante USA, Capital Management Systems, FCBS, NARS Call Center Solutions, National Enterprise Systems, Northland Group, Penta Group, Redline Recovery, Tate and Kirlin, iGrad, and Windham Professionals) and other services
- Other schools to which a student seeks or intends to enroll
- Specified officials for audit and evaluation purposes
- Appropriate parties in connection with financial aid to a student
- Organizations conducting studies for, or on behalf of, the school
- Accrediting organizations

To comply with a judicial order or lawfully issued subpoena

- Appropriate officials in cases of health and safety emergencies
- State and local authorities, pursuant to state law
- The U.S. Immigration and Customs Enforcement, in compliance with the Student Exchange Visitor Information System (SEVIS) program
- Under "Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act (USA PATRIOT ACT) of 2001," Section 507 amends FERPA and allows institutions to disclose without consent or knowledge of the student personally identifiable information from the student’s education records to the Attorney General of the United States or to his designee in response to an ex parte order in connection with the investigation or prosecution of terrorism crimes specified in 2332b(g)(5)(B) or an act of domestic or international terrorism as defined in Section 2331 of Title 18 United States Code. Institutions that, in good faith, produce information from education records in compliance with an ex parte order issued under this amendment “shall not be liable to any person for that production”

- Under the Campus Sex Crime Prevention Act, institutions are permitted to disclose information concerning registered sex offenders who are required to register under the Violent Crime Control & Law Enforcement Act

- The institution may disclose the results of a disciplinary proceeding if the student is an alleged perpetrator of a crime of violence or nonforcible sex offense and he or she has been found to have violated the institution’s policies and procedures with respect to the allegation. Disclosures may only be made if the institution determines the student did violate its policies and such disclosures must only include the name of the student, violation committed and any sanction imposed by the institution against the student.

- The institution must, upon written request, disclose to the alleged victim of a crime of violence, or a nonforcible sex offense, the results of any disciplinary hearing conducted by the institution against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the institution must provide the results of the disciplinary hearing to the victim’s next of kin, if so requested

- The disclosure is to organizations conducting studies for, or on behalf of, educational agencies or institutions

Addendum
The University shall retain a record of student information disclosed to a third party if the disclosure does not fall under a FERPA exception. This information is kept on the University’s computer system containing dates, names and reasons for release. Students shall have reasonable access to their educational records and may request to review and challenge the contents, which they feel to be inaccurate, misleading, or otherwise in violation of their privacy or other rights. FERPA regulations require the University to comply with the students’ right to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, University Services will respond to students’ requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records they wish to receive copies of or inspect.

**Student Right to Access**

Students wishing to review their educational records shall submit a written request to the Registrar specifying the records to be reviewed. Only records covered by the Family Educational Rights and Privacy Act will be made available. If necessary, the Registrar’s Office will work with a campus designee so that the student can review the record.

FERPA regulations require the University to comply with the students’ right to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, University Services will respond to students’ requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records they wish to receive copies of or inspect.

Students who wish to review their records at a campus location must present photo identification before access to educational records is allowed. For copies of records from a student’s file, the student must fill out and submit the Student Request for Information form. Distance education students must submit a written request specifically outlining which record they would like to review. Upon verification of the student’s signature, the records will be released.

A designated University official must be present when a student wishes to review his or her records at a campus location. This includes documents on file or student history notes that do not reference other student information. Printed files requested by the student and mailed from the Registrar’s Office will not include his-erence other student information. Printed files requested by the student must fill out and submit the Student Request for Information form. Distance education students must submit a written request specifically outlining which record they would like to review. Upon verification of the student’s signature, the records will be released.

A designated University official must be present when a student wishes to review his or her records at a campus location. This includes documents on file or student history notes that do not reference other student information. Printed files requested by the student and mailed from the Registrar’s Office will not include history notes from any record systems.

**Procedure**

Students alleging that their University records are inaccurate or misleading, or who allege violations of FERPA, may present their challenges to the University Registrar. Students have the right to correct record-keeping errors, but not to seek to overturn administration decisions and assessments. The registrar shall review students’ challenges and, when appropriate, amend students’ records accordingly. Students will be notified within 14 days of the registrar’s actions and, based on the action, may request a formal hearing.

A student must submit request for amendment in writing to the registrar identifying the specific portion of his or her record he or she wants changed and why he or she believes it’s inaccurate or in violation of his or her privacy. The registrar will respond to the request within 14 days.
If the University denies the request to change the record, the registrar will notify the student within 14 days of the decision and advise the student of his or her right to challenge the information. A student’s request for a formal hearing must be made in writing and submitted to University Services. The registrar will arrange for a hearing, and notify the student within 14 days from the receipt of the request of the date, place and time of the hearing. A hearing panel appointed by the registrar shall represent the University. The panel shall consider all relevant evidence supporting the student’s allegations of inaccurate or misleading information in the student’s records. Decisions of the panel will be final. The University will provide a written decision within 14 days of the hearing based on evidence presented at the hearing and will include a summary of evidence presented and the rationale for the decision. If the University decides that the challenged information is not misleading, inaccurate or in violation of the student’s privacy rights, it will notify the student within 14 days of his or her right to place in the record a statement commenting on the challenged information or a statement of reasons for disagreeing with the decision. The statement will be maintained as a part of the student’s record as long as the contested portion is maintained. If the University discloses the contested portion of the record, it must also disclose the statement. If the University decides the information is inaccurate or in violation of the student’s right of privacy, it will amend the record and notify the student within 14 days, in writing, that the record has been amended.

Students may not inspect and review the following absent a judicial order or legally issued subpoena:

- Confidential letters and recommendations for which they have waived their rights of inspection
- Educational records containing information about more than one student
- Access is permitted only to that part of the record concerning the inquiring student
- Records of instructional, supervisory, administrative, and certain educational personnel, which are in the possession of the originator
- Records connected with an application to attend the University if the application was denied; for example, a student is enrolled in an undergraduate program and applies for admission to a graduate program but is denied.

University of Phoenix cannot deny students access to their records. Copies do not need to be provided, unless by not providing copies, the students’ rights are denied.

*The University may release foreign transcripts to students.*

The University reserves the right to deny transcripts or copies of records not required to be made available by FERPA in any of the following situations, absent a judicial order or legally issued subpoena:

- Student has an unpaid financial obligation with the University.
- The University issues transcripts for students who have filed for bankruptcy, provided University of Phoenix obtains a copy of the bankruptcy petition filed with the courts.

Students have the right to file a complaint with the FERPA office in Washington, D.C. Inquiries should be directed to:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

For a period of 25 years following the death of a student, education records of deceased students may only be released to the executor of the estate (written authorization required) or immediate family members (notarized affidavit required) defined as: spouse or legally recognized domestic partner, parents, children (over the age of 18), and siblings. Beyond this time, requests for these records may be released to anyone after review and approval from the Registrar’s Office.

The Student Verification Process (SVP) is required for inbound and internally transferred phone calls in which a request for the release of or update to any student record information is made. The Student Verification Process is not required for outbound phone calls, provided those calls are to contact numbers in our student academic systems and the student verifies his/her identity. A government issued photo ID or University of Phoenix issued photo ID can be used in place of the SVP for in-person requests.

**Solomon Act**

University of Phoenix complies with the Solomon Act, which provides certain information to military recruiters. Information that may be released includes the following:

- Student name
- Home address
- Email address*
- Telephone listing
- Age (date of birth)
- Place of birth*
- Level of education
- Academic major
- Degrees received*
- Most recent educational institution attended*

*This information may be released only when available. No information will be released if the student has a FERPA hold on record.

**Procedure**

1. Request is routed from campus or corporate department to the Apollo Ethics & Compliance Department at the following address:
University of Phoenix
Apollo Ethics & Compliance Department
4025 S. Riverpoint Parkway, Mail Stop: CF-L302
Phoenix, AZ 85040
Fax: 480.643.1015

2. Within 15 days of a request by the recruiter, the Apollo Ethics & Compliance Department will make contact with the requestor and discuss the necessary information requested, our method for determining costs, and our basis for concluding that such charges are reasonable and customary.

3. The Apollo Ethics & Compliance Department will route specific report details to the Office of the Registrar.

4. The Office of the Registrar will process the request of information and route the report back to the Apollo Ethics & Compliance Department within 72 business hours.

5. The Apollo Ethics & Compliance Department will send the information to the requestor.

**Addendum**
6. Documentation will be kept, verifying each occurrence of report fulfillment.

Consumer Privacy Policy

Our Privacy Philosophy

Summarized below are key elements of our Privacy Policy. To read our full Privacy Policy ("Policy") please go to http://www.phoenix.edu/copyright-legal/privacy_policy.html#full-version.

Scope of Privacy Policy

This policy applies to website visitors, current and prospective students, and any other user of services offered through Apollo Group, Inc. and University of Phoenix ("Apollo" or "we"), including any websites or mobile applications operated by or on their behalf. This policy applies to both online and offline collection, storage, processing, and transfer of Personal Information. However, certain Sites or services may be subject to additional privacy policies (collectively "Additional Policies").

Information Collected

We collect various types of Information through our Sites and other websites where you can express interest in our services, through our mobile applications, over the phone, and in person where print materials may be used to collect Information from you. Some Information is collected automatically through various Web and Internet technologies, including Social Networking tools used by your University to foster communication and collaboration among members of our community. Other Information is collected when you provide it in response to an advertisement, a survey, or a request for information; apply for admission or financial aid; register for classes; order educational or other products and services; set up a Social Network or other Site profile; or use one of our career resources, learning assessments, or other interactive tools. We may also obtain information from other sources and combine that with Information we collect about you.

Information Uses

We will not sell, rent, or lease your Personal Information to others except as provided in this policy. We may collect, use, and disclose Personal Information for the following purposes:

- to determine your admissibility and to register you for your selected educational programs
- to provide requested products and services
- to respond to your inquiries and provide customer support
- to administer promotions in which you have indicated an interest
- for our internal marketing purposes, which includes, but is not limited to, sending you material about products, services, updates, etc. that we think may be of interest to you
- for fostering communication and collaboration among members of your University community through Social Networks
- for sharing with our Educational Partners who may contact you with respect to their educational or other services
- for sharing with our Educational Partners or Business Associates who are performing services on our behalf
- to analyze how Sites and services are being accessed and used
- for Online Behavioral Advertising purposes
- to improve Site and service performance and delivery
- to prevent potentially illegal activities (including illegal downloading of copyrighted materials in accordance with our Copyright Infringement policy)
- to analyze academic and learning outcomes and preferences
- to analyze risk and business results
- to obtain payment for services that we provide to you
- to provide you with information concerning arrangements and other options for the repayment of funds loaned to you for your education
- to maintain business records for reasonable periods
- to enforce our Terms of Use
- to provide to Educational Partners, Business Associates or Unrelated Entities in connection with the contemplated or actual reorganization, merger, acquisition, financing, securitization, insuring, sale or other disposal of all or part of our business or assets, including for the purposes of determining whether to proceed with such transaction or fulfilling any records or other reporting requirements to such parties. In the event of any actual reorganization, merger, or acquisition such Information may be transferred as part of the transaction to the acquirer
- and/or as may be required or permitted by legal, regulatory, industry self-regulatory, insurance, audit, or security requirements applicable to Apollo, our Educational Partners, or our Business Associates.

Your Rights and Choices

Marketing Communications

If you do not wish to receive marketing email communications from us, you may express your choice where indicated on the applicable email or other communication.

If you do not wish to receive marketing telephone calls or mailings, you may express your choice to opt-out by emailing Privacy@apologrp.edu.

Under California’s Shine the Light law, Cal. Civ. Code § 1798.83, we provide California residents the ability to opt out of disclosures to Educational Partners for direct marketing purposes. To opt out of these disclosures at no cost, email Privacy@apologrp.edu.

Online Behavioral Advertising

We or our Business Associates may use data collected on this site for Online Behavioral Advertising purposes, e.g. to customize ads to you on other web sites as you browse the Web. If you do not want your browsing behavior on the Sites to be collected for Online Behavioral Advertising purposes, visit http://info.evidon.com/pub_info/184?v=1.

Other Collection, Use, and Disclosure

You may be able to opt-out of our collection, use, and disclosure of your Personal Information in other situations subject to applicable contractual, academic, legal or technical restrictions and reasonable notice. Note that if you opt-out of certain uses of your Personal Information, we may no longer be able to provide certain products or services. For more information on your ability to opt-out, email Privacy@apologrp.edu.

Other Important Information

We will take commercially reasonable measures to secure and store your Information to protect against the loss, misuse, and alteration of the Information under our control. We utilize industry standard security measures when accepting your credit card Information during your registration or other transaction you have initiated with us, as well as whenever we ask you to login to any of our Sites.
If you become a student, your educational records are subject to the U.S. federal Family Education Rights and Privacy Act (FERPA), state laws, and your University policies. To obtain a copy of the "Students' Rights to Privacy and Access to Educational Records" policy, click here. You may also contact us via one of the below methods:

FEDERAL, STATE AND INSTITUTIONAL FINANCIAL AID PROGRAMS

Degree-seeking students who are U.S. citizens or eligible noncitizens enrolled in an eligible academic program can apply for federal financial aid as a means of assisting with financing their education. Certificate programs may also be eligible for federal financial aid. Depending on the program, student eligibility may be need-based, non-need-based, credit based, or dependent on other specific conditions.

Students may be eligible to receive funding through state grant or scholarship programs in their states where available.

General Eligibility Requirements

General eligibility requirements for financial aid are as follows:

- Submit a current award year Free Application for Federal Student Aid (FAFSA®)
- Student must be a U.S. citizen or eligible noncitizen
- Student must have a valid Social Security number
- Student must be enrolled, or accepted for enrollment, in an eligible program
- Student must have a high school diploma or general educational development (GED) credential
- Student must meet applicable satisfactory academic progress (SAP) standards
- Student must meet enrollment status requirements
- Student must have resolved any drug conviction issue
- Student must have a timely registration for Selective Service, if required by law
- Student must not be in default on a loan made under any federal aid program

For additional eligibility requirements, go to: http://www.phoenix.edu/tuition_and_financial_options/financial_options/financial-aid-options-non-citizens.html

Grants

University of Phoenix participates in the following federal financial aid programs:

Federal Pell Grant

A Federal Pell Grant, unlike a loan, does not have to be repaid. Pell Grants are awarded usually only to undergraduate students who have not earned a bachelor’s or a professional degree.

Beginning with the 2012-2013 award year, a student can only receive a Pell Grant for up to a maximum of 12 semesters or the equivalent.

For more detailed information about the federal Pell Grant, visit http://studentaid.ed.gov/types/grants-scholarships/pell

Federal Supplemental Educational Opportunity Grant (FSEOG)

The Federal Supplemental Educational Opportunity Grant (FSEOG) program is for undergraduates with exceptional financial need. Pell Grant recipients with the lowest expected family contributions (EFCs) will be considered first for a FSEOG. The FSEOG does not have to be repaid.

For more detailed information about the FSEOG, visit http://studentaid.ed.gov/types/grants-scholarships/fseog

Iraq and Afghanistan Service Grant (IASG)

A student whose parent or guardian was a member of the U.S. Armed Forces and died as a result of service performed in Iraq or Afghanistan after September 11, 2001 may be eligible to receive the Iraq and Afghanistan Service Grant.

For more detailed information about the IASG, visit http://studentaid.ed.gov/types/grants-scholarships/iraq-afghanistan-service

Teacher Education Assistance College of Higher Education (TEACH) Grant Program

The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to $4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families.

For more detailed information about the TEACH Grant, visit http://studentaid.ed.gov/types/grants-scholarships/teach

Note: Students may also be eligible to receive funding through state grant or scholarship programs in their states where available. Depending on the program, student eligibility may be need-based, non-need-based, credit-based, or dependent on other specific conditions. Contact a local campus or Online finance advisor at 866.766.0766 for additional information on state grant and/or scholarship programs. A list of campuses is available at http://www.phoenix.edu/campus_locations.html.

Addendum
Loans

Federal Perkins Loan Program

A Federal Perkins Loan is a low-interest (5 percent) loan for both undergraduate and graduate students with exceptional financial need. Federal Perkins Loans are made through a school’s financial aid office. Your school is your lender, and the loan is made with government funds. You must repay this loan to your school.

For more detailed information about the Perkins Loan Program, visit http://studentaid.ed.gov/types/loans/perkins

Students who receive a Federal Perkins loan are subject to the terms and conditions disclosed on the Federal Perkins Loan Master Promissory Note (MPN), http://www.ifap.ed.gov/dpcletters/attachments/CB0906Attach.pdf

Federal Direct Loan (DL) Program

Direct Stafford Loans, from the William D. Ford Federal Direct Loan (Direct Loan) Program, are low-interest loans for eligible students to help cover the cost of higher education. Eligible students borrow directly from the U.S. Department of Education (the Department) at participating schools.

Direct Stafford Loans include the following types of loans:

Direct Subsidized Loans—Direct Subsidized Loans are for students with financial need. The University will review the results of the Free Application for Federal Student Aid (FAFSA®) and determine the amount a student can borrow. The student is not charged interest while in school at least half-time and during grace periods and deferment periods.

Direct Unsubsidized Loans—The student is not required to demonstrate financial need to receive a Direct Unsubsidized Loan. Like subsidized loans, the University will determine the amount a student can borrow. Interest accrues (accumulates) on an unsubsidized loan from the time it’s first paid out. The student can pay the interest while in school and during grace periods and deferment periods, or can allow it to accrue and be capitalized (that is, added to the principal amount of the loan). If a student chooses not to pay the interest as it accrues, this will increase the total amount to be repaid because the student will be charged interest on a higher principal amount.

Students who receive a Direct Stafford Loan are subject to the terms and conditions disclosed on the Federal Direct Stafford/Loan Master Promissory Note (MPN): http://www.direct.ed.gov/pubs/dlrights.pdf

Recent Regulatory Changes

Effective for loans first disbursed on or after July 1, 2012, the law eliminates the authority of the U.S. Department of Education (ED) to offer any repayment incentives to Direct Loan borrowers to encourage on-time repayment of loans, including any reduction in the interest rate or origination fee. As a result, the up-front interest rebate that has been provided to Direct Loan borrowers at the time of loan disbursement will not be offered on any Direct Loan with a first disbursement date that is on or after July 1, 2012. The law continues to authorize ED to offer interest rate reductions to Direct Loan borrowers who agree to have payments automatically electronically debited.

Effective for loans made for periods of enrollment (loan periods) beginning on or after July 1, 2012, graduate and professional students are no longer eligible to receive Direct Subsidized Loans. Effective for loans made for periods of enrollment (loan periods) beginning before July 1, 2012, for either graduate or undergraduate study, are not affected by this change.

Federal Direct PLUS loan for parent(s)

Parents of dependent students may apply for a Direct PLUS Loan to help pay their child’s education expenses as long as certain eligibility requirements are met.

For more detailed information on Direct Parent PLUS loans, visit http://studentaid.ed.gov/types/loans/plus

Students whose parent(s) receive a PLUS loan are subject to the terms and conditions disclosed on the Federal Direct PLUS Loan Application and Master Promissory Note (MPN), http://www.direct.ed.gov/pubs/dlrights.pdf

Federal Direct PLUS loan for Graduate and Professional Degree Students

Graduate and professional degree students can borrow a Direct PLUS Loan to help cover education expenses. The terms and conditions applicable to PLUS Loans for parents also apply to PLUS Loans for graduate and professional students. These terms and conditions include: (1) a determination that you (the applicant) do not have an adverse credit history; and (2) a fixed interest rate of 7.9% for Direct PLUS Loans.

For more detailed information on the Direct PLUS loan for Graduate and Professional students, visit http://studentaid.ed.gov/types/loans/plus

Students who receive a PLUS loan for Graduate and Professional students are subject to the terms and conditions disclosed on the Federal Direct PLUS Loan Application and Master Promissory Note (MPN), http://www.direct.ed.gov/pubs/dlrights.pdf

Go to Student Aid on the Web at http://studentaid.ed.gov/to review more detailed information on eligibility and how to apply. Students should contact a local campus or an online finance advisor at 866.766.0766 for additional information on the financial aid programs available at your campus. A list of campuses is available at http://www.phoenix.edu/campus_locations.html.

Students may also be eligible to receive funding through state grant or scholarship programs in their states where available. Depending on the program, student eligibility may be need-based, non-need-based, credit-based, or dependent on other specific conditions. Contact a local campus or Online finance advisor at 866.766.0766 for additional information on state grant and/or scholarship programs. A list of campuses is available at http://www.phoenix.edu/campus_locations.html.

Addendum
Grade Level Determination

Determination of grade level is an important part of calculating eligibility for federal and state financial aid. The University bases grade levels on credits completed at the start of an academic year. An academic year is defined as a minimum of 24 credits and 30 weeks of instructional time.

<table>
<thead>
<tr>
<th>Grade Level Determination</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits earned in primary program at start of Academic Year (includes transfer credits)</td>
</tr>
<tr>
<td>0-23</td>
</tr>
<tr>
<td>24-47</td>
</tr>
<tr>
<td>48-71</td>
</tr>
<tr>
<td>72-95</td>
</tr>
<tr>
<td>96+</td>
</tr>
</tbody>
</table>

Note: A student in a two-year program or certificate program cannot receive more than a grade level 2 (GL2) annual loan limit in any given year, no matter how long it takes to complete the program or certificate.

Federal Stafford Direct Subsidized and Unsubsidized Annual Loan Limits

Federal Stafford Direct Subsidized and Unsubsidized Annual and Aggregate Loan Limits are as follows:

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Dependent Undergraduate Student</th>
<th>Independent Undergraduate Student</th>
<th>Graduate/Professional Student</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Freshman</td>
<td>$5,500 - No more than $3,500 of this amount can be subsidized loan</td>
<td>$9,500 - No more than $3,500 of this amount can be subsidized loan</td>
<td>$20,500</td>
</tr>
<tr>
<td>2 Sophomore</td>
<td>$6,500 - No more than $4,500 of this amount can be subsidized loan</td>
<td>$10,500 - No more than $4,500 of this amount can be subsidized loan</td>
<td></td>
</tr>
<tr>
<td>3 &amp; 4 Junior and Senior</td>
<td>$7,500 - No more than $5,500 of this amount can be subsidized loan</td>
<td>$12,500 - No more than $5,500 of this amount can be subsidized loan</td>
<td></td>
</tr>
</tbody>
</table>

Maximum Total Debt from Stafford Loans aggregate loan limits

| $31,000 | $57,500 | $138,500 |
| - No more than $23,000 of this amount may be in subsidized loans. | - No more than $23,000 of this amount may be in subsidized loans. | - No more than $65,500 of this amount may be in subsidized loans. |

Undergraduate Certificate Programs - Loan limits are based on the length of the program. For certificates that are less than an academic year, the $9,500 limit would be prorated by the lesser fraction of the weeks or credits in the program, divided by the University academic year definition of weeks or credits. For students in undergraduate certificate programs that are greater than an academic year, the maximum amount borrowed is $9,500 per academic year. Final academic years less than 24 credits (graduating students in undergraduate degree or certificate programs that are greater than an academic year) - Loan limits will be prorated based on the number of credits in the final academic year divided by 24. Please note students may also receive less funding if they receive other financial aid used to cover a portion of cost of attendance.

A student whose parent cannot obtain a Parent Loan for Undergraduate Student (PLUS) loan is allowed to borrow additional unsubsidized federal Direct Stafford amounts. Student dependency status will be determined based on answers to questions on the FAFSA®.

Education Loan Interest Rates

Direct Subsidized Loans:

Undergraduate students-If the first disbursement of your subsidized loan is between July 1, 2012 and June 30, 2013, the interest rate on your loan is fixed at 3.4%.

Graduate and professional degree students-As of July 1, 2012, subsidized loans are no longer available to graduate and professional degree students.

Graduate and professional degree students can borrow a Direct PLUS Loan to help cover education expenses. The terms and conditions applicable to PLUS Loans for parents also apply to PLUS Loans for graduate and professional students. These terms and conditions include: a determination that you (the applicant) do not have an adverse credit history; and a fixed interest rate of 7.9% for Direct PLUS Loans.

Direct Unsubsidized Loans:

The interest rate is fixed at 6.8% for all borrowers (undergraduate and graduate).

Prior Federal Loans and Financial Aid History-If you currently have a Stafford Loan and would like to check the interest rate, servicer information, and other financial aid history, go to the National Student Loan Data System (http://www.nslds.ed.gov/).
Interest rate cap for military members-If you qualify under the Service Members Civil Relief Act, the interest rate on loans you obtained before entering military service may be capped at 6% during your military service. You must contact your loan servicer to request this benefit.

In addition, no interest charged (for a period of no more than 60 months) on Direct Loans first disbursed on or after October 1, 2008, while a borrower is serving on active duty or performing qualifying National Guard duty during a war or other military operation or other emergency, and serving in an area of hostilities qualifying for special pay.

Loan Fee
There is a loan fee on all Direct Subsidized and Unsubsidized Loans. The loan fee is a percentage of the amount of each loan you receive. For loans first disbursed on or after July 1, 2010, the loan origination fee is 1.0%. The specific loan origination fee that you are charged will be reflected in a disclosure statement.

For more information on Direct Stafford, go to Student Aid on the Web at http://studentaid.ed.gov/types/loans/interest-rates.

Borrower’s Rights and Responsibilities

Students receiving federal financial aid have varying rights and responsibilities in accordance with the Borrower’s Rights and Responsibilities Statement, http://www.direct.ed.gov/pubs/dlrights.pdf, attached to the Master Promissory Note (MPN).

Student Rights
• Written information on loan obligations and information on rights and responsibilities as a borrower
• A copy of the MPN, either before or at the time loan is disbursed
• A grace period and an explanation of what this means
• Notification, if in grace period or repayment, no later than 45 days after a lender assigns, sells or transfers the loan to another lender
• A disclosure statement, received before repayment begins, that includes information about interest rates, fees, the balance owed and a loan repayment schedule
• Deferment or forbearance of repayment for certain defined periods, if qualified and requested
• Prepayment of loan in whole or in part anytime without an early repayment penalty
• Documentation that loan is paid in full

Student Responsibilities:
• Completing exit counseling before leaving school and repaying loan according to repayment schedule even if not completed academic program, dissatisfied with the education received, or unable to find employment after graduation.
• Notifying lender or loan servicer if student: 1) Moves or changes address; 2) Changes telephone number; 3) Changes name; 4) Changes SSN; 5) Changes employers, or employer’s address and/or telephone number changes
• Making monthly payments on loan after grace period ends, unless a deferment or forbearance
• Notifying lender or loan servicer of anything that might later change eligibility for an existing deferment or forbearance

Prior Loan Deferments (Postponing Payments)
A student, who is registered and attending classes at the University, may have federal financial aid loans from previous colleges deferred. Deferment forms can be obtained from the lender if the loan is from another school. Return all deferment forms to a finance advisor, who forwards the forms to the Office of Student Records for processing to the holder of the loan. The loan holder makes the final determination to grant a deferment request.

Students receiving federal financial aid funds may also obtain deferments while serving in the Peace Corps; under the Domestic Volunteer Service Act; and as a volunteer for a tax-exempt organization of demonstrated effectiveness in the field on community service.

Receiving a deferment is not automatic; therefore, the student or parent(s) must apply for it. Borrowers must formally request a deferment through the procedures established by the holder of their loan(s). Detailed information regarding deferments may be viewed at http://studentaid.ed.gov/repay-loans/deferment-forbearance or http://www2.ed.gov/offices/OSFAP/DirectLoan/postpone.html

Loan Consolidation
A consolidation loan may help make payments more manageable by combining several federal student loans into one loan with one monthly payment.

A student will need to apply for a loan consolidation and choose a repayment plan. Repayment plans include the following: standard, extended, graduated, income-contingent for Direct loans, income-sensitive for Federal Family Education loans (FFEL), or an income-based.

Public Service Loan Forgiveness
The Direct Loan Public Service Loan Forgiveness (PSLF) Program was established by Congress with the passage of the College Cost Reduction and Access Act of 2007, and was created to encourage individuals to enter lower-paying but vitally important public sector jobs such as military service, law enforcement, public education and public health professions.

Loan Payment Calculator
Loan Payment Calculators may be used by students or potential students to calculate monthly payments under the standard and extended repayment plans, at http://finaid.org/calculators/loan-payments.phtml or http://www2.ed.gov/offices/OSFAP/DirectLoan/calc.html.

Federal Financial Aid Loan Counseling

Entrance Counseling
The University ensures loan entrance counseling is conducted online at the U.S. Department of Education website https://studentloans.gov/myDirectLoan/index.action before a borrower takes out a loan. Entrance counseling generally includes the following:
• An explanation of the use of a master promissory note (MPN)
• Importance of repayment obligation
• Description of consequences of default
• Sample repayment schedules
University of Phoenix, 2012

- Information in reference to a borrower’s rights and responsibilities
- Provide information on the National Student Loan Data System (NSLDS), http://www.nslds.ed.gov/nslds_SA/
- Other terms and conditions

Exit Counseling
The University ensures loan exit counseling is conducted online at the U.S. Department of Education National Student Loan Database (NSLDS) website http://www.nslds.ed.gov/nslds_SA/ within 30 days of completion of a program or withdrawal from the University. Exit counseling generally includes the following:
- An explanation of the use of a master promissory note (MPN)
- Importance of repayment obligation
- Description of consequences of default
- Sample repayment schedules
- Information in reference to a borrower’s rights and responsibilities
- Provide information on the National Student Loan Data System (NSLDS), http://www.nslds.ed.gov/nslds_SA/
- Other terms and conditions

Perkins Loan Counseling
The University ensures Perkins loan counseling is conducted online at the Mapping Your Future website http://mappingyourfuture.org/oscle/. Perkins loan counseling generally includes the following:
- Importance of repayment obligation
- Explanation of repayment terms
- Description of consequences of default
- Sample repayment schedules
- Information in reference to a borrower’s rights and responsibilities
- Other terms and conditions

Teacher Education Assistance for College and Higher Education Grant Counseling
The University ensures initial and subsequent Teacher Education Assistance College of Higher Education (TEACH) Grant counseling is conducted online at the TEACH Grant website, https://teach-ats.ed.gov/ats/index.action. Grant counseling generally includes the following:
- TEACH Grant Program and service obligations
- Information in reference to a borrower’s rights and responsibilities
- Other terms and conditions

Student Loan Code of Conduct
The University protects students with established loan policies. University of Phoenix follows federal regulations that govern student loan requirements.

The Student Loan Code of Conduct (http://cdn.assets-Phoenix.net/content/dam/altcloud/doc/tuition/Student-Loan-Code-of-Conduct.pdf) creates and maintains uniform student loan practices that focus on the best interest of the student borrowers. It also manages relationships between school employees, learning institutions, lender advisory board members and student loan organizations.

University of Phoenix encourages students to review the Student Loan Code of Conduct at http://www.phoenix.edu/tuition_and_financial_options/student_loan_code_of_conduct.html to learn about loan regulations.

Students should contact the University by email at PLL@phoenix.edu with any questions about the information in this document.

Statement of Educational Purpose
The parent or student signing a Free Application for Federal Student Aid (FAFSA®) certifies the following: (1) will use federal and/or state student financial aid only to pay the cost of attending an institution of higher education, (2) is not in default on a federal student loan or have made satisfactory arrangements to repay it, (3) do not owe money back on a federal student grant or have made satisfactory arrangements to repay it, (4) will notify your college if you default on a federal student loan and (5) will not receive a Federal Pell Grant from more than one college for the same period of time.

The parent or student, signing the Free Application for Federal Student Aid (FAFSA®) agrees, if asked, to provide information that will verify the accuracy of your completed form. This information may include federal or state income tax forms that you filed or are required to file. In addition, you certify that you understand that the Secretary of Education has the authority to verify information reported on this application with the Internal Revenue Service and other federal agencies. If you sign any document related to the federal student aid programs electronically using a Personal Identification Number (PIN), you certify that you are the person identified by the PIN and have not disclosed that PIN to anyone else. If you purposely give false or misleading information, you may be fined up to $20,000, sent to prison or both.

Referrals to the Office of Inspector General
University of Phoenix is required by law to make referrals to the Office of Inspector General of any cases of suspected fraud and abuse involving the federal financial aid programs.

State Grants
The actual amount of state grants awarded to any student is contingent on the availability of funds. The University cannot guarantee any funding from the state grant sources listed, as the list is subject to change without notice based upon changes in state budgetary constraints, state law or regulation and/or University participation. Where a work or other requirement is included in order to preclude the conversion of a scholarship or grant to a loan, the University makes no representation or warranty as to whether a graduate will be able to obtain such employment or fulfill such other requirement.

For information regarding the grants offered by the University; how to apply, eligibility, deadlines, etc., see list of programs and their respective websites and phone numbers at http://www.phoenix.edu/about_us/regulatory/consumer-information.html.

For additional specific eligibility information, the institution may contact you directly when determining grant eligibility.
Institutional Grants
University of Phoenix is committed to providing financial assistance opportunities through institutional grant programs for potential and current students. For more information visit http://www.phoenix.edu/about_us/regulatory/consumer-information/institutional-grants.html

Thinking Ahead Grant
The Thinking Ahead Grant is for new students enrolled in a bachelor's degree program. The grant award is a credit to student's University account to pay applicable tuition and electronic course materials fees not covered by federal and state financial aid. The uncovered amount must be between $200 and $1,500 per award year. Students must have an expected family contribution (EFC) of $12,500 and must maintain continuous enrollment. Eligibility is reviewed and determined after federal financial aid is processed. Grant terms and conditions are as follows:
• The grant is awarded in up to two disbursements per academic year.
• The grant cannot be applied to failed or withdrawn courses.
• The grant is calculated using maximum federal financial aid eligibility, regardless of amount borrowed.
• You are responsible for any remaining direct costs after student financial aid and grant amounts are applied.
• The grant is applied directly to your student account as a credit. No check or other cash monies will be given or refunded to you at any time.

Institutional Scholarships
The Center for Scholarship Excellence (CSE) is a department of University of Phoenix. The CSE is committed to assisting with financial support through institutional and external scholarship programs. The CSE encourages students to borrow responsibly as they work towards their educational goals.

University of Phoenix has a comprehensive scholarship website at http://www.phoenix.edu/tuition_and_financial_options/scholarships.html to meet the needs of students. This website features scholarships offered by University of Phoenix, scholarship resources, tips, suggestions, articles, an external scholarship search engine and much more.

University of Phoenix funds institutional scholarships http://www.phoenix.edu/tuition_and_financial_options/scholarships/institutional-scholarships.html. The CSE creates and manages them. The University often partners with nonprofit organizations to promote scholarship programs. These scholarships are available to potential students, current students or alumni.

The CSE website, http://www.phoenix.edu/tuition_and_financial_options/scholarships/institutional-scholarships.html, is updated regularly for institutional scholarships, qualifications, and selection criteria specific to University of Phoenix current and potential students as opportunities become available.

External Scholarships
Private outside entities fund external scholarships http://www.phoenix.edu/tuition_and_financial_options/scholarships/external-scholarships.html. Many are available to University of Phoenix students and the general population. Depending on the external scholarship requirements, student eligibility may be need-based, merit-based or credit-based. The Center for Scholarship Excellence (CSE) evaluates external scholarship programs, determines applicability to the University student populations, and communicates these opportunities to students and campuses.

Private Student Loans
Private student loans may be available to both students and parents who are not eligible for federal financial aid or who need assistance beyond their financial aid eligibility. These loans are made privately through lenders and other financial institutions and are subject to a credit review and individual lender terms and conditions. Eligibility is determined by the lender and amounts are limited to the cost of education minus other aid. These loans are not subsidized or guaranteed by the federal government. The University recommends private loans only be considered after applying for federal financial aid.

To assist with finding the right lender for a private loan, visit the Student Lending Analytics website, http://www.studentlendinganalytics.com/alternative_loan_options.html. Student Lending Analytics has developed a list of private loan options to serve schools and their students who need a focused resource for help in finding a private student loan. A student may choose any eligible lender; the University will process the request accordingly. Contact the lender for specific terms and conditions.

Application Process
The following documentation is required:
• MyApply® application process at https://myapply.phoenix.edu/Apply/Login.aspx
• Student Financial Agreement Form
• Authorization to Apply to Future Charges form if, and only if, a student chooses this option

Admissions and program requirements vary by state. Please refer to the Academic Catalog (http://www.phoenix.edu/programs/degree-programs/academic-catalog.html) for state and/or program specific information.

Federal Financial Aid Application Process
A student can apply for federal financial aid (http://www.phoenix.edu/tuition_and_financial_options/apply_online.html) after submitting an application for admission to the local campus or via MyApply® and registering for courses in an eligible degree program. During the application process, the following forms may be completed for federal financial aid grants and loans:
• Current award year Free Application for Federal Student Aid (FAFSA®)
• University of Phoenix Financial Aid Application
• Federal Stafford Direct Loan Master Promissory Note (MPN)
• Entrance Counseling

Addendum
The average processing time for financial aid awards is 90 days. The University highly recommends using the online financial aid application process at https://faw.phoenix.edu/. This access allows a student to complete and electronically sign required financial aid documents, including the FAFSA® and MPN. Students interested in utilizing financial aid programs should complete all required application materials each academic year. An academic year is defined as the period of time a student successfully completes a minimum of 24 credit hours and 30 weeks of instructional time. A student should reapply for financial aid prior to the start of each new academic year.

Financial Aid Reapplication Process
The University notifies students when new award year paperwork is required, provided the student is considered enrolled. Returning students may be proactive and submit completed paperwork.

Verification
A federal financial aid student may be chosen to participate in the verification process by the U.S. Department of Education Central Processing System. The Central Processing System prints an asterisk next to the expected family contribution (EFC) on the Institutional Student Information Report (ISIR), Student Aid Report (SAR), or SAR Acknowledgement to identify the student has been selected for verification.

The purpose of verification is to maintain the integrity of federal financial aid programs by verifying the information provided by students and parents on financial aid applications. Federal regulations require verification be completed. Verification is not required to be completed in cases where the student is awarded only non-need-based aid such as unsubsidized Stafford Direct loans and PLUS loans.

If a student is selected for verification, the University will request the student to provide all applicable IRS issued federal tax return transcript(s) and the verification worksheet. Additional documents may be required by the University to complete the verification process. A student will receive written notification from the University of verification requirements and the timelines for completion of the process.

Failure to comply with request for verification documents can result in the inactivation of the federal financial aid application.

Professional Judgment
The University may exercise discretion to accommodate special circumstances, with respect to some aspects of eligibility, using Professional Judgment. Professional judgment allows the University to treat a student individually when the student has special circumstances not sufficiently addressed by standard procedures. The University uses professional judgment on a case-by-case basis. Special circumstances will include conditions that differentiate an individual student from a whole class of students. The University will not accept professional judgments made for a student by another school, but will independently review the circumstances and, if appropriate, document the professional judgment decision.

The decision of the University regarding professional judgment is final and cannot be appealed to the U.S. Department of Education. A student should contact a finance advisor if interested in submitting a professional judgment request.

Note: The University will complete Verification before exercising professional judgment for students who have been selected for Verification.

Satisfactory Academic Progress

Satisfactory Academic Progress (SAP) for Federal Financial Aid
Financial aid satisfactory academic progress (SAP) is based on federal regulations and is intended to provide early intervention for students facing academic challenges and help students successfully complete their program of study.

<table>
<thead>
<tr>
<th>Grade Point Average (GPA)</th>
<th>A cumulative program GPA is calculated using only grades earned at the University for the student’s primary program of study.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pace of Completion (Pace)</td>
<td>Students must earn at least 67 percent of the credit hours attempted toward completion of the primary program of study. Credit hours taken at other institutions and accepted toward students’ primary program of study at the University are included in both attempted and completed credit hours when measuring pace of completion. The pace of completion is calculated using the following formula:</td>
</tr>
<tr>
<td>Maximum Time Frame</td>
<td>The maximum timeframe to complete the program cannot exceed 150 percent of the published length of a program, measured in credit hours attempted, for undergraduate and graduate students. Progress is evaluated cumulatively for students’ primary program of study, at the end of each completed payment period.</td>
</tr>
</tbody>
</table>

Evaluation
The University evaluates SAP for the student’s primary program of study, based on a completed payment period (generally, at least 12 credit hours and 15 weeks of instruction). As a result of the evaluation, a student is assigned a SAP status.

Regular (RG) | Students meeting all three of the financial aid SAP components defined above have regular (RG) financial aid status and are eligible for federal financial aid. |
Financial Aid Warning (FW) | Students who are on a regular (RG) status and, at the end of the next payment period, do not meet all three of the financial aid SAP components defined above, are automatically placed on financial aid warning (FW) status. The University will disburse federal financial aid funds to students with an FW status for one payment period. |

Addendum
### Federal Satisfactory Academic Progress Appeals

Students placed on financial aid disqualification (FD) status may appeal the disqualification to regain eligibility for federal financial aid, if there are extenuating circumstances. Through the financial aid SAP appeal process, federal financial aid reinstatement may be possible if the appeal is approved and the student is placed on financial aid probation (FP) status.

<table>
<thead>
<tr>
<th>Status</th>
<th>What to do</th>
</tr>
</thead>
</table>
| Financial Aid Disqualification (FD) | **It is highly recommended students contact their finance advisor prior to submitting an appeal. The finance advisor will be able to answer questions and provide specific time-frames for SAP appeals**
|                               | Submit an appeal packet, along with supporting documentation directly to the Professional Judgment fax line at 877.290.8683. The packet must include:  |
|                               | • Professional Judgment SAP appeal template, hand signed and dated. (The SAP appeal template can be found at http://www.faw/phoenix.edu/ or by contacting your finance advisor.)  |
|                               | • A detailed explanation and timeline corresponding to courses in which SAP standards were not met and how the situation has been resolved.  |
|                               | • Supporting documents for all issues mentioned in statement.  |
|                               | • Provide a statement explaining, in detail, the steps that will be taken and resources that will be used to ensure remaining courses are successfully completed.  |
|                               | Approval and/or reinstatement of financial aid eligibility is not guaranteed.  |

The Professional Judgment Team reviews all appeals on a case-by-case basis. Approval is only granted when there are significant extenuating circumstances. All decisions made by the Professional Judgment Team are final.

The University allows students to have a maximum of two approved appeals during enrollment at the University. The appeals cannot be consecutive and will only be considered if extenuating circumstances exist. Some examples of extenuating circumstances are death of a relative, an injury or illness of the student, or other special circumstances.

Students granted an appeal will be placed on financial aid probation (FP) status and have financial aid eligibility reinstated for one probationary payment period, based on that appeal. The University will disburse federal financial aid funds to students on financial aid probation (FP) status for one payment period, provided all other eligibility requirements are met. The student must meet University financial aid SAP standards to maintain federal financial aid eligibility.

---

**Addendum**

### Reestablishing Federal Satisfactory Academic Progress

Students on a financial aid warning (FW) status can retain eligibility without filing an appeal by meeting all three of the financial aid SAP components defined above by the end of the FW payment period.

Students who reach a financial aid disqualification (FD) status can change their status only through the financial aid SAP appeal process. Students may not regain eligibility for federal financial aid by merely paying for courses or sitting out for an increment.

**The University will notify students when their financial aid status changes.**

### Financial Aid Disqualification (FD)

Students on financial aid warning (FW) status who do not meet all three of the financial aid SAP components (defined above) at the end of the next completed payment period, are not eligible for additional federal financial aid and will be placed on financial aid disqualification (FD) status.

Students who reach a financial aid disqualification (FD) status are **not eligible for federal financial aid** but may be eligible to appeal this status for consideration of significant extenuating circumstances.

### Financial Aid Probation (FP)

Students who successfully appeal an FD status are placed on financial aid probation (FP) status.

The University will disburse federal financial aid funds to students with an FP status for one probationary payment period, provided all other eligibility requirements are met.

**Addendum**
Cost of Attendance Policy

A student’s cost of attendance (COA) is established solely for use in calculating federal financial aid eligibility and awarding financial aid, for a specific period of enrollment. The University reviews and, if necessary, updates each component annually, referencing the College Board website at http://professionals.college-board.com/higher-ed, the National Retail Federation Survey, and actual institutional data. The University uses estimated monthly living expenses, and an average cost of tuition, electronic course materials, and books*. Amounts used in this year’s federal cost of attendance (COA) are as follows:

For more detailed information regarding actual tuition fees for programs and locations visit http://www.phoenix.edu/tuition_and_financial_options/tuition_and_fees.html or contact a finance advisor.

The academic year cost of attendance is based on the following:
• Nine months for Associate degree-seeking students
• Ten months for Bachelor’s degree-seeking students
• Twelve months for Graduate students
• Twelve months for Doctorate students

If a student's period of enrollment is less than a full academic year, the COA will be adjusted to match the number of months in the remaining period of enrollment. The COA will not increase due to the student failing or withdrawing from one or more courses in the academic year.

The University COA is comprised of the following components:

<table>
<thead>
<tr>
<th>Component</th>
<th>Ground Campuses</th>
<th>Online Campuses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade Level</td>
<td>Undergrad</td>
<td>Undergrad</td>
</tr>
<tr>
<td>Tuition</td>
<td>$ 9,120</td>
<td>$ 10,992</td>
</tr>
<tr>
<td>Electronic Course Materials &amp; Books</td>
<td>$ 720</td>
<td>$ 760</td>
</tr>
<tr>
<td>Living Expenses*</td>
<td>$ 9,865</td>
<td>$ 13,192</td>
</tr>
<tr>
<td>Academic Year COA</td>
<td>$ 19,705</td>
<td>$ 24,944</td>
</tr>
</tbody>
</table>

* Other expenses include allowances for room and board, transportation, loan fees and miscellaneous educational expenses.

Tuition

Average tuition rates are updated annually for all online and local campuses. The tuition expense used for the COA is an average based on modality and degree level. The University documents how averages are calculated and makes this information available upon request. If a student's period of enrollment is less than a full academic year, the tuition will be adjusted to match the number of months in the remaining period of enrollment.

Electronic Course Materials and Books

The University charges a flat fee for each enrolled course.

Living Expense
• Room and board allowance
• Transportation (excluding Online students)
• Loan Fees
• Miscellaneous expenses

The monthly living expense component is based on the lower living expense amount published annually by the College Board (http://professionals.collegeboard.com/higher-ed); and used for students of all regions and states. The University calculates an average loan fee by performing separate calculations for undergraduate and graduate students. The monthly living expense is then multiplied by the number of months in the academic year/loan period. Students receiving military housing assistance will have a reduction in the living expenses based on the amount of the assistance. If a student's period of enrollment is less than a full academic year, the living expense component will be adjusted to match the number of months in the remaining period of enrollment.

Tribal Budget

The University prepares a separate tribal budget for students who receive tribal funding. The tribal budget consists of actual tuition rates and may include a child or dependent care average obtained from the National Association of Childcare Resource & Referral Agency (NACCRRA). The University averages the weekly and hourly cost of each childcare type for each state.

Leave of Absence

Leave of Absence for Federal Financial Aid

A leave of absence (LOA) is a temporary interruption in a student's program of study, whether necessitated by a planned or an unanticipated event or circumstance. An approved LOA is not required if a student is not in attendance only for a scheduled institutional break. However, a scheduled break may occur during an approved LOA.
An LOA must meet certain conditions to be approved. An LOA may be approved if the University determines that the LOA Request meets all requirements and conditions of the University policy and federal regulations (34 CFR 668.22(d)), including that there exists a reasonable expectation the student will return to the University at the end of the LOA period. Students must follow this LOA Policy when requesting the LOA. If an LOA does not meet the requirements and conditions of University policy and applicable federal regulations, the student may be withdrawn from the University in accordance with the University Withdrawal Policy. Upon withdrawal, the University is required to perform a Return of Title IV (R2T4) Calculation.

Generally, the student must submit an LOA request and any supporting documentation on or before the start of the LOA. However, if unforeseen circumstances prevent the student from providing a prior written request for the LOA, the University may grant the LOA request, if appropriate.

**Required Documentation**

**Leave of Absence Request Form**
- Provide to the campus finance advisor a completed, signed, and dated LOA Request Form on or before the start of the requested LOA. The LOA Request Form is available for download from the Financial Aid Website (FAW) at, https://faw.phoenix.edu/

**Written Request**
- Provide to the campus finance advisor a written, signed, and dated request, on or before the start of the requested LOA, including the reason for the LOA.

**Unofficial Withdrawal**
- If a student is out of attendance due to an unforeseen circumstance and considered an unofficial withdrawal and the campus can document the reason and decision for the LOA prior to the return calculation being performed, the student will be placed on an approved LOA. However, if the student is an unofficial withdrawal and the campus does not document the reason prior the calculation being performed, the student will be considered an unofficial withdrawal.

**LOA Components**

**Length**
- Length of an LOA is the number of days between the LOA start date and the LOA reentry date. The first day of the initial LOA is used when determining the start date for the 12-month period. If a student is granted an LOA due to unforeseen circumstances, the beginning date of the approved LOA is the first date the student was unable to attend class because of the unforeseen circumstance.

**Failure to Return**

A student who is granted an approved LOA remains in an in-school status for federal financial aid repayment purposes. However, if a student on an approved LOA fails to return, the University must report the student’s change in enrollment status to loan holders as of the withdrawal date.

A possible consequence of not returning from an LOA is that the grace period for a federal financial aid loan program might be exhausted in whole or in part. Therefore, before the University will grant an LOA for a student who is receiving federal financial aid, the student must acknowledge possible consequences for failure to return at the end of an LOA, including the possible exhaustion of all or part of the student's grace period.

**Financial Aid Awarding**

For students who have a completed all required financial aid application materials, the University will evaluate student eligibility for federal, state, and institutional aid programs.

If a student is eligible, Student Financial Services - Operations calculates an estimated financial aid award and provides notification to the student. The notification includes eligibility information for each financial aid program awarded, as well as the amount and anticipated disbursement dates. This notification may be electronic. Generally, financial aid awards are divided into two payment periods; 12 credits each. Payment periods are based on individual course schedules and follow academic year requirements.

Federal Pell Grant eligibility for an undergraduate student is estimated before originating a subsidized or unsubsidized Direct Loan. In addition, an unsubsidized Direct Loan is not originated without first determining the need for a subsidized Direct Loan. However, if the amount of the subsidized Direct Loan is $200 or less and the amount can be included as part of an unsubsidized Direct Loan, the University is not required to originate a separate subsidized loan.
For a dependent student, the University may originate and disburse Parent PLUS funds without determining federal Pell Grant and subsidized Direct Loan eligibility. For a graduate student, the University must determine graduate/professional maximum unsubsidized Direct Loan eligibility before originating a Grad PLUS loan.

Federal Supplemental Educational Opportunity Grant (FSEOG) eligibility for undergraduate students is determined by the expected family contribution (EFC) for the current award year. Awards are made beginning with the lowest EFC until program funds are obligated.

Federal Perkins loan eligibility for undergraduate and graduate students is determined by the expected family contribution (EFC) for the current award year. Awards are made beginning with the lowest EFC until program funds are obligated.

State grant program eligibility is determined by each state authority. The University is notified of student eligibility by the state authority.

Institutional grant and scholarship eligibility determination will vary.

**Schedule Requirements**

An academic year is defined as a minimum of 24 credits and 30 weeks of instructional time. The academic year begins with the first eligible course of a degree program and ends when a student successfully completes the credits and weeks of instructional time requirements. An academic year has no calendar time constraints and continues through periods of nonattendance that are less than 180 days until both the credit and weeks requirement are met. A week of instructional time includes at least one academic related activity for federal financial aid.

Students who overlap courses more than twice within an academic year, or Associate degree students who take more than two courses concurrently, may need to complete more than 24 credits to complete 30 weeks of instructional time. In addition, the academic policy of the University prohibits a student from taking more than two courses concurrently without written approval from the campus Director of Academic Affairs. Due to overlapping courses, there will be more credit hours included in the academic year and federal financial aid may not completely cover the cost of attendance and related charges.

Federal regulations prohibit payment for auditing a course or payment for any course an assigned grade is not used in computing requirements for graduation. This includes repeats of grades D or better, unless a higher grade is required, withdrawals and courses that are not applicable to the declared degree objective. This does not apply to repeats of required courses that a student has failed.

**Financial Aid Disbursements**

</tbody>
</table>
Federal Financial Aid funds may only be used to pay for costs the student incurs for the period for which the federal financial aid funds are provided. However, the University may use current-year federal financial aid funds to satisfy prior award year allowable charges for a total of not more than $200.

**Application of Funds**

Federal financial aid and/or state assistance funds are retained at the time of disbursement to pay allowable academic year or payment period charges owed to the University. Allowable charges are defined as tuition (including Independent Study and state sales tax) and electronic course material.

Federal Financial Aid funds may only be used to pay for costs the student incurs for the period for which the federal financial aid funds are provided. However, the University may use current-year federal financial aid funds to satisfy prior award year allowable charges for a total of not more than $200.

**Authorization to Apply Federal Financial Aid Funds**

If a student authorized the University through completion of the Authorization to Apply to Future Charges form, the University also retains federal financial aid funds for unpaid estimated future charges owed to the University for the payment period. Future charges are defined as allowable charges that have not been posted to the student account.

The University will not require or coerce the authorization. If the student or parent chooses to cancel or modify the authorization, the cancellation or modification is not retroactive. Funds retained for incurred allowable charges and prior year charges prior to the University receiving the authorized cancellation will remain on account. If cancellation or modifications have been requested, subsequent disbursements will be processed according to most recent authorization.

In addition, any excess funds formerly authorized to be retained by the University for estimated future charges will be sent to the student or parent borrower 14 days after the University receives the cancellation or modification.

There are three options to notify the University regarding Authorization to Apply to Future Charges form:

1. Initial notification
   - The student is prompted to answer authorization to apply funds questions when completing the financial aid application process on the Financial Aid Website.
   - When a student signs and submits the Authorization to Apply to Future Charges form, they no longer have access to make corrections.
2. Update/Change Authorization to Apply to Future Charges
   • If student or parent wants to update or change the original
     authorization to apply funds, they may submit an updated
     Authorization to Apply to Future Charges form at any time.
     This form is available for print from the Financial Aid website.
   • Student or parent completes and faxes form to finance advisor
     for processing.
   • When an update is submitted, it is only in effect for future
     disbursements and the authorizations are not retroactive.
3. Signed statement
   • The University will accept a signed statement from a student or
     parent outlining any changes to the Authorization to Apply to
     Future Charges form at any time.
   • Student Financial Services - Operations (SFS-O) processes the
     request accordingly:
     • When an update is submitted, it is only in effect for future
       disbursements and authorizations are not retroactive.
   Notwithstanding any authorizations obtained from the student or
   parent, the University must pay any remaining federal financial
   aid funds to the student (or in the case of a PLUS loan, the parent
   or student if authorized by the parent) on or before the end of the
   academic year or loan period as appropriate.

Disbursement for Books and Supplies
Pell eligible students may use Pell funds to purchase books if those
funds could have been disbursed 10 days prior to the beginning of
the payment period and disbursed funds would create a federal
financial aid credit balance. The student will be provided with the
lesser of the presumed credit balance or amount needed for the
books as determined by the University by the 7th day of the pay-
ment period. This will be provided to the student in the form of a
book voucher.
The credit balance will be provided as a book voucher. Students
receiving funds through this method do not need to provide writ-
ten authorization and may opt out of receiving a book voucher. If a
student opts out of receiving the voucher, the credit balance will be
sent to them approximately two weeks after all federal financial
aid funds have been disbursed.

Cancellation of Federal Financial Aid
The student (or parent in the case of a Parent PLUS loan) must
inform the University if all or a portion of federal financial aid
funds are to be canceled. The student or parent must submit a
signed and dated statement or complete a Financial Aid Change
form, located on the financial aid website (FAW) at https://
faw.phoenix.edu/.
The University may return the loan funds, cancel the loan, or both,
provided the cancellation request is received within the required
timeframes. If the University receives a student or parent request
for cancellation after these dates, the University may, but is not
required to, honor the request. Regardless of when the request is
received, the University informs the student or parent in writing of
the outcome of the request.
When processing a loan cancellation request, the University must
return the funds (if received) and/or cancel the loan, or both as
appropriate. The University is not responsible for returning any
portion of a loan that was disbursed to a student or parent directly
before the request for cancellation was received.

State
A payment period is defined according to individual state require-
ments. The payment period determines when funds are disbursed
and the exact amount to be disbursed.

Attendance

Class Attendance
Attendance at class meetings is required. Students are responsible
for scheduling and planning ahead for any absences that may
occur during a course to the extent possible.

Online
In order to be in attendance during a week, a student must post at
least one message to any of the course forums on two separate
days during the online week. Deadlines for attendance are based
on Mountain Standard Time (MST). Attendance is tracked auto-
matically in all online courses.
In classes at the Online campus, a class ”session” is defined as 12
am (MST) Tuesday to 11:59 pm (MST) the following Monday. If a
student posts a message to a class newsgroup on any two days
during that week, the student is in attendance for that class session.
In Associate degree courses at the Online Campus, a class ”session”
is defined as 12 am (MST) Monday to 11:59 pm (MST) the follow-
ing Sunday. If a student posts a message to a class newsgroup on
any two days during that week, the student is in attendance for
that class session.

Local Campus: Most local campus classes meet four (4) hours per
week. Students are in attendance at the local campus workshops if
they physically attend the local campus workshop meeting at any
time during the scheduled class and sign the attendance roster.
Attendance at the scheduled campus class meetings is mandatory.

Directed Study: Attendance in Directed Study courses is tracked
in the same manner for both the local campus and online modal-
ties. A Directed Study student receives automatic attendance for a
class week if she or he posts one (1) message to any of the course
forums during the scheduled class week. Deadlines for attendance
are based on Mountain Standard Time.

FlexNet®: FlexNet® students are in attendance at the local campus
workshops if they physically attend the local campus workshop
meeting during the scheduled class hours and sign the attendance
roster. They are in attendance during online class weeks if they
post to any of the class forums on two separate days based on
Mountain Standard Time within the online class week. Attendance
for the online weeks of a FlexNet® course is tracked automatically.

School of Advanced Studies: In order to be in attendance during a
week, a student/learner must post at least one (1) message to any
of the course forums on two separate days during the online week.
Deadlines for attendance are based on Mountain Standard Time.
Dissertation courses (i.e. DOC 722, DOC 733, etc) only require one
post per week in any of the course forums to remain in attendance.
Messages posted in all class forums should contribute to a stu-
dent’s academic experience and count as Academic Related Activ-
ity. Residency courses require daily sign-in to confirm attendance.
Posting to the residency forum is not required for attendance. Dur-
ing residency courses, physical attendance, submitting assign-
ments via the Assignments link and acknowledging participation
in the completion of the Learning Team deliverable all count as
Academic Related Activities.
Attendance is mandatory in all University courses; however, circumstances do occasionally arise which prevent a student from attending class. The University’s unexcused absence policy allows unexcused absence(s) to be granted based on the number of workshops within a course (refer to the chart below). An unexcused absence may affect the final course grade due to the missed opportunity to earn participation points.

Unexcused absences will result in an automatic withdrawal (W) grade if students miss more than the maximum allowed absences. Refer to the chart below:

<table>
<thead>
<tr>
<th># of workshops</th>
<th>Allowed Absences</th>
<th>Absences resulting in withdrawal (W) grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-4</td>
<td>0</td>
<td>1</td>
</tr>
<tr>
<td>5-9</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>Associate</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>10-50+</td>
<td>2</td>
<td>3</td>
</tr>
</tbody>
</table>

Faculty requests for a withdrawal/failing (WF) grade will be approved for extenuating circumstances only and will be administered by the Registrar's Office. Requests should be submitted to the Registrar's Office by sending the approved Official Grade/Attendance Change Form.

**Academically Related Activities**

To maintain continuous attendance and financial aid eligibility, the following activities that occur on or after the course start date and on or before the course end date will be considered academic related activities. Academic related activities (ARAs) determine a student's enrollment status with the University. Students can maintain continuous enrollment by ensuring no more than 14 days elapse between posting attendance at an academic related activity.

**For Online/Directed Study Students:**
- All OLS Postings in a course (includes discussions, assignments, and quizzes, learning team activities)

**For Local Campus Students:**
- Physical Attendance; verified by a signed attendance roster
- Assignments posted via the assignment link
- Learning Team Acknowledgements via assignment link

**For Local Campus students in FlexNet® Courses:**
- Online Learning System (OLS) posts occurring during Online workshop week will be counted as an academic related activity

**School of Advanced Study Students:**
- Messages posted in all class forums, physical attendance, submitted assignments via the Assignments link, and acknowledgment of participation in the completion of the Learning Team deliverable all count as academic related activities.

Note: A student must be considered enrolled and attending the University to maintain financial aid eligibility.

**Financial Options and Policies**

**Finance Options**

**Cash Plan**

The Cash Plan requires all tuition and electronic course materials fees to be paid in full prior to the start of each course. For more information, please visit [http://www.phoenix.edu/tuition_and_financial_options/cash_plan.html](http://www.phoenix.edu/tuition_and_financial_options/cash_plan.html)

**Federal Financial Aid Plan**

The Federal Financial Aid Plan is available to students receiving federal grants, federal loans or both to pay for tuition in an eligible degree or a certificate program. To learn more, please visit [http://www.phoenix.edu/tuition_and_financial_options/federal_financial_aid.html](http://www.phoenix.edu/tuition_and_financial_options/federal_financial_aid.html)

**Military or Government Billing Plan**

Under the Military or Government Billing Plan, University of Phoenix directly bills the military or other government agency for a student's tuition. For more information, please visit [http://www.phoenix.edu/colleges_divisions/military/military-financial-options.html](http://www.phoenix.edu/colleges_divisions/military/military-financial-options.html)

**Third-Party Billing Plan**

Under the Third-Party Billing Plan, University of Phoenix directly bills an approved employer for a student's tuition. To learn more, please visit [http://www.phoenix.edu/tuition_and_financial_options/third_party_billing.html](http://www.phoenix.edu/tuition_and_financial_options/third_party_billing.html)

**Tuition Deferral Plan**

The Tuition Deferral Plan is available for students whose employers offer to repay some or all of their employees' tuition. The plan is also available to students receiving benefits from the U.S. Department of Veterans Affairs or U.S. Department of Defense. For more information, please visit [http://www.phoenix.edu/tuition_and_financial_options/tuition-deferral-plan.html](http://www.phoenix.edu/tuition_and_financial_options/tuition-deferral-plan.html)

**Supplemental Funding**

**Private Student Loans**

Private student loans are credit-based funding source provided by outside, nonfederal lenders to pay for the cost of attendance not covered by any other financial aid. To learn more, please visit [http://www.phoenix.edu/tuition_and_financial_options/private-student-loans.html](http://www.phoenix.edu/tuition_and_financial_options/private-student-loans.html)
Tribal Funding
Several American Indian tribal nations provide funding for the tuition of a student who is a recognized member. For more information, please visit https://www.phoenix.edu/tuition_and_financial_options/financial_options.html

Financial Policies

Changing Financial Plans
The student can change his or her finance plan if the student is in compliance with his or her current finance plan. To change a plan, the student must contact a finance advisor and complete necessary documents. All changes must be approved by University of Phoenix to become effective.

Meeting Financial Plan Obligations
Students who primarily attend a physical University of Phoenix campus are subject to financial approval by their primary campus prior to enrolling in a course. Tuition and all applicable fees for each course must be paid according to the terms and conditions outlined in the primary financial option selected on the Student Financial Agreement form. Students who do not comply with the primary financial option term will not be allowed to attend classes. Students are required to clear any indebtedness to the University before grades and transcripts will be issued or the degree awarded. A student may be administratively withdrawn for failure to make payment in a timely manner, preventing the student from attending future class sessions, until the amount owed is paid in full or satisfactory payment arrangements are made. All costs of collection, court costs and reasonable attorneys’ fees will be added to delinquent accounts collected through third parties. University of Phoenix may obtain a current credit report as needed to support decisions to defer tuition payment or to assist in the collection of amounts owed.

Electronic Course Materials and Books Fees
Electronic course materials and books for each course must be paid at the time they are ordered or in accordance with a student’s stated payment option. Electronic course materials fees, unless prohibited by law, are nonrefundable. The student who drops a course will be granted access to the electronic course materials for that course if retaken within six months of the course’s original start date.

State Tax
Various states require universities to collect a tax on tuition, fees, digital goods or access to digital information. The University will collect the appropriate tax on tuition, fees and electronic course materials fees charged to the student in these states. Please contact a finance advisor for the most updated list of states requiring this tax.

Tuition Credit Policy
The student may request a tuition credit from University of Phoenix when he or she drops a course due to extenuating circumstances. In a 12-month period, credit for no more than two single courses for a bachelor or higher degree, or credit for no more than two blocks in an associate degree program may be applied. The credit is non-transferable to other students and may be used at any University of Phoenix campus.

Payment Policies
Payments are accepted on the student website (https://ecampus.phoenix.edu/portal/public/login.aspx) by check, credit card or debit card. Finance advisors can also process credit card or debit card payments.

The student can mail a check, certified check or money order payment to the following address:
Apollo Group/Corporate Processing
P.O. Box 29887
Phoenix, AZ 85038-9887

If a credit card or a debit card is provided with a completed Authorization to Charge form, tuition and electronic course materials fees will be charged to that card. Automatic payments are set prior to each course upon request.

The University is not responsible for fees or penalties incurred as a result of payment with a debit card or other restrictive payment cards. The student should contact his or her financial institution for account balances, daily transaction limits and other restrictions.

Returned Check Fees
Returned checks will result in an additional processing fee of $25, unless prohibited by law.

Late Payment Fees
Payments must be made in accordance to the selected finance plan. If tuition payment is not received within the terms and conditions of the selected finance plan, fees up to $25 will be assessed to the student account, unless otherwise restricted by law. Late fees are due immediately upon invoice.

Veterans Educational Benefits

Students who are entitled to U.S. Department of Veterans Affairs (DVA) education benefits must make initial contact with a campus veterans affairs certifying official. A formal application for admission to the University should be completed before applying for DVA education benefits. Applications for veteran education benefits should be sent to a local campus-certifying official for submission to the DVA.

Each University of Phoenix program segregated by instructional modality (classroom based or distance education), requires separate State Approving Agency (SAA) approval for the training of veterans or eligible persons. A student should contact a local campus for information on current approvals.

DVA education benefit eligibility and payment rates vary depending on each individual’s military history and educational program being pursued. Only the DVA can determine eligibility of DVA education benefits. For information, a student should contact a DVA representative, toll free at 1.888.GI.BILL.1 (888.442.4551) or review http://www.gibill.va.gov

Students receiving Chapter 30, 32, 33, 35, 1606 and 1607 benefits while attending University of Phoenix

Directed study courses have Defense Activity for Non-Traditional Education Support (DSST-DANTES) approval for tuition reimbursement. For more information on this program, a student should contact the Educational Service Officer on the military base.

University of Phoenix does not participate in the DVA education advanced payment program.

More information about veterans’ benefits can be reviewed at http://www.phoenix.edu/colleges_divisions/military.html

Visit the Department of Veterans Affairs website, http://www.gibill.va.gov, for additional information on educational entitlements.
Credit for Prior Education and Training
Credit for prior education or training must be evaluated and reported to the U.S. Department of Veterans Affairs (DVA) prior to the start of week 25 of enrollment. The DVA may not always pay DVA education benefits after week 24 if the DVA records indicate the student has a large amount of transfer credits. Please ensure all prior education transcripts, DD-295, DD-214, Army/American Council on Education Registry Transcript System (AARTS), Coast Guard institute transcripts, and Sailor/Marine/American Council on Education transcripts are submitted for evaluation in a timely manner. The student is responsible for ensuring all transcripts are submitted to the University. Academic credits earned for courses appearing on an official transcript from a regionally accredited or candidate-for-accreditation college or university will be evaluated according to University policies, and accepted subject to the approval of the University Office of Admissions and Evaluation. Transfer credits based on a different unit of credit than the one prescribed by University of Phoenix are subject to conversion before being transferred. Only the official transcript and course evaluations performed by the University Office of Admissions and Evaluation or Prior Learning Assessment Center are final. Any preliminary reviews by campus personnel are unofficial, not binding and subject to change.

DVA Standard of Academic Progress Requirements
To receive DVA education benefits, a student must maintain satisfactory academic progress (SAP) and conduct. Accordingly, benefits will be terminated for individuals who are disqualified, suspended or expelled from the University.

Academic Probation
Academic probation shall occur when a grade point average (GPA) falls below acceptable levels. Undergraduate degree- and certificate-seeking students must maintain a program GPA of 2.0. Graduate and doctoral students must maintain a program GPA of 3.0. Probation lasts for a period of four consecutive courses. Any coursework taken concurrently will be applied to the three-consecutive-course period. Veteran students will continue to receive DVA education benefits during the probation period. The veteran will be informed of the probation, and a notation to the student DVA file will be recorded when the probationary period commenced.

Academic Disqualification
Academic disqualification (AD) will result if a student fails to clear an academic probation status within four courses from the onset of probation. Veteran students will not be eligible for DVA educational benefits after disqualification. The DVA and student will be notified of the disqualification. To reapply, a formal application for admission must be submitted in accordance with University admission procedures. In addition, applicants should explain the reasons for the scholastic deficiencies; the manner in which the intervening time has been spent; and why they should be given favorable consideration for readmission. The readmission file will be reviewed by the Student Appeals Center and a decision reached regarding readmission. If approved, the student would be required to complete all program requirements in effect at the time of readmission. An application for DVA education benefits will also be necessary to re-establish benefits with University of Phoenix.

Military Tuition Assistance
To obtain federal military tuition assistance, visit the education office to receive college counseling and develop an education plan. From that point, a student can submit a military tuition assistance request http://www.phoenix.edu/colleges_divisions/military/military-financial-options/tuition-assistance.html A student can currently receive 100 percent of federal tuition assistance from military service, with a $250 cap per semester hour, and a $4,500 annual limit. If a student wants to apply for military tuition assistance, a student will need to submit a completed authorization form to a Military Advisor at least two weeks before a course start date.

DVA Tuition Assistance Top-Up Benefit
Active duty students who request to use the Tuition Assistance Top-Up (TATU) benefit program should direct all questions or concerns to the DVA at 1.888.GI.BILL.1 (1.888.442.4551) or online at http://www.gibill.va.gov/ University of Phoenix VA certifying official is not involved in the processing of any TATU request. For more information about VA Tuition Assistance and financial options, go to http://www.phoenix.edu/colleges_divisions/military/military-financial-options/tuition-assistance.html

Readmission of Servicemembers
Any student whose absence from the University is necessitated by reason of service in the uniformed services is entitled to readmission if the following criteria are met:

- The student (or an appropriate officer of the Armed Forces or official of the Department of Defense) gives verbal or written notice to the University’s Military Division verifying that the student’s absence from the University was necessitated by service in the uniformed services.
- The cumulative length of the absence and of all previous absences from the University by reason of service in the uniformed services does not exceed five years.

Note: A student who submits an application for readmission to the University must provide documentation to establish that the student has not exceeded the specified service limitations and that the student’s eligibility for readmission has not been terminated. Examples of documentation to verify that the student is still within the acceptable service limitations include the student’s deployment paperwork or a letter from the commanding officer that includes the student’s dates of service.

The University may not delay or attempt to avoid readmission of a student under this section by demanding documentation that does not exist, or is not readily available, at the time of readmission.

- The student submits verbal or written notification of intent to reenroll.

Note: If the student’s last date of attendance with the University is more than 365 days in the past, the student must complete an updated admissions application and Enrollment Agreement in accordance with the University reentry policy. The Military Division should then submit these completed documents along with the Servicemembers Readmission Form. The student may remain in original program/version without appeal; provided the cumulative length of absence does not exceed five years and that the program has not been expired.

A student’s eligibility for readmission under this section by reason of such student’s service in the uniformed services terminates upon the occurrence of any of the following events:

Addendum
• A separation of such person from the Armed Forces (including the National Guard and Reserves) with a dishonorable or bad conduct discharge, OR
• A dismissal of such person permitted under section 1161(a) of Title 10, USC, OR
• A dropping of such person from the roles pursuant to section 1161(b) of Title 10, USC,

Note: If the student does not submit a notification of intent to reenroll within the time limits, the student is subject to the University established leave of absence policy and general practices.

**Accreditation, Licensures, Reviews, and Approvals**

University of Phoenix is accredited, reviewed and/or approved by federal, state and international agencies, as well as private accreditation bodies.

**Federal**

U.S. Department of Education, Certificate of Eligibility

**State and International Licensures**

University of Phoenix is approved to operate in most U.S. states, territories and possessions, either through licensure, registration, general or specific approvals or annual extension of exemption.

Washington, DC 20036
(202) 887-6791
http://www.aacn.nche.edu/accreditation/

**College of Education/Education Programs**

The Master of Arts in Education program with options in Elementary Teacher Education and Secondary Teacher Education has been approved for initial accreditation by the Teacher Education Accreditation Council (TEAC) for a period of five years, from December 20, 2007 to December 20, 2012.
In addition, the College of Education has approval for education programs through the following state agencies:

- Arizona Department of Education
- California Commission on Teacher Credentialing (CTC)
- Colorado Department of Education (CDE)
- Hawaii Teacher Standards Board (HTSB)
- Idaho State Department of Education
- Indiana Department of Education (IDOE)
- Missouri Department of Elementary and Secondary Education
- New Mexico Public Education Department (NMPED)
- Nevada Department of Education (NDE)
- Oregon Teacher Standards and Practices Commission
- Puerto Rico Department of Education
- Texas Education Agency (TEA)
- Utah State Office of Education (UTOE)

(Programs vary by state. Not all programs are approved in all states.)

College of Social Sciences Programs

The Master of Science in Counseling Program with a specialization in Community Counseling (Phoenix and Southern AZ campuses) and the Master of Science in Counseling Program in Mental Health Counseling (UT campus) are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Additional Information

A student can view additional information at www.phoenix.edu/about_us/accreditation.html.

To obtain a copy of University accreditation and license documents, or information on how to contact any of the agencies that regulate the University, contact the Apollo Legal Department at 602.557.8232.

Complaint Information

Students have the right to file a complaint with the appropriate state approval/licensing entities, and/or the institution’s regional accrediting agency. However, prior to filing a complaint with an outside agency, we request that students exhaust all avenues of complaint internally within the University. Please see the section entitled Dispute Resolution Policy and Procedure for additional information.
Disability Services

University of Phoenix recognizes and accepts its obligations under Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990, and the ADA Amendments Act of 2008, prohibiting discrimination on the basis of a disability and requiring the University to provide reasonable accommodations to otherwise qualified disabled students in all University programs and activities. The University of Phoenix Disability Services Office provides services to students with appropriate documentation for temporary health issues or a permanent disability.

Students with a temporary or permanent disability seeking disability services from the University have the responsibility to both self-disclose and request accommodation through the campus disability services advisor. Communication with faculty or other staff members does not constitute self-disclosure or an accommodation request. Confirmation through documentation from a health care provider is required prior to accommodations being determined and fulfilled.

Obtain Information

The campus disability services advisor is responsible for managing the accommodation process, including any negotiations regarding services, and finalizing appropriate student accommodations. Additional information and a list of campus disability services advisors are located at http://www.phoenix.edu/students/disability-services.html

General Contact Information

Direct all questions regarding admissions, academics, financial options, facilities or general institutional issues to the following offices:

Faculty

University faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, human services professionals and leaders in other professional areas who also possess advanced degrees. A list of faculty may be obtained at each local campus. To find a local campus, go to http://www.phoenix.edu/campus-locations.html Faculty profiles can be found at http://www.phoenix.edu/faculty/our_faculty.html

Credit Transfer

Information regarding criteria used to evaluate the transfer of credit earned at another institution is located at www.phoenix.edu/admissions/transfer_information/transfer_credit.html

Articulation Agreements

A list of institutions University of Phoenix has established articulation agreements can be viewed at http://www.phoenix.edu/admissions/transfer_information/articulation.html

Corporate Articulations

A list of corporations that University of Phoenix has established articulation agreements can be viewed at http://www.phoenix.edu/admissions/transfer_information/articulation.html

Reverse Transfer Agreements

University of Phoenix has established reverse transfer agreements with partnering institutions. With a Reverse Transfer Agreement in place, University of Phoenix will notify the partner transfer institution and provide directory information for students meeting certain credit requirements that indicate the student may be eligible to earn an Associate degree from the transfer institution. The transfer institution may pursue communication with the student to discuss requirements and may award the Associate degree to the student per their discretion.

Graduation Rates

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must publish information regarding graduation rates as defined by the National Center for Education Statistics (NCES). This graduation measure includes only undergraduate degree- and/or certificate-seeking students who have never attended another institution of higher learning, and graduate within 150 percent of the normal time to completion. Data are collected on the number of students entering the institution as first-time, full-time (FTFT) degree- and/or certificate-seeking undergraduate students in a particular cohort year. Graduation rates are disaggregated by race and ethnicity, gender and federal financial aid grant or loan funds. The graduation rates shown below represent students from the 2005-06 cohort and the percentages of those students who graduated by August 31, 2011.

For the graduation rates, please go to http://www.phoenix.edu/about_us/regulatory/consumer-information/graduation-rates.html.

Addendum
Retention Rates
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding retention rates of degree- and/or certificate-seeking first-time, full-time (FTFT) undergraduate students entering the institution. Retention rate is a measure of the rate at which students persist in their educational program at an institution, expressed as a percentage. For the retention rates, please go to http://www.phoenix.edu/about_us/regulatory/consumer-information/retention-rates.html.

Student Diversity
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding student diversity as defined by the IPEDS. Data reported are for enrolled full-time students. For further details please go to http://www.phoenix.edu/about_us/regulatory/consumer-information/student-diversity.html.

Types of Education Graduates Enroll
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding the types of graduate and professional education in which graduates of the institution four-year degree programs enrolled.
Approximately 17% of students who completed a bachelor's degree from University of Phoenix between July 1, 2010 to June 30, 2011 went on to enroll in a graduate or professional program at the University of Phoenix. The majority of these students enrolled in the following programs:
• Master of Business Administration
• Master of Science in Psychology
• Master of Science in Accountancy
• Master of Science in Administration of Justice and Security
• Master of Information Systems

The data is derived from the IPEDS Completions Survey (July 1, 2010 to June 30, 2011 data) and the IPEDS Fall Enrollment Survey (August 1, 2011 to October 31, 2011 data).

Alumni Attending Graduate School
Forty-three percent of University of Phoenix alumni indicated they are attending, or plan to attend, graduate school.
• Of this 43%, 71% are currently pursuing a graduate degree at the University of Phoenix
• Of this 43%, 20% plan to pursue a graduate degree at the University of Phoenix

Working Alumni
Based on responses from the Alumni Association’s 2011 survey, the following represents the type of industry in which our alumni work:

Circumstances may necessitate withdrawal from the University. A student who received, or is eligible to receive federal financial aid funds provided certain criteria are met, and subsequently officially or unofficially withdraws is subject to a Return of Title IV (R2T4) Calculation as required by federal regulations.

**Official Withdrawals**

There are two ways students can withdraw from the University:

1. Complete the self-service Official Withdrawal automated process via the University eCampus website at https://ecampus.phoenix.edu/portal/portal/public/login.aspx,
2. Notify the designated campus offices of Enrollment Services, Academic Services, and Financial Services.

**Withdrawal Date**

The withdrawal date for official withdrawals is the last date of academic attendance or attendance at an academic related activity determined from University attendance records.

**Date of Determination**

The date of determination (DOD) for students who officially withdraw from the University is the latter of the student’s withdrawal date or the date of notification.

**Rescission of Official Withdrawal**

Students who want to rescind their intent to withdraw may complete the Official Withdrawal Rescind request via the University eCampus website at https://ecampus.phoenix.edu/portal/portal/public/login.aspx.

Students who rescind their intent to withdraw must provide an electronic or written statement to the University stating their intent to return to the University, remain in academic attendance and continue to participate in academic related activities through the end of the payment period. If the student subsequently withdraws after rescinding intent to withdraw, the withdrawal date is the latter of the date the student first provided notification to the University or the last date of academic attendance or academic related activity determined from the University’s attendance records. The date of determination for students who rescind their intent to withdraw and subsequently withdraw from the University, without official notification, is no greater than 15 days after the student’s official last date of academic attendance or attendance at an academic related activity.

**Unofficial Withdrawals**

Students who do not provide official notification to the University of their intent to withdraw are considered unofficial withdrawals after 14 consecutive days of nonattendance at an academic related activity. If a student requests an extension of the course he/she is currently attending and his/her intent is to complete the course, the days in the extension period will not count towards the 14 days of nonattendance at an academic related activity.

Students on an institutional scheduled break of five or more consecutive days will not have the days of the break count towards the 14 consecutive days of nonattendance at an academic related activity.

**Withdrawal Date**

The withdrawal date for a student who ceases attendance at the University, including a student who does not return from an approved leave of absence, is the last date of academic attendance or attendance of an academic related activity determined from University attendance records. In the case of a student who has received an approved leave of absence, the University will review the student record on or after their originally approved return date. The review determines if the student reentered as scheduled, or did not reenter as scheduled and must be withdrawn for the purposes of the Return of Title IV (R2T4) calculation and deferment processing.

**Date of Determination**

The date of determination (DOD) for students who unofficially withdraw from the University is no greater than 15 days after the official last date of attendance or when a student fails to return from an approved leave of absence.

**Administrative Withdrawals**

Students who are withdrawn from the University for failure to meet admission, academic, candidacy, financial or conduct policies are considered administrative withdrawals.

**Withdrawal Date**

The withdrawal date for students who are administratively withdrawn is the last date of academic attendance or attendance at an academic related activity.

**Date of Determination**

The date of determination (DOD) for students who are administratively withdrawn from the University is the date the University determines the withdrawal occurred.

**Return of Federal Financial Aid**

Federal regulations specify how the University must calculate the amount of federal financial aid earned when a student withdraws from the University. The requirements for federal financial aid are separate from the Institutional Refund Policy and State Refund Policy.

The percentage amount of federal financial aid a student earned in a payment period is calculated as follows:

\[
\text{Percent Earned} = \frac{\text{Total Number of Calendar Days Completed in Payment Period}}{\text{Total Number of Calendar Days in Payment Period}} \times 100
\]

The amount of federal financial aid a student earns is determined on a rate-of-progression basis. When the student completes more than 60 percent, the student earns all the assistance scheduled for that payment period.*

---

Survey completed in 2011 between January 17 and February 11; a total of 27,416 alumni respondents.
Federal Financial Aid Credit Balance
If a student withdraws from the University, any federal financial aid credit balance will not be released to the student nor returned to a federal financial aid program prior to performing the Return of Title IV (R2T4) Calculation.
Upon completion of applicable refunds, any remaining federal financial aid credit balance will repay any grant overpayment owed by a student as result of the current withdrawal. Within 14 days of the date the University performs the Return of Title IV (R2T4) Calculation, the University will pay any remaining federal financial aid credit balance in one or more of the following ways:
- Pay authorized charges at the University
- Reduce federal financial aid loan debt to the student (or parent in the case of a PLUS loan) with authorization
Contact a finance advisor for more information about R2T4 requirements.

Refund Policy
Institutional
The following provisions pertain to all refund policies applied by the University unless specifically stated otherwise.
Students, who begin a program under Registered (R) status, pending the completion of admission file and are subsequently denied admission, are eligible for a refund of the full tuition amount of the course in which they are currently enrolled. Tuition is not refunded for any completed course. A tuition refund can be requested in writing from a local campus.
Students who withdraw from a course prior to the start date will receive a 100 percent refund for that course. Students who have completed 60 percent or less of the course are eligible for a pro rata refund.

Example of a refund on attendance for a 5-week course:
Attend 1 week 80% refund due
Attend 2 week 60% refund due
Attend 3 week 40% refund due
Attend 4 week no refund due

Example of a refund on attendance for a 6-week course:
Attend 1 week 83% refund due
Attend 2 week 67% refund due
Attend 3 week 50% refund due
Attend 4 week no refund due

Example of a refund on attendance for a 9-week course:
Attend 1 week 89% refund due
Attend 2 week 78% refund due
Attend 3 week 67% refund due
Attend 4 week 56% refund due
Attend 5 week 44% refund due
Attend 6 week no refund due

State
If a student attends a class in one of these states, the specific state refund policy will be applied in addition to the University Institutional Refund Policy. In the event that there is a conflict in the policies, the state policy will supersede the general University policy, unless the University policy is better for the student’s situation. These policies are outlined below.

Arizona
Students in the state of Arizona will have tuition refunded using the University Institutional Refund Policy except students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.

California
If University of Phoenix no longer offers educational services for students in the state of California, prior to a student completing a course of instruction, a partial refund may be available. The student should contact:
Department of Consumer Affairs
1625 North Market Boulevard
Sacramento, CA 95834
(800) 952-5210

Florida
Students in the state of Florida will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.
- The University will retain $45 of the application fee for students who withdraw from the University prior to the start of their program and after the three-day cancellation period.
- Refunds will be paid within 30 days of a student's official withdrawal.

Georgia
Students in the state of Georgia will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.
- Students providing written notification of withdrawal prior to the first class session or have been out-of-attendance for more than 14 days will receive a full refund of tuition paid for the unattended course.
- Refunds are paid within 30 days of a student’s official withdrawal.
- A student who is out-of-attendance for more than 14 days is considered withdrawn.

Indiana
Indiana has established refund policies that differ from the University Institutional Refund Policy. If a student attends a class in Indiana, the Indiana state refund policy will be applied. The University must make the proper refund no later than 31 days of the request for cancellation or withdrawal.
A student is entitled to a full refund if one or more of the following criteria are met:
- The student cancels the Enrollment Agreement within six business days after signing.
- The student does not meet the University minimum admission requirements.
- The student’s enrollment was procured as a result of a misrepresentation in the written materials utilized by the University.

Addendum
If the student has not visited the University prior to enrollment and, upon touring the University or attending the regularly scheduled orientation or classes, the student withdrew from the program within three days.

A student withdrawing from an instructional program after starting the instructional program at the University and attending one week or less, is entitled to a refund of 90 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.

A student withdrawing from an instructional program, after attending more than 25 percent but equal to or less than 50 percent of the duration of the instructional program, is entitled to a refund of 50 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.

A student withdrawing from an instructional program, after attending more than 50 percent but equal to or less than 60 percent of the duration of the instructional program, is entitled to a refund of 40 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.

A student withdrawing from an instructional program, after attending more than 60 percent but equal to or less than 100 percent of the duration of the instructional program, is entitled to a refund of 10 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.

Example of a refund on attendance for a 5-week course:
- Attend 1 week: 90% refund due
- Attend 2 weeks: 50% refund due
- Attend 3 weeks: 40% refund due
- Attend 4 weeks: no refund due

Example of a refund on attendance for a 6-week course:
- Attend 1 week: 90% refund due
- Attend 2 weeks: 50% refund due
- Attend 3 weeks: 30% refund due
- Attend 4 weeks: no refund due
- Attend 5 weeks: 20% refund due
- Attend 6 weeks: no refund due

Iowa

Students in the state of Iowa who withdraw from a course prior the start date will receive a 100 percent refund of tuition for that course. Students who withdraw from a course after the start date will receive a pro-rata refund of tuition for the course until they have attended 100 percent of the course. Refunds will be paid within 30 days of a student’s official withdrawal.

Kansas or Missouri

Students in the states of Kansas or Missouri will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid if they withdraw within three business days after signing the Enrollment Agreement.
- To cancel enrollment, a student must notify the local campus in writing on or before the three-day period. After the three-day period, all fees, including application fees, assessment fees, and book fees, are non-refundable.

A tuition refund must be requested in writing to the student’s local campus.

Kentucky

Students in the state of Kentucky will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
- A student who cancels enrollment anytime before the start of the first class session will receive a full refund of all monies paid.
- The University may retain 10 percent of the tuition agreed upon in the Enrollment Agreement or $100, whichever is less, for students who fail to complete enrollment for which advanced payment was made.
- Refunds will be paid within 30 days of a student’s official withdrawal.
- A student who is out-of-attendance for more than 14 days is considered withdrawn.

Louisiana

Students in the state of Louisiana will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
- Students who cancel enrollment anytime before the start of the first class session will receive a full refund of all monies paid, except the application fee, which is non-refundable.
- Refunds will be paid within 30 days of a student’s official withdrawal.
- The University may retain an administrative fee, not to exceed 15 percent of total tuition and fees paid.

Minnesota

Students in the state of Minnesota will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Refunds for state aid programs and non-state aid programs are calculated on a proportional basis using the state mandated or institutional refund policy. To calculate the minimum refund due to the State Grant Program, the SELF Loan Program, and other aid programs (with the exception of the state Work Study Program), the Higher Education Services Office Refund Calculation Worksheet of the Minnesota State Grant manual is used.

Ohio

Students in the state of Ohio will have tuition refunded using the University’s Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid if they withdraw within five calendar days of signing the Enrollment Agreement.
- A student who withdraws before the first class and after the five-day cancellation period is obligated for the registration fee.
- To cancel enrollment, a student must notify the local campus in writing on or before the five-day cancellation period after signing the Enrollment Agreement.
- Refunds will be paid no later than 30 days after cancellation.

Oregon

Students in the state of Oregon will have tuition refunded using the University Institutional Refund Policy except all fees, including application fees, assessment fees, student service fees, and book fees are non-refundable.
South Carolina
Students in the state of South Carolina will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
• Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within 72 hours excluding weekends and legal holidays after signing the Enrollment Agreement.
• A full refund of all monies will be made to any applicant not accepted by the University.
• After the 72-hour cancellation period, the University may retain up to a $100 if the student does not attend a course.
• The University may retain an administrative fee up to $100.
• Refunds will be paid within 40 days of a student's official withdrawal.

Wisconsin
Students in the state of Wisconsin will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
• Students have the right to cancel enrollment until midnight of the third business day after receipt of notice of acceptance and is entitled to a full refund of any tuition paid.
• Refunds will be paid within 30 days of a student's official withdrawal.
• If the University cancels or discontinues a course or educational program stated in the Enrollment Agreement, the University will refund all monies paid for that course or program.

The refund policy of the state where Online students reside will be used to calculate their refund amount. The refund policy of the state where Ground students attend class will be used to calculate their refund amount.

Copyright Infringement and Peer-to-Peer File Sharing Policy

Copyright Law
Copyright is a form of legal protection provided by U.S. law, Title 17 U.S.C. §512(c) (2), that protects an owner's right to control the reproduction, distribution, performance, display and transmission of a copyrighted work. The public, in turn, is provided with specific rights for fair use of copyrighted works. Copyrighted works protect original works of authorship and include:
• Books, articles and other writings
• Songs and other musical works
• Movies and Television productions
• Pictures, graphics and drawings
• Computer software
• Pantomimes and choreographic works
• Sculptural and architectural works
Specific information on copyright law and fair use may be found at the following sites:
• The U.S. Copyright Office: http://www.copyright.gov
• The Electronic Frontier Foundation fair use frequently asked questions: http://eff.org/IP/eff_fair_use_faq.php.

Copyright Infringement
The copyright law provides the owner of copyright in a work the exclusive right to the following:
• Reproduce the work in copies
• Prepare derivative works based upon the work
• Distribute copies of the work to the public by sale or other transfer of ownership, or by rental, lease, or lending
• Perform the work publicly
• Display the copyrighted work publicly
• Perform the work publicly by means of a digital audio transmission in the case of sound recordings

The copyright law states, "anyone who violates any of the exclusive rights of the copyright owner is an infringer of the copyright or right of the author."

Generally, under the law, one who engages in any of these activities without obtaining the copyright owner's permission may be liable for infringement.

Peer to Peer File Sharing
Peer-to-Peer (P2P) file sharing is a general term that describes software programs that allow computer users, utilizing the same P2P software, to connect with each other and directly access digital files from one another's hard drives. Many copyrighted works may be stored in digital form, such as software, movies, videos, photographs, etc. Through P2P file sharing it has become increasingly easy to store and transfer these copyrighted works to others thus increasing the risk that users of P2P software and file-sharing technology will infringe the copyright protections of content owners.

If P2P file-sharing applications are installed on your computer, you may be sharing someone else's copyrighted materials without realizing they are doing so. As a user of the University network, recognizing the legal requirements of the files that you may be sharing with others is important. You should be careful not to download and share copyrighted works with others. The transfer and distribution of these works without authorization of the copyright holder is illegal and prohibited.

Violations and Penalties under Federal Law
In addition to University sanctions under its policies as more fully described below, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than $750 and not more than $30,000 per work infringed. For willful infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.

University Plans to Effectively Combat Unauthorized Distribution of Copyrighted Material: Student Sanctions
A student's conduct in the University classrooms and websites is subject to and must fully conform to the University Student Code of Conduct policy, its Acceptable Use policy and any other applicable University policies.

The University may monitor traffic or bandwidth on the networks utilizing information technology programs designed to detect and identify indicators of illegal P2P file sharing activity. In addition to, or as an alternative, the University may employ other technical means to reduce or block illegal file sharing and other impermissible activities.

Addendum
The University will also provide for vigorous enforcement and remediation activities for those students identified through the University Digital Millennium Copyright Act policy as potential violators or infringers of copyright. Disciplinary sanctions will be based on the seriousness of the situation and may include remediation based on a comprehensive system of graduated responses designed to curb illegal file sharing and copyright offenses through limiting and denial of network access or other appropriate means. These sanctions may be in conjunction with additional sanctions through the University Student Code of Conduct, its Acceptable Use Policy and any other University policy applicable to the particular situation.

Students who are subject to professional codes of conduct that apply to their enrollment at the University shall be sanctioned according to the requirements of the respective code.

Education and Awareness
The University uses a variety of means to inform students, faculty, and other network users about copyright laws and the response to copyright infringement claims by the University. The University informs its campus community through the Consumer Information Guide and other periodic communications that unauthorized distribution of copyrighted material, including unauthorized P2P files sharing, may subject students and faculty to civil and criminal liabilities and the extent of the possible liabilities.

The Consumer Information Guide, http://www.phoenix.edu/about_us/regulatory/consumer-information.html is available on the University website, is provided to potential students and employees, and is sent by email on a yearly basis to current students, faculty and employees.

Legal Sources for Online Music and Videos
The following links are online sources that provide information on legal access to copyrighted music and videos:
- EDUCAUSE is an association of colleges and universities, which maintains a list of legal media sources: http://www.educause.edu/legalcontent
- Motion Picture Association of America (MPAA) provides a list of legal motion picture and video sources: http://www.mpaa.org/contentprotection/get-movies-tv-shows
- The Recording Industry Association of America (RIAA) provides a list of legal music sources: http://www.riaa.com/toolsforparents.php?content_selector=legal-music-services

The Legal Sources for online music and videos is reviewed annually by the Vice President of IT Security; the most recent review was completed in April 2012.

Digital Millennium Copyright Act Policy
The University computer networks, including its online library and classroom environment are critical assets. Accordingly, University of Phoenix respects the rights of the copyright owners and expects its faculty, staff, students, and other network users to comply with U.S. copyright laws. Federal law prohibits the reproduction, distribution, public display or performance of copyrighted materials over the Internet without permission of the copyright owner, except in compliance with fair use or other copyright applicable statutory exceptions. For more information on copyright law, please refer to the University’s Copyright Infringement and Peer-to-Peer File Sharing Policy.

In addition to sanctions that may be applicable under the University Student Code of Conduct Policy, the Acceptable Use of Computing Resources Policy or other policies, University of Phoenix may terminate the network accounts or access to users who have repeatedly infringed on the copyrights of others. University of Phoenix, in compliance with the federal Digital Millennium Copyright Act (DMCA), has established a mandated process for receiving and tracking alleged incidents of copyright infringement. The University has designated an agent who will investigate notices of alleged copyright infringement and take appropriate actions. Such actions may include terminating repeat infringers accounts under the Digital Millennium Copyright Act (DMCA).

The copyright infringement notices must be given in writing, preferably by email, or by U.S. mail to the agent listed below:

University of Phoenix, Inc.
Attn: Copyright Agent
Subject: Copyright Compliance
4025 S. Riverpoint Parkway, CF-K612
Phoenix, AZ 85040
Email: CopyrightAgent@apollogrp.edu

If a valid DMCA notification is received, the University will respond under this process by taking down the infringing content found on our networks. On taking down content under the DMCA the University will take reasonable steps to contact the owner of the removed content so that a counter notification may be filed. Upon receiving a valid counter notification, the University will generally restore the content in question, unless the University receives notice from the notification provider that a legal action has been filed seeking a court order to restrain the alleged infringer from engaging in the infringing activity.

Please note that the DMCA provides that you may be liable for damages including costs and attorneys fees if you falsely claim that someone is infringing on your copyright. Alternatively, you can also be liable for damages including attorneys’ fees if you materially misrepresent that an activity is infringing on the copyright of another. Therefore, the University recommends consulting an attorney if you are unsure whether your work or the work of another is protected by copyright laws.

Filing Notice of Alleged Infringement
Following is the process for filing a notification under the DMCA. Notice must be given in writing to the designated agent as specified above and contain the following information:
- Identify in sufficient detail the copyrighted work that you believe has been infringed upon; for example, a student describes the work that you own.
- Identify the material that you claim is infringing on your copyright as set forth in number 1 and provide detailed information reasonably sufficient to locate the infringing item; for example, provide the link to the infringing material.
- Provide a reasonably-sufficient method of contacting you: phone number, address and email address.
- If possible, please provide any information that you allow the University to notify the alleged infringing party of notice of the alleged infringement.
- The following statement must be included in your notice: “I have a good faith belief that the use of the copyrighted materials described above and contained on the service is not authorized by the copyright owner, its agent, or by protection of law.”

Addendum
The following statement must be included in your notice: "I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed."

The notice must be signed.

**Filing Counter Notification of Alleged Infringement**

The person or provider of the alleged infringing material may present a counter notification pursuant to the DMCA. Upon proper counter notification, the University may reinstate the removed content. Notice must be given in writing to the designated copyright agent as specified above and contain the following information:

- Identify the material that has been removed. This may include providing the location or the URL when possible.
- Provide your name, address telephone number and email address if available.
- Provide a statement that you consent to the jurisdiction of Federal District Court for the judicial district in which you reside, or for any address outside the United States, for any judicial district, in which the service provider may be found and that you will accept service of process from the person who provided notification to the University of the alleged infringement or an agent of such person.
- Provide the following statement: "I swear, under penalty of perjury, that I have a good faith belief that the material identified above was removed or disabled as a result of a mistake or misidentification of the material to be removed or disabled."
- The notice must be signed.

Upon receiving a valid counter notification, the University will provide the person who filed the original notification with a copy of the counter notice and inform them that the material will be reinstated or access to it restored between 10 and 14 business days following receipt of the counter notice, pursuant to the DMCA unless the University receives notification that legal action to seek a court order restraining the alleged infringer from further engaging in the infringing activity has been filed.

**Vaccinations and Immunizations**

Information regarding program admissions requirements, including immunization requirements for designated states is located at [http://www.phoenix.edu/admissions/admission_requirements.html](http://www.phoenix.edu/admissions/admission_requirements.html).

**Campus Safety Policies**

The University Campus Safety policies have been prepared to increase University of Phoenix community’s awareness of current programs that exist to protect its members’ safety and well-being and to satisfy the requirements of the Safe and Drug Free Schools and Communities Act and Clery Act. The information included relates to the following:

- Annual crime statistics
- Available counseling programs
- Crime prevention
- Drug and alcohol abuse
- Emergency Mass Notification
- Health risks
- Information related to campus safety
- Legal affects of drug and alcohol use
- Prohibited use or distribution of drugs and alcohol
- Safety and awareness

The information is intended to provide a general description of University of Phoenix campus safety policies; however, it is not intended to serve as a contractual agreement between the University and the recipient. Additionally, the University will disseminate and publicize, for each of its campus locations, crime statistics from the most recent calendar year and two preceding calendar years. Please visit [http://www.phoenix.edu/about_us/campus_safety/campus_safety_policies.html](http://www.phoenix.edu/about_us/campus_safety/campus_safety_policies.html) or [http://cdn.assets-phoenix.net/content/dam/altcloud/doc/about_uopx/Campus-Safety-Policies.pdf](http://cdn.assets-phoenix.net/content/dam/altcloud/doc/about_uopx/Campus-Safety-Policies.pdf) to access a PDF file of University of Phoenix Campus Safety Policies.

**Campus Crime Statistics**

**Crimes Reported for All Campuses**

This report is compiled in conjunction with University of Phoenix Campus Safety Policies. The following statistics are in accordance with definitions used in the Uniform Crime Reporting System of the Department of Justice and FBI, as modified by the Hate Crime Statistics Act. The data includes all crimes reported to the University of Phoenix campus security authority. If a crime has occurred and has not been reported, it cannot be reflected in the following statistics. For this reason, University of Phoenix encourages everyone to report all crimes to their designated campus security authority and local law enforcement agency. Specific campus location statistics are available electronically at [http://www.universityofphoenix.com/about_us/campus_crime_statistics.aspx](http://www.universityofphoenix.com/about_us/campus_crime_statistics.aspx) or by requesting a printed copy from your local campus security authority, [http://www.phoenix.edu/about_us/campus_safety/campus_safety_contact_list.html](http://www.phoenix.edu/about_us/campus_safety/campus_safety_contact_list.html).

University of Phoenix expressly reserves the right to modify or to adopt additional campus polices and procedures relating to campus safety, at anytime without notice.

**Statement of Policy On Sex Offender Registration**

The Federal Campus Sex Crimes Prevention Act requires colleges and universities to issue a statement advising the campus community where state law enforcement agency information concerning registered sex offenders may be obtained. The Act also mandates that sex offenders who are already required to register in a state to provide notice of each institution of higher education in that state at which the offender is employed or is a student.

To learn the identity of registered sex offenders on or near a campus, or anywhere in the United States, visit the Sex Offender database at [http://www.sexploffender.com](http://www.sexploffender.com) or [http://nsoprv.gov](http://nsoprv.gov). You can search by city, county, or zip code. This information is collected by other agencies and this institution cannot guarantee this information is correct or complete. The information provided here is intended to be in compliance with the Clery Act and for campus safety purposes only. It should not be used to intimidate, threaten, or harass. Misuse of this information may result in prosecution.

**Emergency Mass Notification Policy**

Apollo Group, Inc., and University of Phoenix have established an emergency mass notification process that includes emergency escalation processes, mass notifications and supporting systems. These processes enable Apollo, and its subsidiary educational institutions to contact or send notices, alerts or warnings without delay to employees for Apollo, and University of Phoenix faculty, and students in an emergency, dangerous or otherwise high-risk situation at a University site.
Apollo and University of Phoenix maintain emergency management policies, procedures and systems to protect lives and property, and to continue necessary critical functions and essential services.

An emergency is defined as a situation that poses an immediate threat to the health or safety of someone in the University community at a University site or that significantly disrupts University programs and activities.

The Emergency Mass Notification policy applies to all officers and employees for Apollo, Apollo’s U.S. based subsidiaries, faculty, and students of University of Phoenix in an emergency, dangerous or otherwise high-risk situation at a University site. The policy can be viewed in it's entirety in the Campus Safety Policies located at http://www.phoenix.edu/about_us/campus_safety_policies.html, or by requesting a printed copy from your local campus.

Campus Security Authority Contact List

University of Phoenix campus security authorities assist in the safety of the University community by serving as contacts for University security issues. Contact information for all campus security authorities can be viewed at www.phoenix.edu/about_us/campus_safety/campus_safety_contact_list.html.

Drug and Alcohol Abuse Prevention Program

Drug abuse affects all aspects of American life. It threatens the workplace, our homes, our schools and our community. The U.S. Department of Education requires institutions of higher education to implement a drug prevention and awareness program for their students and employees through the Safe and Drug Free Schools and Communities Act.

All students are expected to conduct themselves as mature adults and as members of an academic community. The consumption of alcohol or drugs while attending class or meeting with campus personnel is prohibited and may be subject to disciplinary action. All drug and alcohol abuse policies, prevention and referrals can be found in the Campus Safety Policies Manual located at http://www.phoenix.edu/about_us/campus_safety/campus_safety_policies.html.

Standards of Conduct

The University community must adhere to a code of conduct that recognizes the unlawful manufacture, sale, delivery, unauthorized possession or use of any illicit drug is prohibited on property owned or otherwise controlled by University of Phoenix. If an individual associated with the University is apprehended for violating any drug or alcohol related law when on University property, or participating in a University activity, the University will fully support and cooperate with federal and state law enforcement agencies. Underage possession or consumption of alcoholic beverages is not permitted on property owned or controlled by the University and the state laws will be enforced.

Also, intentionally or knowingly selling, or intentionally or knowingly furnishing alcoholic beverages to persons under the age of 21, or to persons obviously inebriated, is not permitted on property owned or controlled by the University.

Pell Grant

Federal guidelines state the grantee must certify that he or she will not engage in unlawful activities related to controlled substances during the period covered by the grant.

Federal Financial Aid Penalties for Drug Violations

Federal guidelines focus strongly on illicit drug use and distribution. The Higher Education Opportunity Act states students convicted for an illicit drug violation can be denied federal financial aid for a specific period, in addition to other legal penalties.

The Free Application for Federal Student Aid (FAFSA®) asks students if they have been convicted of a drug-related offense; "Have you ever been convicted of possessing or selling illegal drugs?" If you answer "yes," complete and submit this application, and we will send you a worksheet in the mail for you to determine if your conviction affects your eligibility for aid.

Failure to answer the question automatically disqualifies students from receiving federal financial aid. Answering this question falsely could result in fines, imprisonment or both.

More information about federal penalties and sanctions is located at www.usdoj.gov/dea/agency/policies.htm

Penalties for Drug Convictions

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

Possession of Illegal Drugs:

- First offense, a student loses eligibility for federal financial aid for one year from the date of conviction.
- Second offense, a student loses eligibility for federal financial aid for two years from the date of conviction.
- Third offense and subsequent offenses, a student is indefinite ineligible for federal financial aid from the date of conviction.

Sale of Illegal Drugs:

- First offense, a student loses eligibility for federal financial aid for two years from the date of conviction.
- Second offense and subsequent offenses, a student is indefinite ineligible from the date of conviction.

How to Regain Eligibility

A student can regain eligibility for federal student aid funds the day after the period of ineligibility ends or upon successful completion of a qualified drug rehabilitation program. Students denied eligibility for an indefinite period can regain it after successfully completing a rehabilitation program, passing two unannounced drug tests given by such a program.

A student can regain eligibility for federal student aid funds the day after the period of ineligibility ends or upon successful completion of a qualified drug rehabilitation program that must
- Include at least two unannounced drug tests; AND
- Have received or be qualified to receive funds directly or indirectly under a federal, state, or local government program.

Students denied eligibility for an indefinite period can regain it after successfully completing a rehabilitation program, passing two unannounced drug tests from such a program, or if a conviction is reversed, set aside or removed from the student's record so that fewer than two convictions for sale or three convictions for possession remain on the record.

In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. The student is responsible to certify that a rehabilitation program was successfully completed. As with the conviction question on the FAFSA®, the University is not required to confirm the reported information unless conflicting information is determined.
Convictions During Enrollment
Federal regulations require enrolled students convicted of a drug offense after receiving federal financial aid to notify Student Financial Services - Operations (SFS-O) immediately, become ineligible for further federal financial aid and repay federal financial aid received after the conviction.

Institutional Sanctions for Alcohol and Drug Violations
Any member of the University community found consuming or selling alcohol or drugs on University property shall be subject to discipline on a case-by-case basis.
• Discipline will be based on the seriousness of the situation.
• A case may result in dismissal from the University.
• In all cases, the University will abide by local, state and federal sanctions regarding unlawful possession of drugs and the consumption of alcohol.
• Additional state penalties and sanctions may also apply.
• The University has adopted a zero tolerance policy regarding underage drinking.

Title II of the Higher Education Act-Academic Year 2009-2010 Report
In compliance with Title II of the Higher Education Act (HEA), University of Phoenix has submitted institutional questionnaires that detail the University’s program offerings, student demographics and student performance in those states where the University has teacher education programs that have produced program completers also known as graduates. University of Phoenix provides professional preparation for teachers in multiple states. This is an overview of the information contained in the Institutional Report for University of Phoenix.
The following policy is effective as of September 1st, 2012. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the University of Phoenix School of Business-Undergraduate section of this catalog.

The Bachelor of Science in Business

Marketing Concentration

The Marketing Concentration addresses how to identify customer needs, how to communicate information about products and services to customers and potential customers, where to market, the pricing of products and services, and how to respond to growing demands in different countries and cultures. The marketing concentration builds upon the foundational marketing course, which allows further study in the areas of consumer behavior, advertising, marketing research, public relations, promotion measurement and analysis, and international and global marketing. Marketing managers need creative, analytical, and leadership abilities to manage the marketing function of the business enterprise.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsb-mkt.

MKT 435 ~ .............................................................................. 3 credits
Consumer Behavior

MKT 498 ~ .............................................................................. 3 credits
Integrated Marketing Strategies

Students must choose three of the following courses:

COM 340 ~ ................................................................. 3 credits
Mass Communication

COM 400 ~ ................................................................. 3 credits
Media and Society

MKT 438 ~ .............................................................................. 3 credits
Marketing Research

BRM 353 ~ ................................................................. 3 credits
Product and Brand Management

MKT 411 ~ ................................................................. 3 credits
Green Marketing

MKT 431 ~ ................................................................. 3 credits
Small Business Marketing

MKT 441 ~ ................................................................. 3 credits
Marketing Research

Course Descriptions for the Marketing Concentration

MKT 435...................................................................................3 credits
Consumer Behavior

This is an introductory course in analyzing consumer and purchasing behaviors as basic considerations in the development of a marketing mix. Economic, social, psychological, and cultural factors are considered as they relate to the development of marketing programs.

MKT 498...................................................................................3 credits
Integrated Marketing Strategies

This course provides students with an in-depth study of Integrated Marketing Communications (IMC). Emphasis will be placed on the strategic roles and integration of marketing communication elements including advertising, public relations, sales promotion, event management, media selection, and sales management.

COM 340...................................................................................3 credits
Mass Communication

This course delves into the processes and technology of communication on societal and global levels accomplished through the print and electronic media. Content of communication studied ranges from journalism, entertainment, commerce, and advocacy to personal communication on the Internet. The dynamic changes that have taken place and are evolving today in mass media and mass communication will be considered along with predictions about the role of mass communication.

COM 400...................................................................................3 credits
Media and Society

The development and evolution of contemporary society have become inextricably intertwined with the development and use of electronic media within the past 100 years. This course explores the complex interactions involving society, information, communication, and the electronic media. Controversial topics that media have brought to the fore, and in some cases caused, will be highlighted.

MKT 438...................................................................................3 credits
Public Relations

This course provides an introduction to the field of public relations. Areas covered are media relations; promotion; tools used in developing public relations and publicity; and improving customer satisfaction; relationship-building strategies; and ethics and public relations.

BRM 353 ................................................................................... 3 credits
Product and Brand Management

This course presents an analysis of the goods and services lifecycle from conception to purchase. Special emphasis is placed on design and implementation of successful product development and brand management strategies that deliver value to consumers.

MKT 411 ................................................................................... 3 credits
Green Marketing

This course applies the principles of sustainability and the philosophy of being environmentally green to the area of marketing. Special emphasis is placed on sustainable product design; awareness and cause marketing; social media and green-washing; and emerging green marketing trends.

MKT 431 ................................................................................... 3 credits
Small Business Marketing

Knowing your customer, growing your customer base and creating a consumer driven culture are key drivers of sustainability in the small business. This course focuses on the functions of evaluating opportunities, creating value, and developing effective pricing and advertising strategies.

MKT 441 ................................................................................... 3 credits
Marketing Research

This course covers basic research methodology applied to marketing issues. Students will study methods and techniques for collection, analysis, and interpretation of primary and secondary data for consumer business marketing.
The following is effective as of September 1st, 2012. Please see the updated information below.

COLLEGE OF UNDERGRADUATE EDUCATION

The College of Education offers graduate and undergraduate level degree programs. The Bachelor of Science in Education/Elementary (BSEd/E) program is a degree program leading to teacher licensure that provides students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. The coursework, field experience, and student teaching are designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher.

COLLEGE OF GRADUATE EDUCATION

The College of Education offers graduate level degree and non-degree courses for educators. The Master of Arts in Education is the graduate degree program offered through the College of Education. Graduate non-degree programs include several state specific certificates/endorsements. Each student/applicant is responsible for checking with his/her state Department of Education and/or school district to determine specific credentialing requirements.

The College of Education works closely with other departments responsible for providing and administering academic preparation at the University and with each campus to ensure the quality delivery of all courses and programs.
ADDENDUM - UPDATED POLICY

The following policy is effective as of September 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the University of Phoenix School of Business-Graduate section of this catalog.

Residency Requirements for the MSA
The University requires completion of a minimum of 21 graduate level credits at the University to meet residency requirements. Students who complete the Graduate Accounting Certificate and wish to enroll in the MSA program can apply courses towards the MSA program requirement.
The following policy is effective as of September 1st, 2012 for all Arizona-approved undergraduate and graduate education programs leading to licensure. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the College of Education section of this catalog.

**Academic Progression Requirements**

Arizona/Online students may submit passing scores on a comparable content knowledge examination from another state or agency taken within the past 10 years.
ADDENDUM - UPDATED POLICY

The following policy is effective as of September 1st, 2012 for all education programs with candidacy status requirements. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the College of Education section of this catalog.

Candidacy Status Requirements
To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered in IS3 and the student's eXp file.

Addendum
The following program was erroneously excluded from the July 1, 2012 publication and is approved to be offered.

**The Bachelor of Science in Organizational Security and Management**

The following Bachelor of Science in Organizational Security and Management (BS/OSM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Organizational Security and Management degree is designed to address an increasing national and international need for greater technical competence and professionalism in the security industry. The distinctions between the roles of criminal justice agencies and private security organizations are recognized and the degree program provides the required knowledge for a student to develop competency and management skills in organizational security. While the program includes courses in Terrorism and Homeland Security, it also recognizes the depth and breadth of the discipline and provides a variety of courses designed to expose students to the entire spectrum of the security profession.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bs-osm.

**Required Course of Study for the BS/OSM**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Courses requiring a minimum grade of “C-” for successful completion are identified by a + symbol following the course number.

- GEN 300: Skills for Professional Development (3 credits)
- SEC 310: Introduction to Organizational Security and Management (3 credits)
- SEC 320: Survey of Security Specializations (3 credits)
- CIS 319: Computers and Information Processing (3 credits)
- MGT 431: Human Resources Management (3 credits)
- SEC 340: Criminology and the Criminal Justice System (3 credits)
- SEC 360: Interpersonal Communications (3 credits)
- SEC 390: Organizational Behavior and Management (3 credits)
- SEC 370: The Administration Process (3 credits)
- SEC 330: Industrial Safety (3 credits)
- SEC 350: Legal and Regulatory Issues in Security Management (3 credits)
- SEC 400: Threat and Vulnerability Management (3 credits)
- SEC 430: Principles of Investigation (3 credits)
- SEC 440: Security of Information Systems and Technology (3 credits)
- SEC 410: Physical Security (3 credits)
- SEC 420: Personal Security (3 credits)
- SEC 450: Global Security Issues (3 credits)
- SEC 460: Terrorism (3 credits)
- SEC 470: Homeland Security and Interagency Response (3 credits)
- SEC 480: Global Security Issues (3 credits)
- SEC 480: Personal Security (3 credits)

**Capstone Course**

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for the BS/OSM**

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
- Applicants must be currently employed or have access to a work environment.
- Signed Criminal Conviction Prohibition Acknowledgement Form

**General Education Requirements for the BS/OSM**

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts, 6 credits
- Mathematics, 6 credits
- Science and Technology, 6 credits
- Humanities, 6 credits
- Social Science, 6 credits
- Additional Liberal Arts, 3 credits
- Interdisciplinary Requirements, 15 credits
- GEN 300 is completed as part of the required course of study
- Integrating, 3 credits

SEC 480 is completed as part of the required course of study.
Students who lack 67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance. Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program. For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

**Degree Requirements for the BS/OSM**
- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 57 upper division credits.
  - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  - A minimum grade point average (GPA) of 2.0.
  - A minimum of 120 total credits that include a minimum of 57 upper division credits. Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.
  - If student fails to complete SEC 480 with a “C” or better, the student must retake the course to satisfy the degree requirement.

**Academic Progression Requirements for the BS/OSM**
All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence.
- All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework.
  - Regionally or nationally accredited coursework (C- or higher grade).
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training).
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

**Residency Requirements and Course Waivers for the BS/OSM**
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- Students in this program may waive a maximum of 30 credits from their required course in order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
  - The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
  - The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
  - The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.
- The following courses in the required course of study may not be waived: GEN 300, SEC 480
Course Descriptions for the BS/OSM

GEN 300 ................................................................. 3 credits

Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

SEC 310 .................................................................................... 3 credits

Introduction to Organizational Security and Management
This course is an overview of the principles of security management and the consequences of failure to adequately protect business assets. The course includes an introduction to loss prevention and risk management. It provides an overview of the contingencies that influence modern security management, e.g., technology, legal issues, ethics, vulnerability assessments, criminal and terrorist activity, and interagency cooperation. The course also introduces various security operation specializations and programs such as Corporate, Academic, Transportation, Government, and others.

SEC 320 .................................................................................... 3 credits

Survey of Security Specializations
This course identifies and contrasts the benefits of proprietary and contract security operations and introduces the student to a variety of security specializations. It also examines the purposes, objectives, procedures, risks, and types of organizations associated with the respective specializations.

CIS 319 ..................................................................................... 3 credits

Computers and Information Processing
This course introduces the fundamentals of computer systems and the role of information processing in today’s business environment. An overview is presented of information systems, systems development, operating systems and programming, database management, networking and telecommunications, and the Internet.

MGT 431 ..................................................................................... 3 credits

Human Resources Management
This course focuses on the strategic role of human resources management, personnel planning and job analysis, personnel selection, performance appraisal, compensation, training and development from the vantage point of the manager.

SEC 340 ......................................................................................... 3 credits

Criminology and the Criminal Justice System
This course identifies various types of criminal activity and provides the student with an understanding of the causes of criminal behavior and the societal response to crime. It also identifies and discusses the various elements of the American criminal justice system.

SEC 360 ......................................................................................... 3 credits

Interpersonal Communications
This course prepares the student to communicate effectively in written and verbal form. It provides principles for effective investigative reporting and incident documentation as well as techniques for interviewing and understanding verbal and non-verbal communication.

SEC 390 ......................................................................................... 3 credits

Organizational Behavior and Management
This course encompasses the study of individual and group behavior in organizational settings. Management methods for organizational processes and change are presented along with leadership applications.

SEC 370 ......................................................................................... 3 credits

The Administration Process
This course provides the student with an understanding of the various elements of a program budget, the process of budget development, justification and presentation and principles of contract preparation.

SEC 330 ......................................................................................... 3 credits

Industrial Safety
This course provides the student with an overview of safety issues that could be experienced by security personnel as first responders in various work environment emergencies. It includes a review of OSHA, EPA and Fire Code safety regulations and provides methods for identifying and correcting environmental risk factors related to hazardous materials, fire and other potential safety hazards. The course is also intended to provide the student with knowledge that will assist with the initial response to and investigation of work related accidents.

SEC 350 ......................................................................................... 3 credits

Legal and Regulatory Issues in Security Management
This course examines legal, regulatory, ethical and policy issues that influence the work performance of security personnel and it also discusses the potential consequences of non-compliance for individuals and institutions.

SEC 400 ......................................................................................... 3 credits

Threat and Vulnerability Management
This course prepares students to conduct comprehensive threat assessments with respect to physical facilities, personnel, equipment or operating systems and enables students to evaluate and manage vulnerabilities in terms of potential threats.

SEC 430 ......................................................................................... 3 credits

Principles of Investigation
Investigation of criminal activity, employment applicant backgrounds and internal organizational issues are an integral part of the security manager's responsibilities. This course is designed to provide the student with an understanding of the principles and techniques of investigation.

SEC 440 ......................................................................................... 3 credits

Security of Information Systems and Technology
This course provides the student with an understanding of the security issues associated with computer systems. The course also identifies security measures that are intended to protect the software, hardware and data associated with computer systems.

SEC 410 ......................................................................................... 3 credits

Physical Security
This course provides the student with an understanding of the various levels of security that can be employed for the protection of people, property and data housed in physical facilities.
**SEC 420**  
**Personal Security**  
This course provides the student with an understanding of the procedures, techniques and technology associated with the protection of executives, employees, customers and the general public from intentional harm, accidents and naturally occurring emergencies.

**SEC 450**  
**Global Security Issues**  
This course evaluates world interests and the changing dimensions of security. It helps the student understand the dynamic nature of global factors that significantly influence security strategies.

**SEC 460**  
**Terrorism**  
This course helps the student understand the causes of domestic and international terrorism and the psychological and economic effects of terrorist acts.

**SEC 470**  
**Homeland Security and Interagency Response**  
This course examines the U.S. Patriot Act, the establishment and mission of the Department of Homeland Security and the role of local, state and private agencies in homeland security.

**SEC 480**  
**Capstone Course**  
This is the capstone course for Organizational Security and Management undergraduate students. The course provides students with the opportunity to integrate and apply specific program knowledge and learning in a comprehensive manner. Students will evaluate and demonstrate their professional growth.

**COMM 215**  
**Essentials of College Writing**  
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

**GEN 200**  
**Foundations for General Education and Professional Success**  
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

**GEN 101**  
**Skills for Lifelong Learning**  
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

**Addendum**
ADDENDUM - NEW PROGRAM APPROVED

The following program(s) is(are) approved to be offered effective September 1, 2012. Please see the program description(s), course requirements, required courses, additional course descriptions and any other programmatic requirements listed below.

Bachelor of Science in Communication

The following Bachelor of Science in Communication (BS/COM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Communication (BS/COM) degree program is designed to develop knowledge and skills for effective communication in a variety of public and private work environments. The program was created specifically to build upon personal and professional communication experiences. The BS/COM degree enhances the communication skills necessary for the development of professional competence and values; critical thinking and problem solving; information utilization; and collaboration. The curriculum focuses on the development of core communication competencies. It emphasizes theory and application in the domains of interpersonal, small group, organizational, and mass communication. Specific areas of focus include business communication, diversity, intercultural communication, conflict resolution, legal and ethical issues, media and culture, and future trends in communication technology.

BS/COM Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number.

GEN 300 ~ 3 credits
Skills for Professional Development

COM 100 ~ 3 credits
Introduction to Communication

COM 200 ~ 3 credits
Foundations of Interpersonal Communication

COM 225 ~ 3 credits
Foundations of Mass Communication

COM 310 ~ 3 credits
Communications: Theories and Practice

COM 330 ~ 3 credits
Small Groups and Team Communication

COM 350 ~ 3 credits
Organizational Communication

COM 360 ~ 3 credits
Intercultural Communication

COM 400 ~ 3 credits
Media and Society

COM 440 ~ 3 credits
Communication Law

COM 450 ~ 3 credits
Ethics and Communication

COM 470 ~ 3 credits
Mediation and Conflict Resolution

COM 480 ~ 3 credits
Communication Capstone Course

Concentration in Journalism

The journalism concentration focuses on the contemporary initiatives and multi-tiered technology of today's field of journalism. The curriculum emphasizes a variety of communication techniques, to include writing and reporting, that assist in understanding the ways individuals and organizations share and publish information. The awareness of ethical and social responsibility associated with the modern media landscape is emphasized throughout the program.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs.

JRN 310 ~ 3 credits
Introduction to Journalism

JRN 320 ~ 3 credits
Research for Journalism

JRN 330 ~ 3 credits
Journalistic Writing I

JRN 340 ~ 3 credits
Journalistic Writing II

JRN 350 ~ 3 credits
Controversial Issues in Journalism

JRN 360 ~ 3 credits
Storytelling: A Multimedia Approach

The University reserves the right to modify the required course of study. Please note that within each state, concentration availability may vary by campus location.

Additional Admission Requirements for the BS/COM

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
Degree Completion Requirements for the BS/COM
- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 42 upper division credits.
  - All students must meet the General Education areas approved by the university.
  - A minimum grade point average (GPA) of 2.0.
  - All students must complete the minimum number of credits required by their degree program.
  - All undergraduate students are required to complete the minimum general education credits required by their program version.
- The diploma awarded for this program will read as: Bachelor of Science in Communication and will not reflect the concentrations. The Concentrations are reflected on the transcript only.

General Education Requirements for the BS/COM
A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
- Communication Arts, 6 credits
- Humanities, 6 credits
- Mathematics, 6 credits
- Social Sciences, 6 credits
- Science/Technology, 6 credits
  Must include at least 3 credits in the physical or biological sciences
- Additional Liberal Arts, 6 credits
- Interdisciplinary Component, 18 credits
- Students who lack 67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for BS/COM
All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.

Residency Requirements and Course Waivers for BS/COM
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix
- Students in this program may waive a maximum of 27 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
  - The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived: GEN 200, GEN 300, COM 480

**Course Descriptions for the BS/COM**

**GEN 300**................................................................. 3 credits

**Skills for Professional Development**

This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

COM 100.................................................................................. 3 credits

**Introduction to Communication**

This course is an introduction to the field of communication with emphasis on the history of communication study, theories important to all areas of communication, the contexts in which communication occurs, and the issues that must be faced by students of communication. The course serves as an introduction to the strands of communication: interpersonal, small groups and teams, mass communication, organization, intercultural, and rhetoric.

COM 200.................................................................................. 3 credits

**Foundations of Interpersonal Communication**

This course includes the application of communication principles, theory, and research to the process of interpersonal communication; includes verbal, nonverbal, listening, conflict management, and communication skills most relevant to a broad range of interpersonal settings.

COM 225.................................................................................. 3 credits

**Foundations of Mass Communication**

This course is a survey of the basic theories upon which our scientific understanding of mass communication is based. Ethical and related problems of mass communication will be studied from contemporary and historical viewpoints, as well as a critical analysis of the performance of the mass media.

COM 310.................................................................................. 3 credits

**Communications: Theories and Practice**

This course explores the various theories of communication that create the foundation for study of communication in the bachelor’s degree program at the University of Phoenix. Major communication areas examined in this course include intrapersonal, interpersonal, group and team work, organizational, intercultural, and mass media. Each area, along with others, will be studied in greater depth in subsequent courses in the degree program.

COM 330.................................................................................. 3 credits

**Small Groups and Team Communication**

This course explores the dynamics of group communication and effective team work. Both social and workplace scenarios will be examined. Analytical techniques will be included to provide effective strategies for communication in these contexts.

COM 350.................................................................................. 3 credits

**Organizational Communication**

This course examines various theoretical frameworks necessary for effective organizational communication. It analyzes the application of communication strategies within organizations in terms of their effectiveness. It provides the infrastructure necessary for the creation and maintenance of successful communication strategies in organizations.

COM 360.................................................................................. 3 credits

**Intercultural Communication**

The purpose of this course is to assist students in understanding and apply the principles of effective intercultural communication in a diverse society and in global commerce. Students will develop an understanding of why and of how cultural issues influence effective communication. This course introduces techniques for improving written, oral, and interpersonal communication skills in response to intercultural settings.

COM 400.................................................................................. 3 credits

**Media and Society**

The development and evolution of contemporary society have become inextricably intertwined with the development and use of electronic media within the past 100 years. This course explores the complex interactions involving society, information, communication, and the electronic media. Controversial topics that media have brought to the fore, and in some cases caused, will be highlighted.

COM 440.................................................................................. 3 credits

**Communication Law**

This course focuses on the U.S. legal environment and its specific laws, court decisions, policies, and regulations that address the freedom and responsibilities that come with the First Amendment to the U.S. Constitution. The personal, commercial, and political exercise of free speech, and its regulation, will be analyzed in this course.
Addendum

University of Phoenix, 2012

COM 450 ................................................................. 3 credits
Ethics and Communication
While ethical decision-making permeates every facet of personal and professional life, this course focuses specifically upon ethical issues that are inherent in personal and public forms of communication. Special emphases are placed on ethical issues in commercial communication. Ethical decision-making models will be discussed and applied to cases involving various contemporary and controversial communication topics.

COM 470 ........................................................................ 3 credits
Mediation and Conflict Resolution
Communication is the foundation upon which mediation and other forms of alternative dispute resolution are based. This course starts with an examination of the theoretical basis for ADR in light of communication theory. Then it focuses upon the effective application of theory and practice to achieve meaningful results and to avoiding conflict in the future.

COM 480 ........................................................................ 3 credits
Communication Capstone Course
This is the capstone course for students pursuing the bachelor’s of science in communication. The course provides students with the opportunity to integrate and apply learning from their professional programs of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

COMM 215 ................................................................. 3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 200 ........................................................................ 3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 ................................................................. 3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

Course Descriptions for the Concentration in Journalism

JRN 310 ........................................................................... 3 credits
Introduction to Journalism
This course is the introduction to the journalism concentration. The role of the journalist will be described from its origin to the emergence of the modern-era journalist. Key journalistic theories and principles will be discussed. Special attention will be given to influences in journalism and qualities that exemplify journalistic writing. The concepts of journalistic writing, research, technology, ethics, and personal responsibility will be introduced. Controversial issues faced by journalists will be highlighted throughout the course.

JRN 320 ........................................................................... 3 credits
Research for Journalism
This course focuses on the research methods employed in journalistic writing and reporting. The goal of this course is to enhance the understanding of the characteristics of credible sources and accurate information. Information will be assembled and evaluated to support journalistic goals by interpreting information needs, choosing accurate and unbiased sources, and selecting relevant and reliable information. The importance of employing ethical practices to research techniques is emphasized throughout the course.

JRN 330 ........................................................................... 3 credits
Journalistic Writing I
This course focuses on understanding journalistic writing styles. The course begins by categorizing historical media and associating past writing styles with current 21st century styles. Differences will be identified in writing for various audiences and for print, digital, and broadcast media. The rationale for using certain writing styles will be illustrated and expressed. Throughout the course, the roles of research, editing, and ethics in journalistic writing will be emphasized.

JRN 340 ........................................................................... 3 credits
Journalistic Writing II
This course focuses on the application of the diverse journalistic writing techniques used by today’s changing media landscape. The goal is to enhance storytelling skills by informing and engaging audiences using various delivery methods. Written media messages will be designed and assessed by determining which writing styles should be utilized given the target audience. Within the new convergent media landscape, credible resources will be identified, materials evaluated, and details of written work summarized. The association between research and responsible writing will be explored, as writing strategies to craft effective messages are developed. The role of ethics in journalism is emphasized throughout the course.
JRN 350 .................................................................................... 3 credits

Controversial Issues in Journalism
This course examines the rise of social media and the immediacy in which controversial issues are communicated in journalism. This course focuses on developing the writer/reporter’s ability to critically examine and react to specific media elements, including public opinion, trends, celebrity commentary, and the public’s need to know. Emphasis is placed on understanding the nature and characteristics of thought-provoking mass media occurrences. Concepts of idea generation and storytelling in an ethical and personally responsible manner are highlighted.

JRN 360 .................................................................................... 3 credits

Storytelling: A Multimedia Approach
This course focuses on the role of technology and its impact on news delivery. The use of technologically advanced multimedia formats will be explored. Stories will be adapted to various media outlets to realize the full range appeal to targeted audiences. The goal of this course is to provide students with experiences in storytelling that are delivered through the use of advanced convergent technologies.
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the Academic Policies section of this catalog.

**Admission Statuses**

**Graduate Provisional (PV) Status**

Students who meet all admission requirements in graduate programs except the minimum GPA requirement of 2.50 or 3.00 (see program specific admissions requirements) may be admitted on Provisional status if their entrance GPA is between 2.0 and 2.49 or 2.50 and 2.99 depending on the program of interest. Students admitted on provisional status must achieve a GPA of 3.0 in their University of Phoenix course work at the end of their fourth completed program applicable course to be unconditionally admitted and placed on Admitted status. Failure to meet the minimum grade point average (GPA) of 3.0 by the fourth completed program applicable course will result in a DA (Disqualified Admission) student academic status. Students who are disqualified from their program are not eligible to reenter that program for a minimum of three years and are not eligible for readmission into an alternate program until the lapse of six months from the date of disqualification.

**Program Academic Statuses**

**Program Disqualification**

Effective for new enrollments March 1, 2009 and later Students provisionally admitted (PV), who fail to meet the minimum requirement for admission (AM), will be placed on Program Disqualification (PD) program academic status and Disqualified Admission (DA) academic status. Students who are disqualified from their program are not eligible to reenter that program for a minimum of three years. Students disqualified for admission are not eligible for readmission into an alternate program until the lapse of six months from the date of disqualification. Students may appeal to reenter into the program from which they were disqualified (PD) or any updated version of the program after a lapse of three years.
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the University of Phoenix section of this catalog.

**Purposes**

1. To facilitate cognitive and affective student learning—knowledge, skills, and values—and to promote use of that knowledge in the student’s workplace.
2. To develop competence in communication, critical thinking, collaboration, and information utilization, together with a commitment to lifelong learning for enhancement of students’ opportunities for career success.
3. To provide instruction that bridges the gap between theory and practice through faculty members who bring to their classroom not only advanced academic preparation, but also the skills that come from the current practice of their professions.
4. To provide General Education and foundational instruction and services that prepare students to engage in a variety of university curricula.
5. To use technology to create effective modes and means of instruction that expand access to learning resources and that enhance collaboration and communication for improved student learning.
6. To assess student learning and use assessment data to improve the teaching/learning system, curriculum, instruction, learning resources, counseling and student services.
7. To be organized as a for-profit institution in order to foster a spirit of innovation that focuses on providing academic quality, service, excellence, and convenience to the working student.
8. To generate the financial resources necessary to support the University’s mission.

**Program Accreditation**

**College of Nursing Programs**

The Bachelor of Science in Nursing and Master of Science in Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

CCNE
One Dupont Circle, NW, Suite 530
Washington, DC 20036

Additional Admission Requirements for the BSN

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

• Current employment is not a requirement for admission.

• Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  • Guam
  • American Samoa
  • Northern Mariana Islands
  • US Virgin Islands

• Non-military students who enroll in this program while living in the US and then move outside of the U.S. and its territories must change to the International version of the degree -BSN-I. Students must sign a new Enrollment Agreement for the international version of the degree. Students must: 1) notify their campus representative within thirty (30) days of their moving outside the country; 2) update their profile to reflect the new international address; and 3) have a nursing license to practice nursing in the country where they are residing for the BSN practicum or contact an Online College representative.

Note: Nurses with a Puerto Rico License must obtain US licensure for admission.

• Completion of a nursing diploma earned from a recognized school of nursing in the United States; associate degree (any emphasis) earned in the United States from an approved regionally or nationally accredited institution; an associate degree in nursing or post-secondary diploma in nursing or foreign equivalent earned at a recognized foreign institution; California 30 credit option or California BSN approved program.

• Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.

• Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.

• Signed Criminal Background Check Disclosure
• Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
• Signed FERPA Release/Drug Test or Failure to Test Results
ADDENDUM - UPDATED COURSE DESCRIPTION

The following course description is effective as of August 1st, 2012. Please see the updated information below. The new information is underlined and will supersede the existing policy located in the Undergraduate College of Information Systems and Technology section of this catalog.

Bachelor of Science in Information Technology

Course Descriptions for the Concentration in Software Engineering

POS 409 .................................................................................... 3 credits

.NET II
This course extends the facilities of the .NET family of languages. The course focuses on the C# language. Topics covered include designing C# applications, writing and debugging programs, data files and database connectivity.
ADDENDUM - UPDATED POLICY

The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the Undergraduate Education section of this catalog.

Residency Requirements and Course Waivers for the BSED/E

- Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
- Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed and transcripted from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
  - The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
  - The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.
- Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.
- The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 200, RDG 415, SPE 300

Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 200, RDG 415, SPE 300
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the College of Nursing section of this catalog.

**College of Nursing**

The College of Nursing offers both undergraduate and graduate (see the graduate section of this catalog) degrees to prepare students to expand their career options in the dynamic and rapidly changing health care environment.

Undergraduate Programs
- LP/VN to Bachelor of Science in Nursing
- RN to Bachelor of Science in Nursing

Graduate Programs
- Master of Science in Nursing
- Master of Science in Nursing/Healthcare Education
- Master of Science in Nursing/Informatics
- Master of Science in Nursing/Family Nurse Practitioner
- Post Master Certificate - Family Nurse Practitioner
- Master of Health Administration/Master of Science in Nursing
- Master of Business Administration/Health Care Management/Master of Science in Nursing
- Master of Science in Nursing/Master of Health Administration
- Master of Science in Nursing/Master of Business Administration/Health Care Management

The College of Nursing works closely with other academic departments to assure that the students receive appropriate and well-rounded education. The College also works cooperatively with the College of Arts and Sciences to give breadth to the undergraduate experience through the integration of general education and professional course work. The programs are also designed to assure that computer competencies are incorporated into the curriculum. Students/Candidates in the College of Nursing may be required to take a proctored exam as part of their curriculum.

**Nursing**

The Nursing programs are designed to respond to the educational needs of licensed nurses. The College offers employed nurses opportunities to participate in accredited degree programs developed to broaden their professional horizons. The Bachelor of Science in Nursing and Master of Science in Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC 20036; (202)887-6791.

**Nursing Programs**

The Bachelor of Science in Nursing (BSN) program should address the accreditation by the Commission on Collegiate Nursing Education (CCNE)*

* For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036; (202)887-6791.
ADDENDUM - UPDATED POLICY

The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supersede the existing policy located in the College of Nursing section of this catalog.

College of Nursing

The College of Nursing was established to respond to the educational needs of registered nurses and health care professionals. The College offers working nurses and health care professionals opportunities to participate in degree programs developed to broaden their professional horizons. These programs are designed specifically for nurses and health care professionals who desire a repertoire of skills and knowledge necessary to respond effectively to today’s dynamic health care environment. They also equip students with essential skills necessary to assume a leadership role in resolving the challenges being faced by health care organizations and personnel.

Each program has a blend of theory and practice which fosters a learning environment that allows students to build their knowledge base and to effectively and creatively apply what they have learned.

The MSN Programs are developed for nurses who want to ground their professional nursing decisions and actions with appropriate nursing theories, research principles, and practices. The MSN curriculum builds on baccalaureate education through the development of advanced practice roles of caregiver, teacher, and manager of care. In addition, there is a MSN/FNP Program and FNP Post-Masters Certificate available at selected University of Phoenix campuses. Students/Candidates in the College of Nursing may be required to take a proctored exam as part of their curriculum.

The MSN/MHA and MSN/MBA/HC Dual Degree Programs allow nurses to blend advanced nursing concepts with business and management skills need in health care today.

Nursing Programs

All Master of Science in Nursing programs should address the accreditation by the Commission on Collegiate Nursing Education (CCNE)*

* For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036; (202)887-6791.
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the Graduate Nursing section of this catalog.

**Additional Admission Requirements for the MSN/MHA**

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Current employment in a nursing or healthcare role or access to an appropriate healthcare organization environment in which to complete the work related course assignments.
- Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
- Non-military students who enroll in the MSN program while living in the US and then move outside of the US, and its territories must change to the International version of the degree -MSN/I. The International version of the MSN/I does not offer any specializations such as Informatics or Health Care Education. Students must sign a new Enrollment Agreement for the international version of the degree. Students must: 1) notify their campus representative within thirty (30) days of their moving outside the country; 2) update their profile to reflect the new international address; and 3) have a nursing license to practice nursing in the country where they are residing for the MSN practicum or contact an Online College representative.
- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.

*Note: Nurses with a Puerto Rico License must obtain US licensure for admission*

- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

---

**Additional Admission Requirements for the MSN/MBA/HC**

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Current employment is not a requirement for admission.
- Students must have access to an appropriate healthcare organization environment in which to complete the work related course assignments.
- Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
- Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the International version of the degree -MSN-I. The International version of the MSN/I does not offer any specializations such as Informatics or Health Care Education. Students must sign a new Enrollment Agreement for the international version of the degree. Students must: 1) notify their campus representative within thirty (30) days of their moving outside the country; 2) update their profile to reflect the new international address; and 3) have a nursing license to practice nursing in the country where they are residing for the MSN practicum or contact an Online College representative.
- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement. **Note:** Nurses with a Puerto Rico License must obtain US licensure for admission
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will superecede the existing policy located in the Graduate Nursing section of this catalog.

ADDENDUM - UPDATED POLICY

The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will superecede the existing policy located in the Graduate Nursing section of this catalog.

Master of Science in Nursing

The Master of Science in Nursing (MSN) program, accredited by the Commission on Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate degree preparation. The program prepares nurses for advanced practice to function in leadership roles in practice and educational settings. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care.

Students complete core courses in advanced nursing content and process, as well as on leadership skills. Specializations assist students to concentrate on developing increased knowledge and/or skills in specific area of content or advanced practice role. Thirty-nine credits are required for completion of the degree. The course sequence will be completed in the order determined by the University. The University reserves the right to modify and/or resequence the curriculum as necessary. All course work must be completed satisfactorily or be repeated. All courses that do not meet the required minimum grade must be repeated.

* For more information about accreditation, please contact CCNE at One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202)887-6791

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/msn.

Additional Admission Requirements for the MSN

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.
- Current employment is not a requirement for admission.
- Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
- Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the International version of the degree - MSN-I. The International version of the MSN/I does not offer any specializations such as Informatics or Health Care Education. Students must sign a new Enrollment Agreement for the international version of the degree. Students must: 1) notify their campus representative within thirty (30) days of their moving outside the country; 2) update their profile to reflect the new international address; and 3) have a nursing license to practice nursing in the country they are residing for the MSN practicum or contact an Online College representative.

Note: Nurses with a Puerto Rico License must obtain US licensure for admission

- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Addendum
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the Graduate School of Business section of this catalog.

**Residency Requirements and Course Waivers for the MM**

The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 30 graduate level credits at the University.

Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years with a "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived from the degree program: MGT 527, MGT 598.

The School of Advanced Studies offers a bridge opportunity for masters degree students who are interested in taking doctoral courses as part of the masters degree program. The School of Advanced Studies has created a bridge opportunity for master’s degree students who are interested in taking doctoral courses as part of the master’s degree program. Our goal is to encourage students to enroll in doctoral programs at University of Phoenix.

In this bridge program, a master’s degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master’s degree program.

All credit-bearing doctoral courses must be completed with a grade of "B-" or better. Students who earn a grade lower than a "B-" will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.
The following policy is effective as of August 1st, 2012. Please see the updated policy information below. The new information is underlined and will supercede the existing policy located in the Graduate Education section of this catalog.

ADMIN 591C ................................................................. 1 credit

Administrative Internship Part III: Professional Practice

This internship experience provides comprehensive field-based training designed to develop competencies needed by school principals with an emphasis on community and media relations. Application of all principles and techniques of planning, managing, leadership, problem solving, organizing, working with the media, and community relations will be addressed.
The following program(s) is(are) approved to be offered effective August 1, 2012. Please see the program description(s), course requirements, required courses, additional course descriptions and any other programmatic requirements listed below.

The Bachelor of Science in Human Services

The following Bachelor of Science in Human Services (BSHS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Human Services program curriculum at University of Phoenix employs an interdisciplinary approach for assimilating theory, knowledge, skills and core competencies of today’s human service professional. The conceptual framework of the program draws from a range of human service domains such as counseling, biopsychosocial development, human systems and social change, social work, psychology, and management theories. The program is designed with experiential components, integrated within the academic foundation, to provide students with experience as service providers in a range of human service settings in both private and public sectors. The Human Services program’s interdisciplinary design builds core skills and competencies based on established methods for delivering a variety of direct service roles in the wide-ranging field of human services. In addition to completing core curriculum courses, students must declare and complete courses in an area of concentration selected from the following: 1) Management, 2) Addictions, 3) Family and Child Services, 4) Gerontology. Upon graduation from the program students will be qualified for Registry as Mental Health Facilitators with the National Board for Certified Counselors-International and prepared academically to sit for the Human Services-Board Certified Practitioner examination administered by the Center for Credentialing and Education. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bshs.

Required Course of Study for the BSHS

Courses requiring prerequisites are identified by a ~ symbol following the course number.

BSHS 305 ~ ................................................................. 3 credits

Historical Development of Human Services: An Introduction

Prerequisite is for B Track only

BSHS 325 ~ ................................................................. 3 credits

Human Systems and Development

Prerequisite is for B Track only

BSHS 335 ~ ................................................................. 3 credits

Ethics and Values for Human Service Professionals

BSHS 345 ~ ................................................................. 3 credits

Diversity and Special Populations

BSHS 415 ~ ................................................................. 3 credits

Field Experience I

BSHS 425 ~ ................................................................. 3 credits

Administration & Management of Human Service Programs

BSHS 435 ~ ................................................................. 3 credits

Research & Statistics in Human Services

BSHS 445 ~ ................................................................. 3 credits

A Survey of Crisis and Mental Health Issues and Interventions

BSHS 455 ~ ................................................................. 3 credits

Working With Addictions

BSHS 465 ~ ................................................................. 3 credits

Professional Development and Identity

BSHS 475 ~ ................................................................. 3 credits

Field Experience II

BSHS 485 ~ ................................................................. 3 credits

Capstone: Advocacy and Creating Social Change

Concentration in Addictions

BSHS 456 ~ ................................................................. 3 credits

Addiction Interventions for Human Service Workers

BSHS 457 ~ ................................................................. 3 credits

Codependence & Working with Families

BSHS 458 ~ ................................................................. 3 credits

Action Planning, Relapse Prevention & Aftercare

Concentration in Family and Child Services

BSHS 406 ~ ................................................................. 3 credits

Family and Social Systems: Contemporary Trends

BSHS 407 ~ ................................................................. 3 credits

Family Violence Across the Lifespan: A Multi-Strata Problem

BSHS 408 ~ ................................................................. 3 credits

Childhood Abuse and Neglect

Concentration in Gerontology

BSHS 437 ~ ................................................................. 3 credits

Social Systems and Aging

BSHS 438 ~ ................................................................. 3 credits

Care for Aging Populations

BSHS 439 ~ ................................................................. 3 credits

Grief, Loss and End of Life Issues
Concentration in Management
BSHS 426 ~ ................................................................. 3 credits
Human Services Management: Theory & Practice
BSHS 427 ~ ................................................................. 3 credits
Critical Thinking Skills in Management Decision Making
BSHS 428 ~ ................................................................. 3 credits
Human Services Program Design & Proposal Writing

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BSHS
All applicants are expected to meet the following admissions requirements:
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

Degree Requirements for the BSHS
- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 60 upper division credits.
  - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  - A minimum grade point average (GPA) of 2.0.
  - Students will declare a concentration at the time of enrollment.
  - The diploma awarded for this program will read as: Bachelor of Science in Human Services and will not reflect the concentration or emphasis. Concentrations and emphases are reflected on the transcript only.

Academic Progression Requirements for the BSHS
All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.

- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.

Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must enroll in the first course as outlined in the Required Course of Study for this program (BSHS 305) and are not required to enroll in the First-Year Sequence. See Preferred Sequence and Prerequisites section of policy for specific course requirements for this program.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

General Education Requirements for the BSHS
A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
(A Track must include: COMM 215, equivalent or higher)
(B Track must include COM 170 and COM 172)
Mathematics, 6 credits
Must include MTH 209 or higher
Science and Technology, 6 credits
(B Track must include: SCI 163)
Must include at least three credits in physical or biological sciences
Humanities, 6 credits
(B Track must include: HUM 114)
Social Science, 6 credits
(B Track must include: PSY 211)
Additional Liberal Arts, 6 credits
Interdisciplinary Requirements, 18 credits
(B Track must include: FP 120)
Students who lack 67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
Residency Requirements and Course Waivers for the BSHS

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: BSHS 305, BSHS 415, BSHS 415O, BSHS 475, BSHS 485.

Field Experience for the BSHS

The BSHS programs include two field experience courses: BSHS 415 and BSHS 475. Each field experience course is 15 weeks in length. These courses require at least 175 hours of field experience, or an average of 12 hours per week committed to a community human services placement site. Weekly seminars (2 hours per week) are provided to offer support and supervision of the student activities during their field experience.

Students in the Bachelor of Sciences in Human Services program may not enroll in BSHS 415 and BSHS 475 with other BSHS courses.

Course Description for the BSHS

BSHS 305 ..................................................................................3 credits

Historical Development of Human Services: An Introduction

In this course students will learn the historical roots of human services and the creation of the human services profession. An investigation of current and historical legislation and how legislation is influenced by public and private attitudes provides a foundational understanding of basic human services ideology. A deep exploration of economic and governance systems affecting service delivery serves to develop essential skills for understanding and interpreting historical dynamics related to advocacy and social change initiatives in human services. Analysis of historical data and exposure to the range of political perspectives facilitates a general introduction and integration to the overall experience of the human service worker’s investment in the multidimensional field. Students will complete Module 1 of the MHF training.

BSHS 325 ..................................................................................3 credits

Human Systems and Development

Students will demonstrate a basic understanding of human development across the lifespan and of systems for meeting fundamental human needs. The course provides perspectives on individual roles in families, groups, and interpersonal relationships in communities, society, and organizations. Essential coursework components of human systems and development include theories of group dynamics and diversity, culture, aspects of human sexuality, social systems theory, and general processes effecting both developmental and social change. Students will complete Module 8 of the MHF training.

BSHS 335 ..................................................................................3 credits

Ethics and Values for Human Service Professionals

In this course students will become familiar with ethical standards for human service workers as outlined by the National Organization for Human Services (NOHS). An emphasis is placed on understanding concepts of least intrusive intervention, least restrictive environment, facilitating client self-determination, appropriate professional boundary maintenance, and employing interdisciplin ary team approaches to problem-solving. Students will demonstrate understanding of requirements for client confidentiality, electronic record keeping, and portability of client information.

BSHS 345 ..................................................................................3 credits

Diversity and Special Populations

The emphasis of this course is on the context of diverse social systems including roles of ethnicity, gender, sexual orientation, cultural dynamics, socio-economic status, variations of learning styles, and individual ability in evaluation and client needs assessment. To complete this course, a student must demonstrate knowledge and understanding of human limitations and capacity, and of the resilient nature of humans. The course involves an exploration of special populations to include individuals with disabilities, economically disadvantaged families and foster children, single parents including single pregnant women, displaced homemakers, individuals with barriers to educational achievement (including those with limited English proficiency), the aging and elderly, individuals preparing for nontraditional employment, tribal communities, refugees and immigrants, and underserved or hard-to-serve populations in general. Students will complete Module 9 of the MHF training.

Addendum
BSHS 355 .................................................................................. 3 credits

**Delivery of Human Services: Theory and Practice**

This course facilitates identification of specific human needs and conditions, which are the core of the human services profession, and the range of human service delivery systems that address them. The conditions most often encountered with addictions and chemical dependency, aging populations, crime, mental and physical illnesses, poverty, delinquency and developmental disabilities will be explored in depth. On completion of this course students will demonstrate knowledge of theory and skills necessary for employing the major models of human service delivery at individual, group and community levels with attention to global influences effecting social policy and the political and ideological perspectives on human services delivery internationally. Students will complete Module 2 of the MHF training.

BSHS 375 .................................................................................. 3 credits

**Information Management Systems & Technology in Human Services**

This course provides the foundation for appropriate integration and use of information management systems crucial to the delivery of human services. Skills developed include methods of obtaining, organizing, analyzing, evaluating, maintaining and disseminating information. Domains addressed in the course involve the application of confidentiality guidelines and the appropriate use of client data, utilizing technology to assist in conducting needs assessments and basic program evaluation, and accessing research literature for advocacy and education initiatives. Basic computer skills such as word processing and the use of spreadsheets for maintaining a database are addressed along with a survey of assistive technology available for a range of special needs populations.

BSHS 415O ................................................................. 0 credits

**Orientation to Field Experience**

This course will provide an overview of the expectations and requirements for a successful Field Experience. Students will be provided with information regarding field placement with approved sites, documentation of field experience, and requirements for supervision. Orientation is offered well in advance of the first Field Experience course, BSHS/ 415 to provide students ample time for field site selection. (0 credits) Prerequisite: BSHS 375. May not be taken as Directed Study.

BSHS 385 ................................................................. 3 credits

**Interpersonal Communication & Interviewing Skills**

Human Services delivery requires expertise in communicating well with a wide range of people and groups. A key component of effective communication is the development of genuine positive regard for others, skill in establishing empathic relationships, and obtaining information needed for effective intervention with successful outcomes. This course provides knowledge of theory and practice in interpersonal communication. Students will learn skills for resolving conflict, establishing positive rapport, assisting clients in becoming clear about goals and focusing on outcomes, and practicing professional and ethical behaviors in all client interactions. Students will complete Modules 3, 4, 5 and 6 of the MHF training.

BSHS 395 ................................................................. 3 credits

**Client Assessment and Plan Development**

This course enables students to understand the process of conducting needs assessments, developing an action plan for services, implementing the action plan, and subsequent evaluation of outcomes. Students will learn the process of developing goals and measurable objectives, designing an individualized program for clients, implementing the program, and using ongoing assessment and evaluation of results to revise or modify individualized programs. Students will demonstrate competency in identifying needs, and mobilizing resources and necessary supports for assisting clients in meeting goals. Students will complete Module 10, 11 and 12 of the MHF training.

BSHS 405 ................................................................. 3 credits

**Intervention, Direct Service Delivery & Case Management**

This course provides an overview of the role of the human service worker as a change agent with a focus on the application of theory and skills necessary for providing interventions and direct service delivery to individuals and groups. Specifically, students will develop competence in professional skills such as case management, client intake and interviewing, and basic group and individual counseling techniques. Additionally, students will learn how to access resources, use consultation, and make referrals. Students will complete Module 16 of the MHF training.

BSHS 415 ................................................................. 3 credits

**Field Experience I**

This is a 15-week course requiring at least 175 hours of field experience, or an average of 12 hours per week committed to a field placement site. Students will work in a human services setting under the supervision of a qualified professional. In addition to providing direct service, students will attend a weekly 2-hour class for faculty supervision and evaluation of core competency development. Typical activities of a field placement involve employing skills acquired so far in the program progression: conducting interviews, working directly with clients and groups, developing action plans and documenting. Students will complete Modules 13 and 14 of the MHF training.

BSHS 425 ................................................................. 3 credits

**Administration & Management of Human Service Programs**

Administration and management involve components of indirect services associated with systematic delivery of direct human services. Students will learn theories of strategic planning, human resource management, strategies for evaluation and planning the development of human service organizations, elements of agency operations, risk management, budgeting, and fiscal acquisition through grant writing and contract negotiation. The emphasis of this course is on leadership development, and managing professional and volunteer staff. Additional content areas addressed in the course involve advocacy efforts and grass roots movements focused on constituency building.
BSHS 435 .................................................................................................................................. 3 credits

Research & Statistics in Human Services
This course provides an overview of research methods and appropriate use of statistics in the social sciences. A component of program development and evaluation involves knowledge of theory related to understanding research and statistics in the human services arena. The scientific method, research tools, data collection, and analysis will be reviewed. Understanding research and developing the ability to critically evaluate published research reports will be emphasized. Statistical concepts will be reviewed, and students will gain a conceptual understanding of underlying principles of research and statistical analysis. Statistical software will be introduced, and students will compute descriptive and inferential statistical data. Students will practice developing research designs and conducting statistical analyses.

BSHS 445 .................................................................................................................................. 3 credits

A Survey of Crisis and Mental Health Issues and Interventions
In this course students explore the relationship between mental health and human service delivery systems in the United States as well as global initiatives for improving the international service-base. Students will learn to define and describe the nature and process of crisis and the impact of trauma-causing events on the mental health of diverse clients. Students will compare and contrast the range of service delivery modalities and networks, including the operation of emergency management systems, and will demonstrate understanding of roles and skills needed when services are provided in emergency and crisis situations. The course facilitates development of skills necessary for assessing and managing suicide risk. Students will complete Module 15 of the MHF training.

BSHS 455 .................................................................................................................................. 3 credits

Working With Addictions
This course introduces students to the biology of addiction, including brain reward mechanisms, the role of environment and genetics, psychodynamics, and the impact of addiction on individuals, families, and communities. The roles of addiction in society in relationship to the judicial system, treatment systems, progressive era reforms, and complications of dual diagnosis are emphasized in the course. The course examines major models of conceptualizing and integrating prevention, intervention, rehabilitation and maintenance/relapse prevention. Students will learn strategies for accessing supportive measures and case management processes for developing wrap-around action plans for service delivery to individuals and groups with addiction and chemical dependence related issues.

BSHS 465 .................................................................................................................................. 3 credits

Professional Development and Identity
In this course students will explore processes for enhancement of self-awareness and the effect of personal style and personality on human service delivery. Students will examine personal values, cultural differences and biases, individual philosophies and belief systems then integrate this understanding of self into the development of an identity as a human service professional. Students will demonstrate strategies for cultivating self-awareness and modeling self-care. Students will investigate the value of membership in supportive professional organizations such as the National Organization for Human Services (NOHS). Students will complete Module 17 of the MHF training.

BSHS 475 .................................................................................................................................. 3 credits

Field Experience II
This is a 15-week course requiring at least 175 hours of field experience, or an average of 12 hours per week committed to a community human services placement site. Weekly seminars (2-hours per week) are provided to offer support and supervision of the student activities during their field experience. Students will learn to present issues for supervision. Each student will create a portfolio of his or her competencies and accomplishments for career purposes. This course requires accumulation of the total 350 service hours necessary for graduation from the program (the first 175 hours were compiled in BSHS/415, FE I) and demonstration of a professional attitude and disposition as evaluated in 8 domains: Professionalism, Personal Growth, Sensitivity, Flexibility, Emotional Maturity, Group Membership Skills, Accepting Feedback, and Relationship with Authority. Students will complete Modules 7 and 18 of the MHF training.

BSHS 485 .................................................................................................................................. 3 credits

Capstone: Advocacy and Creating Social Change
This course is the culmination of the BSHS program with a focus on the basic tenets of client advocacy efforts and the processes of creating social change. As human services professionals, students will demonstrate strategies for using their knowledge and skills for understanding and helping clients. The Capstone Project asks students to develop an advocacy action plan that addresses a local need they have determined utilizing a community needs assessment. Students will complete Module 19 of the MHF training.

COMM 215 .................................................................................................................................. 3 credits

Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 200 .................................................................................................................................. 3 credits

Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 .................................................................................................................................. 3 credits

Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

Addendum
Action Planning, Relapse Prevention & Aftercare
This course provides advanced skills development for the addiction and chemical dependency human service worker. Students will conduct an in-depth evaluation of various treatment approaches employed when preparing action plans with clients. An investigation of comprehensive treatment programs, community action programs, school-based programs, and public health approaches to relapse prevention and aftercare strategies will provide students an opportunity to develop and present an individualized program for a fictional client. Students will demonstrate an understanding of policy issues, managed care, private and public insurance, and advocacy for the consumer in relation to addiction and dependency issues.

Course Descriptions for the Concentration in Family and Child Services

BSHS 406 .................................................................................. 3 credits
Family and Social Systems: Contemporary Trends
Theories of public and private families, as differentiated by societal interaction, are explored with a focus on family systems as they exist within social systems. Micro and macro family environments are investigated. Students will examine theories involving the interconnected and interdependent features of contemporary families in a range of social systems. Topics include the family, the state, and social policy with historical perspectives from federal and state legislation. Students will debate current trends in social policy, the efficacy of social welfare systems on a global scale, and demonstrate an understanding of the concept of practical compromise. Roles of the human service worker as advocate and service provider in the family systems context will be addressed.

BSHS 407 .................................................................................. 3 credits
Family Violence Across the Lifespan: A Multi-Strata Problem
This course explores the phenomenon and social problem of family violence with both macro- and micro-theory explanations and an in-depth literature review. Students will demonstrate an understanding of assessment strategies, consequences and contributing factors of family violence across socio-economic strata and the full range of diverse populations experiencing family violence. Attention is focused on professional and social responses that include clinical interventions, educational initiatives within schools, and responses to the disclosure of family violence in agency and private settings. Skills to develop a human services approach to preventing family violence are enhanced in this course; students are required to outline their own personal and professional roles in the movement to end family violence.

BSHS 408 .................................................................................. 3 credits
Childhood Abuse and Neglect
This course focuses on the segment of family violence involving physical child abuse, child sexual abuse and exploitation, child neglect and psychological maltreatment of children. Students will examine the scope of these problems and the characteristics of both victims and perpetrators while conducting a search for patterns and dynamics of each distinction. Students will demonstrate knowledge and understanding of reporting requirements, treatment interventions, repressed memory controversy, working within the criminal justice system and the tenets of the Children’s Justice Act addressing investigation, prosecution and judicial handling of abuse and neglect cases. Areas of focus involve various forms of each category including indicators for the range of abuses on an international scale with child labor, slavery, and child prostitution issues.

Addendum
Course Descriptions for the Concentration in Gerontology

BSHS 437 .................................................................................. 3 credits

Social Systems and Aging
This course traces the origins of social systems for the aging around the world, followed by an examination of program types, the effects on retirement, demographic changes, political sustainability of social programs for the aging, institutional settings and labor supply. Students will define and measure population aging by comparing and contrasting U.S. data with other countries by exploring elderly dependency and age-dependency ratios. Additional topics for discussion and demonstrated understanding by students include: the biology of aging and the pathology of memory, disengagement theory, mental health issues such as depression, suicide, and the psychology of aging, the aging family and changes in family structure, intra- and inter-generational relationships across various societies, and healthful aging ideology.

BSHS 438 .................................................................................. 3 credits

Care for Aging Populations
The course is an exploration of various living environments for aging and elderly including retirement communities, living with relatives and/or children, independency, assisted living, the goodness-of-fit between lifestyle and housing, and managing long-term care. Students will demonstrate knowledge of segregated versus age-integrated residential settings and the impact on residents. An in-depth investigation of care-related issues across the growing aging population will include topics such as chronic illness, subsidized and unsubsidized healthcare related expenses, and needs assessment protocol. The basic model and principles of integrative, interdisciplinary healthcare is presented as the foundation for a team approach to the development of intervention plans, strategies of care, and implementation.

BSHS 439 .................................................................................. 3 credits

Grief, Loss and End of Life Issues
In this course students will learn strategies for facilitating the transition from curative measures to palliative care for the relief of emotional/psychological distress, pain, and a range of physical symptoms. Core competencies involve demonstrated learning of methods for anticipating the demands of end-of-life caregiving including advanced directives, 24/7 services, hospice case management, care and placement options, and easing the common challenges as individuals and families move from care and grief modalities to acceptance and healing. Students will demonstrate understanding of patient and caregiver needs and roles in late life care with topics that include: practical care assistance and early preparation, referral for financial and legal assistance, comfort and dignity issues, respite care, grief support, focusing on client values and concerns, and addressing family conflict.

Course Descriptions for the Concentration in Management

BSHS 426 .................................................................................. 3 credits

Human Services Management: Theory & Practice
This course traces the historical context of human services management as it relates to current theory and practice. Students will examine strategies for managing an integrated, diverse workforce and prepare to be generalists, understanding the scope of leading an organization with commonly encountered agency pressures. Students will employ learned management practices to inspect, distinguish, and measure the important attributes of program management and supervision. By demonstrating a basic understanding of organizational behavior and the challenges of embracing workforce diversity, dynamic systems change, performance evaluation and effective communication with a range of Para-professional and professionals, students will explore their roles as managers in the growing human services field.

BSHS 427 .................................................................................. 3 credits

Critical Thinking Skills in Management Decision Making
This course will familiarize students with strategies related to making sustainable decisions. Techniques used to make decisions, solve problems and lead environments will be explored. Concepts of strategic planning, organizing and leading are examined to link these basic principles to create a healthy and thriving workplace environment. Specific details to human services are considered and methods for service delivery to needs-based populations and the workers who serve in this capacity. Students are introduced to, and will demonstrate understanding of, the Six Sigma elements and five-step approach for process improvement.

BSHS 428 .................................................................................. 3 credits

Human Services Program Design & Proposal Writing
This course introduces students to the purposes, challenges and benefits of program design and grant writing. Students will review components of each and conduct a needs assessment and develop a business case for implementation on program design. Special attention will be given to research for finding available funding sources and how to form important partnerships. Students explore the methods of research using quantitative, qualitative and mixed-method program design concepts. Students will examine concepts of logic models and their impact on people, processes, and conditions related to program design. Using a specific framework, learners will uncover funding possibilities and use tools to prepare for the rigor related with grant writing. Resources and tools to secure funding for state, federal and private human services programs and agencies are examined. Students will be introduced to the processes, obstacles and costs associated to grant writing and program design.

Addendum
Bachelor of Science in Criminal Justice Administration

The Bachelor of Science in Criminal Justice Administration is designed to provide students with a strong foundation in criminal justice principles, concepts, and theories, as well as a practice orientation to justice administration. The degree offers courses related to specific areas of criminal justice within the domains of policing, courts, corrections, and security.

The mission of the Bachelor of Science in Criminal Justice Administration is to provide students with a strong foundation in criminal justice principles, concepts, and theories, as well as a practice orientation to justice administration. The degree offers courses related to specific areas of criminal justice within the domains of policing, courts, corrections, and security.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bscja.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

**BSCJA Foundation Courses**
- GEN 200 ~ Foundations for General Education and Professional Success 3 credits
- CJA 204 ~ Introduction to Criminal Justice 3 credits
- CJA 214 ~ Introduction to Police Theory and Practices 3 credits
- CJA 224 ~ Introduction to Criminal Court Systems 3 credits
- CJA 234 ~ Introduction to Corrections 3 credits

**BSCJA Required Course of Study**
- CJA 304 ~ Interpersonal Communications 3 credits
- CJA 314 ~ Criminology 3 credits
- CJA 324 ~ Ethics in Criminal Justice 3 credits
- CJA 334 ~ Research Methods in Criminal Justice 3 credits
- CJA 344 ~ Cultural Diversity Issues in Criminal Justice 3 credits
- CJA 354 ~ Criminal Law 3 credits
- CJA 364 ~ Criminal Procedure 3 credits
- CJA 374 ~ Juvenile Justice Systems and Processes 3 credits
- CJA 384 ~ Criminal Organizations 3 credits
- CJA 394 ~ Contemporary Issues and Futures in Criminal Justice 3 credits

**Concentration in Cyber Crimes**
- The BSCJA Cybercrimes concentration provides students with the basic skills needed to recognize relevant sources of electronic evidence and determine how electronic evidence can be used in court proceedings and as part of an organizational security plan. The concentration combines academic instruction in criminal justice and cybercrime concepts to include; the evolution of cybercrime, cybercrime forensics, electronic evidence gathering, and cybercrime investigation and prevention. Students are prepared to provide services in a variety of private and public settings within the criminal justice domains of policing, the courts, corrections, and security.

**Concentration in Security**
- The BSCJA Security concentration is intended to provide students with the knowledge and basic skills to work in Homeland Security and other areas of the criminal justice system that deal with terrorism, counterintelligence, and analysis. This concentration combines academic instruction in criminal justice and security practices to include; risk management, counterterrorism, critical infrastructure protection, and critical incident management. Students are prepared to provide services in a variety of private and public settings within the criminal justice domains of policing, the courts, corrections, and security.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bscja.

**CIS 207 ~ Information System Fundamentals 3 credits**
- BCC 401 ~ Cybercrimes in the 21st Century 3 credits
- BCC 402 ~ Cyber Crime and Role of Law Enforcement Security Personnel 3 credits
- BCC 403 ~ Global Technology and Cyber Crime 3 credits
- CJA 484 ~ Criminal Justice Administration Capstone 3 credits
- BCC 480 ~ Information System Fundamentals 3 credits
- BSS 481 ~ Risk Management Perception and Communication 3 credits
- BSS 480 ~ Information System Fundamentals 3 credits
- BSS 481 ~ Risk Management Perception and Communication 3 credits

**Counterterrorism Intelligence and Analysis**

Addendum
BSS 482 ~ ................................................................. 3 credits
Securing Critical Infrastructure and Cyberspace
BSS 483 ~ ................................................................. 3 credits
World View of Homeland Security
CJA 484 ~ ................................................................. 3 credits
Criminal Justice Administration Capstone

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BSCJA
• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited by or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
• Applicants must be currently employed or have access to a work environment.
• Signed Criminal Conviction ProhibitionAcknowledgement Form

General Education Requirements for the BSCJA
A minimum of 54 credits of the 120 credits in the following general education areas approved by the University:
Communication Arts, 6 credits
Mathematics, 6 credits
Science and Technology, 6 credits
Must include at least three credits in physical or biological sciences
Humanities, 6 credits
Social Science, 6 credits
Additional Liberal Arts, 6 credits
Interdisciplinary Requirements, 18 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Degree Requirements for the BSCJA
• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 45 upper division credits.
  • A minimum of 54 credits of the 120 credits must be in the general education areas approved by the University.
  • A minimum program grade point average (GPA) of 2.0.
  • Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.
  • Students will declare a concentration at the time of enrollment.
  • The diploma awarded for this program will read as: Bachelor of Science in Criminal Justice Administration and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the BSCJA
All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:
• First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
• GEN 195 will be required as the first course in the First-Year Sequence.
• HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
• With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  • University of Phoenix coursework,
  • Regionally or nationally accredited coursework (C- or higher grade),
  • University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  • National Testing Programs, and
  • ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must be comparable in content to the university course. It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
• Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)
• Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
• Students may not complete any of the First-Year Sequence courses via Directed Study.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.
Residency Requirements and Course Waivers for the BSCJA

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 15 upper division credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. Students may also waive twelve (12) lower division credits from the required course of study.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years (5 years for Information Security and Technology courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to 30 credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution in which the University has entered into an approved articulation agreement with.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved Articulation Agreement.
- The course must be comparable in content and credits to the University course it is replacing and be approved through the Articulation Agreement.

The following courses in the required course of study may not be waived: GEN 200, CJA 484

Course Descriptions for the BSCJA

GEN 200.................................................................3 credits

Foundations for General Education and Professional Success

This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

CJA 204........................................................................3 credits

Introduction to Criminal Justice

This course is an introductory overview of the organization and jurisdictions of local, state, and federal law enforcement, judicial and corrections agencies, and processes involved in the criminal justice systems. It examines the historical aspects of the police, the courts, and the correctional system, as well as the philosophy. Additionally, career opportunities and qualifying requirements, terminology and constitutional limitations of the system will also be covered.

CJA 214........................................................................3 credits

Introduction to Policy Theory and Practices

This course is an introductory overview which provides students with the opportunity to gain an understanding of policing in the United States. It surveys the basics of police functions, from individual and organizational roles to the issues faced on a daily basis. This course also examines the procedures and methods of operation of police and critical issues in law enforcement.

CJA 224........................................................................3 credits

Introduction to Criminal Court Systems

This course is an introduction and overview of the legal system, the participants, the courtroom process, and post conviction process of the course system. It demonstrates the connection among all participants and how they relate to each other. Additionally, the course covers the history of the court system and the different types of court at the state and federal levels.

CJA 234........................................................................3 credits

Introduction to Corrections

This course is an introduction to the various components of the corrections system within the criminal justice system. It provides an overview of corrections, including corrections history, the persons, agencies, and organizations that manage convicted offenders. Other topics that are covered include; policy and procedure, sentencing, probation, and rehabilitations of prisoners.

Addendum
Criminal Law

This course explores the standards and codes of professional responsibility in criminal justice professions (e.g., Law Enforcement Code of Ethics, ABA Standards of Professional Responsibility, American Jail Association Code of Ethics for Jail Officers, and the American Correctional Association Code of Ethics). It also explores analysis and evaluation of ethical dilemmas, roles of professional organizations and agencies, ethics and community relations, ethics in criminal justice laws and procedures and civil liability in law enforcement and correctional environments.

CJA 334 ..................................................................................... 3 credits

Research Methods in Criminal Justice

Students learn and demonstrate knowledge of research methodology within the criminal justice system and become acquainted with the range and scope of quantitative and qualitative tools available to the criminal justice researcher.

CJA 344 ..................................................................................... 3 credits

Cultural Diversity Issues in Criminal Justice

This course offers a comprehensive, critical and balanced examination of the issues of crime and justice with respect to race and ethnicity. Procedures and policy in a pluralistic and multicultural society are examined relative to law enforcement, courts and corrections environments.

CJA 354 ..................................................................................... 3 credits

Criminal Law

This is an introductory course in the study of criminal law, general legal principles, and how the criminal law functions in and affects modern society. This course highlights a variety of key topics, including the concept of crime and the development of criminal law, defenses to criminal charges, and a number of specific types of crimes, including personal crimes, property crimes, public order crimes, and offenses against public morality. Legal issues affecting punishment will also be discussed, as will ways the criminal law impacts victims of crime.

CJA 364 ..................................................................................... 3 credits

Interpersonal Communications

This course prepares the student to communicate effectively in both written and verbal form. It covers best practices in investigative reporting and interpersonal verbal communication with victims, suspects, and civilians, in a criminal justice setting. Emphasis is placed on practical application of the skills and theories introduced.

CJA 314 ..................................................................................... 3 credits

Criminology

Criminology is an introductory course in the study of crime and criminal behavior, focusing on the various theories of crime causation. This course highlights the causes of crime, criminal behavior systems, societal reaction to crime, and criminological methods of inquiry.

CJA 324 ..................................................................................... 3 credits

Ethics in Criminal Justice

This course explores the standard of professional responsibility in criminal justice professions (e.g., Law Enforcement Code of Ethics, ABA Standards of Professional Responsibility, American Jail Association Code of Ethics for Jail Officers, and the American Correctional Association Code of Ethics). It also explores analysis and evaluation of ethical dilemmas, roles of professional organizations and agencies, ethics and community relations, ethics in criminal justice laws and procedures and civil liability in law enforcement and correctional environments.

CJA 334 ..................................................................................... 3 credits

Contemporary Issues and Futures in Criminal Justice

This course examines both the principle issues in contemporary criminal justice as well as the extrapolation of such issues toward possible futures within the criminal justice field. Students will focus upon relevant research in policing, courts, and corrections that reflects key elements of current conditions and what may be expected in the years to come. Students will apply critical review and engage in-depth discussion of these concepts as a basis for comprehensive understanding at local, state, national, and global levels of criminal justice administration.

COMM 215 .............................................................................. 3 credits

Addendum
GEN 101 ................................................................................... 3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 ................................................................................... 3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University Library and learn how to access its resources successfully.

Course Descriptions for the Concentration in Cyber Crimes
CIS 207...................................................................................... 3 credits
Information System Fundamentals
This course introduces the fundamentals of computer systems and the role of information processing in today’s business environment. An overview is presented of information systems, systems development, operating systems and programming, database management, networking and telecommunications, and the Internet.

BCC 401.................................................................................... 3 credits
Cybercrimes in the 21st Century
This course explores developments and changes in the practice of criminal justice brought about by technology and crime as well as the rapid technological change in computers, and other Internet access devices. Specific topics include: Cybercrime, how different Cybercrimes are committed, the rapid evolution of technology and its effects on crime, Cybercrimes against persons, and criminal justice agencies involved in the investigation and prevention of Cybercrimes. The new skills and knowledge gained in this course will add to the protection, safety, and security of our society.

BCC 402.................................................................................... 3 credits
Cyber Crime and Role of Law Enforcement Security Personnel
This course explores the developments and changes in the role of Law Enforcement and Security officials in their investigation of Cyber Crimes. Specific topics include: Cyber Crime Forensics, obtaining Search Warrants for Cyber Crimes, jurisdictional issues in Cyber Crimes, Law Enforcement Issues in Cyber Crimes, and Personal and Corporate security and the Prevention of Cyber Crimes. Upon completion of this Cyber Security Course, students will have new skills, and knowledge that will help them with their personal goals, aid their present or future organizations, and as leaders provide service to their communities.

BCC 403.................................................................................... 3 credits
Global Technology and Cyber Crime
In this course, students will study how global technology is used to further cybercrime. Topics in this course will include Homeland Security and Cyber Technology, Global Technology Threats to the United States, Preventing and Fighting Global Technology Crime, The Role of Local and Federal Agencies in Preventing and Investigating Global Technology Crimes, and will explore the Future of Cyber Law Enforcement and Security to Prevent and Fight Global Cyber Crimes. The new skills and knowledge gained by the students will aid them in their current or future professional endeavors.

CJA 484..................................................................................... 3 credits
Criminal Justice Administration Capstone
This capstone course for the criminal justice administration undergraduate degree program provides students with an integration of acquired knowledge of theory to practical applications. Particular attention is given to integrating core content of criminal justice administration with specialized content from students’ selected concentration area. Students will assess the impact of their educational experiences on their professional competence and values, critical thinking and problem solving, communication, information utilization, and collaboration skills.
The Bachelor of Science in Business

The following Bachelor of Science in Business (BSB) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Business (BSB) undergraduate degree program is designed to prepare graduates with the requisite knowledge, skills, and values to effectively apply various business principles and tools in an organizational setting. The BSB foundation is designed to bridge the gap between theory and practical application, while examining the areas of accounting, critical thinking and decision-making, finance, business law, management, marketing, organizational behavior, research and evaluation, and technology. Students are required to demonstrate a comprehensive understanding of the undergraduate business curriculum through an integrated topics course. Courses requiring prerequisites are identified by a ∼ symbol following the course number.

BSB Program Category Requirements - A Track and B Track

**Introductory Course, 3 total credits**
- GEN 200 (For A Track only) ....................................................3 credits

### Course Descriptions for the Security

**Risk Management Perception and Communication**

In this course, students will explore different global and regional threats; integrate security decision concerns with antiterrorism resource allocation; examine the psychological perception of the risk of terrorism threats; evaluate security plans; and discuss the role of the media in regards to accuracy and timely reporting. The knowledge and skills developed in this course will help prepare students for service in local and global security environments.

**Counterterrorism Intelligence and Analysis**

This course explores developments and changes in the practice of security operations brought about from global and local terrorist threats to different organizations. Students in this course will study the typology and anatomy of terrorist operations; evaluate intelligence and information sharing in counterterrorism; examine counterterrorism analysis methods and Global Security tactics; discuss international ethical and legal issues in counterterrorism; and analyze technology Issues in counter terrorism. The new skills and knowledge gained will add to the protection, safety, and security of our society.

**Securing Critical Infrastructure and Cyberspace**

This course explores the developments and changes in security operations to secure the critical infrastructure in both the public and private environments. Students will explore the critical infrastructure and interdependency; evaluate cyber security in post 9/11 global security; discuss cyber security and property assets; develop proactive planning for protection of assets; and analyze border and transportation security issues. Upon completion of this Security Course, students will have new skills, and knowledge that will help them with their personal goals, aid their present or future organizations, and as leaders provide service to their communities.

**World View of Homeland Security**

Students in this course will develop new skills and knowledge to aid in the protection, safety, and security of our society. Learners will examine public and private security collaboration in Homeland Security response; discuss the leadership task in Homeland Security of controlling the human influence; analyze and understand the political influence on Homeland Security in idea development; compare and contrast jurisdictional responsibilities of Homeland Security programs; and evaluate the goals, objectives, and assessment of Homeland Security measures.

**Criminal Justice Administration Capstone**

This capstone course for the criminal justice administration undergraduate degree program provides students with an integration of acquired knowledge of theory to practical applications. Particular attention is given to integrating core content of criminal justice administration with specialized content from students’ selected concentration area. Students will assess the impact of their educational experiences on their professional competence and values, critical thinking and problem solving, communication, information utilization, and collaboration skills.

Integrated Business Topics

Students must select one concentration in a particular area of study at the time of enrollment.

Students may also complete an additional concentration. Please contact your academic representative for more information.

Environmental Sustainability Concentration

This Environmental Sustainability concentration provides an overview of sustainable practices and applications from the environmental science perspective. Current and historical environmental issues are evaluated by examining the impact these issues have on society and the environment. Sustainable practices are analyzed to determine the relevant course of action for environmental management. This concentration is comprised of five categories: energy, business, agriculture, architecture and green materials, and sustainable ecosystems.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsb-sus.

SUS 300 ~ ................................................................. 3 credits
Environmental Sustainability
ENV 340 ~ ................................................................. 3 credits
Energy and the Environment
SUS 310 ~ ................................................................. 3 credits
Industrial Ecology
SUS 350 ~ ................................................................. 3 credits
Green Building and Urban Planning

Students must choose one of the following courses:
SUS 370 ~ ................................................................. 3 credits
Sustainable Ecosystems
SUS 380 ~ ................................................................. 3 credits
Sustainable Planning and Land Use
SUS 385 ~ ................................................................. 3 credits
Sustainable Ocean Use

The University reserves the right to modify the required course of study. Please note that within each state, concentration availability may vary by campus location.

Additional Admission Requirements BSB

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

• Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSB

• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 45 upper division credits
  • A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  • A minimum program grade point average (GPA) of 2.0.
  • The diploma awarded for this program will read as: Bachelor of Science in Business and will not reflect the concentration. Concentrations are reflected on the transcript only.

General Education Requirements for the BSB

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts Requirement(s) 6 credits
A Track must include: COMM 215, equivalent or higher
B Track must include: COM 170 and COM 172

Mathematics Requirement(s) 6 credits
Must include MTH 209 or higher

Science & Technology Requirement(s) 6 credits
B Track must include: SCI 163
Must include at least three (3) credits in the physical or biological sciences

Humanities Requirement(s) 6 credits
B Track must include: HUM 114

Social Science Requirement(s) 6 credits
B Track must include: PSY 211

Additional Liberal Arts Requirement(s) 6 credits
Interdisciplinary Requirement(s) 18 credits
B Track must include: FP 120

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Addendum
Academic Progression Requirements for the BSB

- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course prerequisites prior to enrolling in any other program applicable course may be satisfied by any of the following means:
  - University of Phoenix coursework.
  - Regionally or nationally accredited coursework (C- or higher grade). University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training), National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence (A Track).
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the BSB

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived: ACC 497, BCOM 275, BPA 406, BUS 475, CPMGT 305, FIN 486, GBM 489, GEN 195, GEN 200, HRM 498, MGT 420, MGT 465, MGT 470, MGT 488, MGT 498, MKT 498, OF 466, SUS 300

Addendum
Course Descriptions for the BSB

GEN 200 ................................................................................... 3 credits
Foundations of General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 195 ................................................................................... 3 credits
Foundations of University Studies
The essential information, skills, tools, and techniques necessary for academic success and personal effectiveness at the University of Phoenix are introduced in this course. The course develops and applies practical knowledge and skills immediately relevant to first-year university students. Course topics include goal setting and working with personal motivation, understanding and using University resources, developing efficient study habits, making the most of personal learning styles, and how best to manage time and reduce personal stress levels.

BCOM 275 ................................................................................... 3 credits
Business Communications and Critical Thinking
This course introduces students to the foundations of communication in a business setting. Students will develop skills in critical thinking and decision making through the forms of written communication, including memos, emails, business letters, and reports. Other topics include communication ethics and cross-cultural communications, personal communication styles, solving organizational problems, and the evaluation of an organization's strategic direction.

BIS 220 ................................................................................... 3 credits
Introduction to Computer Applications and Systems
This course provides an overview of Business Information Systems. Students learn to apply Microsoft Office™ tools including word processing, spreadsheet, database, and presentation software to accomplish business objectives. Other topics include uses of application software and the Internet for effective problem solving, exploration of relevant emerging technologies, and how information is used across different industries.

MGT 230 ................................................................................... 3 credits
Management Theory and Practice
This course explores the rich field of management in theory and practice, and as both a science and an art. Students learn to apply management concepts to current workplace issues. Other topics include increasing competitive forces, expectations for successful performance of employees and organizations, and achieving desired business goals.

MGT 311 ................................................................................... 3 credits
Organizational Development
This organizational behavior course encompasses the study of individual and group behavior in organizational settings. Students will learn to examine their role in an organization. Other topics include strategic elements of organizational behavior, workforce diversity, managing change, effective communication, and performance systems.

ACC 290 ................................................................................... 3 credits
Principles of Accounting I
This course covers the fundamentals of financial accounting as well as the identification, measurement, and reporting of the financial effects of economic events on an enterprise. Students will learn to examine financial information from the perspective of management. Other topics include decision-making, planning, and controlling from the perspective of a practicing manager.

ACC 291 ................................................................................... 3 credits
Principles of Accounting II
This course introduces accounting concepts in a business environment. Students learn to create and apply accounting documents in making better business decisions. Other topics include plant assets, liabilities, accounting for corporations, investments, statements of cash flows, financial statement analysis, time value of money, payroll accounting, and other significant liabilities.

ETH 316 ................................................................................... 3 credits
Ethics and Social Responsibility
This course provides a foundational perspective for ethics and social responsibility in relationship to individuals, organizations, and the community. Emphasis is placed on the inter-related nature of ethics, morality, legal responsibility, and social issues.

ECO 372 ................................................................................... 3 credits
Principles of Macroeconomics
This course provides students with the basic theories, concepts, terminology, and uses of macroeconomics. Students learn practical applications for macroeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

ECO 365 ................................................................................... 3 credits
Principles of Microeconomics
This course provides students with the basic theories, concepts, terminology, and uses of microeconomics. Students learn practical applications for microeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

LAW 421 ................................................................................... 3 credits
Contemporary Business Law
This course reviews the US legal system, common law and its development, organizational structures, and the regulatory environment pertinent to business. Students will learn to critically examine torts, crimes, and business ethics; contracts; business associations (agency, partnerships, corporations); wills, estates, trusts, and other legal entities; securities regulations; and investor protection.

FIN 370 ................................................................................... 3 credits
Finance for Business
This course introduces the student to the essential elements of finance for business. Emphasis is placed on financial management, financial markets, and the tools, techniques, and methodologies used in making financial decisions. Topics include: Financial planning, working capital management, capital budgeting, long term financing, and international finance.
MKT 421 ................................................................. 3 credits
Marketing
This course involves an integrated analysis of the role of marketing within the total organization. Specific attention is given to the analysis of factors affecting consumer behavior, the identification of marketing variables, the development and use of marketing strategies, and the discussion of international marketing issues.

RES 351 ................................................................. 3 credits
Business Research
This course evaluates the process of conducting business research for improving decision making within an organization. Students will learn to apply an understanding of commonly employed business research techniques to improve a situation, solve a problem, or change a process. Other topics include problem framing, data collection, data analysis, and data presentation.

QNT 351 ................................................................. 3 credits
Quantitative Analysis for Business
This course integrates applied business research and descriptive statistics. Students will learn to apply business research and descriptive statistics in making better business decisions. Other topics include examination of the role of statistics in research, statistical terminology, the appropriate use of statistical techniques, and interpretation of statistical findings in business and research.

BUS 475 ................................................................. 3 credits
Integrated Business Topics
The integrated business topics course examines strategic business management while integrating topics from previously completed business foundation coursework. This allows students to demonstrate a comprehensive understanding of the undergraduate business curricula with a significant emphasis placed on the assessment of individual outcomes to determine content mastery.

COMM 215 ............................................................ 3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 101 ................................................................. 3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 ................................................................. 3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

MTH 209 ................................................................. 3 credits
College Mathematics II
This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

SUS 300 ................................................................. 3 credits
Environmental Sustainability Concentration
Students will be presented with a broad treatment of the preservation and efficient use of resources as well as methods of reversing current resource consumption. Topics will include sustainable practices, population growth, hydrologic cycle, water treatment processes, waste management, alternative energies, and energy efficient home or building design.

ENV 340 ................................................................. 3 credits
Energy and the Environment
This course will introduce topics covering a wide variety of alternative energy sources, the need for renewable energy, as well as the problems associated with them. Energy sources will include oil, coal, natural gas, hydroelectric, nuclear, wind, solar, geothermal, tidal, and biofuels.
SUS 310..................................................................................... 3 credits

**Industrial Ecology**
This course introduces students to the field of industrial ecology. Students examine the interaction of industrial activities and the management of resources to minimize the negative impact on the environment due to these activities through the promotion of sustainability. Emphasis is placed on the flow of materials and energy through industrial and technological systems. Topics include technology and society, sustainability, biological and industrial ecology, cost analysis, and life-cycle assessment.

SUS 350..................................................................................... 3 credits

**Green Building and Urban Planning**
This course introduces students to the practices of green building design and urban planning. Students examine the principles of green building with a focus on land use and urban design and development. Upon completion of the course, students are able to evaluate sustainable design considerations, including economic analysis, environmental policies and strategies, land and energy usage, resource and waste reduction, transportation, and urbanization.

Students must choose one of the following courses:

SUS 370..................................................................................... 3 credits

**Sustainable Ecosystems**
In this course, students evaluate the principles of sustainable practices in aquatic and terrestrial environments. Students analyze the factors that govern ecosystems sustainability which include density-dependent regulations, mechanisms of biodiversity, invasive species, and equilibrium dynamics. The impact of human activities and management practices on the environment is examined. Emphasis is placed on applying ecological theory to restore and manage habitats and populations.

SUS 380..................................................................................... 3 credits

**Sustainable Planning and Land Use**
In this course, students evaluate strategies that lead to the promotion of sustainable development, planning, and land use. Students develop a sustainable land use plan for natural and human-dominated landscapes and its impact on socioeconomic issues. Upon completion of the course, students are able to apply management strategies and relevant land use practices to achieve sustainability.

SUS 385..................................................................................... 3 credits

**Sustainable Ocean Use**
In this course, students evaluate the principles of sustainable ocean use. Students analyze the environmental and economic role of the oceans. The sources and impact of ocean environmental degradation are examined. Topics include fisheries, aquaculture, natural resources and uses, and pollution. Sustainable management practices are analyzed by examining global environmental policies and regulations.

---

As an institution, University of Phoenix is unique in its single-minded commitment to the educational needs of non-traditional students, who in fact today make up the majority (73 percent) of all college enrollees. This focus informs the University’s teaching and learning model approach to designing and providing student services, and academic and administrative structure. It also guides the institution as it plans and prepares to meet the needs of the next generation of learners.

Over the last three and a half decades, the University of Phoenix has been cause-driven working to build an institution with the agility to address directly the shifting economic and academic challenges that many students face. Dr. Sperling’s predictions concerning the innovations higher education would be required to make have come to pass. Today roughly 45 percent of all college students work at least part-time and approximately one quarter of all students have dependent children. The educational tenets set forth by Dr. Sperling in 1976 now apply to the majority of college students in the United States.

The University’s growth over the last thirty-five years has been fueled by constant innovation, and ongoing efforts to improve the learning experience through advanced technology. The University has grown from a degree-completion institution serving an audience of mostly middle managers wishing to complete their education and excel in the workplace, to a comprehensive university serving students of all ages from the associate through the doctoral degree levels.

Ownership Information

University of Phoenix, Inc. is a wholly-owned subsidiary of Apollo Group, Inc. (the “Parent”). The Parent’s voting stock (Class B Common Stock) is 100 percent held by management. The Parent has one class of non-voting stock (Class A Common Stock) which is publicly traded on the NASDAQ Stock Exchange under the symbol “APOL.” The Parent files quarterly and annual financial statements with the Securities and Exchange Commission and these are available to the general public. The University’s central administration offices are located in Phoenix, Arizona.

Mission

The Mission of University of Phoenix is to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals, improve the productivity of their organizations, and provide leadership and service to their communities.

Purposes

1. To facilitate cognitive and affective student learning–knowledge, skills, and values -- and to promote use of that knowledge in the student’s work place.
2. To develop competence in communication, critical thinking, collaboration, and information utilization, together with the commitment to lifelong learning for enhancement of students’ opportunities for career success.
3. To provide instruction that bridges the gap between theory and practice through faculty members who bring to their classroom not only advanced academic preparation, but also the skills that come from the current practice of their professions.
4. To provide General Education and foundational instruction and services that prepare students to engage in a variety of university curricula.

5. To use technology to create effective modes and means of instruction that expand access to learning resources and that enhance collaboration and communication for improved student learning.

6. To assess student learning and use assessment data to improve the teaching/learning system, curriculum, instruction, learning resources, counseling and student services.

7. To be organized as a for-profit institution in order to foster a spirit of innovation that focuses on providing academic quality, service, excellence, and convenience to the working student.

8. To generate the financial resources necessary to support the University’s mission.

**Accreditation and Affiliations**

**Regional Accreditation**
University of Phoenix is regionally accredited by The Higher Learning Commission and is a member of the North Central Association.

The Higher Learning Commission

In addition, the College of Education has approval for education programs through the following state agencies:
- Arizona Department of Education
- California Commission on Teacher Credentialing
- Colorado Department of Education
- Hawaii Teacher Standards Board
- Idaho State Department of Education
- Indiana Department of Education
- Missouri Department of Elementary and Secondary Education
- New Mexico Public Education Department
- Nevada Department of Education
- Oregon Teacher Standards and Practices Commission
- Puerto Rico Department of Education
- Texas Education Agency
- Utah State Office of Education

*Programs vary by state. Not all programs are approved in all states.*

The University also maintains voluntary memberships with numerous educational organizations, including the American Council on Education, the Association of American Colleges, the American Association for Adult and Continuing Education, the American Association for Higher Education, National Association of Schools of Public Affairs and Administration, the Council for Adult and Experiential Learning, the College and University Personnel Association, the Arizona Association of Collegiate Registrars and Admissions Officers, the American Association of Collegiate Registrars and Admissions Officers, the Independent Colleges and Universities of Arizona, the American Association of Colleges of Nursing, National League for Nursing, the National Board for Certified Counselors, the National Association for Foreign Student Admissions, Association of International Educators, the National Association of Veterans Program Administrators, the Service Members Opportunity College, and Defense Activity for Non–Traditional Support. Additionally, the University maintains memberships in various professional, program specific organizations.

**Academic Programs**

Undergraduate and graduate programs at University of Phoenix are offered in business and management, nursing and health sciences, education, criminal justice, social sciences, natural sciences, humanities, and information technology. Undergraduate students are required to complete general education requirements that are distributed across traditional liberal arts categories and interdisciplinary components. General Education requirements are described in greater detail in the Undergraduate Programs section of the catalog. Not all programs are offered at all campuses. Specific programs offered are listed later in this catalog.
Enrollment and Student Profile

As of the third quarter ending May 31, 2011, University of Phoenix had an enrollment of over 398,000 students and had expanded to in excess of 230 campuses and learning centers in 40 U.S. States as well as locations in the District of Columbia and Puerto Rico. Additionally, University of Phoenix offers degree programs globally through its online delivery system.

According to students responding to a registration survey during fiscal year 2010, the average student is in his or her mid-thirties (32 for undergraduates and 37 for graduates). Gender of entering students is approximately 68 percent female and 32 percent male. Approximately 46 percent of entering students reporting belonged to an ethnic minority.

Currently, based on student selection, across University of Phoenix, approximately 33 percent of the students are seeking undergraduate business or management degrees and 9 percent are seeking graduate business or management degrees. Enrollments in selected other University of Phoenix degree programs include: 16 percent in health sciences and nursing, 11 percent in social and behavioral sciences, 9 percent in education, and 8 percent in technology.

University Library

The University of Phoenix Approach to Library Services

As busy working professionals, our students and faculty members know how difficult it can be to travel to a distant library and match their schedules to library building hours. To accommodate student and faculty needs, University of Phoenix offers its library services online. This online distribution of information is well suited to the needs of today’s “knowledge workers” and offers a functional version of the types of information systems University of Phoenix students and faculty will be expected to use throughout their careers.

The core of our library web site is the University Library, a collection of resources available to all students and faculty at any time and from virtually any location where an Internet connection is available. In addition to our University Library, the library maintains selected links to other worthwhile sites on the web and provides user education and research assistance.

The online distribution of information is not only optimally matched to the needs of working professionals, but also allows for equitable sharing of library resources among students and faculty members at all University of Phoenix learning centers and in our distance education programs. Instead of encountering disparities in library resources between large and small learning centers and between on-campus and online students, University of Phoenix library patrons enjoy access to the same broad spectrum of resources regardless of where and how they attend class.

University of Phoenix provides a comprehensive digital library for students at all locations. For more information, please see your Library Handbook or contact the University Library at library@phoenix.edu.

What is in the University Library?

Thousands of scholarly journals and periodicals holding full-text articles relevant to each University of Phoenix degree program are contained in the University Library’s resources. Financial reports on over 10,000 public companies and a variety of directories and other reference publications are also available. In addition, the University Library has a collection of multimedia available, including videos, images, and audio files, on a variety of topics. Many of the resources found in the University Library are commercial products held by the University through license agreements with content providers and are not accessible to the general public like web pages found through an Internet search engine.

Getting Started with the University Library

To get started using the University Library, students and faculty members should follow these steps:

- Visit the student and faculty website https://ecampus.phoenix.edu/. This is the same website used to obtain course modules, grades, and other University of Phoenix resources and services.
- After logging into the student and faculty website, select the Library tab and then the University Library link to enter the University Library.
- Select an appropriate resource and begin research.

Electronic Reserve Readings

In addition to the University Library resources for research by topic, University Library staff members also maintain Electronic Reserve Readings for individual courses. These pages provide links to materials relevant to the course curriculum. Links to Electronic Reserve Readings, when available, are listed on course pages within eCampus.

Additional Resources for Help

- The Library Handbook includes detailed information and helpful tips on conducting research.
- Ask a Librarian is a service found in the University Library that allows users to direct specific reference or research strategy questions to University Library staff.
- Request a Specific Document is a service found in the University Library that allows users to request a document or book that is not available in the University Library. Specific timelines and rules apply to this service.
- View the Research Tutorial is a feature in the University Library that allows users to learn research skills by participating in an interactive web-based research activity.
- Choose Resources by Subject on the homepage of the University Library website contains overviews of research recommendations for specific subject areas.
- Search FAQs on the homepage of the University Library contains a searchable form to obtain answers to “Frequently Asked Questions” received by the library.
How to Contact the University Library
Student Technical Support 1-877-832-4867
Email library@phoenix.edu
International students and faculty can reach Tech Support at 1-602-387-2222. Callers should identify themselves as international students or faculty and give a call back number. Tech Support will call back to minimize phone charges.

Current Resources of the University Library
For a current list of resources in the University Library, please refer to the Library Handbook. Students, staff, and faculty can also view the full listing of the University Library's resources by clicking the View All Resources Alphabetically link on the University Library homepage.
THE UNIVERSITY’S TEACHING AND LEARNING MODEL

The mission of University of Phoenix is to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals. As a result, the University’s teaching and learning model is grounded in the theoretical and empirical literature of learning and cognitive psychology. The University employs best practice from recent education literature, as well as best service practices that enhance the academic experience for students who are new to higher education. This combination increases student retention and successful degree completion.

**Active Learning**

The model is based first on the assumption that the learner’s active involvement in the learning process is essential to good practice. Thus, in all modalities University of Phoenix classrooms are intended to be dynamic learning spaces. Instructors are expected to serve as facilitators of learning who manage the learning process by engaging learners in a variety of activities (lectures being but one) that lead students to an understanding of course content and the development of academic and professional competence. By involving students in a variety of learning activities, respect is demonstrated for diverse ways of learning and knowing. Interaction and participation in classes and Learning Teams is expected of those students in the bachelor and master degree programs. Students pursuing an associate degree at the Online Campus (excluding AACR & AAPF) are involved in collaborative learning activities, but are not required to participate in formal Learning Teams.

**Collaboration**

The effectiveness of cooperation and collaboration in enhancing learning is well and widely documented. Structures that encourage and facilitate collaboration are central to the University’s teaching and learning model. Working students frequently come to formal learning activities with greater life and work experience. This means that learners themselves can be invaluable resources in enhancing their own and others’ learning. Traditional pedagogy emphasizes a top-down, vertical transfer of information. Students with rich and varied experience find benefit in instructional practices that encourage collaboration. This adds a robust horizontal dimension to the learning exchange as students teach and learn from one another. Good practice in education capitalizes on this dimension to the students’ advantage.

**Emphasis on Application and Relevance**

There is wide agreement in the literature that students learn best when bridges are built between new knowledge and the learners’ experience. Practices that encourage reflection and application are based on the recognition that a learner’s experience provides a context through which he or she is more able to construct meaning from new information. It also makes learning relevant to the learners. In University of Phoenix courses, students’ experiences and current circumstances are interwoven with subject matter in class discussions as well as in individual, team and other collaborative assignments. Real-world relevance is critical to basic comprehension as well as to maintaining student interest. Students very often say they are able to apply at work the next day what they learned in class the night before.
Program Format

University of Phoenix is a non-term institution and does not operate according to a traditional academic calendar. New student cohorts can begin at any time. Typically, graduate courses at University of Phoenix meet for six consecutive weeks and undergraduate courses meet for five weeks. Classes meet once per week for four (4) hours. When a course ends, the next course usually begins the following week. This intensive calendar allows students to achieve their educational goals in a more time-efficient manner. The University’s low student/faculty ratio and class size that averages 13-15 students facilitate active learning and collaboration and encourage time-on-task. As a rule, bachelor and graduate degree seeking students take only one course at a time. This allows them to focus attention and resources on one subject, a structure that enhances learning and helps students balance ongoing professional and personal responsibilities.

Associate degree students enrolled at the Online Campus (excluding AACR & AAPF) enroll in two courses concurrently for nine consecutive weeks. The longer course length allows students to complete two courses concurrently and keeps the weekly workload at a manageable level.

Learning Teams

In addition to regular course instructional sessions, bachelor’s and master’s level students meet weekly in Learning Teams. Learning Teams are small groups of three to six students drawn from within the larger cohort. Learning Teams are an essential design element in the University’s teaching and learning model through which students develop the ability to collaborate -- an ability expected of employees in information-age organizations and one of the University’s primary learning goals. Due to the unique teaching and learning model and objectives, students enrolled in an associate degree program at the Online Campus (excluding AACR & AAPF) do not participate in Learning Teams, but are encouraged to collaborate and participate in classroom assignments.

All students enrolled in degree programs and/or designated certificate programs using the learning team model must meet learning team attendance policies.

Learning teams are required to meet weekly. Teams may meet in person or via teleconference, real-time electronic conferencing, or asynchronous meeting in the classroom team forums. Students must indicate their participation in the learning team meetings and/or assignment deliverables. Online students must indicate their participation by posting each week in the learning team forum. Students attending a local campus must acknowledge participation in their learning team each week in the Assignments section of eCampus.

Faculty

University of Phoenix faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, healthcare and human services professionals and leaders in other professional arenas. A listing of faculty may be obtained at each local campus and/or in the appendix pages at the end of this catalog. Current contact information for each campus may be found at http://www.phoenix.edu.

Staff Screening

All external candidates must have a new background check submitted each time they are being considered for a position with the University. The background check must be completed prior to the start date.

Student Technology Recommendations and Competencies

In an effort to assist students with adequate preparation for their course work at the University of Phoenix, technology recommendations and competencies have been established. These recommendations and competencies are in effect for the School of Advanced Studies, School of Business, College of Education, College of Information Systems and Technology, Colleges of Arts and Sciences, College of Nursing, College Extension, and the School of Continuing Education. To that end, students will need to access and use the hardware and software as described below. Additional recommendations and competencies may be required for particular courses/programs. Students using software and hardware other than that recommended must still meet the technology competencies. Please note that due to the rapid rate of change in information technology, hardware and software competencies will be updated on a regular basis. Some courses in the College of Information Systems and Technology may require additional software.

Technology Recommendations

Hardware & Peripherals

You are required to have access to a computer with the following:

- A processor of 2 GHz or faster
- 1GB RAM or greater
- 80GB hard drive or greater
- Cable/DSL connection or better
- Monitor and video card with 1024x768 or greater resolution
- Sound card with speakers
- CD ROM
- Inkjet or laser printer
- Microphone

Software/Applications

You will need access to and competence on the following applications:

- Operating system
  - Windows® XP or later
  - Mac OS 10.4 or later, with a Microsoft Windows partition required for some courses.
- Microsoft Office 2003 or later(PC), Office 2004 (Mac)
- Microsoft® Project (for selected courses)
- Internet Browser
  - Microsoft® Internet Explorer version 7.0 or later
  - Mozilla Firefox 3.5 or later
  - Google Chrome 7.0 or later
  - Apple Safari 5.0 or later
- Adobe® Reader 9.0 or later
- Adobe Flash plug-in 10.0 or later
- System is enabled to allow installation of browser plug-ins as required
The University of Phoenix was developed to provide educational services to adult learners, distance education options were developed to allow these students to continue their life-long learning when faced with such obstacles. Distance education options include computer–based educational modalities that are group-based. The same rigor expected in the classroom exists for distance education students when completing curriculum goals, objectives, and outcomes.

FlexNet®

Select University of Phoenix locations offer degree programs through the University’s FlexNet program. This learning modality combines the online and campus-based classroom experiences into one. Through FlexNet, students attend the first and last night of class at one of the University’s campus-based locations, while the remaining nights of class are conducted online.

Note: Due to the rapid rate of change in information technology, the hardware and software requirements and technology skills may be updated.

Note: If you need to purchase a computer, the University recommends a portable laptop or notebook for classroom use. The School of Advanced Studies requires Doctoral students to bring a laptop computer to residencies. You may be eligible for student discounts on hardware and software. There is more information on your student website, https://ecampus.phoenix.edu.

Technology Competencies

Students attending the University of Phoenix are expected to have the ability to complete the following activities:

- Access course and program material on the Web.
- Correspond with University of Phoenix staff, students, and faculty using e-mail and the Web.
- Complete, send, and receive assignments to faculty or other students using e-mail and attachments/files.
- Read/print e-mail and attachments/files from students, staff, and faculty.
- Use the University of Phoenix Electronic Library also known as the Learning Resource Center (LRC) and/or Internet for research and completion of course assignments.
- Prepare and conduct presentations in the classroom using presentation equipment.

- Use the appropriate software for the course. (The University uses as standards Microsoft® Office products including MS® Word, MS® Project, MS® Excel, MS® Power Point, etc.)
- Use CD ROMs when required as part of course assignments.
- Use an appropriate anti-virus application to insure the files transmitted and received are virus free.

Online Learning System

The University’s Online Learning System (OLS) is a computer- and web-based learning environment that has replaced the traditional classroom for many University of Phoenix students. It offers a convenient medium for faculty-to-student and student-to-student interaction. An easy-to-use, easy-to-access system, OLS allows students “to go to class” to engage in individual and group discussion or lectures, anytime or any place! OLS works with most Internet Service Providers. It features a familiar “Windows” type format, which makes navigation fast and easy. A full set of capabilities allows students to complete 100% of their education and administration online (Doctoral students are required to attend residencies). In addition to participating in the full range of class meeting and study group activities, students can communicate with instructors, interact with classmates, and conduct their research online. They can also:

- Register for classes
- Pay their tuition
- Order their books
- Meet with a representative
- Obtain their grades
- Request transcripts and more

Even without the new software, students can log on to our Web site from any Internet Service Provider – so they can check their e-mail and access student services from any location and computer.

Distance Education

The University of Phoenix recognizes that adult professionals are sometimes faced with obstacles that prevent continued commitment to classroom instruction. Students may be employed in remote areas, may be traveling extensively on the job, or may have been transferred on the job following the start of a degree program. Because the University of Phoenix was developed to provide educational services to adult learners, distance education options were developed to allow these students to continue their life-long learning when faced with such obstacles. Distance education options include computer–based educational modalities that are group-based. The same rigor expected in the classroom exists for distance education students when completing curriculum goals, objectives, and outcomes.
Group-Based Online Education

The Online computer–based educational delivery system has extended the boundaries of the classroom. It is an outgrowth of the University’s recognition of the technological transformation of the workplace. The Online program utilizes the Online Learning System (OLS) that makes group learning possible independent of time and location. Rather than gathering in a classroom, students and instructors interact electronically and asynchronously. Unlike other forms of distance learning, such as directed study, online education is interactive and participative. Online students can complete their University studies from virtually anywhere in the world.

Structure

Students in the group-based Online program benefit from the same quality, real world-oriented education that as distinguished the University of Phoenix since it was founded. Students become active members of a learning group of between 7-20 adult learners, and work in smaller learning teams each week on required projects and assignments. Students complete one course at a time, then move on to the next course in the same way as students who meet face-to-face.

Process

When students are admitted to the program, they are provided with all the information needed to connect to the Online Learning System. Prior to the start of the first class, students become familiar with the system through an Online orientation. At this time, group members will become acquainted through an exchange of professional and academic backgrounds. Additionally, students will be introduced to their first instructor who will explain the nature of the course and give the first assignment. Each week’s instruction begins with a general class meeting. Here, the instructor introduces all the material to be studied, gives assignments, and answers questions.

Key Features of the Group-Based Online Program

Interactive Learning

Computer conferencing exchanges are student-centered, involving dynamic and extensive sharing of ideas, opinions, and information. As a result, knowledge building occurs as students examine each other’s written arguments and positions. In the face-to-face classroom environment the instructor often produces 60-80% of the oral exchanges. Research shows that in the online learning environment, the instructor produces only 10-15% of the verbal interactions. In this way, adult learners are much more actively involved in their own education, an element that the University of Phoenix has found to be essential to adult learning programs.

Equitable Participation

As anyone who has attended a traditional classroom setting knows, one or two students can often dominate any class discussion, while more reserved students sit silently. In the Online setting, no one readily dominates. While some students might spend more time communicating, everyone must participate. Participation, therefore, is more equitably distributed and active for everyone, as each student has equal access to the “floor.”

Time and Place Independent

All communications in the University’s Online computer–conferencing system are asynchronous rather than real–time. While this naturally imposes some limitations, it has been found that asynchronous communications result in increased access for students since they can control the time and place for their participation. They enjoy far greater flexibility since activities need not be simultaneous. Asynchronous communication also enables both students and faculty to synthesize material at their own pace and to provide well thought out responses free of the pressure of instantaneous feedback.

OLS is available 24 hours per day, 7 days per week, enabling adult learners to choose the times when they believe they are best prepared to engage in particular learning activities and spend as long as they wish working on them. The result is that the Online adult learner has increased control and has more options than in the classroom.

(Note: There are two scheduled downtimes a month. They occur on the 1st and 3rd Saturday of each month from 11.00 p.m. to 5.00 a.m. Sunday.)

Computer Text–Based Communications

All of the Online communications are text–based, and the users (students and faculty) are able to maintain an ongoing common transcript which greatly enhances opportunities for reflective interaction. At any time they choose, students can review and reflect on the transcripts they have stored in their computers. These archives invite students to organize and reorganize the body of ideas being developed in their class.

(Note: There are two scheduled downtimes a month. They occur on the 1st and 3rd Saturday of each month from 11.00 p.m. to 5.00 a.m. Sunday.)

Services Provided

Through OLS, students are able to contact the Learning Resource Center to request literature searches and have them forwarded directly to their personal “inbox” on the Online Learning System. The University staffs a technical support help desk 24 hours per day, seven days per week.

Confidentiality

The electronic computer–conferencing system shall be maintained by an employee of the University (System Operator) who is required by University policy to uphold the confidentiality of any messages he/she may review in the process of tracking overall system usage, and ensuring that the system is functioning properly. The Director of Academic Affairs, the Vice President, Executive Director/Department Chairs, and certain university administrators may review the archives of class meetings and to assist in the resolution of grade disputes, grievances, and charges of academic dishonesty, if required.

Policy on the Illegal use of OLS

The University of Phoenix retains the right to monitor the Online Learning System conferencing system, via the System Operator, in order to verify appropriateness of use. Illegal activities are expressly prohibited and include such things as distribution of “pirated” software, distribution of unauthorized surveys, exchange of “hot” billing numbers for long distance charges, and messages that are pornographic, slanderous, or offensive by community standards. Illegal activity will be deleted by the System Operator and the originators of such messages may be denied system access on a suspended or permanent basis.
UNIVERSITY POLICIES

Calendar

The educational mission of the University of Phoenix is to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals, improve the productivity of their organizations, and provide leadership and service to their communities. A student could begin a degree program in virtually any month of the year. This calendar allows the adult student to balance the demands of career, family, and education.

Students qualifying for financial aid may receive a new award each academic year. An academic year is defined as the period of time in which a student completes at least 24 credit hours and 30 weeks of instructional time. Therefore, students may have their eligibility assessed for grants and/or loans several times during their program of study. The average processing time for financial aid is 90 days. Students should reapply for financial aid prior to the start of each new academic year.

Course Cancellation

The University of Phoenix may be required to cancel courses or programs when necessary. In addition, courses or programs may not begin on their scheduled start dates in the event of certain circumstances, such as faculty unavailability or insufficient enrollment. In such situations, the University will work with students in an effort to provide them with the opportunity to reschedule or to transfer to a comparable University course or program if available. Any payments made for canceled courses that have not started or are currently in process will be refunded or applied to another University course or program. All attempts will be made to address such cancellations with registered students as early as possible.

Directed Study

Under certain circumstances students may need to complete a course via directed study. Students should contact their campus for information about availability, requirements, or additional fees that may apply. A maximum of twelve credits completed via directed study may be applied to degree requirements.

Concurrent Enrollment

Because of the intensive nature of the University’s courses, students are not encouraged to concurrently enroll in courses at the University of Phoenix or to enroll in courses at other institutions while enrolled in University courses. However, students are given the opportunity to concurrently enroll in a limited number of courses. Under no circumstances may an associate degree student enrolled at the Online Campus (excluding AACR & AAPF) be concurrently enrolled in more than three (3) courses at any given time. Concurrent enrollment in a third course is prohibited for new students in the first two blocks. Enrollment is considered from the start date of any course through the end date of the course. Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence. Under no circumstances may an undergraduate or graduate student be concurrently enrolled in more than two (2) courses at any given time. Concurrent enrollment is prohibited for new students in the first two courses of any University of Phoenix program. Enrollment is considered from the start date of any course through the end date of the course. Under no circumstances may BSN clinical nursing courses be taken concurrently with any other courses. Courses taken concurrently with other institutions will not be limited.

Dual Enrollment

Any student planning to complete both an associate of arts degree and a baccalaureate degree must complete all 60 required credits of the associates degree and meet admission requirements for their chosen degree before enrolling in any University baccalaureate degree program.

There is no dual enrollment between Degree Seeking Students from University of Phoenix and Online Associate programs with the exception of AAPF.

Multiple University Degrees

Students may earn additional undergraduate or additional graduate degrees from the University of Phoenix. These students are treated the same as if they held a degree from another regionally accredited, or approved nationally, accredited institution and must meet residency requirements toward the additional degree. The following requirements must be met to complete degree programs:

- Students must complete an application for each program. (Another application fee is not required).
- Only one degree in a specific discipline may be earned. In most cases additional MAED degrees may be earned due to the unique specializations. Students may not earn both an MAED/TED-E & MAED/TED-S.
The required course of study for each program must be completed as approved by the University. Residency must be met for each degree. Graduate students must complete a minimum of 18 credits toward an additional degree as outlined by each College. Undergraduate students must complete a minimum of 30 credits of the additional degree's required course of study in order to meet residency. A student holding one University of Phoenix Undergraduate degree may earn a different degree by applying the credits earned from the first degree toward the additional degree; however, students must still meet all additional residency requirements (30 credits), along with the general education and minimum credit requirements in effect for the additional degree at the time of enrollment.

- Students must successfully complete any project required for each program.
- A diploma application must be completed for each program. Students may earn only one certificate per program. Students who have earned a graduate degree in Business or Management may not receive a certificate or concentration in the same area of focus. Example: a student may not earn an MBA/PM and a PM certificate; however, students who have completed a certificate may return to receive an MBA degree with a concentration in the same area as the completed certificate or another approved concentration.

**Maximum Credit Load**

Undergraduate students may earn a maximum of 39 credits in a twelve (12) month period. Graduate students may earn a maximum of 33 credits in a twelve (12) month period. Credits attempted and earned beyond the maximum allowable limits will be transcripted but will not apply toward degree completion requirements. Courses taken concurrently at other institutions will not be counted towards this total and will not be limited in any way.

**Course Credits**

All credits issued for successfully completed University of Phoenix course work are in semester credits. Courses numbered 100-299 carry undergraduate, lower division credit. Courses numbered 300-499 carry undergraduate, upper division credit. Courses numbered 500-599 carry graduate credit. Professional courses numbered 600-699 may be applied to either undergraduate or graduate credit requirements. Courses numbered 700-799 carry Doctoral credit.

Most courses are three semester credits. Each three-credit course in a five-week session shall consist of 45 hours of student class work. This includes 20 hours of classroom instruction. Required learning team hours constitute the remaining class work requirement. Please note: Hours at University of Phoenix are based on a full 60 minutes, compared with the traditional 50-minute clock hour. In addition to the class work requirement, students typically complete at least two hours of individual student work out of class for each hour of class work. This time typically consists of individual study time, reading, research and writing.

**Student Identification Numbers**

All students are assigned a unique student identifier called an Individual Record Number (IRN). This is the primary number students use to obtain campus, web and voice response services. A letter and ID card will be mailed upon request.

**Name and Social Security Number Changes**

The University requires documentation of legal name and social security number changes. The following forms of identification will be accepted: marriage license, divorce decree, passport, Social Security Card or court order. A social security card issued by Social Security Administration is required for changes in social security numbers.

**Duplication of Credit**

Duplication occurs when students take the same course more than once or take a course that duplicates the content of a satisfactorily completed course. The grade and credit earned for the most recently completed course will apply toward academic standing and the total number of credits required for degree completion. The previously completed course will remain on the permanent transcript, but will not be applied toward academic standing or the total number of credits required for degree completion.

**Course Audit Policy**

At some campuses, and upon approval of the campus Director of Academic Affairs, a student may choose to audit a course. Courses that have been audited will be transcripted with the grade of “AU” and will not earn the student any credit. Students auditing a course are considered passive participants and will not be held responsible for study group work or class assignments. They must follow all other University policies for non-auditing students, including class attendance. Audited courses do not qualify the student for financial aid. Students will be required to pay a one (1) credit hour tuition charge consistent with the program rate for each audited course.

The Online campus does not allow external auditing due to the unique nature of an Online classroom environment.

**Re–Entry Students**

Students who have been out of attendance for a period of more than one (1) year from the last date of positive recorded class attendance in a program applicable course are considered re-entry students and are subject to the following policies:

- Re-entry students who re-enter into the most current program/program version offered in their state or jurisdiction do not require submission of an appeal for re-entry.
Transfer of Credit

Academic credit earned for degree level courses appearing on an official transcript from an institution that offers associate degrees or higher, which was accredited, or a candidate for accreditation at the time the student attended, by a regional or national accrediting body, or a foreign institution recognized/authorized by the country’s Ministry of Education, will be reviewed for transfer into the University with a minimum grade of C-. For program specific transfer requirements see individual program descriptions as additional conditions may apply for the transfer of credit towards specific program degree requirements. Transfer credit will be evaluated according to University policies and accepted subject to the approval of the University’s Central Office of Admissions & Evaluation.

Graduate level coursework from institutions that hold accreditation through the American Bar Association or that have been provisionally approved for accreditation may also be reviewed for transfer into the University. Coursework from ABA accredited institutions that are not from a Graduate level program (i.e. JD, LLB, LLM) will not be accepted. Paralegal degrees are not considered Graduate level programs.

Transfer credits that are based on a different unit of credit or calendar system than the one prescribed by University of Phoenix are subject to conversion before being transferred. Only course evaluations performed by the University’s Central Office of Admissions & Evaluation or Prior Learning Assessment division are final. Any preliminary reviews by campus personnel are unofficial and not binding, and subject to change.

The acceptable regional accreditation bodies are:

- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges
- Higher Learning Commission of North Central Association of Colleges and Schools
- Northwest Commission on Colleges and Universities
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

The acceptable national accreditation bodies are:

- Association of Biblical Higher Education (formerly Accrediting Associate of Bible Colleges)
- American Academy of Liberal Arts
- Association of Advanced Rabbinical and Talmudic Schools
- Accrediting Council for Independent Colleges and Schools
- Accrediting Bureau of Health Education Schools
- Accrediting Commission of Career Schools and Colleges
- Association of Theological Schools
- Council on Occupational Education
- Distance Education and Training Council
- Transnational Association of Christian Colleges and Schools
- National Accrediting Commission of Cosmetology Arts & Science
- Accrediting Council for Continuing Education and Training

For a description of the type and amount of credit that can be applied toward an undergraduate degree, see individual program descriptions. Students will have up to 90 days from notification of Transfer Credit decisions to submit an appeal with the Student Appeals Center.

Transferability of credit is at the discretion of the accepting institution. It is the student’s responsibility to confirm whether or not credits earned at the University of Phoenix will be accepted by another institution of the student’s choice.

Students transferring from Meritus University will have earned credit totals for Prior Learning and Canadian Forces credit assessments honored at University of Phoenix. Applicability of assessed credits in transfer for Meritus University students will still be defined by the program requirements of the chosen program that the student is entering at University of Phoenix.

Students transferring to University of Phoenix into specified undergraduate bachelor degree programs with a previously completed regionally accredited Associate of Arts degree from a Community College will be considered as having satisfied their lower division elective and general education requirements (up to the amount of credits earned in the Associate of Arts degree), which will make the student ready to begin their Required Course of Study at University of Phoenix. Students who take advantage of this policy will still need to meet all pre-requisite or state specific content requirements as outlined in the Academic Progression and General Education Requirements sections of the catalog for their chosen program.

Not all programs are eligible for this policy. Please check with a campus representative to determine which programs are eligible. Students who take advantage of this policy and then change to a program that is not eligible for this policy will have courses individually evaluated for applicability towards degree requirements (as the policy will not carry forward into the new degree program).

Nondiscrimination Policy

The University of Phoenix is guided by the principle of equal opportunity and respect for others. The University is firmly committed to providing equal opportunity in its educational programs, activities, and employment practices and will not tolerate any discrimination or harassment of any kind with regard race, color, religion, sex, sexual orientation, gender identity, age, national origin, disability, veteran status, or any other category protected by federal, state, or local law. More specifically, the University complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964 and regulations, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Age Discrimination in Employment Act of 1974, and any other applicable federal, state, or local law. Conduct deemed to be in violation of this policy is prohibited and will not be tolerated by the University of Phoenix. Retaliation, in any form, against the person raising such a concern will also not be tolerated by the University of Phoenix.

Discrimination Procedures:

1. Students, faculty or staff alleging discrimination must present their grievance within six weeks.
   a. Allegations of sex discrimination must be presented to Camie Pratt, Associate Vice President and Title IX Coordinator, Office of Dispute Management, 4615 E. Elwood Street, Mailstop AA-S401, Phoenix, AZ 85040, 602.557.3391, Camie.Pratt@phoenix.edu or designee.
i. The Title IX Coordinator or their designee will manage efforts to conduct a prompt, thorough and impartial investigation and make a determination on whether the party presented a factual connection between the allegation of discrimination and the alleged actions.

ii. If the Title IX Coordinator finds that there is a factual connection between the allegation of discrimination and the alleged actions then one of the following procedures will be followed:

- If the accusation is against a faculty then the Faculty Code of Conduct procedures apply.
- If the accusation is against a student then the Student Code of Conduct procedures apply.
- If the accusation is against an employee then the Title IX Coordinator or their designee will conduct a prompt, thorough and impartial investigation and make a determination on whether the student presented a factual connection between the allegation of discrimination and the alleged actions.

iii. In instances where it is determined that a formal process is not appropriate the student, faculty or employee may be warned or counseled regarding the allegation.

iv. Timeframe for Conducting Title IX complaints:

- Investigation - a prompt, thorough, and impartial investigation will be conducted within 60 days barring any unusual complexity.
- Opposing parties will receive notice of the outcome within 30 days of the close of the investigation.
- Opposing parties will be afforded the opportunity to appeal within 10 days of receiving notice of the outcome.

b. All other discrimination claims must be presented to the Campus Director of Academic Affairs, Campus Director of Operations, or their respective designee.

i. Campus Director of Academic Affairs, Campus Director of Operations, or Director of Student Services, or their respective designee will conduct a prompt, thorough and impartial investigation and make a determination on whether the student presented a factual connection between the allegation of discrimination and the alleged actions.

ii. If the appropriate director or designee finds that there is a factual connection between the allegation of discrimination and the alleged actions then one of the following procedures will be followed:

- If the accusation is against a faculty then the Faculty Code of Conduct procedures apply.
- If the accusation is against a student then the Student Code of Conduct procedures apply.
- If the accusation is against an employee then the appropriate campus director or their designee will contact Human Resources and human resources policies for processing claims of discrimination will be followed.

iii. In instances where it is determined that a formal process is not appropriate the student, faculty or employee may be warned or counseled regarding the allegation.

Harassment Policy

It is the policy of the University of Phoenix that the educational environment at each of its campuses be free of all forms of improper or unlawful harassment including sexual harassment or sexually offensive conduct. Conduct on the part of faculty, staff, or students which would violate this policy includes, but is not limited to:

- Unwelcome or unwanted sexual advances,
- Requests for sexual favors,
- Any suggestion, whether overt or subtle, that a grade or other academic achievement is dependent upon the granting of sexual favors or submission to sexual requests,
- Unwelcome physical contact, including patting, pinching, hugging, kissing, fondling, etc.,
- Offensive verbal conduct, including sexually explicit jokes, comments, innuendo, or other tasteless action that would offend a reasonably sensitive person,
- The display of sexually offensive pictures, posters, illustrations, or objects,
- Slurs, jokes, or ridicule based on race, ethnic or national origin, religion, gender, sexual orientation, gender identity or disability.

Conduct deemed to be in violation of this policy is prohibited and will not be tolerated by the University of Phoenix. Retaliation, in any form, against the person raising such a concern will also not be tolerated by the University of Phoenix.

Harassment Procedures

1. Students, faculty or staff alleging harassment must present their grievance within six weeks.

a. Allegations of sexual harassment must be presented to Camie Pratt, Associate Vice President and Title IX Coordinator, Office of Dispute Management, 4615 E. Elwood Street, Mailstop AA-S401, Phoenix, AZ 85040, 602.557.3391, Camie.Pratt@phoenix.edu or designee.

i. The Title IX Coordinator or their designee will manage efforts to conduct a prompt, thorough and impartial investigation and make a determination on whether the party presented a factual connection between the allegation of harassment and the alleged actions.

ii. If the Title IX Coordinator finds that there is a factual connection between the allegation of harassment and the alleged actions then one of the following procedures will be followed:

- If the accusation is against a faculty then the Faculty Code of Conduct procedures apply.
- If the accusation is against a student then the Student Code of Conduct procedures apply.
- If the accusation is against an employee then the Title IX Coordinator or their designee will contact Human Resources and human resources policies for processing claims of discrimination will be followed.

iii. In instances where it is determined that a formal process is not appropriate the student, faculty or employee may be warned or counseled regarding the allegation.

iv. Timeframe for Conducting Title IX complaints:

- Investigation - a prompt, thorough, and impartial investigation will be conducted within 60 days barring any unusual complexity.
- Opposing parties will receive notice of the outcome within 30 days of the close of the investigation barring any unusual complexity.
Disability Services

Obtain Information

The campus disability services advisor is responsible for managing the ADA process, including negotiations, and finalizing appropriate student accommodations. Additional information and a list of campus disability services advisors are located at http://www.phoenix.edu/students/disability-services.html.

Acceptable Use of University Computing and Communication Resources

The University’s computing and communication resources are the property of the University. Use of University computing and communication resources is a privilege and is provided as a service to the University’s users. Among other purposes, these resources are provided for the delivery of curriculum and related materials; for conducting online classes; for conducting educational research; for communication between and among students, faculty, and staff; and, for accessing and obtaining the University’s services.

Students and faculty using these resources without authorization, or in excess of their authorization, will be subject to appropriate review processes and sanctions. In addition, all activity and information, including personal activity and information, on University systems may be monitored and recorded. Any individual accessing University computing and communication resources expressly consents to such monitoring and is advised that if such monitoring reveals unauthorized or criminal activity, Information Security Personnel will provide the evidence from monitoring to the appropriate University officials for investigation and possible release to law enforcement authorities.

General Requirements of Users

Users of University computing and communication resources must:

- Comply with this policy and all applicable local, state, and federal laws and regulations.
- Not intentionally compromise the confidentiality, integrity or availability of University computing and communication resources.
- Not attempt to circumvent the University’s physical, technical, or administrative security measures.
- Abide by the provisions of the Student Code of Conduct (for students) or the provisions of the Faculty Standards (for faculty members).
- Be truthful and accurate in personal identification.
- Respect the rights and privacy of others.
- Maintain the security of their user resource accounts.
- Comply with the terms of use of any University or third-party service provider website(s).

Intellectual Property

Users must adhere to applicable intellectual property law, and the terms and conditions of any and all software licensing agreements and/or copyright laws as specified by the vendor or licensor. Explicitly:

- Unauthorized use of University trademarks or logos and other protected trademarks and logos is prohibited.
- Infringing upon the copyright, trademark, patent, or other intellectual property rights of others in computer programs or electronic information (including plagiarism and unauthorized use or reproduction) is prohibited.
- The unauthorized storing, copying or use of audio files, images, graphics, computer software, data sets, bibliographic records and other protected property is prohibited except as permitted by law.
Privacy & Security
The University strives to maintain the confidentiality, integrity, and availability of its systems, networks, and data. The University implements policies to ensure that access to sensitive data is restricted to those individuals who have a need-to-know. The following sections describe how Information Security Personnel may monitor computing and communication resources for violations of this acceptable use policy.

Monitoring
System and network activities of users are routinely logged and monitored. These activities include:
- Use of accessed accounts
- Time and duration of network activity
- Web pages accessed and duration of access
- Network software accessed
- Volume of data storage and transfers

In the case of a suspected violation of this policy, University officials may authorize Information Security Personnel to conduct a more detailed investigation to gather evidence on the suspected violation.

Restriction of Access to Computing and Communication Resources
Access to University computing and communication resources is a privilege that may be wholly or partially restricted without prior notice and without consent of users:
- If required by applicable law or policy.
- If a reasonable suspicion exists that there has been or may be a violation of law, regulation, or policy.
- If required to protect the confidentiality, integrity, or availability of computing and communication resources.
- Conditions for Permitting Inspection, Monitoring, or Disclosure

The University may permit the inspection, monitoring, or disclosure of e-mail, computer files, and network transmissions when:
- Required or permitted by law, including public records law, or by subpoena or court order.
- The University or its designated agent reasonably believes that a violation of law or policy has occurred.
- Necessary to protect the confidentiality, integrity, or availability of computing and communication resources.

Confidentiality
Confidentiality of e-mail and other network transmissions can not be completely assured. Therefore, all users should exercise caution when sending personal, financial, confidential, or sensitive information by e-mail or across the Internet.

Responsibility to Inform User of Unauthorized Access or Disclosure
If the University believes unauthorized access to or disclosure of private user information has occurred, the University will make reasonable efforts to inform the affected user, except when notification is impractical or when notification would be detrimental to an investigation of a violation of law or policy.

Violations and Enforcement
Reporting Violations
Any actual or suspected violation of this policy should immediately be brought to the attention of the system administrator of the equipment or facility most directly involved. Alternatively, a report may be made directly to Apollo Internal Audit or Apollo Information Security and Compliance.

Response to a Reported Violation
Upon receiving notice of a violation, the University may temporarily suspend a user’s privileges or move or delete the allegedly offending material pending further investigation. A person accused of a violation will be notified of the charge and have an opportunity to respond before the University imposes a permanent sanction. Appropriate cases will be referred to the University disciplinary process appropriate to the violator’s status (i.e., faculty member or student) or to appropriate law enforcement authorities.

In addition to sanctions available under applicable law and University policies, the University may impose a temporary or permanent reduction or elimination of access privileges to computing and communication resources. The University may temporarily suspend any account, whether or not the account user is suspected of any violation, if it is believed to be necessary to preserve the integrity of University computing and communication resources. The University will provide appropriate notice to the account user. Servers and computers that threaten the security of University systems will be removed from the network and allowed to reconnect only with the approval of Information Security Personnel.

In the event of any inconsistency or conflict between this policy and any other terms or conditions students may be subject to, the University reserves the right to resolve such conflicts in its sole discretion.

Violation Examples
This list below contains examples of actions considered to be a violation of this policy. It is not intended to be all-inclusive, nor does it represent all possible violations in a particular circumstance or the applicability of any other law or policy to those facts.
- Unlawful communications, including threats of violence, obscenity, pornography, and harassing communications.
- Unauthorized, anonymous communication is prohibited. (All users are required to cooperate with appropriate University personnel or other authorized personnel when investigating the source of anonymous messages.)
- Misrepresenting or forging the identity of the sender or the source of electronic communication.
- Altering the content of a message originating from another person or computer with intent to deceive.
- Use of University computing and communication resources for private business or commercial activities.
- Fund-raising or advertising on behalf of non-University organizations.
- The unauthorized reselling of University computing and communication resources.
• Unauthorized acquisition attempts to acquire and use the user id or passwords of others.
• Interference with or disruption of the computer or network accounts, services, or equipment of others.
• The intentional propagation of computer “worms” and “viruses,” the sending of electronic chain mail, denial of service attacks, and inappropriate “broadcasting” of messages to large numbers of individuals or hosts.
• Failure to comply with requests from appropriate University officials to discontinue activities that threaten the operation or integrity of computers, systems or networks, or otherwise violate this policy.
• Revealing passwords or otherwise permitting the use by others (by intent or negligence) of personal accounts for computer and network access without authorization is prohibited.
• Altering or attempting to alter files or systems without authorization.
• Unauthorized scanning of networks for security vulnerabilities.
• Attempting to alter any University computing or networking components (including, but not limited to, bridges, routers, and hubs) without approval or beyond one’s level of authorization.
• Negligent or intentional conduct leading to disruption or damage of University data, systems or networks.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
CONSUMER INFORMATION

Introduction

All institutions participating in federal financial aid programs are required to notify enrolled and potential students and current and prospective employees regarding available consumer information. This document provides access to required consumer information. Where applicable, each section lists specific locations where additional information is available. Additionally, the right to request and receive this information in writing is available by contacting the campus director or designee at each University of Phoenix location during regular business hours.

Student Financial Aid Consumer Information

University of Phoenix participates in federal financial aid programs, including:

- Federal Stafford Direct Parent Loan for Undergraduate Student
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- National Science and Mathematics Access to Retain Talent (SMART) Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Teacher Education Assistance for College Higher Education (TEACH) Grant
- Iraq and Afghanistan Service Grant (IASG)
- Federal Perkins Loan Program
- Federal Stafford Direct Loan (DL) Program
- Federal Stafford Direct Parent Loan for Undergraduate Student (PLUS)
- Federal Stafford Direct PLUS loan for Graduate and Professional Degree Students

Degree-seeking students who are U.S. citizens or eligible noncitizens enrolled in an eligible academic program can apply for federal financial aid as a means of assisting with financing their education. Some certificate programs may also be eligible for federal financial aid.

Students may also be eligible to receive funding through state grant or scholarship programs in their states where available. Depending on the program, student eligibility may be need-based, non-need-based, credit-based, or dependent on other specific conditions.

Students should contact a local campus or an Online finance advisor at 866-766-0766 for additional information on the financial aid programs available at each campus. A list of campuses is available at www.phoenix.edu/campus_locations.html.

University of Phoenix Family Educational Rights and Privacy Act (FERPA) and Consumer Privacy Policy

University student records are confidential for all schools receiving funding under programs administered by the U.S. Department of Education in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA). Generally, information pertaining to a student record is not be released to a third party without written or authorized electronic consent via a FERPA Release form, judicial order, or a lawfully issued subpoena.

Access to Education Records

FERPA regulations require the University to comply with students' rights to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, University Services will respond to students' requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records the students wish to receive copies of or inspect.

Note: Under FERPA, a student is defined as an individual who is or has attended an educational institution. Students with at least one positive attendance, or Y, posted are considered a student.

Education records are defined as all records, files, documents and materials containing information directly related to a student, and maintained by an educational institution.

The following are not interpreted as education records:
- Personal records maintained by an individual; must be kept in the sole possession of the individual and are not accessible to others.
- Records of the law enforcement unit of an educational institution.
- Personnel records; records related to a person as an employee not used for any other purpose.
- Medical records.
- Records created after the student is no longer a student; alumni records.

Releasable Information - Directory

In compliance with FERPA, a University designated representative without prior written or authorized electronic consent of the student can request the following education record information, provided the student does not have a FERPA Hold Request Form on record.

- Student name
- Home address
- Email address
- Home telephone number
- Year of birth
- Dates of attendance at the University
- Dates of admission to the University
- University programs of study
- University degree completion dates and type of degree earned
- Current enrollment status (full-time and withdrawn)
- Most recent previous institutions attended and degree(s) earned
- Grade level (freshman, sophomore, junior or senior)
- Photographs
- Honors and awards received
- Participation in officially recognized activities

If a student submits written or authorized electronic requests via a FERPA Hold Request form that directory information not be released to a third party. No information can be released, absent a judicial order or a lawfully issued subpoena. A FERPA Hold Request is valid throughout the student's enrollment.
To remove a FERPA Hold Request, the student must complete and submit a FERPA Hold Release Form to the Registrar’s Office.

To remove previously authorized parties from record, the student completes and submits a FERPA Rescind form listing all parties to whom information should no longer be released.

**Information Not Released - Non-Directory**

In compliance with FERPA, the following student information must not be released by the University without prior written or authorized electronic consent of the student, a judicial order, or a lawfully issued subpoena. The student’s signature on the written requests shall be verified before acting upon the request.

- Place of birth
- Month and day of birth
- Social Security Number (SSN), Individual Record Number (IRN) or Personal Identification Number (PIN)**
- Grades or grade point averages
- Course schedules
- Employment information including: employer, position held, work address, or work telephone number.
- Academic performance information, such as academic suspension, probation, disqualification, or academic dishonesty charges.
- Admission information including test scores or entry grade point averages.
- Financial and accounting information
- Gender
- Race
- Ethnicity
- Citizenship
- Country of origin

*Although this information may be disclosed without prior written consent according to FERPA, the University policy is to maintain the confidentiality of this student information. The University will notify students to provide contact information directly to a third party when this information is requested.

**Student IRNs, SSNs or PINs should not be released to a third party, unless necessary to perform a required task, for example the Student Financial Agreement, FBI request, etc.

Note: Non-directory information can only be released to third parties via telephone or in-person if the student has provided written or authorized electronic consent including a security word. If the student does not complete the release information, including security word, information is not released via telephone or in-person.

Note: All third party inquiries, including parents, require a FERPA Release Form on file unless the third party meets one of the definitions under FERPA allowing without prior written or authorized electronic consent from the student, for example power of attorney, etc.

The University can release information to school officials with legitimate educational interest. The University may release information under the following conditions:

- School officials with legitimate educational interest

- Person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials such as Apollo Group, Netnet Scholarship Management, Aptimus, Protiviti, ACS, ECMC Solutions, National Student Clearinghouse, Paradigm, Inc., Education Sales Management, Double Positive, Hills Consulting Group, SCRIP-SAFE, Student Outreach Solutions, i3, Inside Track, Salesforce, Iron Mountain, Intraedge, ITC Infotech, Outsell Y-Connecting, collection agencies (CS, ARS, States Recovery, FMS, Account Control Technology-ACT, Avante USA, Capital Management Systems, FCBS, NARS Call Center Solutions, National Enterprise Systems, Northland Group, Penta Group, Redline Recovery, Tate and Kirlin, and Windham Professionals), Cenveo and other services.

- Other schools to which a student seeks or intends to enroll
- Specified officials for audit and evaluation purposes
- Appropriate parties in connection with financial aid to a student
- Organizations conducting studies for, or on behalf of, the school
- Accrediting organizations
- To comply with a judicial order or lawfully issued subpoena
- Appropriate officials in cases of health and safety emergencies
- State and local authorities, pursuant to state law
- The U.S. Immigration and Customs Enforcement, in compliance with the Student Exchange Visitor Information System (SEVIS) program
- Under “Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act (USA PATRIOT ACT) of 2001,” Section 507 amends FERPA and allows institutions to disclose without consent or knowledge of the student personally identifiable information from the student’s education records to the Attorney General of the United States or to his designee in response to an ex parte order issued in connection with the investigation or prosecution of terrorism crimes specified in 2332b(g)(5)(B) or an act of domestic or international terrorism as defined in Section 2331 of Title 18 United States Code. Institutions that, in good faith, produce information from education records in compliance with an ex parte order issued under this amendment “shall not be liable to any person for that production.”
- Under the Campus Sex Crime Prevention Act, institutions are permitted to disclose information concerning registered sex offenders who are required to register under the Violent Crime Control & Law Enforcement Act
- The institution may disclose the results of a disciplinary proceeding if the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and he or she has been found to have violated the institution’s policies and procedures with respect to the allegation. Disclosures may only be made if the institution determines the student did violate its policies and such disclosures must only include the name of the student, violation committed and any sanction imposed by the institution against the student.

The institution must, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the institution against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the institution must provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

The disclosure is to organizations conducting studies for, or on behalf of, educational agencies or institutions.

If a student initiates legal action against an educational institution, the institution may disclose to the court, without a court order or subpoena, the student’s education records that are relevant for the institution to defend itself.
The disclosure is to parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1986.

A school official has a legitimate educational interest if:
- Performing a task specified in his or her job description or contract
- Performing a task related to a student's education
- Providing a service or benefit relating to a student or a student's family
- Representing a school in which a student seeks to enroll
- Disclosing information to federal and state authorities auditing compliance of federal or state support programs
- Disclosing information in connection with financial aid; to determine financial aid eligibility; amount of aid, conditions for the aid, or to enforce the terms of conditions of the aid
- Disclosing information to state and local officials to whom this information is specifically allowed to be disclosed pursuant to state laws if the allowed disclosure concerns the juvenile justice system and the system's ability to effectively serve the student whose records are released
- Performing studies on behalf of educational institutions
- Disclosing information to accrediting organizations carrying out their function
- Complying with a judicial order or lawfully issued subpoena provided notification to the student is made before complying with the subpoena.

The University can disclose personally identifiable information, directory, and non-directory, without student consent if the disclosure meets one of the following conditions:
- This disclosure is to other school officials whom the University determines have legitimate educational interest.
- The disclosure is to officials of other schools where the student seeks or intends to enroll.
- The disclosure is, subject to requirements of 34 CFR §99.35, to authorized representatives of the Comptroller General of the United States, Secretary, or state and local educational authorities.
- The disclosure is in connection with financial aid the student has applied for or received, if the information is necessary for such purposes as to determine the following:
  - Eligibility for aid
  - Amount of aid
  - Conditions for aid
  - Enforce terms and conditions of the aid

Students requesting demographic or personally identifiable information on other University of Phoenix students for survey or research purposes must contact the Campus Director of Operations and Academic Affairs when approved through the Human Subjects Committee in the Office of the Provost.

The University shall retain a record of student information disclosed to a third party if disclosure does not fall under a FERPA exception. This information is made on University computer system containing dates, names and reasons for release. Students shall have reasonable access to their educational records and may request to review and challenge the contents, which they feel to be inaccurate, misleading, or otherwise in violation of their privacy or other rights. FERPA regulations require the University to comply with the students' right to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records.

However, University Services will respond to student's requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records they wish to receive copies of or inspect.

**Student Right to Access**

Student wishing to review their educational records shall submit a written request to the Registrar specifying the records to be reviewed. Only records covered by the Family Educational Rights and Privacy Act will be made available. If necessary, the Registrar's Office will work with a campus designated so that the student can review the record.

FERPA regulations require the University to comply with students' right to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, University Services will respond to students' requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records they wish to inspect or have a copy.

Students who wish to review their records at a campus location must present photo identification before access to educational records is allowed. For copies of records from the student's file, students must fill out and submit the Student Request for Information from Files form. Distance education students must submit a written request specifically outlining which record they would like to review. Upon verification of the student's signature, the records will be released.

A designated University official must be present when a student wishes to review their records at a campus location. This includes documents on file or student history notes that do not reference other student information. Printed files requested by the student and mailed from the Registrar's Office will not include history notes from any record systems.

**Procedure**

Students alleging their University records are inaccurate or misleading, or who allege violations of FERPA, may present their challenges to the University Registrar. Students have the right to correct record-keeping errors, but not to seek to overturn administration decisions and assessments. The registrar shall review students' challenges and, when appropriate, amend students' records accordingly. Students will be notified within 14 days of the registrar's actions and based on the action may request a formal hearing.

Student must submit request for amendment in writing to the registrar identifying the specific portion of his or her record he or she wants changed and why he or she believes it's inaccurate or in violation of his or her privacy. The registrar will respond to the request within 14 days.

If the University denies the request to change the record, the registrar will notify the student of the decision and advise them of their right to challenge the information.

Students' request for a formal hearing must be made in writing and submitted to the University Services. The registrar will arrange for a hearing, and notify the student within 14 days from the receipt of the request of the date, place and time of the hearing. A hearing panel appointed by the registrar shall represent the University. The panel shall consider all relevant evidence supporting students' allegations of inaccurate or misleading information in students' records. Decisions of the panel will be final.
The University will provide a written decision within 14 days of the hearing based on evidence presented at the hearing and will include a summary of evidence presented and the rationale for the decision. If the University decides that the challenged information is not misleading, inaccurate or in violation of the student’s privacy rights, it will notify the student within 14 days of his or her right to place in the record a statement commenting on the challenged information or a statement of reasons for disagreeing with the decision. The statement will be maintained as a part of the student’s record as long as the contested portion is maintained. If the University discloses the contested portion of the record, it must also disclose the statement.

If the University decides the information is inaccurate or in violation of the student’s right of privacy, it will amend the record and notify the student within 14 days, in writing, that the record has been amended.

Students may not inspect and review the following absent a judicial order or legally issued subpoena:
- Confidential letters and recommendations for which they have waived their rights of inspection
- Educational records containing information about more than one student
  - Access is permitted only to that part of the record concerning the inquiring student
  - Records of instructional, supervisory, administrative, and certain educational personnel, which are in the possession of the originator
  - Records connected with an application to attend the University if the application was denied, for example, a student is enrolled in an undergraduate program and applies for admission to a graduate program but is denied.

University of Phoenix cannot deny students access to their records. Copies do not need to be provided, unless by not providing copies, the students’ rights are denied.

The University may release foreign transcripts to students.

The University reserves the right to deny transcripts or copies of records not required to be made available by FERPA in any of the following situations, absent a judicial order or legally issued subpoena:
- Student has an unpaid financial obligation with the University.
- The University issues transcripts for students who have filed for bankruptcy provided University of Phoenix obtains a copy of the bankruptcy petition filed with the courts.

Students have the right to file a complaint with the FERPA office in Washington, D.C. Inquiries should be directed to:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

For a period of 25 years following the death of a student, education records of deceased students may only be released to the executor of the estate (written authorization required) or immediate family members (notarized affidavit required) defined as: spouse or legally recognized domestic partner, parents, legal guardians (court document required), children (over the age of 18), and siblings. Beyond this time, requests for these records may be released to anyone after review and approval from the Registrar’s Office.

The Student Verification Process (SVP) is required for inbound and internally transferred phone calls that request the release of or update to any student record information. The Student Verification Process is not required for outbound phone calls provided those calls are to contact numbers in our student academic systems and the student verifies his/her identity. A government issued photo ID or University of Phoenix issued photo ID can be used in place of the SVP for in-person requests.

The University is required to provide students a copy of its FERPA policy annually and upon written request from the student. Potential students can review the University FERPA Policy within this document, http://www.phoenix.edu/about_us/regulatory/consumer-information.html.

Current students can also obtain a copy of the FERPA policy in their student catalog at https://ecampus.phoenix.edu/portal/public/login.aspx.

**Solomon Act**

University of Phoenix complies with the Solomon Act, which provides certain information to military recruiters. Information that may be released includes:
- Student name
- Home address
- Email address*
- Telephone listing
- Age (Date of Birth)
- Place of birth*
- Level of education
- Academic major
- Degrees received*
- Most recent educational institution attended*

*This information may be released only when available.

**Procedure**

1. Request is routed from campus or corporate department to the Apollo Ethics & Compliance Department at the following address: University of Phoenix

   Apollo Ethics & Compliance Department
   4025 S. Riverpoint Parkway Mail Stop: CF-L302
   Phoenix, AZ 85040
   Fax: (480) 643-1015

2. Within 15 days of a request by the recruiter, the Apollo Ethics & Compliance Department will make contact with the requestor and discuss the necessary information requested, our method for determining costs, and our basis for concluding that such charges are reasonable and customary.

3. The Apollo Ethics & Compliance Department routes specific report details to the Office of the Registrar.

4. The Office of the Registrar processes request of information and routes report back to the Apollo Ethics & Compliance Department within 72 business hours.

5. The Apollo Ethics & Compliance Department sends the information to the requestor.

6. Documentation will be made and kept verifying each occurrence of report fulfillment.
Our Privacy Philosophy

University of Phoenix is committed to protecting your privacy when you visit our Site(s). We want you to know what Information we collect, how we use it, and how you can request that this Information be updated or corrected.

Certain University Site(s) may be subject to additional privacy policies (collectively "Additional Policies"). In the event of any direct conflict between any Additional Policies and this policy, the Additional Policies shall control. The University reserves the right to resolve any conflicts between policies in its sole discretion.

The University reserves the right to amend or otherwise modify this Privacy Policy at any time, visit http://www.phoenix.edu/copyright-legal/privacy_policy.html periodically to check for updates.

Scope

Our Privacy Policy covers any visitor to our Site(s), including current and potential students. This policy applies to both online and offline collection, storage, processing, and transfer of Personal Information.

Definitions

As used in this Privacy Policy, the following terms have the following meanings:

- "Business Associates" means third party service providers which Apollo Group, Inc. or the University may contract with to provide services on their behalf including those related to the Site(s) or for transactions occurring on the Site(s) including, but not limited to Social Networking, hosting, web analytics, lead generation, business or financial services.
- "Educational Partners" means our parent, the Apollo Group, Inc., and its subsidiaries including educational companies or institutions that Apollo Group, Inc. or its subsidiaries may be providing educational or other related services to under contract.
- "Financial Information" means specific Personal Information of a financial nature such as your credit card number.
- "Information" means any Information collected and includes 'Personal Information', 'Financial Information', 'Web Analytical Information' or any other Information collected from you through our site(s).
- "Marketing Information" means your Web Analytical Information and your Personal Information such as your name, address, email address, and telephone number that the University collects uses and discloses for the marketing and promotional purposes as disclosed in this Privacy Policy.
- "Personal Information" means Information that may be used, alone or in combination, to identify a specific individual and includes Financial Information.
- "Site" or "Sites," means the University website located at http://www.phoenix.edu/, as well as any other University-controlled or authorized Sites (including, without limitation, any business associate sites), regardless of domain name or IP address.
- "Social Network", means various Internet communication technologies provided on Sites that facilitate conversation and interaction between people online and includes, but is not limited to, blogs, discussion forums, wikis, chat sessions, news groups, etc.
- "Social Network Content" (or "SNC") means user-generated content you consent to share via a Social Network and includes, but is not limited to, Personal Information, including digital sounds and pictures that you upload to a Social Network. It also includes your Personal Information that may be displayed on other users' Social Network pages.
- "University", "we", "us", and "our" refer to the University of Phoenix and its parent company Apollo Group, Inc.
- "Unrelated Entities" means third parties that are not Educational Partners and who are not providing services to Apollo Group, Inc. or University of Phoenix as Business Associates.
- "Web Analytical Information" means internet generated Information we collect when you visit our Sites. This Information may be linked with marketing and Personal Information. When linked with other Information identifying you personally, either alone or in combination with other Information, then such Information also will be considered Personal Information.

Information We Collect

We collect various types of Information from you through our Sites, when we talk to you on the phone and in person with University representatives. Some of this Information is collected automatically through various web and internet technologies including Social Networking tools used by the University. Other Information is collected when you provide it in response to an advertisement, a survey, a request for Information, when you register for our educational or other services, or when you set up a Social Network profile.

Information Collected Automatically

Each time you visit one of our Sites, Web Analytical Information is automatically gathered. In general, this Information does not identify you personally. Examples of Web Analytical Information include, but are not limited to:

- IP address
- Collection Date
- Publisher Name
- Connection Speed
- Day of Week Time of Day (hour)
- Language settings
- Country, State, DMA, City (relating to IP address, if available)
- Domain (.com, .net, .mil, .org, .edu, etc.)

Our collection of Web Analytical Information lets us see how users are finding, and navigating our Sites, and it tells us which pages users visited most often so we can make our Sites more useful and relevant. This Information may be linked with personal Information to accomplish the purposes described in this Privacy Policy.

Information You Provide to Us

In addition to the Web Analytical Information automatically collected when you visit our Sites, the University also collects, uses and discloses Personal Information that you provide to us voluntarily when you respond to an advertisement or survey, register for our educational or other services, order merchandise or services from us, set up a Social Network profile, request Information regarding one of our educational programs, etc. While the exact nature of the Personal Information may vary depending on the type of response or service requested, the following is a non-exclusive list of the types of Information that may be collected to the extent it is necessary and applicable for the intended purposes:

- First, Middle and Last Name, Previous Names
- Street Address, City, State, Country, Postal Code
• Date of Birth
• Place of Birth
• Gender
• Race
• Ethnicity
• Country of origin
• Employment
• Native Language
• Address Type
• Email address
• Valid Day or Evening Telephone Number
• Cell Phone Number
• Confirmation of the age of majority
• Campus (based on postal code list)
• Apollo Institution interested in
• Current degree program of interest
• Current modality of interest (online, on-ground or Flexnet)
• Publisher Code (SiteID)
• Citizenship (Visa Types, Date of Issue - if you want to add this)
• Amount of Previous Credits
• Military Affiliation
• Credits earned
• Prior Education History
• High School Diploma
• Lead Source
• Individual Record Number (IRN) or Social Security Number
• Credit Card Number Other Financial Information
• Social Networking Content
• Other Information after you become a University student such as course assignments, grades and other educational records relating to your enrollment at the University and that may be required to be collected in the normal course of your studies.

How We Use This Information

Marketing Information
We use marketing Information to help us better plan our Sites and services to meet your needs; to measure and improve our Site(s) services and features, to communicate with you by email, postal mail, telephone, cellular/mobile phone, PDA devices, and/or on applications for mobile phones such as iPhone or Blackberry about products or services that may be of interest to you, to provide you with customer support, to prevent potentially illegal activities (including illegal downloading of copyrighted materials in accordance with our Copyright Infringement policy), and to enforce our Terms of Use. We also use a variety of technological systems to detect and address anomalous activity and to screen content to prevent certain abuses such as spam. These efforts may on occasion result in permanent suspension or termination of Site functionality for some users.

Financial Information
Your Financial Information will be used to conclude your registration or other transaction you have initiated with us. It will not be sold, rented, or otherwise transferred to an educational partner, business associate or unrelated entity outside of this purpose, except in the case of a reorganization, merger or acquisition of our shares or assets or those of our parent company Apollo Group, Inc.

Student Educational Records
If you are or subsequently become a student at the University, your educational records are subject to the U.S. federal Family Educational Rights and Privacy Act (FERPA), state laws and the University policies. Students have the right to limit access to FERPA-defined directory Information about them. To obtain a copy of the University FERPA policy, go to http://www.phoenix.edu/about_us/regulatory/consumer-information.html. You may also contact us via one of the below methods:

• to respond to your inquiries
• to administer promotions to which you have indicated an interest
• for our internal marketing purposes, which includes, but is not limited to, sending you material about products, services, updates, etc. that we think may be of interest to you
• for fostering communication and collaboration among members of the University community through Social Networks
• for sharing with our Educational Partners who may contact you with respect to their educational or marketing services;
• for sharing with our Educational Partners or Business Associates who are performing services on our behalf
• to analyze how Sites and services are being accessed and used;
• to improve Site and service performance and delivery
• to analyze risk and business results
• to obtain payment for services that we provide to you
• to maintain business records for reasonable periods
• to provide to Educational Partners, Business Associates or Unrelated Entities in connection with the contemplated or actual reorganization, merger, acquisition, financing, securitization, insuring, sale or other disposal of all or part of our business or assets, including for the purposes of determining whether to proceed with such transaction or fulfilling any records or other reporting requirements to such parties. In the event of any actual reorganization, merger, or acquisition such Information may be transferred as part of the transaction to the acquirer
• and/or as may be required or permitted by legal, regulatory, industry self-regulatory, insurance, audit, or security requirements applicable to the University, our Educational Partners, or our Business Associates.

Express Consent to Receive Pre-Recorded Voice Messages, Text Messages and Calls Using an Autodialer
In connection with the uses set forth above, we may use an automatic telephone dialing system, artificial or prerecorded voice messages, or text messages to provide you with various communications. Further, when you provide us with a cellular, wireless, or mobile telephone number as your contact number, you agree that you are providing us with your express consent to receive calls using an automated dialing system, prerecorded voice messages or text messages related to your enrollment. If you do not wish to receive these updates on your cellular or mobile phone, please provide us with a LAN-based telephone number.

Copyright Infringement
We also use a variety of technological systems to detect and address potential violations of our Copyright Infringement policy, and to enforce our Terms of Use. Further, when you provide us with a cellular, wireless, or mobile telephone number as your contact number, you agree that you are providing us with your express consent to receive calls using an automated dialing system, prerecorded voice messages or text messages related to your enrollment. If you do not wish to receive these updates on your cellular or mobile phone, please provide us with a LAN-based telephone number.
Location of Information Processing

Because we operate in multiple jurisdictions, including the United States and Canada, some Educational Partners and Business Associates may be located outside of the jurisdiction in which you reside. In such cases, your Personal Information may be collected, used, disclosed, stored and processed in these other jurisdictions for the purposes described in this Privacy Policy. The data protection and other laws of the United States and other countries might differ from your jurisdiction. While we require our Educational Partners and Business Associates to use your Personal Information only to perform the services we have retained them to provide and take reasonable steps to ensure that your privacy is protected in accordance with applicable laws. Please be advised that, by using our Sites, your Information may be transferred across borders and will be subject to the laws of those other jurisdictions, including lawful requirements to disclose Personal Information to government authorities.

Opt-Out

You may opt-out of our collection, use and disclosure of your Personal Information at any time, subject to contractual, academic, legal or technical restrictions and reasonable notice. Note that if you opt-out of certain uses of your Personal Information, we may no longer be able to provide certain products or services. You may not be permitted to opt-out to certain necessary collection, uses and disclosures, for example, but not limited to, educational announcements, maintaining reasonable academic, business and transaction records and disclosures to government entities as required for us to comply with applicable laws. To opt-out please email Ethics.Compliance@apollolgr.com.

You can choose to no longer receive marketing communications from us and you may express your choice where indicated on the applicable email or other communication or visit http://awhpsmnta01.universityofphoenix.com/webdocs/UnsubscribeEmail.html. Please note, however, that such a request will only remove you from our list and the list of any Business Associate performing services on our behalf. We are not responsible for the use any other party may make of the Information once it has been transferred in accordance with this Policy and you will need to contact such entity to have your Information removed from their database.

You may change various user settings related to sharing your Personal Information contained in any user profile you set up as part of Social Network activities furnished by us, subject to contractual, academic, legal or technical restrictions and reasonable notice. Note that your withdrawal from Social Network activities might prevent us from providing you with certain products or services. Students who desire to prevent release of their directory and educational record information in accordance with FERPA may place a FERPA Hold on their academic file. Current students can obtain a copy of the FERPA policy at https://ecampus.phoenix.edu/portal/portal/public/login.aspx.

Potential students can review the University FERPA Policy within this document.

Our Security Measures

We will take commercially reasonable measures to secure and store your Information to protect against the loss, misuse, and alteration of the Information under our control. We utilize industry standard security measures when accepting your credit card Information during the online ordering process, as well as whenever we ask you to login to any of our Site(s).

Unfortunately, no data transmission over the internet can be guaranteed to be completely secure. As a result, although we will utilize such measures, we do not guarantee you against the loss, misuse, or alteration of Information under our control, and you provide Information to us at your own risk. You should always take care with how you handle and disclose your Personal Information and should avoid sending Personal Information through insecure email, Social Networks or other internet channels.

Monitoring of Communications

We may monitor and retain all incoming and outgoing communications for training of our representatives and for quality assurance purposes. To the extent such communications are selected, they are only retained as long as necessary to adequately discharge these purposes, unless a specific communication needs to be retained for legal reasons. If you prefer that your communications not be retained for any reason, please advise your representative.

Internet Technologies Used

Cookies, web beacons and other relevant internet technologies are used on our Sites to allow us to accomplish the uses set out above as well as to deliver Sites messaging and to keep track of your Information. These small pieces of program code reside in your computer and browser and can be removed. If you desire to remove such technologies you may do so, but this may render our Sites unusable to you. You can opt-out of cookies or the other internet technologies used by disabling these features in your browser program. Consult your browser’s Help menu for assistance in changing cookie settings or removing cookie files.

Children’s Privacy

We are very sensitive to the issue of children’s privacy. Our Sites are neither developed for, nor directed at children under 13. If you believe your child has provided us with Personal Information, or registered at one of our Sites and would like to have this Information removed, please visit http://awhpsmnta01.universityofphoenix.com/webdocs/UnsubscribeEmail.html.

Site Hosting and Links from Our Sites to Other Websites

Some of our Sites may be hosted by our Business Associates or contain links to external websites hosted by Educational Partners and Unrelated Entities. When you access these Sites or external websites, the providers of the websites may have access to your Personal Information and may apply their own policies on how your Personal Information is used. Please make sure to read the policies of any sites you visit on the internet carefully. Please be aware that we are not responsible for the privacy practices or the content of any sites or external websites that we do not control directly and the collection, use and disclosure of Information about you by Educational Partners, Business Associates and Unrelated Entities will be subject to the policies applicable on those other sites or external websites.
Privacy Policy Changes
University of Phoenix may update this Privacy Policy or revise it from time to time. If you are concerned about how your Personal Information is used or disclosed you should contact us as described below or check back at this Site periodically to obtain a current copy of this Privacy Policy. We urge you to review this Privacy Policy frequently to obtain the current version. Your continued provision of Personal Information or use of our services following any changes to this Privacy Policy constitutes your acceptance of such changes. If we intend to use Information that personally identifies you in a manner materially different from what we stated at the time it was collected, we will attempt to notify you at least 30 days in advance. You will be given a choice as to whether or not previously provided Information may be used in a new way.

FEDERAL, STATE AND INSTITUTIONAL FINANCIAL AID PROGRAMS

General Requirements
General eligibility requirements for financial aid are as follows:
- Student must be a U.S. citizen or eligible noncitizen
- Student must be enrolled in an eligible program
- Student cannot also be enrolled in elementary or secondary school
- Student must have a high school diploma or general educational development (GED) credential
- Student must make satisfactory academic progress (SAP)
- Student must meet enrollment status requirements
- Student must have resolved any drug conviction issue
- Student must have timely registered for Selective Service, if required by law.
- Submit a current award year Free Application for Federal Student Aid (FAFSA)
For additional eligibility requirements go to http://www.phoenix. edu/tuition_and_financial_options/financial_options/financial-aid-options-non-citizens.html

Federal Grant Programs

Federal Pell Grant
A Federal Pell Grant is awarded based on financial need for each student. Need is primarily based on adjusted gross income (AGI) and family size. Other factors such as assets and the number of family members in college are also taken into account. The exact eligibility amount is calculated when the University receives and processes an Institutional Student Information Record (ISIR) from the U.S. Department of Education.

Pell Grants are awarded only to undergraduate students who have not earned a bachelor's or professional degree. The maximum Pell Grant for the 2011-2012 award year is $5,550.

Survivors of Servicemembers Grant
Effective for the 2009-2010 award year, students who have a Pell Grant eligible expected family contribution (EFC) may be eligible for the Survivors of Servicemembers Grant. Student will be treated as a student who has a zero EFC and will be awarded the maximum Federal Pell Grant scheduled award if the following criteria apply and is otherwise eligible:
- Parent or guardian died as a result of military service in Iraq or Afghanistan after September 11, 2001
- Student is less than 24 years old or enrolled in a postsecondary program at the time of the parent or guardian’s death

Iraq and Afghanistan Service Grant
Effective for the 2010-2011 award year, students who do not have a Pell Grant eligible expected family contribution (EFC) may be eligible for the Iraq and Afghanistan Service Grant (IASG), equal to the maximum Federal Pell Grant award for the award year, if the following criteria apply and is otherwise eligible:
- Parent or guardian died as a result of military service in Iraq or Afghanistan after September 11, 2001
- Student must be less than 24 years old or was enrolled in a postsecondary program, at least part time, at the time of the parent or guardian’s death

The amount of the IASG award is the same as the maximum Pell Grant for the award year, adjusted for enrollment status and cost of attendance (COA). All other federal financial aid will be awarded based on the student’s calculated EFC of the student.

Federal Supplemental Educational Opportunity Grant
The Federal Supplemental Educational Opportunity Grant (FSEOG) is awarded to undergraduates having exceptional financial need, with priority given to Federal Pell Grant recipients with the lowest expected family contribution (EFC). The maximum annual award for each student will be $500. The minimum FSEOG amount is $100. This amount is disbursed equally in two payment periods within the award year. Students will be awarded FSEOG based on the availability of funds at the University. The University cannot guarantee every eligible student will receive a FSEOG award.

Teacher Education Assistance College of Higher Education Grant
The Teacher Education Assistance College of Higher Education (TEACH) Grant Program is a non-need based program that provides up to $4,000 per year to students who meet the following criteria:
- Enrolled in an eligible TEACH program at University
- Have a cumulative 3.25 GPA
- Sign an Agreement to Serve (ATS) and complete all counseling requirements

How to Access Your Information and Contact Us
If you want access to or wish to update any of your Personal Information or have any questions about our privacy practices, please contact our Chief Ethics and Compliance Officer at Ethics.Compliance@apollogrp.edu or Apollo Group, Inc
Attn: Chief Ethics & Compliance Officer
4025 S. Riverpoint Parkway
Phoenix, AZ 85040 USA
Grant recipients must agree to teach for at least four years within eight years of finishing a teacher preparation program and to teach high-need subjects in designated schools that serve low-income students. Recipients who do not complete the four-year teaching obligation will have the grant converted to an unsubsidized Direct Loan that must be repaid with interest from the date the loan was issued.

**Federal Perkins Loan**

The Federal Perkins Loan is a deferred payment, deferred interest loan, administered by the University, awarded to undergraduate, graduate and professional students with exceptional financial need. The maximum annual award amount for each student is $4,000. This amount is disbursed equally in two payment periods within the award year. Students are awarded based on availability of funds at the University. The University cannot guarantee every eligible student will receive a Perkins loan award. This loan is made with government funds, with a share contributed by the University.

**Terms and Conditions**

Students who receive a Federal Perkins Loan are subject to the terms and conditions disclosed on the Federal Perkins Loan Master Promissory Note (MPN).

An interest rate of 5 percent per annum begins to accrue and repayment begins nine months after the borrower graduates or withdraws from the University. The monthly payment amount depends on the amount of debt and length of repayment period. The minimum monthly payment is $40. This loan must be repaid to the University.

A Perkins Loan borrower is not charged any fees. However, after repayment begins, if a payment is skipped, late, or less than a full payment, a late charge can apply. If the borrower continues to not make payments as required, the borrower will pay collection costs. Under certain conditions, borrower can receive a deferment or forbearance on loan(s), as long as the loan is not in default. Further information is presented during the required Perkins Loan entrance and exit counseling process.

**Federal Stafford Direct Loan Program (DL)**

Loans made through this program are referred to as Direct Loans (DL). Eligible students and parents borrow directly from the U.S. Department of Education. Direct Loans include subsidized and unsubsidized loans, PLUS Loans, and Consolidation Loans. These loans are paid directly to the U.S. Department of Education.

A subsidized loan is awarded based on financial need. Borrower will not be charged any interest before repayment begins or during deferment periods. The federal government subsidizes the interest during these periods.

An unsubsidized loan is not awarded based on need. Borrower will be charged interest from the time the loan is disbursed until it is paid in full. If interest is allowed to accrue while student is in school or during other periods of non-payment, it will be added to the principal amount and additional interest will be based on that higher amount. Borrower can choose to pay the interest as it accrues.

The amounts borrowed depend on student grade level and dependency status at the University.

A student whose parent cannot obtain a parent loan for undergraduate student (PLUS) loan is allowed to borrow additional unsubsidized federal Direct Stafford amounts. Student dependency status will be determined based on answers to questions on the FAFSA.

**Terms and Conditions**

For more information on loan terms and conditions, refer to the Borrower’s Rights and Responsibilities section of the Federal Direct Stafford/Ford Loan MPN.

After a student submits a completed MPN, an award letter is sent from the University and a disclosure statement from the lender informing the student of the types and amount of student loans awarded for the loan period. When the funds are received, the University confirms eligibility and current registered courses. Any changes and/or breaks in attendance or failure to start class as scheduled may prevent federal financial aid funds from being disbursed.

Loans are processed for an academic year, which is a minimum of 24 credits and 30 weeks of instructional time. A student can apply for subsequent loans after successfully completing these requirements. The University will disburse federal financial aid funds in at least two disbursements. A student is eligible for the first disbursement at the beginning of the payment period and the second disbursement occurs after the midpoint of the academic year. To meet eligibility standards for second and subsequent loan disbursements, the student must successfully complete the previous credits and meet the calendar and instructional week midpoint of the loan period, as well as maintain satisfactory academic progress (AP) according to University policy. Schedule changes and/or lack of attendance may delay the timing of scheduled disbursements.

**Federal Stafford Direct Parent Loan for Undergraduate Student**

If a student is a dependent undergraduate student, a parent may apply for a Federal Stafford Direct Parent Loan for Undergraduate Student (PLUS) loan to assist with the educational expenses of a student. The application process includes completion and submission of a PLUS loan application by the parent(s). The application process is completed through the Federal Stafford Direct Loan Program. This loan is based on credit worthiness as determined by the U.S. Department of Education.

The yearly limit is equal to the cost of attendance (COA) minus any other financial aid received. Interest is charged on the loan from the date first disbursement is made until the loan is paid in full. The parent borrower has the option to begin repayment either within 60 days from date loan is fully disbursed or wait six months after the dependent student (on whose behalf the parent borrowed) ceases to be enrolled at least half-time basis.

Parents have the option of deferring repayment on Parent PLUS loans while the undergraduate student (on whose behalf the parent borrowed) is in school and for a six-month grace period after the student graduates or drops below full-time enrollment. This change is effective for Parent PLUS loans first disbursed on or after July 1, 2008. Payments can also be deferred if the parent(s) themselves are enrolled in college. The parent(s) will need to submit an application for an in-school deferment.

Before the deferment option on the Parent PLUS loan was added on July 1, 2008, some lenders allowed parents to defer payments on the PLUS loan while the student is in school by granting one of several types of forbearances. In each case the forbearance allows a full or partial suspension of payments for up to one year at a time. The discretionary forbearance can be renewed each year, the economic hardship deferment and excess debt burden forbearances each have a three-year time limit. The deferments and forbearances are still available for all Parent PLUS loans.
Note: Interest on the Parent PLUS loan is not subsidized and continues to accrue while deferred or in forbearance and is capitalized when the loan enters repayment.

**Terms and Conditions**

Students whose parents receive a PLUS loan are subject to the terms and conditions disclosed on the Federal Stafford Direct PLUS Loan Application and MPN.

**Federal Stafford Direct PLUS Loan Program**

Graduate and professional students are now eligible to borrow under the Federal Stafford Direct Loan Program. Graduate and professional students can borrow an amount up to the cost of attendance (COA) minus other financial assistance. The terms and conditions applicable to parent PLUS loans also apply to graduate PLUS loans.

Applicants are required to complete the Free Application for Federal Student Aid (FAFSA) and are given an opportunity to request the maximum eligibility under the Federal Stafford Direct Loan Program before applying for a graduate PLUS loan.

**Terms and Conditions**

Students who receive a graduate PLUS loan are subject to the terms and conditions disclosed on the Federal Stafford Direct PLUS Loan Application and MPN.

**Education Loan Interest Rates**

All Direct Loan and FFEL Program loans with a first disbursement date that is on or after July 1, 2006 have fixed interest rates that will remain the same throughout the life of the loan. Loans that were first disbursed before July 1, 2006 have variable interest rates that are adjusted each year on July 1. For subsidized and unsubsidized loans first disbursed before July 1, 2006, the variable interest rate will never be more than 8.25%. For PLUS loans first disbursed before July 1, 2006, the variable interest rate will never be more than 9.00%.

**Fixed Rates:**

Direct Loan and FFEL Program Loans First Disbursed on/after July 1, 2006

Note: Effective July 1, 2010, the only loans that can be made are Direct Loans.

</table>

Note: Beginning with loans first disbursed on or after July 1, 2006, the interest rate on all Stafford Loans in both the FFEL Program and in the Direct Loan Program was fixed at 6.8 percent. That rate continues to apply to all unsubsidized Stafford Loans and to subsidized Stafford Loans for graduate and professional students. Starting with loans first disbursed between July 1, 2008 and June 30, 2009, the interest rate on subsidized Stafford Loans for undergraduate students was reduced to 6.0 percent, with additional reductions each year through June 30, 2012.

**Variable Rates:**

Direct Loan and FFEL Program Loans First Disbursed Between July 1, 1998 and June 30, 2006

These rates were calculated based upon statutory formulas and equal the bond equivalent rate of the 91-day Treasury bills auctioned on May 31, 2011, plus certain statutory percentage additions. The 91-day Treasury bills were auctioned at 0.061 percent, rounded to 0.06 percent.

Entrance Counseling

Federal Financial Aid Counseling
• Sample repayment schedules
• Explanation of repayment terms
• Importance of repayment obligation

Perkins Loan Counseling
• Other terms and conditions
• Information in reference to a borrower’s rights and responsibilities
• An explanation of the use of a master promissory note (MPN)
• An explanation of the use of a MPN
• Importance of repayment obligation
• Description of consequences of default
• Sample repayment schedules
• Information in reference to a borrower’s rights and responsibilities
• Other terms and conditions

Loan Payment Calculator

Exit Counseling

Student Financial Aid Rights and Responsibilities
• Written information on loan obligations and information on rights and responsibilities as a borrower
• A copy of the MPN, either before or at the time loan is disbursed
• A grace period and an explanation of what this means
• Notification, if in grace period or repayment, no later than 45 days after a lender assigns, sells or transfers the loan to another lender
• A disclosure statement, received before repayment begins, that includes information about interest rates, fees, the balance owed, and a loan repayment schedule
• Deferment or forbearance of repayment for certain defined periods, if qualified and requested
• Prepayment of loan in whole or in part anytime without an early-repayment penalty
• Documentation that loan is paid in full

Notes: Interest rates on Stafford and PLUS loans first disbursed before July 1, 1998 are calculated using different statutory formulas, percentage add-ons, or both. Generally, interest rates on Consolidation Loans are fixed rates calculated based on the weighted average of the loans being consolidated rounded up to the next higher 1/8 of one percent, not to exceed 8.25 percent.

To access information on your federal loans, go to www.nslds.ed.gov.
Interest rate on a borrower’s loan may be changed to 6.0 percent during the borrower’s active duty military service. Additionally, this law applies to borrowers in military service as of August 14, 2008. Borrower must contact the creditor, or loan holder, in writing to request the interest rate adjustment and provide a copy of the borrower’s military orders.

Loan Payment Calculators may be used by students or potential students to calculate monthly payments under the standard and extended repayment plans, www.finaid.org/calculators/loanpayments.phtml or www2.ed.gov/offices/OSFAP/DirectLoan/calc.html.

Federal Financial Aid Counseling

Entrance Counseling
The University ensures loan entrance counseling is conducted online at the U.S. Department of Education website, https://studentloans.gov/myDirectLoan/index.action, before a borrower takes out a loan. Entrance counseling generally includes the following:
• An explanation of the use of a master promissory note (MPN)
• Importance of repayment obligation
• Description of consequences of default
• Sample repayment schedules
• Information in reference to a borrower’s rights and responsibilities
• Other terms and conditions

Exit Counseling
The University ensures loan exit counseling is conducted online at the U.S. Department of Education National Student Loan Database (NSLDS) website, http://www.nslds.ed.gov/nslds_SA/, within 15 days of completion of a program or withdrawal from the University. Exit counseling generally includes the following:
• An explanation of the use of a MPN
• Importance of repayment obligation
• Description of consequences of default
• Sample repayment schedules
• Information in reference to a borrower’s rights and responsibilities
• Other terms and conditions

Perkins Loan Counseling
The University ensures Perkins loan counseling is conducted online at the Mapping Your Future website, http://mappingyourfuture.org/oslc/. Perkins loan counseling generally includes the following:
• Importance of repayment obligation
• Explanation of repayment terms
• Description of consequences of default
• Sample repayment schedules

TEACH Grant Counseling
The University ensures initial and subsequent Teacher Education Assistance College of Higher Education (TEACH) Grant counseling is conducted online at the TEACH Grant website, https://teach-ats.ed.gov/ats/index.action. TEACH Grant counseling generally includes the following:
• TEACH Grant Program and service obligations
• Information in reference to a borrower’s rights and responsibilities
• Other terms and conditions

Student Loan Code of Conduct
The University protects students with established loan policies. University of Phoenix follows federal regulations that govern student loan requirements.
The Student Loan Code of Conduct creates and maintains uniform student loan practices that focus on the best interest of the student borrowers. It also manages relationships between school employees, learning institutions, lender advisory board members and student loan organizations.

University of Phoenix encourages students to review the Student Loan Code of Conduct at http://cdn-static.phoenix.edu/content/dam/altcloud/doc/tuition/Student-Loan-Code-of-Conduct.pdf, to learn about loan regulations.

Students should contact the University by email at PLL@phoenix.edu with any questions about the information in this document.

Statement of Educational Purpose
The parent or student signing a Free Application for Federal Student Aid (FASFA) certifies that (1) will use federal and/or state student financial aid only to pay the cost of attending an institution of higher education, (2) are in default on a federal student loan or have made satisfactory arrangements to repay it, (3) do not owe money back on a federal student grant or have made satisfactory arrangements to repay it, (4) will notify your college if you default on a federal student loan and (5) will not receive a Federal Pell Grant from more than one college for the same period of time.

The parent or student, signing the Free Application for Federal Student Aid (FASFA) agrees, if asked, to provide information that will verify the accuracy of your completed form. This information may include U.S. or state income tax forms that you filed or are required to file. Also, you certify that you understand that the Secretary of Education has the authority to verify information reported on this application with the Internal Revenue Service and other federal agencies. If you sign any document related to the federal student aid programs electronically using a Personal Identification Number (PIN), you certify that you are the person identified by the PIN and have not disclosed that PIN to anyone else. If you purposely give false or misleading information, you may be fined up to $20,000, sent to prison, or both.

Refferrals to the Office of Inspector General
University of Phoenix is required by law to make referrals to the Office of Inspector General of any cases of suspected fraud and abuse involving the federal financial aid programs.

State Grants
The actual amount of state grants awarded to any student is contingent on availability of funds. The University cannot guarantee any funding from the state grant sources listed as the list is subject to change without notice based upon changes in state law or regulation and/or University participation. Where a work or other change without notice based upon changes in state law or regulation and/or University participation. Where a work or other requirement is included in order to preclude the conversion of a scholarship or grant to a loan, the University makes no representation or warranty as to whether a graduate will be able to obtain such employment or fulfill such other requirement.

Institutional Grants
University of Phoenix is committed to providing financial assistance opportunities through institutional grant programs for potential and current students.

Thinking Ahead Grant
The Thinking Ahead Grant is directed toward new students with an expected family contribution (EFC) of $12,500 or less and has a minimum unmet need of $200. The grant award is applied to unmet direct costs, not to exceed $1,500 per award year, of a bachelor’s degree program for students maintaining continuous enrollment. Eligibility is reviewed and determined after federal financial aid certification.

Institutional Scholarships
The Center for Scholarship Excellence (CSE) is a department of University of Phoenix. The CSE is committed to assisting with financial support through institutional and external scholarship programs. The CSE encourages students to borrow responsibly as they work towards their educational goals.

University of Phoenix has a comprehensive scholarship website at http://phoenix.edu/scholarships to meet the needs of our students. This website features scholarships offered by University of Phoenix, scholarship resources, tips, suggestions, articles, external scholarship search engine and much more.

Institutional scholarships are just one type of scholarship. University of Phoenix funds institutional scholarships. The CSE creates and manages them. The University often partners with nonprofit organizations to promote scholarship programs. These scholarships are available to potential students, current students or alumni.

Private outside entities fund external scholarships. Many are available to University of Phoenix students and the general population. Depending on the external scholarship requirements, student eligibility may be need-based, merit-based or credit-based. The CSE will evaluate external scholarship programs, determine applicability to the University student populations, and will communicate these opportunities to students and campuses.

The website, http://www.phoenix.edu/tuition_and_financial_options/scholarships/institutional-scholarships.html, is updated regularly for institutional scholarships, qualifications, and selection criteria specific to University of Phoenix current and potential students as opportunities become available.

Private Student Loans
Private student loans are available to students who are not eligible for federal financial aid loans or who need assistance beyond their financial aid eligibility. These loans are made privately through banks and other financial institutions and are subject to a credit check and individual lender terms. Eligibility is determined by the lender and amounts are limited to the cost of education minus other aid. These loans are not subsidized or guaranteed by the federal government. Private loans should only be considered after applying for federal financial aid. Contact the lender for specific terms and conditions.

To assist with finding the right lender for a private loan, visit the Student Lending Analytics website, www.studentlendinganalytics.com/alternative_loan_options.html.

Student Lending Analytics has developed a list of private loan options to serve schools and their students who need a focused resource for help in finding a private student loan.

A student may choose any eligible lender; the University will process the request accordingly.
The following documentation is required:

- MyApply® application process at https://myapply.phoenix.edu/Apply/Login.aspx
- Student Financial Agreement Form
- Authorization to Apply to Future Charges form if, and only if, a student chooses this option

### Federal Financial Aid Application Process

A student can apply for federal financial aid after submitting an application for admission to the local campus or via MyApply® and registering for courses in an eligible degree program. During the application process, the following forms may be completed for federal financial aid grants and loans:

- University of Phoenix Financial Aid Application
- Current award year Free Application for Federal Student Aid (FAFSA)
- Federal Stafford Direct Loan Master Promissory Note (MPN)
- Entrance Counseling

The University highly recommends using the online financial aid application process at https://faw.phoenix.edu. This access allows a student to complete and electronically sign required student financial aid documents, including the FAFSA.

Students qualifying for financial aid may apply for a new award each academic year (the period of time a student successfully completes a minimum of 24 credit hours and 30 weeks of instructional time). Therefore, the student may have eligibility assessed for grants or loans several times during a program of study. A student should reapply for financial aid prior to the start of each new academic year.

For more information on federal financial aid eligibility go to http://www.phoenix.edu/tuition_and_financial_options/financial_options/financial-aid-options-non-citizens.html

### Reapplication Process

The University notifies students when new award year paperwork is required, provided the student is considered enrolled. Returning students may be proactive and submit completed paperwork.

### Cancellation of Federal Financial Aid

The following documentation is required:

- MyApply® application process at https://myapply.phoenix.edu/Apply/Login.aspx
- Student Financial Agreement Form
- Authorization to Apply to Future Charges form if, and only if, a student chooses this option

The University may return the loan funds, cancel the loan, or do both, provided that the cancellation request is received within the required timeframes. If the University receives a student or parent request for cancellation after these dates, the University may, but is not required to, honor the request. Regardless of when the request is received, the University informs the student or parent in writing of the outcome of the request.

When processing a loan cancellation request, the University must return the funds (if received) and/or cancel the loan, or do both as appropriate. The University is not responsible for returning any portion of a loan that was disbursed to a student or parent directly before the request for cancellation was received.

### Verification

A federal financial aid student may be chosen to participate in the verification process by the U.S. Department of Education Central Processing System, following procedures established by federal regulations. Central Processing System prints an asterisk next to the expected family contribution (EFC) on the ISIR, Student Aid Report (SAR), or SAR Acknowledgement to identify students selected for verification.

If a student is selected for verification, the University will request a copy of tax returns signed by the student and, if applicable, a student’s parent or parents or spouse, and a verification worksheet. Additional documents may be requested by the University to complete the application process. A student will receive written notification from the University of verification requirements and the timelines for completion of the process.

Failure to comply with request for verification documents can result in disqualification for federal financial aid.

### Professional Judgment

The University may exercise discretion to accommodate special circumstances, with respect to some aspects of eligibility, using Professional Judgment. Professional judgment allows the University to treat a student individually when the student has special circumstances not sufficiently addressed by standard procedures. The University uses professional judgment on a case-by-case basis.

Special circumstances will include conditions that differentiate an individual student from a whole class of students. The University will not accept professional judgments made for a student by another school, but will review the circumstances and, if appropriate, document the professional judgment decision. The decision of the University regarding professional judgment is final and cannot be appealed to the U.S. Department of Education.

The University will complete Verification before exercising professional judgment.
Satisfactory Academic Progress

Satisfactory Academic Progress for Federal Financial Aid

Financial aid satisfactory academic progress (SAP) is based on federal regulations and is intended to provide early intervention for students facing academic challenges and help students successfully complete their program of study.

Grade Point Average (GPA)
A cumulative program GPA is calculated using only grades earned at the University for the student’s primary program of study.

Pace of Completion (Pace)
Students must earn at least 67 percent of the credit hours attempted toward completion of the primary program of study. Credit hours taken at other institutions and accepted toward students’ primary program of study at the University are included in both attempted and completed credit hours when measuring pace of completion. The pace of completion is calculated using the following formula:

\[
\frac{\text{Cumulative number of credit hours successfully completed}}{\text{Cumulative number of credit hours the student attempted}}
\]

Maximum Time Frame
The maximum timeframe to complete the program cannot exceed 150 percent of the published length of a program, measured in credit hours attempted, for undergraduate and graduate students. Progress is evaluated cumulatively for students’ primary program of study, at the end of each completed payment period.

Evaluation
The University evaluates SAP for the student’s primary program of study, based on a completed payment period (generally, at least 12 credit hours and 15 weeks of instruction).

Regular (RG)
Students meeting all three of the financial aid SAP components defined above have regular (RG) financial aid status and are eligible for federal financial aid.

Financial Aid Warning (FW)
Students who are on a regular (RG) status and, at the end of the next payment period, do not meet all three of the financial aid SAP components defined above, are automatically placed on financial aid warning (FW) status. The University will disburse federal financial aid funds to students with an FW status for one payment period.

Financial Aid Disqualification (FD)
Students on financial aid warning (FW) status who do not meet all three of the financial aid SAP components (defined above) at the end of the next completed payment period, are not eligible for additional federal financial aid and will be placed on financial aid disqualification (FD) status. Students placed on FD status are not eligible to appeal this status for consideration of significant extenuating circumstances.

Financial Aid Probation (FP)
Students who successfully appeal an FD status are placed on financial aid probation (FP) status. The University will disburse federal financial aid funds to students with an FP status for one probationary payment period, provided that all other eligibility requirements are met.

The University will notify students when their financial aid status changes.

Reestablishing Academic Progress
Students on a financial aid warning (FW) status can retain eligibility without filing an appeal by meeting all three of the financial aid SAP components defined above by the end of the FW payment period. Students who reach a financial aid disqualification (FD) status can change their status only through the financial aid SAP appeal process. Students may not regain eligibility for federal financial aid by merely paying for courses or sitting out for an increment.
Federal Financial Aid Appeals

Students placed on financial aid disqualification (FD) status may appeal the disqualification to regain eligibility for federal financial aid, if there are extenuating circumstances. Through the financial aid SAP appeal process, federal financial aid reinstatement may be possible if the appeal is approved and the student is placed on financial aid probation (FP) status.

**Status**  | **What to do**
--- | ---
Financial Aid Disqualification (FD) | *It is highly recommended students contact their finance advisor prior to submitting an appeal. The finance advisor will be able to answer questions and provide specific time-frames for SAP appeals**
Submit an appeal packet, along with supporting documentation directly to the PJ fax line at 877-290-8683. The packet must include:
- Professional Judgment SAP appeal template, hand signed and dated. (The SAP appeal template can be found at www.faw.phoenix.edu or by contacting your campus advisor.)
- A detailed explanation and timeline corresponding to courses in which SAP standards were not met and how the situation has been resolved.
- Supporting documents for all issues mentioned in statement.
- Provide a statement explaining, in detail, the steps that will be taken and resources that will be used to ensure remaining courses are successfully completed.
Approval and/or reinstatement of financial aid eligibility is not guaranteed.

The Professional Judgment Team reviews all appeals on a case-by-case basis. Approval is only granted when there are significant extenuating circumstances. All decisions made by the Professional Judgment Team are final.

The University allows students a maximum of two approved appeals during enrollment at the University. The appeals cannot be consecutive and will only be considered if significant extenuating circumstances exist.

If the appeal is approved the student is placed on financial aid probation (FP) status and eligible for federal financial aid for one additional payment period.
- The University will disburse federal financial aid funds to students on financial aid probation (FP) status for one payment period, provided all other eligibility requirements are met.
- The student must meet University financial aid SAP standards at the end of the subsequent payment period to maintain federal financial aid eligibility.

Cost of Attendance Policy

A student’s cost of attendance (COA) is established for use in calculating amounts of federal financial aid awards and packaging aid. The COA consists of various components to determine eligibility for a period of enrollment. The University reviews and, if necessary, updates each component annually, referencing the College Board website, http://professionals.collegeboard.com/higher-ed, the National Retail Federation Survey and reviewing actual institutional data. If an annual adjustment is deemed nominal at 5 percent or less, the University may opt to maintain the COA used in the prior award year.

The average monthly living expense, electronic course materials and book estimates used in the federal cost of attendance (COA) are as follows:

- **Living Expense**
  - Campus $1,327.00
  - Online $1,088.00

- **Electronic Course Material**
  - Associates $74.00
  - Undergraduate $75.00
  - Master $76.00
  - Doctoral $87.00

Contact a local campus for detailed information regarding actual tuition and fee information.

Policy

The University uses an average monthly cost of living expense based on the following:
- Nine months for associates degree-seeking students
- Ten months for bachelor’s degree-seeking students
- Twelve months for graduate students

The University’s COA is made up of the following components:

**Tuition**

Average tuition rates are obtained annually for Online campus programs and local campus programs at each degree level. The tuition expense for the COA is an average based on modality and degree level. The University documents how averages are calculated and makes this information available upon request. If a student’s period of enrollment is less than a full academic year, costs will be adjusted to match the period of enrollment.

**Electronic Course Materials and Books**

The University charges a flat fee for each enrolled course, for the period of enrollment.

**Living Expense**

- Housing
- Transportation excluding Online students
- Miscellaneous

The monthly living expense component is based on an average between moderate and low, as published by the College Board. This average is used to calculate a monthly living expense amount used for students of all regions and states. The monthly living expense is then multiplied by the months in the loan period, based on degree level. Students receiving military housing assistance will have a reduction in living expenses in the amount of the housing allowance.
Remaining Periods

Remaining periods of enrollment will be prorated if the loan period contains less than 24 credit hours. Proration is calculated by dividing the number of remaining instructional weeks by four, rounding up that result, and multiplying it by the monthly living expense amount.

The COA will not increase if a remaining period needs to be extended due to the student failing or withdrawing from a course(s) in the prorated period.

Loan Fees

The University calculates an average loan fee as one of the components in the COA by performing a separate calculation for undergraduate and graduate students.

School Supplies

The University computes an average supply fee by reviewing the National Retail Federation Survey; designed to gauge consumer behavior and shopping trends related to back-to-college spending. This documentation is available for review, upon request.

Tribal Budget

The University prepares a separate tribal budget for students who receive tribal funding. The tribal budget consists of actual tuition rates for the tuition component and may include a child or dependent care average component obtained from the National Association of Childcare Resource and Referral Agency (NACCRRA). The University averages each childcare type for weekly and hourly cost for each state. Documentation is available for review, upon request.

Leave of Absence

Leave of Absence for Federal Financial Aid

A leave of absence (LOA) is a temporary interruption in a student’s program of study, whether necessitated by a planned or an unanticipated event or circumstance. An approved LOA is not required if a student is not in attendance only for a scheduled break. However, a scheduled break may occur during an approved LOA.

An LOA must meet certain conditions to be approved. An LOA may be approved if the University determines that the LOA Request meets all requirements and conditions of the University policy and federal regulations (34 CFR 668.22(d)), including that there exists a reasonable expectation the student will return to the University at the end of the LOA period. Students must follow this LOA Policy when requesting the LOA. If an LOA does not meet the requirements and conditions of University policy and applicable federal regulations, the student may be withdrawn from the University in accordance with the University’s withdrawal policy. Upon withdrawal, the University is required to perform a Return of Title IV (R2T4) Calculation.

Generally, the student must submit an LOA request and any supporting documentation on or before the start of the LOA. However, if unforeseen circumstances prevent the student from providing a prior written request for the LOA, the University may grant the LOA request, if appropriate.

Length

Length of an LOA is the number of days between the LOA start date and the LOA reentry date. The first day of the initial LOA is used when determining the start date for the 12-month period. If a student is granted an LOA due to unforeseen circumstances, the beginning date of the approved LOA is the first date the student was unable to attend class because of the unforeseen circumstance.

Extension

The student may request an LOA extension if the request is made before the scheduled reentry date. An extension request must be written, signed and dated and provided to the campus finance advisor on or before the scheduled reentry date. The student must demonstrate good cause for an LOA extension. Apollo Financial Aid (AFA) will make the final determination on any LOA extension request.

Leaf of Absence Request Form

Provide to the campus finance advisor a completed, signed, and dated LOA Request Form on or before the start of the requested LOA. The LOA Request Form is available for download from the Financial Aid Website (FAW), https://faw.phoenix.edu/ or

Written Request

Provide to the campus finance advisor a written, signed, and dated request, on or before the start of the requested LOA, including the reason for the LOA.

Unofficial Withdrawal

If a student is out of attendance due to an unforeseen circumstance and considered an unofficial withdrawal and the campus can document the reason and decision for the LOA prior to the return calculation being performed, the student will be placed on an approved LOA. However, if the student is an unofficial withdrawal and the campus does not document the reason prior to the calculation being performed, the student will be considered an unofficial withdrawal.
Loan Consolidation

Prior Loan Deferments

A consolidation loan may help make payments more manageable by combining several federal student loans into one loan with one monthly payment.

A student will need to apply for a loan consolidation and choose a repayment plan. Repayment plans include the following: standard, extended, graduated, income-contingent for direct loans, income-sensitive for Federal Family Education Loan (FFEL), or income-based.

Disbursements

The University may disburse Pell, IASG, FSEOG and Perkins loan funds to a student on an LOA. Federal financial aid funds that are part of a credit balance created before a student began an LOA may be paid to a student, since those funds were disbursed before the student went on the LOA.

Coursework

The University will allow students returning from an LOA to complete coursework started prior to the LOA with no additional charges.

Failure to Return

A student who is granted an approved LOA remains in an in-school status for federal financial aid repayment purposes. However, if a student on an approved LOA fails to return, the University must report the student’s change in enrollment status to loan holders as of the withdrawal date.

A possible consequence of not returning from an LOA is that the grace period for a federal financial aid loan program might be exhausted in whole or in part. Therefore, before the University will grant an LOA for a student who is receiving federal financial aid, HEA program loan recipient, the student must acknowledge possible consequences for failure to return at the end of an LOA, including the possible exhaustion of all or part of the student’s grace period.

Terms and Conditions

Prior Loan Deferments

If a student is registered and attending classes at the University, a student may have federal financial aid loans from previous colleges deferred. Deferment forms can be obtained from the lender if the loan is from another school. All deferment forms must be returned to the Student Finance Advisor, who will forward the forms to University Services in Phoenix, Arizona, for processing to the holder of the student’s loan. The loan holder makes the final determination of granting a student’s deferment request.

Students receiving federal financial aid funds may also obtain deferments while serving in the Peace Corps; under the Domestic Volunteer Service Act; and as a volunteer for a tax-exempt organization of demonstrated effectiveness in the field on community service.

Borrowers must formally request a deferment through the procedures established by the holder of their loan or loans. Detailed information regarding deferments may be viewed at www.studentaid.ed.gov or www2.ed.gov/offices/OSFAP/DirectLoan/post-pone.html.

Receiving a deferment is not automatic; therefore, a student or a student’s parent must apply for it.

Loan Consolidation

Loan Forgiveness Information

Under certain circumstances, the federal government will cancel all or part of an educational loan. To qualify, a student must complete at least one the following:

- Perform volunteer work
- Perform military service
- Teach or practice medicine in certain types of communities
- Meet other criteria specified by the forgiveness program

Application of Funds

The University will only apply federal financial aid funds to allowable charges. Allowable charges are defined as tuition (including Direct Study and state sales tax), electronic course materials, and California Student Tuition Recovery Fund (STRF) Assessment Fee (if applicable).

Federal financial aid and state assistance funds are retained at the time of disbursement to pay allowable charges owed the University because of monies returned to the student or parent, or returned to the federal financial aid or state assistance program.

Authorization to Apply Financial Aid Funds

The University applies federal financial aid funds to a student account for current tuition, electronic course material, and directed study fees including state sales tax for the payment period and prior year charges up to $200.

If a student authorized the University, through completion of the Authorization to Apply to Future Charges form during the financial aid application process, the University also retains federal financial aid funds for unpaid estimated future charges owed to the University for the loan period/academic year. Future charges are defined as allowable charges that have not been charged to a student account.

If a student is eligible to receive any remaining funds for the payment period, the credit balance funds are returned to the student in a living expenses check. At that time, the student is notified of the disposition of funds the University retained. Total processing time is approximately two weeks from date the University receives funds from the lender.

The University will not require or coerce the authorization and will notify the student or parent they may cancel or modify the authorization at any time. If the student or parent chooses to cancel or modify the authorization, the cancellation or modification is not retroactive. Funds retained for incurred allowable charges and prior year charges retained prior to the University receiving the authorized cancellation will remain on account. If modifications have been requested, subsequent disbursements will be processed according to remaining authorizations.

There are three options to notify the University regarding Authorization to Apply to Future Charges form:

- Initial notification on financial aid website (FAW), https://faw.phoenix.edu/
- The student is prompted to answer authorization to apply funds questions when completing the financial aid application process.
• When a student electronically signs and submits the Authorization to Apply to Future Charges form, they no longer have access to make corrections on the FAW for that award year.
• Update or Change Authorization to Apply to Future Charges
  • If a student or parent wants to update original authorization to apply funds, they can submit signed and dated statement outlining any changes to the Authorization to Apply to Future Charges form at any time. Student completes and faxes to AFA for processing. A submitted update is only in effect for future disbursements and the authorizations are retroactive.
• Signed statement
  • The University will accept a signed statement from a student or parent outlining any changes to the Authorization to Apply to Future Charges form at any time.
  • AFA processes the request accordingly.
  • A submitted update is only in effect for future disbursements and authorizations are not retroactive.

Federal Financial Aid Credit Balance
Whenever the University credits federal financial aid funds to a student’s account, and those funds exceed the student’s allowable charges, a federal financial aid credit balance occurs. The order in which funds are credited does not matter. The University will pay the excess federal financial aid funds directly to the student as soon as possible, but no later than 14 days after the balance occurred on the student’s account. The University will not require a student to take any actions to obtain his or her credit balance.

Timeline to Issue a Federal Financial Aid Credit Balance
If there is no authorization on file, excess funds will be issued by the University to the student within 14 days of the date that funds are disbursed (applied to the student’s account, or in the case of a check, the date that the check is signed by the student or parent. If the student or parent cancels their authorization to retain excess funds, the University will return any federal financial aid funds on account to the student or parent within 14 calendar days of receiving the request for cancellation. The cancellation request or modification is not retroactive and it takes effect on the date the University receives it from the student/parent.

Timeline to Issue Federal Financial Aid Credit Balance for Book Voucher
Pell eligible students with a federal financial aid credit balance that meets the criteria of funds that could have been disbursed 10 days prior to the beginning of the payment period will be provided the lesser of the amount of the credit balance or the amount needed by the student as determined by the University. These funds will be supplied to the student in the form of a book voucher no later than the 7th day of the payment period. Students may opt out of this offer by declining the book voucher.

Treatment of Unclaimed Federal Financial Aid Credit Balance
If the University is unable to locate a student to pay a credit balance and has exhausted all possible avenues to find the student, the University will return the credit balance to the federal financial aid programs.

The University will return any unclaimed federal financial aid credit balance issued by check to the applicable federal financial aid programs no later than 240 days after the check issued date. If the funds were issued via electronic funds transfer (EFT) and subsequently rejected, the University will return the funds to the applicable federal financial aid programs no later than 45 days after the funds were returned or rejected.

Financial Aid Awarding
The law requires financial aid administrators to determine whether a student is eligible for grant programs prior to loan programs of federal student aid (FSA) to reduce the need for borrowing. The University estimates Federal Pell Grant Program eligibility as Estimated Financial Assistance (EFA) when making Campus-Based awards. Pell Grant eligibility for an undergraduate student is estimated before originating a subsidized or unsubsidized Direct loan for that student. In addition, an unsubsidized Direct Loan is not originated without first determining the need for a subsidized Direct Loan. However, if the amount of the subsidized Direct loan is $200 or less and the amount can be included as part of an unsubsidized Direct Loan, the University is not required to originate a separate subsidized loan.

For a dependent student, the University may originate a Parent PLUS and disburse Parent PLUS funds without determining the Pell Grant and subsidized Direct Loan eligibility for a student. Determining Pell eligibility is not relevant for Grad PLUS, but (unlike Parent PLUS) the University must determine a graduate/professional maximum subsidized/unsubsidized Direct loan eligibility before the student applies for PLUS.

Schedule Requirements
An academic year is defined as a minimum of 24 credits and 30 weeks of instructional time. The academic year begins with the first eligible course of a degree program and ends when a student successfully completes the credits and weeks time requirement. An academic year has no calendar time constraints and continues through periods of non-attendance that are less than 180 days until both credit and weeks requirement are met. A week of instructional time includes at least one academic related activity for federal financial aid.

Overlapping Courses
Students who overlap courses more than twice within an academic year, or associate degree students who take more than two courses concurrently, may need to complete more than 24 credits to complete 30 weeks of instructional time. In addition, the academic policy of the University prohibits a student from taking more than two courses concurrently without written approval from the campus Director of Academic Affairs. Due to overlapping courses there will be more credit hours included in the academic year, federal financial aid may not completely cover the cost of attendance and related charges.
Audits, Withdrawals, Non-Required Courses and Repeats
The law prohibits payment for auditing a course or payment for any course for which an assigned grade is not used in computing requirements for graduation. This includes repeats of grades D or better, unless a higher grade is required, withdrawals, and courses that are not applicable to the declared degree objective. This does not apply to repeats of required courses that a student has failed.

Financial Aid Disbursements

Federal
A student can receive the first disbursement of federal financial aid funds at the start of program or academic year. The student becomes eligible to receive a disbursement of federal financial aid funds for the second payment period when they successfully complete one-half the weeks of instructional time and one-half the credit hours in the academic year, program or the remaining portion of a program more than one-half of an academic year but less than a full academic year.

First-time, first-year undergraduate borrowers will not have the first installment disbursed until 30 calendar days after the program of study academic year begins.

Disbursement for Books and Supplies
Pell eligible students who have completed all student eligibility requirements 10 days prior to the start of the academic year/payment period and will have a federal financial aid credit balance may request to use Pell funds to purchase books and supplies. The student will be provided with the lesser of the credit balance or amount needed for the books and supplies as determined by the University by the 7th day of the payment period.

The credit balance will be provided as a book voucher. Students receiving funds through this method do not need to provide written authorization and may opt out of receiving a book voucher. If a student opts out of receiving the voucher, the credit balance will be sent to them approximately two weeks after all federal financial aid funds have been disbursed.

State
Term based or payment period disbursements are determined by each state. Payment periods are paid in installments during the course of a program of study to help meet the cost in each payment period. The payment period determines when funds are disbursed and the exact amount to be disbursed. The regulations provide a separate payment period definition for each type of academic programs. Programs that measure progress in credit hours and have academic terms, for credit-hour term programs, the payment period is the term.

In the case of programs that measure progress in credits without academic terms, the school is required to either divide the program's academic year, program or portion of a program into payment periods.

Attendance
Students must be considered enrolled and attending the University to maintain federal financial aid eligibility.

Class Attendance
Attendance at class meetings is required. Students are responsible for scheduling and planning ahead for any absences that may occur during a course to the extent possible.

Online
In order to be in attendance during a week, a student must post at least one message to any of the course forums on two separate days during the online week. Deadlines for attendance are based on Mountain Standard Time (MST). Attendance is tracked automatically in all Online courses.

In classes at the Online campus, a class "session" is defined as 12:00 a.m. (MST) Tuesday to 11:59 p.m. (MST) the following Monday. If a student posts a message to a class newsgroup on any two days during that week, the student is in attendance for that class session.

In associate degree courses at the Online Campus, a class "session" is defined as 12 am (MST) Monday to 11:59 pm (MST) the following Sunday. If a student posts a message to a class newsgroup on any two days during that week, the student is in attendance for that class session.

Local Campus: Most local campus classes meet four (4) hours per week. Student/learners are in attendance at the local campus workshops if they physically attend the local campus workshop meeting at any time during the scheduled class and sign the attendance roster. Attendance at the scheduled campus class meetings is mandatory.

Directed Study: Attendance in Directed Study courses is tracked in the same manner for both the local campus and online modalities. A Directed Study student/learner receives automatic attendance for a class week if she or he posts one (1) message to any of the course forums during the scheduled class week. Deadlines for attendance are based on Mountain Standard Time.

FlexNet® student/learners are in attendance at the local campus workshops if they physically attend the local campus workshop meeting during the scheduled class hours and sign the attendance roster. They are in attendance during online class weeks if they post to any of the class forums on two separate days based on Mountain Standard Time within the online class week. Attendance for the online weeks of a FlexNet® course is tracked automatically.

School of Advanced Studies: In order to be in attendance during a week, a student/learner must post at least one (1) message to any of the course forums on two separate days during the online week. Deadlines for attendance are based on Mountain Standard Time. Dissertation courses (i.e. DOC 722, DOC 733, etc) only require one post per week in any of the course forums to remain in attendance. Messages posted in all class forums should contribute to a student's academic experience and count as Academically Related Activity. Residency courses require daily sign-in to confirm attendance. Posting to the residency forum is not required for attendance. During residency courses, physical attendance, submitting assignments via the Assignments link, and acknowledging participation in the completion of the learning team deliverable all count as Academically Related Activities.
Attendance is mandatory in all University courses; however, circumstances do occasionally arise which prevent a student from attending class. The University’s unexcused absence policy allows unexcused absence(s) to be granted based on the number of workshops within a course (refer to the chart below). An unexcused absence may affect the final course grade due to the missed opportunity to earn participation points. Unexcused absences will result in an automatic withdrawal (W) grade if students miss more than the maximum allowed absences. Refer to the chart below:

<table>
<thead>
<tr>
<th># of workshops</th>
<th>Allowed Absences</th>
<th>Absences resulting in withdrawal (W) grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-4</td>
<td>0</td>
<td>1</td>
</tr>
<tr>
<td>5-9</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>9 (Associates)</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>10-50+</td>
<td>2</td>
<td>3</td>
</tr>
</tbody>
</table>

Faculty requests for a withdrawal/failing (WF) grade will be approved for extenuating circumstances only and will be administered by the Registrar’s Office. Requests should be submitted to the Registrar’s Office by sending the approved Official Grade/Attendance Change Form.

**Academically Related Activities (ARA)**

To maintain continuous attendance and financial aid eligibility, the following activities that occur on or after the course start date and on or before the course end date will be considered academically related activities. Academically Related Activities (ARAs) determine a student’s enrollment status with the University. Students can maintain continuous enrollment by ensuring no more than 14 days elapse between posting attendance at an academically related activity.

**For Online/Directed Study Students:**
- All OLS Postings in a course (includes discussions, assignments, and quizzes, learning team activities)

**For Local Campus Students:**
- Physical Attendance; verified by a signed attendance roster
- Assignments posted via the assignment link
- Learning Team Acknowledgements via assignment link

**For Local Campus Students:**
- Physical Attendance: verified by a signed attendance roster
- Assignments posted via the assignment link
- Learning Team Acknowledgements via assignment link

**FlexNet® Courses:**
- Online Learning System (OLS) posts occurring during Online workshop week will be counted as an academic related activity

**School of Advanced Study Students:**
- Messages posted in all class forums, physical attendance, submitting assignments via the Assignments link, and acknowledgment participation in the completion of the learning team deliverable all count as Academic Related Activities.

---

**Financial Policies and Procedures**

**Finance Plans**

**Cash Plan**
The Cash Plan requires all tuition and electronic course materials fees to be paid in full prior to the start of each course.

**Federal Financial Aid Plan**
The Federal Financial Aid Plan is available to students receiving federal grants, federal loans or both to pay for tuition in an eligible degree or a certificate program.

**Military or Government Billing Plan**
Under the Military or Government Billing Plan, University of Phoenix directly bills the military or other government agency for a student’s tuition.

**Third-Party Billing Plan**
Under the Third-Party Billing Plan, University of Phoenix directly bills an approved employer for a student’s tuition.

**Tuition Deferral Plan**
The Tuition Deferral Plan is available for students whose employers offer to repay some or all of their employees’ tuition. The plan is also available to students receiving benefits from the U.S. Department of Veterans Affairs.

**Supplemental Funding**

**Private Student Loans**
Private student loans are credit-based funding source provided by outside, non-federal lenders to pay for the cost of attendance not covered by any other financial aid. Private student loans are credit-based funding source provided by outside, non-federal lenders.

Eligibility and terms and conditions are determined by the lender.

**Tribal Funding**
Several American Indian tribal nations provide funding for the tuition of a student who is a recognized member.

Learn more about ways students help finance their education online at [www.phoenix.edu/content/altcloud/en/tuition_and_financial_options/tuition_and_fees.html](http://www.phoenix.edu/content/altcloud/en/tuition_and_financial_options/tuition_and_fees.html).

**Payment Policies**
Tuition for each course must be paid according to the terms and conditions outlined in the primary financial option selected on the Student Financial Agreement form. Students who do not comply with the primary financial option term will not be allowed to attend classes.

A student may be administratively withdrawn for failure to make payment in a timely manner, preventing the student from attending future class sessions, until the amount owed is paid in full or satisfactory payment arrangements are made.

All applicable fees are due and payable as incurred. Electronic course material and books for each course must be paid at the time they are ordered or in accordance with a student’s stated payment option. Students are required to clear any indebtedness to the University before grades and transcripts will be issued or the degree awarded.

All costs of collection, court costs and reasonable attorneys’ fees will be added to delinquent accounts collected through third parties. University of Phoenix may obtain a current credit report as needed to support decision to defer tuition payment or to assist in collection of amounts owed.

All tuition, fees and payment policies are subject to change.
Students who primarily attend a University of Phoenix campus other than University of Phoenix Online are subject to financial approval by their primary campus prior to enrolling in a course.

**Processing and Late Fees**
A late fee is assessed for every course for which the student's tuition payment has not been received according to the terms of the primary financial option selected. A processing fee is charged for checks returned for any reason.

**Tuition Deferment Options**
Tuition and fees can be deferred up to 60 days from the start of a course if the following information is provided prior to a student's course start date:
- A signed Tuition Reimbursement Certification and Authorization Form along with a valid credit card or debit card
- A completed Student Authorization Form
Both of these forms can be found in the Student Authorization and Agreement section of the Financial Options Guide.

**Financial Options Guide**
The Financial Options Guide has been updated and can be reviewed at [http://cdn-static.phoenix.edu/content/dam/alt-cloud/tuition/financial-options-guide.pdf](http://cdn-static.phoenix.edu/content/dam/alt-cloud/tuition/financial-options-guide.pdf)

**Financial Obligation**
The University does not impose penalties on students who are unable to meet financial obligations due to delays caused by the University.

**Drop Credit Policy**
The student may request a tuition credit from University of Phoenix when he or she drops a course due to extenuating circumstances.

**Eligibility Requirements**
If the student drops from a course and earns a W grade, the student may be eligible for a tuition credit. In a 12-month period, credit for no more than two single courses for a bachelor or higher degree, or credit for no more than two blocks in an associate degree program may be applied.
The 12-month period begins on the end date of the first dropped course for which the student receives a tuition credit. If the student receives a tuition credit, the student must complete at least one course with a grade other than W or WF prior to qualifying for a second tuition credit.

*Apollo Group, Inc., employees, spouses, dependents and faculty members are not eligible for the tuition credit.*

**Deadlines**
The student must submit the request within 59 days from the end date of the dropped course. The W grade does not have to post prior to submission. The tuition credit is valid for up to 60 days from the end date of the dropped course.

**Credit Amount**
The tuition credit applies to the course taken immediately following the dropped course. If the amount of the credit is greater than the tuition rate of the course subsequently taken, the University will apply the remaining credit to another course. Both courses must start within 60 days from the end date of the dropped course. The student may use the credit at any University of Phoenix campus. The credit cannot be transferred to another student. No cash refunds will be given.

---

**Veterans Educational Benefits**
Students who are entitled to U.S. Department of Veterans Affairs (DVA) education benefits must make initial contact with a campus veteran affairs certifying official. A formal application for admission to the University should be completed before applying for DVA education benefits. Application for veteran education benefits should be sent to a local campus-certifying official for submission to the DVA.

Each University of Phoenix program segregated by instructional modality (classroom based or distance education), requires separate State Approving Agency (SAA) approval for the training of veterans or eligible persons. A student should contact a local campus for information on current approvals.

DVA education benefit eligibility and payment rates vary depending on each individual's military history and educational program being pursued. Only the DVA can determine DVA education applications eligibility. For information, a student should contact a DVA representative, toll free at (888)-GI-BILL-1 (888-442-4551) or review [http://www.gibill.va.gov](http://www.gibill.va.gov).

Directed study courses have Defense Activity for Non-Traditional Education Support (DSST-DANTES) approval for tuition reimbursement. For more information on this program, a student should contact the Educational Service Officer on the military base. University of Phoenix does not participate in the DVA education advanced payment program.

More information about veterans' benefits can be reviewed at [http://www.phoenix.edu/colleges_divisions/military.html](http://www.phoenix.edu/colleges_divisions/military.html). Visit the Department of Veterans Affairs website, [www.gibill.va.gov](http://www.gibill.va.gov), for additional information on educational entitlements.

**Credit for Prior Education and Training**
Credit for prior education or training must be evaluated and reported to the U.S. Department of Veterans Affairs (DVA) prior to the start of week 25 of enrollment. The DVA may not always pay DVA education benefits after week 24 if the DVA records indicate the student has a large amount of transfer credits.

Please ensure all prior education transcripts, DD-295, DD-214, Army/American Council on Education Registry Transcript System (AARTS), Coast Guard institute transcripts, and Sailor/ Marine/ American Council on Education Registry transcripts are submitted for evaluation in a timely manner. The student is responsible to ensure all transcripts are submitted to the University. Academic credit earned for courses appearing on an official transcript from a regionally accredited or candidate for accreditation college or university will be evaluated according to University policies and accepted subject to the approval of the University Office of Admissions and Evaluation.

Transfer credits based on a different unit of credit than the one prescribed by University of Phoenix are subject to conversion before being transferred. Only the official transcript and course evaluations performed by the University Office of Admissions and Evaluation or Prior Learning Assessment Center are final. Any preliminary reviews by campus personnel are unofficial, not binding and subject to change.
DVA Standard of Academic Progress Requirements

To receive DVA education benefits, a student must maintain satisfactory academic progress (SAP) and conduct. Accordingly, benefits will be terminated for individuals who are disqualified, suspended, or expelled from the University.

Academic Probation

Academic probation shall occur when a grade point average (GPA) falls below acceptable levels. Undergraduate degree- and certificate-seeking students must maintain a program GPA of 2.0. Graduate and doctoral students must maintain a program GPA of 3.0. Probation lasts for a period of four consecutive courses. Any coursework taken concurrently will be applied to the three consecutive course period. Veteran students will continue to receive DVA education benefits during the probation period. The veteran will be informed of the probation, and a notation to the student DVA file will record when the probationary period commenced.

Academic Disqualification

Academic disqualification (AD) will result if a student fails to clear an academic probation status within four courses from the onset of probation. Veteran students will not be eligible for DVA educational benefits after disqualification. The DVA and student will be notified of the disqualification. To reapply, a formal application for administrative course period. Veteran students will continue to receive DVA education benefits during the probation period. The veteran will be informed of the probation, and a notation to the student DVA file will record when the probationary period commenced.

Military Tuition Assistance

To obtain federal military tuition assistance, visit the education office to receive college counseling and develop an education plan. To obtain federal military tuition assistance, visit the education office to receive college counseling and develop an education plan. From that point, a student can submit a military Tuition Assistance request, http://www.phoenix.edu/colleges_divisions/military/military-financial-options/tuition-assistance.html. A student can currently receive 100 percent federal tuition assistance from military service, with a $250 cap per semester hour and a $4,500 annual limit.

If a student wants to apply the military tuition assistance, a student will need to submit a completed authorization form to a Military University Representative at least two weeks before a course start date.

DVA Tuition Assistance Top-Up Benefit

Active duty students requesting to use the Tuition Assistance Top-Up (TATU) benefit program should direct all questions or concerns to the DVA at 1-888-GI-BILL-1 (1-888-442-4551) or online at www.gibill.va.gov/. University of Phoenix VA certifying official is not involved in the processing of any TATU request. For more information about VA Tuition Assistance and financial options, go to www.phoenix.edu/colleges_divisions/military/military-financial-options/tuition-assistance.html.

Readmission of Servicemembers

Any student whose absence from the University is necessitated by reason of service in the uniformed services is entitled to readmission if the following criteria are met:

• The student (or an appropriate officer of the Armed Forces or official of the Department of Defense) gives verbal or written notice to the University’s Military Division verifying that the student’s absence from the University was necessitated by service in the uniformed services.
• The cumulative length of the absence and of all previous absences from the University by reason of service in the uniformed services does not exceed five years.

Note: A student who submits an application for readmission to the University must provide documentation to establish that the student has not exceeded the specified service limitations and that the student’s eligibility for readmission has not been terminated. Examples of documentation to verify that the student is still within the acceptable service limitations include the student’s deployment paperwork or a letter from the commanding officer that includes the student’s dates of service.

Exception: The University may not delay or attempt to avoid readmission of a student under this section by demanding documentation that does not exist, or is not readily available, at the time of readmission.

• The student submits verbal or written notification of intent to reenroll.

Note: If the student’s last date of attendance with the University is more than 365 days in the past, the student must complete an updated admissions application and Enrollment Agreement in accordance with the University’s reentry policy. The Military Division should then submit these completed documents along with the Servicemembers Readmission Form to 10.XP. The student may remain in original program/section without appeal provided the cumulative length of absence does not exceed five years and that the program has not been expired.

A student’s eligibility for readmission under this section by reason of such student’s service in the uniformed services terminates upon the occurrence of any of the following events:

• A separation of such person from the Armed Forces (including the National Guard and Reserves) with a dishonorable or bad conduct discharge, OR
• A dismissal of such person permitted under section 1161(a) of Title 10, USC, OR
• A dropping of such person from the roles pursuant to section 1161(b) of Title 10, USC, http://uscode.house.gov/download/title_10.shtml.

Note: If the student does not submit a notification of intent to reenroll within the time limits, the student is subject to the University established leave of absence policy and general practices.
GENERAL INFORMATION

Accreditation, Licensures, Reviews, and Approvals

University of Phoenix is accredited, reviewed and/or approved by federal, state and international agencies, as well as private accreditation bodies.

Federal
U.S. Department of Education, Certificate of Eligibility

State and International Licensures
University of Phoenix is approved to operate in most U.S. states, territories and possessions, either through licensure, registration, general or specific approvals or annual extension of exemption.
• Alabama Commission on Higher Education
• Alaska Commission on Postsecondary Education

Academic Programs
University of Phoenix offers undergraduate and graduate programs in business and management, information systems and technology, criminal justice and security, human services, nursing and health care, social and behavioral sciences, natural sciences, the humanities, and education. Detailed information regarding academic programs offered at specific instructional facilities is located at http://www.phoenix.edu/programs/degree-programs.html.

Academic Program Improvement
University of Phoenix pursues a strategy of continuous quality improvement in relation to its academic programs. This strategy is implemented through assessment programs designed to measure student learning at various levels within the University. Multiple types of assessment are utilized to create as comprehensive a picture as possible of the strengths and potential challenges to student learning. Resulting data can be used to improve academic programs and enhance the overall academic experience.

During each fiscal year from September 1 to August 31, the colleges and schools within the University follow pre-established plans to conduct programmatic assessment. Plan progress is monitored quarterly through the fiscal year. The process for assessment of academic programs uses the following four phases:
1. Assessment Planning
2. Collecting Evidence and Analyzing Data
3. Implementing Improvement
4. Monitoring Effectiveness of Improvements

By utilizing this assessment process, the colleges and schools are able to evaluate academic programs, identify areas for potential change, modify assessment plans as needed, communicate changes in academic programs to faculty and students, and pursue continuous quality improvement.

Students or potential students may obtain a copy of the improvement plan for a specific program by contacting

University of Phoenix Office of Academic Administration
4615 E. Elwood St.
Mail Stop: AA-S402
Phoenix, AZ 85040

Disability Services
University of Phoenix recognizes and accepts its obligations under the Rehabilitation Act of 1973, Americans with Disabilities Act (ADA) of 1990, and the ADA Amendments Act of 2008, prohibiting discrimination on the basis of a disability and requiring the University to provide reasonable accommodations and academic adjustments to qualified disabled students in all University programs and activities. The University of Phoenix Disability Services Office provides services to students with temporary health issues or a permanent disability.

Students have the responsibility to both self-disclose and request accommodation through the campus disability services advisor. Communication with faculty or other staff members does not constitute fulfilling the University ADA accommodation requirements. Confirmation through documentation from a health care provider is required prior to accommodations or adjustments being determined and fulfilled.

Additional Information
A student can view additional information at www.phoenix.edu/about_us/accreditation.html.
To obtain a copy of University accreditation and license documents, or information on how to contact any of the agencies that regulate the University, contact the Apollo Legal Department at 602.557.8119.

Academic Program and Instructional Facilities Information and General Contact Information
Academic program offerings and instructional facilities vary according to geographic area and delivery mode at the local campus or Online Campus. Not all programs are available at all locations.
Obtain Information
The campus disability services advisor is responsible for managing the ADA process, including negotiations, and finalizing appropriate student accommodations. Additional information and a list of campus disability services advisors are located at http://www.phoenix.edu/students/disability-services.html

General Contact Information
Direct all questions regarding admissions, academics, financial options, facilities or general institutional issues to the following offices:

Central Administration
1625 West Fountainhead Pkwy
Tempe, AZ 85282-2371

Personnel

Faculty
University faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, human services professionals and leaders in other professional areas who also possess advanced degrees. A listing of faculty may be obtained at each local campus. To find a local campus, go to www.phoenix.edu/campus_locations/campus_locations.aspx. Faculty profiles can be found at www.phoenix.edu/faculty/our_faculty.html.

Credit Transfer
Information regarding criteria used to evaluate the transfer of credit earned at another institution is located at www.phoenix.edu/admissions/transfer_information/previous_college_education.html

Articulation Agreements
A list of institutions University of Phoenix has established articulation agreements can be viewed at www.phoenix.edu/admissions/transfer_information/articulation.html

Reverse Transfer Agreements
University of Phoenix has established reverse transfer agreements with partnering institutions. With a Reverse Transfer Agreement in place, University of Phoenix will notify the partner transfer institution and provide directory information for students meeting certain credit requirements that indicate the student may be eligible to earn an associate's degree from the transfer institution. The transfer institution may pursue communication with the student to discuss requirements and may award the associate's degree to the student per their discretion.

Graduation Rates
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding graduation rates as defined by the National Center for Education Statistics (NCES). This graduation measure includes only undergraduate degree- and/or certificate-seeking students who have never attended another institution of higher learning, and graduate within 150 percent of the normal time to completion. Data are collected on the number of students entering the institution as first-time, full-time (FTFT) degree- and/or certificate-seeking undergraduate students in a particular cohort year. Graduation rates are disaggregated by race and ethnicity, gender and federal financial aid grant or loan funds. For the graduation rates, please go to http://www.phoenix.edu/about_us/regulatory/consumer-information/graduation-rates.html.

Retention Rates
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding retention rates of degree- and/or certificate-seeking first-time, full-time (FTFT) undergraduate students entering the institution. Retention rate is a measure of the rate at which students persist in their educational program at an institution, expressed as a percentage. For the retention rates, please go to http://www.phoenix.edu/about_us/regulatory/consumer-information/retention-rates.html.

Student Diversity
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding student diversity as defined by the IPEDS. Data reported are for enrolled full-time students. For further details please go to http://www.phoenix.edu/about_us/regulatory/consumer-information/student-diversity.html.

Types of Education Graduates Enroll
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding the types of graduate and professional education in which graduates of the institution four-year degree programs enrolled.
Approximately 18% of students who completed a bachelor's degree from the University of Phoenix between July 1, 2009-June 30, 2010 went on to enroll in a graduate or professional program at the University of Phoenix. The majority of these students enrolled in the following programs:

- Master of Business Administration
- Master of Science in Psychology
- Master of Science in Accountancy
- Master of Management
- Master of Information Systems
The data is derived from the IPEDS completion survey (July 1, 2009-June 30, 2010 data) and the IPEDS Fall Enrollment survey (fall 2009 data).

**Alumni Attending Graduate School**
Forty-three percent of University of Phoenix alumni indicated they are attending, or plan to attend, graduate school. Of this 43%, 71% are currently pursuing a graduate degree at the University of Phoenix. Of this 43%, 20% plan to pursue a graduate degree at the University of Phoenix.

**Working Alumni**

Survey completed in 2011 between January 17 and February 11; a total of 27,416 alumni respondents.
Withdrawing From the University

Circumstances may necessitate withdrawal from the University. A student who received, or is eligible to receive federal financial aid funds provided certain criteria are met, and subsequently officially or unofficially withdraws is subject to a Return of Title IV (R2T4) Calculation as required by federal regulations.

Official Withdrawal

Withdrawal Date
Students who provide official notification of their intent to withdraw must complete the Official Withdrawal Rescission form via the University e-Campus website, https://ecampus.phoenix.edu/portal//portal/public/login.aspx, or notify the designated campus offices of Enrollment Services, Academic Services, and Financial Services to be considered official withdrawals. The withdrawal date for official withdrawals is the last date of academic attendance or attendance at an academically related activity determined from University attendance records.

Date of Determination
The date of determination for students who officially withdraw from the University is the latter of the student’s withdrawal date or the date of notification. The University will return federal financial aid for which it is responsible no later than 45 days after the date the University determines the student has withdrawn.

Recission of Official Notification
Students who rescind their intent to withdraw must provide an electronic or written statement to the University stating their intent is to complete the payment period. If the student subsequently withdraws after rescinding intent to withdraw, the withdrawal date is the latter of the date the student first provided notification to the University or the last date of academic attendance or academically related activity determined from the University’s attendance records. The date of determination for students who rescind their intent to withdraw and subsequently withdraw from the University is the latter of the student’s withdrawal date or the date the University determines the student has withdrawn.

Administrative Withdrawal

Withdrawal Date
Students who are withdrawn from the University due to failure to meet admission, academic, candidacy, financial or code of conduct policies are considered administrative withdrawals. The withdrawal date for students who are administratively withdrawn is the last date of academic attendance or attendance at an academically related activity.

Date of Determination
The date of determination for students who are administratively withdrawn from the University is the date the University determines the withdrawal. The University will return federal financial aid funds for which it is responsible no later than 45 days after the date the University determines the student has withdrawn.

Return of Federal Financial Aid

The requirements for federal financial aid when a student withdraws are separate from the Institutional Refund Policy and State Refund Policy. Therefore, a student may still owe funds to the University for unpaid institutional charges. Federal regulations specify how the University must determine the amount of federal financial aid earned when a student withdraws from the University.

The percentage amount of federal financial aid a student earned in a payment period is calculated as follows:

\[
\text{Percentage Earned} = \frac{\text{Total Number of Calendar Days Completed in Payment Period}}{\text{Total Number of Calendar Days in Payment Period}} \times 100
\]

The withdrawal date for a student who ceases attendance at the University, including a student who does not return from an approved leave of absence, is the last date of academic attendance or attendance at an academically related activity determined from the University’s attendance records. In the case of a student who has received an approved leave of absence, the University will review the student record on or after their originally approved return date. The review determines if the student reentered as scheduled, or did not reenter as scheduled and must be withdrawn for the purposes of the Return of Title IV (R2T4) calculation and deferment processing.

Date of Determination
The date of determination for students who unofficially withdraw from the University is no greater than 1) 15 days after the official last date of attendance; or 2) when a student fails to return from an approved leave of absence. The University will return the amount of federal financial aid funds for which it is responsible no later than 45 days after the date the University determines the student has withdrawn.
A federal financial aid credit balance created during the payment period will not be released to the student nor returned to a federal financial aid program prior to performing the R2T4 Calculation. The University retains these funds even if, under the 14-day credit balance payment requirements, funds are otherwise required to be released. The University will perform the R2T4 Calculation, including any existing federal financial aid credit balance for the period in the calculation as disbursed aid. The University will include any federal financial aid credit balance as disbursed aid. Although not included in the R2T4 Calculation, any federal financial aid credit balance from a prior period that remains on a student account when a student withdraws will be included as federal financial aid for purposes of determining the amount of any final federal financial aid credit balance when a student withdraws.

Upon completion of any applicable refund policies, any federal financial aid credit balance will be allocated first to repay any grant overpayment owed by a student as result of the current withdrawal. Within 14 days of the date that the University performs the R2T4 Calculation, the University will pay any remaining federal financial aid credit balance in one or more of the following ways:

- Pay authorized charges at the University
- Reduce federal financial aid loan debt to the student or parent for a PLUS loan with student/parent authorization
- University scholarships
- Tuition waivers
- State scholarships and grants
- Funds from foundations or other charitable organizations
- Funds from other federal programs

The University will determine the results of the application of its refund policy before allocating a federal financial aid credit balance. However, the University is not required to complete its refund process, for example making a refund to a student, before completing the steps for allocating the federal financial aid credit balance.

If the University is unable to locate the student or parent when attempting to pay a credit balance, it will return the funds to the federal financial aid programs. The U.S. Department of Education does not specify the order of return to the federal financial aid programs for a credit balance; the University will return funds to federal financial aid programs in the appropriate order as described in procedure and in the best interest of the student.

The calculation for unearned federal financial aid is as follows:

- Total amount disbursed + amount that could have been disbursed - amount of federal financial aid earned = amount of unearned federal financial aid that must be returned

The calculation of earned federal financial aid includes all student financial aid grants and loan funds that were disbursed or that could have been disbursed to a student.

In addition, Federal Supplemental Educational Opportunity Grant (FSEOG) program funds are excluded if the following resources are used as a matching source:

- University scholarships
- Tuition waivers
- State scholarships and grants
- Funds from foundations or other charitable organizations

Non-federal share of FSEOG program funds will be included if the University meets its matching share requirement with institutional funds.

**Return of Unearned Federal Financial Aid**

When a return of federal financial aid is due, the University and the student may both have a responsibility for returning funds. The University will return the lesser of the following amount to the appropriate federal financial aid programs:

- The total amount of unearned aid; or
- The amount equal to the total University charges incurred by the student for the payment period multiplied by the percentage of unearned aid

University charges incurred by the student will include tuition, fees, books and directed study including state sales tax initially assessed the student for the entire payment period. Initial charges will only be adjusted by those changes the University makes prior to the student withdrawal.

If after the student withdraws, the University changes the amount of University charges it assessed a student, or decides to eliminate all institutional charges, those changes affect neither the charges nor aid earned in the calculation. Although University charges may not have actually charged due to the student’s withdrawal in the payment period, the University will use the actual charges to date, to include full tuition, fees, books and directed study (including sales tax) for each course for the payment period, and estimate remaining charges based on the students’ primary campus.

Charges should not reflect Withdrawn (W) grade adjustments.

After the University has allocated its portion of unearned funds, the student must return assistance owed in the same order specified above for the University. The amount of assistance that the student is responsible for returning is calculated by subtracting the amount returned by the University from the total amount of unearned federal financial aid to be returned. The student, or parent in the case of funds due to a parent PLUS Loan, must return or repay, as appropriate, the amount determined to any federal financial aid program in accordance with the terms of the loan; and any federal grant program as an overpayment of the grant. The amount of a grant overpayment due from a student is limited to the amount by which the original grant overpayment amount exceeds one-half of the total federal grant funds received by the student.

**Timelines for Return of Federal Financial Aid**

The University will return the amount of federal financial aid for which it is responsible no later than 45 days after the date the University determines the student has withdrawn.

**Timeframe for Returning Unclaimed Credit Balance**

If the University attempts to disburse a credit balance by check and the check is not cashed, the University must return the funds no later than 240 days after the date the University issued the check. If a check is returned to the University, or an electronic funds transfer (EFT) is rejected, the University may make additional attempts to disburse the funds, provided those attempts are made no later than 45 days after the funds were returned or rejected. When a check is returned or an EFT is rejected and the University does not make another attempt to disburse the funds, the funds must be returned before the end of the initial 45-day period.
Program and/or Version Changes
Program and/or version changes that result in one or more courses that are not accepted towards the new program or version may result in a recalculation of the academic year. As a result of that recalculation, there may not be enough federal financial aid funds to cover tuition costs for the newly defined academic year. This situation may increase the shortfall or personal contribution needed to cover cost of attendance and related charges.

Institutional Refund Policy

The following provisions pertain to all refund policies applied by the University unless specifically stated otherwise.

Students, who begin a program under Registered (R) status, pending the completion of admission file and are subsequently denied admission, are eligible for a refund of the full tuition amount of the course in which they are currently enrolled. Tuition is not refunded for any completed course. A tuition refund can be requested in writing from a local campus.

Students who withdraw from a course prior to the start date will receive a 100 percent refund for that course. Students who have completed 60 percent or less of the course are eligible for a pro rata refund.

Example of a refund on attendance for a 5-week course:
- Attend 1 week 80% refund due
- Attend 2 week 60% refund due
- Attend 3 week 40% refund due
- Attend 4 week no refund due

Example of a refund on attendance for a 6-week course:
- Attend 1 week 83% refund due
- Attend 2 week 67% refund due
- Attend 3 week 50% refund due
- Attend 4 week no refund due

Example of a refund on attendance for a 9-week course:
- Attend 1 week 89% refund due
- Attend 2 week 78% refund due
- Attend 3 week 67% refund due
- Attend 4 week 56% refund due
- Attend 5 week 44% refund due
- Attend 6 week no refund due

State Refund Policies

If a student attends a class in one of these states, the specific state refund policy will be applied in addition to the University Institutional Refund Policy. These policies are outlined below.

Arizona
Students in the state of Arizona have tuition refunded using the University Institutional Refund Policy except students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.

California
If University of Phoenix no longer offers educational services for students in the state of California, prior to a student completing a course of instruction, a partial refund may be available. The student should contact:

Department of Consumer Affairs
1625 North Market Boulevard
Sacramento, CA 95834
(800) 952-5210

Florida
Students in the state of Florida will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.
- The University will retain $45 of the application fee for students who withdraw from the University prior to the start of their program and after the three-day cancellation period.
- Refunds will be paid within 30 days of a student's official withdrawal.

Georgia
Students in the state of Georgia will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement.
- Students providing written notification of withdrawal prior to the first class session or have been out-of-attendance for more than 14 days will receive a full refund of tuition paid for the unattended course.
- Refunds are paid within 30 days of a student's official withdrawal.
- A student who is out-of-attendance for more than 14 days is considered withdrawn.

Indiana
Indiana has established refund policies that differ from the University Institutional Refund Policy. If a student attends a class in Indiana, the Indiana state refund policy will be applied. The University must make the proper refund no later than 31 days of the request for cancellation or withdrawal.

A student is entitled to a full refund if one or more of the following criteria are met:
- The student cancels the Enrollment Agreement within six business days after signing.
- The student does not meet the University minimum admission requirements.
- The student's enrollment was procured as a result of a misrepresentation in the written materials utilized by the University.

If the student has not visited the University prior to enrollment and, upon touring the University or attending the regularly scheduled orientation or classes, the student withdrew from the program within three days. A student withdrawing from an instructional program after starting the instructional program at the University and attending one week or less, is entitled to a refund of 90 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.

A student withdrawing from an instructional program, after attending more than 25 percent but equal to or less than 50 percent of the duration of the instructional program, is entitled to a refund of 50 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.
A student withdrawing from an instructional program, after attending more than 50 percent but equal to or less than 60 percent of the duration of the instructional program, is entitled to a refund of 40 percent of the cost of the financial obligation, less an application or enrollment fee of 10 percent of the total tuition, not to exceed $100.

A student withdrawing from an instructional program, after attending more than 60 percent of the duration of the instructional program, is not entitled to a refund.

Example of a refund on attendance for a 5-week course:
- Attend 1 week 90% refund due
- Attend 2 weeks 50% refund due
- Attend 3 weeks 40% refund due
- Attend 4 weeks no refund due

Example of a refund on attendance for a 6-week course:
- Attend 1 week 90% refund due
- Attend 2 weeks 50% refund due
- Attend 3 weeks 50% refund due
- Attend 4 weeks no refund due

Example of a refund on attendance for a 9-week course:
- Attend 1 week 90% refund due
- Attend 2 weeks 75% refund due
- Attend 3 weeks 50% refund due
- Attend 4 weeks 50% refund due
- Attend 5 weeks 40% refund due
- Attend 6 weeks no refund due

**Kansas or Missouri**
Students in the states of Kansas or Missouri will have tuition refunded using the University Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid if they withdraw within three business days after signing the Enrollment Agreement.
- To cancel enrollment, a student must notify the local campus in writing on or before the three-day period. After the three-day period, all fees, including applications fees, assessment fees, and book fees, are non-refundable.
- A tuition refund must be requested in writing to the student's local campus.

**Kentucky**
Students in the state of Kentucky will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
- A student who cancels enrollment anytime before the start of the first class session will receive a full refund of all monies paid.
- The University may retain 10 percent of the tuition agreed upon in the Enrollment Agreement or $100, whichever is less, for students who fail to attend in the enrollment period for which advanced payment was made.
- Refunds will be paid within 30 days of a student’s official withdrawal.
- A student who is out-of-attendance for more than 14 days is considered withdrawn.

**Louisiana**
Students in the state of Louisiana will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
- Students who cancel enrollment anytime before the start of the first class session will receive a full refund of all monies paid, except the application fee, which is non-refundable.
- Refunds will be paid within 30 days of a student’s official withdrawal.
- The University may retain an administrative fee, not to exceed 15 percent of total tuition and fees paid.

**Minnesota**
Students in the state of Minnesota will have tuition refunded using the University Institutional Refund Policy with the following exception:
Refunds for state aid programs and non-state aid programs are calculated on a proportional basis using the state mandated or institutional refund policy. To calculate the minimum refund due to the State Grant Program, the SELF Loan Program, and other aid programs (with the exception of the state Work Study Program), the Higher Education Services Office Refund Calculation Worksheet of the Minnesota State Grant manual is used.

**Ohio**
Students in the state of Ohio will have tuition refunded using the University’s Institutional Refund Policy with the following exceptions:
- Students have the right to a full refund of all monies paid if they withdraw within five calendar days of signing the Enrollment Agreement.
- A student who withdraws before the first class and after the five-day cancellation period is obligated for the registration fee.
- To cancel enrollment, a student must notify the local campus in writing on or before the five-day cancellation period after signing the Enrollment Agreement.
- Refunds will be paid no later than 30 days after cancellation.

**Oregon**
Students in the state of Oregon will have tuition refunded using the University Institutional Refund Policy except all fees, including application fees, assessment fees, student service fees, and book fees are non-refundable.

**South Carolina**
Students in the state of South Carolina will have tuition refunded using the University Institutional Refund Policy including the following exceptions:
- Students have a right to a full refund of all monies paid, including application and materials fees, if they withdraw within 72 hours excluding weekends and legal holidays after signing the Enrollment Agreement.
- A full refund of all monies will be made to any applicant not accepted by the University.
- After the 72-hour cancellation period, the University may retain up to a $100 if the student does not attend a course.
- The University may retain an administrative fee up to $100.
- Refunds will be paid within 40 days of a student’s official withdrawal.
Copyright Law
Copyright is a form of legal protection provided by U.S. law, Title 17 U.S.C. §512(c) (2), that protects an owner’s right to control the reproduction, distribution, performance, display and transmission of a copyrighted work. The public, in turn, is provided with specific rights for fair use of copyrighted works. Copyrighted works protect original works of authorship and include:
- Books, articles and other writings
- Songs and other musical works
- Movies and Television productions
- Pictures, graphics and drawings
- Computer software
- Pantomimes and choreographic works
- Sculptural and architectural works
Specific information on copyright law and fair use may be found at the following sites:
- The U.S. Copyright Office: http://www.copyright.gov
- The Electronic Frontier Foundation fair use frequently asked questions: http://eff.org/IP/eff_fair_use_faq.php.

Copyright Infringement
The copyright law provides the owner of copyright in a work the exclusive right to the following:
- Reproduce the work in copies
- Prepare derivative works based upon the work
- Distribute copies of the work to the public by sale or other transfer of ownership, or by rental, lease, or lending
- Perform the work publicly
- Display the copyrighted work publicly
- Perform the work publicly by means of a digital audio transmission in the case of sound recordings
The copyright law states, “anyone who violates any of the exclusive rights of the copyright owner is an infringer of the copyright or right of the author.” Generally, under the law, one who engages in any of these activities without obtaining the copyright owner’s permission may be liable for infringement.

Copyright Infringement and Peer-to-Peer File Sharing Policy

Violations and Penalties under Federal Law
In addition to University sanctions under its policies as more fully described below, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than $750 and not more than $30,000 per work infringed. For willful infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.

University Plans to Effectively Combat Unauthorized Distribution of Copyrighted Material; Student Sanctions
A student’s conduct in the University classrooms and websites is subject to and must fully conform to the University Student Code of Conduct policy, its Acceptable Use policy and any other applicable University policies.

The University may monitor traffic or bandwidth on the networks utilizing information technology programs designed to detect and identify indicators of illegal P2P file sharing activity. In addition to, or as an alternative, the University may employ other technical means to reduce or block illegal file sharing and other impermissible activities.

The University will also provide for vigorous enforcement and remediation activities for those students identified through the University Digital Millennium Copyright Act policy as potential violators or infringers of copyright.

Disciplinary sanctions will be based on the seriousness of the situation and may include remediation based on a comprehensive system of graduated responses designed to curb illegal file sharing and copyright offenses through limiting and denial of network access or other appropriate means. These sanctions may be in conjunction with additional sanctions through the University Student Code of Conduct, its Acceptable Use Policy and any other University policy applicable to the particular situation.

Students who are subject to professional codes of conduct that apply to their enrollment at the University shall be sanctioned according to the requirements of the respective code.
Education and Awareness

The University uses a variety of means to inform students and faculty about copyright laws and the response to copyright infringement claims by the University.

The University informs its campus community through the Consumer Information Guide and other periodic communications that unauthorized distribution of copyrighted material, including unauthorized P2P file sharing, may subject students and faculty to civil and criminal liabilities and the extent of the possible liabilities; The Consumer Information Guide is available on the University website, is provided to potential students and employees, and is sent by email on a yearly basis to current students, faculty and employees.

Legal Sources for Online Music and Videos

The following links are online sources that provide information on legal access to copyrighted music and videos:

- EDUCAUSE is an association of colleges and universities, which maintains a list of legal media sources: http://www.educause.edu/legalcontent
- Motion Picture Association of America (MPAA) provides a list of legal motion picture and video sources: http://www.mpaa.org/contentprotection/get-movies-tv-shows
- The Recording Industry Association of America (RIAA) provides a list of legal music sources: http://www.riaa.com/toolsforparents.php?content_selector=legal-music-services

The Legal Sources for online music and videos is reviewed annually by the Vice President of IT Security; the most recent review was completed in July 2011.

Digital Millennium Copyright Act (DMCA) Policy

The University of Phoenix respects the rights of the copyright owners and expects its faculty, staff, students, interns and any affiliates to comply with the U.S. copyright laws. Federal law prohibits the reproduction, distribution, public display or performance of copyrighted materials on the Internet without permission of the copyright owner, except in compliance with fair use or other copyright applicable statutory exceptions. For more information on copyright law, please refer to the University Copyright and Peer-to-Peer File Sharing Policy.

In addition to sanctions that may be applicable under the University Student Code of Conduct Policy, the Acceptable Use of Computing Resources Policy or other policies, University of Phoenix may terminate the network accounts or access to users who have repeatedly infringed on the copyrights of others. University of Phoenix, in compliance with the federal Digital Millennium Copyright Act (DMCA), has established a mandated process for receiving and tracking alleged incidents of copyright infringement. The University has designated an agent who will investigate notices of alleged copyright infringement and take appropriate actions. Such actions may include terminating repeat infringers accounts under the Digital Millennium Copyright Act (DMCA). The copyright infringement notices must be given in writing, preferably by email, or by U.S. mail to the agent listed below:

University of Phoenix, Inc.
Attn: Copyright Agent
Subject: Copyright Compliance
4025 S. Riverpoint Parkway, CF-K612
Phoenix, AZ 85040
Email: CopyrightAgent@apollogrp.edu

If a valid DMCA notification is received, the University will respond under this process by taking down the infringing content found on our networks. On taking down content under the DMCA, the University will take reasonable steps to contact the owner of the removed content so that a counter notification may be filed. Upon receiving a valid counter notification, the University will generally restore the content in question, unless the University receives notice from the notification provider that a legal action has been filed seeking a court order to restrain the alleged infringer from engaging in the infringing activity.

Please note that the DMCA provides that you may be liable for damages including costs and attorneys fees if you falsely claim that someone is infringing on your copyright. Alternatively, you can also be liable for damages including attorneys fees if you materially misrepresent that an activity is infringing on the copyright of another. Therefore, the University recommends contacting an attorney if you are unsure whether your work or the work of another is protected by copyright laws.

Filing Notice of Alleged Infringement

Following is the process for filing a notification under the DMCA. Notice must be given in writing to the designated agent as specified above and contain the following information:

- Identify in sufficient detail the copyrighted work that you believe has been infringed upon; for example, a student describes the work that you own.
- Identify the material that you claim is infringing on your copyright as set forth in number 1 and provide detailed information reasonably sufficient to locate the infringing item; for example, provide the link to the infringing information.
- Provide a reasonably-sufficient method of contacting you: phone number, address and email address.
- If possible, provide any information that you allow the University to notify the alleged infringing party of notice of the alleged infringement.
- The following statement must be included in your notice: “I have a good faith belief that the use of the copyrighted materials described above and contained on the service is not authorized by the copyright owner, its agent, or by protection of law.”
- The following statement must be included in your notice: “I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.”
- The notice must be signed.

Filing Counter Notification of Alleged Infringement

The person or provider of the alleged infringing material may present a counter notification pursuant to the DMCA. Upon proper counter notification, the University may reinstate the removed content. Notice must be given in writing to the designated copyright agent as specified above and contain the following information:

- Identify the material that has been removed. This may include providing the location or the URL when possible.
- Provide your name, address telephone number and email address if available.
• Provide a statement that you consent to the jurisdiction of Federal District Court for the judicial district in which you reside, or for any address outside the United States, for any judicial district, in which the service provider may be found and that you will accept service of process from the person who provided notification to the University of the alleged infringement or an agent of such person.
• Provide the following statement: “I swear, under penalty of perjury, that I have a good faith belief that the material identified above was removed or disabled as a result of a mistake or misidentification of the material to be removed or disabled.”
• The notice must be signed.
Upon receiving a valid counter notification, the University will provide the person who filed the original notification with a copy of the counter notice and inform them that the material will be reinstated or access to it restored between 10 and 14 business days following receipt of the counter notice, pursuant to the DMCA unless the University receives notification that legal action to seek a court order restraining the alleged infringer from further engaging in the infringing activity has been filed.

Vaccinations and Immunizations

Information regarding program admissions requirements, including immunization requirements for designated states is located at http://www.phoenix.edu/admissions/admission_requirements.html.

Campus Safety Policies

The University Campus Safety policies have been prepared to increase University of Phoenix community’s awareness of current programs that exist to protect its members’ safety and well-being and to satisfy the requirements of the Safe and Drug Free Schools and Communities Act and Clery Act. The information included relates to the following:
• Annual crime statistics
• Safety and awareness
• Crime prevention
• Drug and alcohol abuse
• Health risks
• Available counseling programs
• Prohibited use or distribution of drugs and alcohol
• Legal affects of drug and alcohol use
• Emergency Mass Notification
• Information related to campus safety

The information is intended to provide a general description of University of Phoenix campus safety policies; however, it is not intended to serve as a contractual agreement between the University and the recipient. Additionally, the University will disseminate and publicize, for each of its campus locations, crime statistics from the most recent calendar year and two preceding calendar years. Specific campus location statistics are available electronically at www.phoenix.edu/about_us/campus_safety.html or by requesting a printed copy from your local campus security authority.

Campus Crime Statistics

Crimes Reported for All Campuses

This report is compiled in conjunction with University of Phoenix Campus Safety Policies. The following statistics are in accordance with definitions used in the Uniform Crime Reporting System of the Department of Justice, FBI, as modified by the Hate Crime Statistics Act. The data includes all crimes reported to the University of Phoenix campus security authority. If a crime has occurred and has not been reported, it cannot be reflected in the following statistics. For this reason, University of Phoenix encourages everyone to report all crimes to their designated campus security authority and local law enforcement agency.

Specific campus location statistics are available electronically at http://www.universityofphoenix.com/about_us/campus_crime_statistics.aspx or by requesting a printed copy from your local campus security authority.

University of Phoenix expressly reserves the right to modify or to adopt additional campus polices and procedures relating to campus safety, at anytime without notice.

Statement of Policy On Sex Offender Registration

The Federal Campus Sex Crimes Prevention Act requires colleges and universities to issue a statement advising the campus community where state law enforcement agency information concerning registered sex offenders may be obtained. The Act also mandates that sex offenders who are already required to register in a state to provide notice of each institution of higher education in that state at which the offender is employed or is a student.

To learn the identity of registered sex offenders on or near a campus, or anywhere in the United States, visit the Sex Offender databases at http://www.sexoffender.com or http://nsopr.gov. You can search by city, county, or zip code. This information is collected by other agencies and this institution cannot guarantee this information is correct or complete. The information provided here is intended to be in compliance with the Campus Security Act and for campus safety purposes only. It should not be used to intimidate, threaten, or harass. Misuse of this information may result in prosecution.

Emergency Mass Notification Policy

Apollo Group, Inc., and University of Phoenix have established an emergency mass notification process that includes emergency escalation processes, mass notifications and supporting systems. These processes enable Apollo, and its subsidiary educational institutions to contact or send notices, alerts or warnings without delay to employees for Apollo, and University of Phoenix faculty, and students in an emergency, dangerous or otherwise high-risk situation at a University site.

Apollo and University of Phoenix maintain emergency management policies, procedures and systems to protect lives and property, and to continue necessary critical functions and essential services. An emergency is defined as a situation that poses an immediate threat to the health or safety of someone in the University community at a University site or that significantly disrupts Apollo programs and activities.

The Emergency Mass Notification policy applies to all officers and employees for Apollo, Apollo’s U.S. based subsidiaries, faculty, and students of University of Phoenix in an emergency, dangerous or otherwise high-risk situation at a University site.
Penalties for Drug Convictions:

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

Possession of Illegal Drugs:

• For a first offense, a student loses eligibility for federal financial aid for one year from the date of conviction.
• For a second offense, a student loses eligibility for federal financial aid for two years from the date of conviction.
• For a third offense and subsequent offenses, a student is indefinitely ineligible for federal financial aid from the date of conviction.

Sale of Illegal Drugs:

• For a first offense, a student loses eligibility for federal financial aid for two years from the date of conviction.
• For a second offense and subsequent offenses, a student is indefinitely ineligible for federal financial aid from the date of conviction.

How to Regain Eligibility

A student can regain eligibility for federal student aid funds the day after the period of ineligibility ends or upon successful completion of a qualified drug rehabilitation program or passes two unannounced drug tests given by such a program.

A student can regain eligibility for federal student aid funds the day after the period of ineligibility ends or upon successful completion of a qualified drug rehabilitation program that must

• Include at least two unannounced drug tests;
AND

• Have received or be qualified to receive funds directly or indirectly under a federal, state, or local government program.

Students denied eligibility for an indefinite period can regain it after successfully completing a rehabilitation program, passing two unannounced drug tests from such a program, or if a conviction is reversed, set aside or removed from the student's record so that fewer than two convictions for sale or three convictions for possession remain on the record.

In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. The student is responsible to certify that a rehabilitation program was successfully completed. As with the conviction question on the FAFSA, the University is not required to confirm the reported information unless conflicting information is determined.
Convictions During Enrollment
Federal regulations require enrolled students convicted of a drug offense after receiving federal financial aid to notify Apollo Financial Aid (AFA) immediately, become ineligible for further federal financial aid and repay federal financial aid received after the conviction.

Institutional Sanctions for Alcohol and Drug Violations
Any member of the University community found consuming or selling alcohol or drugs on University property shall be subject to discipline on a case-by-case basis.
- Discipline will be based on the seriousness of the situation.
- A case may result in dismissal from the University.
- In all cases, the University will abide by local, state and federal sanctions regarding unlawful possession of drugs and the consumption of alcohol.
- Additional state penalties and sanctions may also apply.
- The University has adopted a zero tolerance policy regarding underage drinking.

Title II of the Higher Education Act-Academic Year 2009-2010 Report
In compliance with Title II of the Higher Education Act (HEA), University of Phoenix has submitted institutional questionnaires that detail the University’s program offerings, student demographics and student performance in those states where the University has teacher education programs that have produced program completers also known as graduates. University of Phoenix provides professional preparation for teachers in multiple states. For an overview of the information contained in the Institutional Report for University of Phoenix, go to http://www.phoenix.edu/about_us/regulatory/consumer-information/title-ii-hea-pass-rate-information.html.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
Candidates in a College of Nursing program leading to certification or licensure in nursing and/or healthcare at University of Phoenix are subject to greater scrutiny because of their anticipated interactions with students, families, patients and clients in the community. These degree candidates participate in one or more clinical rotations, practicum, and/or preceptorships as part of their academic program. As prospective nurses, nurse practitioners and/or healthcare providers, College of Nursing candidates are expected to represent the University as professionals and adhere to the ethics and standards of their profession as well as the University’s Student Code of Conduct.

The following Supplemental Standards for Candidates in the College of Nursing Programs (“Supplemental Standards”) apply to these degree candidates before, during, and after clinical rotations, practicum, and/or preceptorships. The Supplemental Standards address a candidate’s affective attributes and disposition to be nurses, nurse practitioners and/or healthcare providers. A corresponding Professional Dispositions Rubric provides additional guidance.

A candidate’s ability to satisfactorily meet the Supplemental Standards is a matter of ongoing academic judgment made by faculty, campus staff, and campus management.

1. The candidate contributes to a positive climate in the University classroom and all clinical rotations, practicum, and/or preceptorships.
2. The candidate demonstrates mastery of written and spoken language for self-expression, as well as for effective interaction in all settings.
3. The candidate is a thoughtful and responsive listener.
4. The candidate is committed to reflection, assessment, and learning as an ongoing process.
5. The candidate is willing to give and receive help.
6. The candidate is sensitive to community and cultural norms for the degree program, the University classroom, and clinical rotations, practicum, and/or preceptorships.
7. The candidate appreciates and values human diversity and shows respect for others’ varied talents and perspectives.
8. The candidate values the development of critical thinking, independent problem solving, and performance capabilities in himself/herself and those with whom he/she interacts.
9. The candidate demonstrates a commitment to keeping abreast of new ideas and understanding in the nursing and/or healthcare field.
10. The candidate demonstrates a level of responsibility and ethical judgment consistent with professional guidelines developed for these fields and appropriate for professional nurses, nurse practitioners and/or healthcare providers.
11. The candidate maintains the highest ethical standards in interactions with faculty, students, staff, clients, and patients as well as in preparation and submission of required course work, and the completion of tests.

12. The candidate maintains a pattern of exceeding minimal requirements in courses and clinical rotations, practicum, and/or preceptorships.

When it is determined by faculty, campus staff, or campus management that a candidate falls short of meeting any of the above Supplemental Standards, they may file a “Referral Form” with the Campus College Chair, Campus Director of Academic Affairs, or designee. Any candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from their program, as appropriate.

Candidates who are separately charged with violating the Student Code of Conduct may also be the basis for a referral on separate academic grounds under these Supplemental Standards. Similarly, an observation under the Referral Process may be the basis for a Student Code of Conduct charge.

Procedure for Processing Referral Forms

The College of Nursing has instituted processes to ensure that candidates are regularly evaluated by the faculty and have access to counseling and advisement on professional requirements. These processes are conducted through collaboration between faculty, campus staff, and campus management who understand the professions and who can offer constructive feedback. It is the intention of the Referral Process to identify a candidate’s deficiencies and promote dialogue on how the candidate can improve and move forward in their program.

During the course of their program, faculty members, through a review of grades and dispositions, will monitor a candidate’s academic progress. The Campus College Chair (CCC), or designee, will serve as the primary point of contact in instances where a remediation plan and/or Candidate Retention Committee are deemed necessary.

A. One Referral

1. Notification of a Referral Form is sent to the candidate in writing by the Campus College Chair or designee identifying the candidate’s deficiencies in meeting the above Supplemental Standards.
2. The candidate must meet with the Campus College Chair or designee to discuss why the referral occurred and whether or not a formal remediation plan or other corrective action is needed.
3. The Campus College Chair or designee may convene a meeting of the Candidate Retention Committee (“CRC”) if deemed necessary. If the CRC will be convened, the notification to the candidate shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC.
4. If the CRC will be convened, the candidate shall be provided with ten (10) days to respond to the notification.
5. If the CRC meeting is held, the Committee members shall discuss with the candidate the issues or problems that appear to be hindering his/her academic progress and make one of the following recommendations:
   a. Take no action;
   b. Institute a formal remediation plan;
   c. Withdraw the student from the program.

University of Phoenix, 2012-2013
STUDENTS’ RIGHTS AND RESPONSIBILITIES
University of Phoenix Supplemental Standards for Candidates in College of Education Programs

Candidates in a College of Education program leading to certification or licensure at University of Phoenix are subject to greater scrutiny because of their anticipated interactions with students, parents, and the school community. These degree candidates participate in one or more field placements as part of their academic program. As prospective educators/administrators, College of Education candidates are expected to represent the University as professionals and adhere to the ethics and standards of their profession as well as the University’s Student Code of Conduct.

The following Supplemental Standards for Candidates in College of Education Programs (“Supplemental Standards”) apply to these degree candidates before, during, and after their field placements. The Supplemental Standards address a candidate’s affective attributes and disposition to be an educator/administrator. A corresponding Professional Dispositions Rubric provides additional guidance.

A candidate’s ability to satisfactorily meet the Supplemental Standards is a matter of ongoing academic judgment made by faculty, campus staff, and campus management.

1. The candidate contributes to a positive climate in the University classroom and all field placements.
2. The candidate demonstrates mastery of written and spoken language for self-expression, as well as for effective interaction in all settings.
3. The candidate is a thoughtful and responsive listener.
4. The candidate is committed to reflection, assessment, and learning as an ongoing process and believes that all students can learn.
5. The candidate is willing to give and receive help.
6. The candidate is sensitive to community and cultural norms for the degree program, the University classroom, and all field placements.
7. The candidate appreciates and values human diversity and shows respect and fairness for others’ varied talents and perspectives.
8. The candidate values the development of critical thinking, independent problem solving, and performance capabilities in himself/herself and those with whom he/she interacts.
9. The candidate demonstrates a commitment to keeping abreast of new ideas and understanding in the education field.
10. The candidate demonstrates a level of responsibility and ethical judgment appropriate for a professional educator/administrator.
11. The candidate maintains the highest ethical standards in interactions with faculty, students, and staff, as well as in preparation and submission of required course work, and the completion of tests.
12. The candidate maintains a pattern of exceeding minimal requirements in course and field placements.

When it is determined by faculty, campus staff, or campus management that a candidate fails short of meeting any of the above Supplemental Standards, they may file a “Referral Form” with the Campus College Chair, Campus Director of Academic Affairs, or designee. Any candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from their program, as appropriate.

---

C. Candidate Retention Committee

1. The CRC is comprised of the Campus College Chair or designee and at least two faculty members.
2. The candidate will be expected to participate in a dialogue with the Committee to exchange ideas on remediation or withdrawal from the program.
3. The candidate will not be permitted to have representation by an attorney or any other third party in this academic meeting.
4. If the CRC recommends that the candidate be withdrawn from the program, and this recommendation is endorsed by the Campus Director of Academic Affairs, the candidate has the right to appeal this decision to the Central Administration Appeals Committee (CAAC) within 10 days of receipt of the decision.
5. The CAAC is generally comprised of at least the Dean and an Associate Dean from the College of Nursing or designee(s), and a Regional Director of Academic Affairs (RDAA).
6. The decision of the CAAC is final.
Candidates who are separately charged with violating the Student Code of Conduct shall be subject to the policies, procedures, and sanctions for processing such charges. However, a charge under the Student Code of Conduct may also be the basis for a referral on separate academic grounds under these Supplemental Standards. Similarly, an observation under the Referral Process may be the basis for a Student Code of Conduct charge.

Procedure for Processing Referral Forms

The College of Education has instituted processes to ensure that candidates are regularly evaluated by the faculty and have access to counseling on professional requirements. These processes are conducted through collaboration between faculty, campus staff, and campus management who understand the profession and who can offer constructive feedback. It is the intention of the Referral Process to identify a candidate's deficiencies and promote dialogue on how the candidate can improve and move forward in their program.

During the course of their program, faculty members, through a review of grades and dispositions, will monitor a candidate's academic progress. The Campus College Chair (CCC), or designee, will serve as the primary point of contact in instances where a remediation plan and/or Candidate Retention Committee are deemed necessary.

A. One Referral

1. Notification of a Referral Form is sent to the candidate in writing by the Campus College Chair or designee identifying the candidate's deficiencies in meeting the above Supplemental Standards.
2. The candidate must meet with the Campus College Chair or designee to discuss why the referral occurred and whether or not a formal remediation plan or other corrective action is needed.
3. The Campus College Chair or designee may convene a meeting of the Candidate Retention Committee ("CRC") if deemed necessary. If the CRC will be convened, the notification to the candidate shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC.
4. If the CRC will be convened, the candidate shall be provided with ten (10) days to respond to the notification.
5. If the CRC meeting is held, the Committee members shall discuss with the candidate the issues or problems that appear to be hindering his/her academic progress and make one of the following recommendations:
   a. Take no action;
   b. Institute a formal remediation plan; or
   c. Withdraw the student from the program.
6. The CRC shall issue a report explaining the basis for its recommendation.

B. Two or More Referrals

1. Notification of a Referral Form(s) is sent to the candidate in writing by the Campus College Chair or designee identifying the candidate's deficiencies in meeting the above Supplemental Standards.
2. Notification shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC.
3. The candidate shall be provided with ten (10) days to respond to the notification.
4. After the candidate has the opportunity to respond, the Campus College Chair or designee shall convene a meeting of the Candidate Retention Committee.
5. The CRC members shall discuss with the candidate the issues or problems that appear to be hindering their academic progress and make one of the following recommendations:
   a. Take no action;
   b. Institute a formal remediation plan; or
   c. Withdraw the student from the program.
6. The CRC shall issue a report explaining the basis for its recommendation.

C. Candidate Retention Committee

1. The CRC is comprised of the Campus College Chair or designee and at least two faculty members.
2. The candidate will be expected to participate in a dialogue with the Committee to exchange ideas on remediation or withdrawal from the program.
3. The candidate will not be permitted to have representation by an attorney or any other third party in this academic meeting.
4. If the CRC recommends that the candidate be withdrawn from the program, and this recommendation is endorsed by the Campus Director of Academic Affairs, the candidate has the right to appeal this decision to the Central Administration Appeals Committee (CAAC) within 10 days of receipt of the decision.
5. The CAAC is generally comprised of at least the Dean and an Associate Dean from the College of Education or designee(s), and a Regional Director of Academic Affairs (RDAA).
6. The decision of the CAAC is final.
University of Phoenix Supplemental Standards for Candidates in Education Administration and Supervision Programs

Candidates in a College of Education program leading to certification or licensure as school administrators at the University of Phoenix are subject to greater scrutiny because of their anticipated interactions with students, parents, and the school community. As prospective administrators, College of Education candidates are expected to represent the University as professionals and adhere to the ethics and standards of their profession as well as the University’s Student Code of Conduct.

The following Supplemental Standards for Candidates in Administration and Supervision Programs (“Administration Supplemental Standards”) apply to these degree candidates throughout their academic program and internship. The Supplemental Standards address a candidate’s affective attributes and dispositions to be an administrator. A corresponding Administrator Dispositions Rubric provides additional guidance.

A candidate’s ability to satisfactorily meet the Administration Supplemental Standards is a matter of ongoing academic judgment made by faculty, campus staff, and campus management. These supplemental, dispositional standards are adopted from the Administrator Dispositions Index items based on the work of the Council for Chief State School Officers (2003) and the National Association of Secondary School Principals (2001).

1. The administrator candidate believes the purpose of school is student learning and is committed to educating all students.
2. The administrator candidate values and is committed to life-long learning for self and others.
3. The administrator candidate believes there are a variety of ways in which teachers can teach and students can learn.
4. The administrator candidate is committed to establishing a safe and supportive learning environment.
5. The administrator candidate is committed to high-quality standards, expectations, and performances from self, staff, students, and others.
6. The administrator candidate is committed to ethical principles in decision-making.
7. The administrator candidate believes the school is an integral part of the larger community and is committed to collaborating with families and community members.
8. The administrator candidate believes in involving stakeholders in order to work toward common goals.
9. The administrator candidate values and is committed to timely communication to inform the community and public.
10. The administrator candidate recognizes and addresses the feelings, needs, and concerns of others.
11. The administrator candidate believes that diversity benefits the school and is committed to working effectively with people from all backgrounds.
12. The administrator candidate welcomes responses from others and actively works to form partnerships with parents.
13. The administrator candidate believes that risks must be taken to improve schools.
14. The administrator candidate believes and is committed to continual school improvement.
15. The administrator candidate is committed to motivating others to enhance professional and organizational growth.

When it is determined by faculty, campus staff, faculty supervisors, or campus management that an administrator candidate falls short of meeting any of the above standards, they may file a “Referral Form” with the Campus College Chair or Campus Director of Academic Affairs. Any candidate who receives one or more referral(s) shall be counseled, remediated, or withdrawn from their program, as appropriate.

Candidates who are separately charged with violating the Student Code of Conduct shall be subject to the policies, procedures, and sanctions for processing such charges. However, a charge under the Student Code of Conduct may also be the basis for a referral on separate academic grounds under these Supplemental Standards. Similarly, an observation under the Referral Process may be the basis for a Student Code of Conduct charge.

Procedure for Processing Referral Forms

The College of Education has instituted processes to ensure that administrative candidates are regularly evaluated by the faculty and have access to counseling on professional requirements. These processes are conducted through collaboration between faculty, campus staff, and campus management who understand the profession and who can offer constructive feedback. It is the intention of the Referral Process to identify a candidate’s deficiencies and promote dialogue on how the candidate can improve and move forward in their program.

During the course of their program, faculty members, through a review of grades and dispositions, will monitor a candidate’s academic progress. The Campus College Chair (CCC), or designee, will serve as the primary point of contact in instances where a remediation plan and/or Candidate Retention Committee are deemed necessary.

A. One Referral

1. Notification of a Referral Form is sent to the candidate in writing by the Campus College Chair or designee identifying the candidate’s deficiencies in meeting the above Supplemental Standards.
2. The candidate must meet with his/her Academic Advisor and/or the Campus College Chair or designee to discuss why the referral occurred and whether or not a formal remediation plan or other corrective action is needed.
3. The Campus College Chair or designee may convene a meeting of the Candidate Retention Committee (“CRC”) if deemed necessary. If the CRC will be convened, the notification to the candidate shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC.
4. If the CRC will be convened, the candidate shall be provided with ten (10) days to respond to the notification.
5. If the CRC meeting is held, the Committee members shall discuss with the candidate the issues or problems that appear to be hindering his/her academic progress and make one of the following recommendations:
   a. Take no action;
   b. Institute a formal remediation plan; or
   c. Withdraw the student from the program.
6. The CRC shall issue a report explaining the basis for its recommendation.
B. Two or More Referrals

1. Notification of a Referral Form(s) is sent to the candidate in writing by the Campus College Chair or designee identifying the candidate’s deficiencies in meeting the above Supplemental Standards.

2. Notification shall specifically describe the issue(s) to be discussed and the possible recommendation options available to the CRC.

3. The candidate shall be provided with ten (10) days to respond to the notification.

4. After the candidate has the opportunity to respond, the Campus College Chair or designee shall convene a meeting of the Candidate Retention Committee.

5. The CRC members shall discuss with the candidate the issues or problems that appear to be hindering their academic progress and make one of the following recommendations:
   a. Take no action;
   b. Institute a formal remediation plan; or
   c. Withdraw the student from the program.

6. The CRC shall issue a report explaining the basis for its recommendation.

C. Candidate Retention Committee

1. The CRC is comprised of the Campus College Chair or designee and at least two faculty members.

2. The candidate will be expected to participate in a dialogue with the Committee to exchange ideas on remediation or withdrawal from the program.

3. The candidate will not be permitted to have representation by an attorney or any other third party in this academic meeting.

4. If the CRC recommends that the candidate be withdrawn from the program, and this recommendation is endorsed by the Campus Director of Academic Affairs, the candidate has the right to appeal this decision to the Central Administration Appeals Committee (CAAC) within 10 days of receipt of the decision.

5. The CAAC is generally comprised of at least the Dean and an Associate Dean from the College of Education or designee(s), and a Regional Director of Academic Affairs (RDAA).

6. The decision of the CAAC is final.

Policy on Supplemental Standards for Candidates in College of Education Programs

The University of Phoenix policy on supplemental standards are designed to address affective attributes and dispositions that are required by educators/administrators in their respective professions’ ethics and standards. The dispositions were adapted, in part, from the standards of the Interstate New Teacher Assessment and Support Consortium (INTASC).

The policy states that as prospective educators/administrators, College of Education candidates are expected to represent the University as professionals and adhere to the ethics and standards of their profession as well as the University’s Student Code of Conduct. In addition to the UOPX Student Code of Conduct, candidates in the College of Education are also held to Supplemental Standards because of their anticipated interactions with students, parents, and the school community.

Policy on Nursing Ethics and Professional Competence

The University of Phoenix Policy on Nursing Ethics and Professional Competence is defined as compliance with the following nursing guidelines:

- University of Phoenix Professional Nursing Responsibilities.
- American Nurses Association Code for Nurses.

The policy sets forth expectations and regulations for professional and ethical conduct by students enrolled in the Bachelor of Science in Nursing and Master of Science in Nursing degree programs. The policy states that all forms of unethical behavior or professional incompetence are to be reported and reviewed. Reported violations will be addressed through a formal process to the Campus Ethics Committee.

Expectations for conduct and the standards are discussed in the beginning classes for either the baccalaureate or graduate degree programs. Content supporting this information is provided to students in their program handbooks.
Students' Right to Privacy

The University of Phoenix maintains compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended. FERPA defines requirements which are designed to protect the privacy of student records maintained by the University. The law requires that:

1. Students should be provided access to official records directly related to them. Students who wish to see their records must make an appointment or submit a written request through the University Registrar’s Office or local campus office.
2. Students may not remove any materials, but are entitled, at their expense, to one copy of any materials contained in their file, unless a disclaimer appears on the document indicating that the student is not to be given a copy, or if the student waived the rights to the document.
3. Students be given the opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the faculty member.
4. Students’ written consent must be received prior to releasing personally identifiable student data from their records to other than a specified list of exceptions.

The University is authorized to release public directory information concerning students. Directory information includes the student’s name, address, phone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. Directory information is subject to release by the University at any time unless the Registrar has received a prior written request from the student specifying that the information not be released.

The University is authorized to provide access to student records to University officials and employees who have legitimate educational interests for such access; these are persons who have responsibilities in the University’s academic, administrative, service, or research functions.

A copy of the University’s FERPA policy is available to students through the Registrar’s Office or the student ecampus website at: http://ecampus.phoenix.edu.

Education records also will be released pursuant to a judicial order or a lawfully issued subpoena, but only after the student is given reasonable and necessary notification of the University’s intent to comply with the subpoena before release of the records.

Students have the right to restrict disclosure of directory information. Written requests for privacy holds should include name, IRN, address, specific records to be withheld and/or to whom the privacy hold applies, and the student’s signature and date. Requests are valid throughout student’s enrollment unless otherwise notified. Please send or fax your request to: Registrar, University of Phoenix, 4025 South Riverpoint Parkway, Mail Stop CF-L201, Phoenix, AZ 85040, Fax (480) 643-1600.

STUDENT CODE OF CONDUCT

The Student Code of Conduct of University of Phoenix supports the University’s mission to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals, improve the productivity of their organizations, and provide leadership and service to their communities.

Students are expected to conduct themselves ethically, honestly, and with integrity as responsible members of the University’s academic community. This requires the demonstration of mutual respect and civility in academic and professional discourse. A University is a marketplace of ideas and, in the search for truth, it is essential that freedom exists for contrary ideas to be expressed. Accordingly, students are expected to respect the rights and privileges of others and to foster an environment conducive to learning. Students are accountable for their actions and are required to work independently, as well as collaboratively with teams, in achieving learning goals and objectives.

By virtue of membership in the University’s academic community, students accept an obligation to abide by this Student Code of Conduct. Conduct, either on or off-campus, that is determined to impair, interfere, or obstruct the opportunities of others to learn or that disrupts the mission, processes, or orderly functions of the University will be deemed misconduct and shall be subject to appropriate disciplinary action.

Misconduct for which students are subject to disciplinary action includes, but is not limited to, the following enumerated violations:

1. Actions, oral statements, and written statements which threaten or violate the personal safety of any member of the faculty, staff, or other students.
2. Harassment that has the effect of creating a hostile or offensive educational environment for any student, faculty, or staff member.
3. Sex discrimination/harassment that has the effect of creating a hostile or offensive educational environment for any student, faculty, or staff member. This includes, but is not limited to, sex discrimination, sexual harassment, unwelcome conduct of a sexual nature, unwelcome sexual advances, requests for sexual favors, and other verbal and nonverbal, or physical conduct of a sexual nature including sexual violence.
4. Stalking, persistently pursuing another person that has the effect of imposing unwelcomed contact and/or communication.
5. Disruptive behavior that hinders or interferes with the educational process.
6. Violation of any applicable professional codes of ethics or conduct.
7. Failure to promptly comply with any reasonable directive from faculty or University officials.
8. Failure to cooperate in a University investigation.
9. Carrying of weapons on campus, at campus-sanctioned events, or when meeting with campus personnel. (This policy is not applicable to students who are law enforcement officers required by law to carry firearms at all times).
10. Using, dealing in, or being under the influence of alcohol or illegal drugs while in class, at campus-sanctioned events, or when meeting with campus personnel.

11. Failure to maintain confidentiality and respect the privacy of personal or professional information communicated about clients, one's employer, other students or their employers.

12. Falsification, alteration or invention of information, including, but not limited to, any third party document used to apply for financial aid, or lying during a University investigation.

13. Violation of the Student Code of Academic Integrity.

14. Violation of the policy on Acceptable Use of University Computing and Communication Resources for Students and Faculty.

15. Hazing (any action which recklessly or intentionally endangers the mental health or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any University-sanctioned organization).

16. Violation of University regulations and policies (in addition to those regulations and policies covered by items 1-15 above).

17. Violation of federal, state, provincial, or local laws or regulations that impacts the University's educational environment.

**Student Code of Academic Integrity**

University of Phoenix is an academic community whose fundamental mission is the pursuit of intellectual growth. Achievement of this mission is dependent upon the development of autonomous thought and respect for the ideas of others. Academic dishonesty threatens the integrity of individual students as well as the University’s academic community.

By virtue of membership in the University’s academic community, students accept a responsibility and obligation to abide by this Student Code of Academic Integrity, which is a part of the Student Code of Conduct. Academic integrity violations include all forms of academic dishonesty, including but not limited to the following:

a. Plagiarism - Intentional or unintentional representation of another’s words or ideas as one’s own in an academic exercise.

Examples of plagiarism include but are not limited to:
- The exact copy of information from a source without proper citation and without use of quotation marks or block quotation formatting. If any words or ideas used in a class posting or assignment submission do not represent the student’s original words or ideas, the student must distinguish them with quotation marks or a freestanding, indented block quotation (for a quotation of 40 or more words), followed by the appropriate citation in accordance with the Publication Manual of the American Psychological Association. When a student copies information from a source, he or she must acknowledge the source with quotation marks or block quotes irrespective of whether or not the source has been formally published.
- Paraphrasing statements, paragraphs, or other bodies of work without proper citation using someone else’s ideas, data, language, and/or arguments without acknowledgement.
- Presenting work as the student’s own that has been prepared in whole or part by someone other than that particular student. This includes the purchase and/or sharing of work.
- Failure to properly cite and reference statistics, data, or other sources of information that are used in one’s submission.

b. Self-plagiarism, double dipping, or dovetailing - Submission of work that has been previously prepared and turned in without fair citation of the original work and prior approval of faculty. Students who submit assignments that were previously submitted are subject to the same consequences they would face if they plagiarized these assignments. The use of one’s previous work in an assignment requires prior approval from the current faculty member and citation of the previous work.

c. Fabrication - Falsification or invention of any information, citation, data, or document.

This includes the invention or alteration of data or results, or relying on another source’s results in any assignment without proper acknowledgement of that source. Fabrication includes citing sources that the student has not actually used or consulted.

d. Unauthorized Assistance - Use of materials or information not authorized by the faculty member to complete an academic exercise, or the completion of an academic exercise by someone other than the student.

Students must rely upon their own abilities and refrain from obtaining assistance in any manner that faculty does not explicitly allow. This includes but is not limited to providing or receiving answers to an exam, use of faculty materials or answer keys, or a student having someone take his or her exam.

e. Copyright infringement - Acquisition or use of copyrighted works without appropriate legal license or permission which includes peer-to-peer file sharing.

Any unauthorized distribution of copyrighted material, including peer-to-peer file sharing, including illegal downloading or unauthorized distribution of copyrighted materials using the University information technology system may subject a student to civil and criminal liabilities.

Refer to: http://www.copyright.gov/title17/92chap5.pdf for information on federal copyright infringement and remedies.

f. Misrepresentation - Falsely representing the student’s situation to faculty when (1) justifying an absence or the need for a complete grade; or (2) requesting a makeup exam, a special due date, or extension of a syllabus or class deadline for submitting a course requirement.

g. Collusion - Helping or allowing another student to commit any act of academic dishonesty.

**Procedure for Processing Alleged Violations of the Student Code of Conduct:**

Procedure for Processing Alleged Violations of the Student Code of Conduct:

A. Alleged Violations:

1. An alleged violation of the Student Code of Conduct, unless related to student records or sex discrimination/harassment, shall be forwarded to the Campus Director of Academic Affairs, the Campus Director of Operations, or their designee.

2. An alleged violation of the Student Code of Conduct that relates to student records shall be forwarded in writing to the Registrar.

3. An alleged violation of the Student Code of Conduct that relates to sex discrimination/harassment shall be forwarded to the University’s Title IX Coordinator, Camie Pratt, Associate Vice President, Office of Dispute Management, 4615 E. Elwood Street, Mailstop AA-S401, Phoenix, AZ 85040, 602.557.3391, Camie.Pratt@phoenix.edu or designee).
4. All alleged violations of the Student Code of Conduct shall be subject to a fair and impartial process in determining whether or not a violation has occurred.

5. An alleged violation of the Student Code of Conduct may result in a warning or it may be subject to review by a committee as described below.

B. Investigation:
1. Alleged violations of the Student Code of Conduct shall be investigated in a prompt, thorough, impartial, and reasonable manner.
2. The investigation shall gather relevant evidence, including, but not limited to, pertinent documents and statements from witnesses. Title IX investigations will be conducted within 60 days barring any unusual complexity.
3. While an alleged violation of the Student Code of Conduct is being investigated, a student may be removed from class, campus-sanctioned events, and other University functions after review and consultation with Apollo Legal Services and/or the Office of Dispute Management.

C. Notification:
1. A student who is charged with a violation of the Student Code of Conduct shall be notified of the specific charge(s) in writing by United Parcel Service (UPS) and/or by additional means which may validate proof of receipt, and shall be given ten days to submit a written response to the designated University official. (Note: If this is a drug and/or alcohol related offense you must also notify the Office of Dispute Management.)
2. Failure of a student to respond to the Charging Letter shall result in suspension from the University following completion of the current course if the student is then actively attending classes and is not subject to immediate suspension.
3. In those instances where the campus determines the conduct does not warrant a Charging Letter, it may choose to issue a Warning Letter and/or provide counseling to the student. Note: A Warning Letter is not appealable.
4. In Title IX cases the complainant(s) shall be notified of the conduct procedures and notified of when and if a Charge Letter or warning is sent to the respondent(s).

D. Student Response
1. A student response acknowledging guilt will be sent to the Campus Director of Academic Affairs, the Campus Director of Operations, the Registrar (only in violations relating to student records) or their designee who will determine the appropriate sanctions.
2. In Title IX cases, a student response acknowledging guilt will follow the Title IX committee process outlined below.
3. A student response denying the charge(s) will follow the committee process outlined below.

E. Committees:
1. Campus Committee:
   a. After the campus investigation is completed and the student has responded to the Charging Letter, a Campus Committee shall be convened to review the file and make findings and recommendations to the Campus Director of Academic Affairs or the Campus Director of Operations (a designee may be appointed if the Director has recused himself/herself).
   b. The Campus Committee shall be chaired by a full-time campus administrator.
   c. The Campus Committee composition shall be at least three impartial individuals who have no prior involvement with the student or the investigation: a campus administrator, a faculty member, and a student representative.
   d. The Campus Committee shall use the preponderance of the evidence standard of proof (more likely than not) to weigh the evidence and make a recommendation to the Director of Academic Affairs or designee about whether a violation occurred and what sanction, if any, is warranted.
2. Registrar's Committee:
   a. After the Apollo Ethics and Compliance Department’s investigation is completed and the student has responded to the Charging Letter, a Registrar's Committee shall be convened to review the file and make findings and recommendations to the Registrar (a designee may be appointed if the Registrar has recused himself/herself).
   b. The Registrar's Committee shall be chaired by an Associate Registrar or Director from the Registrar's Office (or designee).
   c. The Committee composition shall be at least three impartial individuals, who have no prior involvement with the student or the investigation: an Associate Registrar (or designee), Director of Operations Manager from the Registrar’s Office or designee, a Director from University Services (or designee), and the Director of Student Financial Aid programs or Director of Student Financial Accounting or Campus Director of Finance, as appropriate.
   d. The Registrar’s Committee shall use the preponderance of the evidence standard of proof (more likely than not) to weigh the evidence and make a recommendation to the Registrar or designee about whether a violation occurred and what sanction, if any, is warranted.
3. Title IX Committee:
   a. After the investigation is completed and the student has responded to the Charging Letter, opposing parties will be afforded the opportunity to present written witness statements for inclusion in the Title IX Case Packet.
   b. The Title IX Committee shall be convened to review the file and make findings and recommendations to the Campus Director of Academic Affairs or the Campus Director of Operations (a designee may be appointed if the Director has recused himself/herself).
   c. The Title IX Committee shall be chaired by a full-time campus administrator or designee.
d. The Title IX Committee composition shall be at least three impartial individuals who have no prior involvement with the parties or the investigation: a director (or designee), a faculty member, and a student.
e. The Title IX Committee shall use the preponderance of the evidence standard of proof (more likely than not) to weigh the evidence and make a recommendation to the Director of Academic Affairs or designee about whether a violation occurred and what sanction, if any, is warranted.

F. Committee Process:
1. Students shall be afforded the opportunity to address the Committee to make a statement in their defense. This may be done via teleconference. (Note: In Title IX cases opposing parties are afforded the opportunity to separately address the committee to make a statement).
2. Students are not entitled to representation by an attorney or any other third party at any point in the process. However, in accordance with the Higher Education Opportunity Act (HEOA), in cases of an alleged sex discrimination/harassment, opposing parties are entitled to have third parties present during the committee process. (Note: The third party cannot be an attorney).
3. Tape, digital, or other electronic recording of the committee meeting is not permitted.
4. The Committee members are given a “Case Packet” with all relevant information for the committee meeting, including any written response received from the student. In Title IX cases, the Case Packet will include opposing parties’ statements, all evidence discovered during the investigation, and any written witness statements the parties have submitted.
5. The Committee members sign a standard Confidentiality Statement for Committee Members and, after the Committee’s deliberations; the Case Packets are collected and destroyed in order to maintain confidentiality.

G. Decision:
1. For campus cases, the Committee Chair delivers a summary report, generally containing Findings of Fact, Conclusions, and Recommendations, to the Campus Director of Academic Affairs or the Campus Director of Operations (or designee), who has the ultimate authority to accept, reject, or modify the recommendations of the Campus Committee and render the decision.
2. For Registrar cases, the Committee Chair delivers a summary report, generally containing Findings of Fact, Conclusions, and Recommendations, to the Registrar (or designee), who has the ultimate authority to accept, reject, or modify the recommendations of the Registrar’s Committee and render the decision.
3. For Title IX cases, the Committee Chair delivers a summary report, generally containing Findings of Fact, Conclusions, and Recommendations, to the Campus Director of Academic Affairs or the Campus Director of Operations (or designee), who has the ultimate authority to accept, reject, or modify the recommendations of the Title IX Committee and render the decision.
4. The decision shall be communicated to the student by the decision maker. The decision shall be delivered by United Parcel Service (UPS) and/or by additional means which may validate proof of receipt. In Title IX cases, opposing parties will receive notice of the outcome of the complaint within 30 days of the close of the investigation. (Note: If this is a drug and/or alcohol related offense you must also notify the Office of Dispute Management.)
5. In accordance with the requirements under the Higher Education Opportunity Act (HEOA), upon written request, the University of Phoenix will disclose to an alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the institution against the student(s) who is/are the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the alleged crime or offense, the University of Phoenix will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.
6. In accordance with the requirements under the HEOA, in cases of an alleged sex discrimination/harassment, opposing parties will be informed of the committee determination, including any sanction that is imposed.
7. Any decision which affects a student’s enrollment or academic status shall be communicated to the Registrar’s Office for records update.

H. Sanctions:
1. If a violation is found, disciplinary sanctions shall be based on the seriousness of the situation and may include, but are not limited to, documented counseling by a University staff member, loss of academic credit, action plan (must be approved by the Office of Dispute Management), suspension and/or expulsion.
2. A recommendation of expulsion by the decision maker shall be automatically reviewed by the Student Discipline Review Committee in the Office of Dispute Management and must be endorsed before the campus communicates that sanction to the student.

I. Appeals:
1. In those instances where students are found to be in violation of the Student Code of Conduct after receiving a Charging Letter, they may appeal the decision to the Student Discipline Review Committee (SDRC) in the Office of Dispute Management (ODM) within ten days of receiving the campus decision. In Title IX cases, opposing parties shall be afforded the opportunity to appeal within 10 days of receiving notice of the outcome and if an appeal is filed each party shall receive notice of the other party’s appeal.
2. The SDRC is usually comprised of a senior manager from the University, a Regional Director of Academic Affairs, and an Associate or Assistant Dean from the accused student’s college (or their respective designee). The decision of the SDRC is final and shall be communicated directly to the student and the campus, except in the case of a decision by the SDRC supporting a campus recommendation of expulsion (see H.2. above).
3. If the sanction against the student is expulsion, the review of the appeal shall be conducted by the Senior Management Review Committee (SMRC) in the Office of Dispute Management. The SMRC is usually comprised of the Provost, the Vice President of University Services, and the Dean of the accused student’s college (or their respective designee). The decision of the SMRC is final and shall be communicated directly to the student and the campus.
The following policy and procedures are to be used to resolve disputes by both current and former students of the University. Students are encouraged to bring the concerns outlined below to the attention of the appropriate individual/department, as set forth in Step One below. These individuals/departments will investigate and resolve such concerns accordingly. A covered dispute is subject to the conditions below and may be submitted to the formal Dispute Resolution Procedures set forth in this section if not satisfactorily resolved through the prior intervention of Step One.

In connection with the University policies identified in Step One below, this policy is intended to address disputes between a student and the University and create a framework by which students and the University can resolve all such disputes arising from a student’s interactions with the University. Although the University strongly recommends utilization of the resources identified in Step One to resolve such disputes, the only dispute resolution policy that is mandatory is the arbitration policy. Arbitration is the exclusive means by which all covered disputes asserted by either a student (whether current or former) or the University, involving justiciable disputes and/or any justiciable matter arising from the student’s interactions with the University, shall be decided and finally resolved.

Claims and/or disputes covered by this policy fall into one of two levels:

- **Level One disputes** involve alleged violations of state or federal law, any statutory or common law tort claim or alleged breach of contract claim, claims of discrimination or harassment pursuant to state or federal law, or any other issue of a substantial nature. If not resolved sooner, Level One disputes may be processed through all three steps of the following Dispute Resolution Procedures.

- **Level Two disputes** involve alleged violations of state or federal law, any statutory or common law tort claim or alleged breach of contract claim, claims of discrimination or harassment pursuant to state or federal law, or any other issue of a substantial nature. If not resolved sooner, Level Two disputes may be processed through all three steps of the following Dispute Resolution Procedures.

### Step One: Internal Resolution

Students should first attempt to resolve any dispute or issue related to the following subject matters, or like subject matters, by contacting the following individuals/departments, and utilizing the process set forth in the corresponding section(s) of the Academic Catalog, as referenced below. Please note that the information provided below represents only the initial contact with whom such disputes should be reported. Students should carefully consult the Academic Catalog to gain a fuller understanding of the processes associated with reporting and resolving disputes related to these subject matters.

- **Allegations of sex discrimination or sexual harassment:** Camie Pratt, Associate Vice President and Title IX Coordinator, Office of Dispute Management (“ODM”). See Nondiscrimination Policy and Harassment Policy in Academic Catalog.
- **Student Code of Conduct Violations, other than sex discrimination and sexual harassment:** Registrar. See Student Code of Conduct section in Academic Catalog.
- **General Student Grievances (other than sex discrimination and sexual harassment):** Office of Dispute Management. See General Student Grievances section in Academic Catalog.
- **Student Grievances relating to financial aid, account balances, or collections:** Campus Management. See General Student Grievances section in Academic Catalog.
- **Academic Issues:** Student Appeals Center in ODM. See Student Appeals Center Section in Academic Catalog.
- **Grade Disputes:** Director of Academic Affairs or designee. See Grade Disputes section in Academic Catalog.

### Step Two: Mediation

If a Level One dispute is not resolved as a result of Step One, then prior to proceeding to Arbitration, all parties are encouraged to participate in a formal mediation session facilitated by a professional, neutral mediator. Mediation is not mandatory but is strongly encouraged as an effective way to resolve disputes. Mediation is not a mandatory prerequisite to arbitration.

The physical location for the mediation shall be mutually selected by the parties. If the parties elect mediation, the student is required to pay the sum of $100 towards the mediation costs, which amount shall be paid directly to the mediator. Any other costs associated with the mediation shall be paid by the University. Both the student and the University shall submit in writing to the other the name(s) of one or more professional, neutral mediators as a potential mediator in the matter. The parties will exercise their best efforts to agree on the selection of a mediator. If the parties cannot agree on the selection of a mediator, then the parties can submit the matter to the American Arbitration Association for the purpose of having a neutral mediator appointed.

The mediator shall schedule the mediation as expeditiously as possible. All parties will have the opportunity to attend and participate in the mediation. Any party may be represented by counsel of his or her choosing, at his or her own expense. The mediator shall direct how the mediation will be conducted. As with all mediations, any resulting resolution must be agreed to by the parties, which shall constitute a final and binding resolution of the matter.
Step Three: Binding Arbitration

1. This Binding Arbitration provision ("Arbitration Agreement") is governed by the Federal Arbitration Act, 9 U.S.C. § 1 et seq. and evidences a transaction involving commerce. This Arbitration Agreement is a condition of becoming enrolled with the University. This Arbitration Agreement applies to any covered dispute arising out of or related to the student’s interactions with the University. Nothing contained in this Arbitration Agreement shall be construed to prevent or excuse the student from utilizing the University’s existing internal procedures for resolution of complaints, as set forth in Step One above, and this Arbitration Agreement is not intended to be a substitute for the utilization of such procedures. Except as it otherwise provides, this Arbitration Agreement is intended to apply to the resolution of disputes that otherwise would be resolved in a court of law, and therefore this Arbitration Agreement requires all such disputes to be resolved only by an arbitrator through final and binding arbitration and not by way of court or jury trial. Such disputes include without limitation disputes arising out of or relating to interpretation or application of this Arbitration Agreement, including the enforceability, revocability or validity of the Arbitration Agreement or any portion of the Arbitration Agreement. Regardless of any other terms of this Arbitration Agreement, claims may be brought before an administrative agency if applicable law permits access to such an agency notwithstanding the existence of an agreement to arbitrate. Such administrative claims include without limitation claims or charges brought before the U.S. Department of Education, State Boards of Education, or the Office of Federal Contract Compliance Programs.

2. Notwithstanding any other language in this Arbitration Agreement, a student’s Enrollment Agreement, the Academic Catalog or any other University policy statement, this Arbitration Agreement will not be unilaterally revised, modified or eliminated by the University with respect to any covered dispute after that dispute has been submitted to arbitration pursuant to this Arbitration Agreement. The University will not revise, modify or eliminate this Arbitration Agreement without giving at least thirty (30) days written notice to Students.

3. The parties shall select the neutral arbitrator and/or arbitration sponsoring organization by mutual agreement. If the parties cannot mutually agree to an arbitrator and/or arbitration sponsoring organization, the arbitration will be held and the arbitrator selected under the auspices of the American Arbitration Association ("AAA"). Except as provided in this Arbitration Agreement, the arbitration shall be held in accordance with the then current Commercial Arbitration Procedures of the AAA. The AAA rules are available at (www.adr.org). However, nothing in said rules or procedures and/or any modification thereto shall affect the enforceability and validity of the Class Action Waiver, including but not limited to, the provision that the enforceability of the Class Action Waiver may be determined only by a court and not by an arbitrator. Unless the parties jointly agree otherwise, the arbitrator shall be either an attorney who is experienced in the subject matter at issue and licensed to practice law in the state in which the arbitration is convened, or a retired judge.

4. The party bringing the claim must demand arbitration in writing and deliver the written demand by hand or first class mail to the other party within the applicable statute of limitations period. Any demand for arbitration made to the University shall be provided to the Legal Department, at 4025 S. Riverpoint Parkway, Mail Stop: CF-KX01, Phoenix, Arizona 85040. The arbitrator shall resolve all disputes regarding the timeliness or propriety of the demand for arbitration. A party may apply to a court of competent jurisdiction for temporary or preliminary injunctive relief in connection with an arbitrable controversy, but only upon the ground that the award to which that party may be entitled may be rendered ineffectual without such provisional relief.

5. In arbitration, the parties will have the right to conduct adequate civil discovery, bring dispositive motions, and present witnesses and evidence as needed to present their cases and defenses, and any disputes in this regard shall be resolved by the arbitrator.

6. CLASS ACTION WAIVER: There will be no right or authority for any dispute to be brought, heard or arbitrated as a class, collective or representative action or as a class member in any purported class, collective action or representative proceeding ("Class Action Waiver"). Notwithstanding any other clause contained in this Arbitration Agreement, the preceding sentence shall not be severable from this Agreement in any case in which the dispute to be arbitrated is brought as a class, collective or representative action. Notwithstanding any other clause contained in this Arbitration Agreement, any claim that all or part of the Class Action Waiver is unenforceable, unconscionable, void or voidable may be determined only by a court of competent jurisdiction and not by an arbitrator.

7. Each party will pay the fees for his, her or its own attorneys, subject to any remedies to which that party may later be entitled under applicable law. The University shall initially bear the administrative costs associated with the conduct of the Arbitration, subject to: (1) a one-time payment by the student toward these costs equal to the filing fee then required by the court of general jurisdiction in the state where the student in question attended the University; and (2) any subsequent award by the Arbitrator in accordance with applicable law.

8. The Federal Rules of Evidence shall apply. The arbitrator shall have jurisdiction to hear and rule on pre-hearing disputes and is authorized to hold pre-hearing conferences by telephone or in person, as the arbitrator deems necessary. The arbitrator shall have the authority to entertain a motion to dismiss and/or a motion for summary judgment by any party and shall apply the standards governing such motions under the Federal Rules of Civil Procedure and applicable federal common law.
9. Within 30 days of the close of the arbitration hearing, any party will have the right to prepare, serve on the other party and file with the arbitrator a brief. The arbitrator may award any party any remedy to which that party is entitled under applicable law, but such remedies shall be limited to those that would be available to a party in his or her individual capacity in a court of law for the claims presented to and decided by the arbitrator, and no remedies that otherwise would be available to an individual in a court of law will be forfeited by virtue of this Arbitration Agreement. The arbitrator will issue a decision or award in writing, stating the essential findings of fact and conclusions of law. Except as may be permitted or required by law, as determined by the arbitrator, neither a party nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder without the prior written consent of all parties. A court of competent jurisdiction shall have the authority to enter a judgment upon the award made pursuant to the arbitration.

10. It is against University policy for any student to be subject to retaliation if he or she exercises his or her right to assert claims under this Arbitration Agreement. If any student believes that he or she has been retaliated against by anyone at the University, the student should immediately report this to ODM.

11. This section entitled "Binding Arbitration" is the full and complete agreement relating to the formal resolution of student-related disputes in arbitration. Except as stated in paragraph 6, above, in the event any portion of this Arbitration Agreement is deemed unenforceable, the remainder of this Arbitration Agreement will be enforceable. If the Class Action Waiver is deemed to be unenforceable, the University and the student agree that this Arbitration Agreement is otherwise silent as to any party's ability to bring a class, collective or representative action in arbitration.
ACADEMIC POLICIES

Academic Advisement

All students are provided the opportunity to communicate with a representative throughout the duration of their program. This advisement can provide students with a preliminary evaluation of their academic status prior to admission and the requirements they must satisfy for both admission to and the completion of their degree program. All students are notified of their official transfer of credits at the time of matriculation and may view their official transfer credit evaluation and progress toward degree completion at any time on their student website. Student services available on the student website include transfer credit summaries, official grades, program GPA, access to update demographic information, and the ability to request transcripts. Guidance on degree completion progress and options may also be discussed at any time with a representative.

Registration

Registration and payment of tuition are required prior to the start of each course. A new application fee is not required for students transferring from WIU. Students who register in a financial aid eligible program may qualify for financial aid in accordance with federal regulations.

Students must sign a Enrollment or Disclosure Agreement for the degree program which they intend to pursue. Students who change programs or who reenter after an absence of one year or more must sign a new Enrollment or Disclosure Agreement.

The student’s enrollment agreement defines the student’s curriculum and degree requirements. The executed enrollment agreement will be effective for a one year time period from the date signed. If the student has not started their program within this timeframe, the student will be required to submit new admissions paperwork (application and Enrollment/ Disclosure Agreement) and update to the most recent version available at their campus.

Admission Statuses

There are twelve types of admission statuses at the University of Phoenix representing a student's standing: Registered, Registered with International Credentials, Admission Deadline Exceeded, Conditional, Orientation Pending, Graduate Provisional, Admitted, Deferred, Non-Degree, Denied for Cause, Denied, and Re-entry. Applicants to certain degree programs are permitted to begin their course of study under Registered, Registered with International Credentials and Provisional admissions statuses, but are not considered unconditionally admitted until the Office of Admissions and Evaluation grants a status of Admitted and all transfer credits are reviewed for applicability to the degree program.

Official decisions regarding admission and academic statuses may be delivered to students via the student website or US Mail.

Admitted (AM) Status

The Office of Admissions and Evaluation in University Services grants a student Admitted status after all documents have been received, the applicant's admission file has been officially reviewed, and all admission requirements have been met. All materials to obtain admission should be submitted by the end of the second course. No student may enroll in the fourth course without admission being granted. This provides the University the necessary information to develop individualized program schedules for each student and provides an opportunity for an admission decision to be made early in the program.

Graduate Provisional (PV) Status

Students who meet all admission requirements in graduate programs except the minimum GPA requirement of 2.50 or 3.00 (see program specific admissions requirements) may be admitted on Provisional status if their entrance GPA is between 2.0 and 2.49 or 2.50 and 2.99 depending on the program of interest. Students admitted on provisional status must achieve a GPA of 3.0 in their University of Phoenix course work at the end of their fourth completed program applicable course to be unconditionally admitted and placed on Admitted status. Failure to meet the minimum grade point average (GPA) of 3.0 by the fourth completed program applicable course will result in a DA (Disqualified Admission) student academic status and a PD (Program Disqualification) program academic status. Students who are disqualified from their program are not eligible to reenter that program for a minimum of three years and are not eligible for readmission into an alternate program until the lapse of six months from the date of disqualification.

Registered (RR) Status

Students qualify for registered status upon completion of the application for admission and payment of the application fee (if applicable). Qualified degree-seeking students in the business, human services, management, education, counseling, computer information systems, psychology or nursing programs may attend a maximum of four courses under registered status. The University makes no guarantees of a favorable admission to students enrolled in course work under registered status.

Registered International Credentials (RI) Status

Students using copies of international academic credentials qualify for registered with international credentials status upon completion of the application for admission and payment of the application fee (if applicable). Students will not be granted unconditional admission using copies of international credentials until verification of the credentials or an original international academic record is received. Qualified degree-seeking students in the business, human services, management, education, counseling, computer information systems, psychology or nursing programs may attend a maximum of four courses under registered status. The University makes no guarantees of a favorable admission to students enrolled in course work under registered with international credentials status.
Orientation Pending (OP) Status
Undergraduate degree applicants with less than 24 credits of previous college credit/experience as listed on their admissions applications will be granted Orientation Pending (OP) admitted status after all admission documents have been received, and all admission requirements for the chosen program have been met. As a condition of admission, students on Orientation Pending (OP) admitted status must satisfactorily complete the University Orientation prior to gaining unconditional admission status.

Deferred Admission (DF) Status
Students will be granted deferred admission (DF) if documents or information required for admission (AM) are missing from the file. Students will remain on DF status until the required documents or information is received. Students on DF status cannot attend class and will be administratively withdrawn from the university until the status is resolved.

Conditional (CD) Status
Students who are high school seniors who have not yet graduated may be granted conditional status upon completion of the admission application and payment of any required fees. Scheduling for students is not permitted under this status, and upon completion of high school, students may apply for admission to a specific associate degree program.

Non-Degree (ND) Status
Individuals interested in taking coursework at the University, but not interested in pursuing a degree, may register as non-degree students. Non-degree students enrolling in single courses within a degree or certificate program must meet the admissions requirements for the respective college or school. An approved list of courses is available on www.phoenix.edu under Individual Courses.

Admission Deadline Exceeded (DE) Status
Students who are unable to attain admitted status by the completion of their fourth university course will be placed on Admission Deadline Exceeded (DE) status and be administratively withdrawn from the University.

Denied for Cause (DC) Status
Applicants who have violated a University policy or procedure or committed some other act which, if he or she were already a student, would subject him or her to sanctions for violating the Student Code of Conduct will be placed on denied for cause status (DC) and will be administratively withdrawn from the university.

Re-entry Required (RE) Status
Students who were previously admitted (AM, PV, IV, OP) into a program but have not posted positive attendance in a course for 365 days will be placed on Re-entry Required (RE) admission status. Students placed on Re-entry Required (RE) status will be required to re-enter the most current program/version in their state or jurisdiction and submit an admission application, enrollment agreement and any other documents as required by the new program.

Student Academic Statuses
The following statuses are applicable to students regardless of degree program they are pursuing.

Official decisions regarding your admissions and academic statuses may be delivered to you via your student website or US Mail.

Academic Disqualification
Academic Disqualification results when students on academic probation fail to achieve the minimum grade point average at the conclusion of the probationary period of four (4) consecutive courses. Students who have been Academically Disqualified will be administratively withdrawn from the university and are not eligible for readmission until the lapse of six months from the date of disqualification. The date of disqualification will be the course end date of the final course completed within the AP sequence. No exceptions to the 6 month disqualification will be granted by the Student Appeals Center (SAC). Upon the conclusion of the 6 month disqualification students can petition the Student Appeal Center to return. The student may be required to retake or replace the course(s) with the lowest grade(s) earned. Students on Academic Disqualification may not transfer to another degree program or major until they have fulfilled the requirements for reentry as determined by a SAC appeal. The University will note the date a student is placed on and removed from Academic Disqualification on the permanent transcript. The existing schedule will be deleted and scheduling will be restricted for students placed on Academic Disqualification.

Scholastic Disqualification
Each degree program may have specific Progression Requirements. Failure to meet those Progression Requirements will result in Scholastic Disqualification. For example, Scholastic Disqualification results when a student fails to earn a specified minimum grade in a required progression course. Students who have been Scholastically Disqualified will not be allowed to continue in their degree program until they have fulfilled the requirements for progression as determined by University policy. The University will note the date a student is placed on and removed from Scholastic Disqualification on the permanent transcript. The course that placed the student on Scholastic Disqualification, or its equivalent, may be scheduled, but all other scheduling will be restricted. Students that fail their second attempt of a course for progression in their degree program will be placed on Scholastic Suspension. Students may appeal to the Student Appeal Center to petition to have the Scholastic Suspension removed. The University will note the date a student is placed on and removed from Scholastic Suspension on the permanent transcript.

For details about the Progression Requirements in your degree program, you should carefully review your Program Handbook. If you have any questions about Progression Requirements or Scholastic Disqualification, you should talk to your Academic Representative or College Campus Chair.
NOTE: Students who have been placed on Scholastic Disqualification may not transfer to another degree program or major until they have fulfilled the requirements for progression unless otherwise determined by the Campus Director of Academic Affairs and the Dean of the College for the new program/version.

Expulsion (EX)
Expulsion occurs when a student is administratively withdrawn from the university and not allowed to return under any circumstances. The date of expulsion is noted on the official transcript, any courses on the existing student schedule are deleted and future scheduling is restricted.

Disqualified for Admission (DA) Academic Status
Disqualified for Admission or DA academic status results when students who are admitted provisionally fail to achieve the minimum grade point average (3.0 graduate) at the conclusion of the provisional period of four completed program applicable courses. Students who have been Disqualified for Admission (placed on DA academic status) will be administratively withdrawn from the university and are not eligible to re-enroll until the lapse of six months from the date of disqualification. Approval must be granted by the Student Appeals Center in order to re-enroll into any program with the University. Students placed on Disqualified for Admission (DA) status may not appeal to return before the end of the six month disqualification period. There will be no exceptions.

Students who have been Disqualified for Admission (placed on DA academic status) may not transfer to another degree program or major until they have fulfilled the six month disqualification period and have received approval through a student appeal.

Scholastic Suspension
Scholastic Suspension occurs when a student is suspended for a period of time or indefinitely from the University as determined by appropriate campus officials and/or Central Administration. The student will be administratively withdrawn from the university if placed on Scholastic Suspension. A student may be placed on Scholastic Suspension due to a violation of the Student Code of Conduct or for the failure to meet the minimum grade requirement after the second attempt of a course required for progression in their degree program. The University will note the permanent transcript with the date a student is placed on and removed from Scholastic Suspension. A student may appeal to the Student Appeals Center to have the Scholastic Suspension removed if it is based on progression requirements. A student may appeal to the Student Discipline Review Committee to have the Scholastic Suspension removed if it is based on a violation of the Student Code of Conduct.

Program Academic Statuses

Level 1 Candidate Status
Level 1 Candidate status is determined at the time of matriculation and is based on the admissions requirements for the desired program. Not all programs have a candidate status requirement.

1S: Level 1 Candidate Status Satisfied: Student has met the admissions requirements and has been admitted.
1N: Level 1 Candidate Status has not been satisfied: Student has not met the admissions requirements, has been denied admission, and therefore does not meet the requirements to achieve Level 1 Candidate Status. Students in a 1N Candidate Status should not attend class.

Level 2 Candidate Status
Level 2 Candidate status is a review of additional requirements needed for the student to progress in their program past a certain point, as designated in program policy.

2S: Level 2 Candidate Status Satisfied: Student has met the additional requirements by the specified deadline indicated in the program requirements.
2N: Level 2 Candidate Status Not Satisfied: Student has not met the additional requirements by the specified deadline indicated in the program requirements. A candidate status of 2N restricts the student from attending any future courses until the requirements are met and the student will be administratively withdrawn from the university.

Academic Probation
Academic Probation shall occur when a student’s grade point average falls below acceptable levels. Probation lasts for a period of four consecutive program applicable courses following the course whose grade caused the student’s GPA to fall below the minimum requirement for the program. Concurrent enrollment is prohibited during the four course AP sequence. Associate degree students enrolled at the Online Campus should continue traditional block scheduling format with concurrent enrollment in two courses (excluding AACR & AAPF). In graduate programs, the four course sequence excludes any undergraduate prerequisite courses. Financial Aid and VA students will continue to receive funds during the probationary period.

Program Disqualification
Effective for new enrollments March 1, 2009 and later-Students provisionally admitted (PV), who fail to meet the minimum requirement for admission (AM), will be placed on Program Disqualification (PD) program academic status and Disqualified Admission (DA) academic status. Students who are disqualified from their program are not eligible to reenter that program for a minimum of three years. Students disqualified for admission are not eligible for readmission into an alternate program until the lapse of six months from the date of disqualification.

Students may appeal to reenter into the program from which they were disqualified (PD) or any updated version of the program after a lapse of three years.

Student Falsification of Information
All students applying for admission to the University have the responsibility to submit a complete and accurate application package including all academic and professional credentials required. Submitting incomplete, false, or misleading information may be grounds for dismissal at any time.
General Student Grievances

The University has a responsibility to protect the rights of students and ensure compliance with its nondiscrimination policy by providing a process for those who desire to file a grievance against the University, including any claim of discrimination. Students who are alleging discrimination or harassment, please refer to the Nondiscrimination Policy section or Harassment Policy sections of this catalog.

Other grievances must be submitted in writing to ODM, which will determine the appropriate course of action or render a decision. Grievances relating to financial aid, account balances, or collections must be reviewed by campus management before being submitted to ODM. When such a grievance is received by ODM, the student will be provided guidance to file an appeal to be reviewed by the Financial Grievance Committee (FGC) for a final decision if it cannot be resolved informally.

Student Appeals Center (SAC)

The Student Appeals Center (SAC) is an avenue by which students may request exceptions to academic policy via an appeal. Upon receipt, a SAC appeal is routed to the appropriate decision maker; these individuals have the authority to make exceptions to University policy based upon a student's individual circumstances. Decisions are based upon maintaining the academic integrity of the institution. It is incumbent upon the student to provide their Academic Representative with an appeal letter and all relevant documents and statements of support. The Academic Representative will submit all of this information to SAC electronically.

State Boards

The University of Phoenix is regulated by a large number of state regulatory bodies across the country. The following is a list of those regulatory bodies, with contact information.

- In Alabama, the student may contact the Alabama Department of Postsecondary Education, PO Box 302130, Montgomery, AL 36130-2130; telephone (334) 242-2959.
- In Arizona, the student may contact the Arizona State Board for Private Postsecondary Education, 1400 W. Washington, Room 260, Phoenix, AZ 85007; telephone (602) 542-2399, website: www.azppse.gov.
- In Arkansas, the student may contact the Arkansas Department of Higher Education, 114 East Capitol, Little Rock, AR 72201-3818; telephone (501) 371-2065.
- In California, the student may contact the Bureau for Private Postsecondary Education, C/O Department of Consumer Affairs, PO Box 980818, W. Sacramento, CA 95798-0818; telephone (916) 431-6959, (888) 370-7589.
- In Colorado, the student may contact the Department of Higher Education, Commission on Higher Education, 1500 Broadway Road, Second Floor, Denver, CO 80203; telephone (303) 866-2723, (303) 866-4209.
- In Delaware, the student may contact the Delaware Department of Education, The Townsend Building, 401 Federal St., Suite 2, Dover, DE 19901-3639; telephone (302) 735-4000, 302-735-4120.
- In Florida, the student may contact the Commission for Independent Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400; telephone (850) 245-3200.
- In Georgia, the student may contact the Nonpublic Postsecondary Education Commission, 2082 East Exchange Place, Suite 220, Tucker, GA 30084; telephone (770) 414-3306.
- In Hawaii, the student may contact the Business Registration Division of the Hawaii Department of Commerce and Consumer Affairs, P.O. Box 40, Honolulu, HI 96810; telephone 808-586-2744.
- In Idaho, the student may contact the Idaho State Board of Education, P.O. Box 83720, Boise, ID 83720-0037; telephone (208) 332-1587.
- In Illinois, the student may contact the Illinois Board of Higher Education, 431 East Adams Street, Second Floor, Springfield, IL 62701-1418; telephone (217) 557-7355, website: www.ibhe.org.
- In Indiana, the student may contact the State of Indiana Commission on Proprietary Education (COPE), 302 W. Washington Street, Room E201, Indianapolis, IN 46204-2767; telephone (317) 464-4400, (317) 232-1324.
- In Iowa, the student may contact the Iowa College Student Aid Commission, 603 E. 12th Street, 5th Floor, Des Moines, IA 50319; telephone (515) 725-3400.
- In Kansas, the student may contact the Board of Regents, 1000 SW Jackson, Suite 520, Topeka, KS 66612-1368; telephone (785) 296-4976, 785-296-4917.
- In Kentucky, the student may contact the Kentucky Council on Postsecondary Education, 1024 Capital Center Drive, Suite 320, Frankfort, KY 40601-8204; telephone (502) 573-1555 ext. 350.
- In Louisiana, the student may contact the State of Louisiana Board of Regents, P.O. Box 3677, Baton Rouge, LA 70821; telephone (225) 342-4253.
- In Maine, the student may contact the Maine State Board of Education (MSBE), 23 State House Station, Augusta, ME 04333-0023; telephone (207) 642-6616.
- In Maryland, the student may contact the Maryland Higher Education Commission, 839 Bestgate Road, Suite 400, Annapolis, MD 21401-3013; telephone (800) 974-0203.
- In Massachusetts, the student may contact the Massachusetts Board of Higher Education, One Ashburton Place, Suite1401, Boston, MA 02108-1696; telephone (617) 994-6937.
- In Michigan, the student may contact the Michigan Department of Education, P.O. Box 30008 (or) 608 W. Allegan, Lansing, MI 48909; telephone (517) 373-9235.
- In Minnesota, the student may contact the Minnesota Office of Higher Education, 1450 Energy Park Drive, Suite 350, St. Paul, MN 55108; telephone (651) 259-3975, (800) 657-3866.
- In Mississippi, the student may contact the Mississippi Institutions of Higher Learning Commission Proprietary School and College Registration Mississippi Commission on College Accreditation, 3825 Ridgewood Road, Jackson, MS 39211; telephone (601) 432-6997.
- In Missouri, the student may contact the State of Missouri Coordinating Board for Higher Education, 205 Jefferson Street, Jefferson City, MO 65101; telephone (573) 751-2361.
- In Nebraska, the student may contact the Coordinating Commission for Postsecondary Education, P.O. Box 95005, Lincoln, NE 68509-5005; telephone (402) 471-0020, (402) 471-2847.
• In Nevada, the student may contact the Nevada Commission on Postsecondary Education, 3663 E. Sunset Road, Suite #202, Las Vegas, NV 89120; telephone (702) 486-7330.
• In New Jersey, the student may contact the New Jersey Commission on Higher Education, 20 W. State Street, PO Box 542 Trenton, NJ 08625-0542; telephone (609) 292-4310, (609) 984-2709.
• In New Mexico, the student may contact the New Mexico Higher Education Department, 2048 Galisteo Street, Santa Fe, NM 87505-2100; telephone (505) 962-4538.
• In North Carolina, the student may contact the Board of Governors of the University of North Carolina, General Administration, 910 Raleigh Road Chapel Hill, NC 27515-2688; telephone (919) 962-4538.
• In Ohio, the student may contact the Ohio Board of Regents, registration number 1154320, 30 E. Broad Street, 36th Floor, Columbus, OH 43215-3414; telephone (614) 466-6000.
• In Oklahoma, the student may contact the Oklahoma State Regents of Higher Education, 655 Research Parkway, Suite 200, Oklahoma City, OK 73104-3603; telephone (405) 225-9100, (405) 225-9142.
• In Oregon, the student may contact the Oregon Office of Degree Authorization, 1500 Valley River Dr. Suite 100, Eugene, OR 97401; telephone (541) 687-7478.
• In Pennsylvania, the student may contact the Pennsylvania Department of Education, 333 Market Street, Harrisburg, PA 17126-0333; telephone (717) 783-6785.
• In Puerto Rico, the student may contact the Consejo de Educacion Superior de Puerto Rico / Puerto Rico Council on Higher Education, PO Box 19900, San Juan, Puerto Rico 00910-1900; telephone (787)-724-7100 ext 2022 or ext 2016.
• In South Carolina, the student may contact the Nonpublic Postsecondary Institution Licensing, 1333 Main Street, Suite 200, Columbia, SC 29201; telephone (803) 737-2281.
• In Tennessee, the student may contact the Tennessee Higher Education Commission, Parkway Towers, Suite 1700, 404 James Robertson Pkwy, Nashville, Tennessee 37243-0830; telephone (615) 741-3605.
• In Texas, the student may contact the Texas Higher Education Coordinating Board, P.O. Box 12788, Capitol Station, Austin, TX 78712; telephone (512) 427-6520.
• In Utah, the student may contact the Utah System of Higher Education State Board of Regents, 60 South 400 West, Salt Lake City, UT 84101-1284; telephone (801) 321-7103.
• In Virginia, the student may contact the Commonwealth of Virginia
  • Council of Higher Education, James Monroe Building, 101 North Fourteenth Street, Richmond, VA 23219; telephone (804) 225-2600.
• In Washington, the student may contact the Washington Higher Education Coordinating Board, PO Box 43430, Olympia, WA 98504-3430; telephone (360) 753-7869, 360.753.7866.
• In Washington DC, the student may contact the Government of the District of Columbia Education Licensure Commission, 810 1st Street, NE, 2nd Fl., Washington, DC 20002; telephone (202) 727-2824.
• In West Virginia, the student may contact the West Virginia Higher Education Policy Commission, 1018 Kanawha Boulevard East, Suite 700, Charleston, West Virginia, 25301, telephone (304) 558-2101.
• In Wisconsin, the student may contact the Wisconsin Educational Approval Board, 201 W. Washington Ave., 3rd Floor, Madison, WI 53703; telephone (608) 266-1996, (608) 266-1996.
• In Wyoming, the student may contact the Wyoming Department of Education, Hathaway Bldg., 2Floor, 2300 Capitol Avenue, Cheyenne, WY 82002-0050; telephone (307) 777-5712.
You may obtain a copy of the University's accreditation and/or license documents, or information on how to contact any of the agencies that regulate the University, by contacting Apollo Legal Services at (602) 557-8119.

Grading Procedures

Formal grade reports are available through the student web site upon completion of each course. Grade reports indicate the course taken, credits received, and grade assigned. A student who has failed to make payment for tuition of a course will have the grade withheld until payment is made.
Faculty members are required to post final grades within seven days of completion of the course.
The University has established the following grading guidelines to be complied with by all faculty

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Grade</th>

</table>
Note: D- is the minimum passing grade for a University course; however, some University programs and courses require higher minimum grades (College of Arts and Sciences, Education, Nursing, Counseling). Minimum grade requirements are documented within policy for those specific programs. Students who receive a grade below the minimum passing grade established for a course will not earn quality points as the grade is considered a failing grade.

A = Outstanding achievement. Student demonstrates intellectual initiative in accomplishing course goals and objectives through high level of originality and creativity.

B = Very good work. Student performance meets designated course goals and objectives by demonstrating understanding of the course materials at an acceptable level.

C = Average work. Student performance demonstrates average comprehension and satisfactory achievement of the course goals and objectives.

D = Unacceptable work. Student performance demonstrates minimum acceptable performance in accomplishing course goals and objectives.

\*F = Failing. Student performance demonstrates unsatisfactory or below minimally acceptable achievement in accomplishing course goals and objectives.

Plus or minus grades indicate a high or low end grade that has been assigned.

\*I = INCOMPLETE

- Student granted extension to complete assignments. A student who receives an incomplete is given up to five (5) weeks, at the discretion of the faculty, from the scheduled course completion date to complete the course requirements and receive a grade. The student's final grade will be reduced by one full letter grade by the faculty member, regardless of the circumstances under which the Incomplete was granted. Students who do not complete any additional course requirements prior to the new deadline will be awarded the grade earned for the entire course, as though an incomplete grade had not been requested. Faculty members are required to produce completed Incomplete Grade Contracts as needed to enforce the new course completion deadline date.

- Incomplete grades shall be granted for active duty military personnel, regardless of component and including reserve and National Guard personnel who are deployed in operational war zones or in adjacent geographic areas in support of operational war zones. An "operational war zone" is, for purposes of this policy, defined as an area of operations where military personnel are engaged in active conflict or in post-conflict activities. If the student would like an opportunity to complete the course while deployed, an Incomplete "I" grade can be issued instead of a "W" grade. The "I" grade may be issued with an initial extension of six (6) weeks beyond the traditional five (5) week extension. The practice of requiring final grades to be lowered by one full letter grade as a result of the Incomplete "I" grade shall be waived for deployed students.

\*IP = IN PROGRESS

An IP grade may be awarded in the following instances:

- IP grade can only be awarded in qualified courses by the instructor and are allowed additional time to complete requirements.
- IP grade will default to a QC or F, depending on the course, if a letter grade is not posted by the instructor by the end of the IP timeframe.

- Faculty are not required to subtract one letter grade for IP grade awards.
- An IP grade is not calculated into the GPA.

\*IX = IN PROGRESS EXTENSION

An IX grade may be awarded in the following instances:

- This grade is only awarded to eligible students who require reasonable accommodations under American Disabilities Act (ADA).
- A new IX course completion date must be determined by the Disability Services Advisor and can range from 5 weeks to 15 weeks.
- Students who require reasonable accommodations will not be penalized one letter grade after completing the course to comply with an academic adjustment granted by the University in accordance with the ADA.
- IX grade will default to an F when the course exceeds its expiration date and no grade has been submitted.
- An IX grade is not calculated into the GPA.

\*QC = No grade awarded.

A QC is awarded in the following instances:

- This grade may be used for zero credit courses once the attendance requirement has been satisfied.
- A QC grade may automatically post for certain Doctoral and Counseling courses when the IP period expires and no formal grade has been submitted.
- A QC grade is not calculated into the GPA.

\*AU = AUDIT

- Students may register for and audit selected University courses upon campus approval and payment of an audit fee.
- Students who audit a course must meet the following conditions:
  - Students must obtain the campus Director of Academic Affairs approval to enroll in the course.
  - Auditing students are passive participants in the class and are not held accountable for Study Group Task/Team work nor for assignment submission unless otherwise negotiated with the faculty member.
  - Auditing students are governed by all University policies and procedures that apply to non-auditing students.

\*W = WITHDRAWAL

Student withdrew due to exceeding the maximum allowable absences from the course or has been administratively withdrawn by the university. A "W" grade will be issued in the following scenarios:

- The student recorded positive class attendance in at least one scheduled class and failed to meet the class attendance requirements due to exceeding the maximum allowable absences.
- The student recorded positive class attendance in at least one scheduled class and has been administratively withdrawn from the university and/or program during the course.
*WF = WITHDRAWAL/FAILING
Student withdrew from the course and the faculty member determined that the student was failing the course at the time of the withdrawal. The student attended at least one (1) night of a course and reaches the maximum allowable number of absences. Quality points are 0.00; the grade is not calculated in the GPA.
P = PASSING
Student satisfactorily completed the course.
NC = NO CREDIT
Student withdrew from the course; no grade was issued.
WC = WAIVED WITH CREDIT
University of Phoenix required course, waived with credit.
* In order for a student to move forward within a Student Financial Aid academic year and/or meet the standards for satisfactory academic progress, he or she must successfully complete the required credit hours within prescribed timelines. Courses completed with 0 credits and/or grades that are not calculated in the GPA will not qualify as successfully completed courses. Therefore, students receiving a F, W, WF, I, IP or QC as a final grade will be required to successfully complete additional courses to make up for credit deficiency(ies) within their academic year. A Student Financial Aid academic year consists of a minimum of 24 credits and 30 weeks.

Grade Reports and Transcripts

At the end of each course, the faculty member submits and posts grades for each student. Students can view their course information including grades, GPA, program information and scheduled course dates online at https://ecampus.phoenix.edu. Students who require grade verification must request an Official Grade Card or may print a grade summary from the student website. University of Phoenix students may also request a grade verification letter through University Services Support Center.

The student's official transcript is prepared by the Registrar's Office. The transcript will show the courses, grades, credits, and dates of instruction for each course. Credits awarded from the Prior Learning Assessment will be recorded on the transcripts as the credits are awarded and assessment fees are paid.

Only a summary of credits transferred by institution will be included on the transcript. If you need itemized information for these credits the student must contact the school where the credits were completed.

NOTE: Students may repeat courses. Only the grade and credit for the most recent repetition is used in calculating total hours earned and total cumulative grade-point averages. However, the original and repeated grades remain on the transcript bearing a symbol to show that a particular course has been repeated.

Transcripts will be released only to students who are in good financial standing with the University.

Transcript Request Forms are available at any University of Phoenix campus. Completed forms should be mailed to the Office of the Registrar, University of Phoenix, 4025 S Riverpoint Parkway CF-L201, Phoenix, AZ 85040. The Family Education Rights and Privacy Act of 1974 requires that all mail-in transcript requests be submitted in writing and be signed by the student.

Students may request official transcripts from the student website (https://ecampus.phoenix.edu) by selecting the Services menu and following the directions for requesting a transcript.

The University cannot release transcripts received from other institutions. Copies of these transcripts must be obtained from the original institution. All official transcripts submitted to University of Phoenix become the property of the University and will not be returned to the student.

All student academic records are retained, secured, and disposed of in accordance with local, state, and federal regulations. All student record information is maintained on the University computer system, paper and/or microfiche, microfilm, disc or electronic imaging system.

Grade Disputes and Grade Corrections

Students should raise concerns or questions about perceived assignment and course grading errors directly with faculty promptly after receiving feedback and grades. No one other than the faculty member teaching the course may determine assignment or course grades for a student. Students are not allowed to submit extra work to raise their grade. Students’ grades represent the work and knowledge level attained within the regularly scheduled course dates.

Grades on individual assignments may be changed by the faculty at anytime while the course is in session. Students’ grades may not be changed by the faculty member after final grades have been submitted unless the student initiates the grade dispute process or if the faculty member determines the original grade was improperly calculated.

Students disputing a grade received may contact their Academic Representative, who will assist the student with initiating a grade dispute. However, the decision regarding whether to change the grade rests solely with the faculty member. A grade dispute must be initiated within six (6) weeks of the grade posting date. Grade disputes are not appealable beyond the campus level.

Program Changes

Students wishing to change their program/version must enter into the most current program or version offered in their state or jurisdiction. Students must do this through consultation with their Academic Representative. Students changing into a new program must have documentation on file that meets all admission requirements for the new program being entered. Students who are changing programs to a new program that has employment/work experience/access to work environment requirements must submit a Program Change Addendum. Previously transferred or completed University of Phoenix coursework may not apply to the new program requirements due to differences in degree and content requirements for the new program being entered.

Diploma Application and Degree Conferal

Students must submit a Diploma Application in order for their degree to be conferred. Once students have completed all degree requirements, a Diploma/Certificate Application link will be posted on their student web site at https://ecampus.phoenix.edu under the Important Messages section. If for some reason the link does not appear, students may contact their Academic Representative for a paper copy of the Diploma Application. Once the Registrar’s Office receives the Diploma Application and the student has satisfied all financial obligations to the University, an official audit of the student’s record will be conducted. If all degree requirements have been met, the student will be degree conferred and a Diploma and degree posted transcript will be ordered and mailed to the student.
Posthumous Degrees
The University may present posthumous degrees to the executor of the estate (written authorization required) or immediate family members (notarized affidavit required) of deceased students who were actively enrolled and in good academic and financial standing in a University program at the time of their death. Immediate family members include: spouse, legally recognized domestic partner of the deceased, parents, legal guardians (court document required), children (over the age of 18), and siblings.

Degree Posting
Degrees are posted to students’ transcripts on a monthly basis. A student’s degree will be posted on his or her transcript with the last day of the month in which all degree requirements are completed. Degree requirements are considered to be met when all credit has been posted to the academic record. The student’s individual degree completion date is recorded on the transcript, indicating that all academic requirements for the degree were fulfilled on that date.

Diplomas are ordered bearing the date the degree was posted for all students who have completed degree requirements and who have paid all tuition and fees.

Students who are not eligible for graduation are notified by their Academic Representative of their degree deficiencies.

Graduation with Honors
Bachelor degree students who complete their degree program with a Program Grade Point Average of 3.85 or higher will graduate with Honors distinction. The Honors designation will appear on the University Diploma and permanent transcript.

Participation in Commencement Ceremony
Commencement ceremonies are held at each University campus. Students must also be in good academic and financial standing to be eligible for commencement participation. Associate students who have completed all but 6 credits required for their degree will be permitted to participate in the commencement ceremony. Undergraduate and Graduate students who have completed all but 9 credits required for their degree will be permitted to participate in the commencement ceremony. Doctoral students must satisfy all credit and non credit bearing degree requirements, including a completed dissertation approved by the Dean, prior to commencement eligibility. Certificate students should refer to their local campus for commencement eligibility.

All Bachelors level students who have met the University Honors requirements, and have been degree conferred, will be recognized at commencement ceremonies with the University gold honor cord. (Students must be degree conferred before the ceremony date.)

Program Completion Deadlines
Program completion deadlines have been established for all programs offered by the University and are applicable to all continuously enrolled students. Program completion deadlines are calculated based on the first date of positive recorded attendance in the first program applicable course and are listed below:

<table>
<thead>
<tr>
<th>Program</th>
<th>Years for Completion</th>
</tr>
</thead>
<tbody>
<tr>

Disclaimer on Job Placement
The purpose of the degree programs offered by the University of Phoenix is to extend the nature and range of careers available to its students by providing a quality education that integrates theory with practical application. However, the University cannot offer guarantees of job placement, advancement, or continued employment.
Academic Quality and Outcomes Assessment - Ensuring Consistent Quality

Over the last three decades, University of Phoenix has made significant investments in developing and maintaining systems to ensure academic quality. These systems enable the institution to measure and evaluate the University’s effectiveness in meeting its mission and purposes and to use the evidence to continuously improve students’ educational experiences and institutional processes.

The comprehensive nature of the academic quality systems and the data produced, provide the University with significant and meaningful input that is used to review and improve every aspect of the institution. Data gathered from course evaluations and student learning assessment are used in the curriculum development process, as well as in the creation of faculty development tools. Data gathered from the continuous evaluation of institutional processes and systems are used to streamline processes and to make administrative support systems more user-friendly, continuously building on the analysis of information gathered.

Academic Quality Improvement and Outcomes Assessment

Academic quality improvement is an integral part of the organizational culture at University of Phoenix. The University’s Academic Quality Management System (AQMS) is the mechanism used to ensure that the institution is meeting its mission and purposes through continuous assessments based on a comprehensive array of quality control and assurance instruments. One major component of this system is the assessment of student learning.

Assessment of Student Learning

The University’s search for the best ways to assessment student learning and the use of the resulting evidence to guide continuous quality improvement, led to the adoptions of an academic assessment process. The process is comprised of four ongoing and iterative steps. These include:

• Prepare annual assessment plan for academic programs
• Collect and analyze student learning data
• Implement improvements based on assessment results
• Monitor effectiveness of implemented improvements

The academic assessment process provides the means for governing and monitoring the educational experience of our students, and gathering evidence of student learning. The University’s academic assessment process includes an ongoing combination of cognitive measures, such as course embedded assignments, portfolios, and exams, and affective measures that gather information from students, alumni, and employers. The instruments and measures are designed to provide reliable evidence to support continuous improvement of academic programs.

Assessment of Students Educational Experiences and Institutional Processes

Another major component of the AQMS is the assessment of students’ educational experiences and institutional processes. A cadre of instruments and measures are used to monitor the day-to-day educational systems involving student, faculty, curricular, and administrative services.

By performing interim program diagnoses, evaluating faculty adherence to program standards and practices, and making small-scale resource decisions, information from the AQMS is used formatively for assessing quality and compliance.

AQMS Measures and Instruments

Beginning of Program Survey (BOPS)

During the registration process, students are asked to provide basic background information about themselves on the BOPS. Much of the information from the BOPS is used for analyzing outreach trends and for regulatory reporting. However, the BOPS also contributes to assessment in two important ways. First, it is used to obtain basic demographic information about students: age, gender, race/ethnicity, work experience, occupation, and income. Second, students are asked to provide information about their goals in attending the University by identifying their major academic and professional objectives.

Faculty Grading Practices

Accurate and fair evaluation of student academic performance is an important attribute of an effective educational program. Accordingly, measures of grade variance are reported by program. Grade variance for campus and individual faculty members are reported as elements of feedback for self-improvement and compliance with University standards of good practice.

End-of-Program Survey

Students finishing their degree programs complete an End-of-Program Survey. This survey asks graduating students to evaluate their overall University of Phoenix experience in areas such as quality of the education they received, skills and knowledge, and workplace application, as well as career advancement and progression. University officials use the information from this survey to enhance curriculum, instruction, student services, and overall university operations.

Longitudinal Research

Numerous special studies are undertaken to explore trends and issues of potential significance to academic decision-makers. These studies may include enrollment by campus by academic program, persistence and graduation rates by admission status (first-time; lower-and upper-division transfers), gender and race/ethnicity, class size by rating of faculty and educational effectiveness, etc. Emphasis is placed on examining the nature and extent to which students' educational needs and expectations are being met during the enrollment process, throughout their course work, when they graduate, and in their continuing professional development as alumni.

Additional Research Support

Special studies can be conducted on academic policy, program and organizational effectiveness, and marketing issues necessary to support institutional decision-making. Research support may take several forms, including: a) assistance in reviewing and evaluating externally conducted research, b) assistance with project planning and management for internally based research projects, c) assistance with interpretation of secondary databases, d) analysis and reporting on information contained in various institutional databases, and e) information for campus needs (e.g., marketing based on geographical analysis, etc).

Whether you are a recent graduate or a long-time University of Phoenix alumnus, the Alumni Association is an exclusive benefit of University of Phoenix. Join the association and benefit from this complimentary membership and the valuable services it offers to help transform your future.

Complete your profile today to by logging on to your alumni website at alumni.phoenix.edu. Begin connecting with the association and your classmates, and start exploring the benefits available to you:

**Career Resources**

- **Education 2 Career (E2C)** - This new job career portal connects alumni with leading companies that are actively looking to hire University of Phoenix graduates. E2C is an interactive site where alumni can upload resumes, interact with recruiters, get job alerts and more.

- **Alumni Career Center** - Alumni Career Center is powered by CareerBuilder, the largest career website in the United States. The career center is fully equipped with a wide variety of tools and resources that can help alumni market their skills to potential employers.

**Alumni Services**

- **Alumni Directory** - The Alumni Directory connects graduates of University of Phoenix in the same industries or geographical locations and builds a foundation that promotes communication and networking.

- **Mentor Program** - One person can make a huge difference in someone's career. Be the one. Be a mentor. The program connects students and alumni in the same field of study, industry or location. You can sign up to become a mentor today on the website.

- **Benefits & Savings** - University of Phoenix has partnered with numerous businesses to offer benefits and savings to alumni. Registered members of the Alumni Association can take advantage of the many businesses that offer special rates through the University Marketplace available through the Alumni Association website.

- **Scholarships** - University of Phoenix alumni have the opportunity to “pay forward” their education by nominating someone for the Paying it Forward® scholarship. Each year, 30 full-tuition Paying it Forward scholarships are awarded to individuals seeking to pursue a bachelor’s degree. The Alumni Association also awards thirty-six $3,000 University of Phoenix Alumni Scholarships each year to associate, bachelor’s, master’s or doctoral alumni who are currently enrolled in a subsequent degree program at University of Phoenix. Six full-tuition Forever a Phoenix® scholarships are also awarded each year to alumni who are not currently enrolled in a subsequent degree program to pursue a bachelor’s or master’s degree.

- **Get Connected** - When our network grows, so does yours. Start connecting and networking with fellow graduates by join the Alumni Association on Facebook, LinkedIn, and Twitter.

- **Homecoming** - The Alumni Association hosts more than 70 homecoming events across the country each fall. From sporting events, to exclusive receptions, homecoming offers something for everyone.

- **Phoenix Focus** - The University of Phoenix alumni electronic magazine helps you learn about fellow alumni who are making strides in their careers, and reports the latest on industry trends and career news. Do you have a success story to share? Drop us an email at alumni@phoenix.edu.

Admission Procedures

Application Process
Potential students applying for admission to the University’s undergraduate degree programs begin the admission process by submitting a complete and accurate application. An application which is later verified to contain incomplete, false or misleading information may be grounds for dismissal and administrative withdrawal. Once the application has been received by the University, applicants are responsible for ensuring the completion of their admission file. No applicant will be formally accepted for admission until their admission file is complete and officially evaluated. Formal written notice is provided by the central Office of Admissions & Evaluation upon formal acceptance.

The University will advise students which admission file documents are required in order to begin a program of study. Students may attend their first four courses under Registered status. Students, however, must submit all admission documentation and gain unconditional admission status prior to the start of their fifth course. Students failing to submit all documentation prior to the end of the required time frame will be administratively withdrawn until formally admitted by the central Office of Admissions & Evaluation. The University cannot guarantee that a student who begins course work under Registered status will be admitted to the degree program.

Undergraduate students who have served in the military service must submit their Army American Council on Education Registry Transcript System (AARTS) or Sailor/Marine American Council on Education Registry Transcript (SMART), Coast Guard Institute (CGI) or discharge papers (DD214) for review for potential transfer credits. This is a requirement if students will be applying for VA educational assistance.

Applications of individuals who have not gained admission to, or enrolled in the University, will be kept on file for one year. After that time, the applicant is required to submit a new application and materials for admission review.

Transcript Requests of Other Institutions
Because institutions vary in the time they take to respond to transcript requests, all transcripts should be requested immediately upon submission of an application. University staff will process all requests for transcripts on behalf of the student. However, it remains the student’s responsibility to ensure that all transcripts are submitted to the University. Students must sign a "Transcript Request Form" for each transcript being requested from educational institutions and national testing programs.

Official Transcript Time Limits
All official transcripts must show an issuance date not more than one year prior to receipt by the University. This is to ensure that all prior course work is reflected on the transcript. Official foreign records do not have the same time limit issuance requirements, as these documents may be difficult to obtain. This exception does not apply to Canada or U.S. territories.

Foreign Academic Records
Students applying to the University with foreign academic records or credentials may have additional requirements that must be met in order to enroll in courses or gain admission due to the differences in educational systems and document requirements.

All academic records from Afghanistan, Somalia or Turkmenistan must be evaluated by an external evaluation service approved by the University of Phoenix.

An applicant submitting academic records from Albania, Algeria, Andorra, Angola, Antigua, Argentina, Armenia, Aruba, Austria, Azerbaijan, Bahamas, Bahrain, Bangladesh, Barbados, Barbuda, Belarus, Belgium, Belize, Benin, Bermuda, Bhutan, Bolivia, Bosnia and Herzegovina, Botswana, Brazil, British Virgin Islands, Brunei, Brunei-Darussalam, Bulgaria, Burkina Faso, Burundi, Cambodia, Cameroon, Canada, Cape Verde, Cayman Islands, Central African Republic, Chad, Chile, China, Colombia, Congo, Democratic Republic of Congo, Costa Rica, Cote d’Ivoire, Croatia, Cuba, Cyprus, Czech Republic, Czechoslovakia, Democratic People’s Republic of Korea (North Korea), Denmark, Djibouti, Dominica, Dominican Republic, Ecuador, Egypt, El Salvador, Equatorial Guinea, Eritrea, Estonia, Ethiopia, Fiji, Finland, France, French Guiana, French Polynesia, Gabon, Gambia, Georgia, Germany, Ghana, Greece, Grenada, Guatemala, Guinea, Guyana, Haiti, Holy See, Honduras, Hungary, Iceland, India, Indonesia, Iran, Iraq, Ireland, Israel, Italy, Jamaica, Japan, Jordan, Kazakhstan, Kenya, Kuwait, Kyrgyzstan, Laos People’s Democratic Republic, Latvia, Lebanon, Lesotho, Liberia, Libya, Liechtenstein, Lithuania, Luxembourg, Macedonia, Madagascar, Malawi, Malaysia, Maldives, Mali, Mauritania, Mauritius, Mexico, Moldova, Monaco, Mongolia, Montenegro, Montserrat, Morocco, Mozambique, Myanmar, Namibia, Nepal, Netherlands, Netherland Antilles, New Caledonia, New Zealand, Nicaragua, Niger, Nigeria, Norway, Oman, Pakistan, Palau, Palestine, Panama, Papua New Guinea, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Russia, Russian Federation, Rwanda, Saint Barthelemy, Saint Kitts and Nevis, Saint Lucia, Saint Martin, Saudi Arabia, Scotland, Senegal, Serbia, Sierra Leone, Singapore, Slovenia, Solomon Islands, South Africa, South Korea, Spain, Sri Lanka, St. Vincent and The Grenadines, Sudan, Sweden, Switzerland, Syria, Tajikistan, Tanzania, Thailand, Togo, Tonga, Trinidad and Tobago, Tunisia, Turkey, Turks and Caicos Islands, Union of Socialist Republics (U.S.S.R.), Uganda, Ukraine, United Arab Emirates, Uruguay, Uzbekistan, Western Samoa, Venezuela, Vietnam, Yemen, Yugoslavia, Zambia or Zimbabwe may be evaluated internally by the central Office of Admissions and Evaluation or evaluated by an external evaluation service approved by the University of Phoenix. Internal evaluation practices utilized by the central Office of Admissions and Evaluation follow standards and practices defined by the National Association of Foreign Student Administrators (NAFSA) and the American Association of Collegiate Registrars and Admissions Officers (AACRAO). Certain programs that lead to certification may require students to have an evaluation performed by an external evaluation agency that is approved by both the University and the state in which the student seeks certification.
Students using foreign academic records to satisfy an admission requirement will not be eligible to attend classes prior to the University receiving a favorable evaluation from an approved credentials evaluation service or evaluation performed by the Central Office of Admissions & Evaluation. Original academic records or copies of academic records that have been verified as authentic by the issuing institution are required to be on file prior to a student gaining unconditional admission to the University. If the academic records are in another language, a certified English translation or translation performed by the central Office of Admissions and Evaluation (Spanish and French only) is required. The University will accept translations from the issuing institution or an official translation service.

Non–Native Speakers of English
An applicant who does not have appropriate English language experience in an academic environment will not be eligible to attend classes under Registered status. Official documentation with an appropriate score on the Test of English as a Foreign Language (TOEFL) Test of English for International Communication (TOEIC), International English Language Testing System (IELTS), Pearson Test of English Academic (PTE) or Berlitz Online English Proficiency Exam must be submitted with the admission file and admission granted before the applicant may begin the program.

Admission Appeal Process
Any undergraduate applicant who has been denied admission to the University has the right to appeal the decision to the Student Appeals Center. All appeals, including any evidence to be considered, must be submitted in writing to the Student Appeals Center. The written appeal may consist of a letter of explanation for academic deficiencies, lack of experience, and any other factors which might be of benefit when the Student Appeals Center conducts its review. It is incumbent upon the applicant to submit all relevant documents and statements of support attached to the appeal letter to the Student Appeals Center. The Student Appeals Center will carefully review all materials submitted and notify the applicant in writing of its decision within ten working days.

Undergraduate Admission Requirements

Most undergraduate programs have additional admission requirements listed within the program specific information. All applicants are expected to meet the following admission requirements:

- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet one of the following exceptions in order to meet the English Language Proficiency Requirement:
  - Achieved a minimum score of 213 on the computer-based test (CBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  - Achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  - Achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.

- Achieved a minimum score of 75 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam within two years of application to the University.

- Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.

- Achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.

The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:

- The applicant has successfully completed thirty (30) transferable, academic semester credits at a regionally or nationally accredited college or university in the United States.

- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.

- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.

- The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.

- The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.

- The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.

Applicants who reside in the United States must meet one of the following requirements:

- Be a legal resident of the United States
- Have been granted permanent residency
- Have a valid visa that does not prohibit educational studies
- Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
- Have been granted asylum along with copy of passport and I-94 bearing the stamp indicating the issue and expiration dates of the Asylee status.

Applicants who reside in Canada must meet one of the following requirements:

- Be a legal resident of Canada
- Be a landed immigrant
- Have a valid visa that does not prohibit educational studies
- A completed and signed undergraduate application
University Orientation Workshops

Students, who list less than 24 previous college credits as recognized by the University on the admissions application, are required to successfully complete a University Orientation Workshop (UNIV 100 or UNIV 101) to be officially admitted (AM).

Students who list less than 24 previous college credits as recognized by the University on the admissions application, are required to complete a University Orientation Workshop (UNIV 100 for Online or UNIV 101 for local campus).

Students will be granted Orientation Pending (OP) admitted status once all admission documents have been received, the admission file has been reviewed and all admission requirements for the chosen program have been met. Upon successful completion of the Orientation and evaluation of all transfer credits, students on OP status will be updated and the admission status will be updated to Admitted (AM).

Attendance and participation in the Orientation is required. To successfully complete the Orientation and receive an Orientation Complete (OC), students must attend all three weeks and submit all assignments by the Orientation end date.

Students who do not successfully complete the Orientation will receive an Orientation Not Complete (ON) and will remain on Orientation Pending (OP) admission status. Students will be allowed two attempts to successfully complete the Orientation. After a second unsuccessful attempt, participants are required to sit out for a period of six months after the last posted attendance in the second attempt.

Orientation Extended (OX) status is only awarded to eligible students who require special accommodations. The OX status provides students with an additional 3-9 weeks to complete the Orientation Workshop. If a student does not fulfill the Orientation Workshop requirements at the end of the extension period, the OX status will default to Orientation Not Complete (ON) status. Students may request additional extensions.

The Orientation must be successfully completed prior to enrollment in a credit-bearing degree applicable course.

Students, who list more than 24 previous college credits as recognized by the University on the admissions application, are not required to complete a University Orientation Workshop.

Re-entry students who were previously admitted to the University are not required to complete the Orientation upon re-entry to the University.

The following First-Year Sequence is applicable to students starting on or after February 1, 2010. Students who begin courses prior to February 1, 2010 will not be required to complete the First-Year Sequence.

All students entering undergraduate degree programs (other than LVN/BSN, LPN/BSN, BSN, BSLS, and BSED/E) who have fewer than 24 previous college credits as recognized by the university on the admissions application are required to complete the following First-Year Sequence:

Courses requiring prerequisites are identified by a ~ symbol following the course number.

### Foundations of University Studies

The essential information, skills, tools, and techniques necessary for academic success and personal effectiveness at the University of Phoenix are introduced in this course. The course develops and applies practical knowledge and skills immediately relevant to first-year university students. Course topics include goal setting and working with personal motivation, understanding and using University resources, developing efficient study habits, making the most of personal learning styles, and how best to manage time and reduce personal stress levels.

- **SCI 163** 3 credits

### Elements of Health and Wellness

This course reinforces the concept that learning effectively and living well involves both the mind and body. It presents the fundamentals of wellness and preventive health including strategic planning to attain and maintain personal optimal health. In addition, physical and mental diseases are discussed along with the dangers of environmental pollution, stress, addiction, and other negative factors that can affect personal health.
FP 120 ................................................................. 3 credits

**Essentials of Personal Finance**

This course provides an overview of the elements necessary for effective personal financial planning and the opportunity to apply the techniques and strategies essential to this understanding. Primary areas of study include creating and managing a personal budget, understanding and paying taxes, working with financial institutions, wise use of credit cards and consumer loans, financing automobiles and homes, and the use of insurance for protecting one’s family and property.

COM 170 ................................................................. 3 credits

**Elements of University Composition and Communication I**

This course addresses the key elements necessary for effective academic writing in college. The course begins with focus on pre-writing strategies and builds to drafting and revising essays. In addition, the course includes skill development at the sentence and paragraph level.

COM 172 ................................................................. 3 credits

**Elements of University Composition and Communication II**

This course builds upon the foundations established in Com155. It addresses the various rhetorical modes necessary for effective college essays: narration, illustration, description, process analysis, classification, definition, comparison and contrast, cause and effect, and argumentation. In addition, requirements for research essays, including the use of outside sources and appropriate formatting, are considered.

PSY 211 ................................................................. 3 credits

**Essentials of Psychology**

This course overviews the foundations of psychology as the field applies to everyday life. The physical and mental aspects of psychology are traced through lifespan development with emphasis on psychological health and wellness. Further study focuses on personality; thinking, learning and memory; motivation and emotions; and gender and sexuality. Based in various historical traditions, the course is set in the context of contemporary psychological principles.

HUM 114 ................................................................. 3 credits

**Critical Thinking and Creative Problem Solving**

This course focuses on developing the critical and creative thinking skills necessary to analyze and solve problems, make decisions, implement strategies, and formulate well supported points of view on key academic, social, and professional issues. The principles of creative thinking are essential to critical thinking skills. Students will learn how to evaluate their ideas and how to communicate their points of view persuasively.

HUM 186 ................................................................. 3 credits

**Media and American Culture**

The course provides an introduction to the most prominent forms of media that influence and impact social, business, political, and popular culture in contemporary America. It explores the unique aspects of each medium as well as interactions across various media that combine to create rich environments for information sharing, entertainment, business, and social interaction in the U.S. and around the world.

Academic Progression
Students entering the University bachelor degree programs (other than AAEE, LVN/BSN, LPN/BSN, BSN, BSLS, and BSLED/E) with fewer than 24 previous college credits as recognized by the university on the admissions application are required to complete the First-Year Sequence. To enroll in the required course of study students must have a minimum of 24 credits. Students who have 24 credits may take select courses in the business foundation. Students must have 60 credits to enroll in the major.

As an alternative, enrollment into major course work also extends to students who have completed 45 credits, of which 21 credits were earned at the University.

Math and English Prerequisites
In line with the mission of the University’s General Education program to ensure that students have reached baseline levels in basic skills before entering into the professional programs, students must satisfy prerequisites in the areas of math and English. Math and English prerequisites may be satisfied in one of the following ways:

• Successful completion of University of Phoenix math and English courses
• Transfer credit may be used by students who have achieved a C- or better in a comparable course of at least 2.67 semester credits completed at a regionally or approved nationally accredited institution. Transfer courses used to fulfill math and English prerequisites must be eligible to receive general education credit.
• Achieve a passing score on the College Mathematics CLEP exam and/or a passing score on the College Composition CLEP exam.

Students in the state of Florida who have passed the CLAST exam will have satisfied math and English prerequisites.

All students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English prerequisites.

Waivers
The University defines a waiver as the substitution of a required course at the University with a course of the same level listed on an official transcript from another institution. Students may find specific course waiver information after the applicable required course was completed. An official catalog course description must accompany the request. The official transcript from the institution where the course was completed must also be submitted, unless it has previously been submitted to the University as part of the application process.

Degree Requirements
Students must complete the minimum number of upper and/or lower division credits that make up the required course of study. Completion of the Comprehensive General Education Program, including a minimum number of credits distributed among Liberal Arts and Interdisciplinary components is also required. Degree requirements may vary by program and may be found after each required course of study.
Degree Completion Options

Bachelor degree seeking students who have successfully completed the required course of study and need additional academic work in order to fulfill the minimum number of credits required for graduation may choose the following options:

- Complete additional upper or lower division elective courses offered by the University of Phoenix;
- Complete approved CLEP, Excelsior, or DANTES examinations;
- Participate in the Prior Learning Assessment process as described in this catalog; or
- Complete approved courses at other regionally or nationally accredited associate degree granting candidates for accreditation college or university.

Students who need additional academic credits to graduate should contact an Academic representative to ensure that there is no duplication or regression of previously completed course work.

General Education

In its commitment to help working adults achieve their professional and personal goals, the University of Phoenix endorses the role of general education in ensuring student success in the classroom, the workplace, and the community. The general education curriculum, which is developed through the College of Arts and Sciences, provides instruction that focuses on skills in communication, critical thinking, and computation, and fosters a philosophical orientation that enables students to function as productive members of society. The University’s general education program embraces four goals:

- To refine students’ abilities to apply problem-solving skills in many settings and contexts.
- To promote students’ active awareness of their relationships to the natural, social, and cultural environments.
- To develop students’ appreciation for and commitment to lifelong learning.
- To prepare students with competencies needed to fully benefit from and successfully complete their professional programs of study.

Undergraduate general education requirements emphasize the mastery of competencies within the respective frameworks of mathematics and physical sciences, life sciences, technology, communication arts, social sciences, and humanities. Students are required to demonstrate proficiency in written and oral communications, in the handling and use of quantitative information, and the application of analytic and synthetic-creative thinking skills. This background provides students with the perspectives needed for meaningful self-examination of personal and social values, as well as enhanced ability to understand and cope with social, technological, and cultural change.

If elective curriculum is being taken to satisfy graduation requirements, the courses being taken cannot duplicate credits earned in the required course of study, credits earned at other institutions, credits earned through national testing programs, or credits awarded through Prior Learning Assessment.

Liberal Arts Components

The liberal arts component of the General Education Program is comprised of traditional liberal arts categories. The number of credits required in each category varies by program and may be found after each program. The purpose of this component is to ensure that students are exposed to a breadth of traditional liberal arts essential to a baccalaureate experience, and is distributed as follows:

- **Communication Arts**, credit requirements vary by program
  - Course work in the Communication Arts primarily focuses on the development and application of writing, speaking, group process, and interpersonal communication skills.

- **English/Language Arts**, credit requirements vary by program
  - Course work in the English/Language Arts primarily focuses on the development and application of writing, speaking, group process, and interpersonal communication skills.

- **Mathematics**, credit requirements vary by program
  - Course work in the mathematics area develops quantitative and analytical skills in the fields of mathematics and advanced logic. The area does not include courses in which mathematics is merely an applied component (such as finance and accounting), nor does it include mathematics foundation courses below the level of college algebra.

- **Social Sciences**, credit requirements vary by program
  - Course work in the social science promotes understanding of human behavior as well as the structure and dynamics of social systems. Emphasis is on the discovery of patterns in social processes and institutions, both past and present. Courses in anthropology, sociology, ethnic and gender studies, geography, political science, psychology, history, and certain communications courses focusing on mass media and society typically satisfy these requirements.

- **Social Studies**, credit requirements vary by program
  - Course work in the social studies promotes understanding of human behavior as well as the structure and dynamics of social systems. Emphasis is on the discovery of patterns in social processes and institutions, both past and present. Courses in anthropology, sociology, ethnic and gender studies, geography, political science, psychology, history, and certain communications courses focusing on mass media and society typically satisfy these requirements.

- **Humanities**, credit requirements vary by program
  - Course work in the humanities focuses on the development of ideas and values, appreciation of cultural and artistic achievements, and the evaluation of human experience. Courses in general humanities, philosophy, literature, fine arts, music, theater, and religious studies normally satisfy requirements in this area. Certain courses in political science and intellectual history emphasizing the development of cultural thought processes may also satisfy humanities requirements.

- **Fine Arts**, credit requirements vary by program
  - Course work in the fine arts focuses on the development of ideas and values, appreciation of cultural and artistic achievements, and the evaluation of human experience. Courses in general humanities, philosophy, literature, fine arts, music, theater, and religious studies normally satisfy requirements in this area. Certain courses in political science and intellectual history emphasizing the development of cultural thought processes may also satisfy humanities requirements.
Science/Technology, credit requirements vary by program
Course work in the sciences provides students with an understanding of nature and the physical world, along with knowledge of the methods scientists use to study the world around them. Courses in astronomy, biology, chemistry, physics, anatomy and physiology, geology, and environmental science typically satisfy requirements in this area. All students must complete a minimum of three credits in the physical/biological sciences as part of the six credit Science/Technology requirement. Certain courses in geography or aerospace studies which emphasize the earth’s physical characteristics, weather, and climate are included in the science category, along with highly specialized course work in the social sciences such as physical anthropology, archaeological field methods, and psychology courses which focus on human physiological processes.

Technology refers to the application of scientific knowledge in making and using tools to enhance materials culture. Course work in the area of technology which satisfies general education requirements includes engineering, materials science, electronics courses that emphasize theory and design, and computer science courses that focus on programming languages and hardware/software engineering. Courses which focus primarily on the social and environmental conflicts which arise over the uses of technology usually satisfy requirements in the social sciences and humanities.

Additional Liberal Arts, credit requirements vary by program
Students will pursue more depth in the liberal arts by selecting two different courses in any of the liberal arts categories listed above.

Interdisciplinary Component
Interdisciplinary, credit requirements vary by program
To fulfill this requirement, students may select additional general education courses, or they may select from any University courses other than those in their major field. The intent of this requirement is to further increase students’ exposure to the liberal arts and to facilitate their exposure to field of study beyond the necessarily narrow scope of their professional interest. Students are encouraged to explore diverse content areas to add depth to their academic and professional knowledge base.

Professional Development Component
Professional Development, 3 credits
GEN 300, Skills for Professional Development, is required as the first course for all undergraduate students. It is part of the required course of study. This course focuses on the knowledge and skills necessary for a returning adult student to be successful. It also introduces students to the theories of adult learning that underlie their professional programs. Note: This requirement can also be filled with GEN 101 for ICS students. ICS students will be required to complete other upper division elective or business credits in the BSB program to satisfy degree requirements. The upper division credit must be business-related for Bachelor of Science in Business students.

Integrating Component
Integrating, 3 credits
GEN 480, This is the capstone course for business, health and human services, and information technology undergraduate students. The course provides students with the opportunity to integrate and apply learning from their professional programs of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.
BUS 475, The integrated business topics course examines strategic business management while integrating topics from previously completed business foundation coursework. This allows students to demonstrate a comprehensive understanding of the undergraduate business curricula with a significant emphasis placed on the assessment of individual outcomes to determine content mastery. In addition to the 54 credits in this prescribed General Education program, each major course of study at the University of Phoenix’s includes courses that integrate general education principles. The University of Phoenix’s educational philosophy is based on the integration of theory and practice. Within that philosophical framework, a number of the courses required for the professional programs have a strong general education component.

Prior Learning Assessment
Prior Learning Assessment is a process that may save students time and money in completing a degree program. The Prior Learning Assessment process determines if learning received outside of the traditional university classroom is comparable to academic curriculum and eligible for college credit. Learning that is eligible for assessment includes: Professional Training, Licenses, course work at non-transferable institutions, and Experiential Learning Essays. Prior Learning Assessment applies only to Associate or Undergraduate degree programs. Any credit awards by assessment are limited to elective or general education requirements.

Corporate articulation provides an opportunity for students to earn up to 30 undergraduate semester credits (unless otherwise prescribed by state statutes on non-traditional credit limitations) for professional training obtained through their employer(s). Corporate training is assessed for academic equivalency to college level classroom learning. The recognition of corporate training is a concept based on accepted principles of adult learning and serves to validate the professional competence and learning experience achieved by students outside of a traditional college classroom. Credit awards are applied to associate or bachelor elective or general education areas within degree programs.

Prior Learning Credit
A maximum of 30 Prior Learning credits may be earned as a result of professional training (workshops, seminars, licenses, business and professional courses, and other institutionally-sponsored course work).
The University may award up to 30 undergraduate semester credits for verified college-level learning gained through experience, and submitted in the form of experiential course writing referred to as Experiential Learning Essay. No student may earn more than 60 credits from any combination of experiential learning, national testing, credit by exam, and professional course work and training. Some states may have restrictive state regulations. Students should check with their Academic Advisor.
Faculty Assessment Evaluations
Portfolio evaluations are performed in accordance with the policies of the University, individual state regulatory requirements, the standards of the Council for Adult and Experiential Learning, and the Council for Higher Education Association.

The University maintains a centralized Prior Learning Assessment team within University Services which directs evaluations and controls for the assessment of prior learning for credit.

Prior Learning Assessment Submission and Posting & Fees
Charges arising out of services and the posting of credit awarded for prior learning are separate and apart from tuition and curriculum fees.

When materials are complete, they are sent to Prior Learning Assessment in Phoenix and a non-refundable application fee is required and collected. The evaluation and posting fees apply to credit awarded through Prior Learning Assessment:

Student portfolios are subject to fees related to evaluation and assessment of all portfolio inclusions. The fees may vary depending upon number of items reviewed. Fee structure and information may be viewed at: http://www.phoenix.edu/admissions/prior_learning_assessment_center/prior_learning_assessment_center.aspx.

Transcription of Prior Learning Assessment Credits
Credits awarded are posted to student transcripts by Prior Learning Assessment. Since these credits are a permanent part of a student's academic record, fees are non-refundable.

Privacy of Portfolio
The University considers all Prior Experiential Learning course writing and Professional Training Portfolios to be confidential. For this reason, access to portfolio submissions is limited to members of the University’s assessment and administrative staff, faculty evaluators, and members of accreditation evaluating teams. However, students may sign a release form which allows the University to use portions of the portfolio material in professional training workshops for counselors and faculty members, and as classroom examples.

Standardized Credit Recommendations
Credits awarded through the assessment process are applicable to University of Phoenix degrees, and may be transferable subject to the receiving institution’s discretion.

Credit awards are applied to Associate or Bachelor elective or general education areas within degree programs. Student degree program admission is required (all other transfer credit applied in the program) prior to portfolio submission.

Estimated Program Length
To determine the number of months it takes to complete the program as designed, add all the credit hours in a given program, divide the result by 24 credit hours and then multiply the result by the number of months in the academic year for the degree (Associates = 9 months in an academic year, Bachelors = 10 months in an academic year, Masters/Doctoral = 12 months in an academic year, Undergraduate Certificate = 10 months in an academic year and Graduate Certificate = 12 months in an academic year). Example: Associate program is 60 credits. Divide 60 credit hours by 24 credit hours (60/24 = 2.5). Then multiply the result by the number of months in the academic year for the degree (2.5 x 9 months = 22.5 months).
The following Associate of Arts/Concentration in General Studies (AAGS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts degree in General Studies provides a solid foundation in liberal arts and sciences based on a survey of mathematics, physical and life sciences, humanities, social science and technology. Students will apply effective communication skills, as directed, for informal, formal, and quantitative tasks and will be conversant with the values and terminology of a variety of academic disciplines. They will be able to access information resources, evaluate them for credibility and relevance, and use the sources to present a wide range of alternatives.

**Note: Students enrolled in this degree program are ineligible to receive Federal Student Financial Aid.**

**General Education Requirements for the AAGS**

Communication Arts Requirement 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)

Mathematics Requirement 6 credits

Science & Technology Requirement 6 credits
(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)

Social Science Requirement 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)

Humanities Requirement 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)

Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 105)
(B Track must include: LIS 101)

Interdisciplinary Requirement 27 credits
(B Track must include: FP 101)

Concentration 18 credits

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
Additional Admission Requirements for AAGS

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

Degree Requirements for the AAGS

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D-" or higher.
- A minimum program grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study with the exception of the electives will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAGS

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General Education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
- All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study with the exception of the electives will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAGS

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of "C" (2.0) or better (five years for information technology courses).
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAGS

COM 150 ................................................................. 3 credits

Effective Essay Writing

In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.
COM 220 ................................................................. 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.
ETH 125 ................................................................. 3 credits
Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.
CRT 205 ................................................................. 3 credits
Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media—including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.
GEN 105 ................................................................. 3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today's society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

Associate of Arts/Concentration in Communications

The following Associate of Arts/Concentration in Communications (AACOM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts Degree in Communications focuses on the growth and convergence of major venues of telecommunication, the role of media in a democratic society, and standards of social responsibility within the culture of journalism. Courses include win-win communication processes, problem-solving information strategies, an extensive review of information sources, and news presentation for print, web, and broadcast delivery. Students review and assess pivotal influences on the development of mass media and speculate upon their future evolution. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aacom.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Concentration in Communications - Track A and B
XCOM 100 ~ ................................................................. 3 credits
Introduction to Communications
XCOM 200 ~ ................................................................. 3 credits
Fundamentals of Interpersonal Communication
XCOM 225 ~ ................................................................. 3 credits
Mass Communication
IT 235 ~ ................................................................. 3 credits
Image Editing and Implementation
CMC 260 ~ ................................................................. 3 credits
Communication Variety: The Spice of Life
CMC 240 ~ ................................................................. 3 credits
Information Strategies: Putting 2 & 2 Together
The University reserves the right to modify the required course of study.

Additional Admission Requirements for AACOM
• Applicants must be at least 16 years of age at the time of application.
• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AACOM
Communication Arts Requirement 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)
Mathematics Requirement 6 credits
(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)
Science & Technology Requirement 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)
Humanities Requirement 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)
Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 105)
(B Track must include: US 101)
Interdisciplinary Requirement 9 credits
(B Track must include: FP 101)
Concentration 18 credits
Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total

Degree Requirements for AACOM
The degree requirements for this program are the following:
• Completion of a minimum of 60 credits.
• All undergraduate students are required to complete the minimum general education credits required by their program version.
Students who lack 67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of “D” or higher.

A minimum grade point average (GPA) of 2.0.

Credits applied to the Required Course of Study with the exception of the electives will only be applied to the core and cannot count toward General Education totals.

The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

**Academic Progression Requirements for the AACOM**

All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.

US 101 will be required as the first course in the first block of the First-Year Sequence.

HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, unless concentration courses.

With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
- National Testing Programs, and
- ACE evaluated Military credits.

The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.

All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.

Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

Credits applied to the Required Course of Study with the exception of the electives will only be applied to the concentration and cannot count toward General Education totals.

**Residency Requirements for the AACOM**

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

**Course Descriptions for the AACOM**

XCOM 100.................................................................3 credits

**Introduction to Communication**

This course is an introduction to the field of communication with emphasis on the history of communication study, theories important to all areas of communication, the contexts in which communication occurs, and the issues that must be faced by students of communication. The course serves as an introduction to the strands of communication: interpersonal, small groups and teams, mass communication, organizational, intercultural, and rhetoric.

XCOM 200.................................................................3 credits

**Foundations of Interpersonal Communication**

This course includes the application of communication principles, theory, and research to the process of interpersonal communication; includes verbal, nonverbal, listening, conflict management, and communication skills most relevant to a broad range of interpersonal settings.

XCOM 225.................................................................3 credits

**Foundations of Mass Communications**

This course is a survey of the basic theories upon which our scientific understanding of mass communication is based. Ethical and related problems of mass communication will be studied from contemporary and historical viewpoints, as well as a critical analysis of the performance of the mass media.
Image Editing and Implementation

Design elements such as basic composition, style, use of color, textures, graphic manipulation, photographic re-touching and text/font design are introduced. File formats and packaging for export are covered in this class. Concepts such as pre-press production and printing are introduced. Imaging program, Adobe Photoshop® Elements 3.0 is required for this class.

CMC 260 ................................................................. 3 credits

Communication Variety: The Spice of Life

The field of communications underlies virtually every aspect of today’s increasing global interdependence. This course addresses how customs, values, and societal systems generate expectations—often tacit—about how communication should occur, and problems—often misunderstood—about how communication is occurring. Students develop greater sensitivity to intercultural and intracultural differences to foster effective information exchange and develop mutually satisfying communication solutions.

CMC 240 ................................................................. 3 credits

Information Strategies: Putting 2 and 2 Together

This course addresses effective communication strategies via the gathering, analysis, evaluation, and synthesis that comprise information literacy as a standard of modern problem solving. Students recognize the need for information, formulate meaningful questions to guide their search, access what is cogent, interpret bias, and integrate material for a compelling presentation. Furthermore, they perform these tasks with a regard for social responsibility and professional ethics.

COM 150 .................................................................. 3 credits

Effective Essay Writing

In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 .................................................................. 3 credits

Research Writing

Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 .................................................................. 3 credits

Cultural Diversity

This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 .................................................................. 3 credits

Critical Thinking

In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media—including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 .................................................................. 3 credits

Skills for Learning in an Information Age

This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

Bachelor of Science in Communication

The following Bachelor of Science in Communication (BS/COM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Communication (BS/COM) degree program is designed to develop knowledge and skills for effective communication in a variety of public and private work environments. The program was created specifically to build upon personal and professional communication experiences. The BS/COM degree enhances the communication skills necessary for the development of professional competence and values; critical thinking and problem solving; information utilization; and collaboration. The curriculum focuses on the development of core communication competencies. It emphasizes theory and application in the domains of interpersonal, small group, organizational, and mass communication. Specific areas of focus include business communication, diversity, intercultural communication, conflict resolution, legal and ethical issues, media and culture, and future trends in communication technology.

BS/COM Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number.

GEN 300 .................................................................. 3 credits

Skills for Professional Development

COM 100 ~ ................................................................. 3 credits

Introduction to Communication

COM 200 ~ ................................................................. 3 credits

Foundations of Interpersonal Communication

COM 225 ~ ................................................................. 3 credits

Foundations of Mass Communication
Concentration in Communication and Technology

The concentration in Communication and Technology focuses on the enhancement of communication through technology and offers the student an opportunity to explore creative communication solutions through Web sites, electronic publishing, image editing and multimedia development.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bs-com-ct.

VCT 235 ~ ............................................................................... 3 credits
Image Editing & Implementation
VCT 310 ~ ............................................................................... 3 credits
Web Design
VCT 320 ~ ............................................................................... 3 credits
Electronic Publishing
VCT 420 ~ ............................................................................... 3 credits
Multimedia Development

Concentration in Culture and Communication

The concentration in Culture and Communication is designed to prepare students with a well-rounded view of diversity in American society. Students will focus on the experiences of people from different cultures and how communication differs by race and gender. In addition, students will gain a global perspective on race, ethnicity, and class in the United States. Students will compare cultural topics such as Asian American, African American, Hispanic American, gender, and their differences.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bs-com-cc.

COM 403 ~ ............................................................................... 3 credits
Contemporary Communication in a Diverse Society

The University reserves the right to modify the required course of study. Please note that within each state, concentration availability may vary by campus location.

Additional Admission Requirements for the BS/COM

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

Degree Completion Requirements for the BS/COM

• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 42 upper division credits.
  • All students must meet the General Education areas approved by the university.
  • A minimum grade point average (GPA) of 2.0.
  • All students must complete the minimum number of credits required by their degree program.
  • All undergraduate students are required to complete the minimum general education credits required by their program version.
• The diploma awarded for this program will read as: Bachelor of Science in Communication and will not reflect the concentrations. The Concentrations are reflected on the transcript only.

General Education Requirements for the BS/COM
A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Humanities, 6 credits
Mathematics, 6 credits
Social Sciences, 6 credits
Science/Technology, 6 credits
Must include at least 3 credits in the physical or biological sciences

Additional Liberal Arts, 6 credits
Interdisciplinary Component, 18 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for BS/COM
All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:

• First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
• GEN 195 will be required as the first course in the First-Year Sequence.
• HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
• With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  • University of Phoenix coursework,
  • Regionally or nationally accredited coursework (C- or higher grade),
  • University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  • National Testing Programs, and
  • ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
• Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.

• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 213)
• Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
• Students may not complete any of the First-Year Sequence courses via Directed Study.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others. All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for BS/COM
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix

Students in this program may waive a maximum of 27 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
• The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing. The following courses in the required course of study may not be waived: GEN 200, GEN 300, COM 480

**Course Descriptions for the BS/COM**

**Skills for Professional Development**

This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

COM 100 ..................................................................................3 credits

**Introduction to Communication**

This course is an introduction to the field of communication with emphasis on the history of communication study, theories important to all areas of communication, the contexts in which communication occurs, and the issues that must be faced by students of communication. The course serves as an introduction to the strands of communication: interpersonal, small groups and teams, mass communication, organization, intercultural, and rhetoric.

COM 200 ..................................................................................3 credits

**Foundations of Interpersonal Communication**

This course includes the application of communication principles, theory, and research to the process of interpersonal communication; includes verbal, nonverbal, listening, conflict management, and communication skills most relevant to a broad range of interpersonal settings.

COM 225 ..................................................................................3 credits

**Foundations of Mass Communication**

This course is a survey of the basic theories upon which our scientific understanding of mass communication is based. Ethical and related problems of mass communication will be studied from contemporary and historical viewpoints, as well as a critical analysis of the performance of the mass media.

COM 310 ..................................................................................3 credits

**Communications: Theories and Practice**

This course explores the various theories of communication that form the foundation for study of communication in the bachelors degree program at the University of Phoenix. Major communication areas examined in this course include intrapersonal, interpersonal, group and teamwork, organizational, intercultural, and mass media. Each area, along with others, will be studied in greater depth in subsequent courses in the degree program.

COM 330 ..................................................................................3 credits

**Small Groups and Team Communication**

This course explores the dynamics of group communication and effective team work. Both social and workplace scenarios will be examined. Analytical techniques will be included to provide effective strategies for communication in these contexts.

COM 350 ..................................................................................3 credits

**Organizational Communication**

This course examines various theoretical frameworks necessary for effective organizational communication. It analyzes the application of communication strategies within organizations in terms of their effectiveness. It provides the infrastructure necessary for the creation and maintenance of successful communication strategies in organizations.

COM 360 ..................................................................................3 credits

**Intercultural Communication**

The purpose of this course is to assist students in understanding and apply the principles of effective intercultural communication in a diverse society and in global commerce. Students will develop an understanding of why and of how cultural issues influence effective communication. This course introduces techniques for improving written, oral, and interpersonal communication skills in response to intercultural settings.

COM 400 ..................................................................................3 credits

**Media and Society**

The development and evolution of contemporary society have become inextricably intertwined with the development and use of electronic media within the past 100 years. This course explores the complex interactions involving society, information, communication, and the electronic media. Controversial topics that media have brought to the fore, and in some cases caused, will be highlighted.

COM 440 ..................................................................................3 credits

**Communication Law**

This course focuses on the U.S. legal environment and its specific laws, court decisions, policies, and regulations that address the freedom and responsibilities that come with the First Amendment to the U.S. Constitution. The personal, commercial, and political exercise of free speech, and its regulation, will be analyzed in this course.

COM 450 ..................................................................................3 credits

**Ethics and Communication**

While ethical decision-making permeates every facet of personal and professional life, this course focuses specifically upon ethical issues that are inherent in personal and public forms of communication. Special emphasis is placed on ethical issues in commercial communication. Ethical decision-making models will be discussed and applied to cases involving various contemporary and controversial communication topics.

COM 470 ..................................................................................3 credits

**Mediation and Conflict Resolution**

Communication is the foundation upon which mediation and other forms of alternative dispute resolution are based. This course starts with an examination of the theoretical basis for ADR in light of communication theory. Then it focuses upon the effective application of theory and practice to achieve meaningful results and to avoiding conflict in the future.
COM 480 ................................................................. 3 credits
Communication Capstone Course
This is the capstone course for students pursuing the bachelor’s of science in communication. The course provides students with the opportunity to integrate and apply learning from their professional programs of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

COMM 215 ............................................................... 3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 200 ................................................................. 3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 ................................................................. 3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

Course Descriptions for the Concentration in Marketing and Sales Communication

COM 302 ................................................................. 3 credits
Marketing Communications
This course provides students with the basic concepts and methods related to marketing communications, including communication theories and the communication mix. Emphasis is placed on the marketing mix variables of product, place, price, and promotion, as well as marketing communications tools.

PSY 322 ................................................................. 3 credits
Consumer Psychology and Research
This course focuses on consumer behavior and marketing research. Topics include the cognitive processes underlying consumer choice, descriptive consumer characteristics, and environmental consumer behavior. This course emphasizes the implications of consumer behavior on domestic and global marketing communications.

COM 339 ................................................................. 3 credits
Advertising and the Media
This course addresses the elements of advertising and the media. Topics include advertising concepts, selection of media, and the use of media and advertising as marketing communications tools. The course also emphasizes the ongoing convergence of media content and commercial messages and how it is redefining marketing communications.

COM 352 ................................................................. 3 credits
Public Relations and Message Management
This course focuses on the role of public relations in marketing communications and how it can be used to attain organizational marketing and sales objectives. Topics covered in this course include media relations, relationship-building strategies, crisis communication, ethics, and the development of public relations messages.

COM 373 ................................................................. 3 credits
Sales Communications
This course addresses the elements of sales communications. Topics include sales promotion, direct sales, personal selling, and customer relationship management as marketing communications tools.

COM 486 ................................................................. 3 credits
Marketing and Sales Message Management
This course focuses on bridging the gap between sales and marketing communications through the use of customer message management. Topics covered in this course include creating a sense of value for customers; the development of marketing communications campaigns; the integration of the sales cycle and marketing communications; the use of a “single voice” to customers across all selling touch-points; and the ethical considerations associated with customer message management.

Course Descriptions for the Concentration in Communication and Technology

CIS 205 ................................................................. 3 credits
Management Information Systems
This course introduces students to the world of information technology. Students will examine the technology concepts included in business systems, networking, and project management and explore the systems development life cycle. Specific topics for the course include: hardware components, software applications, operating systems, databases, programming, as well as the security, privacy, and safety issues associated with information technology.

COM 420 ................................................................. 3 credits
Creativity and Communication
Creativity is described as a process leading to products or processes that are novel, useful, and meaningful. As a result, the designation of “creative” is inextricably tied up with the process of communicating. This course examines contemporary models of communication. Practical application of these theoretical constructs to the development and enhancement of one’s creativity is one of the primary focuses of the course.
VCT 235 ....................................................................................3 credits

**Image Editing & Implementation**
Design elements such as basic composition, style, use of color, textures, graphic manipulation, photographic re-touching and text/font design are introduced. File formats, sizing and packaging for export are covered in this class. Concepts such as pre-press production and printing are introduced. Imaging program, Adobe Photoshop® Elements 3.0 is required for this class.

VCT 310 ....................................................................................3 credits

**Web Design**
This course focuses on the principles of good web design and the essential role of the web designer in today’s business environment. Topics covered include layout, style, artistic quality, navigation, performance, communication, community, e-commerce and marketing.

VCT 320 ....................................................................................3 credits

**Electronic Publishing**
This course presents the essential role of electronic publishing in the delivery of information to today’s businesses and consumers. Most of the course is concerned with methods and techniques involved in the electronic publishing of business presentations, corporate reports, newsletters, training materials, manuals and electronic books, but other information formats such as wikis and blogs are also considered.

VCT 420 ....................................................................................3 credits

**Multimedia Development**
This course introduces the fundamentals of developing interactive, multimedia enriched content for delivery across alternative platforms such as the Internet, CDs and handheld devices. The focus is on the integration of animation, audio and video content to maximize communication.

### Course Descriptions for the Concentration in Culture and Communication

**SOC 262 ....................................................................................3 credits**

**Contemporary American Society**
Students in this course will explore the implications of ethnicity, culture, and diversity within the context of society. Students will be introduced to racial and ethnic relations, prejudice, stereotypes, discrimination, and adaptation and conflict in diverse cultures.

**SOC 333 ....................................................................................3 credits**

**Genders in Society**
The objective of this course is to explore gender differences and communication. This course introduces students to gender inclusiveness and sensitivity through the examination of the roles of genders in society. Students will focus on gender communication in business, organizations, family and the media. Additionally, students will explore communication traits of men and women and the impact of miscommunication between genders.

**SOC 335 ....................................................................................3 credits**

**The Peoples and Cultures of Asia**
This course provides students with an overview of the cultural traditions and contemporary development of Asian countries. Course topics include the geography, history, politics, economic development, and social conditions of Asian countries.

The University reserves the right to modify the required course of study.

Focus Study -15 credits
To satisfy the Focus Study requirement, students must complete 15 credits in a content area outside of their selected major. All 15 credits must be from the same content area and can be satisfied using transfer or University of Phoenix coursework. Credits completed to satisfy the Focus Study requirement may not apply within applicable General Education categories.

Electives -24 credits
Select elective courses to meet the minimum upper division and general education requirements for the Bachelor of Arts in English degree.

Additional Admission Requirements BA/ENG
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

Degree Requirements for the BA/ENG
- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 45 upper division credits.
  - All students must meet the General Education areas approved by the university.
  - Completion of a fifteen (15) credit Focus Study.
  - A minimum grade point average (GPA) of 2.0.
  - Students may choose additional elective credits to fulfill upper division and elective requirements.
  - All undergraduate students are required to complete the minimum general education credits required by their program version.
  - The diploma awarded for this program will read as Bachelor of Arts in English and will not reflect the Focus Study.

General Education Requirements for the BA/ENG
Communication Arts Requirement(s) 6 credits
Must include COMM 215 or equivalent
Mathematics Requirement(s) 6 credits
Must include MTH 209
Social Science Requirement(s) 6 credits
Science & Technology Requirement(s) 6 credits
Must include 3 credits in the physical or biological sciences
Humanities Requirement(s) 6 credits
Foreign Language Requirement(s) 6 credits
NTP Foreign Language Exams may be used to satisfy foreign language requirements.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

**Academic Progression Requirements for the BA/ENG**

All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:

- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course. It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215).
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study. Students must declare a Focus Study within 84 applied credits of program. Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

**Residency Requirements and Course Waivers for the BA/ENG**

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix

Students in this program may waive a maximum of 15 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the major, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the major. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the major, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived: GEN 200

**Course Descriptions for the BA/ENG**

**GEN 200**

Foundations for General Education and Professional Success

This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

---

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.
ENG 125 ................................................................................... 3 credits
Literature in Society
This course introduces themes in literature and provides guided study and practice in reflecting on themes, which describe the human experience across cultural and societal boundaries. The course includes readings from literature in different genres and cultures. Students will study the literature in thematic units and be asked to make connections to their own lives and cultures.

ENG 106 ................................................................................... 3 credits
Survey of Literacy Masterpieces
This course provides students with a survey of literary masterpieces across the ages. Students will gain insight into writing and culture from the content of this course. Topics include Shakespeare, Homer, Dante, Milton, Machiavelli, and Joyce, among other literary authors.

ENG 155 ................................................................................... 3 credits
Mythology in Literature and Life
This course provides an overview of mythology and its relationship to ancient and current cultures. The course covers the purposes and types of myths, the development of myths and mythological characters; the common elements of mythological structures, the predominant characteristics of deities and heroes in myth and the obstacles and dangers that these archetypes encounter, how myths affect our personal and social lives, in which these ancient archetypes are found in contemporary society, and how attitudes and behaviors are influenced by mythological literature.

ENG 215 ................................................................................... 3 credits
Multicultural Literature
This course provides students with an introduction to multicultural literature. Emphasis is placed on increasing students’ awareness and understanding of the values, beliefs, and experiences of people from different cultures through literature.

ENG 135 ................................................................................... 3 credits
Effective Academic Writing
This course develops the skills used in writing applied research papers for a university-level audience. Students will write position papers, persuasive essays, and case study analyses. Students will study classical rhetorical concepts of authority and the Toulmin method of argument analysis, and will evaluate outside sources for objectivity and utility in constructing persuasive arguments. Students practice giving peer feedback, revising essays in response to feedback, and writing collaboratively as learning teams. The course reviews the elements of grammar, mechanics, style, and proper documentation of outside sources.

COMM 251 .............................................................................. 3 credits
Rhetoric and Critical Thinking
This course in critical thinking and informal logic helps students develop the ability to reason clearly and critically. It includes an introduction to the disciplines of inductive and deductive logic, fallacious reasoning, and problem-solving techniques. Emphasis is placed on the identification and management of the perception process, use of assumptions, emotional influences, and language in various forms of communication.

ENG 106 ................................................................................... 3 credits
Survey of Literacy Masterpieces
This course provides students with a survey of literary masterpieces across the ages. Students will gain insight into writing and culture from the content of this course. Topics include Shakespeare, Homer, Dante, Milton, Machiavelli, and Joyce, among other literary authors.

HUM 150 ................................................................................... 3 credits
Introduction to Film Studies
Introduction to Film Studies is designed to provide students with an overview of film history and the skills necessary to analyze and critique film. Students will learn about film theory, aesthetics, genres, and basic film criticism. Students will analyze film through an examination of cinematography, editing, acting, scenes, and sound to allow students to view films critically, to develop a systematic and convincing interpretation of the films they watch, and to acquire the ability to analyze films in well-constructed and persuasive essays.

ENG 221 ................................................................................... 3 credits
Technical Writing Fundamentals
This course covers the fundamentals and best practices of using written communication in business and in the information technologies. Topics include strategies, techniques, and nuances for producing emails, memos, reports, proposals, project specifications, and user manuals, as well as other technical documents.

ENG 290 ................................................................................... 3 credits
Children’s Literature in a Pluralistic Society
This course examines the social function of children’s literature from oral origins to modern anthologies, exploring messages in nursery rhymes, fairy tales, and early childhood fiction. Students will apply major schools of literary criticism and relate children’s literature to theoretical models of childhood. The course surveys readings across cultures (European/ American, Native American, African American, Asian, and Hispanic/ Latino), genres (nursery rhymes, fairy tales, picture books, early childhood fiction), and time periods. It addresses portrayals of ethnicity, race, class, and gender in children’s literature, and considers the implications of film adaptations of select children’s stories in a pluralistic society.

ENG 301 ................................................................................... 3 credits
American Ethnic Literature
This course will survey the literature of the major ethnic groups in the United States (Hispanics/Latinos, Native Americans, African-Americans, and Asian-Americans) as a means to explore ethnic diversity and minority voices. Focusing on contemporary relevance, a wide range of representative literary works and authors will be discussed in their historical, socio-political, and cultural contexts with special consideration of characteristic literary themes and techniques.

ENG 306 ................................................................................... 3 credits
Poetry and Society
This course surveys English language poetry from medieval times through the present. Students analyze and interpret poetry, paying particular attention to the role of the poet and poetry in society. Poems are addressed in historical context, by theme, and for their relevance to contemporary culture.
ENG 340 ...................................................................................3 credits
Creative Writing
This course introduces students to creative writing in various genres. The purpose of this course is to develop and expand students' imaginative writing processes and to develop and expand their understanding of the human experience through creative writing. This would include identifying elements of writing and developing skills and techniques for creative writing in poetry, fiction, and nonfiction writings.

ENG 380 ...................................................................................3 credits
Applied Linguistics
This course introduces students to the nature of language and the way in which language is acquired and used in society. It also addresses grammatical aspects of language such as syntax, semantics, and pragmatics and changes in language over time. Stages of language acquisition and bilingual development will also be discussed.

ENG 491 ...................................................................................3 credits
American Literature to 1860
This course will survey major authors, ideologies, and historical contexts of American literature from medieval times until the Civil War era. A diverse range of works, genres, movements, and cultural narratives will be explored. Accounts of early explorers, Puritan sermons, American Indian mythology, slave narratives, political, and social writings, and poetry will be read and discussed.

ENG 492 ...................................................................................3 credits
American Literature since 1860
This course will survey the writings of 150 years in the historical and cultural context of America. The influence of vast social, political, and philosophical changes in America on literary works will be explored. The major literary movements, works, and authors of four distinct time periods will be read and discussed: the late 19th century, the early 20th century, the late 20th century, and the 21st century.

ENG 493 ...................................................................................3 credits
American Literature since 1800
This course will survey major authors, ideologies, and historical contexts of English literature from the 19th century to the present. A diverse range of works, genres, movements, and cultural narratives will be explored.

ENG 494 ...................................................................................3 credits
English Literature to 1800
This course will survey major authors, ideologies, and historical contexts of English literature from colonial times until the Civil War era. A diverse range of works, genres, movements, and cultural narratives will be explored.

ENG 303 ...................................................................................1 credit
Proposal Writing
This one-credit course is a comprehensive guide that includes step-by-step approaches to devising a strategy that will lead to the development of a winning proposal. The course focuses on the process of proposal “development” rather than proposal “writing.” The format and content of the course are both technical and conceptual in nature.

ENG 304 ...................................................................................3 credits
20th Century American Literature
This course will survey major authors, ideologies, and historical contexts of American literature from the 20th century. A diverse range of works, genres, movements, and cultural narratives will be used to explore how cultural pluralism helped shape and reflect the evolution of American thought.

ENG 308 ...................................................................................3 credits
American Autobiography
Through the use of memoirs, autobiographies, journals, or diaries, students in this course will be introduced to individuals who impacted the social, political, and cultural environments of America.

ENG 495 ...................................................................................3 credits
Advanced Creative Writing
This course explores advanced literary elements of creative writing, focusing on elements of form and craft. Students will write poems, fictional short stories, and one act plays. In the process, students will re-examine all elements of the writing process to deepen their understanding of each stage of the process including prewriting, drafting, editing, and revising, and students will reflect upon differences among genres. A writers' workshop will be an integral component of this course.

ENG 496 ...................................................................................3 credits
African American Literature
This course will provide students with an in-depth analysis of African American Literature. Topics include the underlying historical experiences and cultural values of African Americans and how these experiences and values were expressed through various types of literature. Throughout the course, students will be encouraged to examine African American Literature in a socio-historical context.

COMM 215 ...................................................................................3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level course work. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.
MTH 209 ................................................................. 3 credits
College Mathematics II
This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

GEN 101 ................................................................. 3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 ................................................................. 3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Concentration in Psychology - Track A
PSY 202 ~ ................................................................. 3 credits
Foundations of Psychology
PSY 230 ~ ................................................................. 3 credits
Theories of Personality: I Think, Therefore Who Am I?
PSY 240 ~ ................................................................. 3 credits

PSY 240 ~ ................................................................. 3 credits
The Brain, the Body, & Mind: All Together Now
PSY 265 ~ ................................................................. 3 credits
Psychology of Human Sexuality: What Turns You on and Why?
PSY 270 ~ ................................................................. 3 credits
Abnormal Psychology: Abuse, Addiction & Other Disorders

The College of Social Sciences offers undergraduate and graduate degree programs in a number of diverse academic areas including counseling, psychology, and human services. In addition, the college offers a certificate program in mediation.

The College provides innovative educational programs designed to enhance the core knowledge, skills and values essential for students seeking to achieve their academic goals in the field of social sciences. These programs are developed and taught by skilled practitioners who work in their respective fields. Through individual and collaborative work, students can acquire the knowledge and skills needed in today’s working environment.

Associate of Arts in Psychology

The following Associate of Arts/Concentration in Psychology (AAPSY) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts Degree in Psychology includes courses in positive psychology, theories of personality, human sexuality, diversity, psychological disorders, social dynamics and the physiological and neurological bases of human behavior. In this program, students will analyze the interrelatedness among leading psychological theories and evaluate how these theories interrelate and explain variations in human behavior. Students will be introduced to the research process and challenged to critically evaluate research results, theories, models, and concepts across a wide range of topics in the field of Psychology.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aapsy.
Additional Admission Requirements for AAPSY

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AAPSY

Communication Arts Requirement 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)

Mathematics Requirement 6 credits

Science & Technology Requirement 6 credits
(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)

Social Science Requirement 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)

Humanities Requirement 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)

Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 105)
(B Track must include: US 101)

Interdisciplinary Requirement 9 credits
(B Track must include: FP 101)

Concentration 18 credits

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

Degree Requirements for AAPSY

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of “D-” or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAPSY

All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.

- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
- All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAPSY

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
• The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAPSY

Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media-including television, Internet, and print-to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

Course Descriptions for the AAPSY - Track A

PSY 202 ................................................................. 3 credits
Foundations of Psychology
This course overviews the foundations of psychology as the field applies to everyday life. The physical and mental aspects of psychology are traced through lifespan development with emphasis on psychological health and wellness. Further study focuses on personality; thinking, learning and memory; motivation and emotions; and gender and sexuality. Based in various historical traditions, the course is set in the context of contemporary psychological principles.

PSY 230 ............................................................................. 3 credits
Theories of Personality: I Think, Therefore Who Am I?
What is theory? What is personality? What is your theory of your personality? This course introduces the student to a number of personality theorists, their personalities, and their views in offering insight in to the question of the self. Psychoanalytic, social, behavioral traits, biological, humanistic, and cognitive are some of the theories that will be discussed in this course.

PSY 240 ............................................................................. 3 credits
The Brain, the Body, and the Mind: All Together Now
This course provides an introduction to the investigation of physiological and neurological basis for human behavior. The student will be able to study and discuss various influences on personality development, such as prenatal maternal behavior; gender; nature versus nurture; brain development; genetic composition; sensory motor interactions; learning disabilities; drug impacts; and neurological diseases.

PSY 265 ............................................................................. 3 credits
Psychology of Human Sexuality: What Turns You On and Why?
This course is a comprehensive view of the psychosocial and physiological aspects of sexual health in our contemporary society. The student will have opportunities to explore numerous relevant topics including love, intimacy, and relationships; sex and marketing; sexual diseases; sexual abuse; gender identity and sex roles; and socio-cultural influences and values in decision making. The course is designed for the student to understand attitudes and behaviors as they relate to sexual well-being and integrity.

PSY 270 ............................................................................. 3 credits
Abnormal Psychology: Abuse, Addiction, and Other Disorders
This course introduces the study of major psychological disorders as defined in the DSM-IV-TR, including their diagnoses, causes, and treatments. It covers such subjects as depression, bipolarity, anxiety, panic, somatoform, dissociation, substance abuse, anorexia, schizophrenia, and childhood disorders, as well as gender and cultural differences.
Course Descriptions for the AAPSY - Track B

PSY 201 .............................................................................................3 credits

Foundations of Psychology

This course overviews the foundations of psychology as the field applies to everyday life. The physical and mental aspects of psychology are traced through lifespan development with emphasis on psychological health and wellness. Further study focuses on personality; thinking, learning and memory; motivation and emotions; and gender and sexuality. Based in various historical traditions, the course is set in the context of contemporary psychological principles.

PSY 220 .............................................................................................3 credits

Positive Psychology: What's Right With Me

How much control does a person have over his or her thoughts, feelings, and behaviors? What does it mean to be “free”? PSY 220 offers students a contemporary and relevant approach to the study of psychology and the opportunity to learn more about themselves in the process. In this course, students evaluate, understand, and build on their psychological strengths and those of others.

PSY 230 .............................................................................................3 credits

Theories of Personality: I Think, Therefore Who Am I?

What is theory? What is personality? What is your theory of your personality? This course introduces the student to a number of personality theorists, their personalities, and their views in offering insight into the question of the self. Psychoanalytic, social, behavioral traits, biological, humanistic, and cognitive are some of the theories that will be discussed in this course.

PSY 240 .............................................................................................3 credits

The Brain, the Body, and the Mind: All Together Now

This course provides an introduction to the investigation of physiological and neurological basis for human behavior. The student will be able to study and discuss various influences on personality development, such as pre-natal maternal behavior; gender; nature versus nurture; brain development; genetic composition; sensory motor interactions; learning disabilities; drug impacts; and neurological diseases.

PSY 265 .............................................................................................3 credits

Psychology of Human Sexuality: What Turns You On and Why?

This course is a comprehensive view of the psychosocial and physiological aspects of sexual health in our contemporary society. The student will have opportunities to explore numerous relevant topics including love, intimacy, and relationships; sex and marketing; sexual diseases; sexual abuse; gender identity and sex roles; and socio-cultural influences and values in decision making. The course is designed for the student to understand attitudes and behaviors as they relate to sexual well-being and integrity.

PSY 270 .............................................................................................3 credits

Abnormal Psychology: Abuse, Addiction, and Other Disorders

This course introduces the study of major psychological disorders as defined in the DSM-IV-TR, including their diagnoses, causes, and treatments. It covers such subjects as depression, bipolarity, anxiety, panic, somatiform, dissociation, substance abuse, anorexia, schizophrenia, and childhood disorders, as well as gender and cultural differences.

Associate of Arts/Concentration in Human Services Management

The following Associate of Arts/Concentration in Human Services Management (AAHSM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consult completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Human Services Management concentration focuses on providing a solid foundation for future workers in the industry. Some of the content is focused in the areas of human services organizations, roles of human services workers, public policy, multicultural practices, information technology, financial management, and regulatory and ethical issues. Some of the activities included in the concentration are creating care plans, developing alternative funding strategies, and determining the characteristics of good human services management.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aaahsm.

The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

**Course Descriptions for the AAHSM**

**HSM 210** ................................................................. 3 credits  
**Human Services in the United States**

This course is a foundation for studies of human services in the United States. It provides an overview of the evolution of American human services delivery systems, including historical perspectives, as well as current and future trends. It covers the role of human services workers, how needs are determined and met, and factors that affect the delivery of services such as theoretical perspectives, social policies, and government regulations. Community advocacy, prevention techniques, contemporary issues, and careers in the human services industry are also examined.

**HSM 220** ................................................................. 3 credits  
**Human Services Administration: So You Want to Help People**

This course discusses the roles and responsibilities of administrators in human services organizations. It covers recent studies related to the changing contests of human services delivery, leadership, organizational culture, human resource management, financial management, strategic planning, working with boards, marketing and public relations, social entrepreneurship, partnership, and collaboration.

**HSM 230** ................................................................. 3 credits  
**Ethical Issues in Human Services Organizations**

HSM 230 explores the legal and ethical environments of human services organizations. Students consider tools and traditions for ethical decision-making, the role of the leader, and the role of organizational culture in sustaining a moral vision, and the design of and need for legal and ethical oversight. Students analyze current ethical and legal dilemmas and controversies through case studies and debate.

**HSM 240** ................................................................. 3 credits  
**Public Policy Development in Human Services**

This course focuses on the formation and execution of public policy and programs by government and private organizations within human services. Emphasis is placed on evaluative and analytical approaches for determining positive and negative characteristics of policies and programs. Students will learn to analyze and critique organizations and the policies and programs within those organizations.

**HSM 260** ................................................................. 3 credits  
**Financial Management for Human Service Managers**

This course focuses on the conceptual understanding and practice of financial management as it applies to human service agencies. Students complete the course with a better understanding of basic accounting concepts, budgets and budgeting systems, and how to create performance measures, and the ability to analyze financial statements for the purpose of cost analysis and forecasting. Aspects of setting fees, funding and risk management are also covered.

**HSM 270** ................................................................. 3 credits  
**Program Planning and Grant Proposal Writing in Human Services**

This course provides practical knowledge in program planning, grant proposal writing, and program evaluation. Students will examine the planning process from conceptualization to implementation and evaluation. Also discussed is how to locate private and public funding for human service programs and agencies.

**COM 150** ............................................................... 3 credits  
**Effective Essay Writing**

In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

**COM 220** ............................................................... 3 credits  
**Research Writing**

Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

**ETH 125** ............................................................... 3 credits  
**Cultural Diversity**

This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

**CRT 205** ............................................................... 3 credits  
**Critical Thinking**

In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media-including television, Internet, and print-to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

**GEN 105** ............................................................... 3 credits  
**Skills for Learning in an Information Age**

This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.
Bachelor of Science in Psychology

The following Bachelor of Science in Psychology (BS/P) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Psychology program provides students with a strong foundation in general psychology. Students will gain insight into the cognitive and affective processes that underlie the individual human experience through an analysis of a variety of theoretical approaches related to human development and behavior. The courses in this program do not have a clinical emphasis and do not lead to professional licensure; instead, they are designed to provide supervisors, managers and other professionals with greater skills in critical thinking, communication, collaboration, and information utilization through the enhanced understanding of human psychology.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bs-p.

BSP Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number.

- GEN 300 ~ ................................................................. 3 credits
- Skills for Professional Development

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BS/P

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

Degree Completion Requirements for the BS/P

- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 51 upper division credits.
  - All students must meet the General Education areas approved by the university.
  - A minimum grade point average (GPA) of 2.0.
  - All students must complete the minimum number of credits required by their degree program.

General Education Requirements for the BS/P

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts Requirement(s) 6 credits
- Mathematics Requirement(s) 6 credits
- Science & Technology Requirement(s) 6 credits

Must include at least three (3) credits in the physical or biological sciences
- Social Science Requirement(s) 6 credits
- Interdisciplinary Requirement(s) 18 credits
- Additional Liberal Arts Requirement(s) 6 credits

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance. Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BS/P

All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:

- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
- National Testing Programs, and
- ACE evaluated Military credits.

The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.

Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.

Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.

Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)

Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.

Students may not complete any of the First-Year Sequence courses via Directed Study.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

### Residency Requirements and Course Waivers for the BSP

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 24 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the major, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.

The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course. (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the major. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the major, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived: GEN 300, PSY 490

### Course Descriptions for the BSP

#### GEN 300  ..........................................................3 credits

**Skills for Professional Development**

This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

#### PSY 330 ..........................................................3 credits

**General Psychology**

General Psychology is a survey course which introduces the student to the major topics in scientific psychology as applied to human behavior. Applications of these principles will be made to the human experience.

#### PSY 355 ..........................................................3 credits

**History and Systems of Psychology**

The purpose of this course is to familiarize the student with the various methods of inquiry, terminologies, and theoretical systems that comprise the history of psychology. A broader view is used to introduce the modern era of psychology and its use. These include: structuralism, functionalism, Gestalt, behaviorism, psychoanalysis, and phenomenological/existential approaches.

#### PSY 345 ..........................................................3 credits

**Motivational Processes in Human Psychology**

This course examines theories and research results pertaining to the structures (self, person, role, and event schemas) and processes (expectations, attributions, and inferences) underlying self and person perception.
PSY 315 ................................................................. 3 credits
**Statistical Reasoning in Psychology**
This is an introductory course in applied statistics, with particular emphasis in psychology. Both descriptive and inferential statistics are included. In addition, this course provides the basic statistical background and understanding needed.

PSY 340 ................................................................. 3 credits
**Biological Foundations of Psychology**
This course is designed to expose you to the underlying physiological mechanisms of behavior. Physiological psychology is a complex but fascinating field of study. It explores the relationship between our biological systems and behavior. Structure and function of the nervous system from the neuron to the brain, as well as the interrelationships between the brain and such behaviors as eating, sleeping, learning, memory, emotion, and mental disorders will be discussed using examples from the behavior of both humans and lower organisms.

PSY 360 ................................................................. 3 credits
**Cognitive Psychology**
This course will present an overview of cognitive psychology and its findings, theories, and approach. Cognitive psychology deals with how we acquire and use knowledge so the course will cover topics such as perception, attention, memory, language, reasoning, and problem solving.

PSY 375 ................................................................. 3 credits
**Lifespan Human Development**
This course focuses on a historical view of human development leading to the current lifespan approach to form an understanding of the developing individual, and it explores influences on human development, ranging from individual models to cross-cultural groups. Emphasis is given to personality, social, intellectual, and physical development, and the major theories used to describe how people change throughout their lifespan.

PSY 390 ................................................................. 3 credits
**Learning and Cognition**
This course concerns the study of learning from the most basic associationistic ideas to complex cognitive behaviors such as problem solving and thinking. Various ideas regarding the nature of the mind are presented along with the fundamental concepts of learning and conditioning. Strengths and weaknesses of the memory system are discussed as they relate to higher cognitive processes such as language, problem solving, and eyewitness identification. Neurophysiological correlates of cognitive phenomena and memory disorders are also discussed.

PSY 400 ................................................................. 3 credits
**Social Psychology**
This course provides a unified view of the field of social psychology organized around the concepts of social influence and power and exchange in social life and explores in-depth human thoughts, feelings, and actions as influenced by other people. Specific topics include socialization, perception of self and others, pro-social and anti-social behavior, attitudes, interpersonal attraction, social influence, and group behavior.

PSY 405 ................................................................. 3 credits
**Theories of Personality**
This course surveys the field of personality from a scientific perspective, examining the general approaches to understanding personality. The key theorists and concepts associated with each perspective are highlighted, along with the strengths and limitations of the different approaches.

PSY 410 ................................................................. 3 credits
**Abnormal Psychology**
This course is designed to provide students with an introduction to theories and research concerning abnormal behavior (psychopathology). The course will address such topics as the incidence (frequency) of abnormal behavior of various types; how abnormal behaviors are classified into various diagnostic categories; the etiologies (causes) of psychological disorders; and the variety of methods employed in the treatment of abnormal behavior.

PSY 435 ................................................................. 3 credits
**Industrial/Organizational Psychology**
This course is designed to introduce the student to the field of industrial/organizational psychology. The emphasis is on the psychological principles and how they can be applied in a work context. Topics will include legal issues in employment, selection of employees, performance appraisal, training, leadership, motivation, and group behavior.

PSY 450 ................................................................. 3 credits
**Diversity and Cultural Factors in Psychology**
This course is a study of the issues and influences related to gender, sexual orientation, and the major racial/ethnic and cultural groups in the United States and how they affect theoretical and research paradigms in psychology and clinical and counseling practices. The course expands the students’ frame of reference concerning human diversity and applies this knowledge to counseling and research issues in psychology.

PSY 460 ................................................................. 3 credits
**Environmental Psychology**
In this course students will learn about the interaction between people and their environments; how our behavior affects our environment, and how that environment, in turn, influences our own behavior. An emphasis will be placed on developing behavioral solutions for environmental problems.

PSY 475 ................................................................. 3 credits
**Psychological Tests and Measurements**
This course will cover the basic principles, research, and theories on testing and measurement of psychological constructs. It is expected that students complete the course with knowledge of various techniques for psychological testing; a familiarity of several professionally developed tests; the ability to develop, administer, and interpret certain tests; and knowledge of measurement theory which includes reliability and validity.
PSY 480 ...................................................................................3 credits

Elements of Clinical Psychology
This course is intended to provide the beginning psychology student with an overview of the theory and practice of clinical and counseling psychology. The course includes reference to major theories of personality, assessment, and psychotherapy. Topics include psychodynamic, cognitive/behavioral, and biological theories of normal and abnormal psychological processes, and the assessment of behavior, abilities, and personality. Therapies covered include a variety of psychoanalytic approaches, and humanistic, biological, cognitive/behavioral, and child and family therapies.

PSY 490 ...................................................................................3 credits

Capstone Course in Psychology
This is the capstone course for undergraduate psychology students. The course provides students with the opportunity to integrate and apply learning from their psychology program of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

COMM 215 ...................................................................................3 credits

Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 200 ...................................................................................3 credits

Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 ...................................................................................3 credits

Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

The Bachelor of Science in Human Services

The following Bachelor of Science in Human Services (BSHS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Human Services is intended to give graduates knowledge and basic skills to work in the human services industry. The Bachelor of Science in Human Services is an integrated program combining academic instruction in the foundations of human services such as counseling, social work and psychology with applied skills for students whose goal is a career in the growing field of human services. This major is designed to be an applied degree, which teaches strategies and techniques of intervention and good management practices for intervention at individual, family, group, organization, and community levels. Human services graduates are prepared to provide services in a variety of community settings. This program takes an interdisciplinary approach to the development of a student’s knowledge and skills and provides instruction in four major areas: theoretical foundations, diversity and population needs, research and program evaluation, and intervention methods and skills. Students obtain a background in social work, enabling them to work in managed care, government agencies, and other provider organizations. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bshs.

Additional Admission Requirements for the BSHS
• High school graduation from an institution that holds state
  approval to confer high school diplomas or are accredited or a
  candidate for accreditation at the time the student attended by
  an acceptable accrediting body, GED certificate or CHSPE
  (California High School Proficiency Examination) certificate.
Degree Requirements for the BSHS
• Completion of a minimum of 120 credits that include the
  following distribution:
    • A minimum of 63 upper division credits.
    • A minimum of 54 of the 120 credits must be in the general
      education areas approved by the University.
    • A minimum grade point average (GPA) of 2.00.
    • A minimum of 120 total credits that include a minimum of 63
      upper division credits. Students must satisfy all required
      courses of study and general education requirements. Any
      remaining credits may be satisfied by elective coursework.
General Education Requirements for the BSHS
A minimum of 54 of the 120 credits must be in the general
education areas approved by the University.
Communication Arts, 6 credits
Mathematics, 6 credits
Science and Technology, 6 credits
Must include at least three credits in physical or biological sciences
Humanities, 6 credits
Social Science, 6 credits
Additional Liberal Arts, 3 credits
Interdisciplinary Requirements, 15 credits
Professional Development, 3 credits

BSHS 301 is completed as part of the required course of study
Integrating, 3 credits
GEN 480 is completed as part of the required course of study
Students who lack .67 or fewer general education credits may use
excess interdisciplinary or elective credits to waive the balance.
Students must use excess interdisciplinary or elective credits to
waive the general education balance in order to complete the mini-
num general education credits required for their program.
For a description of the preceding general education areas, see the
Undergraduate Programs section within this catalog.
Academic Progression Requirements for the BSHS
All students entering undergraduate degree programs who list less
than 24 previous college credits as recognized by the university on
the admissions application are required to enroll in the First-Year Sequence:
• First-Year Sequence students must satisfy all seven (7) courses
  from the First-Year Sequence prior to enrolling in any other
  General Education, electives, or concentration courses.
• GEN 195 will be required as the first course in the First-Year Sequence.
• HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to
  enrolling in any other program applicable course.
• With the exception of GEN 195, FP 120, and HUM 114, course
  requirements may be satisfied by any of the following means:
    University of Phoenix coursework,
    Regionally or nationally accredited coursework (C- or higher grade),
    University of Phoenix Prior Learning Assessment, (30 credit
    limit on experiential learning; 30 credit limit on professional training),
    National Testing Programs, and
    ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must
  be comparable in content to the university course It is
  replacing, must be at least a 2.67 credit course, and must be
  an equivalent level or higher level course.
• Concurrent enrollment is prohibited during any of the courses in
  the First-Year Sequence.
• Students who list 24 or more previous college credits, as
  recognized by the university on the admissions application,
  must take GEN 200 Foundations for General Education and
  Professional Success as the first course with University of
  Phoenix and are not required to enroll in the First-Year Sequence.
• Students who list 24 or more previous college credits, as
  recognized by the University on the admissions application, and
  who do not enroll in the First-Year Sequence, may not enroll in
  any course from the First-Year Sequence to satisfy programmatic
  prerequisites, general education or elective requirements. (e.g.,
  taking COM 172 instead of COMM 215)
• Students who previously completed GEN 101, GEN 200, or GEN
  300 and choose to transition to the First-Year Sequence are not
  required to take GEN 195.
• Students may not complete any of the First-Year Sequence
  courses via Directed Study.
Many courses in the Required Course of Study build on or rein-
force each other. To ensure that students have the requisite skills
for specific coursework certain program areas must be satisfied
before students can progress to others.
All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

**Residency Requirements and Course Waivers for the BSHS**

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 33 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver for a course in the required course of study the student must have completed a previous course, which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to 30 credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution in which the University has entered into an approved articulation agreement with.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved Articulation Agreement.
- The course must be comparable in content and credits to the University course it is replacing and be approved through the Articulation Agreement.

The following courses in the required course of study may not be waived: BSHS 301, BSHS 341, BSHS 411, BSHS 491, GEN 480

**Course Description for the BSHS**

**BSHS 301** .................................................................3 credits

**Introduction to Human Services**

This course is designed to give adult learners an overview of expectations for academic success in the Bachelor of Science in Human Services program. The course examines learning theory and the application of adult learning principles. Students will gain knowledge of skills needed to demonstrate critical thinking, make oral presentations, function in learning teams, conduct research, and write academic papers in the format of the Publication Manual for the American Psychological Association. Students will be introduced to the university library and learn how to access its resources successfully. An introduction to the human services profession will be accomplished by studying roles and responsibilities of human services workers.

**BSHS 311** .................................................................3 credits

**Models of Effective Helping**

This course presents an exploration of the major theoretical areas in the helping professions: cognitive, behavioral, affective/humanistic, and systems. Students learn the theoretical basis for each of the major theories, the approach to change, and the techniques and interventions used by practitioners of these theories. The course emphasizes the development of a personal theory and approach to human services and the creation of a resource file containing practical applications of theory-based techniques for use by the human service worker.

**BSHS 321** .................................................................3 credits

**Communication Skills for the Human Service Professional**

This course explores the theory and practice of professional communication skills, including active listening, interviewing, nonverbal communication and presentation skills. Students will develop their interpersonal skills through application of communication techniques and strategies.

**BSHS 331** .................................................................3 credits

**Professional, Ethical, and Legal Issues in Human Services**

Ethical principles and practices of human service workers are examined in accordance with The Community Support Skill Standards for Human Service Workers and the Ethical Standards of Human Service Professionals. Major legal issues in the delivery of human services are examined. The roles, functions, and legal and ethical responsibilities of the human service worker are investigated.

**BSHS 341** .................................................................3 credits

**Field Experience/Part I**

This course provides information and support to assist students in their first field experience placement in a human services organization. Students will conduct interviews, learn to create a learning contract, and develop an understanding of their role in the human services delivery system. Weekly workshops are provided to offer support and supervision of student activities in the field. Students will complete a total of 100 hours of field experience during a ten-week period. Supervision will be provided on a weekly basis in 2-hour group sessions. Students will be exposed to the twelve core competencies of the BSHS program, with an emphasis on participant involvement, communication, community and service networking, as well as education, training, and self-development.
Lifelong Learning and Professional Development
This course is a survey of the use of communications technology in Human Services. It examines how technology affects the delivery of Human Services and how technology is used in delivering the service. Students are required to have access to the Internet and have a valid e-mail address to take this course.

BSHS 351 .......................................................... 3 credits

Technology in Human Services
This course will examine the roles of lifelong learning and professional development for human service workers in the helping professions. Students will clarify their values and aspirations and develop short- and long-range goals and research the requirements and resources for each.

BSHS 361 .......................................................... 3 credits

Child Development
In this course, students learn about human growth and development from conception through adolescence. Physical, cognitive, and psychosocial developmental domains are studied.Within those domains, language development, moral development, and multicultural issues are addressed. Practical application of developmental theory is included to help students appreciate the impact human services workers have on children, adolescents, and their caregivers.

BSHS 371 .......................................................... 3 credits

Adult and Family Development
In this course, students learn about the physical, social, emotional, and cognitive development of the adult in today’s society. They explore each of the major stages of adult development: young adulthood, middle age, and late life. Myths about aging are examined, and current research is reviewed. Factors influencing physical and mental health throughout the life cycle are explored, including those that contribute to developmental problems and those that foster greater life satisfaction and health. Students examine the resources and services for the aged population.

BSHS 381 .......................................................... 3 credits

Research and Statistics for the Social Sciences
This course provides an overview of research methods and appropriate use of statistics in the social sciences. The scientific method, research tools, data collection, and analysis will be reviewed. Understanding research and developing the ability to critically evaluate published research reports will be emphasized. Statistical concepts will be reviewed, and students will gain a conceptual understanding of underlying principles of research and statistical analysis. Statistics software will be introduced, and students will compute descriptive and inferential statistical data. Students will practice developing research designs and conducting statistical analyses.

BSHS 391 .......................................................... 3 credits

Lifelong Learning and Professional Development
This course will examine the roles of lifelong learning and professional development for human service workers in the helping process. Students will clarify their values and aspirations and develop a plan for their personal professional development. Students will explore both short-term plans and long-range goals and research the requirements and resources for each.

BSHS 401 .......................................................... 3 credits

Field Experience/Part II
This course will offer students the opportunity to demonstrate progression in the 12-Core Competency Areas, which are the topics of the course. Students will select placement in a community human services organization and participate in human service delivery. Weekly seminars are provided to offer support and supervision of the student activities while in the field experience. Students will learn to present issues for supervision.

BSHS 411 .......................................................... 3 credits

Cultural Diversity and Special Populations
Students will explore rich and unique features of ethnically diverse populations and “special populations,” and identify their human services needs. Students will become familiar with available local community services to meet those needs. The development and assessment of cultural competence as it applies to social service agencies and behavioral health professionals is emphasized.

BSHS 431 .......................................................... 3 credits

Dependency and Addictions
Students will be introduced to the addictions process involved in alcohol, chemical, and other dependency areas. The role of addiction within society, the criminal justice system, and treatment areas will be explored.

BSHS 441 .......................................................... 3 credits

Advocacy and Mediation
This course is designed to explore the potential use and benefits of alternative dispute resolution in human services as a part of the advocacy process. Students will explore the role of the advocate, learn about various dispute resolution models, and identify and practice mediation skills. Attention to overcoming barriers to effective service delivery will be examined. Students will experience the roles of mediator, advocate, and agency representative through role-plays in dyads and small groups.

BSHS 451 .......................................................... 3 credits

Program Design and Proposal Writing
This course covers finding federal, state, and private funding for human services programs and agencies and writing proposals to secure funding. Students will practice designing and evaluating programs. Students will use the Internet to explore funding sources and to identify suggestions for developing successful grant proposals.

BSHS 461 .......................................................... 3 credits

Building Community in Organizations
This course provides a framework for understanding organizations as social communities. Students will learn to identify the essential elements of organizational communities, the managerial implications, the skills necessary to effectively work in organizational communities, and the benefits of working in organizations using the community model. Emphasis will be placed on understanding and developing the skills needed to work effectively in organizations.
BSHS 471 .......................................................... 3 credits
**Mental Health and Crisis Intervention Practices**
Students will learn about the history and current status of the human services delivery system and the mental health services system. Appropriate protocols for assessing strategies will be examined and explored. Students will explore the skills, techniques, and uses of crisis intervention.

BSHS 481 .......................................................... 3 credits
**Working with Groups**
The course provides students with knowledge, awareness and skill building in group work. Content emphasizes such areas as different types of groups (task, psycho-educational, counseling, and psychotherapy), group dynamics, group norms and boundaries, leadership styles, and leading and co-leading. Ethics, standards for best practice, principles for diversity-competent group workers, confidentiality, and selection procedures are included as key components for effective group work practice.

BSHS 491 .......................................................... 3 credits
**Field Experience, Part III**
This course will offer students the opportunity to demonstrate progression in the 12-Core Competency Areas, which are the topics of the course. Students will select placement in a community human services organization and participate in human service delivery. Weekly seminars are provided to offer support and supervision of the student activities during their field experience. Students will learn to present issues for supervision. Each student will create a portfolio of his or her competencies and accomplishments for career purposes.

GEN 480 .......................................................... 3 credits
**Interdisciplinary Capstone Course**
This is the capstone course for business, health and human services, and information technology undergraduate students. The course provides students with the opportunity to integrate and apply learning from their professional programs of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

COMM 215 .......................................................... 3 credits
**Essentials of College Writing**
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 200 .......................................................... 3 credits
**Foundations for General Education and Professional Success**
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 .......................................................... 3 credits
**Skills for Lifelong Learning**
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 .......................................................... 3 credits
**Skills for Professional Development**
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.
The Bachelor of Science in Human Services/Management

The following Bachelor of Science in Human Services (BSHS/M) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Human Services/Management program prepares graduates by giving them knowledge and basic management skills to work in the human services industry. The Bachelor of Science in Human Services/Management is an integrated program combining academic instruction in the foundations of human services with the management skills of planning, organizing leading, assessing, and evaluating. BSHS/M students prepare for careers in management in the growing field of human services. This program is designed to be an applied degree that includes teaching in the human services setting and techniques of good management practices. Graduates will be prepared to use sound management practices in a variety of human services settings. This undergraduate degree program has a 60-credit major course of study. In addition, students must satisfy general education and elective requirements to meet the 120-credit minimum required for completion of the degree.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bshs-m.

Required Course of Study for the BSHS/M

Courses requiring prerequisites are identified by a ~ symbol following the course number.

BSHS 302 ~ ................................................................. 3 credits
Introduction to Human Services

BSHS 452 ........................................................................ 3 credits
Program Design and Proposal Writing
GEN 480 ........................................................................ 3 credits
Interdisciplinary Capstone Course
The University reserves the right to modify the required course of study.

Additional Admission Requirements of the BSHS/M

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the BSHS/M

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Mathematics, 6 credits
Science and Technology, 6 credits
Humanities, 6 credits
Social Science, 6 credits
Additional Liberal Arts, 3 credits
Interdisciplinary Requirements, 15 credits
Professional Development, 3 credits

BSHS 302 is completed as part of the required course of study
Integrating, 3 credits

GEN 480 is completed as part of the required course of study

Students who lack .67 or fewer general education credits may use excess interdisciplinary or elective credits to waive the balance. Students must use excess interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.
Degree Requirements for the BSHS/M

- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 60 upper division credits.
  - A minimum of 54 credits of the 120 credits must be in the general education areas approved by the University.
  - A minimum grade point average (GPA) of 2.0.
  - A minimum of 120 total credits that include a minimum of 60 upper division credits. Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.

Academic Progression Requirements for the BSHS/M

All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:

- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing; must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.

Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.

Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)

Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.

Students may not complete any of the First-Year Sequence courses via Directed Study.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

Residency Requirements and Course Waivers for the BSHS/M

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives be completed at University of Phoenix

Students in this program may waive a maximum of thirty (30) credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived. BSHS 302, GEN 480
Course Descriptions for the BSHS/M

BSHS 302.................................................................................. 3 credits
Introduction to Human Services
This course is designed to give adult learners an overview of expectations for academic success in the Bachelor of Science in Human Services program. The course examines learning theory and the application of adult learning principles. Students will gain knowledge of skills needed to do critical thinking, make oral presentations, function in learning teams, conduct research, and write academic papers. Students will be introduced to the university library and learn how to access its resources successfully. An introduction to the human services profession will be accomplished by studying roles and responsibilities of human services workers.

BSHS 322.................................................................................. 3 credits
Communication Skills for Human Services Professional
This course explores the theory and practice of professional communication skills, including active listening, interviewing, verbal and nonverbal communications, exploration and goal setting skills, and various techniques for helping people change. Students will develop an understanding of the relationship dynamics between clinicians, clients, and human service staff through application of communication techniques and strategies.

MGT 331 .................................................................................. 3 credits
Organizational Behavior
This course in organizational behavior encompasses the study of individual and group behavior in organizational settings. Managing organizational behavior challenges individuals to understand and embrace workforce diversity, elements of change, effective communication, and performance systems. A comprehensive review of these processes, as well as others, will allow students to examine their role in organizations in the new millennium.

BSHS 312.................................................................................. 3 credits
Models of Effective Helping
This course presents an exploration of the major theoretical areas in the helping professions: cognitive, behavioral, affective/humanistic, and systems. Students learn the theoretical bases for each of the major theories, the approach to change, and the techniques and interventions used by practitioners of these theories. The course emphasizes the development of a personal theory and approach to human services and the creation of a resource file containing practical applications of theory-based techniques for use by the human services worker.

MGT 330 .................................................................................. 3 credits
Management: Theory, Practice, and Application
This course explores the rich field of management in theory and practice, and as both a science and an art. The course also addresses the role of managers in the current world of rapid change, increased competitive forces, and increased expectations for the successful performance of employees and organizations. The focus is on some of the ways and means of achieving desired goals. The student will leave this course with a solid background in the nature and work of management and managers. Applications of concepts to current workplace issues will be stressed.

BSHS 342.................................................................................. 3 credits
Human Lifespan Development
This course presents students with empirical research findings and theoretical frameworks to foster an understanding of the various stages and dimensions of human development across the lifespan. Emphasis is placed on biological, cognitive, emotional, and social development in a timeframe extending from prenatal development through the elder years and on toward eventual end of life and bereavement processes.

MGT 350 .................................................................................. 3 credits
Critical Thinking: Strategies in Decision Making
The course provides students opportunities for analysis, synthesis, prescription, and application roles of critical thinking and decision making within the organization. Emphasis is placed on preparing managers who can deal clearly, rationally, and creatively with diverse workforce and dynamic work place. This course equips students with concrete skills in critical thinking and decision making that will allow them to identify and solve organizational problems as well as provide strategic direction.

BSHS 402.................................................................................. 3 credits
Case Management
This course covers principles, practices, and issues in case management. The diagnosis and treatment of developmental, psychological, and psychiatric problems and treatment resources in least restrictive and most cost effective settings will be examined.

BSHS 332.................................................................................. 3 credits
Professional, Ethical, and Legal Issues in Human Services
Ethical principles and practices of human service workers are examined in accordance with The Community Support Skill Standards for Human Service Workers and the Ethical Standards of Human Service Professionals. Major legal issues in the delivery of human services are examined. The roles, functions, and legal and ethical responsibilities of the human service worker are investigated.

MGT 449 .................................................................................. 3 credits
Quality Management and Productivity
This course examines the concepts of continuous improvement and quality management, viewing quality as a systematic process that improves customer satisfaction. The course covers methodologies that will aid managers in assuring that the organization’s quality system is effectively meeting the organization’s continuous improvement goals.

FIN 324.................................................................................. 3 credits
Financial Analysis For Managers I
This course is designed to frame financial issues for non-financial managers. Basic accounting and financial terminology and concepts are introduced and practiced. Topics covered include: the accounting environment, financial statements, financial markets, working capital management and financial planning, and Internal Controls.
Advocacy and Mediation
This course is designed to explore the potential use and benefits of mediation as a part of the advocacy process. Attention to overcoming barriers of effective service delivery will be examined. Students will experience the roles of mediator, advocate, and agency representative. Workshops will include role-plays in dyads and small groups.

Organizational Psychology
This course is concerned with analyzing the external and internal system dynamics that maximize performance excellence of individual and work groups in an organization. Organizational Psychology focuses on the human factor of business. This course applies Organizational Psychology theories and techniques to the features/dimensions of corporate structure that are transforming in order to accommodate the changes in the modern world. An understanding of external and internal customer relations in the transformed organizations is discussed.

Technology in Human Services
This course is a survey of the use of communications technology in human services. It examines how technology affects the delivery of human services and how technology is used in delivering the service. Students are required to have access to the Internet and have a valid e-mail address to take this course.

Cultural Diversity and Special Populations
Students will explore rich and unique features of ethnically diverse populations and “special populations,” and identify their human services needs. Students will become familiar with available local community services to meet those needs. The development and assessment of cultural competence as it applies to social service agencies and behavioral health professionals is emphasized.

Research and Statistics for the Social Sciences
This course is a survey of basic research methods and appropriate use of statistics in the social sciences. The nature and history of the scientific method, research tools, data collection and analysis will be reviewed. Understanding research reports and the ability to critically evaluate published research will be emphasized. While key statistical concepts will be reviewed, students will gain a conceptual understanding of underlying principles enabling them to become “informed consumers” of research. Software for descriptive and inferential parametric and nonparametric statistical procedures will be introduced to the students. Students will practice establishing research designs, critically evaluating research reports and interpreting statistical analyses.

Building Community in Organizations
This course provides a framework for understanding organizations as social communities. Students will learn to identify the essential elements of organizational communities, the managerial implications of considering organizations as communities, the skills necessary to effectively work in organizational communities and the powerful benefits of working in community. Emphasis will be placed on the skills of working effectively in community.

Program Design and Proposal Writing
This course covers finding federal, state, and private funding for human services programs and agencies and writing proposals to secure funding. Students will practice designing and evaluating programs. Students will use the Internet to explore funding sources and to identify suggestions for developing successful grant proposals.

Interdisciplinary Capstone Course
This is the capstone course for business, health and human services, and information technology undergraduate students. The course provides students with the opportunity to integrate and apply learning from their professional programs of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

Essentials of College Writing
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.
Please contact your enrollment advisor for more information.

rates if the program is available via the Online modality in their state.

concentrations depend on student demand and other factors. Not all Phoenix campus locations: Online. The availability of programs and Administration

COLLEGE OF NATURAL SCIENCES

The foundation of today’s technological world is rooted in the natural sciences. As part of any academic program, studying the natural sciences gives students insight into the fundamental processes of nature and provides the basic knowledge needed to understand modern scientific accomplishments. Students also develop the critical thinking, independent thinking, and problem solving skills that form the basis for lifelong learning.

The College of Natural Sciences offers a variety of courses in natural, environmental, and life sciences as well as programs in health administration, environmental sciences, and biology.

ASSOCIATE OF ARTS/CONCENTRATION IN HEALTH CARE ADMINISTRATION

The following Associate of Arts/Concentration in Health Care Administration (AAHCA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts Degree in Health Care Administration concentration focuses on health care organizations, roles of health care workers, public policy, information technology, financial management, and regulatory and ethical issues of health care. Students will discuss current strengths, weaknesses, and challenges of the U.S. health care system. Students will also critically examine the current state of health and disease, health care’s laws and ethics, the psychology of health, and financial operations of the health care system.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aahca.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Note: This is not a nursing program nor will the courses included in this program fully prepare a student to enter a nursing program.

CONCENTRATION IN HEALTH CARE ADMINISTRATION - TRACK A AND B

| HCA 210 ~ | This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access resources successfully. |

ADDITIONAL ADMISSION REQUIREMENTS FOR AAHCA

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

GENERAL EDUCATION REQUIREMENTS FOR THE AAHCA

- Communication Arts Requirement 6 credits
- Mathematics Requirement 6 credits
- Science & Technology Requirement 6 credits
- Social Science Requirement 6 credits
- Humanities Requirement 6 credits
- Additional Liberal Arts Requirement 3 credits
- Interdisciplinary Requirement 9 credits
Concentration 18 credits
Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total

**Degree Requirements for AAHCA**

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D-" or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

**Academic Progression Requirements for the AAHCA**

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
- All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

**Residency Requirements for the AAHCA**

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of "C" (2.0) or better (five years for information technology courses).
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Course Descriptions for the AAHCA

HCA 210: Introduction to Health Care: Riding the Fourth Wave
This course provides a broad overview of the United States health care system. The historical evolution of the business of health care is examined. The student will explore management concepts and workforce opportunities within the health care industry.

HCA 220: The Language of Health Care
This course offers the student engagement and interaction with the dynamic language of health care. Through comprehensive discussions and activities, the student will have the opportunity to be immersed in the words used in health care. This course requires a microphone and speakers or headphones for recording and listening to digital audio files.

HCA 230: Communication Skills for Health Care Professionals
This course offers the student the foundational knowledge and skills to communicate effectively in a variety of health care workplace settings. The student will discuss social and cultural influences on communication efforts, examine channels of communication including internal, external, and technology related communication, and the impact of consumer and interdisciplinary communication.

HCA 240: Health & Diseases: Understanding Pathos of Pathology
This course introduces the student to the basic principles of illness and disease commonly seen in the health care environment. Topics may include infectious and noninfectious diseases, environmental health, and the promotion of good health practices. In addition, students will be introduced to common disease and medical procedure terminology.

HCA 250: The Psychology of Health
In this course, the student is introduced to the psychological factors that relate to maintaining a healthy workplace. The course also exposes the student to management elements of cultural diversity, collaboration, and healthy behaviors.

HCA 270: Financial Matters for Health Care Professionals
This course is designed as an introduction to the terminology, processes, functions, and financial reports commonly encountered in health care operations. This course introduces the concepts of basic managerial financial functions, such as budgeting, reimbursement methods, and the responsibilities of health care financial management.

COM 150: Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220: Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125: Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205: Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media-including television, Internet, and print-to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105: Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.
The Associate of Arts Concentration in Health Care Administration/Medical Records program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts Degree in Health Care Administration with emphasis in Medical Facilities lays a foundation for further study in health care at the undergraduate level. Topics focus on medical terminology related to disease diagnosis and treatment, patient information management, and medical claims processing. Software instruction synthesizes a variety of records processes common in medical facilities.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/ahaca-mr.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Note: Associate of Arts/Health Care Administration-Medical Records provides foundation skills in medical record keeping. However, it does not lead to certification in medical coding practice or any other related practice.

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

Degree Requirements for AAHCA/MR

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D-" or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAHCA/MR

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General Education elective, or concentration courses.
• The course must have been completed within the past ten years.
• The course must have been completed and transcripted from a Regionally or nationally accredited coursework (C- or higher grade).
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
• The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
• All students entering associate degree programs with 24 or more credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
• Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAHCA/MR

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

• The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of "C" (2.0) or better (five years for information technology courses).

• The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAHCA/MR

HCA 220................................................................................... 3 credits
The Language of Health Care
This course offers the student engagement and interaction with the dynamic language of health care. Through comprehensive discussions and activities, the student will have the opportunity to be immersed in the words used in health care. This course requires a microphone and speakers or headphones for recording and listening to digital audio files.

HCA 240................................................................................... 3 credits
Health & Diseases: Understanding Pathos of Pathology
This course introduces the student to the basic principles of illness and disease commonly seen in the health care environment. Topics may include infectious and noninfectious diseases, environmental health, and the promotion of good health practices. In addition, students will be introduced to common disease and medical procedure terminology.

HCR 210................................................................................... 3 credits
Patient Records: Keeping it Real
Documenting patients’ health information is central to the continuity of medical care and the collection of medical data. This course examines the content, development, format, routing, filing, and storage of patient records. Settings include hospitals, physicians’ offices and alternate care facilities. Students review uses of health data and legal aspects of health information management.

HCR 220................................................................................... 3 credits
Claims Preparation I: Clean Bills of Health
Medical records processing revolves around insurance and reimbursement. This course focuses on the background, knowledge and skills related to basic billing duties, HIPAA regulations, patient encounters, and the preparation, compliance, and transmission of claims. Students are introduced to the history, current state and future direction of the major diagnostic and procedural coding systems.

HCR 230................................................................................... 3 credits
Claims Preparation II: Footing the Bills
This course continues medical records processing instruction. Topics focus on the background, knowledge and skills related to private payers, Medicare, Medicaid, Tricare, Champva, workers compensation and disability. Claims processing includes payments, appeals, and secondary claims; patient billing and collections; hospital billing and reimbursement.

HCR 240................................................................................... 3 credits
Computerizing Medical Data: The Paper Chase Goes Techno
This medical records capstone course enables students to develop career skills in computerizing data through application of a software program widely used in health care. While popular for medical billing and collections, MedisoftTM also applies to managing patients’ health care information, scheduling, correspondence, and a variety of reports. This course requires a PC with Windows 2000® or Windows XP® operating system.
The Bachelor of Science in Health Administration

The following Bachelor of Science in Health Administration (BSHA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Health Administration (BSHA) Program is designed to integrate a framework of general education courses with a health care curriculum that provides the graduate with the foundational knowledge needed to enter today’s challenging health industry. The BSHA curriculum focuses on the basic body of knowledge, understanding, and skills identified as relevant to an ever-expanding and diverse health care arena.

Coursework includes content in some of the following areas: management, finance, legal and ethical parameters, human resources, and information systems. Upon completion of the core curriculum, healthcare students have the opportunity to select a concentration that is designed to expand their professional opportunities.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsha.

The University reserves the right to modify the required course of study as necessary.
Additional Admission Requirements BSHA

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body; GED certificate or CHSPE (California High School Proficiency Examination) certificate.
• Applicants must be currently employed or have access to a work environment.
• Applicants to the Emergency Management concentration (BSHA/EM) must be currently employed or have prior employment experience in an Emergency Management position such as Emergency Medical Technician (EMT), First Responder, firefighter, or other emergency personnel.

Degree Requirements for the BSHA

• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 48 upper division credits
  • A minimum of 54 credits of the 120 must be in the general education areas approved by the University.
  • A minimum program grade point average (GPA) of 2.0.
  • Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.
  • Students will declare a concentration at the time of enrollment.
  • The diploma awarded for this program will read as: Bachelor of Science in Health Administration and will not reflect the concentration. Concentrations are reflected on the transcript only.

General Education Requirements for the BSHA

All students must complete a minimum of 54 credits in the following areas as a part of their minimum 120 credit degree requirement.

Communication Arts Requirement(s): 6 credits
Mathematics Requirement(s): 6 credits
Science & Technology Requirement(s): 6 credits
Must include at least 3 credits in the physical or biological sciences
Humanities Requirement(s): 6 credits
Social Science Requirement(s): 6 credits
Additional Liberal Arts Requirement(s): 6 credits
Interdisciplinary Requirement(s): 18 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BSHA

All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:

• First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
• GEN 195 will be required as the first course in the First-Year Sequence.
• HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
• With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  • University of Phoenix coursework,
  • Regionally or nationally accredited coursework (C- or higher grade),
  • University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  • National Testing Programs, and
  • ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must be comparable in content to the university course. It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
• Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)
• Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
• Students may not complete any of the First-Year Sequence courses via Directed Study.
• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.
Residency Requirements and Course Waivers for the BSHA

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of eighteen (18) upper division credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework (national testing program credit, prior learning credit, and military credit may not be used to waive with or without credit coursework in the required course of study).

Students may also waive nine (9) lower division credits from the required course of study.

In order to be granted a waiver with credit, for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years (5 years for Information Security & Technology courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver without credit, for a course in the Required Course of Study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution in which the University has entered into an approved articulation agreement with.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved Articulation Agreement.
- The course must be comparable in content and credits to the University course it is replacing and be approved through the Articulation Agreement.

The following courses in the required course of study may not be waived: GEN 200, HCS 449

Course Descriptions for the BSHA

GEN 200 ................................................................................... 3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

HCS 212 ................................................................................... 3 credits
Health Care Vocabulary
This course provides students with a foundational set of basic health care vocabulary that relates to a variety of health care work settings. Students will review terms and concepts related to the structure and professions within the health care delivery systems. In addition, students will also explore terminology related to body systems and common diseases and treatments associated with these systems.

HCS 235 ................................................................................... 3 credits
Introduction to Health and Disease
This course introduces students to the basic principles of illness and disease as well as the impact of disease trends on the delivery of services. The clinical manifestations of diseases commonly seen in the health care environment will be reviewed. The impact of health promotion and wellness program perspectives will be presented.

HCS 245 ................................................................................... 3 credits
Health Care Delivery in the United States
This course provides a broad overview of the various functions of the United States health care system. The historical evolution of health care is examined. The student is introduced to the various forms of provider models and service delivery systems found in private and public health sectors, including ambulatory, acute, mental, and long-term care. The financing aspects of health care and their influence on health care delivery and quality are outlined.

HCS 320 ................................................................................... 3 credits
Health Care Communication Strategies
This course offers students the foundational knowledge and skills to communicate effectively in a variety of health care workplace settings. Students will review basic medical terminology, discuss the influences of gender and culture, examine channels of communication including the development of interpersonal and technology related communication, and the impact of consumer and interdisciplinary communication.

HCS 325 ................................................................................... 3 credits
Health Care Management
This course explores fundamental concepts of management theory as applied to healthcare. Students will examine the organizational structure of the health care delivery system and administrative processes such as planning, problem solving, decision making, and quality productivity improvement. Emphasis will also be placed on the major issues and problem areas confronting health service administrators.
HCS 335 ................................................................. 3 credits

Health Care Ethics and Social Responsibility
This course identifies ethical issues in health care. It is designed to encourage students to clarify their personal ethic with regard to health care issues. The various responsibilities involving the management of populations whose ethics may be divergent are identified.

HCS 341 ................................................................. 3 credits

Human Resources in Health Care
This course examines the complexities and multiple issues involved in Human Resources management in health care organizations. Students will examine the strategic role of human resource management in response to changes in the health care industry. In addition, issues such as recruitment, retention, performance management, organizational development, and employee relations are examined. Federal, state, and professional regulatory requirements specific to health care are emphasized.

HCS 483 ................................................................. 3 credits

Health Care Information Systems
The course provides an overview of the integration of technology in the health care setting. Students will examine the processes used in the selection, application and evaluation of computer software and hardware. Methods and processes to make informed business decisions related to the application and use of technology in health care will be discussed.

HCS 490 ................................................................. 3 credits

Health Care Consumer - Trends and Marketing
In this course students will have the opportunity to examine the traits, trends and needs of today's health care consumer. Students will examine current consumer information for readability, implications for the selection of products and services and differentiation of health care web sources.

HCS 405 ................................................................. 3 credits

Health Care Financial Accounting
This course provides an understanding of the general principles of accounting applied in the health care environment. It includes an overview of sources of revenue for various health care entities. The fundamentals of financial planning, cost concepts, capital budgeting, and management analysis are applied in the health care environment. Issues surrounding the development and management of budgets are also examined.

HCS 440 ................................................................. 3 credits

Economics: The Financing of Health Care
This course provides an overview of the economics of health care. The various payers are examined, including private, state, and federal entities. Issues such as the cost effectiveness of prevention, the management of patients and their diseases, as well as the cost of treatment settings are discussed. Third-party reimbursement from various sources, ranging from for-profit insurance carriers to charitable donations, are reviewed. The health care system’s use of grant funding and research dollars is described.

HCS 465 ................................................................. 3 credits

Health Care Research Utilization
This course introduces students to the purpose and process of research as applied to health care. Students will examine the role of statistics and various research methods. In addition students will analyze the key elements of evidence based research within health care.

HCS 451 ................................................................. 3 credits

Health Care Quality Management and Outcomes Analysis
This course examines the relationships between health care quality and organizational performance management. The student is introduced to the rationale for performance management and the role of the governing body of the health care organization in ensuring compliance with the standards of regulatory and accreditation organizations. Methods for assuring quality in process and outcome management are described, as well as the significance and statistical application of measuring outcomes. Various health care customers are identified. Changing trends in the provision and reimbursement of health care services are reviewed.

COMM 215 ............................................................. 3 credits

Essentials of College Writing
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasoning for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

GEN 101 .............................................................. 3 credits

Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 .............................................................. 3 credits

Skills for Professional Development
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access its resources successfully.
Course Descriptions for the Concentration in Health Management

HCS 457 ................................................................. 3 credits

Public and Community Health
This course provides health care students with an introduction to the development of the public health system and through the epidemiological model students will examine the impact of environmental factors on disease trends as well as communicable disease controls. Students will develop beginning skills in community assessment and health promotion strategies. The course also reflects the advances in population health in the community health field. This course represents the concept that many populations of concern in health programs are not solely defined by geographic location.

HCS 430 ................................................................. 3 credits

Legal Issues in Health Care: Regulation and Compliance
This course covers the broad range of topics affected by health law and regulation, ranging from patient rights to corporate responsibilities. Public and private health care regulatory agencies are examined as well their impact on the operation of health care as a business. Legal issues ranging from professional malpractice to corporate wrongdoing are also discussed.

HCS 475 ................................................................. 3 credits

Leadership and Performance Development
This course provides students with an overview of leadership theories to assist in the development of effective leadership skills. Students will discuss workplace change and the leader's role in the change process as well as examining and analyzing effective performance indicators for staff and organizational goals.

HCS 455 ................................................................. 3 credits

Healthcare Policy: The Past and the Future
This course will introduce the student to the intricate processes that public policymakers use to influence the health status of a society. The role of economic theory, interest groups, and the various levels of government involved in policymaking will be examined. A historic review of trends will be evaluated, and the challenges of future health care delivery will be examined.

HCS 446 ................................................................. 3 credits

Facility Planning
This course will introduce students to the legal and regulatory challenges of facility planning and development. Students will analyze facility designs, discuss future health care consumer utilization trends, and as well as examine the regulatory compliance requirements.

HCS 449 ................................................................. 3 credits

Health Administration Capstone
Students in this course summarize their learning and formulate strategies to manage various challenges they will encounter in the healthcare environment. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

Course Descriptions for the Concentration in Emergency Management

EMC 310 ................................................................. 3 credits

Principles of Emergency Management
This course will explore the history and evolution of emergency management as well as roles of local, state, regional and national agencies. Topics include roles and organizations comprising emergency management, leadership concepts, and technology and communication challenges.

EMC 330 ................................................................. 3 credits

Political and Policy issues for Emergency Management
This course examines the political and policy environment which affects emergency management. The course is intended to help emergency managers develop an understanding of local, state, and federal policies are developed and maintained. In addition, legal issues involving state and Federal law affecting emergency operations will be studied.

EMC 340 ................................................................. 3 credits

Emergency Services and the Community
This course will look at the social dimensions of community responses to disaster related issues. Emphasis will be placed on examining effective community outreach and preparation programs as well as distribution mechanisms for public information. In addition, students will assess demographic implications and their impact on emergency prevention activities and services.

EMC 350 ................................................................. 3 credits

Managing Emergency Response Operations
This course focuses on the principles and practices that promote effective disaster response operations in emergency management. Students will examine the roles and responsibilities of the participants in a crisis event, and identify possible problems associated with response operations such as inadequate preparedness measures, safety and site security, and communication. In addition, impact of disaster on response organization and personnel will be discussed.

EMC 320 ................................................................. 3 credits

Emergency Preparedness and Planning
This course examines the preparation and planning process for emergency and crisis situations from geographical, national and local levels. Topics will include concepts of response and preparedness, recovery and mitigation strategies, hazard analysis, vulnerability assessment, exposure pathways and response capability assessment.

EMC 449 ................................................................. 3 credits

Health Administration Capstone
Students in this course summarize their learning and formulate strategies to manage various challenges they will encounter in the healthcare environment. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.
Course Descriptions for the Concentration in Long Term Care

HCS 433 ........................................................................................................ 3 credits

Dimensions of Health and the Older Adult
Basic principles and concepts of the aging process; includes the physical, social, emotional, and mental components of health. Benefits of health promotion and preventive action for the aging are also explored.
LTC 310 ........................................................................................................ 3 credits

Social and Community Related Programs and Services
This course provides an overview of programs and policies related to our rapidly expanding aging population. Services designed to enable the older adult to support their health and economic well being as well as support for their families will be examined. Issues and trends related to areas such as social and community services, economic issues, and attention to the growing needs of the aging population with special needs will be included.
HCS 437 ........................................................................................................ 3 credits

Long-term Care Administration
This course examines the organization and management of long-term care and assisted living facilities. The impacts of state and federal regulation are analyzed, as well as issues surrounding funding services are discussed. Students will examine the health services needed for current and future populations needing long term care.
LTC 315 ........................................................................................................ 3 credits

Alternative Living Environments
This course focuses on the various formats of care and living environments for the older adult. The cultural and socioeconomic demographics of our current aging population provide different expectations and needs from previous generations. With the changing needs of this population and their families, students will focus on understanding the multidisciplinary continuum of factors to be considered when determining the living and care options available.
LTC 328 ........................................................................................................ 3 credits

Legal Perspectives in Aging
This course will look at the diverse legal issues related to today’s older adult. Topics will include age discrimination, advocacy and autonomy, elder and fraud abuse, major life transitions, and end of life decision making.
HCS 449 ........................................................................................................ 3 credits

Health Administration Capstone
Students in this course will summarize their learning and formulate strategies to manage various challenges they will encounter in the healthcare environment. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

Course Descriptions for the Concentration in Health Information Systems

HCIS 410 ........................................................................................................ 3 credits

Project Planning and Implementation in Health Care
This course provides the foundation for understanding the broad concepts of successful planning, organization, and implementation within the realm of health care information technology. This course uses real-world examples to support and expand a student’s skills in project management. Topics covered include project scoping, estimating, budgeting, scheduling, tracking and controlling.
DBM 381 ........................................................................................................ 3 credits

Database Concepts
This course covers database concepts. Topics include data analysis, the principal data models with emphasis on the relational model, entity-relationship diagrams, database design, normalization, and database administration.
NCT 361 ........................................................................................................ 3 credits

Network and Telecommunications Concepts
This course provides an overview of telecommunication systems in a business environment. Topics covered include voice communications, standards, transmission, networks, and internetworking.
BSA 376 ........................................................................................................ 3 credits

Systems Analysis and Design
This course introduces the fundamental, logical, and design considerations addressed during system and application software development. It provides a solid background in information systems analysis and design techniques through a combination of theory and application. The Systems Development Life Cycle will be fundamental to the course.
HCIS 420 ........................................................................................................ 3 credits

Information Systems Risk Management in Health Care
This course identifies and defines the types of risks that information systems professionals need to consider during the development and implementation of health care information systems. This course will survey remedies and prevention techniques available to address risk and security management. Health care organizational policies and current regulatory considerations will also be examined relative to development, implementation and use of computer based information systems.
HCS 449 ........................................................................................................ 3 credits

Health Administration Capstone
Students in this course will summarize their learning and formulate strategies to manage various challenges they will encounter in the healthcare environment. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.
The College of Criminal Justice and Security prepares students for professional and management-related careers in criminal justice and security by applying a multidisciplinary comparative management approach to criminal justice theory and application. Students will be prepared to understand, explain, and predict criminal justice and security concepts and to contribute to the development of public and private policy within communities. Our mission is to enhance the academic preparation and professionalism of the nation's criminal justice and security communities through access to quality criminal justice and security higher education. The College of Criminal Justice and Security provides innovative, respected, relevant, affordable, and student-focused programs, designed to prepare students for service and leadership in a diverse, global society. Curriculum is delivered by experts who relate both theory and practice in this evolving field. The College has earned respect through continuous improvement driven by a combination of innovation in the field and empirical evidence of learning outcomes, all of which is accomplished through the integrity, teamwork, and creativity of college faculty and staff. We are a respected criminal justice and security college, known for its distinctive strengths in providing superior and relevant educational programs to its students.

It is the student's responsibility to ascertain whether their past history and conduct may prohibit their placement or participation in the criminal justice and security field. The University makes no guarantee or representation that the student will meet all qualifications for such employment or licensure for the occupation or profession related to the chosen program.

**Associate of Arts/Concentration in Criminal Justice**

The following Associate of Arts/Concentration in Criminal Justice (AACJ) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts Degree in Criminal Justice concentration focuses on policing practices, corrections, the criminal court system, and juvenile justice. Students take a comprehensive look at these topics through interactive assignments that not only develop their critical thinking skills, but also enable them to recognize the functions of the criminal justice professions within their community. Students are required to formulate conclusions, evaluate decisions, and develop opinions based on learned topics. Students analyze relationships between the citizens, the police, and the court systems.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aacj.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

### Concentration in Criminal Justice - Track A and B

- **CJS 200 ~** Foundations of the Criminal Justice System 3 credits
- **CJS 210 ~** Fundamentals of Policing 3 credits
- **CJS 220 ~** Introduction to Criminal Court System 3 credits
- **CJS 230 ~** Introduction to Corrections 3 credits
- **CJS 240 ~** Introduction to Juvenile Justice 3 credits
- **CJS 250 ~** Introduction to Security 3 credits

### Additional Admission Requirements for AACJ

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

### General Education Requirements for the AACJ

**Communication Arts Requirement** 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)

**Mathematics Requirement** 6 credits

**Science & Technology Requirement** 6 credits
(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)

**Social Science Requirement** 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)

**Humanities Requirement** 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)

**Additional Liberal Arts Requirement** 3 credits
(A Track must include: GEN 105)
(B Track must include: UIS 101)

**Interdisciplinary Requirement** 9 credits
(B Track must include: FP 101)

**Concentration 18 credits**

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
Degree Requirements for AACJ

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of “D-” or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study with the exception of the electives will only be applied to the core and cannot count toward General Education totals.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AACJ

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
- All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AACJ

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AACJ

CJS 200

ศาสตร์พื้นฐานของระบบยุติธรรมอาชญากรรม

This course is an introduction to the foundational elements of the criminal justice system. Students examine this system from its influential past to its multi-faceted present to its theorized future. This course gives the student an interactive pathway through the laws that protect the system, through the people that enforce the system, and through the courts that govern this system. It also provides an overview of the correctional systems and their impact and roles in American society. Other topics include crime causation, terrorism, and cyber crime related issues.
CJS 210 ................................................................. 3 credits
Fundamentals of Policing
This course provides students with the opportunity to gain a basic understanding of policing in the United States. It examines the history of the police, the emerging role of private security, and the organizational concepts of police departments. This course also discusses the relationships between the police department and their respective communities. Other topics include recruitment processes, diversity, culture, and laws that govern policing. Students will have the opportunity to research their local police department for a closer look at policing in their community.

CJS 220 ................................................................. 3 credits
Introduction to Juvenile Justice
This course is an introduction to the fundamental elements of the courts in our criminal justice system. Students will examine the many complexities affecting the court system, from the theory behind the creation of laws to the implementation of such laws. This course provides an in-depth look into the roles and functions of the professionals interacting within the court while outlining the courtroom process. Other topics include punishments, appeals, and plea bargains.

CJS 230 ................................................................. 3 credits
Introduction to Corrections - A World Apart
This course introduces students to the fundamental elements of the corrections system within the criminal justice field. Students will examine the early implementations of punishment as well as evolving philosophies of sentencing. Students will gain insight into the purpose and functions of jails and prisons, while establishing a connection between prison life and prisoner’s rights. Students will also take an in-depth look into how parole and probation affect our communities. Other topics include correctional management, rehabilitation, and correctional systems in other countries.

CJS 240 ................................................................. 3 credits
Introduction to Criminal Court System
This course is a general orientation to the concept of delinquency and the field of juvenile justice. Students will examine the nature of delinquency, as well as a variety of theories and suspected causes of delinquent behavior. Students will study factors related to delinquency and/or prevention including gender, youthful behavior, family, peers, drug use, school, and community. This course will also familiarize students with the evolution of juvenile justice and key players in the juvenile justice process. Additionally, students will develop an understanding of the juvenile court process, as well as juvenile detention, restitution, prevention, and treatment.

CJS 250 ................................................................. 3 credits
Introduction to Security
This course is an introduction to contemporary security practices and programs. Students will study the origins of private security, its impact on our criminal justice system, and the roles of security personnel. Students will also examine the growth and privatization of the security industry, and study the elements of physical security including surveillance and alarm systems. The course will cover legal and liability issues, which determine the extent of private security authority as well as its limitations. This course will also focus on the current and future integration of private security services in law enforcement agencies.

COM 150 ................................................................. 3 credits
Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 ................................................................. 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 ................................................................. 3 credits
Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 ................................................................. 3 credits
Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media-including television, Internet, and print-to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 ................................................................. 3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.
Bachelor of Science in Criminal Justice Administration

The following Bachelor of Science in Criminal Justice Administration (BSCJA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The mission of the Bachelor of Science in Criminal Justice Administration is to provide students with a strong foundation in criminal justice principles, concepts, and theories, as well as a practice orientation to justice administration. The degree offers a global perspective, as well as specific concentration areas of criminal justice services delivery. Students will receive core instruction in criminal justice as it is represented in the domains of police, courts, and corrections and then advance to concentrations related to specific areas of criminal justice within those domains.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bscja.

Students may also complete an additional concentration. Please contact your academic representative for more information.

### Concentration in Human Services

The BSCJA Human Services concentration is intended to give graduates knowledge and basic skills to work in the human services and helping areas of the criminal justice system. This particular concentration represents an integrated program combining academic instruction in criminal justice with applied skills for students whose goal is a career in the areas of the system where basic skills in interviewing, case management, mental health interventions, advocacy and mediation are required. Human Services graduates are prepared to provide services in a variety of institutional and community settings within the criminal justice domains of policing, the courts, institutional and community corrections.

### Concentration in Management

The BSCJA Management concentration is designed to give learners a depth of understanding concerning the management and administrative skills necessary to effectively run organizations in the various domains of criminal justice system. The courses included in this degree concentration focus primarily on the management and administration skill sets associated with the police, the courts, and with corrections. The theories and principles behind criminal justice are also examined. Students learn about policies, procedures associated with management functions, as well as many administrative practices and factors impacting criminal justice agency operations. This will not only give you the insight into what these specific departments are and what they do, but how to maintain and evaluate organizational operations from an administrative viewpoint.

Concentration in Institutional Healthcare

The BSCJA Institutional Health Care concentration addresses the basic body of knowledge, understanding, and skills identified as relevant to criminal justice based health care services. This includes such areas as management, policy, legal and ethical parameters, health and disease factors, and health care service delivery. The reshaping of contemporary criminal justice health care requires workers to have a broad range of knowledge associated with the functions of health care in detention and correctional institutions, as well as various other areas represented in the greater criminal justice system.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bscja-ih.

Criminal Justice Administration Capstone

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BSCJA

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
• Applicants must be currently employed or have access to a work environment.
• Signed Criminal Conviction Prohibition Acknowledgement Form

General Education Requirements for the BSCJA

A minimum of 54 credits of the 120 credits in the following general education areas approved by the University:

- Communication Arts, 6 credits
- Mathematics, 6 credits
- Science and Technology, 6 credits
- Humanities, 6 credits
- Social Science, 6 credits
- Additional Liberal Arts, 6 credits
- Interdisciplinary Requirements, 18 credits

Must include at least three credits in physical or biological sciences

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Degree Requirements for the BSCJA

• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 45 upper division credits.
  • A minimum of 54 credits of the 120 credits must be in the general education areas approved by the University.
  • A minimum program grade point average (GPA) of 2.0.
• Students must satisfy all required courses of study and general education requirements. Any remaining credits may be satisfied by elective coursework.
• Students will declare a concentration at the time of enrollment.
• The diploma awarded for this program will read as: Bachelor of Science in Criminal Justice Administration and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the BSCJA

All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to enroll in the First-Year Sequence:

• First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
• GEN 195 will be required as the first course in the First-Year Sequence.
• HUM 114 will be required as the last course in the First-Year Sequence.
• All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.

With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:

- University of Phoenix coursework,
- Regionally or nationally accredited coursework (C- or higher grade),
- University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
- National Testing Programs, and
- ACE evaluated Military credits.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215).
• Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
• Students may not complete any of the First-Year Sequence courses via Directed Study.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others. All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the BSCJA
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 15 upper division credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. Students may also waive twelve (12) lower division credits from the required course of study.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
• The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten years (5 years for Information Security and Technology courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and be approved through the Articulation Agreement.
• The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved Articulation Agreement.
• The course must be comparable in content and credits to the University course it is replacing and be approved through the Articulation Agreement.

The following courses in the required course of study may not be waived: GEN 200, CJA 484

Course Descriptions for the BSCJA
GEN 200 ........................................................................................................3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

CJA 204 ........................................................................................................3 credits
Introduction to Criminal Justice
This course is an introductory overview of the organization and jurisdictions of local, state, and federal law enforcement, judicial and corrections agencies, and processes involved in the criminal justice system. It examines the historical aspects of the police, courts, and the correctional system, as well as the philosophy. Additionally, career opportunities and qualifying requirements, terminology and constitutional limitations of the system will also be covered.

CJA 214 ........................................................................................................3 credits
Introduction to Policy Theory and Practices
This course is an introductory overview which provides students with the opportunity to gain an understanding of policing in the United States. It surveys the basics of police functions, from individual and organizational roles to the issues faced on a daily basis. This course also examines the procedures and methods of operation of police and critical issues in law enforcement.

CJA 224 ........................................................................................................3 credits
Introduction to Criminal Court Systems
This course is an introduction and overview of the legal system, the participants, the courtroom process, and post conviction process of the course system. It demonstrates the connection among all participants and how they relate to each other. Additionally, the course covers the history of the court system and the different types of court at the state and federal levels.

CJA 234 ........................................................................................................3 credits
Introduction to Corrections
This course is an introduction to the various components of the corrections system within the criminal justice system. It provides an overview of corrections, including corrections history, the persons, agencies, and organizations that manage convicted offenders. Other topics that are covered include policy and procedure, sentencing, probation, and rehabilitations of prisoners.
CJA 304  .................................................................................... 3 credits  
**Interpersonal Communications**

This course prepares the student to communicate effectively in both written and verbal form. It covers best practices in investigative reporting and interpersonal verbal communication with victims, suspects, and civilians, in a criminal justice setting. Emphasis is placed on practical application of the skills and theories introduced.

CJA 314  .................................................................................... 3 credits  
**Criminology**

Criminology is an introductory course in the study of crime and criminal behavior, focusing on the various theories of crime causation. This course highlights the causes of crime, criminal behavior systems, societal reaction to crime, and criminological methods of inquiry.

CJA 324  .................................................................................... 3 credits  
**Ethics in Criminal Justice**

This course explores the standards and codes of professional responsibility in criminal justice professions (e.g., Law Enforcement Code of Ethics, ABA Standards of Professional Responsibility, American Jail Association Code of Ethics for Jail Officers, and the American Correctional Association Code of Ethics). It also explores analysis and evaluation of ethical dilemmas, roles of professional organizations and agencies, ethics and community relations, ethics in criminal justice laws and procedures and civil liability in law enforcement and correctional environments.

CJA 334  .................................................................................... 3 credits  
**Research Methods in Criminal Justice**

Students learn and demonstrate knowledge of research methodology within the criminal justice system and become acquainted with the range and scope of quantitative and qualitative tools available to the criminal justice researcher.

CJA 344  .................................................................................... 3 credits  
**Cultural Diversity Issues in Criminal Justice**

This course offers a comprehensive, critical and balanced examination of the issues of crime and justice with respect to race and ethnicity. Procedures and policy in a pluralistic and multicultural society are examined relative to law enforcement, courts and corrections environments.

CJA 354  .................................................................................... 3 credits  
**Criminal Law**

This is an introductory course in the study of criminal law, general legal principles, and how the criminal law functions in and affects modern society. This course highlights a variety of key topics, including the concept of crime and the development of criminal law, defenses to criminal charges, and a number of specific types of crimes, including personal crimes, property crimes, public order crimes, and offenses against public morality. Legal issues affecting punishment will also be discussed, as will ways the criminal law impacts victims of crime.

CJA 364  .................................................................................... 3 credits  
**Criminal Procedure**

This course explores the basic core knowledge of constitutional criminal procedure. Emphasis is placed on the Fourth, Fifth and Sixth Amendments, searches and seizures, interrogations and confessions, identifications, pre-trial and trial processes. In addition, the United States Constitution as interpreted by the U.S. Supreme Court is examined along with philosophical policy considerations. Application of core knowledge is developed through simulation exercises and examination of homeland security issues.

CJA 374  .................................................................................... 3 credits  
**Juvenile Justice Systems and Processes**

This course is a general orientation to the field of juvenile justice, including causation theories and the development of system responses to delinquent behavior. The problems facing juveniles today are addressed, and adult and juvenile justice systems are compared, including initial apprehension, referral, and preventive techniques. Specific issues examined include chemical dependency, mental illness, and compulsive and habitual offenders. Special attention is given to the problems inherent in the police handling of juveniles and the function of juvenile courts.

CJA 384  .................................................................................... 3 credits  
**Criminal Organizations**

This course is a survey of the origins and development of organized crime in the United States. It examines the structure and activities of organized criminal enterprises, considers different models that have been employed to describe organized crime groups, and explores theories that have been advanced to explain the phenomenon. Major investigations of organized crime and legal strategies that have been developed to combat it are also considered.

CJA 394  .................................................................................... 3 credits  
**Contemporary Issues and Futures in Criminal Justice**

This course examines both the principle issues in contemporary criminal justice as well as the extrapolation of such issues toward possible futures within the criminal justice field. Students will focus upon relevant research in policing, courts, and corrections that reflects key elements of current conditions and what may be expected in the years to come. Students will apply critical review and engage in in-depth discussion of these concepts as a basis for comprehensive understanding at local, state, national, and global levels of criminal justice administration.

COMM 215  .................................................................................... 3 credits  
**Essentials of College Writing**

This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University Library and learn how to access its resources successfully.

Course Descriptions for the Concentration in Human Services

BSHS 311 ..................................................................................3 credits
Models of Effective Helping
This course presents an exploration of the major theoretical areas in the helping professions: cognitive, behavioral, affective/humanistic, and systemic. Students learn the theoretical basis for each of the major theories, the approach to change, and the techniques and interventions used by practitioners of these theories. The course emphasizes the development of a personal theory and approach to human services and the creation of a resource file containing practical applications of theory-based techniques for use by the human service worker.

BSHS 401 ..................................................................................3 credits
Case Management
This course covers principles, practices, and issues in case management. The diagnosis and treatment of developmental, psychological, and psychiatric problems and treatment resources in least restrictive and most cost effective settings will be examined.

BSHS 441 ..................................................................................3 credits
Advocacy and Mediation
This course is designed to explore the potential use and benefits of alternative dispute resolution in human services as a part of the advocacy process. Students will explore the role of the advocate, learn about various dispute resolution models, and identify and practice mediation skills. Attention to overcoming barriers to effective service delivery will be examined. Students will experience the roles of mediator, advocate, and agency representative through role-plays in dyads and small groups.

BSHS 471 ..................................................................................3 credits
Mental Health and Crisis Intervention Practices
Students will learn about the history and current status of the human services delivery system and the mental health services system. Appropriate protocols for assessing strategies will be examined and explored. Students will explore the skills, techniques, and uses of crisis intervention.

GEN 101 ..................................................................................3 credits

CJA 484 ..................................................................................3 credits
Criminal Justice Administration Capstone
This capstone course for the criminal justice administration undergraduate degree program provides students with an integration of acquired knowledge of theory to practical applications. Particular attention is given to integrating core content of criminal justice administration with specialized content from students' selected concentration area. Students will assess the impact of their educational experiences on their professional competence and values, critical thinking and problem solving, communication, information utilization, and collaboration skills.

Course Descriptions for the Concentration in Management

CJA 444 ..................................................................................3 credits
Organizational Behavior and Management
This course in organizational behavior encompasses the study of individual and group behavior as they apply to criminal justice organizations - court systems, law enforcement, and corrections. Managing organizational behavior challenges individuals to understand organizational structure and systems, leadership, motivation, effective communication, change management, and performance systems. A comprehensive review of these processes, as well as others, will allow students to examine their role in criminal justice systems in our rapidly changing society.

CJA 454 ..................................................................................3 credits
Criminal Justice Management Theory and Practice
This course applies management and financial principles to criminal justice organizations. Emphasis is placed on budgets, financial accounting principles and assessing the effectiveness of the activities of criminal justice organizations. Constitutional requirements, court decisions, and legislation (such as EEOC requirements) as they impact management in criminal justice organizations are discussed. Basic accounting and financial terminology, and purposes and formats of financial statements are introduced: depreciation of assets, capital budgeting, cash management, lease versus purchase, and inventory management.

CJA 464 ..................................................................................3 credits
Criminal Justice Policy Analysis
This course examines the history of federal- and state-level crime control initiatives and explores the development of effective anti-crime policies. The analysis of contemporary crime control policies is included.

CJA 474 ..................................................................................3 credits
Managing Criminal Justice Personnel
This course is a survey of important personnel issues inherent to organizations and especially to Criminal Justice organizations. Problems, procedures and solutions to common personnel issues will be explored.

CJA 484 ..................................................................................3 credits
Criminal Justice Administration Capstone
This capstone course for the criminal justice administration undergraduate degree program provides students with an integration of acquired knowledge of theory to practical applications. Particular attention is given to integrating core content of criminal justice administration with specialized content from students' selected concentration area. Students will assess the impact of their educational experiences on their professional competence and values, critical thinking and problem solving, communication, information utilization, and collaboration skills.

Associate Programs Pathways Program

Non-degree seeking students are permitted to take courses if admitted into the Pathways Program. The Pathways Program is designed for current high school juniors and seniors seeking to earn college credits while still enrolled in secondary schools. Pathways students may earn a maximum of 12 credits at the University of Phoenix. Non-degree students are not eligible to receive most types of financial aid or veterans benefits and must demonstrate English proficiency, if applicable, to be eligible for course enrollment. The Pathways Program admissions process must be completed before enrollment in any courses.

Admission into the Pathways program requires:
- Pathways Non-degree Application
- High School Junior or Senior Standing
- Pathways students must meet all prerequisite requirements for the program in which the courses are included. Students must also meet all admission requirements, with the exception of the HS diploma or equivalent
- Parent or guardian consent
- $25 application fee

Before proceeding beyond 12 credits, Pathways program students must submit a University of Phoenix degree seeking application for admission, possess a high school diploma (or equivalent), and be granted acceptance to the University of Phoenix. Pathways students who want to earn more than 12 credits will be deemed degree seeking and be required to submit an application for admission to a University of Phoenix degree program.

Note: The Pathways Program is not available in all states. Please consult an enrollment counselor to determine if residents of a specific state are eligible for this program.
Undergraduate Business and Management works closely with other academic colleges to provide and administer academic courses in other business related fields. In cooperation with the College of Information Systems and Technology (IS&T), the College of Undergraduate Business and Management provides select IS&T courses in the e-Business and Information Systems major. The college also works cooperatively with the Colleges of Arts and Sciences to give breadth to the undergraduate learning experience through the integration of general education and professional course work.

**Associate of Arts/Concentration in Accounting**

The following Associate of Arts/Concentration in Accounting (AAACC) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associates of Arts in Accounting concentration focuses on the role of accounting in business strategy, financial statements, cost information, economics, management, and ethical issues. Students will encounter real-world scenarios where they will use accounting information resources and systems, and present conclusions based on accounting and business data. Additionally, students will use ledgers, journals, and worksheets to complete formal, informal, and quantitative accounting tasks.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aaacc.

### Additional Admission Requirements for AAACC

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

### General Education Requirements for the AAACC

- Communication Arts Requirement 6 credits
  - (A Track must include: COM 150 and COM 220)
  - (B Track must include: COM 155 and COM 156)
- Mathematics Requirement 6 credits
- Science & Technology Requirement 6 credits
  - (A Track must include: 3 credits in the physical or biological sciences)
  - (B Track must include: SCI 162)
- Social Science Requirement 6 credits
  - (A Track must include: ETH 125)
  - (B Track must include: PSY 201 and ETH 125)
- Humanities Requirement 6 credits
  - (A Track must include: CRT 205)
  - (B Track must include: HUM 111)
- Additional Liberal Arts Requirement 3 credits
  - (A Track must include: GEN 105)
  - (B Track must include: LIS 101)
- Interdisciplinary Requirement 9 credits
  - (B Track must include: FP 101)
- Concentration 18 credits

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

### Degree Requirements for AAACC

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D-" or higher.
- A minimum program grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.
Academic Progression Requirements for the AAACC

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
- All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAACC

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

Course Descriptions for the AAACC

ACC 220 .................................................................3 credits
Survey of Accounting: The Maze of Numbers
Every business depends on its accountants to organize and maintain financial information. Accountants translate the maze of numbers most people see into valuable information that keeps a company going. This course introduces students to the accounting profession. It covers the role accounting plays in business and career options in accounting. Students learn the fundamentals of accounting principles and the accounting cycle.
ACC 225 .................................................................3 credits
Financial Accounting
Financial accounting communicates economic information and serves as a tool for business decision making. Through financial accounting, accountants track how money circulates in an organization. This course provides an understanding of the fundamental principles of double entry accounting as applied to practical business situations. Emphasis is given to the following: debit and credit rules of accounting, T-accounts, journalizing transactions, adjusting entries for revenue and expense items, inventories, internal control with emphasis on cash, and accounting information systems. Students will be able to prepare and use the income statement, balance sheet, and statement of cash flows.
ACC 260 .................................................................3 credits
Accounting Ethics: Keeping it Clean
Businesses’ accounting practices are under heightened scrutiny following corporate scandals in recent years. Accountants have a legal and ethical responsibility to follow the law and standard accounting practices as they document their companies’ finances. The course is an introductory level course in ethics, focusing on the types of situations that pose ethical problems in business. An attempt will be made to help the student develop an ethical framework which will allow the student to address ethical issues in the business world. Current trends in accounting ethics, including the Sarbanes Oxley regulations and the ethical requirements for certified public accountants are emphasized.
FIN 200 .................................................................3 credits
Introduction to Finance: Harvesting the Money Tree
This course gives students an overview of finance concepts, terminology, and principles. It is an introduction to the role of finance in the business world. Topics covered include the relationship between finance and accounting, careers in finance, basic financial analysis and planning techniques, financial ratios, profit, cash flow, and sources of business financing.
ACC 230 ................................................................. 3 credits
Financial Reporting: Peeking Under the Financial Hood
In this course, students will study how to analyze financial statements and methods used to value companies. Financial reports help managers choose between business paths. They also help investors and analysts evaluate the financial health of companies. This course is a practical means of discovering how financial data are generated and their limitations; techniques for analyzing the flow of business funds; and methods for selecting and interpreting financial ratios. It also presents analytical tools for predicting and testing assumptions about a firm’s performance.

ACC 250 ................................................................. 3 credits
Accounting Information Systems
Accountants today have put aside paper and pencil and taken advantage of advances in technology. Specialized software has made accounting transactions and reporting more dynamic and efficient. In this course, students will understand the role of accounting information systems in organizations. The course covers the different types of accounting systems used for the collection, organization, and presentation of information. Using accounting software, the students will explore how accounting information systems are used to assist management in decision-making processes. Emphasis will also be placed on the internal controls that should be included in an accounting information system.

COM 150 ................................................................. 3 credits
Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 ................................................................. 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 ................................................................. 3 credits
Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRF 205 ................................................................. 3 credits
Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media—including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 ................................................................. 3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

The following Associate of Arts/Concentration in Hospitality, Travel and Tourism (AAHTT) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Hospitality, Travel, and Tourism concentration provides content and practical application in an array of food service, lodging management, and tourism industry careers. The courses emphasize the leadership competencies and knowledge that provide the foundation of management practices valued in the hospitality arena. The Hospitality, Travel, and Tourism associate degree program is also planned to prepare the student for further study in hospitality or related programs at the undergraduate level. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aahttt.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

**Concentration in Hospitality, Travel and Tourism - Track A and B**

HTT 200 ~ ................................................................. 3 credits
Hospitality

HTT 210 ~ ................................................................. 3 credits
Travel and Tourism: Work, Pleasure, Forever Enriching

HTT 220 ~ ................................................................. 3 credits
Information Technology in Hospitality, Travel and Tourism

HTT 230 ~ ................................................................. 3 credits
Finance for Hospitality Professionals: Bed and Balance Sheets
HTT 240 ~.................................................................................3 credits
Food and Beverage Management: Eat, Drink and Be Healthy
HTT 250 ~.................................................................................3 credits
Lodging and Resort Operations
The University reserves the right to modify the required course of study.

Additional Admission Requirements for AAHTT
• Applicants must be at least 16 years of age at the time of application.
• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AAHTT
Communication Arts Requirement 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)
Mathematics Requirement 6 credits
Science & Technology Requirement 6 credits
(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)
Social Science Requirement 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)
Humanities Requirement 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)
Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 105)
(B Track must include: US 101)
Interdisciplinary Requirement 9 credits
(B Track must include: FP 101)
Concentration 18 credits
Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total

Degree Requirements for AAHTT
The degree requirements for this program are the following:
• Completion of a minimum of 60 credits.
• All undergraduate students are required to complete the minimum general education credits required by their program version.
• Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
• Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of “D-” or higher.
• A minimum grade point average (GPA) of 2.0.
• Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total

• The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAHTT
• All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
• US 101 will be required as the first course in the first block of the First-Year Sequence.
• HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
• With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  • University of Phoenix coursework,
  • Regionally or nationally accredited coursework (C- or higher grade),
  • University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  • National Testing Programs, and
  • ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
• All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
• Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAHTT
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.
Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAHTT

HTT 200 .......................................................... 3 credits
Hospitality: Food, Shelter, and Fun Away From Home
This course is an overview of the history, current trends, and general organizational structure of the hospitality industry. Additionally, the course covers topics such as recreational entertainment, economic impact of hospitality, and service standards. The course also gives students the opportunity to examine careers in tourism, foodservice, and lodging industries.

HTT 210 .......................................................... 3 credits
Travel & Tourism: For Work, For Pleasure, Forever Enriching
This course introduces the tourism industry and its major components such as the travel mart, surface travel, air travel, business travel, cruises, and recreation. It covers current issues in tourism and their effect on the hospitality industry as a whole including economic, political, and cultural forces, and quality of life impacts on host locals. Career opportunities within travel and tourism are also discussed.

HTT 220 .......................................................... 3 credits
Information Technology in Hospitality, Travel and Tourism: When Distribution Joins Automation
This course explores the impact of information and communication technologies on the structure and operations of the hospitality, travel, and tourism industry. It covers topics dealing with the interaction between consumers, intermediaries, operatives, and management through rapidly changing technologies. Effects on service quality, productivity, efficiency, and profitability will be examined.

HTT 230 .......................................................... 3 credits
Finance for Hospitality Professionals: Bed & Balance Sheets
This course focuses on conceptual awareness and practice of financial management as it applies to hospitality, travel, and tourism industries. It covers the basics of accounting, budgets and budgeting systems, performance measures creation, and financial statement evaluation for the purpose of cost analysis and planning. Aspects of setting prices, funding, and risk management are also covered.

HTT 240 .......................................................... 3 credits
Food & Beverage Management: Eat, Drink, & Be Healthy
This course integrates the basic concept and practical skills related to foodservice operations, from the front office to the kitchen. It covers basic principles of purchasing and cost management of food and beverage, as well as menu planning, institutional food service, and quality control.

HTT 250 .......................................................... 3 credits
Lodging and Resort Operations: There’s Room In the Inn
This course studies the lodging industry, its history, growth, development, and future direction. It covers front office procedures and interpersonal dynamics from reservations through the night audit. The course also examines career opportunities in lodging and resorts.

COM 150 .......................................................... 3 credits
Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 .......................................................... 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 .......................................................... 3 credits
Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 .......................................................... 3 credits
Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media— including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.
GEN 105 ......................................................................................3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

Associate of Arts/Concentration in Foundations of Business

The following Associate of Arts/Concentration in Foundations of Business (AAFB) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts with a concentration in Foundations of Business focuses on a variety of business essentials including economics, information systems, managerial ethics, financial accounting, business research and effective managerial communications. Students will explore business principles and learn to apply problem-solving strategies to real-life scenarios. In addition, students will also discuss the effects of culture and ethics in current global and domestic business environments.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aafb.

Course Descriptions for the AAFB

**BUS 210** ................................................................. 3 credits

**Foundations of Business**

In this course students will explore the foundation of business by reviewing topics regarding the structure and culture of the modern business environment. Additional topics include the evolution of business, the role of the business ethics, communication, technology, operations, leadership, and human resources. Upon completion, students are better prepared to make informed decisions regarding their educational and professional goals.

**XECO 212** .......................................................... 3 credits

**Principles of Economics**

This course introduces the fundamental theories of microeconomics and macroeconomics. The economic principles studied in this course apply to everyday life as students research an industry, debate issues with trade agreements, discuss the effects of a shift in labor supply and demand, and discuss the strengths and weaknesses of the Consumer Price Index calculation. In particular, students research an industry affected by the economy and perform an economic analysis of the chosen industry.

**XBIS 219** ............................................................. 3 credits

**Business Information Systems**

This course provides an overview of Business Information Systems. This includes a broad foundation for both technical and non-technical business professionals. Special emphasis is placed on how information is used by different types of businesses across different industries.

**XMGT 216** .......................................................... 3 credits

**Organizational Ethics and Social Responsibility**

This course provides a foundational perspective for socially responsible management practices in business. Special emphasis is placed on the inter-related nature of ethics, moral, legal, and social issues in managing individuals, groups, and the organization within a business environment.

**XACC 280** ........................................................... 3 credits

**Financial Accounting Concepts and Principles**

This course covers the fundamentals of financial accounting as well as the identification, measurement, and reporting of the financial effects of economic events on the enterprise. Financial information is examined from the perspective of effective management decision making with special emphasis on the planning and controlling responsibilities of practicing managers.
The Bachelor of Science in Business

The following Bachelor of Science in Business (BSB) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Business (BSB) undergraduate degree program is designed to prepare graduates with the requisite knowledge, skills, and values to effectively apply various business principles and tools in an organizational setting. The BSB foundation is designed to bridge the gap between theory and practical application, while examining the areas of accounting, critical thinking and decision-making, finance, business law, management, marketing, organizational behavior, research and evaluation, and technology. Students are required to demonstrate a comprehensive understanding of the undergraduate business curricula through an integrated topics course.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Essentials of Managerial Communication

This course introduces students to the foundations of communication in a business setting. Students are exposed to various topics related to interpersonal and group communication with an eye toward applications in an office or virtual office setting. Students will develop skills in various forms of written communication, including memos, emails, business letters, and reports. Communication ethics and cross-cultural communications are also explored. Upon completing the course, students will have an awareness of their personal communication style and be able to identify areas for further exploration of communication as a business skill.

COM 150 ............................................................................. 3 credits
Effective Essay Writing

In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 ............................................................................. 3 credits
Research Writing

Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 ............................................................................. 3 credits
Cultural Diversity

This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 ............................................................................. 3 credits
Critical Thinking

In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media-including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 ............................................................................. 3 credits
Skills for Learning in an Information Age

This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.
Finance, 3 total credits

FIN 370 ~ ................................................................. 3 credits
Finance for Business

Marketing, 3 total credits

MKT 421~ ................................................................. 3 credits
Marketing

Research and Statistics, 6 total credits

Quantitative Analysis for Business

Business Capstone, 3 total credits

BUS 475~ ................................................................. 3 credits
Integrated Business Topics

Students must select one concentration in a particular area of study at the time of enrollment.

Students may also complete an additional concentration. Please contact your academic representative for more information.

Accounting Concentration

The Accounting Concentration promotes identification with and orientation to the accounting profession and is designed to provide knowledge skills, and abilities necessary for a career in accounting. Core competencies in technology, critical thinking, and communication are emphasized throughout the curriculum. The program also utilizes specific accounting problem-solving software to provide students with practical knowledge of the accounting field. Students have broad exposure to varied business disciplines, including management, organizational behavior, economics, and finance, and learn how the general manager integrates these disciplines to meet the strategic goals of the organization.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsb-acc.

ACC 349 ~ ................................................................. 3 credits
Cost Accounting

ACC 421 ~ ................................................................. 3 credits
Intermediate Financial Accounting I

ACC 422 ~ ................................................................. 3 credits
Intermediate Financial Accounting II

ACC 423 ~ ................................................................. 3 credits
Intermediate Financial Accounting III

ACC 497 ~ ................................................................. 3 credits
Advanced Topics in Accounting Research

The BSB/ACC may not educationally qualify graduates to sit for the CPA exam in some states. To the extent that a student intends to sit for the CPA examination, the student should consult with the applicable board of examiners in the state or states in which the individual intends to sit for the examination to determine the precise educational and other requirements, including the acceptability of the University’s BSB/ACC.

Administration Concentration

The Business Administration concentration is designed for the working professional employed in a business or public organization. The major coursework emphasizes quantitative skills and is designed to enable graduates to deal effectively with an increasingly complex business environment. The administration concentration examines the areas of operations management, project management, economics, accounting, finance, and strategic management.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsb-a.

ACC 400 ~ ................................................................. 3 credits
Accounting for Decision Making

MGT 448 ~ ................................................................. 3 credits

# Finance Concentration

The Finance Concentration emphasizes fundamental and advanced financial concepts, theories, and practices to promote well-informed financial decision making. The Finance Concentration allows students to examine the areas of finance for decision making, financial risk management, mergers, acquisitions, and corporate restructuring, investment analysis and portfolio management, and global finance. Students will integrate advanced topics in financial management through real-world business application. Financial managers need many different skills. Interpersonal skills are important because these jobs involve managing people and working as part of a team to solve problems. Financial managers must have excellent communication skills to explain complex financial data. Since financial managers work extensively with various departments in their firm, a broad understanding of business is essential. Financial managers should be creative thinkers and problem-solvers, applying their analytical skills to business. They must be comfortable with the latest computer technology. Financial managers must have knowledge of international finance because financial operations are increasingly being affected by the global economy.

# Global Management Concentration

The Global Business concentration emphasizes fundamental principles and practices of conducting global business activities. Components include: international marketing, international trade and investment, global finance, global human resource management, and global value-chain management. Students will integrate advanced topics in global business through real-life applications. The program promotes the development of a “global mindset” and reflects the dynamic nature of global business realities.

Human Resource Management Concentration

The Human Resource Management Concentration introduces students to the basic concepts of human resource management, and allows further study in the areas of employment law, risk management, recruitment and selection of employees, international HR, change management, compensation and benefits, employee development, and performance management. Students will also develop an understanding of the fundamentals of human resource management, along with strong skills in the areas of systems thinking, problem solving, influencing, negotiating, communications, and leadership. This program is consistent with generally accepted human resource management principles, including the professional certification knowledge areas.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsb-hrm.

**Management Concentration**

The Management Concentration emphasizes managing human and fiscal resources within the structure, culture, and missions of any organization. The Management Concentration allows students the opportunity to examine the areas of innovation, design, and creativity in business, global business, quality management and productivity, human resource management, employment law, and organizational negotiations. Students will integrate advanced topics in management through real-world business application.

Marketing Concentration

The Marketing Concentration addresses how to identify customer needs, how to communicate information about products and services to customers and potential customers, where to market, the pricing of products and services, and how to respond to growing demands in different countries and cultures. The marketing concentration builds upon the foundational marketing course, which allows further study in the areas of consumer behavior, advertising, marketing research, public relations, promotion measurement and analysis, and international and global marketing. Marketing managers need creative, analytical, and leadership abilities to manage the marketing function of the business enterprise.

Project Management Concentration

The Project Management concentration focuses on the professional success of its students. It emphasizes real-world application with assignments designed to apply the newfound skills and knowledge to the workplace. Practical study materials, team activities, and presentations to the class foster teamwork, critical thinking, self-confidence, and application of project technical and leadership skills on a real-time basis. This program is consistent with generally accepted project management principles, including the project management processes and knowledge areas that lead to professional certification.

Small Business Management & Entrepreneurship Concentration

The Small Business Management concentration provides students with a course framework built around small business planning, financial management, and integrated business topics on entrepreneurship and small business management. Within the concentration, students can elect to study advanced concepts in small business marketing, leadership, family business management, operations management, and business law for entrepreneurs. They may also elect to explore in more depth either small business management or entrepreneurship studies as a function of their concentration electives. Students graduating with the Small Business Management concentration will be prepared to address the challenges and opportunities specific to small business management and entrepreneurship.

The University reserves the right to modify the required course of study. Please note that within each state, concentration availability may vary by campus location.

Additional Admission Requirements BSB

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

• Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSB

• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 45 upper division credits
  • A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  • A minimum program grade point average (GPA) of 2.0.

• The diploma awarded for this program will read as: Bachelor of Science in Business and will not reflect the concentration. Concentrations are reflected on the transcript only.

General Education Requirements for the BSB

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts Requirement(s) 6 credits
A Track must include: COMM 215, equivalent or higher
B Track must include: COM 170 and COM 172

Mathematics Requirement(s) 6 credits
Must include MTH 209 or higher

Science & Technology Requirement(s) 6 credits
B Track must include: SCI 163
Must include at least three (3) credits in the physical or biological sciences

Humanities Requirement(s) 6 credits
B Track must include: HUM 114

Social Science Requirement(s) 6 credits
B Track must include: PSY 211

Additional Liberal Arts Requirement(s) 6 credits

Interdisciplinary Requirement(s) 18 credits
B Track must include: FP 120

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BSB

• All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.

• First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.

• GEN 195 will be required as the first course in the First-Year Sequence.

• HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.

• With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  • University of Phoenix coursework,
  • Regionally or nationally accredited coursework (C- or higher grade),
  • University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  • National Testing Programs, and
  • ACE evaluated Military credits.

• The course used to satisfy a First-Year Sequence course must be comparable in content to the university course It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.

• Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence (A Track).

• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.

• Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.

• Students may not complete any of the First-Year Sequence courses via Directed Study.

• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

• All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the BSB

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.

• The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level of higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived: ACC 497, BCOM 275, BPA 406, BUS 475, CPMGT 305, FIN 486, GBM 489, GEN 195, GEN 200, HRM 498, MGT 420, MGT 465, MGT 470, MGT 488, MGT 498, MKT 498, OI 466, SUS 300

Course Descriptions for the BSB

GEN 200 ..........................................................3 credits

Foundations for General Education and Professional Success

This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 195 ..........................................................3 credits

Foundations of University Studies

The essential information, skills, tools, and techniques necessary for academic success and personal effectiveness at the University of Phoenix are introduced in this course. The course develops and applies practical knowledge and skills immediately relevant to first-year university students. Course topics include goal setting and working with personal motivation, understanding and using University resources, developing efficient study habits, making the most of personal learning styles, and how best to manage time and reduce personal stress levels.

BCOM 275 ..........................................................3 credits

Business Communications and Critical Thinking

This course introduces students to the foundations of communication in a business setting. Students will develop skills in critical thinking and decision making through the forms of written communication, including memos, emails, business letters, and reports. Other topics include communication ethics and cross-cultural communications, personal communication styles, solving organizational problems, and the evaluation of an organization's strategic direction.

BIS 220 ..........................................................3 credits

Introduction to Computer Applications and Systems

This course provides an overview of Business Information Systems. Students learn to apply Microsoft Office™ tools including work processing, spreadsheet, database, and presentation software to accomplish business objectives. Other topics include uses of application software and the Internet for effective problem solving, exploration of relevant emerging technologies, and how information is used across different industries.
MGT 230 ................................................................. 3 credits
Management Theory and Practice
This course explores the rich field of management in theory and practice, and as both a science and an art. Students learn to apply management concepts to current workplace issues. Other topics include increasing competitive forces, expectations for successful performance of employees and organizations, and achieving desired business goals.

MGT 311 ................................................................. 3 credits
Organizational Development
This organizational behavior course encompasses the study of individual and group behavior in organizational settings. Students will learn to examine their role in an organization. Other topics include strategic elements of organizational behavior, workforce diversity, managing change, effective communication, and performance systems.

ACC 290 ................................................................. 3 credits
Principles of Accounting I
This course covers the fundamentals of financial accounting as well as the identification, measurement, and reporting of the financial effects of economic events on an enterprise. Students will learn to examine financial information from the perspective of management. Other topics include decision-making, planning, and controlling from the perspective of a practicing manager.

ACC 291 ................................................................. 3 credits
Principles of Accounting II
This course introduces accounting concepts in a business environment. Students learn to create and apply accounting documents in making better business decisions. Other topics include plant assets, liabilities, accounting for corporations, investments, statements of cash flows, financial statement analysis, time value of money, payroll accounting, and other significant liabilities.

ETH 316 ................................................................. 3 credits
Ethics and Social Responsibility
This course provides a foundational perspective for ethics and social responsibility in relationship to individuals, organizations, and the community. Emphasis is placed on the inter-related nature of ethics, morality, legal responsibility, and social issues.

ECO 372 ................................................................. 3 credits
Principles of Macroeconomics
This course provides students with the basic theories, concepts, terminology, and uses of macroeconomics. Students learn practical applications for macroeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

ECO 365 ................................................................. 3 credits
Principles of Microeconomics
This course provides students with the basic theories, concepts, terminology, and uses of microeconomics. Students learn practical applications for microeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

LAW 421 ................................................................. 3 credits
Contemporary Business Law
This course reviews the US legal system, common law and its development, organizational structures, and the regulatory environment pertinent to business. Students will learn to critically examine torts, crimes, and business ethics; contracts; business associations (agency, partnerships, corporations); wills, estates, trusts, and other legal entities; securities regulations; and investor protection.

FIN 370 ................................................................. 3 credits
Finance for Business
This course introduces the student to the essential elements of finance for business. Emphasis is placed on financial management, financial markets, and the tools, techniques, and methodologies used in making financial decisions. Topics include: Financial planning, working capital management, capital budgeting, long term financing, and international finance.

MKT 421 ................................................................. 3 credits
Marketing
This course involves an integrated analysis of the role of marketing within the total organization. Specific attention is given to the analysis of factors affecting consumer behavior, the identification of marketing variables, the development and use of marketing strategies, and the discussion of international marketing issues.

RES 351 ................................................................. 3 credits
Business Research
This course evaluates the process of conducting business research for improving decision making within an organization. Students will learn to apply an understanding of commonly employed business research techniques to improve a situation, solve a problem, or change a process. Other topics include problem framing, data collection, data analysis, and data presentation.

QNT 351 ................................................................. 3 credits
Quantitative Analysis for Business
This course integrates applied business research and descriptive statistics. Students will learn to apply business research and descriptive statistics in making better business decisions. Other topics include examination of the role of statistics in research, statistical terminology, the appropriate use of statistical techniques, and interpretation of statistical findings in business and research.

BUS 475 ................................................................. 3 credits
Integrated Business Topics
The integrated business topics course examines strategic business management while integrating topics from previously completed business foundation coursework. This allows students to demonstrate a comprehensive understanding of the undergraduate business curricula with a significant emphasis placed on the assessment of individual outcomes to determine content mastery.

COMM 215 ........................................................... 3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.
GEN 200 .................................................................3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 .................................................................3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 .................................................................3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University Library and learn how to access its resources successfully.

MTH 209 .................................................................3 credits
College Mathematics II
This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

Course Descriptions for the Accounting Concentration

ACC 349 .................................................................3 credits
Cost Accounting
This course introduces cost terminology and flows, standard cost systems, relevant costing, budgeting, inventory control, capital asset selection, responsibility accounting, and performance measurement.

ACC 421 .................................................................3 credits
Intermediate Financial Accounting I
This course examines the conceptual framework of accounting, including cash versus accrual accounting, the income statement and balance sheet, the time value of money, revenue recognition, statement of cash flows and full disclosure issues.

ACC 422 .................................................................3 credits
Intermediate Financial Accounting II
This course is the second of the three part series of courses related to intermediate accounting. This section examines the balance sheet in more detail, including intangible assets, current liabilities and contingencies, long-term liabilities, stockholder’s equity, and earnings per share. The course finishes with a look at investments and revenue recognition. Interwoven in the presentation of the material is an assortment of ethical dilemmas that encourage discussions about how the accountant should handle specific situations.

ACC 423 .................................................................3 credits
Intermediate Financial Accounting III
This course is the third of a three-part series of courses related to intermediate accounting. This course examines owner’s equity, investments, income taxes, pensions and post-retirement benefits, as well as changes and error analysis. The course finishes with a look at derivative instruments. Interwoven in the presentation of the material is an assortment of ethical dilemmas that encourage discussions about how the accountant should handle specific situations.

ACC 497 .................................................................3 credits
Advanced Topics in Accounting Research
This course in accounting research provides students with an in-depth examination of the Generally Accepted Accounting Principles (GAAP) and acceptable alternative reporting practices. Through comprehensive case studies, students will develop the research application skills necessary to analyze and make decisions regarding accounting reporting dilemmas in for-profit and not-for-profit companies.

Course Descriptions for the Administration Concentration

ACC 400 .................................................................3 credits
Accounting for Decision Making
This course concentrates on effective decision making as it relates to financial activities in a business enterprise. Course topics will include financial assets, liabilities, equity, business operations, financial management, and financial statement analysis. Students will have the necessary analytical tools to enhance business operations.

MGT 448 .................................................................3 credits
Global Business Strategies
The manager’s perspective in the fields of international payments, international trade, and investments are analyzed. Emphasis is given to the materials and concepts that illuminate the strategies, structure, practices, and effects of multinational enterprises.

ACC 340 .................................................................3 credits
Accounting Information Systems I
This course is designed to provide accounting students with the proper mix of technical information and real-world applications. Areas of study include fundamental concepts and technologies, (what computers can do for business), the Internet, intranets electronic commerce, information systems development, basic project management principles, decision support systems, and the benefits of computer/human synergy.
BSA 375 ................................................................. 3 credits
**Fundamentals of Business Systems Development**
This course introduces the logical and design considerations addressed during system and application software development. It provides a solid background in information systems analysis and design techniques through a combination of theory and application. Systems Development Life Cycle (SDLC) will be fundamental to the course.

EBUS 405 ................................................................. 3 credits
**e-Business Technologies**
This course examines the Internet and provides an integration of information technology subjects. Topics include the facilities, services, and trends of the Internet. The functions of information technology that support e-business are emphasized.

ISCOM 472 ................................................................. 3 credits
**Lean Enterprise**
This course provides an overview of lean manufacturing practices within a company and its supply chain. It addresses fundamental practices including flowcharting of business processes, collection and analysis of process performance data and the removal of those activities that are determined to be wasteful or non-essential.

MKT 441 ................................................................. 3 credits
**Marketing Research**
This course covers basic research methodology applied to marketing issues. Students study methods and techniques for collection, analysis, and interpretation of primary and secondary data for customer and business marketing.

MGT 437 ................................................................. 3 credits
**Project Management**
This course examines project management roles and environments, the project life cycle, and various techniques of work, planning, control, and evaluation for project success.

ETH 355 ................................................................. 3 credits
**Understanding Ethics**
This is an advanced course in moral philosophy, or ethics. Through a critical survey of theory and application, these courses examine the frameworks of moral judgment (e.g. cultural relativism, subjectivism); historically important theoretical approaches to ethics; and consider a wide variety of important moral issues such as war, animal rights, abortion, and euthanasia. (Honors Credit Only).

OI 370 ................................................................. 3 credits
**Innovation for the 21st Century**
This course covers the impact of innovation on organizations. In this course students will apply innovation strategies, processes, and theories to help propel an organization into the 21st century. Topics will include managing innovation process, organizational culture for innovation, and leadership of innovation.

PHL 410 ................................................................. 3 credits
**Classical Logic**
This is a systematic course in the use of argument and logic in formal constructs. As logic is applied in various aspects of human reasoning including from deductive inference to mathematical proofs, this course will demonstrate the skills of deduction, validity, and symbols to determine the strengths and soundness of argument and conclusions.

---

**Course Descriptions for the Finance Concentration**

**FIN 419** ................................................................. 3 credits
**Finance for Decision Making**
This course addresses advanced principles in financial management and decision making. Emphasis is placed on providing relevant theory, best practices, and skills to effectively manage risk, time value of money, working capital, capital structure, the regulatory environment, and evolving issues in financial management.

**FIN 486** ................................................................. 3 credits
**Strategic Financial Management**
This course gives students the opportunity to integrate previously learned finance and accounting concepts and practices to contemporary business strategies, while improving financial decision-making and problem-solving skills. In addition, students will examine real-world financial management scenarios in order to apply best practices resulting in increased value for various types of organizations.

**FIN 366** ................................................................. 3 credits
**Financial Institutions**
This course will cover financial institutions such as insurance companies, commercial banks, investment banks and savings and loan associations. The risks facing financial institutions and how to measure and manage those risks are analyzed.

**FIN 375** ................................................................. 3 credits
**Financial Management in the Small Business**
This course focuses on the role that financial management plays in the development and sustainability of a small business. This course provides a detailed review of forecasting, budgeting, daily cash flow management techniques and monitoring financial performance in small business operations. Specifically, students will address funding, venture capital, and debt management, cash-flow management, financial planning, and capital budgeting.

**FIN 402** ................................................................. 3 credits
**Investment Fundamentals and Portfolio Management**
This course covers the theories and practices of investments including financial markets, risk and return, securities, asset allocation and diversification. Students will utilize analytical techniques available in the investment planning and selection process in the environment in which investment decisions are made. Students will apply finance models and investment strategies to analyze and manage investments for various types of organizations.

**FIN 410** ................................................................. 3 credits
**Working Capital Management**
Working Capital Management This course covers the basics of working capital management with emphasis on how firms manage current assets and liabilities to ensure the organization has sufficient cash to pay day-to-day bills and meet short-term obligations. The balance between risk and return is emphasized. Some of the basic techniques of financial forecasting, accounts receivable and inventory management will also be explored.
FIN 415 ................................................................. 3 credits
**Corporate Risk Management**
This course will provide students with the elements of corporate risk management in a competitive business environment. Emphasis will be placed upon the identification, measurement, management, and planning aspects of risk management, as well as trends and developments in the business environment. Insurance considerations in corporate risk management will also be addressed. Students will utilize newly acquired knowledge and techniques to develop a corporate risk management plan that will maximize value for the organization and stakeholders.

FIN 420 ................................................................. 3 credits
**Personal Finance**
This course provides an introduction to personal financial planning. Personal financial goals are examined with a focus on investment risk and returns, markets, and analysis tools useful in assessing financial situations.

FIN 444 ................................................................. 3 credits
**Mergers, Acquisitions, and Corporate Restructuring**
This course prepares students to analyze merger and acquisition (M&A) opportunities in ways that will maximize corporate value and shareholder wealth in a competitive market environment. Special emphasis is placed on the identification, screening, selection, evaluation, and financing of M&A activities. Additionally, the course examines business failures and restructuring strategies.

FIN 467 ................................................................. 3 credits
**Real Estate Investment**
This course explores the techniques of real estate investment analysis, including financing, taxes, and decision making criteria in today’s real estate investment environment.

**Course Descriptions for the Global Management Concentration**

**Global Business**
This course addresses major forces in the global environment and the impact upon business strategies, operations, and decision making. Special emphasis is placed on developing a global mindset and the intricacies of the global business environment.

GBM 380 ............................................................. 3 credits
GBM 381 ............................................................. 3 credits

**International Trade**
This course examines the concepts and components of international trade. Emphasis is placed on applying current theories, concepts, and practices in conducting global business transactions.

HRM 350 ............................................................. 3 credits

**International Human Resource Management**
This course is an overview of international human resources management practices with emphasis on human resources challenges and opportunities facing global business enterprises. Students will examine human resources management in the global business environment. Upon completion of this course, students will be able to identify, and evaluate global HR strategies and practices to increase organizational effectiveness and efficiency.

ISCOM 383 ............................................................ 3 credits
**Global Value Chain Management**
This course describes value chain activities between buyers and sellers in international business. Emphasis is placed on global sourcing, procurement of materials and services, and on business-to-business cultural differences between countries.

GBM 489 ............................................................. 3 credits
**Strategic Topics in Global Business Management**
This course applies the principles of international trade, global monetary systems, international organizations, and economic development to make effective strategic business decisions. Emphasis is placed on utilizing improved strategic thinking and decision-making capabilities in the global environment.

**Course Descriptions for the Sustainable Enterprise Management Concentration**

MG 360 .............................................................. 3 credits
**Green and Sustainable Enterprise Management**
This course provides an overview of sustainable management techniques from an economic, social, and corporate environmental responsibility perspective. Special emphasis is placed on production principles, innovative and sustainable practices, and the importance of managing the bottom line in business.

MG 370 .............................................................. 3 credits
**Sustainable Enterprise Planning**
This course provides an integrative discussion on sustainable enterprise planning. Special emphasis is placed on applying environmental science, systems analysis, environmental economics, resource allocation, and the regulatory environment to developing a sustainable business plan for the future.

BUS 327 ............................................................. 3 credits
**The Sustainable Organization**
This course focuses on the business practices and tools that add economic, social, and ethical value to the business resources of a sustainable enterprise. Emphasis is placed on the general science of sustainability, consumptive calculations of manufacturing, and the impact of business decisions on the environment.

BUS 372 ............................................................. 3 credits
**Business Sustainability Standards**
This course provides a regulatory and compliance overview the local, state, and federal business sustainability standards. Special emphasis is placed on ISO requirements, LEED certification, and emerging sustainability standards for business. Students will also address compliance as a competitive advantage and the ethical responsibility of businesses to employees, the community, and the environment.

ECO 370 ............................................................. 3 credits
**Environmental Economics**
This course applies the theoretical economic tools to environmental issues. Special emphasis will be devoted to analyzing the role of public policy regarding the economy and the environment.
MGT 380 ................................................................. 3 credits
Organizational Change Management
This course prepares students to be effective agents for change in the business community. This includes a step-wise framework for understanding, designing, and implementing change successfully. Special emphasis is placed on organizational change, program design, change processes, and successfully implementing both short-term and long-term change within the organization.

MGT 403 ................................................................ 3 credits
Environmental Management Systems
This course provides a framework for managing Environmental Management Systems (EMS). This includes continuous improvement through environmental management; facilities and supply-chain management; systems integration; environmental considerations; and operational utilization of environmental management systems.

MKT 411 ................................................................. 3 credits
Green Marketing
This course applies the principles of sustainability and the philosophy of being environmentally green to the area of marketing. Special emphasis is placed on sustainable product design; awareness and cause marketing; public relations and green-washing; and emerging going-green marketing trends.

MKT 441 ................................................................. 3 credits
Business Models in Early-stage Enterprises
This course provides an overview of business models for early-stage entrepreneurial ventures in all industries, including those in green industries and clean technology. Emphasis is placed on designing a competitive early-stage enterprise business model, the competing interests of stakeholders, the use of triple bottom line measures to guide enterprise design, forms of ownership, intellectual property, and exploring financing options—both private and public.

MKT 442 ................................................................. 3 credits
Market Discovery and Validation in Early-stage Enterprises
This course applies entrepreneurial approaches to the discovery and validation of markets in all industries for early-stage entrepreneurial ventures, including those in green industries and clean technology. Emphasis is placed on iterative approaches for product design; validation of customer needs in an early-stage entrepreneurial setting; and early-stage enterprise marketing needs and trends.

BUS 443 ................................................................. 3 credits
Implementing Entrepreneurship in Early-stage Enterprises
This course focuses on the implementation of lean business models in entrepreneurial ventures in all industries, including those in green industries and clean technology. This includes the strategic application of financial planning, capital management, marketing, people management, and leadership as a means to reduce start-up risk. Emphasis is placed on adapting the business plan to the realistic needs of an early-stage owner and entrepreneur.

Course Descriptions for the Human Resource Management Concentration

HRM 300 ................................................................ 3 credits
Fundamentals of Human Resource Management
This course explores the critical role of human resources in achieving business results. The course will help students to have a solid understanding of the fundamentals of human resource management and its strategic relevance in business today. This course will provide students with a critical perspective on the development of human capital in the context of a unified system of attracting, retaining and developing talent that creates and supports the vision and values of the organization. Students will develop an understanding of the critical business implications for human resource professionals today.

HRM 498 ................................................................ 3 credits
Strategic Human Resource Management and Emerging Issues
This course focuses on strategic HR management and key issues that are opportunities and challenges for the HR function. The course explores how to align human resource management (HRM) with business strategies, and the emerging issues facing business. Students will evaluate the HRM competencies and leadership skills needed for a strategic HRM plan. Students will examine what strategic HRM planning is and how to do it, as well as learning how to manage the necessary change in emerging business environments. The course will define the new roles and expectations of companies for the HRM functions.

HRM 310 ................................................................ 3 credits
Change Management
This course examines both the human and organizational aspects of change. Topics include identifying the types and sources of change, human and organizational resistance to change, theories of managing change, and developing skills that will enable the student to lead, implement, and sustain change.

HRM 324 ................................................................ 3 credits
Total Compensation
This course explores topics in basic total compensation design and decision-making. It will provide the student with knowledge and skills required for planning, developing, and administering total compensation programs that are compliant with government laws and regulations. Topics include: wage decisions, budgeting, benefits, incentive plans, and retirement plans.

HRM 326 ................................................................ 3 credits
Employee Development
This course explores the role and relevance of employee development in today’s business environment. This course will also provide students with a thorough understanding of the legalities impacting employee development, the strategic role that employee development plays in an organization, and the impact education has on employee motivation. The course will also explore methods of program design, development, and assessment.

HRM 420 ................................................................ 3 credits
Human Resource Risk Management
This course introduces students to risk management in a human resources department context. The course introduces basic risk management concepts that the student can apply to HR responsibilities of an organization to avoid or mitigate potential liabilities. Topics will include health and safety, security, crisis management, legal compliance, employment and discrimination issues.
MGT 434 ....................................................................................3 credits
Employment Law
This course provides an overview of federal statutes and state-regulated areas that impact the personnel function. Among the topics addressed are EEO and affirmative action, OSHA, ERISA, FMLA, and ADA; employee privacy issues (polygraph testing, drug and alcohol testing, employer searching and monitoring); and wrongful discharge.

Course Descriptions for the Management Concentration

PHL 458 ....................................................................................3 credits
Creative Minds and Critical Thinking
In this course students will analyze the thinking process from a critical and creative perspective. The lives of prominent creative thinkers will be examined to identify the social, historical, psychological, and cultural elements that influenced their development. The salient aspects of creativity will be assessed along with the relationship between creativity and critical thinking. Students will apply critical thinking skills to contemporary creative and scientific thought.

MGT 498...................................................................................3 credits
Strategic Management
This course gives students the opportunity to integrate management concepts and practices to contemporary business strategies, while discussing the theories of strategic management. This course will focus on improving management decision-making and problem-solving skills. Students will create a strategic management plan.

MGT 360 ...................................................................................3 credits
Fundamentals of Human Resource Management
This course explores the critical role of human resources in achieving business results. The course will help students to have a solid understanding of the fundamentals of human resource management and its strategic relevance in business today. This course will provide students with a critical perspective on the development of human capital in the context of a unified system of attracting, retaining and developing talent that creates and supports the vision and values of the organization. Students will develop an understanding of the critical business implications for human resource professionals today.

MGT 411 ...................................................................................3 credits
Employee Development
This course explores the role and relevance of employee development in today’s business environment. This course will also provide students with a thorough understanding of the legalities impacting employee development, the strategic role that employee development plays in an organization, and the impact education has on employee motivation. The course will also explore methods of program design, development, and assessment.

MGT 426...................................................................................3 credits
Critical and Creative Thinking
This course explores the relationship between creativity and critical thinking. Students will apply critical thinking skills to contemporary creative and scientific thought.

MGT 300 ...................................................................................3 credits
Innovative Leadership
This course provides a foundation of understanding of leadership and its role in managing people and systems. This course will cover key leadership elements such as effective leadership behavior, power and influence, the differences between leadership and management, leading change, intrapreneurship, and how an innovative mindset impacts people and systems in a continually changing global and virtual environment.

MGT 441 ...................................................................................3 credits
Green and Sustainable Enterprise Management
This course provides an overview of sustainable management techniques from an economic, social, and corporate environmental responsibility perspective. Special emphasis is placed on production principles, innovative and sustainable practices, and the importance of managing the bottom line in business.

MGT 418 ...................................................................................3 credits
Managing Change in the Workplace
This course provides an overview of methods and techniques required of supervisory and management personnel responsible for managing change. As a result of the course, students will be able to identify and develop strategies for managing the following: organizational aspects of change, including shifts in leadership, reorganizations, working conditions, technologically imposed change and workforce issues. In addition to developing strategies, students will gain expertise in applying communication strategies that effectively deal with change.

MGT 425 ...................................................................................3 credits
Innovation, Design, and Creativity for a Competitive Advantage
This course will provide students with a solid foundation in innovation, design, and creativity. Additionally, students will be prepared to apply relevant principles, tools, and techniques to promote and sustain organizational innovation for competitive advantage.

MGT 442 ...................................................................................3 credits
Understanding Ethics
This is an advanced course in moral philosophy, or ethics. Through a critical survey of theory and application, these courses examine the frameworks of moral judgment (e.g. cultural relativism, subjectivism); historically important theoretical approaches to ethics; and consider a wide variety of important moral issues such as war, animal rights, abortion, and euthanasia. (Honors Credit Only).

MGT 444 ...................................................................................3 credits
Innovation for the 21st Century
This course covers the impact of innovation on organizations. In this course students will apply innovation strategies, processes, and theories to help propel an organization into the 21st century. Topics will include managing innovation process, organizational culture for innovation, and leadership of innovation.
PHL 410 ................................................................. 3 credits
Classical Logic
This is a systematic course in the use of argument and logic in formal constructs. As logic is applied in various aspects of human reasoning including from deductive inference to mathematical proofs, this course will demonstrate the skills of deduction, validity, and symbols to determine the strengths and soundness of argument and conclusions.

Course Descriptions for the Marketing Concentration
MKT 435................................................................. 3 credits
Consumer Behavior
This is an introductory course in analyzing consumer and purchasing behaviors as basic considerations in the development of a marketing mix. Economic, social, psychological, and cultural factors are considered as they relate to the development of marketing programs.
MKT 498................................................................. 3 credits
Integrated Marketing Strategies
This course provides students with an in-depth study of Integrated Marketing Communications (IMC). Emphasis will be placed on the strategic roles and integration of marketing communication elements including advertising, public relations, sales promotion, event management, media selection, and sales management.
COM 340 .................................................................. 3 credits
Mass Communication
This course delves into the processes and technology of communication on societal and global levels accomplished through the print and electronic media. Content of communication studied ranges from journalism, entertainment, commerce, and advocacy to personal communication on the Internet. The dynamic changes that have taken place and are evolving today in mass media and mass communication will be considered along with predictions about the role of mass communication.
COM 400 .................................................................. 3 credits
Media and Society
The development and evolution of contemporary society have become inextricably intertwined with the development and use of electronic media within the past 100 years. This course explores the complex interactions involving society, information, communication, and the electronic media. Controversial topics that media have brought to the fore, and in some cases caused, will be highlighted.
MKT 438.................................................................. 3 credits
Public Relations
This course provides an introduction to the field of public relations. Areas covered are media relations; promotion; tools used in developing public relations and publicity; and improving customer satisfaction; relationship-building strategies; and ethics and public relations.

Course Descriptions for the Project Management Concentration
CPMGT 300............................................................. 3 credits
Project Management
This course examines project management roles and environments, the project life cycle, and various techniques of work planning, and control and evaluation to achieve project objectives. The tools currently available to project managers are illustrated in this course through the use of Microsoft® Project® software.
CPMGT 301................................................................ 3 credits
Strategic Portfolio and Project Management
This course provides students with insight into the management of an organization’s strategic project portfolio. Students will learn the value of aligning a project’s goals and objectives with the organization’s strategies and stakeholders’ interests. In addition, this course will illustrate how project teams are used to accomplish continuous improvement and to facilitate change within the organization. Students will also examine the characteristics of global and virtual project management.
CPMGT 302................................................................ 3 credits
Procurement and Risk Management
This course explores the procurement planning process, contracting methods and phases, outsourcing, contract administration, and the external environment of the procurement management processes. The course also addresses risk management applied to both project and procurement management processes.
CPMGT 303................................................................ 3 credits
Project Estimating and Control Techniques
To be successful, project managers must analyze alternative project decisions by relying heavily on project estimating and control tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance. Students work in groups to analyze program parameters and work situations.
CPMT 305 .................................................................. 3 credits
Project Management Capstone
This course is the capstone of the Professional Certificate in Project Management. Students will demonstrate project management skills learned via the preparation of a project plan and presentation of that plan to the executive board in a role-play environment. Key project management concepts and processes studied in the prior five courses will be integrated and applied to the class project.
Course Descriptions for the Public Sector Concentration

BPA 303 ........................................................................................................ 3 credits

Public Programs: Implementation and Evaluation in a Dynamic Environment
This course focuses on the implementation of public policy decisions through the identification and development of specific methods for servicing the public good. It incorporates an emphasis on intergovernmental relations and the increasing use of private resources in the service delivery system. A strong emphasis is placed on evaluating both the delivery processes and service outcomes as a means to continuously improve service delivery effectiveness.

BPA 406 ........................................................................................................ 3 credits

The Public Leader: Integration and Application
This course is intended to synthesize the concepts and theories covered in previous public administration courses and deepen the student’s understanding of the challenges and complexities facing public leaders. Student will explore the leadership styles of successful national, state, and local leaders to integrate and apply the principles and practices of public administration in a real world setting.

BPA 301 ........................................................................................................ 3 credits

Foundations of Public Administration
This course serves as an introduction to the study of public administration. During this course, the student will review the political and social theories of public administration. Students will review leadership, human resources, finance, and ethics within a public policy-making environment. Students will become familiar with the complex issues facing local, state, and federal public administrators today.

HRM 330 ........................................................................................................ 3 credits

Human Resources and Labor Relations in Public Service
This course explores the changing civil service system within the rich, varied and pluralistic public service of today. Course topics will include recruiting, staffing, employee retention, performance management, compensation, benefits, and promotion. Labor relations, with and without a collective bargaining agreement will be studied. Students will study the resolution of disagreements using alternative dispute resolution systems designed to advance the public purpose.

FIN 380 ........................................................................................................ 3 credits

Financial Management of Non-Profit Organizations
Financial Management of Non-Profit Organizations This course emphasizes the utilization of key financial concepts to effectively obtain desired goals and objectives by non-profit organizations in the private, public, and the international arenas. While profit-oriented entities focus on maximizing shareholder’s wealth, non-profit organizations are concerned with deriving maximum benefit for each dollar expended on a charitable endeavor. The centrality of finance to achieve such goal will be thoroughly explored.

ACC 460 ........................................................................................................ 3 credits

Government and Non-Profit Accounting
This course covers fund accounting, budget and control issues, revenue and expense recognition and issues of reporting for both government and non-profit entities.

MKT 438 ........................................................................................................ 3 credits

Public Relations
This course provides an introduction to the field of public relations. Areas covered are media relations; promotion; tools used in developing public relations and publicity, and improving customer satisfaction; relationship-building strategies; and ethics and public relations.

Course Descriptions for the Small Business Management & Entrepreneurship Concentration

MGT 401 ........................................................................................................ 3 credits

The Small Business: Structure, Planning and Funding
This course provides an overview of the small business from concept through funding. Emphasis is placed on designing a competitive business model, crafting the business plan, forms of ownership and exploring funding options.

MGT 418 ........................................................................................................ 3 credits

Evaluating New Business Opportunities
This course focuses on assessing the benefits and risks associated with new business opportunities. This includes reviewing the projected return on investment, the role of risk, investor considerations, strategic planning, and modeling techniques to analyze possible business ventures.

FIN 375 ........................................................................................................ 3 credits

Financial Management in the Small Business
This course focuses on the role that financial management plays in the development and sustainability of a small business. This course provides a detailed review of forecasting, budgeting, daily cash flow management techniques and monitoring financial performance in small business operations. Specifically, students will address funding, venture capital, and debt management, cash flow management, financial planning, and capital budgeting.

MKT 431 ........................................................................................................ 3 credits

Small Business Marketing
Knowing your customer, growing your customer base and creating a consumer driven culture are key drivers of sustainability in the small business. This course focuses on the functions of evaluating opportunities, creating value, and developing effective pricing and advertising strategies.

MGT 465 ........................................................................................................ 3 credits

Small Business and Entrepreneurial Planning
This course focuses on the development of a strategic business plan applicable for the needs of a small business or entrepreneurial venture. This will include the strategic and integrative application of financial planning, capital management, marketing, people management, and leadership. Special emphasis is placed on adapting business planning requirements to the realistic needs of small business owners and entrepreneurs.
Course Descriptions for the Service Sector Concentration

Knowledge Management and Intellectual Capital
In this course, students are provided the knowledge and skills necessary for effective knowledge management present in today’s increasingly innovative and global business environment. Students will be asked to consider a variety of topics critical to an organization's long-term success including, but not limited to innovation, intellectual capital, goodwill, brand recognition, organizational partnerships, and organizational culture.

OI 365 ................................................................. 3 credits

Organizational Innovation Integrated Project
This project-based course integrates knowledge and skills from previous organizational innovation coursework and requires business students to demonstrate their innovative, creative, and inspirational capacity to solve a real life business problem or opportunity. Using design principles, practices, and theory, students will be asked to create innovative solutions to problems or opportunities in the areas of strategy, process, product, and service.

OI 466 ................................................................. 3 credits

Product Brand Management
This course presents an analysis of the goods and services lifecycle from conception to purchase. Special emphasis is placed on design and implementation of successful product development and brand management strategies that deliver value to consumers.

BRM 353 ................................................................................... 3 credits

Retail Personnel Management
This course focuses on the personnel management aspects of retail management. Students will be prepared to utilize recruiting and staffing, motivating, training, and ethics concepts to effectively lead retail personnel.

MGT 356 ................................................................................... 3 credits

Gaming Management
This course provides an overview of the business practices and principles unique to the gaming industry. This includes an overview of the history and evolution of gaming, different venues, and the business implications of the economic and social impact of the industry. Special emphasis is placed on legal, ethical, and social issues related to gaming entertainment as a business entity.

MGT 371 ................................................................................... 3 credits

Hospitality Management
This course provides an overview of the fundamental concepts that make up the hospitality industry. Students will gain a current perspective and understanding of the impact of travel and tourism while examining hospitality issues, trends, e-business implications, and operational structures.

HM 370 ................................................................................... 3 credits

Trends and Emerging Issues in Hospitality
This course applies a strategic perspective to assessing new trends and emerging issues in hospitality management. Special emphasis is placed on applying a global perspective to new and emerging markets in the hospitality industry. This includes consideration of changing social and economic groups as well as shifting demand for existing and new products and services.

HM 486 ................................................................................... 3 credits

ISCOM 354 ................................................................................... 3 credits

Retail Operations: Supply Management
This course encompasses an examination of the supply side of the retail value chain including logistics, channel management, vendor relationships, and purchasing. Students will be prepared to develop strategic alliances and optimize the supply chain in a retail setting.

MGT 371 ................................................................................... 3 credits

Lodging Management
This course provides students with the opportunity to examine various lodging options within the hospitality industry from a managerial perspective. Special emphasis will be placed on guest services and on room division management.

MGT 372 ................................................................................... 3 credits

Food and Beverage Management
This course focuses on operating and strategic challenges facing managers in the food and beverage industry. Topics include cost control, forecasting, food safety, service standards, and staffing. Students will learn to utilize managerial tools to make sound business decisions in a food and beverage organization.

Bachelor of Science in Management

The following Bachelor of Science in Management (BSM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Management (BSM) degree program is designed to develop the professional knowledge and skills of cross functional managers in any organization. The BSM degree enhances skills necessary for improved organizational effectiveness in a dynamic and evolving workplace. The curriculum focuses on the development of management roles. It emphasizes skills necessary to align resources, and to improve communication, productivity, and effectiveness. Through a participative learning environment structured for adult learners, students are taught to manage innovation and apply professional skills and knowledge. Special emphasis can be placed on key management areas, including leadership, general management, or human resource management based on student preference.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsm.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

BSM Program Category Requirements - A Track and B Track

Communications, 3 total credits
BCOM 275 ~ ............................................................................ 3 credits

Business Communications and Critical Thinking
(The prerequisite requirement only applies to B Track students)

Management, 3 total credits
PHL 458 ~ ............................................................................ 3 credits

Creative Minds and Critical Thinking
General Education Requirements for the BSM

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts Requirement 6 credits
(A Track must include COMM 215, equivalent, or higher)
(B Track must include: COM 170 and COM 172)

Mathematics Requirement 6 credits
(Must include MTH 209, equivalent, or higher)

Science & Technology Requirement 6 credits
(B Track must include: SCI 163)

Must include at least three (3) credits in the physical or biological sciences

Humanities Requirement 6 credits
(B Track must include: HUM 114)

Social Science Requirement 6 credits
(B Track must include: PSY 211)

Additional Liberal Arts Requirement 6 credits
(B Track must include: GEN 195)

Interdisciplinary Requirement 18 credits
(B Track must include: FP 120)

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BSM

• All students entering undergraduate degree programs who have less than 24 previous college credits as recognized by the University on the admissions application are required to complete the First-Year Sequence (B Track).

• First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.

• GEN 195 will be required as the first course in the First-Year Sequence.

• HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.

• With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  • University of Phoenix coursework,
  • Regionally or nationally accredited coursework (C- or higher grade),
  • University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  • National Testing Programs, and
  • ACE evaluated Military credits.

• The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.

• Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.

Students may not complete any of the First-Year Sequence courses via Directed Study.

Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

**Residency Requirements and Course Waivers for the BSM**

Students must meet the established University residency requirement for degree conferment. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&IT courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework).
- Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The 15 credit upper division BSM Business/Management Elective requirement may be satisfied by any of the following means:

- Upper division University of Phoenix Business/Management coursework
- Upper division Business/Management transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
- Upper division Business/Management National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
- Upper division Business/Management military credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.

Upper division Business/Management Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: BCOM 275, MGT 420, MGT 498.

**Course Descriptions for the BSM**

**BCOM 275 ............................................................................... 3 credits**

**Business Communications and Critical Thinking**

This course introduces students to the foundations of communication in a business setting. Students will develop skills in critical thinking and decision making through the forms of written communication, including memos, emails, business letters, and reports. Other topics include communication ethics and cross-cultural communications, personal communication styles, solving organizational problems, and the evaluation of an organizations strategic direction.

**PHL 438 ................................................................................... 3 credits**

**Creative Minds and Critical Thinking**

In this course students will analyze the thinking process from a critical and creative perspective. The lives of prominent creative thinkers will be examined to identify the social, historical, psychological, and cultural elements that influenced their development. The salient aspects of creativity will be assessed along with the relationship between creativity and critical thinking. Students will apply critical thinking skills to contemporary creative and scientific thought.

**ETH 316 .................................................................................. 3 credits**

**Ethics and Social Responsibility**

This course provides a foundational perspective for ethics and social responsibility in relationship to individuals, organizations, and the community. Emphasis is placed on the inter-related nature of ethics, morality, legal responsibility, and social issues.
LAW 421 .....................................................................................3 credits

Contemporary Business Law
This course reviews the US legal system, common law and its development, organizational structures, and the regulatory environment pertinent to business. Students will learn to critically examine torts, crimes, and business ethics; contracts; business associations (agency, partnerships, corporations); wills, estates, trusts, and other legal entities; securities regulations; and investor protection.

RES 320 .....................................................................................3 credits

Foundations of Research
This course introduces the foundations of research. Research principles and the scientific method are applied to professional situations. The course is designed to equip students with an understanding of commonly employed research methodologies that can be utilized to improve productivity and increase customer satisfaction.

PSY 322 .....................................................................................3 credits

Consumer Psychology and Research
This course focuses on consumer behavior and marketing research. Topics include the cognitive processes underlying consumer choice, descriptive consumer characteristics, and environmental consumer behavior. This course emphasizes the implications of consumer behavior on domestic and global marketing communications.

BIS 320 .....................................................................................3 credits

Business Information Systems
This course provides instruction on the use of Business Information Systems. Students apply Microsoft Office tools including work processing, spreadsheet, database, and presentation software to accomplish business objectives. Other topics include application software and the Internet for effective problem solving, use of relevant emerging technologies, and using information across different industries.

ECO 365 ...................................................................................3 credits

Principles of Microeconomics
This course provides students with the basic theories, concepts, terminology, and uses of microeconomics. Students learn practical applications for microeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

ACC 300 ...................................................................................3 credits

Principles of Accounting
This course focuses on principles of accounting for the non-accounting student. Emphasis will be placed on the accounting equation and transactions, financial statement preparation and analysis, internal controls, regulatory environment, compliance, and global business implications.

FIN 370 .....................................................................................3 credits

Finance for Business
This course introduces the student to the essential elements of finance for business. Emphasis is placed on financial management, financial markets, and the tools, techniques, and methodologies used in making financial decisions. Topics include: Financial planning, working capital management, capital budgeting, long term financing, and international finance.

MGT 498 .................................................................................. 3 credits

Strategic Management
This course gives students the opportunity to integrate management concepts and practices to contemporary business strategies, while discussing the theories of strategic management. This course will focus on improving management decision-making and problem-solving skills. Students will create a strategic management plan.

GEN 200 ...................................................................................3 credits

Essentials of College Writing
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 ...................................................................................3 credits

Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 ...................................................................................3 credits

Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University Library and learn how to access its resources successfully.

MTH 209.................................................................................. 3 credits

College Mathematics II
This course continues the demonstration and examination of various basic algebra concepts that were begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.
The Bachelor of Science in Management (BSM) degree program is designed to develop the professional knowledge and skills of cross functional managers in any organization. The BSM degree enhances skills necessary for improved organizational effectiveness in a dynamic and evolving workplace. The curriculum focuses on the development of management roles. It emphasizes skills necessary to align resources, and to improve communication, productivity, and effectiveness. Through a participative learning environment structured for adult learners, students are taught to manage innovation and apply professional skills and knowledge. Special emphasis can be placed on key management areas, including leadership, general management, or human resource management based on student preference.

The Manufacturing Sector (MAN) concentration focuses on strategic performance improvement of all business planning, global sourcing and procurement, production, and logistical activities that make up an organization’s operations and supply chain. The program highlights the important role that operations and supply chain play in satisfying customer demands and expectations. The program also emphasizes a company’s need to develop and maintain a sustainable competitive advantage through the efficient and effective performance of all operations. The program provides the most current content in the manufacturing field as outlined by various specialized manufacturing and supply chain organizations and experts. In addition to courses in the BSB foundation and courses specific to manufacturing, the degree concentration has coursework that stresses key business related knowledge and skill development in the areas of computers and information processing, business law, macro-economics, financial analysis, and marketing.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsm-man.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

BSM/MAN Program Category Requirements - A Track and B Track

**Communications, 3 total credits**

BCOM 275 ~ ................................................................. 3 credits

Business Communications and Critical Thinking

*(The prerequisite requirement only applies to B Track students)*

**Management, 3 total credits**

PHL 488 ~ ................................................................. 3 credits

Creative Minds and Critical Thinking

**Ethics and Social Responsibility, 3 total credits**

ETH 316 ~ ................................................................. 3 credits

Ethics and Social Responsibility

**Business Law, 3 total credits**

LAW 421 ~ ................................................................. 3 credits

Contemporary Business Law

**Research and Statistics, 3 total credits**

RES 320 ~ ................................................................. 3 credits

Foundations of Research

**Marketing, 3 total credits**

PSY 322 ~ ................................................................. 3 credits

Consumer Psychology and Research

**Business Information Systems, 3 total credits**

BIS 320 ~ ................................................................. 3 credits

Business Information Systems

**Economics, 3 total credits**

**Management Capstone, 3 total credits**

MGT 498~ ................................................................. 3 credits

Strategic Management

**Manufacturing Sector Concentration, 15 total credits**

MGT 420 ~ ................................................................. 3 credits

Managing Quality in the Supply Chain

*Students must choose three of the following BSM/MAN Concentration Electives:*

HRM 420 ~ ................................................................. 3 credits

Human Resource Risk Management

ISCOM 352 ~ ............................................................ 3 credits

Logistics Management

ISCOM 472 ~ ............................................................ 3 credits

Lean Enterprise

ISCOM 471 ~ ............................................................ 3 credits

Operations Management

ISCOM 473 ~ ............................................................ 3 credits

Global Sourcing and Procurement

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the BSM/MAN

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

Degree Requirements for the BSM/MAN

- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 45 upper division credits.
  - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  - A minimum grade point average (GPA) of 2.0.
- Students holding an associate degree from the University or a regionally or approved nationally accredited, or candidate for accreditation, college or university or equivalent undergraduate degree earned at a recognized foreign institution will have that associate degree emphasis(es) noted on the student's University of Phoenix transcript when the BSM degree is conferred, if applicable.
- The diploma awarded for this program will read as follows: Bachelor of Science in Management. Concentrations are reflected on the transcript only.

General Education Requirements for the BSM/MAN

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts Requirement 6 credits
  (A Track must include COMM 215, equivalent, or higher)
  (B Track must include: COM 170 and COM 172)
- Mathematics Requirement 6 credits
  (Must include MTH 209, equivalent, or higher)
- Science & Technology Requirement 6 credits
  (B Track must include: SCI 163)
- Must include at least three (3) credits in the physical or biological sciences
- Humanities Requirement 6 credits
  (B Track must include: HUM 114)
- Social Science Requirement 6 credits
  (B Track must include: PSY 211)
- Additional Liberal Arts Requirement 6 credits
  (B Track must include: GEN 195)
- Interdisciplinary Requirement 18 credits
  (B Track must include: FP 120)
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BSM/MAN

- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application are required to complete the First-Year Sequence (B Track).
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.

- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.

- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.

- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.

- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take BCOM 275 Business Communications and Critical Thinking as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence.

- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements. (e.g., taking COM 172 instead of COMM 215)

- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.

- Students may not complete any of the First-Year Sequence courses via Directed Study.

- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.

- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.
Residency Requirements and Course Waivers for the BSM/MAN

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits from the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: BCOM 275, MGT 420, MGT 498

Course Descriptions for the BSM/MAN

BCOM 275 .................................................................................. 3 credits

Business Communications and Critical Thinking

This course introduces students to the foundations of communication in a business setting. Students will develop skills in critical thinking and decision making through the forms of written communication, including memos, emails, business letters, and reports. Other topics include communication ethics and cross-cultural communications, personal communication styles, solving organizational problems, and the evaluation of an organizations strategic direction.

PHL 458 .................................................................................. 3 credits

Creative Minds and Critical Thinking

In this course students will analyze the thinking process from a critical and creative perspective. The lives of prominent creative thinkers will be examined to identify the social, historical, psychological, and cultural elements that influenced their development. The salient aspects of creativity will be assessed along with the relationship between creativity and critical thinking. Students will apply critical thinking skills to contemporary creative and scientific thought.

ETH 316 .................................................................................. 3 credits

Ethics and Social Responsibility

This course provides a foundational perspective for ethics and social responsibility in relationship to individuals, organizations, and the community. Emphasis is placed on the inter-related nature of ethics, morality, legal responsibility, and social issues.

LAW 421 .................................................................................. 3 credits

Contemporary Business Law

This course reviews the US legal system, common law and its development, organizational structures, and the regulatory environment pertinent to business. Students will learn to critically examine torts, crimes, and business ethics; contracts; business associations (agency, partnerships, corporations); wills, estates, trusts, and other legal entities; securities regulations; and investor protection.

RES 320 .................................................................................. 3 credits

Foundations of Research

This is a course introducing the foundations of research. Research principles and the scientific method are applied to professional situations. The course is designed to equip students with an understanding of commonly employed research methodologies that can be utilized to improve productivity and increase customer satisfaction.

PSY 322 .................................................................................. 3 credits

Consumer Psychology and Research

This course focuses on consumer behavior and marketing research. Topics include the cognitive processes underlying consumer choice, descriptive consumer characteristics, and environmental consumer behavior. This course emphasizes the implications of consumer behavior on domestic and global marketing communications.

BIS 320 .................................................................................. 3 credits

Business Information Systems

This course provides instruction on the use of Business Information Systems. Students apply Microsoft Office tools including word processing, spreadsheet, database, and presentation software to accomplish business objectives. Other topics include application software and the Internet for effective problem solving, use of relevant emerging technologies, and using information across different industries.

ECO 365 .................................................................................. 3 credits

Principles of Microeconomics

This course provides students with the basic theories, concepts, terminology, and uses of microeconomics. Students learn practical applications for microeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.
ACC 300 ...................................................................................3 credits
Principles of Accounting
This course focuses on principles of accounting for the non-accounting student. Emphasis will be placed on the accounting equation and transactions, financial statement preparation and analysis, internal controls, regulatory environment, compliance, and global business implications.

FIN 370 ...................................................................................3 credits
Finance for Business
This course introduces the student to the essential elements of finance for business. Emphasis is placed on financial management, financial markets, and the tools, techniques, and methodologies used in making financial decisions. Topics include: Financial planning, working capital management, capital budgeting, long term financing, and international finance.

MGT 498 .................................................................................. 3 credits
Strategic Management
This course gives students the opportunity to integrate management concepts and practices to contemporary business strategies, while discussing the theories of strategic management. This course will focus on improving management decision-making and problem-solving skills. Students will create a strategic management plan.

GEN 200 ...................................................................................3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 201 ...................................................................................3 credits
Foundations of General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

MTH 209 ...................................................................................3 credits
Mathematics I
This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

Course Descriptions for the Manufacturing Sector Concentration

OI 365........................................................................................3 credits
Knowledge Management and Intellectual Capital
In this course, students are provided the knowledge and skills necessary for effective knowledge management present in today’s increasingly innovative and global business environment. Students will be asked to consider a variety of topics critical to an organization’s long-term success including, but not limited to innovation, intellectual capital, goodwill, brand recognition, organizational partnerships, and organizational culture.

MGT 420 ...................................................................................3 credits
Managing Quality in the Supply Chain
This course provides a detailed look at quality management in the company and the supply chain. It addresses the differing theories of quality to include product and process design as well as customer driven quality. This course includes managing supply chain quality through supplier alliances and development in both the services and manufacturing industries.

HRM 420 ...................................................................................3 credits
Human Resource Risk Management
This course introduces students to risk management in a human resources department context. The course introduces basic risk management concepts that the student can apply to HR responsibilities of an organization to avoid or mitigate potential liabilities. Topics will include health and safety, security, crisis management, legal compliance, employment and discrimination issues.
ISCOM 352 .............................................................. 3 credits  
**Logistics Management**  
This course provides an overview of logistics management within a supply chain operation. This includes an analysis of different modes of transportation, logistics management within the United States, and logistics management in the global market. Special emphasis is placed on transportation and fleet management elements including operations management, information technology, decision support systems, fuel savings strategies, and reverse logistics considerations.

ISCOM 472 .............................................................. 3 credits  
**Lean Enterprise**  
This course provides an overview of lean manufacturing practices within a company and its supply chain. It addresses fundamental practices including flowcharting of business processes, collection and analysis of process performance data and the removal of those activities that are determined to be wasteful or non-essential.

ISCOM 471 .............................................................. 3 credits  
**Operations Management**  
This course provides an overview of operations management. Students will analyze the planning, organizing, controlling, and general management of productive resources in manufacturing and service organizations. This course also addresses the design and control of systems that are responsible for the efficient use of raw materials, labor, equipment, and facilities in the production of customer satisfying products and services.

ISCOM 473 .............................................................. 3 credits  
**Global Sourcing and Procurement**  
This course introduces students to the changing world of purchasing and its relationship to supply chains. It addresses purchasing operations and structures, strategic sourcing processes and the critical supply chain elements of managing supply chain inventory, information systems, as well as performance measurement and evaluation.

---

**Bachelor of Science in Accounting**  
The following Bachelor of Science in Accounting (BSACC) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Accounting (BSACC) promotes identification with, and orientation to, the accounting profession and is designed to provide knowledge and skills necessary to an accounting career. In addition to the key accounting course work at the introductory and intermediate levels, critical areas of study including auditing and taxation are required in the program. The importance of ethics and international issues are emphasized throughout the curriculum, along with core competencies in technology and communication. The program utilizes specific accounting problem-solving software to provide students with practical knowledge of the accounting field. The program also addresses the goals of professional values, communications and leadership skills, strategic and critical thinking skills, and technology skills of the professional accounting environment and provides additional coverage on the International Financial Reporting Standards (IFRS). Students are also exposed to varied business disciplines including economics, statistics, business law, corporate finance, and marketing to provide the general business overview and context necessary for accounting studies. This program is consistent with generally accepted accounting principles, including the accounting processes and knowledge areas that lead to professional certification.

At the conclusion of the BSACC program:

- Graduates will be able to apply financial accounting principles to record and communicate business activities to stakeholders.
- Graduates will be able to analyze accounting financial statements to support effective fiscal decision making.
- Graduates will be able to evaluate various accounting activities in relation to ethical, legal, and professional standards.
- Graduates will be able to demonstrate an understanding of issues in the areas of government and not-for-profit accounting, international transactions, taxation, and auditing.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsacc.
Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student’s specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine requirements. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction’s requirements will be consistent with the requirements at the time of admission.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Program Category Requirements - A Track and B Track

Communications, 3 total credits
BCOM 230 ~.................................................................3 credits
Business Communication for Accountants
(The prerequisite requirement only applies to B Track students)

Accounting Information Systems I

Cost Accounting, 3 total credits
ACC 349 ~ .............................................................3 credits
Cost Accounting

Intermediate Accounting, 9 total credits
ACC 421 ~ .............................................................3 credits
Intermediate Financial Accounting I
ACC 422 ~ .............................................................3 credits
Intermediate Financial Accounting II
ACC 423 ~ .............................................................3 credits
Intermediate Financial Accounting III

Tax, 3 total credits
Students must choose one of the following courses:
ACC 455 ~ .............................................................3 credits
Corporate Taxation
ACC 456 ~ .............................................................3 credits
Individual/Estate Taxation

Government & Non-Profit Accounting, 3 total credits
ACC 460 ~ .............................................................3 credits
Government and Non-Profit Accounting

Auditing, 6 total credits
ACC 491 ~ .............................................................3 credits
Contemporary Auditing I
ACC 492 ~ .............................................................3 credits
Contemporary Auditing II

Accounting Research, 3 total credits
ACC 497 ~ .............................................................3 credits
Advanced Topics in Accounting Research

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BSACC

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
- Applicants must be currently employed or have access to a work environment.
Degree Requirements for the BSACC

- Completion of a minimum of 120 credits that include the following distribution:
  - A minimum of 57 upper division credits.
  - A minimum of 48 of the 120 credits must be in the general education areas approved by the University.
  - A minimum program grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as follows: Bachelor of Science in Accounting

General Education Requirements for the BSACC

A minimum of 48 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts Requirement 6 credits
  (A Track must include: COMM 215, equivalent, or higher)
  (B Track must include: COM 170 and COM 172)
- Mathematics Requirement 6 credits
  (Must include MTH 209, equivalent, or higher)
- Science & Technology Requirement 6 credits
  (B Track must include: SCI 163)
- Must include at least three (3) credits in the physical or biological sciences
- Humanities Requirement 6 credits
  (B Track must include: HUM 114)
- Social Science Requirement 6 credits
  (B Track must include: PSY 211)
- Additional Liberal Arts Requirement 3 credits
  (B Track must include: GEN 195)
- Interdisciplinary Requirement 15 credits
  (B Track must include: FP 120)

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the BSACC

- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course. It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take BCOM 230 Business Communication for Accountants as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence (A Track).
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the BSACC

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.

• The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.

• The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the required course of study may not be waived: ACC 497 and BCOM 230.

**Course Descriptions for the BSACC**

**BCOM 230** .......................................................... 3 credits

**Business Communication for Accountants**

This course introduces students to the foundations of communication in a business accounting setting. Students are exposed to various topics related to interpersonal and group communication within the context of applications to the accounting field. Students will develop skills in the forms of written communication, including memos, emails, business letters, and reports. Other topics include communication ethics, collaboration, information utilization, critical thinking, and professional competence and values.

**BIS 220** ............................................................ 3 credits

**Introduction to Computer Applications and Systems**

This course provides an overview of Business Information Systems. Students learn to apply Microsoft Office™ tools including work processing, spreadsheet, database, and presentation software to accomplish business objectives. Other topics include uses of application software and the Internet for effective problem solving, exploration of relevant emerging technologies, and how information is used across different industries.

**MGT 230** .......................................................... 3 credits

**Management Theory and Practice**

This course explores the rich field of management in theory and practice, and as both a science and an art. Students learn to apply management concepts to current workplace issues. Other topics include increasing competitive forces, expectations for successful performance of employees and organizations, and achieving desired business goals.

**MGT 311** .......................................................... 3 credits

**Organizational Development**

This organizational behavior course encompasses the study of individual and group behavior in organizational settings. Students will learn to examine their role in an organization. Other topics include strategic elements of organizational behavior, workforce diversity, managing change, effective communication, and performance systems.

**ACC 290** .......................................................... 3 credits

**Principles of Accounting I**

This course covers the fundamentals of financial accounting as well as the identification, measurement, and reporting of the financial effects of economic events on an enterprise. Students will learn to examine financial information from the perspective of management. Other topics include decision-making, planning, and controlling from the perspective of a practicing manager.

**ACC 291** .......................................................... 3 credits

**Principles of Accounting II**

This course introduces accounting concepts in a business environment. Students learn to create and apply accounting documents in making better business decisions. Other topics include plant assets, liabilities, accounting for corporations, investments, statements of cash flows, financial statement analysis, time value of money, payroll accounting, and other significant liabilities.

**ETH 376** .......................................................... 3 credits

**Accounting Ethics and Professional Relations**

This course provides a foundation in the nature of ethics, moral, legal, and social issues in the accounting and business environments. Students learn topics including ethical reasoning, dealing with controversial issues, and the roles and responsibilities of accounting and auditing professionals. Other topics include a discussion of the AICPA Code of Professional Conduct and the Sarbanes-Oxley Act.

**LAW 421** .......................................................... 3 credits

**Contemporary Business Law**

This course reviews the US legal system, common law and its development, organizational structures, and the regulatory environment pertinent to business. Students will learn to critically examine torts, crimes, and business ethics; contracts; business associations (agency, partnerships, corporations); wills, estates, trusts, and other legal entities; securities regulations; and investor protection.

**ECO 365** .......................................................... 3 credits

**Principles of Microeconomics**

This course provides students with the basic theories, concepts, terminology, and uses of microeconomics. Students learn practical applications for microeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

**ECO 372** .......................................................... 3 credits

**Principles of Macroeconomics**

This course provides students with the basic theories, concepts, terminology, and uses of macroeconomics. Students learn practical applications for macroeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.
MKT 421 ................................................................. 3 credits
Marketing
This course involves an integrated analysis of the role of marketing within the total organization. Specific attention is given to the analysis of factors affecting consumer behavior, the identification of marketing variables, the development and use of marketing strategies, and the discussion of international marketing issues.
FIN 370 ................................................................. 3 credits
Finance for Business
This course introduces the student to the essential elements of finance for business. Emphasis is placed on financial management, financial markets, and the tools, techniques, and methodologies used in making financial decisions. Topics include: Financial planning, working capital management, capital budgeting, long term financing, and international finance.
QNT 351 ................................................................. 3 credits
Quantitative Analysis for Business
This course integrates applied business research and descriptive statistics. Students will learn to apply business research and descriptive statistics in making better business decisions. Other topics include examination of the role of statistics in research, statistical terminology, the appropriate use of statistical techniques, and interpretation of statistical findings in business and research.
BUS 475 ................................................................. 3 credits
Integrated Business Topics
The integrated business topics course examines strategic business management while integrating topics from previously completed business foundation coursework. This allows students to demonstrate a comprehensive understanding of the undergraduate business curricula with a significant emphasis placed on the assessment of individual outcomes to determine content mastery.
ACC 440 ................................................................. 3 credits
Accounting Information Systems I
This course is designed to provide accounting students with the proper mix of technical information and real-world applications. Areas of study include fundamental concepts and technologies, (what computers can do for business), the Internet, intranets electronic commerce, information systems development, basic project management principles, decision support systems, and the benefits of computer/human synergy.
ACC 449 ........................................................................................................ 3 credits
Cost Accounting
This course introduces cost terminology and flows, standard cost systems, relevant costing, budgeting, inventory control, capital asset selection, responsibility accounting, and performance measurement.
ACC 421 ........................................................................................................ 3 credits
Intermediate Financial Accounting I
This course examines the conceptual framework of accounting, including cash versus accrual accounting, the income statement and balance sheet, the time value of money, revenue recognition, statement of cash flows and full disclosure issues.

ACC 422 ........................................................................................................ 3 credits
Intermediate Financial Accounting II
This course is the second of the three part series of courses related to intermediate accounting. This section examines the balance sheet in more detail, including intangible assets, current liabilities and contingencies, long-term liabilities, stockholder's equity, and earnings per share. The course finishes with a look at investments and revenue recognition. Interwoven in the presentation of the material is an assortment of ethical dilemmas that encourage discussions about how the accountant should handle specific situations.
ACC 423 ........................................................................................................ 3 credits
Intermediate Financial Accounting III
This course is the third of a three-part series of courses related to intermediate accounting. This course examines owner’s equity, investments, income taxes, pensions and post-retirement benefits, as well as changes and error analysis. The course finishes with a look at derivative instruments. Interwoven in the presentation of the material is an assortment of ethical dilemmas that encourage discussions about how the accountant should handle specific situations.
ACC 455 ........................................................................................................ 3 credits
Corporate Taxation
This course is a basic introduction to federal corporate taxation. The purpose is to familiarize the student with fundamental tax issues and provide the student with a general understanding of the history, laws, and policies of federal taxation.
ACC 456 ........................................................................................................ 3 credits
Individual/Estate Taxation
This course is a basic introduction to federal individual and estate taxation. The purpose is to familiarize the student with fundamental tax issues and provide the student with a general understanding of the history, laws, and policies of federal taxation.
ACC 460 ........................................................................................................ 3 credits
Government and Non-Profit Accounting
This course covers fund accounting, budget and control issues, revenue and expense recognition and issues of reporting for both government and non-profit entities.
ACC 491 ........................................................................................................ 3 credits
Contemporary Auditing I
This course is the first in a two-part series that deals with auditing a company’s financial reports, internal controls, and Electronic Data Processing (EDP) systems. Topics include auditing standards, evidence, audit planning and documentation, materiality and risk, internal control, statistical tools, and the overall audit plan and program.
ACC 492 ........................................................................................................ 3 credits
Contemporary Auditing II
This course is the second in a two-part series that deals with auditing a company’s financial reports, internal controls, and Electronic Data Processing (EDP) systems. Topics include the personnel and payroll system, inventory, capital acquisition cycle, selected balance sheet and income statement accounts, audit reports, assurances and other services, professional ethics, and legal responsibilities.
ACC 497 ...................................................................................3 credits
Advanced Topics in Accounting Research
This course in accounting research provides students with an in-depth examination of the Generally Accepted Accounting Principl es (GAAP) and acceptable alternative reporting practices. Through comprehensive case studies, students will develop the research application skills necessary to analyze and make decisions regarding accounting reporting dilemmas in for-profit and not-for-profit companies.

COMM 215 ...................................................................................3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

GEN 200 ...................................................................................3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 300 ...................................................................................3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 301 ...................................................................................3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

MTH 209 ...................................................................................3 credits
College Mathematics II
This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

Associate Programs Pathways Program
Non-degree seeking students are permitted to take courses if admitted into the Pathways Program. The Pathways Program is designed for current high school juniors and seniors seeking to earn college credits while still enrolled in secondary schools. Pathways students may earn a maximum of 12 credits at the University of Phoenix. Non-degree students are not eligible to receive most types of financial aid or veterans benefits and must demonstrate English proficiency, if applicable, to be eligible for course enrollment. The Pathways Program admissions process must be completed before enrollment in any courses.

Admission into the Pathways program requires:
- Pathways Non-degree Application
- High School Junior or Senior Standing
- Pathways students must meet all prerequisite requirements for the program in which the courses are included. Students must also meet all admission requirements, with the exception of the HS diploma or equivalent.
- Parent or guardian consent
- $25 application fee

Before proceeding beyond 12 credits, Pathways program students must submit a University of Phoenix degree seeking application for admission, possess a high school diploma (or equivalent), and be granted acceptance to the University of Phoenix. Pathways students who want to earn more than 12 credits will be deemed degree seeking and be required to submit an application for admission to a University of Phoenix degree program.

Note: The Pathways Program is not available in all states. Please consult an enrollment counselor to determine if residents of a specific state are eligible for this program.
COLLEGE OF INFORMATION SYSTEMS AND TECHNOLOGY

Associate of Arts/Concentration in Information Technology

The following Associate of Arts/Concentration in Information Technology (AAIT) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts with a concentration in Information Technology focuses on basic understanding of programming practices, web design and the creation of web pages, local and wide area networking and information systems security. Courses build upon the fundamentals of information technology to give students the skills needed to address and solve real-world IT problems.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aait.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Concentration in Information Technology
IT 210 ~ ............................................................ 3 credits
Fundamentals of Programming with Algorithms and Logic
IT 236 ~ ............................................................ 3 credits
Intro to Web Design I
IT 237 ~ ............................................................ 3 credits
Intro to Web Design II
IT 240 ~ ............................................................ 3 credits
Introduction to LAN Technologies
IT 242 ~ ............................................................ 3 credits
Introduction to WAN Technologies
IT 244 ~ ............................................................ 3 credits
Introduction to IT Security

The University reserves the right to modify the required course of study.

Additional Admission Requirements for AAIT

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AAIT

Communication Arts Requirement 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)
Mathematics Requirement 6 credits
Science & Technology Requirement 6 credits

(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)
Social Science Requirement 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)
Humanities Requirement 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)
Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 105)
(B Track must include: US 101)
Interdisciplinary Requirement 9 credits
(B Track must include: FP 101)
Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total

Degree Requirements for AAIT

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of “D-” or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAIT

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
• University of Phoenix coursework,
• Regionally or nationally accredited coursework (C- or higher grade),
• University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
• National Testing Programs, and
• ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
• All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class has been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
• Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAIT
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
• The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAIT
IT 210 .................................................................3 credits
Fundamentals of Programming with Algorithms and Logic
This course provides students with a basic understanding of programming practices. Concepts covered include flowcharting, pseudocode methodologies, and an understanding of programming practices. Students will learn how these concepts, when properly applied, improve program design.
IT 236 .................................................................3 credits
Intro to Web Design I
Intro to Web Design I combines the study of foundational Web design principles with the practice of Web page construction to create business and e-business Web sites. Students conceptualize, design, and refine a Web site while satisfying class assignment and final project requirements. Students explore best practices for creating quality Web page layouts, navigation, appearance, functionality, and multimedia. Used to create basic designs are Adobe® Photoshop® Elements, and the Macromedia® Studio MX 2004 software package which includes Macromedia® Dreamweaver® and Macromedia® Flash®.
IT 237 .................................................................3 credits
Intro to Web Design II
This course focuses on the creation of robust, well-formatted, esthetically pleasing, text-based Web pages. Students create Web pages using Hypertext Markup Language (HTML), and discussion centers on how to publish completed pages and advertise those pages on the Web.
IT 240 .................................................................3 credits
LAN Technologies
This foundational course covers local area network (LAN) topics including rationale for networking, Open Systems Interconnection (OSI) models, common network topologies and architecture, client/server concepts, basic hardware devices and usage, and basic networking security concepts.
IT 242 .................................................................3 credits
Introduction to WAN Technologies
This course covers Wide Area Networking/Enterprise networking concepts and its interface with metropolitan area networks (MAN) and local area networks (LAN). The course will cover telecommunication technologies, backbone technologies, hardware device protocol, hardware selection and usage, and basic WAN security considerations and planning.
IT 244 .................................................................3 credits
Intro to IT Security
General concepts of information systems security will be introduced. Content includes governmental views, positions and processes of national security. Other concepts include contingency planning and business resumption planning, backup schemes and implementation strategies, as well as an introduction to various types of invasive actions and prevention measures.
COM 150 ................................................................. 3 credits
**Effective Essay Writing**
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 ................................................................. 3 credits
**Research Writing**
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 ................................................................. 3 credits
**Cultural Diversity**
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 ................................................................. 3 credits
**Critical Thinking**
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media— including television, Internet, and print— to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 ................................................................. 3 credits
**Skills for Learning in an Information Age**
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today's society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

---

**Associate of Arts/Concentration in Information Technology/Networking**

The following Associate of Arts/Concentration in Information Technology/Networking (AAIT/N) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts in Information Technology/Networking concentration focuses on information systems and the analysis, design, and security of modern computer networks. Courses emphasize Local Area Networks, Wireless Local Area Networks, Wide Area Networks, and network security. Students will be able to simulate network administration tasks through remote access to real hardware and software commonly used in the IT industry. Additionally, courses include scenario-based activities, placing students in real-world situations that allow them to apply foundational knowledge and skills.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aaian.

Intro to W-LAN Technologies
IT 244 ~ ................................................................. 3 credits
Intro to IT Security

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for AAIT/N**

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
General Education Requirements for the AAIT/N

Communication Arts Requirement 6 credits
(A Track must include: COM 150 and COM 220)
(B Track must include: COM 155 and COM 156)

Mathematics Requirement 6 credits

Science & Technology Requirement 6 credits
(A Track must include: 3 credits in the physical or biological sciences)
(B Track must include: SCI 162)

Social Science Requirement 6 credits
(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)

Humanities Requirement 6 credits
(A Track must include: CRT 205)
(B Track must include: HUM 111)

Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 105)
(B Track must include: US 101)

Interdisciplinary Requirement 9 credits
(B Track must include: FP 101)

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total

Degree Requirements for AAIT/N

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of “D-” or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAIT/N

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
- All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class has been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAIT/N

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAIT/N

IT 205 ........................................................................................................ 3 credits
Management of Information Systems
This course introduces students to the world of information technology. Students will examine the technology concepts included in business systems, networking, and project management and explore the systems development life cycle. Specific topics for the course include: hardware components, software applications, operating systems, databases, programming, as well as the security, privacy, and safety issues associated with information technology.

IT 210........................................................................................................ 3 credits
Fundamentals of Programming with Algorithms and Logic
This course provides students with a basic understanding of programming practices. Concepts covered include flowcharting, pseudocode methodologies, and an understanding of programming practices. Students will learn how these concepts, when properly applied, improve program design.

IT 240 ........................................................................................................ 3 credits
LAN Technologies
This foundational course covers local area network (LAN) topics including rationale for networking, Open Systems Interconnection (OSI) models, common network topologies and architecture, client/server concepts, basic hardware devices and usage, and basic networking security concepts.

IT 241 ........................................................................................................ 3 credits
Introduction to W-LAN Technologies
Concepts of wireless networking systems include wireless networking topologies, hardware protocols, hardware selection and implementation, interfaces with MAN, LAN and WAN networks, basic wireless security and integration concepts.

IT 242 ........................................................................................................ 3 credits
Introduction to WAN Technologies
This course covers Wide Area Networking/Enterprise networking concepts and its interface with metropolitan area networks (MAN) and local area networks (LAN). The course will cover telecommunication technologies, backbone technologies, hardware device protocol, hardware selection and usage, and basic WAN security considerations and planning.

IT 244 ........................................................................................................ 3 credits
Intro to IT Security
General concepts of information systems security will be introduced. Content includes governmental views, positions and processes of national security. Other concepts include contingency planning and business resumption planning, backup schemes and implementation strategies, as well as an introduction to various types of invasive actions and prevention measures.

COM 150 .................................................................................................... 3 credits
Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 .................................................................................................... 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 ............................................................................................... 3 credits
Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 ............................................................................................... 3 credits
Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media—including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical devices, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 ............................................................................................... 3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.
The following Associate of Arts/Concentration in Information Technology/Programming (AAIT/PRG) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

A concentration in Programming offers coursework in computer scripting and programming.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aait-prg.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

**Concentration in Information Technology/Programming - Track A and B**

(A Track must include: ETH 125)
(B Track must include: PSY 201 and ETH 125)

**Humanities Requirement 6 credits**
(A Track must include: CRT 205)
(B Track must include: HUM 111)

**Additional Liberal Arts Requirement 3 credits**
(A Track must include: GEN 105)
(B Track must include: US 101)

**Interdisciplinary Requirement 9 credits**
(B Track must include: FP 101)

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

**Degree Requirements for AAIT/PRG**

The degree requirements for this program are the following:

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D-" or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

Management of Information Systems
This course introduces students to the world of information technology. Students will examine the technology concepts included in business systems, networking, and project management and explore the systems development life cycle. Specific topics for the course include: hardware components, software applications, operating systems, databases, programming, as well as the security, privacy, and safety issues associated with information technology.

IT 210.............................................................................................................. 3 credits
Fundamentals of Programming with Algorithms and Logic
This course provides students with a basic understanding of programming practices. Concepts covered include flowcharting, pseudocode methodologies, and an understanding of programming practices. Students will learn how these concepts, when properly applied, improve program design.

IT 236.............................................................................................................. 3 credits
Intro to Web Design I
Intro to Web Design I combines the study of foundational Web design principles with the practice of Web page construction to create business and e-business Web sites. Students conceptualize, design, and refine a Web site while satisfying class assignment and final project requirements. Students explore best practices for creating quality Web page layouts, navigation, appearance, functionality, and multimedia. Used to create basic designs are Adobe® Photoshop® Elements, and the Macromedia® Studio MX 2004 software package which includes Macromedia® Dreamweaver® and Macromedia® Flash®.

IT 237.............................................................................................................. 3 credits
Intro to Web Design II
This course focuses on the creation of robust, well-formatted, esthetically pleasing, text-based Web pages. Students create Web pages using Hypertext Markup Language (HTML), and discussion centers on how to publish completed pages and advertise those pages on the Web.

IT 215.............................................................................................................. 3 credits
JAVA Programming
JAVA has rapidly become the language of choice for platform independent implementations. This course provides a general introduction to programming, data structures and object-oriented programming in particular. The syntax and semantics of the JAVA language are addressed, as well as related topics which include object-oriented programming concepts, terminology, and notation. This class requires the Java2 Software Development Kit, Student Edition V, 1.4.2_02 2003.

IT 218.............................................................................................................. 3 credits
Introduction to C/C++
This course introduces the student to C/C++ programming. The syntax and semantics of the C/C++ programming language are used to produce simple computer programs.
COM 150 ................................................................. 3 credits

Degree Requirements for AAIT/ITS

- Completion of a minimum of 60 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D" or higher.
- A minimum grade point average (GPA) of 2.0.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAIT/ITS

- All students entering associate degree programs with less than 24 previous college credits, as recognized by the university on the admissions application, will be enrolled in the B Track and are required to complete the First-Year Sequence.
- US 101 will be required as the first course in the first block of the First-Year Sequence.
- HUM 111 will be required as the last course in the First-Year Sequence and may be taken concurrently with non-FYS or FYS courses. All other FYS requirements must be satisfied prior to enrolling in any other General education elective, or concentration courses.
- With the exception of GEN 105, US 101, FP 101, and HUM 111, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (15 credit limit on experiential learning; 15 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.

Additional Admission Requirements for AAIT/ITS

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AAIT/ITS

- Communication Arts Requirement 6 credits
  (A Track must include: COM 150 and COM 220)
  (B Track must include: COM 155 and COM 156)
- Mathematics Requirement 6 credits
- Science & Technology Requirement 6 credits
  (A Track must include: 3 credits in the physical or biological sciences)
  (B Track must include: SCI 162)
- Social Science Requirement 6 credits
  (A Track must include: ETH 125)
  (B Track must include: PSY 201 and ETH 125)
- Humanities Requirement 6 credits
  (A Track must include: CRT 205)
  (B Track must include: HUM 111)
- Additional Liberal Arts Requirement 3 credits
  (A Track must include: GEN 105)
  (B Track must include: US 101)
- Interdisciplinary Requirement 9 credits
  (B Track must include: FP 101)

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

- Social Science Requirement 6 credits
- Science & Technology Requirement 6 credits
- Mathematics Requirement 6 credits
- Communication Arts Requirement 6 credits
- Humanities Requirement 6 credits
- Additional Liberal Arts Requirement 3 credits
- Interdisciplinary Requirement 9 credits
- General Education total
- Minimum of 60 credits
• The course used to satisfy a First-Year Sequence course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course.
• All students entering associate degree programs with 24 or more previous college credits, as recognized by the university on the admissions application, will be enrolled in the A Track, must take GEN 105 as part of the first block, and are not required to enroll in the First-Year Sequence. ETH 125 or an appropriate writing class have been recommended by the college as the second course in the first block; however, the student may choose an alternate course.
• Students who list 24 or more previous college credits, as recognized by the university on the admissions application, and who do not enroll in the First-Year Sequence may not enroll in any course from the First-Year Sequence to satisfy General Education or Elective requirements.
• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
• Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education or Elective requirements.

Residency Requirements for the AAIT/ITS
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited coursework, and who meet the following criteria:
• The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the AAIT/ITS

Management of Information Systems
This course introduces students to the world of information technology. Students will examine the technology concepts included in business systems, networking, and project management and explore the systems development life cycle. Specific topics for the course include: hardware components, software applications, operating systems, databases, programming, as well as the security, privacy, and safety issues associated with information technology.

Computer Hardware Fundamentals
This course is an introduction to computer support fundamentals of personal computer (PC) hardware architecture, components, networking, configuration, upgrading, and repair. Activities that are critical to this course include remote access to hands-on LiveLabs and Scenarios.

Computer Software Fundamentals
This course is an introduction to the fundamentals of the Vista and legacy Windows Operating Systems (98/ME, 2000/XP) for computer software configuration, file management, performance monitoring, optimization, maintenance, recover and security. Activities that are critical to this course include remote access to hands-on LiveLabs and Scenarios.

Enterprise Computer Support
This course is an introduction to the roles, responsibilities, and skills required to become a professional computer support PC Technician and provide exceptional computer support service. This includes the fundamentals of customer service, effective questioning, verbal and non-verbal communication, on-site support, telephone support, remote e-commerce support, and dealing with difficult customers. This course includes remote access to hands-on, real-world customer support issues and Scenarios.

Computer Maintenance and Troubleshooting
This course is an introduction to computer hardware and software maintenance and troubleshooting. Each Module of the course will focus on typical problem scenarios, diagnostics, procedures and solutions. The final Module of this course provides you with a problem scenario to demonstrate your understanding of diagnostic skills and solution implementation. This course includes remote access to hands-on LiveLabs and Scenarios.
COM 150 ................................................................. 3 credits
Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense and form, subject-verb and pronoun-antecedent agreement, and pronoun case. Students also complete exercises covering topic sentences, paragraph development, citations, and formatting guidelines.

COM 220 ................................................................. 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

ETH 125 ................................................................................... 3 credits
Cultural Diversity
This course is designed to educate students about issues of race, ethnicity, and gender in the United States by presenting historical and modern perspectives on diversity.

CRT 205 ................................................................. 3 credits
Critical Thinking
In this course, students develop the ability to think clearly and critically. Practice includes developing writing skills that enable students to clearly present claims to support their conclusions and avoid reinforcing biases. Students are given the opportunity to analyze and discuss various types of media—including television, Internet, and print—to determine which sources provide the most reliable information. Topics addressed include the relationship between critical thinking and clear writing, credibility of sources, rhetorical structures, fallacies, unclear or misleading language, and the characteristics of various types of arguments.

GEN 105 ................................................................. 3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

Associate of Arts/Concentration in Information Technology/Database Development Concentration
The following Associate of Arts/Concentration in Information Technology/Database Development Concentration (AAIT/DBD) degree program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

This concentration focuses on the installation and programming of database applications in the business environment. The development of queries and reports from a database are addressed in this program as well as the backup, recovery, and security of databases. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aait-dbd.

Course Descriptions for the AAIT/DBD

IT 205........................................................................................ 3 credits
Management of Information Systems
This course introduces students to the world of information technology. Students will examine the technology concepts included in business systems, networking, and project management and explore the systems development life cycle. Specific topics for the course include: hardware components, software applications, operating systems, databases, programming, as well as the security, privacy, and safety issues associated with information technology.

IT 210........................................................................................ 3 credits
Fundamentals of Programming with Algorithms and Logic
This course provides students with a basic understanding of programming practices. Concepts covered include flowcharting, pseudocode methodologies, and an understanding of programming practices. Students will learn how these concepts, when properly applied, improve program design.

IT 260........................................................................................ 3 credits
Introduction to Desktop Databases
This course will cover the use desktop database software to create small database applications. Emphasis will be placed on creating databases and forms. Hands-on experience in the installation, design, and debugging of desktop database software will be included in this course.

IT 261........................................................................................ 3 credits
Advanced Desktop Databases
This course is a continuation in the study of desktop database software. Emphasis will be placed on database design, reporting, queries and data analysis using desktop database software.

IT 264........................................................................................ 3 credits
Introduction to SQL
This course provides an introduction to the Structured Query Language (SQL) that provides a unified language that lets you query, manipulate, or control data in a business applications environment.

IT 265........................................................................................ 3 credits
Managing the Database Environment
This course provides an introduction to the installation, configuration, support, availability and recovery databases. The considerations for database administration addressing the requirements for user access, security, backup and recovery will be covered in this course.

COM 150 ................................................................. 3 credits
Effective Essay Writing
In this course, students develop academic writing skills. Students use the writing process to construct an expository essay with an emphasis on coherence and correctness in written communication. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Bachelor of Science in Information Technology

The following Bachelor of Science in Information Technology (BSIT) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Information Technology (BSIT) program is focused on the acquisition of theory and application of technical competencies associated with the information technology profession. The courses prepare students with fundamental knowledge in core technologies, such as systems analysis and design, programming, database design, network architecture and administration, Web technologies and application development, implementation and maintenance.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the BSIT
All applicants are expected to meet the following admissions requirements:

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

• Applicants must be currently employed or have access to a work environment.

Degree Requirements for the BSIT

• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 42 upper division credits.
  • A minimum of 54 credits of the 120 credits must be in the general education areas approved by the University.
  • A minimum grade point average (GPA) of 2.0.

• All students must complete the minimum number of credits required by their degree program.

• All undergraduate students are required to complete the minimum general education credits required by their program version.

• Students will declare a concentration at the time of enrollment.

The diploma awarded for this program will read as: Bachelor of Science in Information Technology and will not reflect the concentration. Concentrations are reflected on the transcript only.
General Education Requirements for the BSIT
A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts Requirement 6 credits
(A Track must include COMM 215, equivalent, or higher and COMM 218)
(B Track must include: COM 170 and COM 172)
Mathematics Requirement 6 credits
(Must include MTH 220, equivalent, or higher)
Science & Technology Requirement 6 credits
(B Track must include: SCI 163)
Must include at least three (3) credits in the physical or biological sciences

Humanities Requirement 6 credits
(B Track must include: HUM 114)
Social Science Requirement 6 credits
(B Track must include: PSY 211)
Additional Liberal Arts Requirement 6 credits
(B Track must include COMM 218)
Interdisciplinary Requirement 18 credits
(B Track must include: FP 120)

Academic Progression Requirements for the BSIT
- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence (A Track).
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the BSIT
Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years (ten years for MTH 221) of application to the University with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the required course of study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program. This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the required course of study, a student must have completed a previous course which meets the following criteria:
- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: GEN 195, GEN 200
Students may waive, with or without credit, courses in the Required Course of Study, but must substitute with any upper division coursework to satisfy the required course of study (national testing program credit, prior learning credit, and military credit, or General Education coursework, may not be used to replace coursework waived, with or without credit).

**Course Descriptions for the BSIT**

**GEN 200**................................................................. 3 credits

**Foundations for General Education and Professional Success**

This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

**GEN 195**................................................................. 3 credits

**Foundations of University Studies**

The essential information, skills, tools, and techniques necessary for academic success and personal effectiveness at the University of Phoenix are introduced in this course. The course develops and applies practical knowledge and skills immediately relevant to first-year university students. Course topics include goal setting and working with personal motivation, understanding and using University resources, developing efficient study habits, making the most of personal learning styles, and how best to manage time and reduce personal stress levels.

**CIS 207** ................................................................. 3 credits

**Information Systems Fundamentals**

This course introduces the fundamentals of computer systems and the role of information processing in today’s business environment. An overview is presented of information systems, systems development, operating systems and programming, database management, networking and telecommunications, and the Internet.

**PRG 211** ................................................................. 3 credits

**Algorithms and Logic for Computer Programming**

This course provides students with a basic understanding of programming development practices. Concepts covered include the application of algorithms and logic to the design and development of procedural and object oriented computer programs to address the problem solving requirements associated with business information systems. This course will cover procedural programming concepts including data types, controls structures, functional decomposition, arrays, and files, classes and objects.

**WEB 240** ................................................................. 3 credits

**Web Design Fundamentals**

This course introduces development tools and techniques used to publish web pages on the World Wide Web. Students use basic hypertext markup language, scripting, and presentational technologies to create websites with the aid of a software authoring application. Topics include XHTML, CSS, JavaScript®, server hosting, site publication, site maintenance, and search engine optimization.

**POS 355** ................................................................. 3 credits

**Introduction to Operating Systems**

This course provides an introduction to operating systems. Topics covered include operating system concepts, program execution, and operating system internals such as memory, processor, device, and file management. A variety of operating systems are compared and contrasted.

**ENG 221** ................................................................. 3 credits

**Technical Writing Fundamentals**

This course covers the fundamentals and best practices of using written communication in business and in the information technologies. Topics include strategies, techniques, and nuances for producing emails, memos, reports, proposals, project specifications, and user manuals, as well as other technical documents.

**BSA 310** ................................................................. 3 credits

**Business Systems**

This course reviews common business systems and their interrelationships. Business systems covered include finance, accounting, sales, marketing, human resources, legal, and operations. Emphasis is placed upon the inputs and outputs of information systems, the potential for integration of the systems, and information systems security.

**BSA 375** ................................................................. 3 credits

**Fundamentals of Business Systems Development**

This course introduces the fundamental, logical, and design considerations addressed during system and application software development. It provides a solid background in information systems analysis and design techniques through a combination of theory and application. The Systems Development Life Cycle will be fundamental to the course.

**CMGT 410** ............................................................. 3 credits

**Project Planning and Implementation**

This course provides the foundation for successful project planning, organization, and implementation within the realm of information technology. The course uses real-world examples and identifies common mistakes and pitfalls in project management. Topics covered include project scoping, estimating, budgeting, scheduling and staffing, tracking and controlling, and software tools for project management.

**DBM 380** ................................................................. 3 credits

**Database Concepts**

This course covers database concepts. Topics include data analysis, the principal data models with emphasis on the relational model, entity-relationship diagrams, database design, normalization, and database administration.

**CMGT 400** ............................................................. 3 credits

**Intro to Information Assurance & Security**

This course is an introduction to information assurance and security in computing technology. Topics include risk management; protecting information in the enterprise; business continuity and disaster recovery planning; threats and remediation; legal, ethical, and professional issues; and considerations within systems development processes.

**NCT 362** ................................................................. 3 credits

**Fundamentals of Networking**

This course provides a foundation in the basic telecommunications and networking technologies fundamental to the industry and to the broad field of telecommunications. Analog, digital, and radio frequency technologies are covered. Also covered in this course is an introduction to the OSI protocol model, network-switching systems, basics of wireless communications, and network security.
PRG 420 ................................................................. 3 credits
Java Programming I
This course introduces object-oriented programming in the content of business applications development. The basics of the Java programming language are covered.
MTH 221 ................................................................. 3 credits
Discrete Math for Information Technology
Discrete (as opposed to continuous) mathematics is of direct importance to the fields of Computer Science and Information Technology. This branch of mathematics includes studying areas such as set theory, logic, relations, graph theory, and analysis of algorithms. This course is intended to provide students with an understanding of these areas and their use in the field of Information Technology.

MTH 220 ................................................................. 3 credits
Discrete Math for Information Technology
Discrete (as opposed to continuous) mathematics is of direct importance to the fields of Computer Science and Information Technology. This branch of mathematics includes studying areas such as set theory, logic, relations, graph theory, and analysis of algorithms. This course is intended to provide students with an understanding of these areas and their use in the field of Information Technology.

Application Implementation
This course will cover the process and issues associated with the implementation of a computer application information system. Topics will include the processes associated with sponsor and stakeholder approvals, end user training, technical staff training, conversion from existing application(s) and integration into the information system production environment. This course will also examine the use of development and testing environments and the testing procedures related to the implementation of a computer application information system.

COMM 215 ................................................................. 3 credits
Essentials of College Writing
This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

MTH 220 ................................................................. 3 credits
College Algebra
This course presents traditional concepts in college algebra. Topics include linear, polynomial, rational, radical, exponential and logarithmic functions, systems of equations, sequences, series, and probability.

MTH 221 ................................................................. 3 credits
Discrete Math for Information Technology
Discrete (as opposed to continuous) mathematics is of direct importance to the fields of Computer Science and Information Technology. This branch of mathematics includes studying areas such as set theory, logic, relations, graph theory, and analysis of algorithms. This course is intended to provide students with an understanding of these areas and their use in the field of Information Technology.

GEN 101 ................................................................. 3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 ................................................................. 3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

Course Descriptions for the Concentration in Advanced Networking

NTC 405 ................................................................. 3 credits
Telecommunications and Networking I
This course is designed to provide the fundamentals of basic telecommunications including an introduction to standards, organizations, and governing bodies, and concepts such as TCP/IP, modulation or demodulation, and terminology for telecommunications and computer networks. The basics of analog and digital circuits are analyzed. Complex digital equipment, such as multiplexers, is introduced. The course is completed with an overview and analysis of various network topologies and network operating systems explaining how the electronic concepts assist in network troubleshooting.

NTC 406 ................................................................. 3 credits
Telecommunications and Networking II
NTC 406 provides analysis of the seven levels of the OSI model as the basis for analysis and discussion of network protocols. Each level of the OSI model is analyzed in detail with the related theory being applied to specific applications in the industry.

Global Network Management, Support and Security
NTC 411 ................................................................. 3 credits
Global Network Architecture and Design
This course addresses the fundamentals of network design and analysis with an emphasis on network traffic. The network design techniques necessary for LAN and WAN implementations are covered. The concept of service levels, the provisioning of and importance of service levels are analyzed.

Global Network Management, Support and Security
NTC 411 broadens network design and analysis to include global considerations for an enterprise network configuration. This course introduces the topic of overall end-to-end network management, the concepts and the available tools to the network designer. The development and management of the relationships between the enterprise and the WAN providers is discussed. Network security, Disaster Recovery, and Business Continuity planner is also addressed in this course.
Network Integration Project

The focus of this course is the application of network design and performance concepts. The design considerations for a global network, including LANs and WANs with both wired and wireless functionality will be applied. End-to-end performance criteria and service level guarantees will examined as a part of network design project. Network capabilities to handle varying types of traffic from low speed data to large image files and streaming video and digital voice will be explored.

Course Descriptions for the Concentration in Business Systems Analysis

BSA 400 ................................................................................ 3 credits

Business Systems Development II

This course continues the subject matter of BSA/375, Fundamentals of Business Systems Development. It completes an examination of methodologies, tools, and standards used in business systems development. An emphasis is placed on examining enterprise-level business systems.

BSA 411 ................................................................................ 3 credits

Systems Analysis Methodologies

This course provides the student with an understanding of several methodologies available to identify business problems and the possible information system solutions for addressing problems.

BSA 412 ................................................................................ 3 credits

Systems Analysis Tools

This course builds upon the methodologies examined in Systems Analysis Methodologies by providing an emphasis on analysis tools – computer and non-computer supported. Emphasis is placed on when and how Microsoft Visio may be used for analysis.

CMGT 411 ................................................................................ 3 credits

Project Planning Management

This course provides the foundation for understanding the broad concepts of successful planning, organization, and implementation within the realm of information technology. This course uses real-world examples and identifies common mistakes and pitfalls in project management. Topics covered include project scoping, estimating, budgeting, scheduling, tracking, and controlling.

CMGT 413 ................................................................................ 3 credits

Application Acquisition and Sourcing

This course examines a number of alternatives to be considered when delivery of an information technology application is needed. The evaluation of alternatives such as build versus buy and insourcing or outsourcing are covered along with the considerations for testing and evaluation of information technology decisions. The primary components of a Request for Proposal (RFP) and a Statement of Work (SOW) are examined in this course.

Course Descriptions for the Concentration in Information Management

IM 300 ................................................................................ 3 credits

Data Organization Architecture

This course provides an introduction to how data is architected and organized. It discusses the different data models used to store data, outlines several schemas that drive how data is structured, and provides other database concepts relating to the design and architecture of data.

IM 305 ................................................................................ 3 credits

Data Modeling

This course provides an in-depth look at several intermediate design and architecture concepts. The course covers the design method used in the creation of a relational database, the required steps to reengineer a database, and several tools and techniques used through the database design process.

POS 410 ................................................................................ 3 credits

SQL For Business

This course covers Structured Query Language (SQL) that provides a unified language that lets you query, manipulate, or control data in a business applications environment.

DBM 384 ................................................................................ 3 credits

Special Purpose Databases

This course examines the use of database technology in a variety of information technology applications. The use of text, multimedia, temporal, spatial, and mobile databases will be covered in this course.

DBM 460 ................................................................................ 3 credits

Enterprise Database Management Systems

This course covers distributed computing, middleware and industry standards as relating to the enterprise data repository. Data warehousing, data mining, and data marts are covered from an enterprise perspective.

Course Descriptions for the Concentration in Information Systems Security

POS 420 ................................................................................ 3 credits

Introduction to UNIX

This course is a survey of the UNIX® operations. The student will gain an understanding of the internal operations of the UNIX® system, which enables the user to make efficient use of files, file systems, and processes. Commands for efficient management of UNIX® system files, file systems and process, systems administration and security are also examined.

POS 421 ................................................................................ 3 credits

Windows Server Networking

This course is a survey of Windows Server Administration. Topics emphasize the structure and the various applications supported by Windows Server. The course includes remote, hands-on access to Windows Server lab exercises.

CMGT 441 ................................................................................ 3 credits

Introduction to Information Systems Security Management

This course introduces security principles and management issues that IT professionals must consider. The course surveys current and emerging security practices and processes as they relate to information systems, systems development, operating systems and programming, database development and management, networking and telecommunications, and the Internet.
CMGT 442 ......................................................... 3 credits
Information Systems Risk Management
This course identifies and defines the types of risks that information systems professionals need to consider during the development and implementation of computer based information systems. This course will survey remedies and prevention techniques available to address the risk areas present. Organizational policies and current regulatory considerations will also be examined relative to development, implementation and use of computer based information systems.

CMGT 430 ......................................................... 3 credits
Enterprise Security
This course covers the managerial and technical considerations related to access controls, authentication, external attacks and other risk areas facing the enterprise. This course will also survey the techniques to prevent unauthorized computer and facility access as well the concepts for protecting the hardware and software assets of the enterprise.

Course Descriptions for the Concentration in Multimedia & Visual Communication
VCT 300 .......................................................... 3 credits
Image Editing
This course is an introduction to image editing and its role in the disciplines of web design, electronic publishing and multimedia development. An overview is presented on file formats, composition, color, text design, retouching and manipulation of graphic and photographic images.

VCT 320 .......................................................... 3 credits
Electronic Publishing
This course presents the essential role of electronic publishing in the delivery of information to today’s businesses and consumers. Most of the course is concerned with methods and techniques involved in the electronic publishing of business presentations, corporate reports, newsletters, training materials, manuals and electronic books, but other information formats such as wikis and blogs are also considered.

VCT 410 .......................................................... 3 credits
Instructional Design
This course presents principles of instructional design. An instructional design methodology is presented that includes requirements analysis, performance objectives, performance measures, instructional strategies, storyboarding, design specifications, development, implementation and evaluation.

VCT 420 .......................................................... 3 credits
Multimedia Development
This course introduces the fundamentals of developing interactive, multimedia enriched content for delivery across alternative platforms such as the Internet, CDs and handheld devices. The focus is on the integration of animation, audio and video content to maximize communication.

WEB 431 .......................................................... 3 credits
XML
This course extends Web programming to include XML. An emphasis is placed upon the appropriate use of XML as a programming tool.

Course Descriptions for the Concentration in Software Engineering
PRG 421 .......................................................... 3 credits
Java Programming II
This course continues the subject in PRG 420, Java Programming I. Topics include designing complex applications and the use of date files.

BSA 385 .......................................................... 3 credits
Intro to Software Engineering
This course introduces the fundamental, logical, and design considerations addressed during system and application software development. It provides a background in applications software development and testing techniques through a combination of theory and application.

CSS 422 .......................................................... 3 credits
Software Architecture
This course is an integrating course in business application software engineering. Integration, migration, and maintenance of enterprise software systems, including legacy systems, are emphasized.

POS 408 .......................................................... 3 credits
.NET I
This course introduces object-oriented programming in the context of business applications development. It develops the skills and knowledge necessary to produce beginning event-driven programs with graphical user interfaces (GUI). Topics include standard Windows compatible forms, controls, and procedures. The course uses Visual Basic.

POS 409 .......................................................... 3 credits
.NET II
This course extends the facilities and command sets of the Visual Basic programming system for Windows®. Topics covered include designing Visual Basic applications, forms, event driven procedures, writing and debugging programs, databases, data files, and printing.

Course Descriptions for the Concentration in Web Development
VCT 300 .......................................................... 3 credits
Image Editing
This course is an introduction to image editing and its role in the disciplines of web design, electronic publishing and multimedia development. An overview is presented on file formats, composition, color, text design, retouching and manipulation of graphic and photographic images.

WEB 401 .......................................................... 3 credits
Web Development
This course covers topics such as designing dynamic web pages and an introduction to Java and Java applets. Emphasis is placed upon the appropriate use of web programming tools.

WEB 407 .......................................................... 3 credits
Advanced Web Development
This course focuses on existing and emerging Web development technologies. Topics include specialized Web markup languages, server-side backend databases, server-side programming, web services, enterprise Web development and Web applications.
WEB 431 ................................................................. 3 credits

XML
This course extends Web programming to include XML. An emphasis is placed upon the appropriate use of XML as a programming tool.

WEB 434 ................................................................ 3 credits

Website Commercialization I
This course builds upon a professional understanding of web design and development, emphasizing the trend towards website commercialization. Topics of this course include web-based interfaces, online supply chain management, e-commerce tools and techniques, branding, basic marketing strategies and Search Engine Optimization.

WEB 435 ................................................................. 3 credits

Website Commercialization II
This course explores the concept of website commercialization from the perspective of an advanced web developer. Students will focus on client security and server security, social networks, virtual worlds, m-commerce, non-traditional marketing strategies and customer service.

Associate of Arts in Information Technology/General

The following Associate of Arts in Information Technology (AAIT/GEN) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students must want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

Additional Admission Requirements for the AAIT/GEN

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AAIT/GEN

The General Education requirements for this program are the following:

Communication Arts Requirement 6 credits
(A Track must include: COMM 215, equivalent, or higher and COMM 218)
(B Track must include: COM 170 and COM 172)

Mathematics Requirement 6 credits
(Must include MTH 209, equivalent, or higher)

Science & Technology Requirement 6 credits
(B Track must include: SCI 163)

Humanities Requirement 6 credits
(B Track must include: HUM 114)

Social Science Requirement 6 credits
(B Track must include: PSY 211)

Additional Liberal Arts Requirement 3 credits
(A Track must include: GEN 200)
(B Track must include: GEN 195)

Interdisciplinary Requirement 9 credits
(B Track must include: FP 120 and COMM 218)

All undergraduate students are required to complete the minimum general education credits required by their program version.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Degree Requirements for the AAIT/GEN

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their degree program.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- The diploma awarded for this program will read as follows: Associate of Arts
Academic Progression Requirements for the AAIT/GEN

- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the University of Phoenix on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course it is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence (A Track).
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the AAIT/GEN

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.

The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the required course of study may not be waived: GEN 200, GEN 195.

Course Descriptions for the AAIT/GEN

CIS 207 ............................................................. 3 credits
Information Systems Fundamentals

This course introduces the fundamentals of computer systems and the role of information processing in today’s business environment. An overview is presented of information systems, systems development, operating systems and programming, database management, networking and telecommunications, and the Internet.

CMGT 245 .......................................................... 3 credits
IS Security Concepts

This course introduces general concepts of information systems security. Content includes governmental views, positions and processes of national security. Coursework explores other concepts, including contingency and business resumption planning, backup schemes and implementation strategies, as well as various types of invasive actions and prevention measures.

PRG 211 .......................................................... 3 credits
Algorithms and Logic for Computer Programming

This course provides students with a basic understanding of programming development practices. Concepts covered include the application of algorithms and logic to the design and development of procedural and object oriented computer programs to address the problem solving requirements associated with business information systems. This course will cover procedural programming concepts including data types, controls structures, functional decomposition, arrays, and files, classes and objects.
Desktop Databases Development

This course will cover the use of desktop database software to create small database applications. Emphasis will be placed on creating databases and forms. Hands-on experience in the installation, design, and debugging of desktop database software will be included in this course.

VCT 236 .................................................................................. 3 credits

Introduction to Image Editing and Formatting

This course is an introduction to image editing and its role in the disciplines of web design, electronic publishing, and multimedia development. An overview is presented on image editing software applications, file formats, composition, color, text design, retouching, and manipulation of graphic and photographic images.

WEB 240 .................................................................................. 3 credits

Web Design Fundamentals

This course introduces development tools and techniques used to publish web pages on the World Wide Web. Students use basic hypertext markup language, scripting, and presentational technologies to create websites with the aid of a software authoring application. Topics include XHTML, CSS, JavaScript®, server hosting, site publication, site maintenance, and search engine optimization.

COMM 215 ............................................................................. 3 credits

Essentials of College Writing

This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

MTH 209 .................................................................................. 3 credits

College Mathematics II

This course continues the demonstration and examination of various basic algebra concepts that were begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

GEN 200 .................................................................................. 3 credits

Foundations for General Education and Professional Success

This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

Associate of Arts in Information Technology/Network Support

The following Associate of Arts in Information Technology/Network Support (AAIT/NS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts in Information Technology with a concentration in Network Support offers coursework in the specific theories, competencies, and skills necessary for success as a network administrator. This concentration is developed with a focus on the network+ body of knowledge including local area networks, wireless networks, and wide area networks.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aait-ns.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

Preferred Sequence and Requirements - A Track and B Track

CIS 207 ~ ................................................................................. 3 credits

Information Systems Fundamentals

NTC 245 ~ ................................................................................. 3 credits

Foundation of Local Area Networks

NTC 247 ~ ................................................................................. 3 credits

Wireless Networking Concepts

NTC 249 ~ ................................................................................. 3 credits

Wide Area Networking Concepts

CMGT 245 ~ ............................................................................ 3 credits

IS Security Concepts

POS 221 ~ ................................................................................ 3 credits

Windows Server Configurations

Students in the AAIT/NS must complete an 18 credit Concentration.

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the AAIT/NS

All applicants are expected to meet the following admissions requirements:

• Applicants must be at least 16 years of age at the time of application.

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

University of Phoenix, 2012-2013
General Education Requirements for the AAIT/NS

The General Education requirements for this program are the following:

- Communication Arts Requirement 6 credits
  (A Track must include: COMM 215, equivalent, or higher and COMM 218)
  (B Track must include: COM 170 and COM 172)

- Mathematics Requirement 6 credits
  (Must include MTH 209, equivalent, or higher)

- Science & Technology Requirement 6 credits
  (B Track must include: SCI 163)

- Humanities Requirement 6 credits
  (B Track must include: HUM 114)

- Social Science Requirement 6 credits
  (B Track must include: PSY 211)

- Additional Liberal Arts Requirement 3 credits
  (A Track must include: GEN 200)
  (B Track must include: GEN 195)

- Interdisciplinary Requirement 9 credits
  (B Track must include: FP 120 and COMM 218)

All undergraduate students are required to complete the minimum general education credits required by their program version. Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Degree Requirements for the AAIT/NS

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their degree program.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- The diploma awarded for this program will read as follows: Associate of Arts

Academic Progression Requirements for the AAIT/NS

- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
- ACE evaluated Military credits.
- The course used to satisfy a First-Year Sequence course must be comparable in content to the university course. It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
- Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
- Students who list 24 or more previous college credits, as recognized by the university on the admissions application, must take GEN 200 Foundations for General Education and Professional Success as the first course with University of Phoenix and are not required to enroll in the First-Year Sequence (A Track).
- Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who do not enroll in the First-Year Sequence, may not enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.
- Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
- Students may not complete any of the First-Year Sequence courses via Directed Study.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the AAIT/NS

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix. Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the required course of study may not be waived: GEN 200, GEN 195.
Essentials of College Writing

The course introduces the fundamentals of computer systems and the role of information processing in today's business environment. An overview is presented of information systems, systems development, operating systems and programming, database management, networking and telecommunications, and the Internet.

Foundation of Local Area Networks

This foundational course covers local area network topics including rationale for networking, Open Systems Interconnection (OSI) models, common network topologies and architecture, client/server concepts, basic hardware devices and usage, and basic networking security concepts.

Wireless Networking Concepts

This course explores concepts of wireless networking systems, including wireless networking and topologies; hardware protocols; hardware selection and implementation; interfaces with local-area network (LAN), metropolitan area network (MAN), and wide-area network (WAN) networks; basic wireless security; and network integration concepts.

Wide Area Networking Concepts

This course covers Wide Area Networking concepts and its interface with metropolitan area networks (MAN) and local area networks (LAN). The course will cover telecommunication technologies, backbone technologies, hardware device protocol, hardware selection and usage, and basic WAN security considerations and planning.

IS Security Concepts

This course introduces general concepts of information systems security. Content includes governmental views, positions and processes of national security. Coursework explores other concepts, including contingency and business resumption planning, backup schemes and implementation strategies, as well as various types of invasive actions and prevention measures.

Windows Server Configurations

This course is a survey of Windows Server Configurations. Topics emphasize the structure and the various applications supported by Windows Server. The course includes remote, hands-on access to Windows lab exercises.

Essentials of College Writing

This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.

College Mathematics II

This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

Foundations for General Education and Professional Success

This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

Skills for Lifelong Learning

This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

Skills for Professional Development

This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.
**Associate of Arts in Information Technology/Desktop Support**

The following Associate of Arts in Information Technology/Desktop Support (AAIT/DS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts in Information Technology with a concentration in Desktop Support offers coursework in the technologies and methods necessary to provide technical support to information technology and computer system users. The students will learn the customer support aspects of personal computer desktop software applications, computer hardware and software according to the A+ body of knowledge including diagnosis and solutions.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aaits.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

**Preferred Sequence and Requirements - A Track and B Track**

**CIS 207 ~** Information Systems Fundamentals
- 3 credits

**CIS 211 ~** Office Software Support Fundamentals
- 3 credits

**CIS 290 ~** Personal Computer Hardware Support
- 3 credits

**CIS 292 ~** Personal Computer OS Support
- 3 credits

**CIS 294 ~** Personal Computer Customer Support
- 3 credits

**CIS 295 ~** Computer Systems Maintenance
- 3 credits

*Students in the AAIT/DS must complete an 18 credit Concentration.*

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for the AAIT/DS**

All applicants are expected to meet the following admissions requirements:

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

**General Education Requirements for the AAIT/DS**

The General Education requirements for this program are the following:

- **Communication Arts Requirement 6 credits**
  - (A Track must include: COMM 215, equivalent, or higher and COMM 218)
  - (B Track must include: COM 170 and COM 172)

- **Mathematics Requirement 6 credits**
  - (Must include MTH 209, equivalent, or higher)

- **Science & Technology Requirement 6 credits**
  - (B Track must include: SCI 163)

- **Humanities Requirement 6 credits**
  - (B Track must include: HUM 114)

- **Social Science Requirement 6 credits**
  - (B Track must include: PSY 211)

- **Additional Liberal Arts Requirement 3 credits**
  - (A Track must include: GEN 200)
  - (B Track must include: GEN 195)

- **Interdisciplinary Requirement 9 credits**
  - (B Track must include: FP 120 and COMM 218)

All undergraduate students are required to complete the minimum general education credits required by their program version. Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

**Degree Requirements for the AAIT/DS**

- Completion of a minimum of 60 credits.
- A minimum grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their degree program.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- The diploma awarded for this program will read as follows: Associate of Arts

**Academic Progression Requirements for the AAIT/DS**

- All students entering undergraduate degree programs who list less than 24 previous college credits as recognized by the university on the admissions application will be enrolled in the B Track and are required to complete the First-Year Sequence.
- First-Year Sequence students must satisfy all seven (7) courses from the First-Year Sequence prior to enrolling in any other General Education, elective, or concentration courses.
- GEN 195 will be required as the first course in the First-Year Sequence.
- HUM 114 will be required as the last course in the First-Year Sequence. All other FYS requirements must be satisfied prior to enrolling in any other program applicable course.
- With the exception of GEN 195, FP 120, and HUM 114, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - University of Phoenix Prior Learning Assessment, (30 credit limit on experiential learning; 30 credit limit on professional training),
  - National Testing Programs, and
• ACE evaluated Military credits.
• The course used to satisfy a First-Year Sequence course must be comparable in content to the university course. It is replacing, must be at least a 2.67 credit course, and must be an equivalent level or higher level course.
• Concurrent enrollment is prohibited during any of the courses in the First-Year Sequence.
• Students who list 24 or more previous college credits, as recognized by the University on the admissions application, and who have not enrolled in the First-Year Sequence, may enroll in any course from the First Year Sequence to satisfy programmatic prerequisites, general education or elective requirements.
• Students who previously completed GEN 101, GEN 200, or GEN 300 and choose to transition to the First-Year Sequence are not required to take GEN 195.
• Students may not complete any of the First-Year Sequence courses via Directed Study.
• Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
• All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite.

Residency Requirements and Course Waivers for the AAIT/DS

Students must meet the established University residency requirement for degree conferment. The University requires that the majority of coursework, 15 credits, from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past five years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.

The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the required course of study may not be waived: GEN 200, GEN 195.

Course Descriptions for the AAIT/DS

CIS 207 ..................................................................................... 3 credits

Information Systems Fundamentals

This course introduces the fundamentals of computer systems and the role of information processing in today’s business environment. An overview is presented of information systems, systems development, operating systems and programming, database management, networking and telecommunications, and the Internet.

CIS 211 ..................................................................................... 3 credits

Office Software Support Fundamentals

This course is an introduction to the support fundamentals of desktop software including word processor, spreadsheet, presentation, database, and personal information management (email, calendar, contact management and web browsing) applications.

CIS 290 ..................................................................................... 3 credits

Personal Computer Hardware Support

This course is an introduction to computer support fundamentals of personal computer (PC) hardware architecture, components, networking, configuration, upgrading, and repair.

CIS 292 ..................................................................................... 3 credits

Personal Computer OS Support

This course is an introduction to the fundamentals of personal computer operating systems for computer software configuration, file management, performance monitoring, optimization, maintenance, recovery, and security.

CIS 294 ..................................................................................... 3 credits

Personal Computer Customer Support

This course is an introduction to the roles, responsibilities, and skills required to become a professional computer support technician and provide exceptional computer support service. This course includes the fundamentals of and non-verbal communication, on-site support, telephone support, remote e-commerce support, and dealing with difficult customers.

CIS 296 ..................................................................................... 3 credits

Computer Systems Maintenance

This course is an introduction to computer hardware and software maintenance and troubleshooting. This course will focus on typical problem scenarios, diagnostics, procedures and solutions.

COMM 215 ............................................................................. 3 credits

Essentials of College Writing

This course covers the essential writing skills required for college-level coursework. Students will learn to distinguish between interpretive and analytical writing while using the writing process and specific rhetorical strategies to develop position and persuasion essays and a case study analysis, and learning teams will prepare an applied research paper. The course offers exercises for review of the elements of grammar, mechanics, style, citation, and proper documentation.
MTH 209...................................................................................3 credits
College Mathematics II
This course continues the demonstration and examination of various basic algebra concepts that was begun in MTH 208: College Mathematics I. It assists in building skills for performing more complex mathematical operations and problem solving than in earlier courses. These concepts and skills should serve as a foundation for subsequent quantitative business coursework. Applications to real-world problems are emphasized throughout the course. Specific applications to disciplines such as statistics, accounting, finance, and economics are demonstrated and discussed. A variety of other applications, such as geometry, personal finance, science, and engineering, are also demonstrated and discussed.

GEN 200 ...................................................................................3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.

GEN 101 ...................................................................................3 credits
Skills for Lifelong Learning
This course is designed to provide core competencies for adult learners. The course examines learning theory and the application of adult learning principles to communication skills, group processes, and personal management. Adult learners will develop strategies for achieving University of Phoenix Learning Goals in school, work, and personal settings. They will also be introduced to the University Library and learn how to access resources successfully.

GEN 300 ...................................................................................3 credits
Skills for Professional Development
This course examines the skills necessary for successful critical thinking, teamwork, research, and communication. The course is designed to aid adult learners in acquiring and improving the core competencies that are necessary at the University of Phoenix. Students will examine their reasons for returning to school, and develop strategies for achieving educational goals in school, work, and personal settings. Students will also be introduced to the University library and learn how to access its resources successfully.

Associate Programs Pathways Program
Non-degree seeking students are permitted to take courses if admitted into the Pathways Program. The Pathways Program is designed for current high school juniors and seniors seeking to earn college credits while still enrolled in secondary schools. Pathways students may earn a maximum of 12 credits at the University of Phoenix. Non-degree students are not eligible to receive most types of financial aid or veterans benefits and must demonstrate English proficiency, if applicable, to be eligible for course enrollment. The Pathways Program admissions process must be completed before enrollment in any courses.

Admission into the Pathways program requires:
• Pathways Non-degree Application
• High School Junior or Senior Standing
• Pathways students must meet all prerequisite requirements for the program in which the courses are included. Students must also meet all admission requirements, with the exception of the HS diploma or equivalent
• Parent or guardian consent
• $25 application fee

Before proceeding beyond 12 credits, Pathways program students must submit a University of Phoenix degree seeking application for admission, possess a high school diploma (or equivalent), and be granted acceptance to the University of Phoenix. Pathways students who want to earn more than 12 credits will be deemed degree seeking and be required to submit an application for admission to a University of Phoenix degree program.

Note: The Pathways Program is not available in all states. Please consult an enrollment counselor to determine if residents of a specific state are eligible for this program.
The College of Nursing offers both undergraduate and graduate (see the graduate section of this catalog) degrees to prepare students to expand their career options in the dynamic and rapidly changing health care environment. Undergraduate Programs
- LP/VN to Bachelor of Science in Nursing
- RN to Bachelor of Science in Nursing
Graduate Programs
- Master of Science in Nursing
- Master of Science in Nursing/Healthcare Education
- Master of Science in Nursing/Informatics
- Master of Science in Nursing/Family Nurse Practitioner
- Post Master Certificate - Family Nurse Practitioner
- Master of Health Administration/Master of Science in Nursing
- Master of Business Administration/Health Care Management/Master of Science in Nursing
- Master of Science in Nursing/Master of Health Administration
- Master of Science in Nursing/Master of Business Administration/Health Care Management

The College of Nursing works closely with other academic departments to assure that the students receive appropriate and well-rounded education. The College also works cooperatively with the College of Arts and Sciences to give breadth to the undergraduate experience through the integration of general education and professional course work. The programs are also designed to assure that computer competencies are incorporated into the curriculum.

Nursing

The Nursing programs are designed to respond to the educational needs of licensed nurses. The College offers employed nurses opportunities to participate in accredited degree programs developed to broaden their professional horizons. Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, 202-887-6791.

These programs are designed specifically for nurses who desire a repertoire of skills and knowledge necessary to respond effectively to today's dynamic health care environment. The programs also equip nurses with essential skills necessary to assume a leadership role in resolving the challenges faced by health care organizations and personnel. Each program has a blend of theory and practice which fosters a learning environment that allows nurses to build their knowledge base and to effectively and creatively apply what they have learned.

The University of Phoenix offers RN to BSN students the ability to transition into the Master of Science in Nursing degree program. Students may complete two graduate courses as part of their undergraduate work, thus creating the pathway for a smooth transition into the graduate program.

International Nursing Honor Society

The vision of Sigma Theta Tau is to create a global community of nurses who lead in using scholarship, knowledge, and technology to improve the health of the world’s people. The society provides support for the professional development of members who strive to improve nursing care worldwide.

Omicron Delta is the Sigma Theta Tau chapter of the University of Phoenix, College of Nursing members. Membership to Sigma Theta Tau is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship, and to nurse leaders who demonstrate exceptional achievement in nursing. The undergraduate student must have at least a 3.0 grade point average on a 4.0 scale, be in the upper 35 percent of his/her graduating class, have completed at least one-half of the nursing curriculum to qualify for membership and meet the expectation of academic integrity. The graduate student must have at least a 3.5 grade point average on a 4.0 scale and have completed at least one-half of the nursing curriculum to qualify for membership.

More than 300,000 nurse scholars have been inducted into Sigma Theta Tau. With 120,000 active members, it is the second-largest and one of the most prestigious nursing organizations in the world. The society’s members are active in more than 90 countries and territories, and the 424 chapter honor societies are located on more than 523 college and university campuses in United States, Australia, Brazil, Canada, Hong Kong, the Netherlands, Pakistan, South Korea, and Taiwan.

Omicron Delta has close to 5,000 active members worldwide. The chapter was originally chartered in 1996 and has grown to be one of the largest chapters in the international organization. To learn more about Omicron Delta visit the Web site http://www.omicrondelta.net.

Academic Progression Requirements for all Current Nursing Programs (excluding BSN/I)

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 10 panel, plus alcohol drug test.

- For purposes of this policy, the following definitions apply:
  - Drug testing means the scientific analysis of urine, blood, breath, saliva, hair, tissue, and other specimens from the human body for the purpose of detecting the use of drugs or alcohol.
• Reasonable suspicion means evidence which forms a reasonable basis for concluding that it is more likely than not that a person is impaired by alcohol or drugs or has engaged in substance abuse. Facts which could give rise to reasonable suspicion include, but are not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, difficulty in maintaining balance, marked changes in personality or job performance, and unexplained accidents, without reasonable justification. Such evidence may come from a professional or expert opinion, layperson opinion, scientific tests, or other sources or methods.

• Illegal drug means any drug which is not legally obtainable; any drug which is legally obtainable but has not been legally obtained; any prescribed drug not legally obtained; any prescribed drug not being used for the prescribed purpose or by the person for whom it was prescribed; any over-the-counter drug being used at a dosage level other than that recommended by the manufacturer; and any drug being used for a purpose or by a person not in accordance with bona fide medical therapy. Examples of illegal drugs include, but are not limited to, stimulants; depressants; narcotic or hallucinogenic drugs; cannabis substances, such as marijuana and hashish; cocaine; heroin; methamphetamine; phencyclidine (PCP); and so-called designer drugs and look-alike drugs.

• Impaired means that a person’s mental or physical capabilities are reduced below his or her normal levels without reasonable justification. An impaired student manifests deterioration in the level of function as compared to that previously observed, or the student does not function at a level normally expected under the prevailing circumstances. Impairment may exist in one or more multiple domains, including psychomotor activity and skills, conceptual or factual recall, integrative or synthetic thought processes, judgment, attentiveness, demeanor and attitudes as manifested in speech or actions. Impairment will include addiction to and/or physical dependence upon alcohol or illegal drugs.

• Substance abuse means:
  • the consumption, possession, or distribution of alcohol or illegal drugs by any nursing student while on University or affiliated clinical site premises or while participating in any University (or affiliated clinical site) sponsored or related activity, including any nursing-related course or clinical training activity.
  • a nursing student’s use of alcohol or any drug in such a way that the student’s performance in any nursing course, including activities at any clinical site, is impaired.

• Prior to being assigned to a clinical placement and as a prerequisite for placement at any agency or health care facility the nursing student shall sign an agreement:
  • to abide by the drug policies and drug testing policies of the University and each agency or health care facility in which a student is assigned as applicable,
  • to submit to any “for cause” drug testing required by the University and testing required by each agency or health care facility the nursing student obtains clinical hours, and
  • to release a copy of any and all drug test results to the University of Phoenix, Dean/Associate Dean of Nursing, other appropriate University officials, and to any State Board(s) of Nursing in which the student holds a nursing license or certificate, where required by the relevant State Board(s) of Nursing.

Failure to sign such agreement is grounds for refusal for student admission and progression in the program.

• The College of Nursing requires students to obtain a 10 panel, plus alcohol drug test if the student’s behavior in the clinical, classroom or laboratory setting creates facts that give rise to a reasonable suspicion of substance abuse, or indicates they are impaired by alcohol or drugs.

• If the results of the 10 panel, plus alcohol drug test is negative for alcohol or illegal drugs:
  • The student shall meet with their Campus College Chair, Director of Nursing, or NP Program Manager within 24 hours or by the first business day following the test results to discuss the circumstances surrounding suspected behavior.
  • The Campus College Chair, Director of Nursing, or NP Program Manager will counsel the student regarding return to the classroom and clinical agency. The preliminary investigation will cease and the student will be released from further action at that time.
  • The Campus College Chair, Director of Nursing, or NP Program Manager will arrange for the student to make up the missed clinical hours.

• If the results of the 10 panel, plus alcohol drug test is positive for alcohol or illegal drugs:
  • A full review by the Office of Dispute Management and Apollo Ethics and Compliance shall be conducted. Students who test positive for alcohol or illegal drugs will not be permitted to return to any clinical setting pending conclusion of the review. The findings may result in student dismissal from the nursing program and expulsion from the University.
  • The results of the positive test for alcohol or illegal drugs shall be reported to the applicable State Board(s) of Nursing, if required by the applicable State Board(s), by the Campus College Chair, Director of Nursing, or NP Program Manager.
  • If the results of the 10 panel, plus alcohol drug test(s) are positive for a prescribed drug(s) but not those that would be defined as illegal in the definitions above:
    • the drug level is within prescribed limits.
    • the level does not indicate abuse.
    • the student’s use of the drug as prescribed will not interfere with safe practice in the clinical area.

This statement must be provided to the Campus College Chair, Director of Nursing, or NP Program Manager. If the statement is approved, then the test result will be deemed acceptable and not failed for these purposes.

• The failure of a student to provide the above statement or a health care provider’s inability to provide a statement meeting the requirements above shall be treated as a positive test for an illegal drug.
• Students who refuse to submit to a "for-cause" drug test will not be allowed to return to any clinical setting pending conclusion of a full review by the Office of Dispute Management and Apollo Ethics and Compliance. The findings may result in dismissal from the nursing program and expulsion from the University. The results of a positive test for illegal drugs as defined herein or a refusal to undergo a required drug test will be reported to the applicable State Board of Nursing where required by the applicable State Board(s) of Nursing’s statute(s) or regulation(s).
• Students must also adhere to any other additional policies prescribed by the clinical agency. It is the sole responsibility of the student to read and acknowledge the requirements of the clinical health care facility in addition to University policy.
• All costs associated with the drug test, including any transportation costs to or from the drug testing facility, will be the responsibility of the student.
• University of Phoenix, College of Nursing, campus officials may be required to report all failed drug tests to each State Board of Nursing in which the student holds a nursing license or certificate. Campus officials shall report test results to all applicable State Boards of Nursing as described in the applicable Board’s statutes and/or regulations.

Bachelor of Science in Nursing

The following Bachelor of Science in Nursing (BSN) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Nursing (BSN), accredited by the Commission of Collegiate Nursing Education (CCNE)*, is a program designed to develop the professional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program includes behavioral objectives that concentrate on the development of the nurse’s role as caregiver, teacher, and leader. Utilizing human caring as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to client outcomes and health care systems. The Bachelor of Science in Nursing degree program has a 41-credit required course of study and a 6-credit elective requirement. The required course of study includes a capstone course that synthesizes baccalaureate outcomes. The required course of study fulfills only part of the 120-minimum-credit requirement for degree completion. * For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036-1120; (202)887-6791.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsn.

Required Course of Study for the BSN

Courses requiring prerequisites are identified by a ~ symbol following the course number.

HCS 301 ........................................................................................................ 2 credits
Undergraduate Nursing Studies

Additional Admission Requirements for the BSN

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
• Current employment is not a requirement for admission.
• Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  • Guam
  • American Samoa
  • Northern Mariana Islands
  • US Virgin Islands
Note: Nurses with a Puerto Rico License must obtain US licensure for admission.

- Non-military students who enroll in this program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree-BSN/I. Students must sign a new Enrollment Agreement for the international version of the degree, and must maintain an active, unencumbered nursing license in the U.S. or its territories. Students must notify their campus representative within thirty (30) days after moving to a new location outside the US, update their profile to reflect the new international address, and must have a nursing license to practice nursing in the country where they are residing for the BSN practicum or contact an Online College representative.
- Completion of a nursing diploma earned from a recognized school of nursing in the United States; associate degree (any emphasis) earned in the United States from an approved regionally or nationally accredited institution; an associate degree in nursing or post-secondary diploma in nursing or foreign equivalent earned at a recognized foreign institution; California 30 credit option or California BSN approved program.
- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the BSN

- Completion of a minimum of 120 credits that include the following:
  - A minimum of 47 upper division credits.
  - A minimum of 73 lower division credits
  - A minimum program grade point average (GPA) of 2.0.
  - All students must complete the minimum number of credits required by their degree program.

University of Phoenix offers assessment of prior learning as an option by which students can earn assessed credits toward degree completion requirements. Registered nurses, enrolled in the BSN program, whose nursing education was completed at a non-US institution, or a non-accredited institution, may be evaluated for transferable non-nursing credits for degree completion.

Additional Academic Progression Requirements for the BSN

- All students enrolling in the BSN program will take HCS 301 as their first course.
- Students may take courses required for the Bachelor of Science in Nursing degree in any sequence as long as the prerequisite(s) for each course has been satisfactorily completed.
- Students whose RN license becomes restricted, encumbered or revoked while enrolled in the program, may not enroll in any further courses.
- All undergraduate students must satisfy math and English prerequisites prior to enrolling in any course that requires math or English as a prerequisite. Math and English prerequisites may be found in the Undergraduate Programs section of this catalog.
- A clinical course may not be taken concurrently with any other course.
- Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.

Minimum Grade Requirements for the BSN

Students in the Bachelor of Science in Nursing are required to achieve a minimum grade of “C” (2.0) in specific nursing and clinical courses. Students who fail to receive a minimum grade of “C” in any of the specified courses will be scholastically disqualified from the University. (“C-” is not acceptable). These courses include: NUR 391, NUR 403, NUR 405, NUR 408, NUR 420, NUR 440, NUR 443, NUR 492

Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have retaken the course which placed them on scholastic disqualification, satisfied the grade requirement, and fulfilled any additional criteria for reenrollment, as determined by the faculty member and the Campus College Chair or appropriate Dean.

Re-Admission is granted when the student satisfactorily fulfills the outlined requirements to remove the scholastic disqualification. Students may repeat a clinical course only one time. If the student does not receive a “C” or better on the second attempt, the student will be permanently withdrawn from the Bachelor of Science in Nursing program.

Residency Requirements and Course Waivers for the BSN

Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 29 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to waive a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed and transferred from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a regionally or nationally accredited institution with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following required courses may not be waived: NUR 391, NUR 492

General Education Requirements for the BSN

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Mathematics, 6 credits
Humanities, 6 credits
Social Science, 6 credits
Interdisciplinary Requirements, 18 credits

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Course Descriptions for the BSN

HCS 301 ................................................................................... 2 credits

Undergraduate Nursing Studies

The course is designed to aid adult learners in acquiring or improving critical thinking, teamwork, research, and communication skills, which are necessary at the University of Phoenix. Students will develop strategies for achieving educational goals that will help them be successful in the undergraduate program as well as in their professional development. Students will also be introduced to the University library and the Center for Writing Excellence and learn how to access those resources successfully.

NUR 391 ................................................................................... 3 credits

Professional Nursing Practice

This course focuses on the professional role and discipline of nursing. Students will examine the image of nursing and develop strategies for improvement. Standards of professional practice will be discussed in relation to the profession, role, and value behavior.

HCS 350 ................................................................................... 3 credits

Health Care Communication

This course will focus on professional communication related to the role of the registered nurse. This course is designed to explore the knowledge and skills required to communicate therapeutically with clients and communicate effectively with other professionals of a health care team. The art of delegation will be examined.

NUR 403 ................................................................................... 3 credits

Theories and Models of Nursing Practice

This course is designed to focus baccalaureate students on the behaviors, attitudes, and values necessary for theory-based professional nursing practice. Concepts of professional nursing are presented within the unifying framework of Jean Watson’s Theory of Human Caring.

NUR 427 ................................................................................... 3 credits

Health and Chronic Disease Management

This course focuses on pathophysiology, principles of motivation, learning theories, and their application to disease processes. A review of diseases from a systems approach will be stressed along with discussions regarding the impact of diversity, delivery of patient education, complementary and alternative therapies, and community resources.

NUR 440 ................................................................................... 3 credits

Health Assessment and Promotion for Vulnerable Population

This course is designed to assist professional nurses in developing interviewing skills, refinement of physical assessment techniques, and preventative health interventions when working with diverse and vulnerable populations. The importance of therapeutic communication in performing a health assessment is emphasized.

HCS 438 ................................................................................... 3 credits

Statistical Applications

The emphasis in this statistical application’s course is on thinking about research issues in a statistically sound and practical fashion. Students will learn how to formulate and ask the right questions, how to collect data effectively, how to summarize and interpret information, and how to understand the limitations of statistical inferences.

NUR 443 ................................................................................... 3 credits

Evidence-Based Nursing Research and Practice

This course will focus on current review of nursing research literature and research utilization through evidence-based practice. Three areas of research competencies will be examined which include interpreting and using research in nursing practice, evaluating research, and conducting research.

NUR 405 ................................................................................... 4 credits

Health Communities: Theory and Practice

This course will examine the role of nursing in community health and create conditions that promote healthy living. Theories of community health and nursing practice will be explored through concepts of health promotion, tertiary, primary, and preventative care of individuals, families, and communities. Students will complete 50 clinical hours.
NUR 408 ................................................................................... 4 credits
Epidemiology: Global and Public Health
Epidemiology provides the basis for significant public and global health decisions. This course will explore key issues related to public and global health relevant to professional nursing practice. Through the use of epidemiology methods, students will track the natural history of a disease and identify its frequency, distribution, and cause. This course contains 50 hours of clinical experience.

Health Law and Ethics
The legal and ethical aspects of the nurse’s role in the delivery and management of health care are examined in this course. This course will introduce ethical responsibilities and decision making models related to various health care situations while exploring legal accountability to the individual, client, and health care providers.

HCS 482 ................................................................................... 3 credits
Health Care Informatics
This course is designed to examine computer and electronic modalities that assist patient and client management. The automation of data management through information systems, expert systems, and telecommunications will be examined in the context of health care informatics. The use of technology to help make decisions and to improve the health status of the individual, family, and community will be emphasized.

NUR 492 ................................................................................... 4 credits
Senior Practicum: Leadership and Management
This course will provide the student the opportunity to synthesize previous knowledge and skills in a supervised practicum experience with the guidance and approval of the faculty. The final project will integrate the academic and practical knowledge the students have acquired in their program. This course contains 25 hours of clinical experience.

MTH 220 ................................................................................... 3 credits
College Algebra
This course presents traditional concepts in college algebra. Topics include linear, polynomial, rational, radical, exponential and logarithmic functions, systems of equations, sequences, series, and probability.

NSCI 280 ................................................................................... 4 credits
Anatomy and Physiology I
Anatomy and Physiology I is the first of a two-course sequence examining the terminology, structure, function, and interdependence of the human body systems. This course includes a study of the cells, chemistry, tissues, integumentary, skeletal, muscular, nervous, and endocrine systems. In conjunction with classroom instruction, the anatomy and physiology online lab component for this course requires students to apply knowledge from the classroom to online experiments and critical thinking application exercises.

NSCI 281 ................................................................................... 4 credits
Anatomy and Physiology II
Anatomy and Physiology II is the second in a two course sequence examining the terminology, structure, function, and interdependence of systems within the human body. This course includes a study of circulatory, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems. Discussion includes the application of nutrition, fluid, electrolyte and acid base balance, and genetics as applicable to the weekly course content. In conjunction with the classroom instruction, the anatomy and physiology online lab component for this course requires students to apply knowledge learned regarding the systems through online experiments and critical thinking application exercises.

HIS 145 ..................................................................................... 3 credits
The American Experience Since 1945
This course is an overview of the principal social, political, economic, and global events which have shaped the American experience since World War II. Understanding modern American history is a necessity in today’s ever-changing world. This course aims to supply the tools for understanding current political, social, cultural, and economic problems in the U.S. by applying an historical perspective to analyze contemporary issues.

POL 215 .................................................................................... 3 credits
State and Local Political Processes
This course is designed to introduce students to state and local government structures and processes. Government and business relationships are particularly emphasized. Opportunities are provided for students to observe and interact with state and local government officials and groups and to debate public policy issues in a local or state government meeting setting.
Admission Requirements for University of Phoenix

All applicants are expected to meet the following admission requirements:

- Applicants whose native language is not English must have either:
  - Achieved a minimum score of 213 on the computer-based test (CBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  - or-
  - Achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  - or-
  - Achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
  - or-
  - Achieved a minimum score of 75 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam within two years of application to the University.
  - or-
  - Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
  - or-
  - Achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.

The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:

- Successful completion of 30 transferable academic semester credits at a regionally or nationally accredited college or university in the United States.
- Successful completion of 30 transferable academic semester credits at a recognized college or university in a country in which English is the official language.
- U.S. high school diploma or GED administered in English.
- Equivalent of a U.S. high school diploma from a country in which English is the official language.

- Applicants who reside in the United States must meet one of the following requirements:
  - Be a legal resident of the United States
  - Have been granted permanent residency
  - Have a valid visa that does not prohibit educational studies
  - Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
  - Have been granted asylum along with copy of passport and I-94 hearing the stamp indicating the issue and expiration dates of the Asylee status.

- A signed Enrollment/Disclosure Agreement.
- Students, who list less than 24 previous college credits as recognized by the University on the admissions application, are required to successfully complete a University Orientation Workshop (UNIV 100 for Online or UNIV 101 for local campus) to be officially admitted (AM).
- Only students who reside within the United States and its territories are eligible to enroll into a University of Phoenix bachelor or master of education program.
- A signed New Student Checklist may be required.

Associate of Arts/Concentration Checklist may be required.

Associate of Arts/Concentration in Elementary Education

The following Associate of Arts/Concentration in Elementary Education (AAEE) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Associate of Arts Degree in Elementary Education addresses major topics that impact instruction; such as the historical and philosophical contexts for contemporary educational; contemporary issues in education; diversity in the classroom; and the exceptional learner. Students are required to apply writing and problem-solving skills to evaluate topics covered. Evaluation occurs through a variety of methods including written assignments, discussion, and debate. Students will communicate effectively in informal, formal, and quantitative contexts and will be conversant with the values and terminology of the field. This degree lays a foundation for transition into Bachelor of Science in Elementary Education program at the University of Phoenix.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/aaee.

Courses requiring prerequisites are identified by a ~ symbol following the course number.
Concentration in Elementary Education

AED 200 ~ ................................................................. 3 credits
Contemporary Issues in American Education
AED 201 ~ ................................................................. 3 credits
Teaching as a Profession
AED 204 ~ ................................................................. 3 credits
Diversity in the Classroom
AED 222 ~ ................................................................. 3 credits
Intro to the Exceptional Learner
MTH 156 ~ ................................................................. 3 credits
Math For Elementary Teachers I
MTH 157 ~ ................................................................. 3 credits
Math For Elementary Teachers II

The University reserves the right to modify the required course of study.

Additional Admission Requirements for AAEE
- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.

General Education Requirements for the AAEE
Communication Arts Requirement 6 credits
(Must include ENG 101, ENG 102 or equivalent)
Mathematics Requirement 6 credits
Science & Technology Requirement 11 credits
(Must include BIO 100, CIS 105, GLG 101)
Social Science Requirement 6 credits
(Must include POS 110 and 3 credits chosen from the following: HIS 115, HIS 125, HIS 135)
Humanities Requirement 6 credits
(Must include ART 101 and HUM 205)
Additional Liberal Arts Requirement 3 credits
(Must include GEN 105)
Interdisciplinary Requirement 6 credits
Concentration 18 credits

Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.

Degree Requirements for the AAEE

The degree requirements for this program are the following:
- Completion of a minimum of 62 credits.
- All undergraduate students are required to complete the minimum general education credits required by their program version.
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students transferring from Western International University to any University of Phoenix undergraduate program may transfer all coursework completed at Western International University with a grade of "D-" or higher.
- A minimum grade point average (GPA) of 2.0.

- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the core and cannot count toward General Education total.
- The diploma awarded for this program will read as: Associate of Arts and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the AAEE
- With the exception of GEN 105, course requirements may be satisfied by any of the following means:
  - University of Phoenix coursework,
  - Regionally or nationally accredited coursework (C- or higher grade),
  - National Testing Programs, and
  - ACE evaluated Military credits.
- Students in the EE concentration must take GEN 105 Skills for Learning in an Information Age as one of the courses in the first block. All other general education requirements may be met with equivalent units based on University transfer requirements and qualifications.
- Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
- Credits applied to the Required Course of Study (with the exception of the electives) will only be applied to the concentration and cannot count toward General Education totals.

Residency Requirements for the AAEE

Students must meet the established University residency requirement for degree conferment. The University requires that the majority of coursework, 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
- The course must have been completed and transcripted from a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten years from current program enrollment agreement sign date with a grade of “C” (2.0) or better (five years for information technology courses).
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Course Descriptions for the AAEE

AED 200 ................................................................. 3 credits
Contemporary Issues in American Education
This course provides an overview of the teaching profession. It introduces the student to the various issues affecting teachers. Its primary focus will be on contemporary issues teachers and educators face in today's schools. Throughout the course, all aspects of the teaching profession will be incorporated from the diversity of students in the classroom, to school organization and governance, to teaching philosophies and instruction. This course provides a foundation for understanding the education profession.

AED 201 ................................................................. 3 credits
Teaching as a Profession
AED 201 introduces the common issues education professionals face in their field. In addition to discussing the professional foundations of teaching, students examine and discuss issues related to the needs, rights, and responsibilities of diverse learners in a changing society. This course also addresses governance and legal issues in the education system.

AED 204 ................................................................. 3 credits
Diversity in the Classroom
AED 204 focuses on developing understanding of cultural diversity concepts in education, as well as on developing understanding of implications for learning and instruction. Students read about and discuss issues related to educational equity and multiculturalism. Students connect these perspectives to instructional strategies that may be used in the classroom.

AED 222 ................................................................. 3 credits
Intro to the Exceptional Learner
This course provides an overview of the exceptional learner, the student who differs from the average or normal student, with emphasis on factors relating to current practices, identification, characteristics, and educational adaptations. The course focuses on issues related to mildly disabled, severely disabled, emotionally and behaviorally disordered, mentally retarded, and gifted students.

MTH 156 ............................................................... 3 credits
Math For Elementary Teachers I
This course is the first course of a two-part series designed for K-8 pre-service teachers to address the conceptual framework for mathematics taught in elementary school. The focus of part one will be on real number properties, patterns, operations and algebraic reasoning and problem solving. The relationship of the course concepts to the National Council of Teachers of Mathematics Standards for K-8 instruction is also addressed.

MTH 157 ............................................................... 3 credits
Math for Elementary Teachers II
This course is the second course in a two-part series designed for K-8 pre-service teachers to address the conceptual framework for mathematics taught in elementary school. The focus of part two will be on measurement, geometry, probability and data analysis. The relationship of the course concepts to the National Council of Teachers of Mathematics Standards for K-8 instruction is also addressed.

ENG 101 ................................................................. 3 credits
Effective Essay Writing
Students develop academic writing skills. The emphasis is on coherence and correctness in written communication as students use the writing process to craft an expository essay. Students also conduct basic research for the expository essay. Selected readings provide the basis for discussion regarding the difference between fact and opinion. Grammar exercises focus on verb tense, subject-verb and pronoun-antecedent agreement, and pronoun case.

ENG 102 ................................................................. 3 credits
Research Writing
Students focus on gathering research, evaluating and documenting sources, and developing a major research paper. Selected readings prompt discussion regarding bias, rhetorical devices, arguments, and counterarguments. Grammar exercises address commonly confused words, modifiers, parallel structure, and sentence variety.

BIO 100 ............................................................... 4 credits
Introduction to Life Science with Lab
This course applies a broad, conceptual understanding of biology. Students are introduced to scientific ideologies and concepts that not only shape the biological world, but also shape humans. Students examine the scientific method, evolution and biodiversity, the biology of cells, physiology, the dynamics of inheritance, and the effect humans have on the environment. The text emphasizes methods and the theoretical foundations of ideas, while minimizing isolated facts. It stresses the integration of ideas, making connections that form an understanding of the living world. The weekly online labs add a practical component to the class. The labs build upon the concepts in the text and offer a chance to interact with the material and further their understanding.

CIS 105 .............................................................. 3 credits
Survey of Computer Information Systems
This course presents an overview of the various technologies imbedded in every aspect of society. Students gain a basic understanding of how a computer functions as a single unit, in a network, and as a connection to the Internet. Other topics include security issues and the use of productivity software, such as word processing, spreadsheets, and presentation applications. The course also addresses social and ethical issues related to using computers.

GLG 101 .............................................................. 4 credits
Introduction to Geology + Lab
This course gives an overview of physical geology by introducing concepts such as plate tectonics and geologic time. Students gain familiarity with the processes that shape the earth's surface and recognize the relevance of studying geology. Topics include the rock cycle, weathering, formation of geological features, and preservation of geological resources. This course includes a lab.

POS 110 ............................................................ 3 credits
American National Government
This course introduces students to the constitutional foundations and governing institutions of the federal government. Throughout the course, students address common political themes such as the nature and scope of governance, democracy, and patterns of political behavior.
HIS 115 ................................................................. 3 credits
US History to 1865
This course surveys social, political, and economic events that shaped the United States from its first inhabitants to 1865. Students delve into historical events in North American history ranging from Spanish and English colonization to the fight for an individual, American independence, culture, and government, to the Civil War. This course equips students with a general understanding of important early historical events that have played a role in our current social, political, and economic environment.

HIS 125 ................................................................. 3 credits
US History from 1865 to 1945
This course examines U.S. social, political, and economic events between 1865 and 1945. Students will learn to appreciate the significance of key historical events and figures, including the rise of big business, urbanization, World War I, the Great Depression, and World War II. This course equips students with a general understanding of how important historical events impact future development of the United States.

HIS 135 ................................................................. 3 credits
The American Experience Since 1945
This course is an overview of the principal social, political, economic, and global events which have shaped the American experience since World War II. Understanding modern American history is a necessity in today’s ever-changing world. This course aims to supply the tools for understanding current political, social, cultural, and economic problems in the U.S. by applying historical perspective to analyze contemporary issues.

ART 101 ................................................................. 3 credits
Introduction to Art
This course introduces students to the elements and principles of art as well as the creation of various media, such as painting, sculpture, architecture, design, photography, and the decorative arts. Students apply techniques for viewing art critically to build an appreciation of various art forms. Themes within the course include contemporary topics in the arts, cultural diversity in the arts, and the arts in a historical context.

HUM 205 ................................................................. 3 credits
World Culture and the Arts
Culture and the arts play a complex role in enriching the human experience. This course will analyze the social role of the arts in the early civilizations through the present day. Learners will explore the key contributions in visual art, architecture, literature, and music of the civilizations presented in this course. In particular, learners will construct a virtual museum comprised of various artifacts representing several cultures.

GEN 105 ................................................................. 3 credits
Skills for Learning in an Information Age
This course introduces students to learning in an information-rich society. Students will develop strategies for successful distance learning, time management, and for managing the abundance of information available in today’s society. Students will also explore the appropriate use of information in an academic environment. Specific topics for the course include computing skills for distance learning, online library use, academic honesty, and the development of effective study skills.

Bachelor of Science in Education/Elementary Education

The following Bachelor of Science in Education/Elementary Education (BSEd/E) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Bachelor of Science in Education/Elementary (BSEd-E) is an undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSEd/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student’s professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/bsed-e.

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the BSED/E
All applicants are expected to meet the following admissions requirements:
• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
• Applicants must be currently employed or have access to a work environment.

Candidacy Status for the BSED/E
The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.
• Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
• Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidacy Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be uploaded to the Teacher Education Program Requirement DRF in the e-portfolio and the student’s eXp file.
• Demonstration of basic skills proficiency
• Verification of fingerprint clearance
Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E
• Completion of a minimum of 120 credits that include the following distribution:
  • A minimum of 60 upper division credits in the Required Program Category Preferred Sequence.
  • A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  • A minimum grade point average (GPA) of 2.5.
  • Satisfactory completion and uploading of the Teacher Work Sample (TWS).
  • Satisfactory completion of any required internship, student teaching, practicum courses and/or alternative clinical practice.
  • Meet state requirements as set forth by state of residency to receive state endorsement.
  • Complete Field Experience Observation Record (100 hours).
• All Students must complete the minimum number of credits required by their degree program.
• The diploma awarded for this program will read as follows: Bachelor of Science in Education Elementary Education

Academic Progression Requirements for the BSED/E
Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:
• Verification of content knowledge mastery prior to student teaching (AEPA content exam) or passing score on a comparable content knowledge examination from another state or agency taken within the past 7 years
• Verification of immunization or TB test results (district specific)
• Verification of the completion of 100 hours of field experience
Many courses in the Required Course of Study build on or reinforce each other. To ensure that students have the requisite skills for specific coursework certain program areas must be satisfied before students can progress to others.
• All students must complete GEN 200 as their first course at the University.
• Students must complete all General Education requirements prior to completion of EDU 390. Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the BSED/E
• A candidate must earn a grade of “B” (grades of “I” and “B-” are not accepted) or better in the following courses in order to student teach: EDU 390, EED 498, EED 499.
• Candidates must earn a “B” or better in Elementary Student Teaching I & II in order to complete this program. Candidates who do not earn a “B” or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
• If the candidate does not receive a grade of “B” or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the BSED/E
• Students must meet the established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.
• Students in this program may waive a maximum of 30 credits from their required course of study on the basis of regionally accredited transferable coursework.
• In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
  • The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
  • The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
• Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed and transcripted from a regionally accredited institution with which the University of Phoenix has an approved articulation agreement.
  • The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
  • The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.
• Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when waiving the mandatory General Education courses (MTH 213, MTH 214, SOC 315, HIS 301 or HIS 110). Students may use a 2 semester credit Constitution course to satisfy the HIS 301 or HIS 110 constitution requirement, and/or the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.
• The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 498, EED 499, GEN 200, RDG 415, SPE 300

General Education Requirements for the BSED/E
A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
English/Language Arts Requirement(s) 12 credits
Mathematics Requirement(s) 12 credits
6 credits must include MTH 213 and MTH 214
Physical Biological Science Requirement(s) 6 credits
Social Studies Requirement(s) 9 credits
3 credits must include SOC 315
3 credits must include HIS 301 or HIS 110
Fine Arts Requirement(s) 3 credits
Art, music, drama or dance
Humanities Requirement(s) 3 credits
Additional Liberal Arts Requirement(s) 9 credits
For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

All undergraduate students are required to complete the minimum general education credits required by their program version. Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for BSED/E
Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through grade eight. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students’ electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.
Student Teaching for the BSED/E

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching I:
  - Transcripts documenting a minimum of 24 semester credits in their content area
  - Passing scores on the state mandated content exam
  - Candidates must earn a “B” or better in Elementary Education Seminar. If a candidate receives less than a “B” (B- or lower, or an incomplete grade), they must repeat the course.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of “F” by their faculty member.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates that do not successfully complete the second student teaching program will be removed from the program and are not eligible for re-entry.
- Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.
- Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.
- Candidates must successfully pass the Elementary Education Seminar with a “B” or better.
- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Institutional Recommendation for the BSED/E

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).
- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates’ records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated professional knowledge exam.
- Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.
- Online students may submit a passing score on a comparable professional knowledge examination from another state or agency taken within the past 7 years.

Course Descriptions for the BSED/E

GEN 200 ................................................................................... 3 credits
Foundations for General Education and Professional Success
This general education course is designed to introduce the intentional learner to communication, collaboration, information utilization, critical thinking, problem solving and professional competence and values. The course uses an interdisciplinary approach for the learner to develop personal, academic strategies in order to reach desired goals and achieve academic success.
EDU 300 ................................................................................... 0 credits
Orientation to Teacher Education
This course is designed to provide an orientation to the primary components of the Teacher Education Program. Students will be introduced to the program’s progression and degree completion requirements. Field Experience, E-Portfolio, Student Teaching, Teacher Work Sample, and technology resources will be discussed.
EDU 301 ................................................................................... 3 credits
Foundations of Education
This course introduces students to the teaching profession. Historical foundations, professionalism, the role of technology, and trends and issues in education are introduced. Students will examine personal reasons for wanting to teach and will create a personal philosophy of education.
EDU 315 ................................................................................... 3 credits
Legal & Ethical Issues in Education
This course provides students with the opportunity to examine and apply legal and ethical issues within the context of an educational setting. Legal issues and their consequent impact on educators are discussed, analyzed, and applied to current educational practices. Emphasis is placed on the ways ethical and legal issues facing teachers affect student learning, and the critical thinking, decision-making, professional and personal conduct of teachers.
EDU 311 ................................................................. 3 credits  
Models and Theories of Instruction
This course focuses on the theoretical models that underlie teaching and learning for all learners. Effective teaching strategies that promote student learning will be examined. Various lesson plan designs will be explored, and students will create an original lesson plan.
EDU 321 ................................................................. 3 credits  
Classroom Management
This course examines the strategies used in managing a positive elementary classroom. Topics include models of discipline, motivation, disruptive students, classroom expectations and procedures, parent communication, and materials management and record keeping. Students will develop an individual classroom management plan.
EDU 305 ................................................................. 3 credits  
Child Development
This course explores the development of the child from birth through eighth grade. Physical, cognitive/intellectual, social/emotional, and moral development will be examined. The course focuses on defining the various stages as they impact instructional practice and decisions in a pre-K-8 environment.
EED 400 ................................................................. 3 credits  
Assessment in Elementary Education
This course identifies what assessment is and how formative and summative assessments are used in the classroom. The course will include construction of objective and performance assessments, topics on reliability and validity, understanding the uses of standardized assessments, and the framework of assessment.
RDG 350 ................................................................. 3 credits  
Children’s Literature
This course will examine the use of children’s literature in the elementary school classroom. Various genres will be studied as well as the application of children’s literature to instruction and assessment in reading. Methods for integrating the use of children’s literature in all content areas will be examined.
RDG 420 ................................................................. 3 credits  
Elementary Methods - Reading/Language Arts
This course focuses on current research, theory, methods, and state standards related to reading instruction. It provides students with the background knowledge in language arts necessary to prepare comprehensive standards-based lesson plans and integrated units of instruction. Effective instructional and assessment techniques are modeled.
RDG 415 ................................................................. 3 credits  
Diagnosis and Remediation of Reading Difficulties
This course addresses the use of reading assessments to determine classroom intervention and instructional strategies. It provides foundational information about stages of reading acquisition, factors that impact reading success or failure, and the nature of reading difficulties. This information serves as a context for learning about the selection, administration, and interpretation of formal and informal classroom assessments for the purposes of screening, diagnosing difficulties, monitoring progress, and evaluating instruction. In addition, a final diagnostic and instructional recommendations report will be developed based on student test data provided.
SEI 300 ................................................................. 3 credits  
Structured English Immersion
This course will introduce students to the concept of and methods for instructing in a Structured English Immersion (SEI) environment. Students will learn about assessment of K-12 students, state standards, research-based instructional activities, and lesson planning and implementation models. Students will study how a learner-centered approach to teaching can provide English Language Learners (ELLs), as well as native English speakers, with a greater opportunity to interact meaningfully with educational materials as they learn subject matter and ELL’s acquire English.
SEI 301 ................................................................. 3 credits  
Advanced Structured English Immersion Methods
This course addresses Structured English Immersion (SEI) instruction and assessment of K-12 English Language Learners (ELLs), and is designed to meet the standards set by the Arizona Department of Education. It examines the legal, historical, and educational reasons for SEI, as well as theoretical principles of language acquisition and the role of culture in learning. It also emphasizes the alignment of ELL Proficiency Standards to Arizona’s Academic Standards and their application to lesson planning. The Arizona English Language Learner Assessment (AZELLA), use of alternative assessments, analysis of data, and the application of data to instruction, are emphasized as well. A final project synthesizes the concepts and instructional strategies taught in the course.
SPE 300 ................................................................. 3 credits  
Orientation to the Exceptional Child
This course provides an overview of the categories of exceptionality for elementary age students with special needs. The course focuses on differentiated methods and techniques used for the identification, assessment, and instruction of diverse populations. Historical perspectives and information related to special education law, and current policies and practices are examined.
EED 416 ................................................................. 3 credits  
Elementary Methods - Mathematics
This course focuses on methodology and assessment strategies that enhance learning in mathematics. Integration of content, and instructional strategies, as well as curriculum and assessment issues are emphasized. Multiple perspectives of students as learners of mathematics, along with current research on mathematics pedagogy, are explored. Students evaluate and use instructional methods, curricular materials and resources, and appropriate assessment strategies. Special attention is given to the use of manipulatives in math instruction and to developing students’ problem-solving skills.
EED 420 ................................................................. 3 credits  
Elementary Methods - Science
This course focuses on methodology and assessment strategies that enhance learning in science. Integrated content, interdisciplinary teaching, classroom management, and curriculum and assessment issues are emphasized. Multiple perspectives of students as learners of science, along with current research on pedagogy, are explored. This course also provides students with an opportunity to develop the ability to evaluate and to use instructional methods, curricular materials and resources, and appropriate assessment strategies.
EED 425 .................................................................................... 3 credits

**Elementary Methods - Health/PE**

This course provides an overview of the physical education and health state and national standards and provides a context for how these are addressed in elementary schools and classrooms. Instructional approaches for the integration of physical education and health with other content areas are explored.

EED 430 .................................................................................... 3 credits

**Elementary Methods - Social Studies**

This course defines and provides a context for teaching and assessing students in the areas of social science based on scope, sequence, and national and state standards. Instructional approaches for the content area within the framework of an integrated curriculum are explored, including the use of critical thinking skills and study skills. Students develop a variety of data collection tools designed to assess student learning.

EED 435 .................................................................................... 3 credits

**Elementary Methods - Fine Arts**

This course defines and provides a context for teaching and assessing students in the area of fine arts based on scope, sequence, and national and state standards. An emphasis is placed on integrating art across the curriculum.

EDU 390 ..................................................................................... 1 credit

**Elementary Education Seminar**

This course focuses on the professional aspects of teaching. Students are introduced to the Teacher Work Sample that will be created during student teaching. Students will engage in self-evaluation to develop their own professional growth plans for inclusion in their portfolios. The character qualifications for becoming a teacher will be assessed through a personal interview, using letters of character reference, and a written reflective paper on the desire and reasons for joining the profession.

EED 498 .................................................................................... 4 credits

**Elementary Student Teaching, Seminar I**

This course emphasizes the practical application of educational theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The seminar also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

EED 499 .................................................................................... 4 credits

**Elementary Student Teaching, Seminar II**

This course will focus on the design and implementation of the Teacher Work Sample. It also provides students practical guidance in securing a teaching position. Students will examine resumes and cover letters, teaching applications, and interview strategies. Assistance in preparing an employment portfolio will be provided. This seminar also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

MTH 213 .................................................................................. 3 credits

**Mathematics for Elementary Educators I**

This is the first course of a two-part series designed for K-8 pre-service teachers to address the conceptual framework for mathematics taught in elementary school. The focus of part one will be on real number properties, patterns, operations and algebraic reasoning and problem solving.

MTH 214 .................................................................................... 3 credits

**Math for Elementary Teachers II**

This is the second course in a two-part series designed for K-8 pre-service teachers to address the conceptual framework for mathematics taught in elementary school. The focus of part two will be on measurement, geometry, probability and data analysis.

SOC 315 .................................................................................... 3 credits

**Cultural Diversity**

This course focuses on the issues, challenges and opportunities presented by U.S. population diversity. Emphasis is placed on workplace issues related to employee diversity in terms of gender, race/ethnicity, socioeconomic class and cultural background.

HIS 301 ..................................................................................... 3 credits

**United States Constitution**

This course is a five-week introduction to the historical, political, philosophical, and economic roots of the U.S. Constitution. It first reviews the philosophical arguments of the Federalists and the Anti-Federalists, those that supported and opposed ratification of the Constitution. The course then examines milestone Supreme Court decisions and their evolving interpretations of the Constitution. This course focuses on the first ten amendments of the Constitution as well as later amendments and the issues of slavery and civil rights as seen through major court decisions.

HIS 110 ..................................................................................... 3 credits

**US History to 1865**

This course provides an overview of the social, political, economic, and global events that have shaped the American scene from colonial times through the Civil War period.

**Associate Programs Pathways Program**

Non-degree seeking students are permitted to take courses if admitted into the Pathways Program. The Pathways Program is designed for current high school juniors and seniors seeking to earn college credits while still enrolled in secondary schools. Pathways students may earn a maximum of 12 credits at the University of Phoenix. Non-degree students are not eligible to receive most types of financial aid or veterans benefits and must demonstrate English proficiency, if applicable, to be eligible for course enrollment. The Pathways Program admissions process must be completed before enrollment in any courses.

Admission into the Pathways program requires:

- Pathways Non-degree Application
- High School Junior or Senior Standing
- Pathways students must meet all prerequisite requirements for the program in which the courses are included. Students must also meet all admission requirements, with the exception of the HS diploma or equivalent
- Parent or guardian consent
- $25 application fee

Before proceeding beyond 12 credits, Pathways program students must submit a University of Phoenix degree seeking application for admission, possess a high school diploma (or equivalent), and be granted acceptance to the University of Phoenix. Pathways students who want to earn more than 12 credits will be deemed degree seeking and be required to submit an application for admission to a University of Phoenix degree program.

*Note: The Pathways Program is not available in all states. Please consult an enrollment counselor to determine if residents of a specific state are eligible for this program.*
THIS PAGE WAS LEFT BLANK INTENTIONALLY
GRADUATE PROGRAMS

Admission Procedures

Application Process

Working adults seeking admission to the University’s graduate programs in business, management, information systems, nursing, counseling, or education begin the admission process by submitting a complete and accurate application. An application which is later verified to contain incomplete, false or misleading information may be grounds for dismissal and administrative withdrawal. Once the application has been received by the University, applicants are responsible for ensuring the completion of their admission file. No applicant will be formally accepted for admission until their admission file is complete and officially evaluated. Formal written notice is provided by the central Office of Admissions & Evaluation upon formal acceptance.

The University will advise students which admission file documents are required in order to begin a program of study. Students may attend their first four courses under Registered status. Students, however, must submit all admission documentation and gain unconditional admission status prior to the start of their fifth course. Students failing to submit all documentation prior to the end of the required time frame will be administratively withdrawn until formally admitted by the central Office of Admissions & Evaluation. The University cannot guarantee that a student who begins course work under Registered status will be admitted to the degree program.

Applications of individuals who have not gained admission or enrolled in the University will be kept on file for one year. After that time, the applicant is required to submit a new application and material. A second application fee is not required.

Transcript Requests of Other Institutions

Because institutions vary in the time they take to respond to transcript requests, all transcripts should be requested immediately upon submission of an application and application fee. University staff will process all requests for required transcripts on behalf of the student. However, it remains the student’s responsibility to ensure that all transcripts are submitted to the University. The student must sign a “Transcript Request Form” for each transcript being requested from educational institutions. The University’s application fee covers the student’s expense for requesting official transcripts.

Foreign Academic Records

Students applying to the University with foreign academic records or credentials may have additional requirements that must be met in order to enroll in courses or gain admission due to the differences in educational systems and document requirements.

All academic records from Afghanistan, Somalia or Turkmenistan must be evaluated by an external evaluation service approved by the University of Phoenix.

An applicant submitting academic records from Albania, Algeria, Andorra, Angola, Antigua, Argentina, Armenia, Aruba, Australia, Austria, Azerbaijan, Bahamas, Bahrain, Bangladesh, Barbados, Belarus, Belgium, Belize, Benin, Bermuda, Bhutan, Bolivia, Bosnia-Herzegovina, Botswana, Brazil, British Virgin Islands, Brunei/Brunei-Darussalam, Bulgaria, Burkina Faso, Burundi, Cambodia, Cameroon, Canada, Cape Verde, Cayman Islands, Central African Republic, Chad, Chile, China, Colombia, Congo, Democratic Republic of Congo, Costa Rica, Cote d’Ivoire, Croatia, Cuba, Cyprus, Czech Republic, Czechoslovakia, Democratic People’s Republic of Korea (North Korea), Denmark, Djibouti, Dominica, Dominican Republic, Ecuador, Egypt, El Salvador, Equatorial Guinea, Eritrea, Estonia, Ethiopia, Fiji, Finland, France, French Guiana, French Polynesia, Gabon, Gambia, Georgia, Germany, Ghana, Greece, Grenada, Guatemala, Guinea, Guyana, Haiti, Holy See, Honduras, Hungary, Iceland, India, Indonesia, Iran, Iraq, Ireland, Israel, Italy, Jamaica, Japan, Jordan, Kazakhstan, Kenya, Kuwait, Kyrgyzstan, Laos People’s Democratic Republic, Latvia, Lebanon, Lesotho, Liberia, Libya Liechtenstein, Lithuania, Luxembourg, Madagascar, Malawi, Malaysia, Maldives, Mali, Mauritania, Mauritius, Mexico, Republic of Moldova, Monaco, Mongolia, Montenegro, Montserrat, Morocco, Mozambique, Myanmar, Namibia, Nepal, Netherlands, New Caledonia, New Zealand, Nicaragua, Niger, Nigeria, Norway, Oman, Pakistan, Palau, Palestine, Panama, Papua New Guinea, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Russia (Russian Federation), Rwanda, Saint Barthélemy, Saint Kitts and Nevis, Saint Lucia, Saint Martin, Saudia Arabia, Scotland, Senegal, Serbia, Sierra Leone, Singapore, Slovakia, Slovenia, Solomon Islands, South Africa, South Korea, Spain, Sri Lanka, St. Vincent and The Grenadines, Sudan, Sweden, Switzerland, Syria, Tajikistan, Tanzania, Thailand, Togo, Tonga, Trinidad and Tobago, Tunisia, Turkey, Turks and Caicos Islands, Union of Socialist Republics (U.S.S.R.), Ukraine, United Arab Emirates, Uruguay, Uzbekistan, Western Samoa, Venezuela, Vietnam, Yemen, Yugoslavia, Zambia or Zimbabwe may be evaluated internally by the central Office of Admissions and Evaluation or evaluated by an external evaluation service approved by the University of Phoenix. Internal evaluation practices utilized by the central Office of Admissions and Evaluation follow standards and practices defined by the National Association of Foreign Student Administrators (NAFSA) and the American Association of Collegiate Registrars and Admissions Officers (AACRAO). Certain programs that lead to certification may require students to have an evaluation performed by an external evaluation agency that is approved by both the University and the state in which the student seeks certification.

Students using foreign academic records to satisfy an admission requirement will not be eligible to attend classes prior to the University receiving a favorable evaluation from an approved credentials evaluation service or evaluation performed by the Central Office of Admissions & Evaluation. Original academic records or copies of academic records that have been verified as authentic by the issuing institution are required to be on file prior to a student gaining unconditional admission to the University. If the academic records are in another language, a certified English translation or translation performed by the central Office of Admissions and Evaluation (Spanish and French only) is required. The University will accept translations from the issuing institution or an official translation service.
Non–Native Speakers of English

An applicant who does not have appropriate English language experience in an academic environment will not be eligible to attend classes under Registered status. Official documentation with an appropriate score on the Test of English as a Foreign Language (TOEFL) Test of English for International Communication (TOEIC), International English Language Testing System (IELTS), Pearson Test of English Academic (PTE) or Berlitz Online English Proficiency Exam must be submitted with the admission file and admission granted before the applicant may begin the program.

Admission Appeal Process

Any applicant who has been denied admission to the University has the right to appeal the decision to the Student Appeals Center. All appeals, including any evidence to be considered, must be submitted in writing to the Student Appeals Center. The written appeal may consist of a letter of explanation for academic deficiencies, lack of experience, and any other factors which might be of benefit when the Student Appeals Center conducts its review.

It is incumbent upon the applicant to submit all relevant documents and statements of support attached to the appeal letter to the Student Appeals Center. The Student Appeals Center will carefully review all materials submitted, and notify the applicant in writing of its decision within ten working days.

Graduate Admission Requirements

For graduate education and doctoral admission requirements please refer to the education and doctoral section(s) of the catalog. Most graduate programs have additional admission requirements listed within the program specific information. All applicants are expected to meet the following admission requirements:

- Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
- Achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.
- The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:
  - The applicant has successfully completed thirty (30) transferable, academic semester credits at a regionally or nationally accredited college or university in the United States.
  - The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
  - The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
  - The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
  - The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
  - The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.
  - Applicants who reside in the United States must meet one of the following requirements:
    - Be a legal resident of the United States
    - Have been granted permanent residency
    - Have a valid visa that does not prohibit educational studies
    - Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
    - Have been granted asylum along with copy of passport and I-94 bearing the stamp indicating the issue and expiration dates of the Asylee status.
  - Applicants who reside in Canada must meet one of the following requirements:
    - Be a legal resident of Canada
    - Be a landed immigrant
    - Have a valid visa that does not prohibit educational studies
    - Students may not receive a graduate degree and a graduate-level certificate in the same area of focus.
    - A completed and signed graduate application and application fee
    - A signed Enrollment/Disclosure Agreement.
Estimated Program Length

To determine the number of months it takes to complete the program as designed, add all the credit hours in a given program, divide the result by 24 credit hours and then multiply the result by the number of months in the academic year for the degree (Associates = 9 months in an academic year, Bachelors = 10 months in an academic year, Masters/Doctoral = 12 months in an academic year, Undergraduate Certificate = 10 months in an academic year and Graduate Certificate = 12 months in an academic year). Example: Associate program is 60 credits. Divide 60 credit hours by 24 credit hours (60/24 = 2.5). Then multiply the result by the number of months in the academic year for the degree (2.5 x 9 months = 22.5 months).

COLLEGES OF ARTS AND SCIENCES

The Colleges of Arts and Sciences offer a variety of graduate degree programs in the following content areas: psychology, counseling and health administration. With the evolution of workplace issues and trends these advanced degrees provide students with a combination of theoretical frameworks and practical applications related to the professional content areas. Many of the degree offerings also provide an opportunity to select a specialization which can enhance the educational experience as well as adding leverage to the students professional and career development.

COLLEGE OF SOCIAL SCIENCES

The College of Social Sciences offers undergraduate and graduate degree programs in a number of diverse academic areas including counseling, psychology, and human services. In addition, the college offers a certificate program in mediation.

The College provides innovative educational programs designed to enhance the core knowledge, skills and values essential for students seeking to achieve their academic goals in the field of social sciences. These programs are developed and taught by skilled practitioners who work in their respective fields. Through individual and collaborative work, students can acquire the knowledge and skills needed in today’s working environment.

Master of Science in Psychology

The following Master of Science in Psychology (MS/P) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science in Psychology focuses on the scientific study of human behavior, including cognition, motivation and emotion. The program provides training in four core areas: biological bases of behavior, acquired or learned bases of behavior, social, cultural and systemic influences on behavior and individual differences in behavior. Students will learn how the science of psychology is advanced through research. Emphasis is placed on critical thinking, problem-solving and the application of knowledge to problems and issues related to the human experience. This program is not designed to prepare students for professional licensure.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/ms-p.

Degree Requirements for the MS/P

The degree completion requirements for this program are as follows:

- Completion of a minimum of 39 credits.
- A minimum program grade point average (GPA) of 3.0.

Additional Admission Requirements for the MS/P

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
Residency Requirements and Course Waivers for the MS/P

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.

• The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of 'B' (3.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

• The following courses in the Required Course of Study may not be waived: COM 505

Course Descriptions for the MSP

COM 505 ..............................................................................3 credits

Communication Skills for Graduate Study

This course provides new graduate students in University of Phoenix programs with an introduction to strategies for academic success within the University of Phoenix adult learning model. Topics include oral and written communication, methods for finding and evaluating course resources, critical thinking, program standards, stress and time management, and Learning Team processes.

PSYCH 500 ..............................................................................3 credits

Lifespan Development

This course presents students with theoretical frameworks to foster an understanding of the various dimensions of human development across the life span. Emphasis is placed on biological, cognitive, and psychosocial development within the context of gender, family systems, social roles, and culture.

PSYCH 504 ..............................................................................3 credits

Personality Theories

This course enables students to differentiate among the primary theoretical models of personality theory, such as psychodynamic, affective, cognitive-behavioral, and systems theory. Emphasis is on the importance of students recognizing belief systems and the underlying assumptions inherent in various personality models that accurately reflect their own personal perspectives. Students also learn to recognize strategies and approaches in psychology that reflect identified personality theories as a foundation.

PSYCH 515 ..............................................................................3 credits

Advanced Abnormal Psychology

This course covers a wide range of definitions and models that focus on the complex or problematic psychological disorders and conditions of psychopathology. Emphasis is on learning accepted conceptualizations of such disorders along with contemporary treatment approaches. Students are introduced to the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the basis of diagnosis and classification of psychopathology. Critical thinking skills are emphasized, as are multicultural, legal, and ethical issues involved in the field of abnormal psychology.

PSYCH 525 ..............................................................................3 credits

Measurements and Statistics

This course provides students with a foundation in statistical methods and principles of measurement and assessment necessary for competency in research, evaluation, and treatment planning for professional psychology practice applications. Students learn statistical models, procedures, and measurement practices that are relevant to the mastery of examination procedures in psycho-educational assessment, organizational assessment, and clinical examinations that use standardized testing instruments, criterion based assessments and the Diagnostic and Statistical Manual of Mental Disorders (DSM).

PSYCH 540 ..............................................................................3 credits

Research Methodology

This course is an overview of the fundamentals of research methods applicable to the broad field of psychology. Topics include research design, quantitative and qualitative forms of analysis, ethical issues in research, and appropriate documentation of research processes and outcomes. Students become critical evaluators of research, with emphasis placed on engaging the students in analytical reading of research literature in psychology and the application of skills in conducting primary behavioral research.

PSYCH 535 ..............................................................................3 credits

Multicultural Psychology

This course provides students with an in depth focus on cultural factors and cross-cultural perspectives in the field of psychology. Students learn to identify and consider cultural variables in the application of psychological theories and practices. Multicultural issues and valued diversity are the main content focus throughout the course.

PSYCH 545 ..............................................................................3 credits

Survey of Professional Psychology

This course surveys various professional activities in psychology and the legal and ethical responsibilities of the psychology professional. Students learn underlying ethical principles relevant to a broad range of issues in the field of psychology, as well as to interpret and act upon various situations appropriately and effectively. Content includes issues such as subject and client rights, confidentiality, duty to warn and protect, dual relationships, supervision and consulting, ethics with special populations, and ethical decision-making models.
Online classroom at Online rates if the program is available via the states. Students may want to consider completing certain courses in the availability of programs and concentrations depend on student demand offered at these University of Phoenix campus locations: Online. The following Master of Health Administration (MHA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The foundation of today’s technological world is rooted in the natural sciences. As part of any academic program, studying the natural sciences gives students insight into the fundamental processes of nature and provides the basic knowledge needed to understand modern scientific accomplishments. Students also develop the critical thinking, independent thinking, and problem solving skills that form the basis for lifelong learning. The College of Natural Sciences offers a variety of courses in natural, environmental, and life sciences as well as programs in health administration, environmental sciences, and biology.

Master of Health Administration

The following Master of Health Administration (MHA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are empowered to influence the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education. Graduates of the MHA program will have enhanced their management/administrative background and specialty area through the completion of a curriculum that provides students with the latest theories and contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment, which is team oriented and motivating to others. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha.

Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.

- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Residency Requirements and Course Waivers for the MHA

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of nationally accredited or approved coursework. In order to waive a course in the required course of study, the student must complete a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program:
HCS 504, HCS 586, HSN 552, HCS 565

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program. In the bridge program, a master's degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master's degree program.

All credit-bearing doctoral courses must be completed with a grade of "B-" or better. Students who earn a grade lower than a "B-" will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Course Descriptions for the MHA

HCS 504 .................................................................................1 credit
Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.
HCS 514 .................................................................................3 credits
Managing in Today’s Health Care Organizations
This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change, management and human resource management. Students apply various organizational theories to contemporary issues.
Marketing for Health Care
This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.
HCS 531 ................................................................. 3 credits

Health Care Organizations and Delivery Systems
This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.
HCS 577 ................................................................. 3 credits

Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.
HCS 533 ................................................................. 3 credits

Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.
HCS 535 ................................................................. 3 credits

Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.
HCS 587 ................................................................. 3 credits

Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

Health Law and Ethics
This course applies current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.
HCS 539 ................................................................. 3 credits

HCS 545 ................................................................. 3 credits
Health Law and Ethics
Students explore and analyze current ethical issues such as biomed- ical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 552 ................................................................. 3 credits
Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.

HCS 588 ................................................................. 3 credits
Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
HCS 525 ................................................................. 3 credits
Leadership
This course examines organizational leadership in the context of the health care organization. Principles, theories and models of leadership are explored. Collaborative relationships, concepts of power and professional culture are explored. Students will articulate a personal vision of leadership and ways of providing direction within today's complex health care system.
HCS 567 ................................................................. 3 credits
Entrepreneurship in Health Care
This course will set up the context of entrepreneurship and new business development; examine the characteristics of entrepreneurs, identifying and quantifying market opportunities in the health care market, as well conceptualizing the resources and capabilities needed. Topics include opportunity assessment, regulated industry implications and requirements, as well as the challenges of expansion within an existing enterprise.
HCS 549 ................................................................. 3 credits
Evaluation Methodology
This course provides the student with the research methodology for health services research. Models of evaluation are examined and components such as stakeholder analysis, cost benefit effectiveness, decision-modeling, and statistical techniques are applied to decision making health care organizations.
HCS 586 ................................................................. 3 credits
Health Care Strategic Management
This is the capstone course for the graduate health care programs. The development and presentation of health care organization’s strategic plan will demonstrate mastery of the critical content as the principles relate to the health care industry. Special emphasis is placed upon consumer demand, market volatility, regulatory and fiscal constraints from the perspective of strategic management. The learner will demonstrate understanding of the critical importance of strategic management and planning within the dynamic, complex, and evolving nature of the health care industry.

HCS 552 ................................................................. 3 credits
Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.

HCS 588 ................................................................. 3 credits
Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
HCS 525 ................................................................. 3 credits
Leadership
This course examines organizational leadership in the context of the health care organization. Principles, theories and models of leadership are explored. Collaborative relationships, concepts of power and professional culture are explored. Students will articulate a personal vision of leadership and ways of providing direction within today's complex health care system.
HCS 567 ................................................................. 3 credits
Entrepreneurship in Health Care
This course will set up the context of entrepreneurship and new business development; examine the characteristics of entrepreneurs, identifying and quantifying market opportunities in the health care market, as well conceptualizing the resources and capabilities needed. Topics include opportunity assessment, regulated industry implications and requirements, as well as the challenges of expansion within an existing enterprise.
HCS 549 ................................................................. 3 credits
Evaluation Methodology
This course provides the student with the research methodology for health services research. Models of evaluation are examined and components such as stakeholder analysis, cost benefit effectiveness, decision-modeling, and statistical techniques are applied to decision making health care organizations.
HCS 586 ................................................................. 3 credits
Health Care Strategic Management
This is the capstone course for the graduate health care programs. The development and presentation of health care organization’s strategic plan will demonstrate mastery of the critical content as the principles relate to the health care industry. Special emphasis is placed upon consumer demand, market volatility, regulatory and fiscal constraints from the perspective of strategic management. The learner will demonstrate understanding of the critical importance of strategic management and planning within the dynamic, complex, and evolving nature of the health care industry.
**Master of Health Administration Bridge**

The following Master of Health Administration (MHA) Bridge program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) Bridge program is designed for students who do not have a background in health care and want to gain skills and knowledge to enter today’s evolving health care delivery systems. Students in the Bridge program are required to complete courses in health care delivery systems, health care economics, and health care policy before entering the core MHA degree program. These bridge courses are designed to provide students with a foundational framework needed to examine and understand the issues and trends impacting health care. The MHA curriculum is tailored to support the development of health care leaders and managers by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education.

Graduates will have enhanced their management/administrative backgrounds through a curriculum that provides students with the ability to apply theory to contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment which is team oriented and motivating to others.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha.

**Degree Requirements for the MHA**

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A minimum equivalent of three years of full-time, post-high school work or volunteer experience with exposure to organizational systems and management processes is required.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

**Additional Admission Requirements for the MHA**

- A minimum of 52 credits.
- A minimum program grade point average (GPA) of 3.0.

*Grades earned in MHA bridge courses are calculated in the MHA grade point average (GPA).*

- The diploma for this program will read as follows: Master of Health Administration and will not reflect the Specialization. Specializations are reflected on the transcript only.
Minimum Grade Requirements for the MHA

- Students in this program are required to achieve a minimum grade of “C” (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A “C-” grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Residency Requirements and Course Waivers for the MHA

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

Students enrolled in this bridge program may waive the three (3) undergraduate bridge courses.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program:

HCS 504, HCS 586, HSN 552, HCS 565

The School of Advanced Studies offers a bridge opportunity for master’s degree students who are interested in taking doctoral courses as part of the master’s degree program. In the bridge program, a master’s degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master’s degree program.

All credit-bearing doctoral courses must be completed with a grade of “B-” or better. Students who earn a grade lower than a “B-” will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Course Descriptions for the MHA

HCS 504 ................................................................. 1 credit
Introduction to Graduate Study in Health Sciences/Nursing

This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 310 .................................................................................. 3 credits
Health Care Delivery in the United States

This course provides a broad overview of the various functions of the United States health care system. The historical evolution of health care is examined. The student is introduced to the various forms of provider models and service delivery systems found in private and public health sectors, including ambulatory, acute, mental, and long-term care. The financing aspects of health care and their influence on health care delivery and quality are outlined.

HCS 440 .................................................................................. 3 credits
Economics: The Financing of Health Care

This course provides an overview of the economics of health care. The various payers are examined, including private, state, and federal entities. Issues such as the cost effectiveness of prevention, the management of patients and their diseases, as well as the cost of treatment settings are discussed. Third-party reimbursement from various sources, ranging from for-profit insurance carriers to charitable donations, are reviewed. The health care system’s use of grant funding and research dollars is described.

HCS 514 .................................................................................. 3 credits
Healthcare Policy: The Past and the Future

This course will introduce the student to the intricate processes that public policy makers use to influence the health status of a society. The role of economic theory, interest groups, and the various levels of government involved in policy making will be examined. A historic review of trends will be evaluated, and the challenges of future health care delivery will be examined.

HCS 545 .................................................................................. 3 credits
Managing in Today’s Health Care Organizations

This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 549 .................................................................................. 3 credits
Health Law and Ethics

Students explore and analyze current ethical issues such as a biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 539 .................................................................................. 3 credits
Marketing for Health Care

This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 531 .................................................................................. 3 credits
Health Care Organizations and Delivery Systems

This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.
HCS 552 ...................................................................................3 credits
Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.
HCS 552 ...................................................................................3 credits

Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
HCS 525 ...................................................................................3 credits

Leadership
This course examines organizational leadership in the context of the health care organization. Principles, theories and models of leadership are explored. Collaborative relationships, concepts of power and professional culture are explored. Students will articulate a personal vision of leadership and ways of providing direction within today’s complex health care system.

HCS 549 ............................................................3 credits
Evaluation Methodology
This course provides the student with the research methodology for health services research. Models of evaluation are examined and components such as stakeholder analysis, cost benefit effectiveness, decision-modeling, and statistical techniques are applied to decision making health care organizations.

HCS 567 ............................................................3 credits
Entrepreneurship in Health Care
This course will set up the context of entrepreneurship and new business development; examine the characteristics of entrepreneurs, identifying and quantifying market opportunities in the health care market, as well conceptualizing the resources and capabilities needed. Topics include opportunity assessment, regulated industry implications and requirements, as well as the challenges of expansion within an existing enterprise.

HCS 586 ............................................................3 credits
Health Care Strategic Management
This is the capstone course for the graduate health care programs. The development and presentation of health care organization’s strategic plan will demonstrate mastery of the critical content as the principles relate to the health care industry. Special emphasis is placed upon consumer demand, market volatility, regulatory and fiscal constraints from the perspective of strategic management. The learner will demonstrate understanding of the critical importance of strategic management and planning within the dynamic, complex, and evolving nature of the health care industry.

Master of Health Administration/Education

The following Master of Health Administration (MHA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are empowered to influence the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education.

Graduates of the MHA program will have enhanced their management/administrative background and specialty area through the completion of a curriculum that provides students with the latest theories and contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment, which is team oriented and motivating to others.
This program specialization option is designed for health care and nursing professionals interested in pursuing careers in educational or service settings. Current educators can update or expand their knowledge in curriculum development, assessment and evaluation, and revitalize their teaching and learning strategies. Combining your current professional expertise with the knowledge of teaching and learning strategies, assessment and evaluation and curriculum, and program design will expand and enhance your role as a health care educator. Content can be applied to patient teaching, continuing education or in-service education, community health education, as well as to the role and delivery of academic education.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha-ed.

**Additional Admission Requirements for the MHA**

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university; an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience, within the past ten years, of which one year must be in a health care environment. Students who have an undergraduate Health Care degree (includes completion of a major/minor/focus or concentrations of at least 18 credit hours in health care coursework) do not need the one (1) year health care work experience for admission.

All applicants must be currently employed in a suitable Health Care work environment or have access to a suitable Health Care work environment for the completion of course assignments.

**Degree Requirements for the MHA/ED**

- Completion of a minimum of 43 credits.
- A minimum program grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Health Administration and will not reflect the Specialization. Specializations are reflected on the transcript only.

**Minimum Grade Requirements for the MHA/ED**

- Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

**Residency Requirements and Course Waivers for the MHA/ED**

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to waive a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better; and
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program:

HCS 504, HCS 586, HSN 552, HCS 565

The School of Advanced Studies offers a bridge opportunity for master’s degree students who are interested in taking doctoral courses as part of the master’s degree program. In the bridge program, a master’s degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master’s degree program.

All credit-bearing doctoral courses must be completed with a grade of “B-” or better. Students who earn a grade lower than a “B-“ will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Course Descriptions for the MHA/ED

HCS 504 .................................................................1 credit

Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 514 .................................................................3 credits

Managing in Today’s Health Care Organizations
This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 545 .................................................................3 credits

Health Law and Ethics
Students explore and analyze current ethical issues such as biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 539 .................................................................3 credits

Marketing for Health Care
This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 531 ................................................................3 credits

Health Care Organizations and Delivery Systems
This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.

HCS 577 ................................................................3 credits

Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.

HCS 533 ................................................................3 credits

Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 535 ................................................................3 credits

Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.

HCS 587 ................................................................3 credits

Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

HCS 552 ................................................................3 credits

Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency; production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.

HCS 588 ................................................................3 credits

Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
HSN 540 ............................................................. 3 credits
**Teaching and Learning Strategies**
This course will focus on the concepts of learning, cognitive, and psychomotor learning, and the principles of adult learning. Selection and development of teaching strategies that enhance and facilitate learning will be explored.

HSN 548 ............................................................. 3 credits
**Role of the Health Care/Nursing Educator**
Responsibilities of faculty within various higher education settings are explored. Trends and issues that impact the educator role within changing health care and educational environments are discussed. Topics such as technological, legal, ethical, and professional dynamics are included.

HSN 544 ............................................................. 3 credits
**Design and Process of Curriculum Development**
Development of curriculum for programs in higher education settings is examined. This course focuses on curriculum planning and design, as well as development of individual courses and their relationship to program mission, objectives, and outcomes.

HSN 552 ............................................................. 3 credits
**Assessment and Evaluation of Learning**
Methods of assessing learning in higher education are analyzed and applied in different learning situations. Processes and problems related to course learning assessments as well as evaluating programmatic outcomes are examined. Designing measures to evaluate learner and curricular outcomes are addressed.

**Master of Health Administration/Education Bridge**

The following Master of Health Administration/Education (MHA) Bridge program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) Bridge program is designed for students who do not have a background in health care and want to gain skills and knowledge to enter today's evolving health care delivery systems. Students in the Bridge program are required to complete courses in health care delivery systems, health care economics, and health care policy before entering the core MHA degree program. These bridge courses are designed to provide students with a foundational framework needed to examine and understand the issues and trends impacting health care.

The MHA curriculum is tailored to support the development of health care leaders and managers by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education.

Graduates will have enhanced their management/administrative backgrounds through a curriculum that provides students with the ability to apply theory to contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment which is team oriented and motivating to others.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha-ed.

Additional Admission Requirements for the MHA/ED

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A minimum equivalent of three years of full-time, post-high school work or volunteer experience with exposure to organizational systems and management processes is required.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MHA/ED

- Completion of a minimum of 52 credits.
- A minimum program grade point average (GPA) of 3.0.

Grades earned in MHA/ED bridge courses are calculated in the MHA/ED grade point average (GPA).

- The diploma for this program will read as follows: Master of Health Administration and will not reflect the Specialization. Specializations are reflected on the transcript only.

Minimum Grade Requirements for the MHA/ED

- Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Residency Requirements and Course Waivers for the MHA/ED

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

Students enrolled in this bridge program may waive the three (3) undergraduate bridge courses.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program:

- HCS 504, HCS 586, HSN 552, HCS 565

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program. In the bridge program, a master's degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master's degree program.

All credit-bearing doctoral courses must be completed with a grade of "B-" or better. Students who earn a grade lower than a "B-" will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Course Descriptions for the MHA/ED

HCS 504 ................................................................. 1 credit

Introduction to Graduate Study in Health Sciences/Nursing

This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 310 ................................................................. 3 credits

Health Care Delivery in the United States

This course provides a broad overview of the various functions of the United States health care system. The historical evolution of health care is examined. The student is introduced to the various forms of provider models and service delivery systems found in private and public health sectors, including ambulatory, acute, mental, and long-term care. The financing aspects of health care and their influence on health care delivery and quality are outlined.

HCS 440 ................................................................. 3 credits

Economics: The Financing of Health Care

This course provides an overview of the economics of health care. The various payers are examined, including private, state, and federal entities. Issues such as the cost effectiveness of prevention, the management of patients and their diseases, as well as the cost of treatment settings are discussed. Third-party reimbursement from various sources, ranging from for-profit insurance carriers to charitable donations, are reviewed. The health care system’s use of grant funding and research dollars is described.

HCS 455 ................................................................. 3 credits

Healthcare Policy: The Past and the Future

This course will introduce the student to the intricate processes that public policy makers use to influence the health status of a society. The role of economic theory, interest groups, and the various levels of government involved in policy making will be examined. A historic review of trends will be evaluated, and the challenges of future health care delivery will be examined.
Managing in Today's Health Care Organizations

This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 545 ................................................................. 3 credits

Health Law and Ethics

Students explore and analyze current ethical issues such as biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 539 ................................................................. 3 credits

Marketing for Health Care

This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 531 ................................................................. 3 credits

Health Care Organizations and Delivery Systems

This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.

HCS 577 ................................................................. 3 credits

Financial Management in Health Care

This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.

HCS 533 ................................................................. 3 credits

Health Information Systems

This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 535 ................................................................. 3 credits

Concepts of Population Health

This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.

HCS 587 ................................................................. 3 credits

Creating Change Within Organizations

Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

HCS 552 ................................................................. 3 credits

Health Care Economics

This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.

HCS 588 ................................................................. 3 credits

Measuring Performance Standards

Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.

HSN 540 ................................................................. 3 credits

Teaching and Learning Strategies

This course will focus on the concepts of learning, cognitive, and psychomotor learning, and the principles of adult learning. Selection and development of teaching strategies that enhance and facilitate learning will be explored.

HSN 548 ................................................................. 3 credits

Role of the Health Care/Nursing Educator

Responsibilities of faculty within various higher education settings are explored. Trends and issues that impact the educator role within changing health care and educational environments are discussed. Topics such as technological, legal, ethical, and professional dynamics are included.

HSN 544 ................................................................. 3 credits

Design and Process of Curriculum Development

Development of curriculum for programs in higher education settings are examined. This course focuses on curriculum planning and design, as well as development of individual courses and their relationship to program mission, objectives, and outcomes.

HSN 552 ................................................................. 3 credits

Assessment and Evaluation of Learning

Methods of assessing learning in higher education are analyzed and applied in different learning situations. Processes and problems related to course learning assessments as well as evaluating programmatic outcomes are examined. Designing measures to evaluate learner and curricular outcomes are addressed.
The following Master of Health Administration/Gerontology (MHA/GER) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are empowered to influence the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education. Graduates of the MHA program will have enhanced their management/administrative background and specialty area through the completion of a curriculum that provides students with the latest theories and contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment, which is team oriented and motivating to others. This program specialization option is designed to provide health care professionals with diverse interdisciplinary backgrounds with the knowledge and process of aging. Content is designed to provide students with relevant information related to the physical, mental, and social aspects of gerontology as well as human services, economic and legal factors that influence elders. With an emerging proportion of older adults in our society there is a growing market for aging services which are fueled by products and services for well elders as well as those elders compromised by chronic illnesses or disabilities. Career opportunities are increasing and are not limited to just long term care organizations will look to include workers prepared to understand the needs of this population as a major consumer of their products and services.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha-ger.

**Additional Admission Requirements for the MHA/GER**

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A minimum of 18 credit hours in health care coursework.
- Students who have an undergraduate Health Care degree (includes completion of a major/minor/focus or concentrations of at least 18 credit hours in health care coursework) do not need the one (1) year health care work experience for admission.

All applicants must be currently employed in a suitable Health Care work environment or have access to a suitable Health Care work environment for the completion of course assignments.

**Degree Requirements for the MHA/GER**

- Completion of a minimum of 43 credits.
- A minimum program grade point average (GPA) of 3.0.

The diploma awarded for this program will read as: Master of Health Administration and will not reflect the Specialization. Specializations are reflected on the transcript only.
Minimum Grade Requirements for the MHA/GER

- Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Residency Requirements and Course Waivers for the MHA/GER

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to waive a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program:
HCS 504, HCS 566, HSN 552, HCS 565

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program. In the bridge program, a master's degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master's degree program.

All credit-bearing doctoral courses must be completed with a grade of "B-" or better. Students who earn a grade lower than a "B-" will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Course Descriptions for the MHA/GER
HCS 504 .................................................................................. 1 credit
Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 514 .................................................................................. 3 credits
Managing in Today's Health Care Organizations
This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 545 .................................................................................. 3 credits
Health Law and Ethics
Students explore and analyze current ethical issues such as biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 539 .................................................................................. 3 credits
Marketing for Health Care
This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 531 .................................................................................. 3 credits
Health Care Organizations and Delivery Systems
This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.

HCS 577 .................................................................................. 3 credits
Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.

HCS 533 .................................................................................. 3 credits
Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 535 .................................................................................. 3 credits
Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.
HCS 587 .................................................................3 credits
Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.
HCS 552 .................................................................3 credits
Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.
HCS 588 .................................................................3 credits
Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
HCS 548 .................................................................3 credits
Foundations of Gerontology
This course introduces students to the field of gerontology and focuses on the aspect of aging. Emphasis will be placed on the basic conceptual and theoretical perspectives on aging using a multidisciplinary framework. Students will uncover the myths and stereotypes of aging, demographic changes occurring in the U.S., available programs and services, and current issues affecting older adults.
HCS 551 .................................................................3 credits
Biological and Psychological Aspects of Aging
This course examines the physical process of aging and the effects on physical and mental health. These topics are applied to disease prevention, health maintenance, and selected disorders that effect health and independent living. Public policy and program development issues will also be addressed to promote the health of the aging population.
HCS 557 .................................................................3 credits
Social and Cultural Aspects of Aging
This course examines the social and cultural perspectives on aging. Public and personal aspects of aging will be addressed through historical, theoretical, cultural, and social venues. Topics will include work and retirement, social policy, older people as social and political forces, care needs, diversity, economics, social support, and disability.
HCS 565 .................................................................3 credits
Organization and Management of Aging Services
This course examines a variety of services currently available for aging adults and their families. Students will learn the basic principles for planning, organizing, implementing, and coordinating programs and services intended for maturing adults. Topics include community programs, policy, institutional services, religious-based and other nonprofit resources, contracted service providers, and residential facilities.

Master of Health Administration/Gerontology Bridge
The following Master of Health Administration/Gerontology (MHA) Bridge program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) Bridge program is designed for students who do not have a background in health care and want to gain skills and knowledge to enter today's evolving health care delivery systems. Students in the Bridge program are required to complete courses in health care delivery systems, health care economics, and health care policy before entering the core MHA degree program. These bridge courses are designed to provide students with a foundational framework needed to examine and understand the issues and trends impacting health care. The MHA curriculum is tailored to support the development of health care leaders and managers by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education.

Graduates will have enhanced their management/administrative backgrounds through a curriculum that provides students with the ability to apply theory to contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment which is team oriented and motivating to others.

Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Residency Requirements and Course Waivers for the MHA/GER

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

Students enrolled in this bridge program may waive the three (3) undergraduate bridge courses.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program: HCS 504, HCS 586, HSN 552, HCS 565

In the bridge program, a master's degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master's degree program.

All credit-bearing doctoral courses must be completed with a grade of "B-" or better. Students who earn a grade lower than a "B-" will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Minimum Grade Requirements for the MHA/GER

- Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Course Descriptions for the MHA/GER

HCS 504 Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 310 Health Care Delivery in the United States
This course provides a broad overview of the various functions of the United States health care system. The historical evolution of health care is examined. The student is introduced to the various forms of provider models and service delivery systems found in private and public health sectors, including ambulatory, acute, mental, and long-term care. The financing aspects of health care and their influence on health care delivery and quality are outlined.

HCS 440 Economics: The Financing of Health Care
This course provides an overview of the economics of health care. The various payers are examined, including private, state, and federal entities. Issues such as the cost effectiveness of prevention, the management of patients and their diseases, as well as the cost of treatment settings are discussed. Third-party reimbursement from various sources, ranging from for-profit insurance carriers to charitable donations, are reviewed. The health care system’s use of grant funding and research dollars is described.

HCS 514 Managing in Today’s Health Care Organizations
This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 310 Health Law and Ethics
Students explore and analyze current ethical issues such as biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 531 Marketing for Health Care
This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 577 Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.

HCS 533 Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 535 Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and determinants of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.

HCS 587 Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

HCS 552 Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.
HCS 588 Measuring Performance Standards .......................... 3 credits

Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.

HCS 548 Foundations of Gerontology .............................. 3 credits

Foundations of Gerontology
This course introduces students to the field of gerontology and focuses on the aspect of aging. Emphasis will be placed on the basic conceptual and theoretical perspectives on aging using a multidisciplinary framework. Students will uncover the myths and stereotypes of aging, demographic changes occurring in the U.S., available programs and services, and current issues affecting older adults.

HCS 551 Biological and Psychological Aspects of Aging .......... 3 credits

Biological and Psychological Aspects of Aging
This course examines the physical process of aging and the effects on physical and mental health. These topics are applied to disease prevention, health maintenance, and selected disorders that affect health and independent living. Public policy and program development issues will also be addressed to promote the health of the aging population.

HCS 557 Social and Cultural Aspects of Aging .................... 3 credits

Social and Cultural Aspects of Aging
This course examines the social and cultural perspectives on aging. Public and personal aspects of aging will be addressed through historical, theoretical, cultural, and social venues. Topics will include work and retirement, social policy, older people as social and political forces, care needs, diversity, economics, social support, and disability.

HCS 565 Organization and Management of Aging Services ....... 3 credits

Organization and Management of Aging Services
This course examines a variety of services currently available for aging adults and their families. Students will learn the basic principles for planning, organizing, implementing, and coordinating programs and services intended for maturing adults. Topics include community programs, policy, institutional services, religious-based and other nonprofit resources, contracted service providers, and residential facilities.

Master of Health Administration/Informatics

The following Master of Health Administration/Informatics (MHA/INF) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry. These individuals have a capacity to critically examine and evaluate issues and trends and are empowered to influence the destiny of a broad and dynamic health care system. Curriculum is tailored to the needs of the health care leader/manager by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education.

Graduates of the MHA program will have enhanced their management/administrative background and specialty area through the completion of a curriculum that provides students with the latest theories and contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment, which is team oriented and motivating to others.

This program specialization option is designed for health care and nursing professionals interested in pursuing or advancing in careers associated with health care informatics and technology. Individuals with no background in informatics receive an overview of informatics as it relates to delivery within a health care facility. The program is designed to provide the learner with current knowledge in concepts of health care informatics, systems life cycle, and data management.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha-inf.

MHA/INF Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number.

HCS 504 Introduction to Graduate Study in Health Sciences/Nursing .......................... 1 credit
HCS 514 ~ Managing in Today’s Health Care Organizations .......................... 3 credits
HCS 545 ~ Health Law and Ethics .......................... 3 credits
HCS 539 ~ Marketing for Health Care .......................... 3 credits
HCS 531 ~ Health Care Organizations and Delivery Systems
All applicants must be currently employed in a suitable Health Care work environment or have access to a suitable Health Care work environment for the completion of course assignments.

### Additional Admission Requirements for the MHA/INF
- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience, within the past ten years, of which one year must be in a health care environment. Students who have an undergraduate Health Care degree (includes completion of a major/minor/focus or concentrations of at least 18 credit hours in health care coursework) do not need the one (1) year health care work experience for admission.
- All applicants must be currently employed in a suitable Health Care work environment or have access to a suitable Health Care work environment for the completion of course assignments.

### Minimum Grade Requirements for the MHA/INF
- Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

### Degree Requirements for the MHA/INF
- Completion of a minimum of 40 credits.
- A minimum program grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Health Administration and will not reflect the Specialization. Specializations are reflected on the transcript only.

### Residency Requirements and Course Waivers for the MHA/INF
Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to waive a course in the required course of study, the student must have completed a previous course which meets the following criteria:
- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and

HCS 504 .............................. 1 credit

**Introduction to Graduate Study in Health Sciences/Nursing**
This course provides new graduate students in the college with an introduction to strategies for success within the University's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 514 ................................................. 3 credits

**Managing in Today's Health Care Organizations**
This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.
HCS 545 ................................................................. 3 credits

Health Law and Ethics
Students explore and analyze current ethical issues such as biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.
HCS 539 ................................................................. 3 credits

Marketing for Health Care
This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.
HCS 531 ................................................................. 3 credits

Health Care Organizations and Delivery Systems
This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.
HCS 577 ................................................................. 3 credits

Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.
HCS 533 ................................................................. 3 credits

Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.
HCS 585 ................................................................. 3 credits

Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detrimental effects of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.
HCS 587 ................................................................. 3 credits

Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.
HCS 552 ................................................................. 3 credits

Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.
HCS 588 ................................................................. 3 credits

Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
HCI 500 ................................................................. 3 credits

Concepts of Health Care Informatics
This course will introduce the student to the basic concepts of health care informatics and health information management. It will build on a historical foundation of informatics and roles of the informatics specialist.
HCI 510 ................................................................. 3 credits

Systems Life Cycle
This course will focus on the selection and implementation of an information system within a health facility. The course will review the phases of the life cycle: planning, analysis, design, implementation and evaluation.
HCI 520 ................................................................. 3 credits

Data Management and Design
This course will provide an overview of the understanding of how data, information and knowledge provides the foundation for healthcare information systems. The course will focus on the concepts of information and knowledge in relation to databases, systems operations and information systems.
Master of Health Administration/Informatics Bridge

The following Master of Health Administration/Informatics (MHA) Bridge program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Health Administration (MHA) Bridge program is designed for students who do not have a background in health care and want to gain skills and knowledge to enter today's evolving health care delivery systems. Students in the Bridge program are required to complete courses in health care delivery systems, health care economics, and health care policy before entering the core MHA degree program. These bridge courses are designed to provide students with a foundational framework needed to examine and understand the issues and trends impacting health care. The MHA curriculum is tailored to support the development of health care leaders and managers by providing content in finance, policy, research, technology, quality improvement, economics, marketing and strategic planning. In addition, students have the option to complete a specialization related to their area of interest. Specialization options include gerontology, informatics and education.

Graduates will have enhanced their management/administrative backgrounds through a curriculum that provides students with the ability to apply theory to contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment which is team oriented and motivating to others.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mha-inf.

MHA/INF Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number.

HCS 504 ~ .................................................................1 credit
Introduction to Graduate Study in Health Sciences/Nursing
HCS 310 ~ ...........................................................................3 credits
Health Care Delivery in the United States
HCS 440 ~ ...........................................................................3 credits
Economics: The Financing of Health Care
HCS 455 ~ ...........................................................................3 credits
Health Care Policy: The Past and the Future
HCS 514 ~ ...........................................................................3 credits
Managing in Today’s Health Care Organizations
HCS 545 ~ ...........................................................................3 credits
Health Law and Ethics
HCS 539 ~ ...........................................................................3 credits
Marketing for Health Care
HCS 531 ~ ...........................................................................3 credits
Health Care Organizations and Delivery Systems
HCS 577 ~ ...........................................................................3 credits
Financial Management in Health Care

Systems Life Cycle
HSCI 520 ~ ...........................................................................3 credits
Data Management and Design

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MHA/INF

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A minimum equivalent of three years of full-time, post-high school work or volunteer experience with exposure to organizational systems and management processes is required.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MHA/INF

- Completion of a minimum of 49 credits.
- A minimum program grade point average (GPA) of 3.0.

Grades earned in MHA/INF bridge courses are calculated in the MHA/INF grade point average (GPA).

- The diploma for this program will read as follows: Master of Health Administration and will not reflect the Specialization. Specializations are reflected on the transcript only.
Minimum Grade Requirements for the MHA/INF

- Students in this program are required to achieve a minimum grade of "C" (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A "C-"] grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Residency Requirements and Course Waivers for the MHA/INF

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. Students enrolled in this bridge program may waive the three (3) undergraduate bridge courses.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses may not be waived in the MHA program:

HCS 504, HCS 586, HSN 552, HCS 565

The School of Advanced Studies offers a bridge opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program. In the bridge program, a master's degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master's degree program.

All credit-bearing doctoral courses must be completed with a grade of "B" or better. Students who earn a grade lower than a "B" will not receive credit for the course and will not be able to use the bridge course to waive credits upon enrollment in a doctoral program.

Course Descriptions for the MHA/INF

HCS 504 ................................................................. 1 credit

Introduction to Graduate Study in Health Sciences/Nursing

This course provides new graduate students in the college with an introduction to strategies for success within the University's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 310 ................................................................. 3 credits

Health Care Delivery in the United States

This course provides a broad overview of the various functions of the United States health care system. The historical evolution of health care is examined. The student is introduced to the various forms of provider models and service delivery systems found in private and public health sectors, including ambulatory, acute, mental, and long-term care. The financing aspects of health care and their influence on health care delivery and quality are outlined.

HCS 440 ................................................................. 3 credits

Economics: The Financing of Health Care

This course provides an overview of the economics of health care. The various payers are examined, including private, state, and federal entities. Issues such as the cost effectiveness of prevention, the management of patients and their diseases, as well as the cost of treatment settings are discussed. Third-party reimbursement from various sources, ranging from for-profit insurance carriers to charitable donations, are reviewed. The health care system's use of grant funding and research dollars is described.

HCS 455 ................................................................. 3 credits

Healthcare Policy: The Past and the Future

This course will introduce the student to the intricate processes that public policy makers use to influence the health status of a society. The role of economic theory, interest groups, and the various levels of government involved in policy making will be examined. A historic review of trends will be evaluated, and the challenges of future health care delivery will be examined.

HCS 514 ................................................................. 3 credits

Managing in Today's Health Care Organizations

This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 545 ................................................................. 3 credits

Health Law and Ethics

Students explore and analyze current ethical issues such as a biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 539 ................................................................. 3 credits

Marketing for Health Care

This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 531 ................................................................. 3 credits

Health Care Organizations and Delivery Systems

This course is a comprehensive approach to health care delivery systems that provides the student with an in-depth understanding of health systems and organizations. Students will examine historical evolutions of the health care industry and recent impacts that influence the delivery of health care.
HCS 577 ................................................................................... 3 credits
Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.

HCS 533 ................................................................................... 3 credits
Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 535 ................................................................................... 3 credits
Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.

HCS 587 ................................................................................... 3 credits
Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

HCS 552 ................................................................................... 3 credits
Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency; production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.

HCS 588 ................................................................................... 3 credits
Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.

HCI 500 ................................................................................... 3 credits
Concepts of Health Care Informatics
This course will introduce the student to the basic concepts of health care informatics and health information management. It will build on a historical foundation of informatics and roles of the informatics specialist.

HCI 510 ................................................................................... 3 credits
Systems Life Cycle
This course will focus on the selection and implementation of an information system within a health facility. The course will review the phases of the life cycle: planning, analysis, design, implementation and evaluation.

HCI 520 ................................................................................... 3 credits
Data Management and Design
This course will provide an overview of the understanding of how data, information and knowledge provides the foundation for healthcare information systems. The course will focus on the concepts of information and knowledge in relation to databases, systems operations and information systems.
COLLEGE OF CRIMINAL JUSTICE AND SECURITY

The College of Criminal Justice and Security prepares students for professional and management-related careers in criminal justice and security by applying a multidisciplinary comparative management approach to criminal justice theory and application. Students will be prepared to understand, explain, and predict criminal justice and security concepts and to contribute to the development of public and private policy within communities. Our mission is to enhance the academic preparation and professionalism of the nation’s criminal justice and security communities through access to quality criminal justice and security higher education. The College of Criminal Justice and Security provides innovative, respected, relevant, affordable, and student-focused programs, designed to prepare students for service and leadership in a diverse, global society. Curriculum is delivered by experts who relate both theory and practice in this evolving field. The College has earned respect through continuous improvement driven by a combination of innovation in the field and empirical evidence of learning outcomes, all of which is accomplished through the integrity, teamwork, and creativity of college faculty and staff. We are a respected criminal justice and security college, known for its distinctive strengths in providing superior and relevant educational programs to its students.

It is the student’s responsibility to ascertain whether their past history and conduct may prohibit their placement or participation in the criminal justice and security field. The University makes no guarantee or representation that the student will meet all qualifications for such employment or licensure for the occupation or profession related to the chosen program.

Master of Science/Administration of Justice and Security

The following Master of Science/Administration of Justice and Security (MS/AJS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs are available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science/Administration of Justice and Security degree provides the required knowledge for the student to develop competence in administering criminal justice or security programs. While distinctions between the roles of justice and security organizations are understood, the degree emphasizes an understanding of administrative responsibilities common to both disciplines. The value of cooperative interaction is also addressed. The degree provides the student with administrative program development and problem solving skills in preparation for promotional or transitional opportunities in the management of police, corrections, security, or court operations.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/ms-ajs.

Additional Admission Requirements for the MS/AJS

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

- A minimum equivalent of three (3) years of full-time, post-high school professional work experience in policing, criminal courts or correctional service (community or institutional), or security AND a minimum of 15 semester credit hours (minimum “C” grade or better) in Criminal Justice, Justice Studies or Administration of Justice or Security.
**Course Descriptions for the MS/AJS**

**AJS 501** .......................................................... 1 credit

**Introduction to Graduate Study in Criminal Justice and Security**
This course provides new graduate students in the college with an introduction to strategies for success within the university's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

**AJS 502** .......................................................... 3 credits

**Survey of Justice and Security**
This is a survey course that introduces policing, the court systems, corrections, and private security and how they relate to each other. Challenges in these relationships are also presented.

**AJS 512** .......................................................... 3 credits

**Organizational Administration in Justice and Security**
This course explores the various elements of organizational administration, behavior, and management in criminal justice organizations and provides the student with an understanding of individual and group dynamics, problem solving concepts, and administrative processes associated with organizational behavior and structures that exist in the criminal justice system.

**AJS 522** .......................................................... 3 credits

**Finance and Budgeting in Justice and Security**
This course introduces fundamental concepts of using financial tools and analysis for effective managerial decision making in criminal justice and security. Topics include the role of the financial management in the criminal justice organization, concepts and principles underlying financial practices, and operational planning and budgeting.

**AJS 532** .......................................................... 3 credits

**Ethics in Justice and Security**
This course will examine the theoretical and philosophical basis of ethics and the standards of professional conduct and leadership applicable to justice and security agencies. Applicable case studies will be used as well as contemporary situations in ethics.

**AJS 542** .......................................................... 3 credits

**Criminological Theory**
This is an advanced course in theories of crime causation, including classical, biological, psychological, sociological, and social-psychological approaches. Victimology, to include victimization statistics, victimogenesis, and the prevention of victimization, is included.

**AJS 552** .......................................................... 3 credits

**Legal Issues in Justice and Security**
This course examines the competing legal and social issues that influence the actions of public officials, security personnel, and private citizens with respect to the provision of law enforcement, safety, and security services for various elements of society. The potential conflicts between public policy and civil rights will be discussed.
AJS 562 ................................................................. 3 credits
Organizational Risk and Incident Management
This course provides an overview of the relationship between risk assessment and consequence management within the context of justice and security organizations. Specifically, it will examine the factors that go into mitigating risk and how critical incident response can maintain order. Topics include defining risk, planning factors for critical incident response, lessons learned.

AJS 572 ................................................................. 3 credits
Cyber Crimes and Information Systems Security
This course provides an overview of the nature of criminal activity that is facilitated through or that targets information systems. The course also reviews security measures that are designed to protect the software, hardware and data associated with information systems.

AJS 582 ................................................................. 3 credits
Public Policy Issues
This course addresses the development and influence of public policy with respect to specific justice and security issues facing the American society.

AJS 585 ................................................................. 3 credits
Concepts of Physical and Personal Protection
This course provides the student with an understanding of contemporary concepts of physical facility security and personal protection.

AJS 592 ................................................................. 3 credits
Forensic Science and Psychological Profiling
This course provides the student with a fundamental understanding of forensic science and technology, psychological profiling, and the application of scientific methodologies to the investigative process.

AJS 595 ................................................................. 3 credits
Program Development and Evaluation
This course prepares the student to identify operational goals and to design programs with associated policies and procedures required for the successful achievement of performance objectives.

The following Master of Science/Administration of Justice and Security Bridge (MS/AJS) program may be offered at the University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science/Administration of Justice and Security (MS/AJS) Bridge program is designed for students who are interested in pursuing the MS/AJS degree, but may not have a background in the criminal justice (law enforcement, criminal courts, or corrections) and/or security fields. The Bridge program consists of four courses that provide a foundational framework for student success in the MS/AJS program. Students are required to complete courses in criminal justice, criminal court systems, correctional processes and penal systems, and security before entering the core MS/AJS degree program. Upon completion of these courses, students will be familiar with issues and trends influencing criminal justice and security and will be prepared to gain skills and knowledge to enter today's dynamic criminal justice and security fields. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/ms-ajs.

Additional Admission Requirements for the MS/AJS

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Applicants to the Bridge version must have a minimum of three (3) years of full-time, post high school professional work experience for admission. Students will be required to enroll in the Bridge version and must complete four (4) MS/AJS bridge courses; CJA 490, CJA 491, CJA 492 and SEC 493.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
- Signed Criminal Conviction Prohibition Acknowledgement Form

Degree Requirements for the MS/AJS

- Completion of a minimum of 49 credits.
- A minimum program grade point average (GPA) of 3.0.

**Grades earned in MS/AJS bridge courses are calculated in the MS/AJS grade point average (GPA).**
- The diploma awarded for this program will read as:
  - Master of Science
  - Administration of Justice and Security

Academic Progression Requirements for the MS/AJS

- Students enrolling in the MS/AJS bridge program must complete the four MS/AJS bridge courses CJA 490, CJA 491, CJA 492 and SEC 493 with a “C” or better.

Minimum Grade Requirements for the MS/AJS

- Students in this program are required to achieve a minimum grade of “C” (2.0) in the following courses: CJA 490, CJA 491, CJA 492 and SEC 493. A “C-” grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified from the University.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have retaken the course which placed them on scholastic disqualification, satisfied the grade requirement, and fulfilled any additional criteria for reentry, as determined by the faculty member and the Campus College Chair or appropriate Dean.
- If the student does not receive a grade of “C” or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the MS/AJS

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 28 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
- Students enrolled in the bridge version may waive the four (4) undergraduate bridge courses in addition to 9 credits from the required course of study.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
  - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: AJS 595
Course Descriptions for the MS/AJS

AJS 501 Introduction to Graduate Study in Criminal Justice and Security
1 credit
This course provides new graduate students in the college with an introduction to strategies for success within the university's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

CJA 490 Survey of Criminal Court Systems
3 credits
This course is a survey which explores the organizational differences and jurisdictions of local, state, and federal law enforcement, judicial and corrections agencies; and the related processes involved in the criminal justice system. It surveys the historical aspects of the police, the courts, and the correctional system, as well as explains the foundational relevance of these components to the overall functioning of the criminal justice system. Additionally, special issues and challenges faced by each of these areas will be considered.

CJA 491 Survey of Criminal Court Systems
3 credits
This course is a survey to the historical aspects of the courts and various components of the legal system. It examines the different types of courts at the state and federal levels, courtroom players, courtroom processes, and post conviction process of the court system. Additionally, it illustrates the correlation among all courtroom participants, differentiates roles and responsibilities, and examines how they relate to one another.

CJA 492 Survey of Correctional Processes and Penal Systems
3 credits
This course is a survey to the various components of the correctional system and penal reform within the criminal justice system. It provides an overview of corrections, jails and prisons including their history, the players involved and their roles, and organizations that manage convicted offenders. Other topics that are covered include policy and procedure, sentencing, probation, and rehabilitations of prisoners. The course ends with international perspectives of imprisonment and global correctional systems.

SEC 493 Survey of Security
3 credits
This course is a survey course that introduces policing, the court systems, corrections, and private security and how they relate to each other. Challenges in these relationships are also presented.

AJS 502 Survey of Criminal Justice
3 credits
AJS 512 Organizational Administration in Justice and Security
This course explores the various elements of organizational administration, behavior, and management in criminal justice organizations and provides the student with an understanding of individual and group dynamics, problem solving concepts, and administrative processes associated with organizational behavior and structures that exist in the criminal justice system.

AJS 522 Finance and Budgeting in Justice and Security
3 credits
This course provides fundamental concepts of using financial tools and analysis for effective managerial decision making in criminal justice and security. Topics include the role of the financial management in the criminal justice organization, concepts and principles underlying financial practices, and operational planning and budgeting.

AJS 532 Ethics in Justice and Security
3 credits
This course will examine the theoretical and philosophical basis of ethics and the standards of professional conduct and leadership applicable to justice and security agencies. Applicable case studies will be used as well as contemporary situations in ethics.

AJS 542 Criminological Theory
3 credits
This course examines the competing legal and social issues that influence the actions of public officials, security personnel, and private citizens with respect to the provision of law enforcement, safety, and security services for various elements of society. The potential conflicts between public policy and civil rights will be discussed.

AJS 552 Legal Issues in Justice and Security
3 credits
This course provides an overview of the relationship between risk assessment and consequence management within the context of justice and security organizations. Specifically, it will examine the factors that go into mitigating risk and when these measures fail, how critical incident response can maintain order. Topics include defining risk, planning factors for critical incident response, lessons learned.

AJS 562 Organizational Risk and Incident Management
3 credits
This course provides an overview of the nature of criminal activity that is facilitated through or that targets information systems. The course also reviews security measures that are designed to protect the software, hardware and data associated with information systems.

AJS 572 Cyber Crimes and Information Systems Security
3 credits
This course addresses the development and influence of public policy with respect to specific justice and security issues facing the American society.
AJS 585 ................................................................. 3 credits  
**Concepts of Physical and Personal Protection**  
This course provides the student with an understanding of contemporary concepts of physical facility security and personal protection.

AJS 592  ................................................................. 3 credits  
**Forensic Science and Psychological Profiling**  
This course provides the student with a fundamental understanding of forensic science and technology, psychological profiling, and the application of scientific methodologies to the investigative process.

AJS 595 ................................................................. 3 credits  
**Program Development and Evaluation**  
This course prepares the student to identify operational goals and to design programs with associated policies and procedures required for the successful achievement of performance objectives.
The University of Phoenix School of Business offers the Master of Business Administration and Master of Management. Although only one MBA degree may be earned, MBA students may choose to pursue the MBA or a concentration in a variety of areas.

**Master of Business Administration**

The following Master of Business Administration (MBA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Business Administration (MBA) program prepares students in the functional areas of business allowing them to develop managerial skills necessary to be effective in a rapidly changing business environment. The program is based on current research of managerial competencies and graduate business standards as tested by existing national standardized graduate business examinations.

In addition to the University of Phoenix learning goals, the MBA program prepares students to:

- Demonstrate the knowledge and skills needed to identify and solve organizational problems using a systematic decision-making approach.
- Demonstrate the knowledge and skills needed to manage, develop, and motivate personnel to meet changing organizational needs in a global business environment.
- Apply critical analysis of alternatives under conditions of uncertainty.
- Develop awareness of their own values and the effect of those values on organizational decision making.
- Assess whether an organization’s plans and actions align with its values.
- Comprehend the application of a significant amount of business administration knowledge within the domains of management, business law, human capital management, organizational leadership, quantitative reasoning for business, economics, accounting, applied business research & statistics, operations management, corporate finance, marketing, and strategic planning & implementation.

Students can gain additional knowledge in a concentration area through the selection and completion of 15 graduate-level credits in concentration-specific courses.

Students may also complete an additional concentration. Please contact your academic representative for more information.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

**MBA Program Category Requirements**

**Management, 3 total credits**

- MGT 521 ~ ................................................................. 3 credits
- Management

**Human Capital Management, 3 total credits**

- HRM 531 ~ ................................................................. 3 credits
- Human Capital Management

**Business Law, 3 total credits**

- LAW 531 ~ ................................................................. 3 credits
- Business Law

**Organizational Leadership, 3 total credits**

- LDR 531 ~ ................................................................. 3 credits
- Organizational Leadership

**Quantitative Reasoning for Business, 3 total credits**

- QRB 501 ~ ................................................................. 3 credits
- Quantitative Reasoning for Business

**Economics, 3 total credits**

- ECO 561 ~ ................................................................. 3 credits
- Economics

**Accounting, 3 total credits**

- ACC 561 ~ ................................................................. 3 credits
- Accounting

**Applied Business Research and Statistics, 3 total credits**

- QNT 561 ~ ................................................................. 3 credits
- Applied Business Research & Statistics

**Operations Management, 3 total credits**

- OPS 571 ~ ................................................................. 3 credits
- Operations Management

**Corporate Finance, 3 total credits**

- FIN 571 ~ ................................................................. 3 credits
- Corporate Finance

**Marketing, 3 total credits**

- MKT 571 ~ ................................................................. 3 credits
- Marketing

**Strategic Planning and Implementation, 3 total credits**

- STR 581 ~ ................................................................. 3 credits
- Strategic Planning & Implementation
Accounting Concentration

MBA students may earn a concentration in Accounting (ACC) by satisfying all the requirements for the concentration. Students must earn a minimum of 12 unique and concentration-area specific credits beyond the standard MBA required course of study.

Students earning an ACC concentration will complete a minimum of 48 credits, which includes 36 credits from the MBA required course of study and 12 credits from the ACC concentration coursework (3 of which must include ACC 541—Accounting Theory & Research).

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-acc.

ACC 541 ~ .................................................................................3 credits
Accounting Theory & Research

ACC 542 ~ .................................................................................3 credits
Communications for Accountants

ACC 543 ~ .................................................................................3 credits
Accounting Information Systems

ACC 544 ~ .................................................................................3 credits
Managerial Accounting & Legal Aspects of Business

ACC 545 ~ .................................................................................3 credits
Internal Control Systems

ACC 546 ~ .................................................................................3 credits
Financial Reporting

ACC 547 ~ .................................................................................3 credits
Auditing

ACC 548 ~ .................................................................................3 credits
Taxation

ACC 556 ~ .................................................................................3 credits
Not-for-Profit & Government Accounting

ACC 557 ~ .................................................................................3 credits
Forensic Accounting

ACCOUNTING ETHICS

Students who select an Accounting Concentration may not educationally qualify to sit for the CPA exam in some states. To the extent that a student intends to sit for the CPA examination, the student should consult with the applicable board of examiners in the state or states in which the individual intends to sit for the examination to determine the precise educational and other requirements, including the acceptability of the University’s Accounting Concentration.

Energy Management Concentration

MBA students may earn a concentration in Energy Management (EM) by completing at least 15 credit hours of course work in Energy Management.

Students earning an EM concentration will complete a minimum of 51 credits, which includes 36 credits from the MBA required areas and 15 credits from the EM concentration.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-em.

EM 555 ~ ................................................................................3 credits
Energy Sector Management

EM 565 ~ ................................................................................3 credits
Financial Management in the Energy Sector

EM 575 ~ ................................................................................3 credits
Energy Economics

EM 585 ~ ................................................................................3 credits
Marketing Energy

EM 595 ~ ................................................................................3 credits
Strategic Planning and Implementation for the Energy Sector

Global Management Concentration

MBA students may earn a concentration in Global Management (GM) by completing at least 15 credit hours of course work in Global Management.

Students earning a GM concentration will complete a minimum of 51 credits, which includes 36 credits from the MBA required areas and 15 credits from the GM concentration.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-gm.

GMGT 510 ~ ................................................................................3 credits
Global Business Organization and Culture

GMGT 520 ~ ................................................................................3 credits
External Environment of Global Business

GMGT 530 ~ ................................................................................3 credits
Internal Environment of Global Business

GMGT 540 ~ ................................................................................3 credits
Global Strategy Formulation and Implementation

Global Strategy Formulation and Implementation
CAP GM591 ~ ........................................................................3 credits

Cases in Cross-Border Management

Health Care Management Concentration

MBA students may earn a concentration in Health Care Management (HCM) by completing at least 15 credit hours of course work in Health Care Management.

Students earning a HCM concentration will complete a minimum of 51 credits, which includes 36 credits from the MBA required areas and 15 credits from the HCM concentration.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-hcm.

HCS 531 ~ ................................................................................3 credits
Health Care Organizations and Delivery Systems

HCS 533 ~ ................................................................................3 credits
Health Information Systems

HCS 545 ~ ................................................................................3 credits
Health Law and Ethics

HCS 588 ~ ................................................................................3 credits
Measuring Performance Standards

HCS 586 ~ ................................................................................3 credits
Health Care Strategic Management
Human Resource Management Concentration

MBA students may earn a concentration in Human Resource Management (HRM) by satisfying all the requirements for the concentration. Students must earn a minimum of 12 unique and concentration-area specific credits beyond the standard MBA required course of study.

Students earning a HRM concentration will complete a minimum of 48 credits, which includes 36 credits from the MBA required course of study and 12 credits from the HRM concentration coursework.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-hrm.

HRM 546 ~ ................................................................. 3 credits
Human Resource Law
HRM 558 ~ ................................................................. 3 credits
Research in Human Resource Management
HRM 548 ~ ................................................................. 3 credits
Recruitment and Retention Practices
HRM 552 ~ ................................................................. 3 credits
Organizational Training and Development
HRM 554 ~ ................................................................. 3 credits
Occupational Health and Safety
HRM 595 ~ ................................................................. 3 credits
Human Resource Capstone Course

Marketing Concentration

MBA students may earn a concentration in Marketing (MKT) by satisfying all the requirements for the concentration. Students must earn a minimum of 12 unique and concentration-area specific credits beyond the standard MBA required course of study.

Students earning a MKT concentration will complete a minimum of 48 credits, which includes 36 credits from the MBA required course of study and 12 credits from the MKT concentration (3 of which must include MKT 593-Product Design and Development Course).

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-mkt.

MKT 544 ~ ................................................................. 3 credits
Integrated Marketing Communications
MKT 554 ~ ................................................................. 3 credits
Consumer Behavior
MKT 552 ~ ................................................................. 3 credits
Technology Applications and e-Marking
MKT 562 ~ ................................................................. 3 credits
Advanced International Marketing
MKT 593 ~ ................................................................. 3 credits
Product Design and Development

Project Management Concentration

MBA students may earn a concentration in Project Management (PM) by completing at least 15 credit hours of coursework in Project Management. Students earning a PM concentration will complete a minimum of 51 credits, which includes 36 credits from the MBA required areas and 15 credits from the PM concentration coursework.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-pm.

PM 571 ~ ................................................................. 3 credits
Project Management
PM 582 ~ ................................................................. 3 credits
Project Leadership
PM 584 ~ ................................................................. 3 credits
Project Risk Management
PM 586 ~ ................................................................. 3 credits
Project Quality Management
PM 598 ~ ................................................................. 3 credits
Project Management Capstone

Technology Management Concentration

MBA students may earn a concentration in Technology Management (TM) by completing at least 15 credit hours of coursework in Technology Management.

Students earning a TM concentration will complete a minimum of 51 credits (36 credits from the MBA required areas) which includes 15 credits from concentration coursework.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mba-tm.

COM TM541 ~ .......................................................... 3 credits
Communications for Managers of Technology
PM 571 ~ ................................................................. 3 credits
Project Management
TMGT 540 ~ ............................................................. 3 credits
Management of R&D and Innovation Processes
TMGT 550 ~ ............................................................. 3 credits
Technology Transfer in the Global Economy
TMGT 590 ~ ............................................................. 3 credits
Applications of Technology Management

The University reserves the right to modify the required course of study. Please note that within each state, concentration availability may vary by campus location.
Additional Admission Requirements for the MBA
All applicants are expected to meet the following admissions requirements:
• An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e., JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• No work experience is required for this program.
• A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MBA
The degree requirements for this program are the following:
• A minimum of 36 graduate credits must be completed to meet all areas of the required course of study.
• A minimum grade point average (GPA) of 3.0.
• Students must take courses within a sequence specified by course prerequisite requirements.
• The diploma awarded for this program will read as: Master of Business Administration and will not reflect the concentration. Concentrations are reflected on the transcript only.

Academic Progression Requirements for the MBA
• MGT 521 must be the first course taken.
• QRB 501 must be satisfied prior to progressing in courses in Economics, Accounting, Applied Business Research & Statistics, Operations Management, Corporate Finance, Marketing, and Strategic Planning & Implementation.
• Strategic Planning & Implementation (STR 581 or an alternative strategy course) must be taken as the last core course in the program.

Residency Requirements and Course Waivers for the MBA
• The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 30 graduate level credits at the University.
• In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:
  • The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
  • The course must have been completed within the past ten (10) years with a “B” (3.0) or better; and
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
• Management (MGT 521) may not be waived.
• Strategic Planning & Implementation (STR 581 or an alternative strategy course), which is the last core course in the program, may not be waived.
• The following courses may not be waived: ACC 541, CAP GM591, EM 555, EM 595, GMGT 510, HCS 531, HCS 586, HRM 595, MGT 521, MKT 593, PM 598, QRB 501, STR 581

The School of Advanced Studies offers a bridge opportunity for master’s degree students who are interested in taking doctoral courses. In the bridge program, a master’s degree student would be allowed to substitute up to two graduate level courses with doctoral level courses. Students who choose this option would then be eligible to waive these courses in the doctoral program since they were already taken in the master’s degree program. Students must earn a B- or better in the doctoral level courses in order to waive them in the doctoral program.

Students who have completed Meritus University graduate MBA courses may transfer all courses earned at Meritus University into the MBA program at the University of Phoenix without limitation provided that they sign an Enrollment Agreement for the University of Phoenix MBA program by March 1, 2012. Students transferring from Meritus University to University of Phoenix will still be required to satisfy all program requirements for the University of Phoenix MBA program and complete at least 3 credits at University of Phoenix in order to obtain their MBA degree from University of Phoenix.

Course Descriptions for the MBA
MGT 521 .....................................................................................3 credits
Management
This course applies the tools available to University of Phoenix graduate students and the competencies of successful managers to understand the functions of business. Students learn their own perceptions and values to communicate more effectively with others. Other topics include MBA program goals, argument construction, decision making, collaboration, and academic research.
HRM 531 .....................................................................................3 credits
Human Capital Development
This course prepares students to address the concepts of personnel development as managers. Students learn criteria for developing effective job analysis, appraisal systems, and appropriate career development plans for employees. Other topics include personnel selection, employee compensation, benefits, training, workplace diversity, discipline, employee rights, unions, and management behaviors.

LAW 531 .....................................................................................3 credits
Business Law
This course prepares students to evaluate the legal risks associated with business activity. Students will create proposals to manage an organization’s legal exposure. Other topics include the legal system, alternative dispute resolution, enterprise liability, product liability, international law, business risks, intellectual property, legal forms of business, and governance.
LDR 531 ................................................................................... 3 credits
Organizational Leadership
This course prepares students to apply leadership principles to the roles they play as managers. Students will discover more about themselves and learn more about the connection between the individual and the organization. Other topics include organizational culture, structure, group behavior, motivation, power, politics, organizational change, and workplace conflict.
QRB 501 ................................................................................... 3 credits
Quantitative Reasoning for Business
This course applies quantitative reasoning skills to business problems. Students learn to analyze data using a variety of analytical tools and techniques. Other topics include formulas, visual representation of quantities, time value of money, and measures of uncertainty.
ECO 561 ................................................................................... 3 credits
Economics
This course applies economic concepts to make management decisions. Students employ the concepts of scarce resources and opportunity costs to perform economic analysis. Other topics include supply and demand, profit maximization, market structure, macroeconomic measurement, money, trade, and foreign exchange.
ACC 561 ................................................................................... 3 credits
Accounting
This course applies accounting tools to make management decisions. Students learn to evaluate organizational performance from accounting information. Other topics include financial statements, cost behavior, cost allocation, budgets, and control systems.
QNT 561 ................................................................................... 3 credits
Applied Business Research and Statistics
This course prepares students to apply statistics and probability concepts to business decisions. Students learn criteria for developing effective research questions, including the creation of appropriate sampling populations and instruments. Other topics include descriptive statistics, probability concepts, confidence intervals, sampling designs, data collection, and data analysis - including parametric and nonparametric tests of hypothesis and regression analysis.
OPS 571 ................................................................................... 3 credits
Operations Management
This course applies planning and controlling concepts to increase the value of the supply chain. Students learn to evaluate and improve processes. Other topics include process selection, process design, theory of constraints, project implementation, capacity planning, lean production, facility location, and business forecasting.
FIN 571 ................................................................................... 3 credits
Corporate Finance
This course applies corporate finance concepts to make management decisions. Students learn methods to evaluate financial alternatives and create financial plans. Other topics include cash flows, business valuation, working capital, capital budgets, and long-term financing.
MKT 571 ................................................................................... 3 credits
Marketing
This course prepares students to apply marketing concepts to create and sustain customer value. Students learn to solve marketing problems in a collaborative environment. Topics include market research, customer relationships, branding, market segmentation, product development, pricing, channels, communications, and public relations.
STR 581 ................................................................................... 3 credits
Strategic Planning and Implementation
This course integrates concepts from all prior courses in the program. Students apply the concepts of strategic planning and implementation to create sustainable competitive advantage for an organization. Other topics include environmental scanning, strategic analysis, corporate social responsibility, implementation, evaluation, and risk management.
Course Descriptions for the Accounting Concentration
ACC 541 ................................................................................... 3 credits
Accounting Theory & Research
This is the first core course in the Master of Science in Accounting (MSA). In this course, students apply accounting research tools to current accounting issues. Other topics include research of accounting questions related to: inventory, fixed assets, leases, derivative instruments, debt, contingencies, segment reporting, pensions, business combinations, consolidations, stockholder's equity, and a program overview.
COM 530 ................................................................................... 3 credits
Communications for Accountants
In this course, students examine principles and practices of group communication in the context of the organization. Topics include an overview of group communication, culture and conflict, group formation, influence in organizational communication, organizational change, formal communications, and public communications.
ACC 542 ................................................................................... 3 credits
Accounting Information Systems
In this course, students examine the fundamentals of accounting systems design. Topics include business information systems, business processes and data flows, database concepts and tools, internal control and risks, auditing the information system, and using the information system to perform audit functions.
ACC 543 ................................................................................... 3 credits
Managerial Accounting & Legal Aspects of Business
In this course, students examine managerial accounting as part of the business’s accounting information system and legal aspects of the business enterprise. Topics include managerial accounting and capital budgeting, cost analysis; management planning and control, negotiable instruments, secured transactions, debtor/creditor relationships, property and insurance, and legal aspects of employment and environment.
ACC 544 ................................................................................... 3 credits
Internal Control Systems
In this course, students gain a broad perspective of accounting and control that considers attainment of all goals of the organization, including those concerned with financial objectives. Topics include an overview of control, risk management, internal control systems, controls for current asset functions, controls for other accounting classifications, controls for information technology systems, and reporting on controls.
ACC 545 .......................................................... 3 credits

Financial Reporting

This course prepares students to address concepts of financial reporting for roles as CPAs. Students learn important criteria for calculating capital changes, applying concepts of fixed assets and cost determination, and preparing consolidated financial statements. Other topics include the professional responsibilities of CPAs, deferred taxes, cash flow statements, balance sheet preparation, restructuring of troubled debt, and the intricacies of comprehensive income.

ACC 546 .......................................................... 3 credits

Auditing

In this course, students focus on the auditing practice performed by public accountants. Topics include the CPA profession and the auditor’s role, planning the audit, audit reporting and required communications, evaluating internal controls, audit programs for current assets and liabilities, and audit programs for other business cycles.

ACC 547 .......................................................... 3 credits

Taxation

In this course, students develop an understanding of the taxation of business entities and the individuals who own those entities. Topics include tax entities, property transactions, calculating basis, gains and losses, alternative minimum tax, S-corporations and partnerships.

ACC 548 .......................................................... 3 credits

Not-for-Profit & Government Accounting

In this course, students receive an overview of the budgeting, accounting, financial reporting, and auditing required of government and not-for-profit organizations. Topics include the governmental accounting, accounting records in government, fund allocation, government-wide reporting, not-for-profit accounting, and governmental performance measures.

ACC 556 .......................................................... 3 credits

Forensic Accounting

In this course, students are introduced to the conduct of fraud examinations, including a discussion of specific procedures used in forensic accounting examinations and the reasoning behind these procedures. Topics include an overview of fraud and abuse, forensic evidence, substantive procedures for cash outflow irregularities, substantive procedures for asset irregularities, financial statement fraud, and examination reporting.

ACC 557 .......................................................... 3 credits

Accounting Ethics

In this course, students focus on core values of the accounting profession such as ethical reasoning, integrity, objectivity, and independence. Topics include economics, price and consumer behavior, business and accounting issues, ethics and information technology, and professional standards.

Course Descriptions for the Energy Management Concentration

EM 555 .......................................................... 3 credits

Energy Sector Management

This course integrates energy technology and management opportunities in the energy sector. Students will apply knowledge of the energy sector value change to identify a business opportunity. Other topics include renewable and non-renewable energy sources, science of energy, communications, energy sector terminology, corporate social responsibility, ethics, and negotiation.

EM 565 .......................................................... 3 credits

Financial Management in the Energy Sector

This course applies corporate finance concepts to make management decisions in the energy sector. Students analyze the financial merit of opportunities in renewable and non-renewable energy sources. Other topics include cash flows, business valuation, working capital, capital budgets, government sources, long-term financing, risk analysis and management, and financial planning.

EM 575 .......................................................... 3 credits

Energy Economics

This course applies economic concepts to make management decisions in the energy sector. Students apply concepts of supply and demand to create an economic model of a sub sector of the energy industry. Other topics include scarce resources, opportunity costs, profit maximization, market structure, macroeconomic measurement, money, trade, foreign exchange, regulatory issues, and economic analysis.

EM 585 .......................................................... 3 credits

Marketing Energy

This course prepares students to apply marketing concepts to affect public perception of energy alternatives. Students learn to solve marketing problems in a collaborative environment. Topics include market research, customer relationships, branding, market segmentation, product development, pricing, channels, communication, public relations and policy formulation.

EM 595 .......................................................... 3 credits

Strategic Planning and Implementation for the Energy Sector

This capstone course integrates concepts from all prior courses in the program and the energy management concentration. Students apply the concepts of strategic planning and implementation to create sustainable competitive advantage in an energy organization. Other topics include environmental scanning, strategic analysis, corporate social responsibility, implementation, evaluation, risk management, interdependent organizational relationships, technology adoption, and scenario planning.

Course Descriptions for the Global Management Concentration

GMGT 510 .......................................................... 3 credits

Global Business Organization and Culture

This course examines the cultural and organization framework within which global business is conducted. Topics include socio-cultural forces, cultural analysis, communication strategies, human resources investment and utilization, and managing across borders.

GMGT 520 .......................................................... 3 credits

External Environment of Global Business

This course explores issues and institutions that affect global business outside the direct control of the organization. Topics include country risk assessment, basis for trade and capital flows, exchange rate determination, international, national, and local organizations, regional integration, and conflict resolution of global trade disputes.

GMGT 530 .......................................................... 3 credits

Internal Environment of Global Business

This course examines issues and functions that global business faces within control of the organization. Topics include organization forms of entry and exit, legal issues, marketing, finance, human resources, and risk management.
GMGT 540 ................................................................. 3 credits
Global Strategy Formulation and Implementation
This course develops strategy for global implementation. Topics include the role of global strategy in the organization, the current state and strategy choices, strategy selection, implementation and control issues, portfolio management, and case analysis.

CAP GM591 ............................................................. 3 credits
Cases in Cross-Border Management
This content area capstone course applies management concepts to a global environment. Students learn to evaluate opportunities and challenges in world wide market places. Case studies will be utilized to synthesize concepts from prior global management coursework.

Course Descriptions for the Health Care Management Concentration

HCS 531 ............................................................................ 3 credits
Health Care Organizations and Delivery Systems
This course is a comprehensive approach to health care organizations and systems that provide the student with an in-depth understanding of health organizations. Topics include the evolution of health care delivery during a time of financial and regulatory stress, the impact of the evolving consumer movement, and managing efficient and effective organizational structures.

HCS 533 ............................................................................ 3 credits
Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 545 ............................................................................ 3 credits
Health Law and Ethics
Students explore and analyze current ethical issues such as biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 588 ............................................................................ 3 credits
Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.

HCS 586 ............................................................................ 3 credits
Health Care Strategic Management
This is the capstone course for the graduate health care programs. The development and presentation of health care organization’s strategic plan will demonstrate mastery of the critical content as the principles relate to the health care industry. Special emphasis is placed upon consumer demand, market volatility, regulatory and fiscal constraints from the perspective of strategic management. The learner will demonstrate understanding of the critical importance of strategic management and planning within the dynamic, complex, and evolving nature of the health care industry.

Course Descriptions for the Human Resource Management Concentration

HRM 546 ............................................................................. 3 credits
Human Resource Law
This course prepares human resource managers to comply with human resource laws and regulations across all jurisdictions. Students learn how to manage human resource functions within a regulatory environment. Other topics include laws and regulations related to the following: workforce planning and employment, human resource development activities, compensation and benefits, labor relations, and workplace safety.

HRM 558 ............................................................................. 3 credits
Research in Human Resource Management
This course applies research methods to human resource functions. Students learn to use quantitative analysis and secondary research to recruit and select employees to meet organizational goals. Other topics include forecasting, evaluation of selection tests, application of selection tests, interviewing techniques, techniques to assess training program effectiveness, job evaluation methods, and external labor market analysis.

HRM 548 ............................................................................. 3 credits
Recruitment and Retention Practices
This course prepares students to evaluate and develop a workforce to attain organizational goals. Students learn to develop total reward strategies that attract and retain the best employees. Other topics include recruitment strategies, workforce planning and assessment, relocation practices, right sizing, negotiation, employment policies, and global compensation practices.

HRM 552 ............................................................................. 3 credits
Organizational Training and Development
This course applies development and training concepts to enhance organizational performance. Students develop an employee engagement strategy. Other topics include training program development & delivery, employee relations, organizational development theories and applications, behavioral issues, and performance management.

HRM 554 ............................................................................. 3 credits
Occupational Health and Safety
This course applies health and safety principles to reduce hazards to a productive work environment. Students create a prevention program to promote occupational safety and health. Other topics include injury and illness compensation, safety risks, security risks, workplace violence, health and safety practices, emergency response plans, and issues related to substance abuse.
HRM 595 ..........................................................3 credits

Human Resource Capstone Course
This content area capstone course applies human resource concepts to improve organizational effectiveness within the framework of employment laws and regulations. Students apply existing professional standards and theories to human resource management. Other topics include the alignment of human resource strategy with the organization, global workforce planning, career and leadership development, and performance analysis and appraisal.

Course Descriptions for the Marketing Concentration

MKT 544 ..........................................................3 credits
Integrated Marketing Communications
This course prepares students to apply integrated marketing communications as part of a strategic marketing plan. Students evaluate how marketing communication tools build brand value. Topics include advertising, promotions, public relations, sales, and direct marketing.

MKT 554 ..........................................................3 credits
Consumer Behavior
This course prepares students to apply buyer behavior theories in the marketplace. Students evaluate how demographic, psychological, and socio-cultural issues contribute to buyer behavior. Topics include consumer preference, brand perception, attitude formation, persuasion, motivation, and consumer protection.

MKT 552 ..........................................................3 credits
Technology Applications and e-Marketing
This course prepares students to integrate technology in marketing functions. Students design the organization and content of a website to accomplish one or more marketing objectives. Topics include basics of the World Wide Web, bandwidth, servers and storage, e-Marketing, e-Commerce, and targeting customers.

MKT 562 ..........................................................3 credits
Advanced International Marketing
This course prepares students to develop and manage a marketing strategy in an international business environment. Students evaluate case studies of previous product launches and current research to create a launch strategy for a specific country. Topics include distribution systems, socio-cultural perspectives, business customs, product and service adaptations, and pricing issues.

MKT 593 ..........................................................3 credits
Product Design and Development
In this content area capstone course students design an innovative product or service that satisfies an unmet consumer need. Students use research methods to identify opportunities or new product features that reflect the latest market trends. Topics include market environmental analysis, marketing strategy, the marketing process, product development, ethics and social responsibility, innovation and diffusion, pricing strategy, and strategic marketing issues.

Course Descriptions for the Project Management Concentration

PM 571 ..........................................................3 credits
Project Management
This course integrates the five processes that define project management. Students will design a project management plan to accomplish an organizational objective. Other topics include project initiation, budgeting, communications, execution, team management, control, and closure.

PM 582 ..........................................................3 credits
Project Leadership
This course prepares students to lead a project to successful conclusion. Students will create a plan to lead change during project execution. Other topics include integrated change control, work breakdown structures, human resource planning, performance reporting, managing stakeholders, negotiation, conflict resolution, and cultural diversity.

PM 584 ..........................................................3 credits
Project Risk Management
This course applies risk management concepts to project execution. Students will create contingency plans for a project. Other topics include risk identification, qualitative analysis, quantitative analysis, response planning, monitoring & control, and proactive planning.

PM 586 ..........................................................3 credits
Project Quality Management
This course applies quality control techniques to project development and implementation. Students will create a continuous quality improvement plan for projects within an organization. Other topics include scheduling, quality planning, quality assurance, scope management, schedule control, and quality control.

PM 598 ..........................................................3 credits
Project Management Capstone
In this concentration capstone course, students will design a project to meet an organizational need. Students will collaboratively create a project plan using Microsoft® Project software. Other topics include Project Management Professional (PMP) certification preparation.
**Course Descriptions for the Technology Management Concentration**

**Communications for Managers of Technology**
This course prepares graduate students to apply communication principles to the roles they play as technology managers. Students learn how to effectively communicate technical issues to non-technical stakeholders in a business environment. Other topics include the role of perception in communication, techniques to enhance group communication, aligning communication to an audience, cross-border communications, and ethics in organizational communications.

PM 571 ................................................................. 3 credits

**Project Management**
This course integrates the five processes that define project management. Students will design a project management plan to accomplish an organizational objective. Other topics include project initiation, budgeting, communications, execution, team management, control, and closure.

TMGT 540 .............................................................. 3 credits

**Management of R&D and Innovation Processes**
This course explores the role of research and development (R&D) as a means to provide future survival and growth for the organization as the lifecycle of existing products and/or services matures to obsolescence. Also introduced are techniques used to stimulate and manage innovation in the workplace.

TMGT 550 .............................................................. 3 credits

**Technology Transfer in the Global Economy**
This course introduces the student to the concept of multinational enterprises and the role of technology in the strategic management of these enterprises. This course focuses on opportunities to utilize technology transfer within global business to meet the goals of the strategic plan.

TMGT 590 .............................................................. 3 credits

**Applications of Technology Management**
This is an integrative course and the capstone for the MBA/TM program. The outcome is to apply a range of skills from the individual courses in the technology management program to develop a technology product or infrastructure in an organization.

---

**Master of Public Administration**

The following Master of Public Administration (MPA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Public Administration (MPA) program develops the managerial skills necessary to manage in the public sector. This program focuses on an entrepreneurial approach to issues and opportunities at the state and local government levels. The curriculum is based on current standards set forth by the National Association of Schools of Public Affairs and Administration. In addition to the University of Phoenix learning goals, the MPA program prepares students to:

- Demonstrate an understanding of strategic policy planning and implementation in a political environment.
- Demonstrate an understanding of innovative public sector leadership competencies in public organizations.
- Demonstrate an understanding of public/private sector partnerships in inter-governmental relationships.
- Comprehend the application of a significant amount of knowledge within the domains of Public Administration - Institutions and Processes, Communications for Public Administrators, Human Capital Development in the Public Sector, Program Evaluation, Law and Public Administration, Data Analysis for Public Policy and Management, Leveraging Technology in the Public Sector, Public Budgeting, Leading Organizational Development in the Public Sector, Public Finance, Public Policy Planning and Implementation, and Public Administration Applied Project.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mpa.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MPA
All applicants are expected to meet the following admissions requirements:
- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MPA
The degree requirements for this program are the following:
- A minimum of 36 graduate credits.
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read:
  Master of Public Administration

Residency Requirements and Course Waivers for the MPA
Completion of a minimum of 27 credit of the required course of study to meet University residency requirements.
Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:
- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Public Administration Applied Project (MGT 582) may not be waived.

Course Descriptions for the MPA
MGT 522................................................................. 3 credits
Public Administration - Institutions and Processes
This course applies the tools available to UPX graduate students and the competencies of successful managers to understand the functions of public administration. Students will distinguish the dichotomy between the political system and public administration in the creation and implementation of public policy. Other topics, at the state and local level, include executive & legislative branches of government, the evolution of public administration, intergovernmental relationships, and fiscal sources & uses.
MGT 572................................................................. 3 credits
Public Policy Planning and Implementation
This course prepares students to trace the development of a public policy. For a selected policy, students will analyze the policy making process and the challenges that accompany each stage. Other topics, at the state and local level, include public policy planning, policy evaluation, and stakeholder conflicts.
MGT 582................................................................. 3 credits
Public Administration Applied Project
This capstone course prepares students to improve existing policies. Students will evaluate existing policy and recommend improvements and recommend changes to improve efficiency and effectiveness. Other topics, at the state and local level, include policy creation, policy evaluation, and nontraditional/innovative solutions in the public sector.
MGT TM562........................................................ 3 credits
Leveraging Technology in the Public Sector
This course prepares students to leverage technology in support of effective and efficient administration of government. Students will apply technology concepts to enhance self-service tools for citizens while providing data security and respecting privacy concerns. Other topics, at the state and local level, include mobility, database interconnectivity, Internet, intranet & extranet, and data maintenance & retrieval.
RES 562................................................................. 3 credits
Policy and Program Evaluation
This course prepares students to apply techniques to evaluate public sector programs. Students will evaluate policy alternatives using analytical tools. Other topics, at the state and local level, include measures of effectiveness, benchmarks, baselines, performance standards, and customized stakeholder communication.
QNT 562 .......................................................... 3 credits
Data Analysis for Public Policy and Management
This course prepares students to analyze information and present it appropriately to diverse stakeholder groups. Students will design research instruments and collect data to measure and analyze effectiveness and efficiency in the delivery of public sector goods and services. Other topics, at the state and local level, include pre-testing, post testing, correlation, and forecasting.

HRM 532 .......................................................... 3 credits
Human Capital Development in the Public Sector
This course prepares students to apply human capital development concepts in a public sector. Students will create plans for managing human capital in an environment of political appointment. Other topics, at the state and local level, include recruitment, development & retention of employees, motivation, performance evaluation, employee/employer relationship, personnel policies & politics, and public service ethic.

LDR 532 .......................................................... 3 credits
Leading Organizational Development in the Public Sector
This course prepares students to lead change in the public sector. Students will apply leadership theories in the bureaucratic public sector considering the unique role of power and politics. Other topics, at the state and local level, include culture in the public sector, group behavior, financial and nonfinancial motivation, and workplace conflict.

LAW 562 .......................................................... 3 credits
Law and Public Administration
This course prepares students to apply legal concepts in public administration. Students will analyze legislative and judicial processes in the administration of state and local governments. Other topics, at the state and local level, include enabling laws, regulatory review, open-meeting/sunshine provisions, adjudication, and the Administrative Procedures Act.

ACC 574 .......................................................... 3 credits
Public Budgeting
In this course students learn the accounting and budgeting tools and theories used in the public sector. Students will analyze the relationship between public policy and the public budget process. Other topics, at the state and local level, include budgetary decision making, basics of government and not-for-profit accounting, reporting, capital and operating expenditures, and inter-period equity.

ECO 572 .......................................................... 3 credits
Public Finance
This course prepares students to apply the principles of economics to the public sector. Students will create a plan for a public-private partnership to deliver a public good or service. Other topics, at the state and local level, include microeconomics in the public sector, basic macroeconomic variables, monetary policy, income redistribution, multilevel government financing, bond issuance, role of nonprofits, and tax efficiency, equity, and incidence.

COM PA530 .......................................................... 3 credits
Communications for Public Administrators
This course prepares students to communicate with multiple stakeholders and public media. Students will apply communication concepts to create messages that are sensitive to the opinions and positions of disparate groups. Other topics, at the state and local level, include uniqueness of public sector communications, public involvement, and internal & external communications.

Master of Management
The following Master of Management (MM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Management degree program promotes the development of management competencies through the practical application of theory, business and management diagnostics, and the formulation of creative management and consulting solutions. Students will acquire a wide range of tools, concepts and methodologies to design, conduct, and follow through on successful consulting practices. In addition, students will be able to actively develop their interpersonal and business-related management skills in order to foster leadership, creative thinking, collegiality, and teamwork ability in an international context. The Master of Management will provide students with first-hand knowledge of the tools and techniques used by successful consultants in the competitive management consulting industry.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mm.

gram: MGT 527, MGT 598

The School of Advanced Studies offers a bridge opportunity for 
master's degree students who are interested in taking doctoral 
courses. In the bridge program, a master's degree student would be 
allowed to substitute up to two graduate level courses with doc-
toral level courses. Students who choose this option would then 
be eligible to waive these courses in the doctoral program since they 
were already taken in the master's degree program.

All credit-bearing doctoral courses must be completed with a grade of "B-
" or better. Students who earn a grade lower than a "B-" will not receive 
credit for the course and will not be able to use the bridge course to waive 
credits upon enrollment in a doctoral program

Course Descriptions for the MM

MKT 527 ................................................................. 3 credits
Consulting

This course applies the tools available to University of Phoenix 
graduate students and the competencies of successful individuals 
who exercise influence within an organization but have no direct 
authority to make changes or implement programs. Students learn 
their own perceptions and values to communicate more effectively 
with others. Other topics include Master of Management program 
goals, argument construction, decision making, collaboration, and 
academic research.

COM 537 ................................................................. 3 credits
Organizational Communications

This course prepares graduate students to apply written and oral 
communication principles to the roles they play as managers. Stu-
dents will learn how to persuade a variety of stakeholders to com-
mit to a proposal. Other topics include the role of perception in 
communication, techniques, aligning communication to an audi-
ence, business justifications, presenting data, and ethics in organi-
izational communications.

LDR 535 ................................................................. 3 credits
Leading Change

This course applies leadership concepts to create organizational 
change. Students will create a plan to lead an organizational 
change in which they have no direct authority over necessary deci-
sions. Other topics include leadership theories, organizational the-
ory, levels of organizational change, and transformation leadership
MGT 538 ................................................................. 3 credits
Managing in a Cross-cultural Environment
This course prepares students to persuade decision makers across global dimensions of culture. Students will create a training plan for enhancing cultural awareness and tolerance within a cross-border organization. Other topics include cross-cultural communication, differences in decision making, values, motivation, and leadership.

MGT 557 ................................................................. 3 credits
Negotiation, Power, and Politics
This course prepares students to achieve organizational objectives through formal and informal channels. Students will create a plan to achieve a goal by applying negotiation skills within the formal and informal structures of an organization. Other topics include coalitions, types of power, liaison roles, and persuasion.

QNT 565 ................................................................. 3 credits
Research Methods, Design and Analysis
This course applies research and probability concepts to project management decisions. Students will evaluate feasibility, manage risk, and measure outcomes for a project. Other topics include measures of central tendency & dispersion, program evaluation, research design, data sampling, and analysis & presentation.

MGT 567 ................................................................. 3 credits
Ethics and Social Responsibility
This course prepares students to align an organization’s social responsibility initiatives with its values. Students will create a proposal for an organization that aligns corporate social initiatives with its values. Other topics include ethics, values awareness, and evaluating the results of social initiatives.

LAW 575 ................................................................. 3 credits
Business Law for Consultants
This course prepares students to evaluate the legal risks associated with business consulting. Students will create proposals to manage an individual’s legal exposure when performing consulting work. Other topics include the legal system, alternative dispute resolution, enterprise liability, international law, business risks, intellectual property, legal forms of business, and governance.

PM 586 ................................................................. 3 credits
Project Quality Management
This course applies quality control techniques to project development and implementation. Students will create a continuous quality improvement plan for projects within an organization. Other topics include scheduling, quality planning, quality assurance, scope management, schedule control, and quality control.

FIN 575 ................................................................. 3 credits
Project Budget and Finance
This course applies finance concepts to evaluate and manage projects. Students will prepare a plan to obtain funding and manage a project budget. Other topics include return on investment, cost classification, debt and equity financing, and project cash flows.

MKT 575 ................................................................. 3 credits
Marketing Strategy
This course prepares students to evaluate marketing and strategic choices of an organization. Students will analyze a series of case studies to recommend changes needed to achieve organizational marketing goals and strategy. Other topics include generic & grand strategies, strategic analysis, competitive advantage, consumer behavior, and branding.

MKT 578 ................................................................. 3 credits
Public Relations
This course prepares students to evaluate the use of public relations in meeting organizational objectives. Students will create a response to a given public relations challenge. Other topics include media relations; promotion; public relations tools, publicity, and ethics.

ORG 581 ................................................................. 3 credits
Organizational Design
This course prepares students to design organizations that adapt to environmental changes through innovation. Students will prepare a plan to incorporate innovation into organizational design to align an organization with a change in strategy. Other topics include the learning organization, authority & control, specialization & coordination, entrepreneurship, and lateral organizations.

MGT 598 ................................................................. 3 credits
Consulting Project
This course applies student understanding of organizations and project management to the development of a consulting project. The course requires students to synthesize and integrate theory and practice from all prior courses in the program.
Master of Science in Accountancy

The following Master of Science in Accountancy (MSA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science in Accountancy (MSA) is a professional program that prepares students to sit for the Certified Public Accountant (CPA) national examination and to demonstrate proficiency in the major areas of accounting. The MSA is designed for working professionals who already have a baccalaureate degree or a business degree and for students who are seeking to earn the CPA designation. The MSA consists of 36 credit hours. Thirty credit hours constitute the core curriculum which covers the following areas of accounting: accounting theory and research, accounting information systems, managerial accounting and legal aspects of business, internal control systems, financial reporting, auditing, taxation, not-for-profit and government accounting, and accounting ethics. The core courses were designed based upon the standards proposed by the National Association of State Boards of Accountancy (NASBA). Additionally, six credit hours make up the financial accounting and communication proficiency courses. The proficiency courses are required for students who have not completed previous coursework in financial accounting or communications.

This program addresses the goals of the American Institute of Certified Public Accountants (AICPA) Vision Project for the professional values, communications and leadership skills, strategic and critical thinking skills, and technology skills (The American Institute of Certified Public Accountants, 2007). In addition, the program meets the University of Phoenix learning goal of collaboration. A key feature of this program is the utilization of the CPA Test Prep software, which is integrated throughout the core program.

Note: Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student’s specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine if this program, combined with their undergraduate degree and any other specific criteria, meets the requirements to qualify for examination in that specific jurisdiction. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction’s requirements will be consistent with the requirements at the time of admission.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/msa.

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSA

- An undergraduate degree from a nationally accredited institution, or candidate for accreditation, college or university, an ABA accredited institution (if coursework was from a graduate level program) or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

Degree Requirements for the MSA

The degree requirements for this program are the following:

- A minimum of 36 graduate credits.
- A minimum program grade point average (GPA) of 3.0.

Academic Progression Requirements for the MSA

The competency course, ACC 537, must be satisfied prior to progressing into the MSA Core (ACC 541, ACC 542, ACC 543, ACC 544, ACC 545, ACC 546, ACC 548, ACC 556, ACC 557). The MSA competency course may be satisfied in the following ways:

- Successful completion of the University of Phoenix course, ACC 537.
• Successful completion of appropriate levels of undergraduate or graduate coursework from a regionally or approved nationally accredited, or candidate for accreditation, college or university or equivalent undergraduate degree earned at a recognized foreign institution no more than 10 years prior to enrolling at the University. For ACC 537, the appropriate level is six semester hours at the upper division or three semester hours at the graduate level in financial accounting.

Residency Requirements for the MSA
The University requires completion of a minimum of 21 graduate level credits at the University to meet residency requirements.

Course Competencies and Course Waivers for the MSA
Eligible students may satisfy the 2 competency courses (ACC 537, COM 530) using one of the following methods:
Six semester credits of upper-division undergraduate coursework or three semester credits of graduate coursework in financial accounting that meets the following requirements will satisfy ACC 537:
• The coursework must have been completed at a regionally or approved nationally accredited, foreign equivalency, or candidate for accreditation, college or university,
• The coursework must have been completed with a C- or better, within the past ten (10) years from current program enrollment agreement sign date
• A Competency Waiver Request Form must be submitted listing six semester credits of upper division undergraduate coursework or three semester credits of graduate coursework and the competency courses requested to be satisfied as some students may wish to complete one or more of the competency courses to improve their ability to succeed in the MSA Program.
Six semester credits of upper-division undergraduate coursework or three semester credits of graduate coursework in communications that meets the following requirements will satisfy COM 530:
• The coursework must have been completed at a regionally or approved nationally accredited, foreign equivalency, or candidate for accreditation, college or university,
• The coursework must have been completed with a C- or better, within the past ten (10) years from current program enrollment agreement sign date
• A Competency Waiver Request Form must be submitted listing six semester credits of upper division undergraduate coursework or three semester credits of graduate coursework and the competency courses requested to be satisfied as some students may wish to complete one or more of the competency courses to improve their ability to succeed in the MSA Program.
In addition to satisfying the competency courses using one of the approved methods, students may also waive a maximum of nine (9) credits in the MSA Core on the basis of prior graduate-level college coursework. The competency waivers do not apply toward the 9 credits waiver maximum.
In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following course in the Required Course of Study may not be waived: ACC 541

Course Descriptions for the MSA

ACC 537 ................................................................................... 3 credits
Financial Accounting
In this course, students are introduced to the basic concepts and methods used in corporate financial statements for information of investors and other interested external parties. Topics include University of Phoenix tools, basic accounting concepts, financial statements, inventory and fixed assets, present value of bonds and stockholders’ equity, statement of cash flows, and error correction and accounting changes.
ACC 541 .................................................................................. 3 credits

COM 530.................................................................................. 3 credits
Communications for Accountants
In this course, students examine principles and practices of group communication in the context of the organization. Topics include an overview of group communication, culture and conflict, group formation, influence in organizational communication, organizational change, formal communications, and public communications.
ACC 537 ................................................................................... 3 credits

ACC 542 .................................................................................. 3 credits

ACCOUNTING INFORMATION SYSTEMS

ACC 543 .................................................................................. 3 credits
Managerial Accounting & Legal Aspects of Business
In this course, students examine managerial accounting as part of the business’s accounting information system and legal aspects of the business enterprise. Topics include managerial accounting and capital budgeting, cost analysis; management planning and control, negotiable instruments, secured transactions, debtor/creditor relationships, property and insurance, and legal aspects of employment and environment.
ACC 544 ................................................................. 3 credits

**Internal Control Systems**

In this course, students gain a broad perspective of accounting and control that considers attainment of all goals of the organization, including those concerned with financial objectives. Topics include an overview of control, risk management, internal control systems, controls for current asset functions, controls for other accounting classifications, controls for information technology systems, and reporting on controls.

ACC 545 .................................................................................. 3 credits

**Financial Reporting**

This course prepares students to address concepts of financial reporting for roles as CPAs. Students learn important criteria for calculating capital changes, applying concepts of fixed assets and cost determination, and preparing consolidated financial statements. Other topics include the professional responsibilities of CPAs, deferred taxes, cash flow statements, balance sheet preparation, restructuring of troubled debt, and the intricacies of comprehensive income.

ACC 546 .................................................................................. 3 credits

**Auditing**

In this course, students focus on the auditing practice performed by public accountants. Topics include the CPA profession and the auditor’s role, planning the audit, audit reporting and required communications, evaluating internal controls, audit programs for current assets and liabilities, and audit programs for other business cycles.

ACC 547 .................................................................................. 3 credits

**Taxation**

In this course, students develop an understanding of the taxation of business entities and the individuals who own those entities. Topics include tax entities, property transactions, calculating basis, gains and losses, alternative minimum tax, S-corporations and partnerships.

ACC 548 ................................................................. 3 credits

**Not-for-Profit & Government Accounting**

In this course, students receive an overview of the budgeting, accounting, financial reporting, and auditing required of government and not-for-profit organizations. Topics include the governmental accounting, accounting records in government, fund allocation, government-wide reporting, not-for-profit accounting, and governmental performance measures.

ACC 556 .................................................................................. 3 credits

**Forensic Accounting**

In this course, students are introduced to the conduct of fraud examinations, including a discussion of specific procedures used in forensic accounting examinations and the reasoning behind these procedures. Topics include an overview of fraud and abuse, forensic evidence, substantive procedures for cash outflow irregularities, substantive procedures for asset irregularities, financial statement fraud, and examination reporting.

ACC 557 .................................................................................. 3 credits

**Accounting Ethics**

In this course, students focus on core values of the accounting profession such as ethical reasoning, integrity, objectivity, and independence. Topics include economics, price and consumer behavior, business and accounting issues, ethics and information technology, and professional standards.
COLLEGE OF INFORMATION SYSTEMS AND TECHNOLOGY

The College of Information Systems and Technology Programs offers the Master of Information Systems (MIS) degree.

**Master of Information Systems**

The following Master of Information Systems (MIS) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Information Systems (MIS) program provides the knowledge to successfully apply information systems theory and principles to address real world business opportunities and challenges to meet the needs of today’s information economy. Under the guidance of practitioner faculty, the graduate student will use innovative digital materials to understand the development and management of business systems within the organization, to understand and apply the principles of systems analysis and design, to analyze and evaluate emerging information technologies, and to create project, risk, and information systems strategic plans.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/mis.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

**MIS Required Course of Study**

- CMGT 530 ~ ................................................................. 3 credits
- IT Organizational Behavior
- CSS 562 ~ ..................................................................... 3 credits
- Programming Concepts
- CIS 568 ~ ..................................................................... 3 credits
- Information Systems Concepts
- BSA 500 ~ ..................................................................... 3 credits
- Business Systems I
- BSA 502 ~ ................................................................. 3 credits
- Business Systems II
- CMGT 554 ~ ................................................................. 3 credits
- IT Infrastructure
- CMGT 555 ~ ................................................................. 3 credits
- Systems Analysis & Development
- CMGT 556 ~ ................................................................. 3 credits
- Enterprise Models
- CMGT 557 ~ ................................................................. 3 credits
- Emerging Technologies & Issues
- DBM 502 ~ ................................................................. 3 credits
- Database Management
- CMGT 575 ~ ................................................................. 3 credits

- CIS Strategic Planning
- CMGT 582 ~ .................................................................... 3 credits
- Security & Ethics
- CMGT 583 ~ .................................................................... 3 credits
- IS Integration

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for the MIS**

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution a graduate degree from or an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of full-time, post-high school work or volunteer experience with exposure to organizational systems and management processes is required.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

**Degree Requirements for the MIS**

The degree requirements for this program are the following:

- Completion of a minimum of 42 credits of the required course of study to meet University residency requirements.
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as follows: Master of Information Systems

**Residency Requirements and Course Waivers for the MIS**

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 27 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 15 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to waive a course in the major course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students may satisfy CIS 568 Information Systems Concepts and CSS 562 Programming Concepts in the following ways:
• Successful completion of CIS 568 Information Systems Concepts and CSS 562 Programming Concepts
• Comparable undergraduate or graduate level coursework completed at University of Phoenix.
• Comparable undergraduate or graduate coursework completed within the past five (5) years at a regionally or nationally approved accredited college or university with a grade of C- or better. A Waiver form must be filled out by the student’s Academic Representative indicating the prior coursework being used to satisfy these courses.

The following courses in the required course of study may not be waived: CMGT 530, CMGT 583.

Course Descriptions for the MIS

CMGT 530 .................................................................3 credits

IT Organizational Behavior
This course provides strategies for academic success within the University of Phoenix and addresses managerial communication and ethics. Topics include Professional Competence and Values, Critical Thinking and Problem Solving, Communication, Collaboration and Information Utilization.

CSS 562 .................................................................3 credits

Programming Concepts
This course provides the conceptual foundation to develop computer software programs. Topics include program development processes, flowcharting, basic design, program structure (methods and events), Boolean logic, looping, recursion, lists and arrays.

CIS 568 .................................................................3 credits

Information Systems Concepts
This course focuses on the role of the manager as a user and manager of information. Topics include the analysis & design of information systems. The analysis and design of information systems are covered from the operational, tactical, and strategic perspectives with a focus on identifying specific tools and techniques.

BSA 500 .................................................................3 credits

Business Systems I
This course introduces business systems. The course first reviews the basics of the business environment and influences on that environment. Then accounting and finance business systems are reviewed.

BSA 502 .................................................................3 credits

Business Systems II
This course reviews the following business systems: marketing, sales, human resources, operations and legal. Emphasis is placed upon the inputs and outputs of information systems and the potential for integration of the systems.

CMGT 554 .................................................................3 credits

IT Infrastructure
This course focuses on the managerial level of knowledge and terminology for telecommunications and computer networks. This course covers the concepts and application of the internet; server and storage architectures; and regulatory considerations.

CMGT 555 .................................................................3 credits

System Analysis & Development
This course provides a solid background in analysis and design techniques for business system and application software development. Although System Development Life Cycle (SDLC) is fundamental to the course, other methodologies and tools are examined from a managerial perspective.

CMGT 556 .................................................................3 credits

Enterprise Models
This course provides a process view of the organization from several perspectives including enterprise resource planning (ERP), supply chain management (SCM), and customer relationship management (CRM) system.

CMGT 557 .................................................................3 credits

Emerging Technologies & Issues
This course examines how to identify emerging technology, the related issues and their potential impact on the organization. This examination provides an understanding of both the technical and managerial issues including the strategic implications associated with emerging technologies.

DBM 502 .................................................................3 credits

Database Management
The course focuses on database management systems from a managerial perspective. Emphasis is placed on developing a strategy for managing and organizing corporate data, including data warehousing, to support the business activities of the organization. The course uses Microsoft Access and simulations of Oracle software.

CMGT 575 .................................................................3 credits

CIS Project Management
This course will provide both theory and application of the skills required for project management. Topics covered with include: identifying deliverables, determining work breakdown structure, estimating resource and cost requirements, resource management, scheduling techniques, schedule control methods, pert and gantt charts. Ms project, a project management application, will be used extensively at this course.

CMGT 578 .................................................................3 credits

CIS Strategic Planning
This course provides the knowledge and skills to develop effective short, intermediate and long-range strategic information technology plans. Course topics include the need for and responsibilities of an Information Technology Steering Committee, the relationship of information systems planning to the overall organizational mission, goals and assessment of the organization’s current state, determination of information technology, project and management requirements, and the means of prioritizing and selecting information technology projects.
CMGT 582 ................................................................. 3 credits
Security & Ethics
The ethical issues examined in the course will include information privacy, accessibility, and ownership from an organizational perspective. Information laws, regulations and compliance requirements will be examined in this course as well as the considerations for creating a safe digital environment within the organization.
CMGT 583 ................................................................. 3 credits
IS Integration
This course will focus on the integration of the IS function and the information technology architecture within the enterprise. The alignment of IT with the strategy of the organization will be examined considering the decisions related to information technology architecture.

CIS 568 ................................................................. 3 credits
Information Systems Concepts
This course focuses on the role of the manager as a user and manager of information. Topics include the analysis & design of information systems. The analysis and design of information systems are covered from the operational, tactical, and strategic perspectives with a focus on identifying specific tools and techniques.

CSS 562 ................................................................. 3 credits
Programming Concepts
This course provides the conceptual foundation to develop computer software programs. Topics include program development processes, flowcharting, basic design, program structure (methods and events), Boolean logic, looping, recursion, lists and arrays.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
The College of Nursing was established to respond to the educational needs of registered nurses and health care professionals. The College offers working nurses and health care professionals opportunities to participate in degree programs developed to broaden their professional horizons. These programs are designed specifically for nurses and health care professionals who desire a repertoire of skills and knowledge necessary to respond effectively to today’s dynamic health care environment. They also equip students with essential skills necessary to assume a leadership role in resolving the challenges being faced by health care organizations and personnel.

Each program has a blend of theory and practice which fosters a learning environment that allows students to build their knowledge base and to effectively and creatively apply what they have learned.

The MSN Programs are developed for nurses who want to ground their professional nursing decisions and actions with appropriate nursing theories, research principles, and practices. The MSN curriculum builds on baccalaureate education through the development of advanced practice roles of caregiver, teacher, and manager of care. In addition, there is a MSN/FNP Program and FNP Post-Masters Certificate available at selected University of Phoenix campuses.

The MSN/MHA and MSN/MBA/HC Dual Degree Programs allow nurses to blend advanced nursing concepts with business and management skills need in health care today.

**International Nursing Honor Society**

The vision of Sigma Theta Tau is to create a global community of nurses who lead in using scholarships, knowledge, and technology to improve health of the world’s people. The society provides support for the professional development of members who strive to improve nursing care worldwide.

Omicron Delta is the Sigma Theta Tau chapter of the University of Phoenix, College of Nursing. Membership to Sigma Theta Tau is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship, and to nurse leaders who demonstrate exceptional achievement in nursing.

The undergraduate student must have at least a 3.0 grade point average on a 4.0 scale, be in the upper 35 percent of his/her graduating class, and have completed at least one-half of the nursing curriculum to qualify for membership and meet the expectation of academic integrity.

The graduate student must have at least a 3.5 grade point average on a 4.0 scale and have completed at least one-half of the nursing curriculum to qualify for membership.

More than 300,000 nurse scholars have been inducted into Sigma Theta Tau. With 120,000 active members, it is the second-largest and one of the most prestigious nursing organizations in the world. The society’s members are active in more than 90 countries and territories, and the 424 chapter honor societies are located on more than 523 college and university campuses in United States, Australia, Brazil, Canada, Hong Kong, the Netherlands, Pakistan, South Korea, and Taiwan.

Omicron Delta has close to 5,000 members worldwide. The chapter was originally chartered in 1996 and has grown to be one of the largest chapters in the international organization. To learn more about Omicron Delta visit the Web site http://www.omicron-delta.net.

**Academic Progression Requirements for all Current Nursing Programs**

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 10 panel, plus alcohol drug test.

- For purposes of this policy, the following definitions apply:
  - Drug testing means the scientific analysis of urine, blood, breath, saliva, hair, tissue, and other specimens from the human body for the purpose of detecting the use of drugs or alcohol.
  - Reasonable suspicion means evidence which forms a reasonable basis for concluding that it is more likely than not that a person is impaired by alcohol or drugs or has engaged in substance abuse. Facts which could give rise to reasonable suspicion include, but are not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, difficulty in maintaining balance, marked changes in personality or job performance, and unexplained accidents, without reasonable justification. Such evidence may come from a professional or expert opinion, layperson opinion, scientific tests, or other sources or methods.
  - Illegal drug means any drug which is not legally obtainable; any drug which is legally obtainable but has not been legally obtained; any prescribed drug not legally obtained; any prescribed drug not being used for the prescribed purpose or by the person for whom it was prescribed; any over-the-counter drug being used at a dosage level other than that recommended by the manufacturer, or being used for a purpose other than the purpose intended by the manufacturer; and any drug being used for a purpose or by a person not in accordance with bona fide medical therapy. Examples of illegal drugs include, but are not limited to, stimulants; depressants; narcotic or hallucinogenic drugs; cannabis substances, such as marijuana and hashish; cocaine; heroin; methamphetamine; phencyclidine (PCP); and so-called designer drugs and look-alike drugs.
• Impaired means that a person's mental or physical capabilities are reduced below his or her normal levels without reasonable justification. An impaired student manifests deterioration in the level of function as compared to that previously observed, or the student does not function at a level normally expected under the prevailing circumstances. Impairment may exist in one or more multiple domains, including psychomotor activity and skills, conceptual or factual recall, integrative or synthetic thought processes, judgment, attentiveness, demeanor and attitudes as manifested in speech or actions. Impairment will include addiction to and/or physical dependence upon alcohol or illegal drugs.

• Substance abuse means:
  • the consumption, possession, or distribution of alcohol or illegal drugs by any nursing student while on University or affiliated clinical site premises or while participating in any University (or affiliated clinical site) sponsored or related activity, including any nursing-related course or clinical training activity.
  • a nursing student's use of alcohol or any drug in such a way that the student's performance in any nursing course, including activities at any clinical site, is impaired.

• Prior to being assigned to a clinical placement and as a prerequisite for placement at any agency or health care facility the nursing student shall sign an agreement:

  • to abide by the drug policies and drug testing policies of the University and each agency or health care facility in which a student is assigned as applicable,
  • to submit to any ‘for cause’ drug testing required by the University and testing required by each agency or health care facility the nursing student obtains clinical hours, and
  • to release a copy of any and all drug test results to the University of Phoenix, Dean/Associate Dean of Nursing, other appropriate University officials, and to any State Board(s) of Nursing in which the student holds a nursing license or certificate, where required by the relevant State Board(s) of Nursing.

Failure to sign such agreement is grounds for refusal for student admission and progression in the program.

• The College of Nursing requires students to obtain a 10 panel, plus alcohol drug test if the student's behavior in the clinical, classroom or laboratory setting creates facts that give rise to a reasonable suspicion of substance abuse, or indicates they are impaired by alcohol or drugs.

• If the results of the 10 panel, plus alcohol drug test is negative for alcohol or illegal drugs:
  • The student shall meet with their Campus College Chair, Director of Nursing, or NP Program Manager within 24 hours or by the first business day following the test results to discuss the circumstances surrounding suspected behavior.
  • The Campus College Chair, Director of Nursing, or NP Program Manager will counsel the student regarding return to the classroom and clinical agency. The preliminary investigation will cease and the student will be released from further action at that time.
  • The Campus College Chair, Director of Nursing, or NP Program Manager will arrange for the student to make up the missed clinical hours.

• If the results of the 10 panel, plus alcohol drug test is positive for alcohol or illegal drugs:

  • A full review by the Office of Dispute Management and Apollo Ethics and Compliance shall be conducted. Students who test positive for alcohol or illegal drugs will not be permitted to return to any clinical setting pending conclusion of the review. The findings may result in student dismissal from the nursing program and expulsion from the University.
  • The results of the positive test for alcohol or illegal drugs shall be reported to the applicable State Board(s) of Nursing, if required by the applicable State Board(s), by the Campus College Chair, Director of Nursing, or NP Program Manager.
  • If the results of the 10 panel, plus alcohol drug test(s) are positive for a prescribed drug(s) but not those that would be defined as illegal in the definitions above:
    • The student shall, within three (3) business days, obtain a written statement from their treating, licensed health care provider (MD, DO, HMD, ND/NMD, NP or PA) stating that:
      • the drug level is within prescribed limits.
      • the level does not indicate abuse.
      • the student's use of the drug as prescribed will not interfere with safe practice in the clinical area.

This statement must be provided to the Campus College Chair, Director of Nursing, or NP Program Manager. If the statement is approved, then the test result will be deemed acceptable and not failed for these purposes.

  • The failure of a student to provide the above statement or a health care provider's inability to provide a statement meeting the requirements above shall be treated as a positive test for an illegal drug.
  • Students who refuse to submit to a “for-cause” drug test will not be allowed to return to any clinical setting pending conclusion of a full review by the Office of Dispute Management and Apollo Ethics and Compliance. The findings may result in dismissal from the nursing program and expulsion from the University. The results of a positive test for illegal drugs as defined herein or a refusal to undergo a required drug test will be reported to the applicable State Board of Nursing where required by the applicable State Board(s) of Nursing’s statute(s) or regulation(s).

  • Students must also adhere to any other additional policies prescribed by the clinical agency. It is the sole responsibility of the student to read and acknowledge the requirements of the clinical health care facility in addition to University policy.
  • All costs associated with the drug test, including any transportation costs to or from the drug testing facility, will be the responsibility of the student.

• University of Phoenix, College of Nursing, campus officials may be required to report all failed drug tests to each State Board of Nursing in which the student holds a nursing license or certificate. Campus officials shall report test results to all applicable State Boards of Nursing as described in the applicable Board’s statutes and/or regulations.
Master of Science in Nursing

The following Master of Science in Nursing (MSN) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the online classroom at online rates if the program is available via the online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science in Nursing (MSN) program, accredited by the Commission on Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares nurses for advanced practice to function in leadership roles in practice and educational settings. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care.

Students complete core courses in advanced nursing content and process, as well as on leadership skills. Specializations assist students to concentrate on developing increased knowledge and/or skills in specific area of content or advanced practice role. Thirty-nine credits are required for completion of the degree.

The MSN program is 39 credits. The course sequence will be completed in the order determined by the University. The University reserves the right to modify and/or resequence the curriculum as necessary. All course work must be completed satisfactorily or be repeated. All courses in which an “F” was earned must be repeated.

*One DuPont Circle NW, Suite 530, Washington DC 20036-1120; (202) 887-6791.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/msn.

**Nursing Practicum/Clinical Hours for the MSN**

The Nursing Practicum allows students the opportunity to apply what they have learned in the program. Students develop learning objectives for the experience and, along with a faculty member and mentor, they achieve the objectives through approved student experiences at selected locations. There is a minimum 60 hours applied practicum clinical experience required. A minimum of 21 graduate credits must be completed before enrollment in the Practicum course. Clinical experiences may focus on leadership, education, or administration. The nursing practicum is intended to serve as a capstone experience that allows the student to integrate graduate level nursing course content to an area of nursing of interest to the student.

**Additional Admission Requirements for the MSN**

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.
- Current employment is not a requirement for admission.
• Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  • Guam
  • American Samoa
  • Northern Mariana Islands
  • US Virgin Islands

Annotation: Nurses with a Puerto Rico License must obtain US licensure for admission

• Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree: MSN-I. Students must sign a new Enrollment Agreement for the international version of the degree, and must maintain an active, unencumbered nursing license in the U.S. or its territories. Students must notify their campus representative within thirty (30) days after moving to a new location outside the US, update their profile to reflect the new international address, and must have a nursing license to practice nursing in the country where they are residing for the MSN practicum or internship.

Additional Academic Progression Requirements for the MSN
• Students enrolling in the MSN bridge program must complete the three MSN bridge courses NUR 403, NUR 443 and NUR 440 with a C or better prior to enrolling in NUR 513 Theoretical Foundations of Practice
• Students must start NUR 590B within 12 months of the completion date of NUR 590A. If the student does not meet that deadline, the student will be required to retake NUR 590A. Any extension request beyond this policy must be submitted to the Student Appeals Center (SAC) for approval.
• Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.

Minimum Grade Requirements for the MSN
• If students do not pass the bridge courses with a C or better, they will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MSN program.

Degree Requirements for the MSN
• Completion of a minimum of 39 credits (48 credits for the MSN bridge).
• A minimum program grade point average (GPA) of 3.0.
• Grades earned in MSN bridge courses are calculated in the MSN grade point average (GPA).
• The diploma awarded for these programs will read as follows: Master of Science in Nursing

Residency Requirements and Course Waivers for the MSN
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the required course of study, must be completed at University of Phoenix. Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to waive a course in the required course of study, the student must have completed a previous course which meets the following criteria:
• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better; and
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
• The following courses will not be waived from the degree program: HCS 504, NUR 598, NUR 590A/B
Course Descriptions for the MSN

HCS 504 ................................................................. 1 credit

Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University's adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 587 ................................................................. 3 credits

Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

HCS 571 ................................................................. 3 credits

Financial Resource Management
Processes of budget preparation, analysis, and monitoring are essential for analyzing the financial performance of an organization, service, or system. Concepts of financial accounting and reporting, as well as basic economic principles, are applied. Students use budgetary and economic concepts and principles for financial decision-making for a health care service or unit.

NUR 513 ................................................................. 3 credits

Theoretical Foundations of Practice
This course focuses on the critical components of contemporary nursing knowledge, including concepts, statements, metaparadigms, philosophies, conceptual models, and theories. Students evaluate the variety of ways to organize nursing knowledge and explore the implications of their application. Through the clinical application of the course content, students examine the use of theory and nursing knowledge in professional environments.

NUR 531 ................................................................. 3 credits

Influencing the Future of Nursing and Health Care
The role of advanced practice nurses in today's health care environment provides numerous opportunities and responsibilities. Nursing's potential for improving the health of individuals, families, groups, and communities is examined. Strategies for involvement in shaping health care policy are developed.

NUR 588 ................................................................. 3 credits

Developing and Evaluating Educational Programs
Identifying learning needs provides the foundation for designing health care educational programs for individuals, families, groups, or communities. Students select and develop teaching strategies and explore ways of monitoring and evaluating teaching methods and learner outcomes. Roles of educators in organizations, communities, and higher education settings are examined.

NUR 590A ............................................................ 1 credit

Nursing Practicum-A
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.

NUR 542 ................................................................ 2 credits

Dynamics of Family Systems
Family systems theories and models are used to understand the impact of nuclear families on professional and personal relationships, as well as on society. These theories and models are used as well to develop strategies for promoting and monitoring the health of families.

NUR 544 ................................................................ 3 credits

Population-Focused Health Care
Theories, principles, and strategies of population-based health care are used to design, implement, and evaluate services and plans of care to promote, maintain, and restore health in a defined population. Students focus on population aggregates in structured or unstructured settings across care environments. Strategies to evaluate health outcomes and costs of care are emphasized.

NUR 518 ................................................................. 3 credits

Analysis of Research Reports
Evidence-based practice relies upon analyzing the scientific merit of nursing research reports and integrating the results from valid studies into care. Published reports using quantitative and qualitative methods are examined to determine the validity of study findings and their readiness for implementation into practice. Ethics in research is also considered.

NUR 587 ................................................................. 3 credits

Leadership and Management in Nursing and Health Care
Ways of using leadership and management concepts, principles, theories, and models in advanced nursing practice and executive roles are explored. Skills that facilitate collaborative relationships and decisions consistent with stewardship of resources are examined. Students articulate a personal vision of leadership and ways of providing direction within today's complex health care system.

NUR 590B ........................................................... 2 credits

Nursing Practicum-B
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.

NUR 598 ................................................................. 3 credits

Research Utilization Project
This is a graduate research course that focuses on the use of a body of nursing knowledge and scientific knowledge in the nursing practice setting. Students develop a proposal to address a problem or concern in the nursing practice, propose a evidence-based solution, develop an implementation and evaluation plan, and describe implementation strategies for the proposed solution.

HCS 578 ................................................................ 3 credits

Ethical, Legal, and Regulatory Issues in Health Care
Ethical principles and decision making models are used to address and understand complex health care issues. Legal concepts and regulatory agency and other public policies influence the direction and financing of health care.
HCS 588 ...........................................................................3 credits

Measuring Performance Standards
Quality improvement initiatives rely upon data from monitoring program implementation and evaluating program outcomes to determine achievement of program objectives. The processes of developing and revising monitoring and outcome measures are used to help determine progress toward meeting accreditation and regulatory standards.
NUR 403 ...........................................................................3 credits

Theories and Models of Nursing Practice
This course is designed to focus baccalaureate students on the behaviors, attitudes, and values necessary for theory-based professional nursing practice. Concepts of professional nursing are presented within the unifying framework of Jean Watson’s Theory of Human Caring.
NUR 443 ...........................................................................3 credits

Evidence-Based Nursing Research and Practice
This course will focus on current review of nursing research literature and research utilization through evidence-based practice. Three areas of research competencies will be examined which include interpreting and using research in nursing practice, evaluating research, and conducting research.
NUR 440 ...........................................................................3 credits

Health Assessment and Promotion for Vulnerable Population
This course is designed to assist professional nurses in developing interviewing skills, refinement of physical assessment techniques, and preventative health interventions when working with diverse and vulnerable populations. The importance of therapeutic communication in performing a health assessment is emphasized.
HCS 588 ...........................................................................3 credits

Master of Science in Nursing/Specialization in Nursing/Health Care Education
The following Master of Science in Nursing/Specialization in Nursing/Healthcare Education (MSN/ED) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science in Nursing (MSN) program, accredited by the Commission of Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares advanced practice nurses to function in leadership roles in practice and educational settings. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care.

Students complete core courses in advanced nursing content and process, as well as on leadership skills. Specializations assist students to concentrate on developing increased knowledge and/or skills in a specific area of content or advanced practice role. Forty-two credits are required for completion of the degree.

This course series is designed for nursing and health care professionals interested in pursuing or advancing in careers as faculty in higher educational settings. Those with no background in higher education receive a strong foundation for the many dimensions of the faculty role. Current educators can update or expand their knowledge in curriculum development, assessment and evaluation, and instructional strategies.

This credit-bearing specialization is also available as a certificate program for post-baccalaureate students. The four courses in the education specialization/certificate program are available at campuses offering nursing or health care degree programs using on ground and/or flexnet delivery, as well as through the online campuses.

*61 Broadway, 33rd Floor, New York, New York 10006; (212) 363-5555

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/msn-ed.

Teaching and Learning Strategies
HNS 552 ...........................................................................3 credits
Assessment and Evaluation of Learning
The University reserves the right to modify the required course of study.
**Nursing Practicum/Clinical Hours**

The Nursing Practicum allows students the opportunity to apply what they have learned in the program. Students develop learning objectives for the experience and, along with a faculty member and mentor, they achieve the objectives through approved student experiences at selected locations. There is a minimum 60 hours applied practicum clinical experience required. A minimum of 21 graduate credits must be completed before enrollment in the Practicum course. Clinical experiences may focus on leadership, education, or administration. The nursing practicum is intended to serve as a capstone experience that allows the student to integrate graduate level nursing course content to an area of nursing of interest to the student.

**Additional Admission Requirements for the MSN/ED**

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Military and VA nursing students may hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Current employment is not a requirement for admission.
- Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.
- Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree: MSN-I. Students must sign a new Enrollment Agreement for the international version of the degree, and must maintain an active, unencumbered nursing license in the U.S. or its territories. Students must notify their campus representative within thirty (30) days after moving to a new location outside the US, update their profile to reflect the new international address, and must have a nursing license to practice nursing in the country where they are residing for the MSN practicum or contact an Online College representative.
- Students in this program are required to achieve a minimum grade of “C” (2.0) in the following courses: HSN 540, HSN 544, HSN 548, HSN 552. A "C-“ grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MSN program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have retaken the course which placed them on scholastic disqualification, satisfied the grade requirement, and fulfilled any additional criteria for reentry, as determined by the faculty member and the Campus College Chair or appropriate Dean.

*Note: Nurses with a Puerto Rico License must obtain US licensure for admission*
• All MSN and MSN bridge students must complete NUR 598, NUR 590A and NUR 590B with a B or better. Students who do not pass these classes with a grade of B or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement for NUR 598, NUR 590A and/or NUR 590B will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension. Appeals through SAC for readmission to the program will not be accepted by the College of Nursing.

Degree Requirements for the MSN/ED
• Completion of a minimum of 42 credits (51 credits for MSN/ED bridge).
• A minimum program grade point average (GPA) of 3.0.
• Grades earned in MSN/ED bridge courses are calculated in the MSN/ED grade point average (GPA).
• The diploma awarded for these programs will read as follows: Master of Science in Nursing and will not reflect the Specialization. Specializations are reflected on the transcript only.

Residency Requirements and Course Waivers for the MSN/ED
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 33 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

• In order to waive a course in the required course of study, students must have completed a previous course which meets the following criteria:
  • The course must have been completed and transcripted from a regionally accredited, or approved nationally accredited, or candidate for accreditation, college or university.
  • The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better; and
  • The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses will not be waived from the degree program: HCS 504, NUR 598, NUR 590A, NUR 590B

Course Descriptions for the MSN/ED
HCS 504 ................................................................. 1 credit
Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

NUR 513 ..................................................................................... 3 credits

Theoretical Foundations of Practice
This course focuses on the critical components of contemporary nursing knowledge, including concepts, statements, metaparadigms, philosophies, conceptual models, and theories. Students evaluate the variety of ways to organize nursing knowledge and explore the implications of their application. Through the clinical application of the course content, students examine the use of theory and nursing knowledge in professional environments.

NUR 518 ................................................................................. 3 credits

Analysis of Research Reports
Evidence-based practice relies upon analyzing the scientific merit of nursing research reports and integrating the results from valid studies into care. Published reports using quantitative and qualitative methods are examined to determine the validity of study findings and their readiness for implementation into practice. Ethics in research is also considered.

NUR 531 ..................................................................................... 3 credits

Influencing the Future of Nursing and Health Care
The role of advanced practice nurses in today’s health care environment provides numerous opportunities and responsibilities. Nursing's potential for improving the health of individuals, families, groups, and communities is examined. Strategies for involvement in shaping health care policy are developed.

HCS 587 ..................................................................................... 3 credits

Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

NUR 544 ..................................................................................... 3 credits

Population-Focused Health Care
Theories, principles, and strategies of population-based health care are used to design, implement, and evaluate services and plans of care to promote, maintain, and restore health in a defined population. Students focus on population aggregates in structured or unstructured settings across care environments. Strategies to evaluate health outcomes and costs of care are emphasized.

HSN 544 ..................................................................................... 3 credits

Design and Process of Curriculum Development
Development of curriculum for programs in higher education settings are examined. This course focuses on curriculum planning and design, as well as development of individual courses and their relationship to program mission, objectives, and outcomes.
Financial Resource Management

Processes of budget preparation, analysis, and monitoring are essential for analyzing the financial performance of an organization, service, or system. Concepts of financial accounting and reporting, as well as basic economic principles, are applied. Students use budgetary and economic concepts and principles for financial decision-making for a health care service or unit.

NUR 590A ................................................................. 1 credit

Nursing Practicum-A

This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.

NUR 587 ................................................................. 3 credits

Leadership and Management in Nursing and Health Care

Ways of using leadership and management concepts, principles, theories, and models in advanced nursing practice and executive roles are explored. Skills that facilitate collaborative relationships and decisions consistent with stewardship of resources are examined. Students articulate a personal vision of leadership and ways of providing direction within today's complex health care system.

NUR 542 ................................................................. 2 credits

Dynamics of Family Systems

Family systems theories and models are used to understand the impact of nuclear families on professional and personal relationships, as well as on society. These theories and models are used as well to develop strategies for promoting and monitoring the health of families.

NUR 598 ................................................................. 3 credits

Research Utilization Project

This course is a graduate research course that focuses on the use of a body of nursing knowledge and scientific knowledge in the nursing practice setting. Students develop a proposal to address a problem or concern in the nursing practice, propose an evidence-based solution, develop an implementation and evaluation plan, and describe implementation strategies for the proposed solution.

NUR 590B ................................................................. 2 credits

Nursing Practicum-B

This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.

HCS 571 ................................................................. 3 credits

Role of the Health Care/Nursing Educator

Responsibilities of faculty within various higher education settings are explored. Trends and issues that impact the educator role within changing health care and educational environments are discussed. Topics such as technological, legal, ethical, and professional dynamics are included.

HSN 552 ................................................................. 3 credits

Teaching and Learning Strategies

This course will focus on the concepts of learning, cognitive, and psychomotor learning, and the principles of adult learning. Selection and development of teaching strategies that enhance and facilitate learning will be explored.

HSN 548 ................................................................. 3 credits

Theories and Models of Nursing Practice

This course is designed to focus baccalaureate students on the theories, models, and organizing frameworks that are the underpinnings of clinical nursing practice. Theories of nursing practice are presented within the unifying framework of Jean Watson's Theory of Human Caring.

NUR 540 ................................................................. 3 credits

Evidence-Based Nursing Research and Practice

This course will focus on current review of nursing research literature and research utilization through evidence-based practice. Three areas of research competencies will be examined which include interpreting and using research in nursing practice, evaluating research, and conducting research.

NUR 440 ................................................................. 3 credits

Health Assessment and Promotion for Vulnerable Population

This course is designed to assist professional nurses in developing interviewing skills, refinement of physical assessment techniques, and preventative health interventions when working with diverse and vulnerable populations. The importance of therapeutic communication in performing a health assessment is emphasized.
Master of Science in Nursing/Specialization in Informatics

The following Master of Science in Nursing/Specialization in Informatics (MSN/INF) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Science in Nursing (MSN) program, accredited by the Commission of Collegiate Nursing Education (CCNE)*, enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares advanced practice nurses to function in leadership roles in practice and educational settings. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content and process, as well as on leadership skills. Specializations assist students to concentrate on developing increased knowledge and/or skills in a specific area of content or advanced practice role. Thirty-nine credits are required for completion of the degree. * For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036-1120; (202)887-6791.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/MSN-INF.

Additional Admission Requirements for the MSN/INF

• An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

• Current employment is not a requirement for admission.

• Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  • Guam
  • American Samoa
  • Northern Mariana Islands
  • US Virgin Islands

Note: Nurses with a Puerto Rico License must obtain US licensure for admission.

• Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree: MSN-I. Students must sign a new Enrollment Agreement for the international version of the degree, and must maintain an active, unencumbered nursing license in the U.S. or its territories. Students must notify their campus representative within thirty (30) days after moving to a new location outside the US, update their profile to reflect the new international address, and must have a nursing license to practice nursing in the country where they are residing for the MSN practicum or contact an Online College representative.

• Signed Criminal Background Check Disclosure
• Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
• Signed FERPA Release/Drug Test or Failure to Test Results
• Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
• Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.

Additional Academic Progression Requirements for the MSN/INF
• Students enrolling in the MSN bridge program must complete the three MSN bridge courses NUR 403, NUR 443 and NUR 440 with a C or better prior to enrolling in NUR 513 Theoretical Foundations of Practice.
• Students must start NUR 590B within 12 months of the completion date of NUR 590A. If the student does not meet that deadline, the student will be required to retake NUR 590A. Any extension request beyond this policy must be submitted to the Student Appeals Center (SAC) for approval.
• Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.

Minimum Grade Requirements for the MSN/INF
• If students do not pass the bridge courses with a C or better, they will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MSN program.
• All MSN and MSN bridge students must complete NUR 598, NUR 590A and NUR 590B with a B or better. Students who do not pass these classes with a grade of B or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement for NUR 598, NUR 590A and/or NUR 590B will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension. Appeals through SAC for readmission to the program will not be accepted by the College of Nursing.

Degree Requirements for the MSN/INF
• Completion of a minimum of 39 credits (48 credits for MSN/INF bridge).
• A minimum program grade point average (GPA) of 3.0. 
  Grades earned in MSN/INF bridge courses are calculated in the MSN/INF grade point average (GPA).
• The diploma awarded for this program will read as follows: Master of Science in Nursing and will not reflect the Specialization. Specializations are reflected on the transcript only.

Residency Requirements and Course Waivers for the MSN/INF
• Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.
• Students in this program may waive a maximum of 9 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
• In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
  • The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  • The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
• The following courses in the Required Course of Study may not be waived: HCS 504, NUR 590A, NUR 590B, NUR 598

Course Descriptions for the MSN/INF
HCS 504 ..................................................................................... 1 credit
Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios. 
NUR 513................................................................................... 3 credits
Theoretical Foundations of Practice
This course focuses on the critical components of contemporary nursing knowledge, including concepts, statements, metaparadigms, philosophies, conceptual models, and theories. Students evaluate the variety of ways to organize nursing knowledge and explore the implications of their application. Through the clinical application of the course content, students examine the use of theory and nursing knowledge in professional environments.
NUR 518................................................................................... 3 credits
Analysis of Research Reports
Evidence-based practice relies upon analyzing the scientific merit of nursing research reports and integrating the results from valid studies into care. Published reports using quantitative and qualitative methods are examined to determine the validity of study findings and their readiness for implementation into practice. Ethics in research is also considered.
NUR 531 .................................................................3 credits
Influencing the Future of Nursing and Health Care
The role of advanced practice nurses in today’s health care environment provides numerous opportunities and responsibilities. Nursing’s potential for improving the health of individuals, families, groups, and communities is examined. Strategies for involvement in shaping health care policy are developed.

HCS 587 .................................................................................3 credits
Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.

NUR 544 .................................................................3 credits
Population-Focused Health Care
Theories, principles, and strategies of population-based health care are used to design, implement, and evaluate services and plans of care to promote, maintain, and restore health in a defined population. Students focus on population aggregates in structured or unstructured settings across care environments. Strategies to evaluate health outcomes and costs of care are emphasized.

NUR 590A .................................................................1 credit
Nursing Practicum-A
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.

NUR 590B .................................................................2 credits
NUR 598 .................................................................3 credits
Research Utilization Project
This is a graduate research course that focuses on the use of a body of nursing knowledge and scientific knowledge in the nursing practice setting. Students develop a proposal to address a problem or concern in the nursing practice, propose an evidence-based solution, develop an implementation and evaluation plan, and describe implementation strategies for the proposed solution.

NUR 590B .................................................................2 credits
NUR 598 .................................................................3 credits
Nursing Practicum-B
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.

HCI 500 .................................................................................3 credits
Concepts of Health Care Informatics
This course will introduce the student to the basic concepts of health care informatics and health information management. It will build on a historical foundation of informatics and roles of the informatics specialist.

HCI 510 .................................................................................3 credits
Systems Life Cycle
This course will focus on the selection and implementation of an information system within a health facility. The course will review the phases of the life cycle: planning, analysis, design, implementation and evaluation.

HCI 520 .................................................................................3 credits
Data Management and Design
This course will provide an overview of the understanding of how data, information and knowledge provides the foundation for healthcare information systems. The course will focus on the concepts of information and knowledge in relation to databases, systems operations and information systems.

NUR 403 .................................................................................3 credits
Theories and Models of Nursing Practice
This course is designed to focus baccalaureate students on the behaviors, attitudes, and values necessary for theory-based professional nursing practice. Concepts of professional nursing are presented within the unifying framework of Jean Watson’s Theory of Human Caring.

NUR 443 .................................................................................3 credits
Evidence-Based Nursing Research and Practice
This course will focus on current review of nursing research literature and research utilization through evidence-based practice. Three areas of research competencies will be examined which include interpreting and using research in nursing practice, evaluating research, and conducting research.

NUR 440 .................................................................................3 credits
Health Assessment and Promotion for Vulnerable Population
This course is designed to assist professional nurses in developing interviewing skills, refinement of physical assessment techniques, and preventative health interventions when working with diverse and vulnerable populations. The importance of therapeutic communication in performing a health assessment is emphasized.
**Masters of Science in Nursing and Master of Business Administration/Health Care Management**

The following Master of Science in Nursing and Master of Business Administration/Health Care Management (MSN/MBA/HC) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The MSN/MBA/HC dual degree program is designed to provide nurses with a unique blend of advanced nursing and business management skills needed to manage today’s innovative health care delivery systems. The program combines essentials from both degree programs to provide students with the knowledge and skills necessary to enhance and support patient services. The MBA/HC program emphasizes the identification, analysis, and solution of complex management problems that require technical understanding and balanced decision making.

The MSN program blends nursing theory with advanced practice concepts necessary to successfully work within the structure, culture, and mission of any size health care organization or educational setting.

The MSN/MBA/HC program is 65 credits. All course work and clinical requirements must be completed satisfactorily, or be repeated.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/msn-mba-hc.

**MSN/MBA/HC Required Course of Study**

Course requiring prerequisites are identified by a ~ symbol following the course number.

**Management, 3 total credits**
MGT 521 ~ 3 credits

**Organizational Leadership, 3 total credits**
LDR 531 ~ 3 credits

**Business Law, 3 total credits**
LAW 531 ~ 3 credits

**Quantitative Reasoning for Business, 3 total credits**
QRB 501 ~ 3 credits

**Economics, 3 total credits**
ECO 561 ~ 3 credits

**Accounting, 3 total credits**
ACC 561 ~ 3 credits

**Corporate Finance, 3 total credits**
FIN 571 ~ 3 credits

**Operations Management, 3 total credits**
OPS 571 ~ 3 credits

**Marketing, 3 total credits**
MKT 571 ~ 3 credits

**Strategic Planning & Implementation, 3 total credits**
STR 581 ~ 3 credits

**Information Systems, 3 total credits**
CIS 568 ~ 3 credits

**Health Care Finance, 3 total credits**
HCS 571 ~ 3 credits

**Regulatory, 3 total credits**
HCS 578 ~ 3 credits

**Theory, 3 total credits**
NUR 513 ~ 3 credits

**Research, 6 total credits**
NUR 518 ~ 3 credits

**Leadership, 11 total credits**
NUR 531 ~ 3 credits

**Nursing Education, 3 total credits**
NUR 588 ~ 3 credits

**Clinical, 3 total credits**
NUR 590A ~ 1 credit
NUR 590B ~ 2 credits

The university reserves the right to modify the required course of study.
Nursing Practicum/Clinical Hours

The Nursing Practicum allows students the opportunity to apply what they have learned in the program. Students develop learning objectives for the experience and, along with a faculty member and mentor, they achieve the objectives through approved student experiences at selected locations. There is a minimum 60 hours applied practicum clinical experience required. A minimum of 21 graduate credits must be completed before enrollment in the Practicum course. Clinical experiences may focus on leadership, education, or administration. The nursing practicum is intended to serve as a capstone experience that allows the student to integrate graduate level nursing course content to an area of nursing of interest to the student.

Additional Admission Requirements for the MSN/MBA/HC

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor's degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Current employment is not a requirement for admission.
- Students must have access to an appropriate healthcare organization environment in which to complete the work related course assignments.
- Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
- Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree: MSN-I. Students must hold a valid, unrestricted/unencumbered RN license for placement. Students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.
- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.
- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.

Note: Nurses with a Puerto Rico License must obtain US licensure for admission

- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

Degree Requirements for the MSN/MBA/HC

- Completion of a minimum of 65 credits (74 credits for the bridge program).
- A minimum program grade point average (GPA) of 3.0.
- Grades earned in MSN/MBA/HC bridge courses are calculated in the MSN/MBA/HC grade point average (GPA).
- Two diplomas will be awarded for this dual degree. The diplomas awarded for this program will read as follows: Master of Science in Nursing Master of Business Administration

Additional Academic Progression Requirements for the MSN/MBA/HC

- Students enrolling in the MSN bridge program must complete the three MSN bridge courses NUR 403, NUR 443 and NUR 440 with a C or better prior to enrolling in NUR 513 Theoretical Foundations of Practice.
- Students must start NUR 590B within 12 months of the completion date of NUR 590A. If the student does not meet that deadline, the student will be required to retake NUR 590A. Any extension request beyond this policy must be submitted to the Student Appeals Center (SAC) for approval.
- Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.

Minimum Grade Requirements for MSN/MBA/HC

- If students do not pass the bridge courses with a C or better, they will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the MSN program.
All MSN and MSN bridge students must complete NUR 598, NUR 590A and NUR 590B with a B or better. Students who do not pass these classes with a grade of B or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement for NUR 598, NUR 590A and/or NUR 590B will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension. Appeals through the Student Appeals Center (SAC) for readmission to the program will not be accepted by the College of Nursing.

Residency Requirements Course Waivers for the MSN/MBA/HC

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 53 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- For all nursing courses, including HCS 571 & HCS 578, the course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- For all business courses, the course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: MGT 521, NUR 590A, NUR 590B, NUR 598, QRB 501, STR 581.

Course Descriptions for the MSN/MBA/HC

MG 521 ................................................................................... 3 credits
Management
This course applies the tools available to University of Phoenix graduate students and the competencies of successful managers to understand the functions of business. Students learn their own perceptions and values to communicate more effectively with others. Other topics include MBA program goals, argument construction, decision making, collaboration, and academic research.

LDR 531 ................................................................................... 3 credits
Organizational Leadership
This course prepares students to apply leadership principles to the roles they play as managers. Students will discover more about themselves and learn more about the connection between the individual and the organization. Other topics include organizational structure, group behavior, motivation, power, politics, organizational change, and workplace conflict.

LAW 531 .................................................................................. 3 credits
Business Law
This course prepares students to evaluate the legal risks associated with business activity. Students will create proposals to manage an organization's legal exposure. Other topics include the legal system, alternative dispute resolution, enterprise liability, product liability, international law, business risks, intellectual property, legal forms of business, and governance.

QRB 501 ................................................................................... 3 credits
Quantitative Reasoning for Business
This course applies quantitative reasoning skills to business problems. Students learn to analyze data using a variety of analytical tools and techniques. Other topics include formulas, visual representation of quantities, time value of money, and measures of uncertainty.

ECO 561 ................................................................................... 3 credits
Economics
This course applies economic concepts to make management decisions. Students employ the concepts of scarce resources and opportunity costs to perform economic analysis. Other topics include supply and demand, profit maximization, market structure, macroeconomic measurement, money, trade, and foreign exchange.

ACC 561 ................................................................................... 3 credits
Accounting
This course applies accounting tools to make management decisions. Students learn to evaluate organizational performance from accounting information. Other topics include financial statements, cost behavior, cost allocation, budgets, and control systems.

FIN 571 ................................................................................... 3 credits
Corporate Finance
This course applies corporate finance concepts to make management decisions. Students learn methods to evaluate financial alternatives and create financial plans. Other topics include cash flows, business valuation, working capital, capital budgets, and long-term financing.
OPS 571....................................................................................3 credits
Operations Management
This course applies planning and controlling concepts to increase the value of the supply chain. Students learn to evaluate and improve processes. Other topics include process selection, process design, theory of constraints, project implementation, capacity planning, lean production, facility location, and business forecasting.
MKT 571 ....................................................................................3 credits
Marketing
This course prepares students to apply marketing concepts to create and sustain customer value. Students learn to solve marketing problems in a collaborative environment. Topics include market research, customer relationships, branding, market segmentation, product development, pricing, channels, communications, and public relations.
STR 581 .....................................................................................3 credits
Strategic Planning & Implementation
This course integrates concepts from all prior courses in the program. Students apply the concepts of strategic planning and implementation to create sustainable competitive advantage for an organization. Other topics include environmental scanning, strategic analysis, corporate social responsibility, implementation, evaluation, and risk management.
CIS 568......................................................................................3 credits
Information Systems Concepts
This course focuses on the role of the manager as a user and manager of information. Topics include the analysis & design of information systems. The analysis and design of information systems are covered from the operational, tactical, and strategic perspectives with a focus on identifying specific tools and techniques.
HCS 571.....................................................................................3 credits
Financial Resource Management
Processes of budget preparation, analysis, and monitoring are essential for analyzing the financial performance of an organization, service, or system. Concepts of financial accounting and reporting, as well as basic economic principles, are applied. Students use budgetary and economic concepts and principles for financial decision-making for a health care service or unit.
HCS 578.....................................................................................3 credits
Ethical, Legal, and Regulatory Issues in Health Care
Ethical principles and decision making models are used to address and understand complex health care issues. Legal concepts and regulatory agency and other public policies influence the direction and financing of health care.
NUR 513 .....................................................................................3 credits
Theoretical Foundations of Practice
This course focuses on the critical components of contemporary nursing knowledge, including concepts, statements, metaparadigms, philosophies, conceptual models, and theories. Students evaluate the variety of ways to organize nursing knowledge and explore the implications of their application. Through the clinical application of the course content, students examine the use of theory and nursing knowledge in professional environments.
NUR 518.....................................................................................3 credits
Analysis of Research Reports
Evidence-based practice relies upon analyzing the scientific merit of nursing research reports and integrating the results from valid studies into care. Published reports using quantitative and qualitative methods are examined to determine the validity of study findings and their readiness for implementation into practice. Ethics in research is also considered.
NUR 598.....................................................................................3 credits
Research Utilization Project
This is a graduate research course that focuses on the use of a body of nursing knowledge and scientific knowledge in the nursing practice setting. Students develop a proposal to address a problem or concern in the nursing practice, propose a evidence-based solution, develop an implementation and evaluation plan, and describe implementation strategies for the proposed solution.
NUR 531.....................................................................................3 credits
Influencing the Future of Nursing and Health Care
The role of advanced practice nurses in today’s health care environment provides numerous opportunities and responsibilities. Nursing’s potential for improving the health of individuals, families, groups, and communities is examined. Strategies for involvement in shaping health care policy are developed.
NUR 587.....................................................................................3 credits
Leadership and Management in Nursing and Health Care
Ways of using leadership and management concepts, principles, theories, and models in advanced nursing practice and executive roles are explored. Skills that facilitate collaborative relationships and decisions consistent with stewardship of resources are examined. Students articulate a personal vision of leadership and ways of providing direction within today’s complex health care system.
NUR 544.....................................................................................3 credits
Population-Focused Health Care
Theories, principles, and strategies of population-based health care are used to design, implement, and evaluate services and plans of care to promote, maintain, and restore health in a defined population. Students focus on population aggregates in structured or unstructured settings across care environments. Strategies to evaluate health outcomes and costs of care are emphasized.
NUR 542.....................................................................................2 credits
Dynamics of Family Systems
Family systems theories and models are used to understand the impact of nuclear families on professional and personal relationships, as well as on society. These theories and models are used as well to develop strategies for promoting and monitoring the health of families.
NUR 588.....................................................................................3 credits
Developing and Evaluating Educational Programs
Identifying learning needs provides the foundation for designing health care educational programs for individuals, families, groups, or communities. Students select and develop teaching strategies and explore ways of monitoring and evaluating teaching methods and learner outcomes. Roles of educators in organizations, communities, and higher education settings are examined.
NUR 590A................................................................. 1 credit
Nursing Practicum-A
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.
NUR 590B ................................................................. 2 credits
Nursing Practicum-B
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.
NUR 403 ................................................................. 3 credits
Theories and Models of Nursing Practice
This course is designed to focus baccalaureate students on the behaviors, attitudes, and values necessary for theory-based professional nursing practice. Concepts of professional nursing are presented within the unifying framework of Jean Watson’s Theory of Human Caring.
NUR 443 ................................................................. 3 credits
Evidence-Based Nursing Research and Practice
This course will focus on current review of nursing research literature and research utilization through evidence-based practice. Three areas of research competencies will be examined which include interpreting and using research in nursing practice, evaluating research, and conducting research.
NUR 440 ................................................................. 3 credits
Health Assessment and Promotion for Vulnerable Population
This course is designed to assist professional nurses in developing interviewing skills, refinement of physical assessment techniques, and preventative health interventions when working with diverse and vulnerable populations. The importance of therapeutic communication in performing a health assessment is emphasized.

Master of Science in Nursing and Master of Health Administration
The following Master of Science in Nursing and Master of Health Administration (MSN/MHA) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The MSN/MHA program, accredited by the Commission of Collegiate Nursing Education (CCNE)*, is designed to provide nurses with a unique blend of advanced nursing and healthcare related business skills to manage in today’s evolving health care delivery systems. The program combines essential elements from both degree programs to provide students with the knowledge and skills needed to effectively examine and evaluate issues and trends impacting health care.

The MSN program is designed for those nurses who want to pursue more advanced positions in today’s challenging health care environment. The program blends nursing theory and advanced practice concepts necessary to successful work within the structure, culture, and mission of any size health care organization or educational setting.

The MSN program consists of three major areas: the core, the major, and the cognate. The core incorporates the major foci of the Master of Science in Nursing degree: the theory of nursing influence, influence of nursing research, and on the advanced practice of nursing. The major includes advanced course work in nursing: management of families and aggregates, administration, and education. The cognate is fulfilled through the MHA program content. The MHA curriculum focuses on the content related to finance, economics, policy, quality improvement, marketing, and strategic planning. In addition, students complete course work in concepts related to public health, long term care and health care informatics. Graduates will have enhanced their management/administrative backgrounds through a curriculum that provides students with the ability to apply theory to contemporary practice applications. Graduates are able to define their role within the health care system and understand how to make necessary changes to create a work environment which is team oriented and motivating to others.

*For more information about accreditation, please contact CCNE at One Dupont Circle NW, Suite 530, Washington, DC 20036-1120; (202)887-6791.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/msn-mha.
MSN/MHA Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number.

HCS 504 ~ Introduction to Graduate Study in Health Sciences/Nursing       1 credit
HCS 531 ~ Health Care Organizations and Delivery Systems                3 credits
HCS 533 ~ Health Information Systems                                    3 credits
HCS 514 ~ Managing in Today’s Health Care Organization               3 credits
HCS 552 ~ Health Care Economics                                        3 credits
HCS 577 ~ Financial Management in Health Care                          3 credits
HCS 535 ~ Concepts of Population Health                                3 credits
HCS 545 ~ Health Law and Ethics                                        3 credits
HCS 539 ~ Marketing for Health Care                                    3 credits
HCS 567 ~ Entrepreneurship in Health Care                               3 credits
NUR 513 ~ Theoretical Foundations of Practice                          3 credits
NUR 518 ~ Analysis of Research Reports                                  3 credits
NUR 531 ~ Influencing the Future of Nursing and Health Care            3 credits
HCS 587 ~ Creating Change within Organizations                         3 credits
NUR 588 ~ Developing and Evaluating Educational Programs              3 credits
NUR 590A ~ Nursing Practicum - A                                       1 credit
NUR 542 ~ Nursing Practicum - B                                        2 credits
HCS 588 ~ Dynamics of Family Systems                                   3 credits
NUR 590B ~ Measuring Performance Standards                             2 credits
NUR 598 ~ Research Utilization Project                                 3 credits

The University reserves the right to modify the required course of study.

Nursing Practicum/Clinical Hours

The Nursing Practicum allows students the opportunity to apply what they have learned in the program. Students develop learning objectives for the experience and, along with a faculty member and mentor, they achieve the objectives through approved student experiences at selected locations. There is a minimum 60 hours applied practicum clinical experience required. A minimum of 21 graduate credits must be completed before enrollment in the Practicum course. Clinical experiences may focus on leadership, education, or administration. The nursing practicum is intended to serve as a capstone experience that allows the student to integrate graduate level nursing course content to an area of nursing of interest to the student.

Additional Admission Requirements for the MSN/MHA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree with an upper division major in nursing from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelors degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- Current employment in a nursing or healthcare role or access to an appropriate healthcare organization environment in which to complete the work related course assignments.
- Applicants must reside in the continental United States or in one of the US Territories with documentation of a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
- Non-military students who enroll in the MSN program while living in the US and then move outside of the U.S. and its territories must change to the international version of the degree: MSN-I. Students must sign a new Enrollment Agreement for the international version of the degree, and must maintain an active, unencumbered nursing license in the U.S. or its territories. Students must notify their campus representative within thirty (30) days after moving to a new location outside the US, update their profile to reflect the new international address, and must have a nursing license to practice nursing in the country where they are residing for the MSN practicum or contact an Online College representative.
Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.

Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.

*Note: Nurses with a Puerto Rico License must obtain US licensure for admission*

- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results

**Degree Requirements for the MSN/MHA**

- Completion of a minimum of 54 credits (63 credits for the MSN/MHA bridge).
- A minimum program grade point average (GPA) of 3.0. *Grades earned in MSN/MHA bridge courses are calculated in the MSN/MHA grade point average (GPA).*
- Two diplomas will be awarded for this dual degree. The diplomas awarded for this program will read as follows: Master of Science in Nursing, Master of Health Administration

**Additional Academic Progression Requirements for the MSN/MHA**

- Students enrolling in the MSN bridge program must complete the three MSN bridge courses NUR 403, NUR 443 and NUR 440 with a C or better prior to enrolling in NUR 513 Theoretical Foundations of Practice.
- Students must start NUR 590B within 12 months of the completion date of NUR 590A. If the student does not meet that deadline, the student will be required to retake NUR 590A. Any extension request beyond this policy must be submitted to the Student Appeals Center (SAC) for approval.
- Students must hold a valid, unrestricted/unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted/unencumbered through the duration of the program.

**Minimum Grade Requirements for the MSN/MHA**

- If students do not pass the bridge courses with a C or better, they will be scholastically disqualified. Students who fail to meet the minimum grade requirement will be allowed to repeat each class once. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MSN program.
- All MSN and MSN bridge students must complete NUR 598, NUR 590A and NUR 590B with a B or better. Students who do not pass these classes with a grade of B or better will be scholastically disqualified. Students who fail to meet the minimum grade requirement for NUR 598, NUR 590A and/or NUR 590B will be allowed to repeat the class once. Students who fail to meet the minimum grade requirement after the second attempt, will be permanently withdrawn from the program and will be placed on scholastic suspension. Appeals through the Student Appeals Center (SAC) for readmission to the program will not be accepted by the College of Nursing.

**Residency Requirements and Course Waivers for the MSN/MHA**

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 42 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 12 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. *Students enrolled in the MSN/MHA Bridge may waive the nine (9) undergraduate bridge credits (NUR 403, NUR 443, and NUR 440) in addition to waiving a maximum of 12 credits from their Required Course of Study.*

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: HCS 504, NUR 590A, NUR 590B, NUR 598
Course Descriptions for the MSN/MHA

HCS 504.................................................................1 credit
Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.

HCS 531.................................................................3 credits
Health Care Organizations and Delivery Systems
This course is a comprehensive approach to health care organizations and systems that provide the student with an in-depth understanding of health organizations. Topics include the evolution of health care delivery during a time of financial and regulatory stress, the impact of the evolving consumer movement, and managing efficient and effective organizational structures.

HCS 533.................................................................3 credits
Health Information Systems
This course provides administrators and managers an overview of the information systems used in the health care industry. The effective use of data requires an understanding of how the data is captured as well as the HIPAA and security issues related to this confidential material. The course provides students with a general background to communicate more effectively with technical personnel and provide general management oversight of information systems within health care organizations.

HCS 514.................................................................3 credits
Managing in Today’s Health Care Organizations
This course focuses on the adaptation of organizational management to evolving health systems. Students will examine organizational theory, organizational performance, structure, change management and human resource management. Students apply various organizational theories to contemporary issues.

HCS 552.................................................................3 credits
Health Care Economics
This course focuses on the application of macro and micro economic tools to the health care industry. Content includes demand management; concepts of efficiency, production and distribution of health care services; impact of regulation and reimbursement; and economic incentives in health care. Students apply principles to a variety of business models.

HCS 577.................................................................3 credits
Financial Management in Health Care
This course presents the concepts of financial accounting important to the understanding of the financial environment of the health care industry. Students interpret financial statements, prepare analyses of financial data necessary to make decisions, describe the different third party payment methods, experiment with cost finding and price setting, and conduct break-even analyses. The course provides students with experience in capital and operating budgets, and financial forecasts.

HCS 535.................................................................3 credits
Concepts of Population Health
This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.

HCS 545.................................................................3 credits
Health Law and Ethics
Students explore and analyze current ethical issues such as a biomedical research, insurance statutes, and demand management. Students survey the extensive legal foundations of health care, and apply current case law to contemporary situations. Topics include legal aspects of legislation, patient rights, data security, professional liability, and labor relations.

HCS 539.................................................................3 credits
Marketing for Health Care
This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.

HCS 567.................................................................3 credits
Entrepreneurship in Health Care
This course will set up the context of entrepreneurship and new business development; examine the characteristics of entrepreneurs, identifying and quantifying market opportunities in the health care market, as well conceptualizing the resources and capabilities needed. Topics include opportunity assessment, regulated industry implications and requirements, as well as the challenges of expansion within an existing enterprise.

NUR 513.................................................................3 credits
Theoretical Foundations of Practice
This course focuses on the critical components of contemporary nursing knowledge, including concepts, statements, metaparadigms, philosophies, conceptual models, and theories. Students evaluate the variety of ways to organize nursing knowledge and explore the implications of their application. Through the clinical application of the course content, students examine the use of theory and nursing knowledge in professional environments.

NUR 518.................................................................3 credits
Analysis of Research Reports
Evidence-based practice relies upon analyzing the scientific merit of nursing research reports and integrating the results from valid studies into care. Published reports using quantitative and qualitative methods are examined to determine the validity of study findings and their readiness for implementation into practice. Ethics in research is also considered.

NUR 531.................................................................3 credits
Influencing the Future of Nursing and Health Care
The role of advanced practice nurses in today’s health care environment provides numerous opportunities and responsibilities. Nursing’s potential for improving the health of individuals, families, groups, and communities is examined. Strategies for involvement in shaping health care policy are developed.
HCS 587 ................................................................................... 3 credits
Creating Change Within Organizations
Diffusion of innovations models in health care systems use principles of planned change within a dynamic organizational environment. Communication skills, such as negotiation and conflict resolution, help leaders analyze and respond to health care needs while using resources efficiently.
NUR 588 ................................................................................... 3 credits
Developing and Evaluating Educational Programs
Identifying learning needs provides the foundation for designing health care educational programs for individuals, families, groups, or communities. Students select and develop teaching strategies and explore ways of monitoring and evaluating teaching methods and learner outcomes. Roles of educators in organizations, communities, and higher education settings are examined.
NUR 590A ................................................................. 1 credit
Nursing Practicum-A
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.
NUR 590B ................................................................................ 2 credits
Nursing Practicum-B
This capstone course is designed to provide students with opportunities to integrate and apply previously learned knowledge and skills in a 60-hour practicum. Students develop specific learning objectives that are approved by faculty. Objectives are achieved as a result of working with a nurse mentor and various experts during the practicum.
NUR 598 ................................................................................... 3 credits
Research Utilization Project
This is a graduate research course that focuses on the use of a body of nursing knowledge and scientific knowledge in the nursing practice setting. Students develop a proposal to address a problem or concern in the nursing practice, propose an evidence-based solution, develop an implementation and evaluation plan, and describe implementation strategies for the proposed solution.
NUR 403 ................................................................................... 3 credits
Theories and Models of Nursing Practice
This course is designed to focus baccalaureate students on the behaviors, attitudes, and values necessary for theory-based professional nursing practice. Concepts of professional nursing are presented within the unifying framework of Jean Watson’s Theory of Human Caring.
NUR 443 ................................................................................... 3 credits
Evidence-Based Nursing Research and Practice
This course will focus on current review of nursing research literature and research utilization through evidence-based practice. Three areas of research competencies will be examined which include interpreting and using research in nursing practice, evaluating research, and conducting research.
NUR 440 ................................................................................... 3 credits
Health Assessment and Promotion for Vulnerable Population
This course is designed to assist professional nurses in developing interviewing skills, refinement of physical assessment techniques, and preventative health interventions when working with diverse and vulnerable populations. The importance of therapeutic communication in performing a health assessment is emphasized.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
COLLEGE OF EDUCATION

The College of Education is within the School of Education, Health and Human Services and offers graduate level degree and non-degree courses for educators. The Master of Arts in Education is the graduate degree program offered through the College of Education. Graduate non-degree programs include several state specific certificates/endorsements. Each student/applicant is responsible for checking with his/her state Department of Education and/or school district to determine specific credentialing requirements.

The College of Education works closely with other departments responsible for providing and administering academic preparation at the University and with each campus to ensure the quality delivery of all courses and programs.

Admission Requirements

All applicants to this program are expected to meet the following admission requirements:

• A completed and signed graduate application and application fee
• A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
• Applicants whose native language is not English must have either:
  • achieved a minimum score of 213 on the computer-based test (cBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  -or-
  • achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  -or-
  • achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
  -or-
  • achieved a minimum score of 75 on the Berlitz Online Test of Reading and Listening Skills - English (effective 02/01/2012) or a minimum score of 550 on the Berlitz Online English Proficiency Exam (prior to 02/01/2012) within two years of application to the University.
  -or-
  • successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
  -or-
  • achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.
• The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:
  • Successful completion of 30 transferable academic semester credits at a regionally or nationally accredited college or university in the United States.
  • Successful completion of 30 transferable academic semester credits at a recognized college or university in a country in which English is the official language.
  • U.S. high school diploma or GED administered in English.
  • Equivalent of a U.S. high school diploma from a country in which English is the official language.
• Applicants who reside in the United States must meet one of the following requirements:
  • Be a legal resident of the United States
  • Have been granted permanent residency
  • Have a valid visa that does not prohibit educational studies
  • Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
  • Have been granted asylum along with copy of passport and I-94 bearing the stamp indicating the issue and expiration dates of the Asylee status.
• Only students who reside within the United States and its territories are eligible to enroll into a University of Phoenix bachelor or master of education program.
• A signed New Student Checklist may be required
• A signed Enrollment/Disclosure Agreement.
Master of Arts in Education/Administration and Supervision (Florida)

The following Master of Arts in Education/Administration and Supervision (MAED/ADM) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts in Education/Administration and Supervision program prepares candidates for principal licensure. The standards-based program is designed to provide principal candidates with the knowledge, skills, and dispositions necessary to be successful school leaders who can apply theory to practice. The program encompasses instructional leadership, organizational management, technology management, and data-driven decision-making. An administrative internship is an integral component of the program, providing candidates with a field-based experience in the various aspects of school administration and supervision.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/maed-adm.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

EDL 531 ................................................................. 3 credits
Mentoring and Coaching

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MAEd/ADM

All applicants are expected to meet the following admissions requirements:

• Students enrolled in this program must have an undergraduate degree from a regionally accredited college or university or equivalent undergraduate degree earned at a recognized foreign institution.

• A minimum equivalent of three (3) years post-high school work experience including 18 months of instructional experience in a P-12 setting.

• The teaching or instructional experience must be as a contracted teacher in either a traditional or year-round public or private school.

• Teaching experience is defined as stand-up teaching or facilitation with a pre-school (P)-12 school-age population. The following constitutes teaching experience:

  Verifiable (contracted) P-12 instructional classroom experience - 40 hours per week.

• All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Completion Requirements for the MAED/ADM

• Completion of a minimum of 38 credits.

• A minimum grade point average (GPA) of 3.0.

• Completion of e-portfolio.

• Completion of Field Experience Observation Record.

• Satisfactory completion of any required internship and/or practicum courses with a grade of “B” or better.

• Students must take courses within a sequence specified by course prerequisite requirements.

• The diploma awarded for this program will read as: Master of Arts in Education Administration and Supervision
Minimum Grade Requirement for the MAED/ADM

- A candidate must earn a grade of "B" (3.0) or better in the following practicum/internship courses, grades of "B-" are not accepted: ADMIN 591A, ADMIN 591B and ADMIN 591C. Students who earn less than a grade of "B" (3.0) in any of these courses must repeat the course in order to continue in their one credit administrative practicum/internship courses.
- Candidates who earn less than a grade of "B" (3.0) in any of these courses must complete a remediation plan and repeat the course.
- If the candidate does not receive a grade of "B" (3.0) or better on the second attempt, the candidate will be, scholastically suspended, permanently withdrawn from program.

Residency Requirements and Course Waivers for the MAED/ADM

The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 32 graduate level credits at the University.

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: ADMIN 591A, ADMIN 591B, ADMIN 591C, COM 516, EDD 581.

Institutional Recommendation for the MAED/ADM

- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for principal certification).
- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated administrator exam, if required.

Internship Policies for MAED/ADM

- The Administrative Internship is a minimum 240-hour placement. Each campus establishes operational policies related to placement and completion of the internship. Candidates must follow the guidelines in place at their campus.
- Candidates must take the internship courses concurrently with the internship experience. If a candidate chooses to postpone the internship, he/she must postpone their enrollment in the internship courses.
- Candidates must pass each Administrative Internship course with a grade of "B" or better in order to avoid Scholastic Disqualification.
- Candidates who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.

Field Experience for MAED/ADM

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 30-40 hours of verified field experiences. The focus of each field experience will relate to specific course content and will follow a structured format. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty. Candidates must work with their campus to arrange field experience.

Course Descriptions for the MAED/ADM

ADMIN 500 ............................................................................... 0 credits
Orientation to Administration and Supervision

This course is designed to provide an orientation to the primary components of the Master of Arts in Education/Administration and Supervision program. Students will be introduced to the program's progression and degree completion requirements. Field experiences, electronic resources, E-portfolios, benchmark assignments, and the administrative internship will be discussed.

COM 516 .................................................................................. 1 credit
Professional Communications

This course provides new graduate students in University of Phoenix programs with an introduction to strategies for academic success within the University of Phoenix adult learning model. Topics include oral and written communication, methods for finding and evaluating course resources, critical thinking, the purpose and use of portfolios, program standards, stress and time management, and tools for collaborative learning, in preparation for team assignments in future classes.

ADMIN 518 ............................................................................ 3 credits
Leadership and Collaborative Processes

This course is designed to provide students with an overview of educational leadership and with an understanding of the issues in educational leadership positions. Students analyze the various styles of leadership and explore how leadership enhances an educational environment. Students examine information on collaborative processes and examine how educational leaders can create high performing teams.
Equity, Diversity, and Access in Education
This course provides candidates the opportunity to examine and to reflect upon equity, diversity, and access in education. In particular, the course focuses on the potential for contributions of students, families, teachers, and staff through equitable participation in school practices, programs, and curriculum. Candidates examine their personal beliefs, as well as issues regarding equity, diversity, and access, in the context of leadership.

ADMIN 555 ..............................................................3 credits

School Policy and Law for Principals
This course allows students to examine legal theory and practice in the context of the educational setting. The constitutional framework, court systems, legal issues, and their subsequent impact on schools are discussed, analyzed, and applied to current educational practices.

ADMIN 524 ..............................................................3 credits

Supervision of Curriculum, Instruction and Assessment
This course examines administrative responsibilities related to supervision of curriculum and instruction. Principal candidates will study the relationship among supervision, curriculum design, national and state standards, and effective instructional practice. Principal candidates will also participate in field experiences related to curriculum and instruction.

ADMIN 591A ..........................................................1 credit

Principal Internship Part I: Instructional Leadership
This internship experience provides comprehensive field-based training designed to develop competencies needed by school principals with an emphasis on instructional leadership. Application of all principles and techniques of planning, managing, leadership, problem solving, organizing, and program and personnel evaluation will be addressed.

ADMIN 591B ............................................................1 credit

Equity, Diversity, and Access in Education
This course provides candidates the opportunity to examine and to reflect upon equity, diversity, and access in education. In particular, the course focuses on the potential for contributions of students, families, teachers, and staff through equitable participation in school practices, programs, and curriculum. Candidates examine their personal beliefs, as well as issues regarding equity, diversity, and access, in the context of leadership.

ADMIN 555 ..............................................................3 credits

School Policy and Law for Principals
This course allows students to examine legal theory and practice in the context of the educational setting. The constitutional framework, court systems, legal issues, and their subsequent impact on schools are discussed, analyzed, and applied to current educational practices.

ADMIN 524 ..............................................................3 credits

Supervision of Curriculum, Instruction and Assessment
This course examines administrative responsibilities related to supervision of curriculum and instruction. Principal candidates will study the relationship among supervision, curriculum design, national and state standards, and effective instructional practice. Principal candidates will also participate in field experiences related to curriculum and instruction.

ADMIN 591A ..........................................................1 credit

Principal Internship Part I: Instructional Leadership
This internship experience provides comprehensive field-based training designed to develop competencies needed by school principals with an emphasis on instructional leadership. Application of all principles and techniques of planning, managing, leadership, problem solving, organizing, and program and personnel evaluation will be addressed.

ADMIN 591B ............................................................1 credit

Human Resources Leadership and Management
This course will focus on the responsibilities of human resources administration in education. Methods of recruitment, selection, induction, development, compensation, and appraisal will be examined. Strategic planning, employment continuity, employment justice including laws, policies and procedures, and unionism will be analyzed.

ADMIN 560 ..............................................................3 credits

Business and Facilities Management
This course is a continuation of processes for managing business functions and for school facilities. Principal candidates will study school budgeting and accounting procedures, and they will study issues regarding facilities management. Principal candidates also will participate in field experiences related to business and facilities management.

ADMIN 560 ..............................................................3 credits

Human Resources Leadership and Management
This course will focus on the responsibilities of human resources administration in education. Methods of recruitment, selection, induction, development, compensation, and appraisal will be examined. Strategic planning, employment continuity, employment justice including laws, policies and procedures, and unionism will be analyzed.

ADMIN 560 ..............................................................3 credits

Business and Facilities Management
This course is a continuation of processes for managing business functions and for school facilities. Principal candidates will study school budgeting and accounting procedures, and they will study issues regarding facilities management. Principal candidates also will participate in field experiences related to business and facilities management.

ADMIN 560 ..............................................................3 credits

Human Resources Leadership and Management
This course will focus on the responsibilities of human resources administration in education. Methods of recruitment, selection, induction, development, compensation, and appraisal will be examined. Strategic planning, employment continuity, employment justice including laws, policies and procedures, and unionism will be analyzed.

ADMIN 560 ..............................................................3 credits

Human Resources Leadership and Management
This course will focus on the responsibilities of human resources administration in education. Methods of recruitment, selection, induction, development, compensation, and appraisal will be examined. Strategic planning, employment continuity, employment justice including laws, policies and procedures, and unionism will be analyzed.

ADMIN 560 ..............................................................3 credits

Business and Facilities Management
This course is a continuation of processes for managing business functions and for school facilities. Principal candidates will study school budgeting and accounting procedures, and they will study issues regarding facilities management. Principal candidates also will participate in field experiences related to business and facilities management.

ADMIN 560 ..............................................................3 credits

Human Resources Leadership and Management
This course will focus on the responsibilities of human resources administration in education. Methods of recruitment, selection, induction, development, compensation, and appraisal will be examined. Strategic planning, employment continuity, employment justice including laws, policies and procedures, and unionism will be analyzed.

ADMIN 560 ..............................................................3 credits

Family, Community and Media Relations
This course focuses on the role of the school principal as a catalyst for developing and for maintaining collaborations with families, business and community groups, and the media to support a school’s vision and programs. Candidates analyze the research on school and community relations and its implications for their particular school. They also examine ways of learning about the nature of community resources, interests, and needs; establishing reciprocal relationships; the use of conflict resolution and decision making tools; and ethical issues when working with families, business, community, and media groups. In addition, candidates plan a social action project that involves school, families, community, and the media.

EDD 581 .................................................................4 credits

Action Research and Evaluation
This course examines action research and its role in decision-making and in educational practices. Students are introduced to various types of action research and to the elements of the action research process, including identifying a problem, determining a problem statement and a purpose, conducting a literature review, planning for the collection and the analysis of data, and creating a plan of action. Methods for collecting, evaluating, and analyzing data are discussed. Students identify ethical issues related to research as well, including a professional code of ethics, confidentiality, and research using human subjects. In addition, they synthesize and apply the content of the course by writing a proposal for an action research study.

ADMIN 565 ..............................................................3 credits

School Improvement Processes
This course focuses on the use of assessments in K-12 education and in developing school improvement plans from a principal perspective. Students will review the types of assessments that a school leader needs to be familiar with, and they will review how a school leader can use assessments to measure student achievement. Additionally, the model and processes of continuous school improvement are explored.

ADMIN 591C ............................................................1 credit

Principals Internship Part III: Professional Practice
This internship experience provides comprehensive field-based training designed to develop competencies needed by school principals with an emphasis on community and media relations. Application of all principles and techniques of planning, managing, leadership, problem solving, organizing, working with the media, and community relations will be addressed.
AET 520  Instructional Strategies in Adult Education and Training  3 credits

This course builds upon the foundation provided in the instructional design course and focuses on development and implementation of instruction that facilitates adult learning. Learners examine and apply models, strategies, and methods for planning and for implementing instruction. Instructional approaches, engagement strategies, and management of the instructional environment are explored.

AET 535  Assessment and Evaluation in Adult Learning  3 credits

This course focuses on developing the skills necessary to become effective assessors of adult learners in postsecondary and training environments. It provides the fundamentals of varied classroom assessments and training evaluation models, such as formative and summative tests and authentic assessments. Learners develop assessments and analyze how assessment data is used to improve instruction and learning. Additionally, the purposes, the methods, and the reporting of evaluation for trainers are explored.

EDL 505  Cultural Competency  3 credits

Culturally responsive teachers facilitate and support learning for all students regardless of their diversities. This course deepens candidates’ understanding of teaching and learning through examination of the diverse make-up of today’s communities, schools, and classrooms. Through personal reflection and identification of theoretically sound and culturally responsive pedagogy, this course prepares the candidate to model, mentor, and lead efforts in creating a school climate that effectively addresses the learning needs of all students.

EDL 531  Mentoring and Coaching  3 credits

This course provides an exploration into how mentoring and coaching improves teaching and learning. This course examines mentoring and coaching competencies, including ethical guidelines, creating collegial relationships, building learning communities, effective communication, problem-solving and conflict resolution, and facilitating learning and accountability. Candidates will be equipped with the knowledge and skills to integrate and apply these competencies in real life and instructional leadership situations.

Master of Arts in Education/Adult Education and Training

The following Master of Arts in Education (MAEd)/Adult Education and Training program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts/Adult Education and Training Program (MAEd/AET) is a 35-credit program of study designed for individuals who wish to develop the skills to work with adult learners in areas such as corporate training, community college instruction, non-profit and community based organizations, human services agencies, or professional development. The program encompasses knowledge of andragogical theory, the needs of diverse learners, critical issues and trends in adult education and training, instructional design and strategies, the use of technologies, and assessment. It also provides courses that address coaching and mentoring, e-learning, and e-learning web design technologies. For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/maed-adm.

Courses requiring prerequisites are identified by a ~ symbol following the course number.

AET 555 ~ ................................................................. 3 credits

Overview of the Community College

Additional Admission Requirements for the MAED/AET
All applicants are expected to meet the following admissions requirements:

• An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.

• A minimum equivalent of three (3) years of post-high school work or volunteer experience.

• All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Completion Requirements for the MAED/AET

• Completion of a minimum of 35 credits.

• A minimum grade point average (GPA) of 3.0.

• Satisfactory completion of the action research proposal.

• Students must take courses within a sequence specified by course prerequisite requirements.

• The diploma awarded for this program will read as follows:
  Master of Arts in Education Adult Education and Training

Residency Requirements and Course Waivers for the MAED/AET

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of prior graduate level coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.

• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516, EDD 581.

Course Descriptions for the MAED/AET

COM 516 ................................................................. 1 credit
Professional Communications
This course provides new graduate students in University of Phoenix programs with an introduction to strategies for academic success within the University of Phoenix adult learning model. Topics include oral and written communication, methods for finding and evaluating course resources, critical thinking, the purpose and use of portfolios, program standards, stress and time management, and tools for collaborative learning, in preparation for team assignments in future classes.

AET 505 ................................................................. 3 credits
Foundations of Adult Education and Training
This course focuses on the principles of adult learning and andragogical theory. It addresses the history of adult learning, the characteristics of adult learners, key adult learning theories, and learning processes and styles. Additionally, the course investigates factors that influence adult education and training environments such as motivation, critical thinking skills, and ethics.

AET 510 ................................................................. 3 credits
Critical Issues and Trends in Adult Education and Training
This course explores trends, issues, and innovative programs in adult education and training. It focuses on the demographics of adult learners and on the implications of diversity for instruction. Learners examine political, cultural, social, and ethical issues that impact adult education and training. The course also examines these issues within an historical context.

AET 515 ................................................................. 3 credits
Instructional Design
This course focuses on systematic approaches to instructional design. Learners create an instructional plan that outlines each of the five components of a systematic instructional design model (i.e., ADDIE: analysis, design, development, implementation, and evaluation). The course identifies trends and issues in instructional design for adult learners.

AET 520 ................................................................. 3 credits
Instructional Strategies in Adult Education and Training
This course builds upon the foundation provided by the instructional design course and focuses on development and implementation of instruction that facilitates adult learning. Learners examine and apply models, strategies, and methods for planning and implementing instruction. Instructional approaches, engagement strategies, and management of the instructional environment are explored.
AET 525  ................................................................. 3 credits
Facilitating Instruction for Diverse Adult Learners
This course focuses on facilitation strategies for meeting the needs of diverse adult learners. It also examines differences in language, literacy skills, learning styles, Americans with Disabilities Act (ADA) provisions, and previous learning experiences and applies differentiated instruction techniques to address these differences. In addition, this course covers challenges and opportunities of diversity and multiculturalism in facilitating adult education and training.
AET 531 ................................................................. 3 credits
Assessment and Evaluation in Adult Learning
This course focuses on facilitating instruction for adult learners, including the use of Web resources and multimedia. It also addresses the facilitator's role in researching, selecting, integrating, and managing technology in an adult learning and training environment. The course focuses on technologies, software applications, and the evaluation of technology. Additionally, the course analyzes the effects of 21st Century technology tools on intellectual property and other legal matters.
AET 535 ................................................................. 3 credits
Mentoring and Coaching
This course focuses on mentoring and coaching improves teaching and learning. This course examines mentoring and coaching competencies, including ethical guidelines, creating collegial relationships, building learning communities, effective communication, problem-solving and conflict resolution, and facilitating learning and accountability. Candidates will be equipped with the knowledge and skills to integrate and apply these competencies in real life and instructional leadership situations.
AET 541 ................................................................. 3 credits
E-Learning
This course focuses on e-learning for adult learners. Students will apply instructional design techniques, learning theory, and technical tools to propose appropriate e-learning solutions to knowledge gaps and performance challenges.

EDD 581 ................................................................. 4 credits
Action Research and Evaluation
This course examines action research and its role in decision-making and in educational practices. Students are introduced to various types of action research and to the elements of the action research process, including identifying a problem, determining a problem statement and a purpose, conducting a literature review, planning for the collection and the analysis of data, and creating a plan of action. Methods for collecting, evaluating, and analyzing data are discussed. Students identify ethical issues related to research as well, including a professional code of ethics, confidentiality, and research using human subjects. In addition, they synthesize and apply the content of the course by writing a proposal for an action research study.

AET 545 ................................................................. 3 credits
E-Learning Design Technologies
This course provides adult learners the opportunity to design a Web-based e-learning tutorial. The focus is on the importance of planning, principles of good Web-page design, storyboarding, and elements of multimedia. Web-based design standards, as well as appropriate use of Web pages and multimedia, are analyzed. It reviews e-learning software, computer-mediated delivery platforms, and learning management systems.

AET 590 ................................................................. 3 credits
Performance Improvement and Management
This course provides learners with an overview of performance improvement principles. Learners identify and analyze organizational performance gaps, create learning interventions to diminish those gaps, and evaluate training using Kirkpatrick’s four levels.

AET 555 ................................................................. 3 credits
Overview of the Community College
This course provides an overview of the community college. It examines global, national, and local perspectives of the community college. The course also examines the history and development, mission and purpose, functions, governance and organization, and trends and issues of community colleges.
Master of Arts in Education/Teacher Leadership

The following Master of Arts in Education (MAEd)/Teacher Leadership program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts in Education program with a specialization in Teacher Leadership is intended for P-12 teachers who define themselves as learners, teachers, and leaders. Teachers become servant leaders who empower themselves and others to directly impact school culture as champions of innovation and facilitators of school improvement, professional development, and student achievement. The program provides advanced knowledge in collaboration, coaching and mentoring, decision making, planning, action research, and evaluation. Graduates will be able to serve their students, colleagues, and communities as ethical leaders committed to excellence.

For more information about our graduation rates, the median debt students, colleagues, and communities as ethical leaders committed to excellence.

Additional Admission Requirements for the MAED/TL

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative grade point average (GPA) of 2.5 on the undergraduate degree posted transcript is required for admission.
- A minimum equivalent of three (3) years of post-high school work or volunteer experience.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Completion Requirements for the MAED/TL

- Completion of a minimum of 38 credits.
- A minimum grade point average (GPA) of 3.0.
- Satisfactory completion of the action research proposal.
- Students must take courses within a sequence specified by course prerequisite requirements.
- The diploma awarded for this program will read as follows: Master of Arts in Education Teacher Leadership

Residency Requirements and Course Waivers for the MAED/TL

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of prior graduate level coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516, EDD 581.

Course Descriptions for the MAED/TL

EDL 501 .................................................................................... 0 credits
Orientation to Teacher Leadership
This course is designed to provide an orientation to the primary components of the Teacher Leadership Program. Students will be introduced to the program’s degree completion requirements. Course overviews, field experience, E-Portfolios, and technology resources will be discussed. Check with your local campus to see if this course is necessary.

EDL 500 .................................................................................... 3 credits
Personal Leadership
This course focuses on developing a personal philosophy of leadership. Students engage in self-assessment activities that reveal how individual values and beliefs directly influence personal leadership. Students examine their own organization and stakeholders who may play a role in their journey in school leadership. Aspects of effective communication are also addressed as students explore contemporary leadership theorists and popular beliefs behind organizations and school systems that will help build a foundation for personal growth.

EDL 505 .................................................................................... 3 credits
Cultural Competency
Culturally responsive teachers facilitate and support learning for all students regardless of their diversities. This course deepens candidates’ understanding of teaching and learning through examination of the diverse make-up of today’s communities, schools, and classrooms. Through personal reflection and identification of theoretically sound and culturally responsive pedagogy, this course prepares the candidate to model, mentor, and lead efforts in creating a school climate that effectively addresses the learning needs of all students.

EDL 510 .................................................................................... 3 credits
Teacher Leadership in a Global Society
This course focuses on contemporary theories of school reform and effective teacher leadership in a global society. Performance indicators and dispositions as related to evaluation or decision making are explored. Candidates examine components of effective teacher leadership, including empowering others, building collaborative organizational cultures, and making informed decisions for strategic planning, while creating a vision of change. They also explore how effective leadership provides them with multiple opportunities to critically analyze and apply various leadership styles. Course content reflects research-based frameworks on leadership and leadership processes that will assist candidates in becoming effective teacher leaders. Candidate participate in a theoretical and applied learning approach, which incorporates research and reflective writing activities, case studies, self-assessment, and collaborative team projects that are closely aligned with the National Board Professional Teaching Standards.

AET 541 .................................................................................... 3 credits
E-Learning
This course focuses on e-learning for adult learners. Students will apply instructional design techniques, learning theory, and technical tools to propose appropriate e-learning solutions to knowledge gaps and performance challenges.

EDL 515 .................................................................................... 3 credits
Organizational Leadership
This course focuses on the principles of organizational leadership. It examines the origins and components of effective organizations, as well as frames of leadership. Candidates apply their knowledge of these frames in reflecting on their organization. Additionally, they learn the skills to reframe their organization, provide leadership in turbulent times, and become agents and advocates of change.

EDL 520 .................................................................................... 3 credits
Instructional Leadership
This course is designed to provide professional teachers an introduction to instructional leadership. Candidates utilize an instrument of self-assessment and explore opportunities for leadership with reference to theoretical and practical aspects of school improvement. Candidates create a leadership plan that outlines long-term and short-term goals for continuous development of their leadership skills. In addition, they evaluate instructional practices, determine the effectiveness of teaching within the school curriculum, and propose appropriate strategies to improve instructional performance as outlined in research and theory as "best practices."

EDL 525 .................................................................................... 3 credits
Accountability and Evaluation
This course is designed to provide teacher leaders with an understanding of assessment, evaluation, and accountability components that are necessary to analyze curriculum, educational resources, test data and current accountability regulations. Students will apply procedures for evaluating and recommending strategies for improving the quality and effectiveness of curriculum and assessment as they relate to instruction.
Mentoring and Coaching
This course provides an exploration into how mentoring and coaching improves teaching and learning. This course examines mentoring and coaching competencies, including ethical guidelines, creating collegial relationships, building learning communities, effective communication, problem-solving and conflict resolution, and facilitating learning and accountability. Candidates will be equipped with the knowledge and skills to integrate and apply these competencies in real life and instructional leadership situations.

Legal and Ethical Issues in Education
This course provides teacher leaders with the opportunity to examine current legal and ethical issues in the educational setting. Legal and ethical issues will be identified through action research activities covering current laws, policies and politics, moral issues, academic integrity, privacy and confidentiality, legal issues involved in grant writing and discrimination and equal protection. These issues will be analyzed and discussed to determine how teacher leaders will be able to provide support to teachers and students with the purpose of improving current educational practices.

Action Research and Evaluation
This course examines action research and its role in decision-making and in educational practices. Students are introduced to various types of action research and to the elements of the action research process, including identifying a problem, determining a problem statement and a purpose, conducting a literature review, planning for the collection and the analysis of data, and creating a plan of action. Methods for collecting, evaluating, and analyzing data are discussed. Students identify ethical issues related to research as well, including a professional code of ethics, confidentiality, and research using human subjects. In addition, they synthesize and apply the content of the course by writing a proposal for an action research study.

E-Learning Design Technologies
This course provides adult learners the opportunity to design a Web-based e-learning tutorial. The focus is on the importance of planning, principles of good Web-page design, storyboarding, and elements of multimedia. Web-based design standards, as well as appropriate use of Web pages and multimedia, are analyzed. It reviews e-learning software, computer-mediated delivery platforms, and learning management systems.

Performance Improvement and Management
This course provides learners with an overview of performance improvement principles. Learners identify and analyze organizational performance gaps, create learning interventions to diminish those gaps, and evaluate training using Kirkpatrick's four levels.

Supervision of Curriculum, Instruction and Assessment
This course examines administrative responsibilities related to supervision of curriculum and instruction. Principal candidates will study the relationship among supervision, curriculum design, national and state standards, and effective instructional practice. Principal candidates will also participate in field experiences related to curriculum and instruction.

School Improvement Processes
This course focuses on the use of assessments in K-12 education and in developing school improvement plans from a principal perspective. Students will review the types of assessments that a school leader needs to be familiar with, and they will review how a school leader can use assessments to measure student achievement. Additionally, the model and processes of continuous school improvement are explored.

Family, Community and Media Relations
This course focuses on the role of the school principal as a catalyst for developing and for maintaining collaborations with families, business and community groups, and the media to support a school's vision and programs. Candidates analyze the research on school and community relations and its implications for their particular school. They also examine ways of learning about the nature of community resources, interests, and needs, establishing reciprocal relationships, the use of conflict resolution and decision making tools, and ethical issues when working with families, business, community, and media groups. In addition, candidates plan a social action project that involves school, families, community, and the media.
Master of Arts in Education/Curriculum and Instruction-Reading

The following Master of Arts in Education/Curriculum and Instruction-Reading (MAED/CI-RD) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts program in Curriculum and Instruction with a concentration in Reading is intended for P-12 teachers who would like to expand and deepen their theoretical knowledge, instructional expertise, and use of effective digital and print resources for diverse populations in the teaching and learning of reading and literacy. The International Reading Association standards and the College of Education's Conceptual Framework form the foundation for the focus of this program, which is to support reading professionals in learning and teaching new, research-based methodologies and in becoming advocates for collaborative, positive change in literacy education in their school, their district, and the community.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/maed-ci-rd.

Additional Admission Requirements for the MAED/CI-RD

All applicants are expected to meet the following admissions requirements:

• Students enrolled in this program must have an undergraduate degree from a regionally accredited college or university or equivalent undergraduate degree earned at a recognized foreign institution.

• A minimum equivalent of three (3) years post-high school work experience.

• All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Completion Requirements for the MAED/CI-RD

• Completion of a minimum of 35 credits.

• A minimum grade point average (GPA) of 3.0.

• Completion of Practicum course with a grade of "B" or better.

• Completion of Reading Teacher Work Sample.

• Completion of e-portfolios.

• Completion of Field Experience Observation Record (50 hours).

• Students must take courses within a sequence specified by course prerequisite requirements.

• The diploma awarded for this program will read as follows: Master of Arts in Education Curriculum and Instruction Reading

Minimum Grade Requirements for the MAED/CI-RD

• A candidate must earn a grade of "B" (grades of "I" and "B-" are not accepted) or better in the following course: READ 560.

• Candidates who earn less than a grade of "B" in this course must complete a remediation plan and repeat the course.

• If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.
Residency Requirements and Course Waivers for the MAED/CI-RD

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally accredited transferable coursework. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516, EDD 581, READ 560

Practicum Policies for the MAED/CI-RD

- The practicum is a supervised experience that provides candidates the opportunity to apply knowledge and skills acquired in the reading program to reading instruction for one or more students in a public, charter, or parochial school. The required practicum is 12 weeks in length. Each campus establishes operational policies related to placement and completion of the practicum. Candidates must follow the guidelines in place at their campus.
- Candidates must take the Practicum course concurrently with the practicum experience. If a candidate chooses to postpone the practicum, he/she must postpone their enrollment in the practicum courses.
- Candidates who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of “F” by their faculty member.
- The practicum can only be repeated one time.
- Unapproved self-terminations of the practicum will result in the candidate receiving a failing grade for the practicum experience and the associated practicum course. This experience counts as one of their two practicum attempts.
- Candidates who do not successfully complete the second practicum experience will be removed from the program and are not eligible for re-entry.
- MAED/CI-RD candidates, who are currently employed as the teacher of record in a classroom can complete the practicum or ‘validate’ in their current classroom. Candidates will be supervised and evaluated by a reading teacher/specialist as well as by a faculty supervisor in their classroom and will not have to seek additional placement for the practicum. Students must complete the Practicum course and complete and upload the Reading Teacher Work Sample.
- Candidates should complete the practicum within twelve (12) months from the completion date of their last required course in the program.
- Candidates must complete a minimum of six (6) credit hours of practicum, including the completion of a Reading Teacher Work Sample.

Field Experience for the MAED/CI-RD

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 50 hours of verified field experiences. The focus of each field experience will relate to specific course content and will follow a structured format. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to Practicum. Candidates must work with their campus to arrange field experience.

Course Descriptions for the MAED/CI-RD

READ 501 .................................................................................... 0 credits
Orientation to the Curriculum and Instr. Reading Program
This course is designed to provide an orientation to the primary components of the Curriculum and Instruction-Reading program. Candidates are introduced to the program’s progression and degree completion requirements. Field experience, the practicum, the teacher work sample, and completion of an e-portfolio are discussed.

COM 516 .................................................................................... 1 credit
Professional Communications
This course provides new graduate students in University of Phoenix programs with an introduction to strategies for academic success within the University of Phoenix adult learning model. Topics include oral and written communication, methods for finding and evaluating course resources, critical thinking, the purpose and use of portfolios, program standards, stress and time management, and tools for collaborative learning, in preparation for team assignments in future classes.

CUR 506 .................................................................................... 3 credits
Theories and Best Practices of Curriculum and Instruction
This course focuses on applying curricular theory to best practices in the 21st century classroom. Candidates explore the social and political foundations of curriculum and instruction and current research in this area. They analyze curriculum philosophy and planning as well as practical applications and innovations in curriculum design. Special attention is given to the use of technology in the development of effective learning environments and instruction in the 21st century classroom.

CUR 508 .................................................................................... 3 credits
Social, Political, and Cultural Contexts of Schools
This course explores the historical, political, social, and cultural constructs of contemporary education. The course includes an investigation of how social, political, and cultural contexts have contributed to the current state of national, state, and local educational settings. Additionally, the course examines how policies influence school decision making and teacher practice. Candidates apply an inquiry-based process to identify individual, social, and cultural contexts in education; explore contemporary issues in diversity and equity in education; and demonstrate an understanding of education in a global community in order to evaluate and determine their individual role in taking action in their local setting.
CUR 510 3 credits
Teachers as Leaders
In this course, teachers define, clarify, and reflect on their role as a leader. They explore leadership processes that utilize collaboration, coaching, mentoring, and inclusion. Additionally, they examine broad educational issues, as well as school-based issues and determine possibilities for initiating, sustaining, and building upon systemic change.

READ 504 3 credits
Theoretical and Research Foundations of Lang. and Literary
This course provides students with foundational knowledge in the study and application of research into critical issues in the field of literacy. Topics include research on the development and expansion of literacy, sociocultural influences on literacy, how research informs literacy instruction, and models of the reading process.

READ 522 3 credits
Reading and Writing Instructional Strategies for Elementary
This course considers the guiding principles of literacy development of children kindergarten through 6th grade. It examines diversity and the role of culture, community, family, and language in children’s growth as readers and writers. In addition, it considers the influence of assessment, technology, and print choices on children’s reading and writing development.

READ 533 3 credits
Reading and Writing Instructional Strategies for Adolescents
This course focuses on the most current research for teaching reading and writing to students at the middle and secondary levels. Various comprehension strategies, technology lessons, and assessment techniques are modeled. The connection between reading and writing is analyzed. Critical issues in reading are researched and debated.

READ 545 3 credits
Culturally Responsive Reading Methods and Materials
This course focuses on reading and writing instructional methods that respond to the needs of culturally and linguistically diverse learners and the selection of materials to support that instruction. Candidates select methods that meet the needs of the school and community, evaluate the materials for suitability, and create a vision for a culturally responsive classroom.

READ 523 3 credits
Content Area Reading and Writing for Elementary
This course focuses on methods and materials for teaching diverse elementary children to read and write well in various content areas. Candidates examine current critical issues affecting content area reading and writing, including state and national assessments. Effective reading and writing strategies, classroom management techniques, technology tools, media, and print materials which enhance children’s reading and writing in content areas are also examined.

READ 534 3 credits
Content Area Reading and Writing for Adolescents
This course focuses on strategies for teaching reading and writing to 7-12 students in content-area classrooms. Various vocabulary and comprehension strategies, study techniques, and writing to learn techniques are studied. Print and non-print texts are analyzed. Issues in reading and writing in content areas are examined and debated.

EDD 581 4 credits
Action Research and Evaluation
This course examines action research and its role in decision-making and in educational practices. Students are introduced to various types of action research and to the elements of the action research process, including identifying a problem, determining a problem statement and a purpose, conducting a literature review, planning for the collection and the analysis of data, and creating a plan of action. Methods for collecting, evaluating, and analyzing data are discussed. Students identify ethical issues related to research as well, including a professional code of ethics, confidentiality, and research using human subjects. In addition, they synthesize and apply the content of the course by writing a proposal for an action research study.

READ 555 3 credits
Diagnosis and Remediation of Rdg. and Writing Difficulties
This course focuses on assessing and addressing students’ strengths and needs in the areas of reading and writing. Topics include identifying appropriate assessments, managing implementation of assessments, and communicating assessment results to students and parents. In addition, selecting, planning, and implementing research-based instruction, selecting appropriate instructional materials, and using technology effectively are covered. The course includes a practical application project based on work with a student in a K-12 school setting.

READ 560 6 credits
Reading Practicum
In this supervised practicum, candidates apply their knowledge of language and literacy theories, research, and best practices to an ongoing assessment-instruction process. Candidates work intensively with one or more primary or intermediate struggling readers at a public, charter, or parochial school daily for six weeks. They create a supportive literacy environment, assess a student’s strengths and needs, develop an individualized instructional plan that utilizes appropriate text and electronic resources, and implement sound instructional practices via their reading and writing lessons. In addition, candidates critically reflect on their practice in a journal, and submit a final report that synthesizes their instruction and their student’s performance, reflects on the process, and makes recommendations for teachers who work with the student and for parents. The seminar also provides a forum for open discussion of goals and problem solving based on practicum experience.
Master of Arts in Education/Elementary Teacher Education (Florida)

The following Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) is a graduate degree program preparing candidates for teacher licensure. The guiding philosophy of the MAED/TED-E program is to provide the adult student, who already has a degree in a discipline other than education, with the skills and knowledge that will allow them to become a competent and effective educator. This program focuses on elementary student learning by improving the educator’s responsibility for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student’s professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/maed-ted-e.

The University reserves the right to modify the Required Course of Study.

Additional Admission Requirements for the MAED/TED-E

All applicants are expected to meet the following admissions requirements:

- Students enrolled in this program must have an undergraduate degree from a regionally accredited college or university or equivalent undergraduate degree earned at a recognized foreign institution.

- Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved University of Phoenix evaluation agency list and the state regulating board list of approved agencies, for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending the Online campus should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.

- A minimum equivalent of three (3) years post-high school work or volunteer experience.

- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
Candidacy Status for the MAED/TED-E
The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.
- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be uploaded to the Teacher Education Program Requirement DRF in the e-portfolio and the student's eXp file.
  - 1. Demonstration of basic skills proficiency
  - 2. Verification of fingerprint clearance
Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the MAED/TED-E
- Completion of a minimum of 44 credits.
- A minimum grade point average (GPA) of 3.0.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Students must take courses within a sequence specified by course prerequisite requirements.
- Completion of Field Experience Observation Record (100 hours). To ensure student's meet this requirement documentation will be periodically uploaded, reviewed, and maintained in the candidate's e-portfolio.
- Completion of e-portfolio.
- In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.
- The diploma awarded for this program will read as follows: Master of Arts in Education Elementary Teacher Education

Academic Progression Requirements for the MAED/TED-E
Candidates must provide verification of the following prior to beginning their student teaching experience. Candidates must provide:
- Immunization or TB test results (District specific)
- Passing scores on the designated state content knowledge exam (elementary content or secondary content area specific)
- Students may submit passing scores on a comparable content knowledge examination from another state or agency taken within the past 7 years
- Verification of the completion of 100 hours of field experience. Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the MAED/TED-E
- A candidate must earn a grade of "B" (grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: ELM 598 and ELM 599.
- Candidates must earn a "B" or better in Student Teaching Part A & B in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Cooperating/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Institutional Recommendation for the MAED/TED-E
- Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).
- Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates’ records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates must pass their state-mandated professional knowledge exam.
- Candidates must provide verification of school law, state and U.S. Constitution coursework, as required by the state certification agency.

Residency Requirements and Course Waivers for the MAED/TED-E
Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally accredited transferable coursework. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516, ELM 598, ELM 599, MTE 507, MTE 518, MTE 522, MTE 533, RDG 537, SPE 514
Students who complete the Teach for America Summer Institute are eligible to waive the following course in the MAED/TED programs; however, they may not exceed the maximum number of credits allowed to be waived in their program. Candidates must provide verification of completion in order to be eligible for these waivers.

**Field Experience for the MAED/TED-E**

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels from ages birth through 18 years of age. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students’ electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experience.

**Student Teaching for the MAED/TED-E**

1. Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Candidates must take Student Teaching Part A & B concurrently with the student teaching experience. If a candidate chooses to postpone student teaching, he/she must postpone their enrollment in the student teaching courses.
- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Student teaching can only be repeated one time.
- Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
- Candidates who do not successfully complete the second student teaching experience will be removed from the program and are not eligible for re-entry.
- Candidates enrolled in the MAED/TED program must student teach in the subject area in which a passing score was achieved on the content knowledge assessment exam. This is either an elementary (general), middle level (subject specific), or secondary (content specific) setting based on their program specialization.
- Candidates in the MAED/TED program may not student teach in special education.

- MAED/TED candidates, who are currently employed as the teacher of record in a classroom appropriate grade level/content for the certificate they are pursuing (e.g., 4th grade for elementary candidate or 9th grade English for secondary candidate), can ‘student teach’ or ‘validate’ in their current classroom. Students will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Students must complete the Student Teaching courses and complete and upload the Teacher Work Sample.
- Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education Program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.

- Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
- Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

This course introduces teaching as both an art and a science. Topics for discussion include an historical overview, basic philosophies, professionalism, legal/ethical ramifications, in addition to trends and issues in education. Students will reflect on their motivations to teach and will begin developing a personal philosophy of education.
SEI 503 ..................................................................................... 3 credits
Advanced Structured English Immersion Methods
This course addresses Structured English Immersion (SEI) instruction and assessment of K-12 English Language Learners (ELLs), and is designed to meet the standards set by the Arizona Department of Education. It examines the legal, historical, and educational reasons for SEI, as well as theoretical principles of language acquisition and the role of culture in learning. It also emphasizes the alignment of ELL Proficiency Standards to Arizona’s Academic Standards and their application to lesson planning. The Arizona English Language Learner Assessment (AZELLA), use of alternative assessments, analysis of data, and the application of data to instruction, are emphasized as well. A final project synthesizes the concepts and instructional strategies taught in the course.

SPE 514 .................................................................................... 2 credits
Survey of Special Populations
This course provides an overview of the categories of exceptionality for school-age students with special needs. The course focuses on differentiated methods and techniques used for the identification, assessment, and instruction of diverse populations. Historical perspectives and information related to special education law, and current policies and practices are examined.

MTE 531 .................................................................................. 2 credits
Curriculum Constructs & Assessment: History and Social Science
This course defines and provides a context for teaching and assessing K-8 students in the areas of history and social science based on scope, sequence, and national and state standards. Instructional approaches for the content area within the framework of an integrated curriculum are explored, including the use of critical thinking skills and study skills. Students develop alternative assessments and traditional testing tools based on clear criteria, which are designed to yield accurate information on student progress.

MTE 533 .................................................................................. 4 credits
Curriculum Constructs & Assessment: Science and Mathematics
This course focuses on the pedagogy and assessment strategies that enhance learning in science and mathematics. Integrated content, interdisciplinary teaching, and curriculum and assessment issues are emphasized. Multiple perspectives of students as learners of math and science are explored. This course provides students with an opportunity to develop the ability to evaluate and use instructional methods, curricular materials and resources, and appropriate assessment strategies.

MTE 534 .................................................................................. 2 credits
Curriculum Constructs & Assessment: Visual and Performing Arts
This course defines and provides a context for teaching and assessing students in the area of visual and performing arts based on scope, sequence, and national and state standards. An emphasis is placed on integrating art across the curriculum.
MTE 537  ................................................................................................. 2 credits
Curriculum Constructs & Assessment: Physical Education and Health

This course defines and provides a context for the classroom teacher to teach and assess K-8 students in the area of physical education and health based on a scope and sequence, and on state and national standards. This course includes framework-based teaching strategies effective in helping K-8 students develop a variety of motor skills and abilities, recognize the importance of a healthy lifestyle, gain knowledge of human movement, learn the rules and strategies of games and sports, and develop self-confidence and self-worth. This course also includes framework-based teaching strategies effective in helping K-8 students achieve the goals of lifelong health; understand growth and development; and utilize health-related information, products, and services. Instructional approaches for the integration of physical education and health with other content areas are explored.

ELM 598 ................................................................................................. 4 credits
Elementary Student Teaching Part A

This course emphasizes the practical application of educational theories and methods including classroom management, grading, and strategies to increase parent communication and/or family and community involvement. In addition, students will receive practical guidance in securing a teaching position, time management, and developing and maintaining relationships with colleagues and parents. This seminar also provides a forum for open discussion and problem solving based on classroom experiences.

ELM 599 ................................................................................................. 4 credits
Elementary Student Teaching Part B

This course will focus on the design and implementation of the Teacher Work Sample. It also provides students practical guidance in securing a teaching position. Students will examine resumes and cover letters, teaching applications, and interview strategies. Assistance in preparing an employment portfolio will be provided. This seminar also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

Master of Arts in Education/Secondary Teacher Education (Florida)

The following Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) is a graduate degree program preparing candidates for teacher licensure. The guiding philosophy of the MAED/TED-S program is to provide the adult student, who already has a degree in a discipline other than education, with the skills and knowledge that will allow them to become a competent and effective educator. This program focuses on secondary student learning by improving the educator’s responsibility for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content. Documentation will be maintained in the student’s professional portfolio.

• Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Course Descriptions for the MAED/TED-S

MTE 501 .................................................................................... 2 credits

**The Art and Science of Teaching**

This course introduces teaching as both an art and a science. Topics for discussion include an historical overview, basic philosophies, professionalism, legal/ethical ramifications, in addition to trends and issues in education. Students will reflect on their motivations to teach and will begin developing a personal philosophy of education.

SEC 508 .................................................................................... 3 credits

**Models, Theories and Strategies for Secondary Education**

This course focuses on the theoretical models that underlie teaching and learning. Students examine methods for teaching all students, explore lesson plan designs, analyze the most effective teaching strategies to promote student learning, and develop a lesson plan.

MTE 523 .................................................................................... 3 credits

**Maintaining an Effective Learning Climate**

This course examines the strategies used in managing a positive classroom environment within the framework of today’s diverse student population. Topics include models of discipline, establishing expectations and procedures, motivating students, parent communication, managing disruptive students, and materials management and record keeping. The course focuses on helping teacher candidates to develop an individual classroom management plan appropriate for their targeted grade levels and needs.

MTE 506 .................................................................................... 2 credits

**Child and Adolescent Development**

This course explores the range of issues related to human development from birth through age 18. The focus of the course is on defining the various stages as they impact instructional practice and decisions in a K-12 environment. Emotional, intellectual, physiological, social, and cultural factors are discussed. Peer and family influences, along with issues related to media themes and gender bias, are examined.

MTE 562 .................................................................................... 3 credits

**Assessment and Evaluation**

This course focuses on developing the skills necessary to become effective assessors. It provides the fundamentals of a variety of classroom assessments, including formative and summative traditional as well as authentic assessments. Learners will focus on using a variety of assessment tools to assist in making instructional decisions. Additionally, the purposes, the methods, and the reporting of evaluations are explored.

RDG 542 .................................................................................... 3 credits

**Curriculum Constructs & Assessment: Reading Methods for Secondary Settings**

This course focuses on the most current research, theory, and methods of teaching literacy, in particular, reading, writing, and technological literacy, in the content areas at the secondary level. Various institutional and assessment techniques are modeled. A practical application project, based on work with a student in a 7th-12th grade setting, is incorporated into the course requirements.
SEI 500 ..................................................................................... 3 credits
Structured English Immersion
This course will introduce students to the concept of and methods for instructing in a Structured English Immersion (SEI) environment. Students will learn about assessment of K-12 students, state standards, research-based instructional activities, and lesson planning and implementation models. Students will study how a learner-centered approach to teaching can provide English Language Learners (ELL), as well as native English speakers, with a greater opportunity to interact meaningfully with educational materials as they learn subject matter and ELL Learners acquire English.

SPE 514 .................................................................................... 2 credits
Survey of Special Populations
This course provides an overview of the categories of exceptionality for school-age students with special needs. The course focuses on differentiated methods and techniques used for the identification, assessment, and instruction of diverse populations. Historical perspectives and information related to special education law, and current policies and practices are examined.

SEC 598 ..................................................................................... 4 credits
Secondary Student Teaching Part A
This course emphasizes the practical application of educational theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The course also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

SEC 599 ..................................................................................... 4 credits
Secondary Student Teaching Part B
This course will focus on the design and implementation of the Teacher Work Sample. It also provides students practical guidance in securing a teaching position. Students will examine resumes and cover letters, teaching applications, and interview strategies. Assistance in preparing an employment portfolio will be provided. This seminar also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

SEI 503 ..................................................................................... 3 credits
Advanced Structured English Immersion Methods
This course addresses Structured English Immersion (SEI) instruction and assessment of K-12 English Language Learners (ELLs), and is designed to meet the standards set by the Arizona Department of Education. It examines the legal, historical, and educational reasons for SEI as well as theoretical principles of language acquisition and the role of culture in learning. It also emphasizes the alignment of ELL Proficiency Standards to Arizona’s Academic Standards and their application to lesson planning. The Arizona English Language Learner Assessment (AZELLA), use of alternative assessments, analysis of data, and the application of data to instruction, are emphasized as well. A final project synthesizes the concepts and instructional strategies taught in the course.

MTE 559 ..................................................................................... 3 credits
Curriculum Constructs and Assessment: Secondary Methods
This course focuses on the methodology and assessment strategies that enhance learning at the secondary level. Integrated content, interdisciplinary teaching, and curriculum and assessment issues are emphasized. Multiple perspectives of students as learners of secondary content, along with current research on pedagogy, are explored. This course provides students with an opportunity to develop the ability to use and evaluate instructional and curricular materials and appropriate assessment strategies.

Master of Arts in Education/Early Childhood Education
The following Master of Arts in Education/Early Childhood Education (MAED/ECH) program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Master of Arts in Education (MAED) with a specialization in Early Childhood Education is a graduate degree program preparing candidates for teacher licensure in the field of early childhood (birth to age eight). Candidates for this program have already earned a bachelor’s degree and wish to gain the pedagogical skills and knowledge that will assist them in becoming competent and effective early childhood educators. The curriculum is based on state and national standards for early childhood education. It includes theories of early childhood growth and development, the significance of family and cultural diversity for learning, the use of developmentally appropriate practices, assessment techniques, and technology to promote learning. Student teaching is an integral component of the Early Childhood Education Program. It provides students with a field-based experience in two early childhood settings. Student teachers work with a cooperating teacher and with a University of Phoenix faculty advisor in an early childhood setting that serves children birth through preschool as well as in an early childhood setting that serves children in kindergarten through grade three. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified early childhood educator. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences. The focus of observations related to specific course content will be conducted in an early childhood setting that serves children birth through preschool as well as in an early childhood setting that serves children in kindergarten through grade three. Documentation will be maintained in the students professional portfolio.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/maed-ech.

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the MAED/ECH
All applicants are expected to meet the following admissions requirements:

- Students enrolled in this program must have an undergraduate degree from a regionally accredited college or university or an equivalent undergraduate degree earned at a recognized foreign institution.
- Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved University of Phoenix evaluation agency list and the state regulating board list of approved agencies for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending the Online campus should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.
- A minimum equivalent of three (3) years post-high school work or volunteer experience.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Candidacy Status for the MAED/ECH
The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be uploaded to the Teacher Education Program Requirement DRF in the e-portfolio and the student's eXp file.
  - Demonstration of basic skills proficiency
  - Verification of fingerprint clearance

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the MAED/ECH

- Completion of a minimum of 46 credits.
- A minimum of 46 graduate credits.
- A minimum grade point average (GPA) of 3.0.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Students must take courses within a sequence specified by course prerequisite requirements.
- Completion of Field Experience Observation Record (100 hours). To ensure student's meet this requirement documentation will be periodically uploaded, reviewed, and maintained in the candidate's e-portfolio.
- Completion of e-portfolio.
In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.

The diploma for this program will read as follows:
Master of Arts in Education
Early Childhood Education

Academic Progression Requirements for the MAED/ECH
Candidates must provide verification of the following prior to beginning their student teaching experience. Candidates must provide:

- Verification of immunization or TB test results (District specific)
- Verification of content knowledge mastery prior to student teaching (PRAXIS or AEPA content exam)
- Online students may submit passing scores on a comparable content knowledge examination from another state or agency taken within the past 7 years.
- Verification of the completion of 100 hours of field experience

Candidates will be required to have the minimum GPA for the program prior to entering the Student Teaching experience.

Minimum Grade Requirements for the MAED/ECH

- A candidate must earn a grade of "B" (grades of "I" and "B-" are not accepted) or better in the following courses in order to student teach: ECH 598 and ECH 599.
- Candidates must earn a "B" or better in Student Teaching Part A & B in order to complete this program. Candidates who do not earn a "B" or better will be required to repeat the seminar(s) in which the candidate did not receive the required minimum grade and the related portion of student teaching. The Campus College chair will coordinate with the Co-Op/Mentor Teacher and Faculty Supervisor to design a remediation plan.
- Candidates must earn a "B" or better in Student Teaching Part A & B in order to complete the MAED/ECH program. Candidates who do not earn a "B" or better will be required to repeat the seminars and student teaching.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended, permanently withdrawn, from the program.

Institutional Recommendation for the MAED/ECH

Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Upon completion, candidates must complete a University of Phoenix diploma application in order to receive a diploma and official transcript. Candidates' records will be analyzed to ensure that they have met all academic and financial requirements of their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must pass their state-mandated professional knowledge exam.

Candidates must provide verification of state and U.S. Constitution coursework as required by the state certification agency.

Online students may submit a passing score on a comparable professional knowledge examination from another state or agency taken within the past 7 years.

Residency Requirements and Course Waivers for the MAED/ECH

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516, ECH 508, ECH 514, ECH 523, ECH 538, ECH 539, ECH 598, ECH 599, MTE 507

Field Experience for the MAED/ECH

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of early childhood developmental levels. The focus of each field experience will relate to specific course content and will follow a structured format. Four formal field experience evaluations are required during the program (observation, one-on-one instruction, small-group instruction, and whole-group instruction). These evaluations must be posted to the students' electronic portfolio. Documentation of field experience must be uploaded to the electronic portfolio and will be reviewed by campus staff and faculty prior to student teaching. Candidates must work with their campus to arrange field experiences.

Student Teaching for the MAED/ECH

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Candidates must take Student Teaching Part A & B concurrently with the student teaching experience. If a candidate chooses to postpone student teaching, he/she must postpose their enrollment in the student teaching courses.
- Candidates must earn a "B" or better in Student Teaching Seminar A in order to progress to Seminar B and the remainder of the student teaching experience. Candidates who do not earn a "B" or better will be required to repeat the seminar and student teaching.

- Student teachers who are removed from a placement at the request of a school district administrator will be withdrawn from class and will be issued a grade of "F" by their faculty member.
- Student teaching can only be repeated one time.
• Unapproved self-terminations of student teaching will result in the candidate receiving a failing grade for the student teaching experience and the associated student teaching seminar. This experience counts as one of their two student teaching attempts.
• Candidates who do not successfully complete the second student teaching experience will be removed from the program and are not eligible for re-entry.
• Candidates enrolled in the MAED/ECH program must student teach in an early childhood setting (Birth - Age 8). Candidates are required to complete two separate student teaching experiences for a total of twelve (12) weeks. Student teaching must include a minimum of six (6) weeks in a teaching setting serving children birth through preschool/pre-kindergarten and a minimum of six (6) weeks in a teaching setting serving children in kindergarten through Grade 3. The birth through preschool/pre-kindergarten student teaching site must be licensed by the Department of Health Services or regulated by tribal or military authorities.
• Candidates in the MAED/ECH program may not student teach in special education.
• MAED/ECH candidates, who are currently employed as the teacher of record in a classroom appropriate grade level/content for the certificate they are pursuing, can ‘student teach’ or ‘validate’ in their current classroom. Students will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Students must complete the Student Teaching courses and complete and upload the Teacher Work Sample.
• Students should complete student teaching within twelve (12) months from the completion date of their last required course in the program.
• Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching experience through the University of Phoenix Online campus. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online campus for a list of participating states and procedures for student teaching placement.
• Candidates must enroll in the remaining Student Teaching Seminars through the Online campus while completing their student teaching experience.
• Candidates need to work directly with the Online campus to complete the requirements for verification of placement.

Course Descriptions for the MAED/ECH
MTE 507 ............................................................................................................. 0 credits
Orientation to Teacher Education
This course is designed to provide an orientation to the primary components of the Teacher Education Program. Students will be introduced to the program’s progression and degree completion requirements. Field Experience, Electronic Resources, E-Portfolio, Student Teaching, and Teacher Work Sample will be discussed. COM 516 ............................................................................................................. 1 credit
Professional Communications
This course provides new graduate students in University of Phoenix programs with an introduction to strategies for academic success within the University of Phoenix adult learning model. Topics include oral and written communication, methods for finding and evaluating course resources, critical thinking, the purpose and use of portfolios, program standards, stress and time management, and tools for collaborative learning, in preparation for team assignments in future classes.
ECH 506 ............................................................................................................. 3 credits
Introduction to Early Childhood Education
This course provides an overview of early childhood education for children, birth through age eight. Topics include theories and history of early childhood education, play theories, program types and models, and public policy trends. The course examines the significance of developmentally effective learning experiences throughout early childhood programs.
ECH 508 ............................................................................................................. 3 credits
Models, Theories and Instructional Strategies for Early Childhood Education
This course focuses on the theoretical models that underlie teaching and learning. Students examine methods for teaching all students, explore lesson plan designs, analyze the most effective teaching strategies to promote student learning, and develop a lesson plan.
ECH 523 ............................................................................................................. 3 credits
Maintaining an Effective Learning Climate
This course examines developmentally effective strategies used in managing a positive classroom environment within the framework of special needs students ages birth to grade three. Topics include models of discipline, establishing expectations and procedures, motivating students, parent communication, managing disruptive students, technology integration, and materials management and record keeping. The course focuses on helping teacher candidates to develop an individual classroom management plan appropriate for an early childhood setting.
ECH 551 ............................................................................................................. 3 credits
Growth and Development in Early Childhood
This course examines the theories, concepts, and trends related to early childhood growth and development from prenatal development through the early school years. It examines the physical, social, emotional, cognitive, and language and literacy development of children from birth through age eight. The course discusses both typical and atypical development of young children of diverse cultural backgrounds. It includes observation and activities to guide teachers and caregivers in providing opportunities that support the physical, social, emotional, language, and cognitive development of children from birth through age eight.
ECH 548 ..............................................................................................................3 credits
**Early Childhood Assessment Strategies**
This course provides exposure to a variety of assessment techni ques in early childhood education, including children with special needs. There is a focus on structured observations, use of behavioral rating scales, psycho-educational screening tests, and assessment of parent-child interactions. Formal and informal parent contacts, interviewing techniques, the use of technology in the assessment process, and referrals to school and community resources are also explored. Emphasis is placed on developmental and differentiated assessment strategies for children birth through age eight.
ECH 538 ..............................................................................................................4 credits
**Methods of Teaching in Early Childhood: Language and Literacy**
This course focuses on children’s language and literacy development from birth to age eight. Students examine theories of language development, including theories of second language acquisition and the needs of English Language Learners. They also explore strategies for engaging children in integrated listening, speaking, reading, and writing experiences. Integration of content area standards and development of hands-on learning experiences are emphasized. Additionally, developmentally effective assessments are discussed as a means of informing instruction.
SEI 500 ..............................................................................................................3 credits
**Structured English Immersion**
This course will introduce students to the concept of and methods for instructing in a Structured English Immersion (SEI) environment. Students will learn about assessment of K-12 students, state standards, research-based instructional activities, and lesson planning and implementation models. Students will study how a learner-centered approach to teaching can provide English Language Learners (ELLs), as well as native English speakers, with a greater opportunity to interact meaningfully with educational materials as they learn subject matter and EL Learners acquire English.
ECH 514 ..............................................................................................................2 credits
**Survey of Special Populations**
This course provides an overview of exceptionality in early childhood education. It focuses on differentiated methods and techniques used for the identification, assessment, and instruction of students ages birth to grade three who have special needs. Historical perspectives and information related to special education law and current policies and practices are examined.
SEI 503 ..............................................................................................................3 credits
**Advanced Structured English Immersion Methods**
This course addresses Structured English Immersion (SEI) instruction and assessment of K-12 English Language Learners (ELLs), and is designed to meet the standards set by the Arizona Department of Education. It examines the legal, historical, and educational reasons for SEI, as well as theoretical principles of language acquisition and the role of culture in learning. It also emphasizes the alignment of ELL Proficiency Standards to Arizona’s Academic Standards and the application to lesson planning. The Arizona English Language Learner Assessment (AZELLA), use of alternative assessments, analysis of data, and the application of data to instruction, are emphasized as well. A final project synthesizes the concepts and instructional strategies taught in the course.
ECH 527 ..............................................................................................................2 credits
**Methods of Teaching in Early Childhood: The Arts**
This course focuses on understanding and using developmentally effective practices to teach and to integrate music, creative movement, dance, drama, and art in early childhood education. Curricular content, modifications, development of hands-on learning experiences, and integration of content area standards are explored. A foundation in effective teaching and assessment methodologies in the early childhood setting is provided.
ECH 539 ..............................................................................................................4 credits
**Methods of Teaching in Early Childhood: Mathematics and Science**
This course focuses on understanding and using developmentally effective practices to teach and to integrate mathematics and science concepts and skills in early childhood education (birth through age eight). Developing meaningful curricular content, modifications, hands-on learning experiences, and integration of early childhood content area standards are explored. A foundation in developmentally effective teaching and assessment of the content area is provided.
ECH 534 ..............................................................................................................2 credits
**Methods of Teaching in Early Childhood: Social Studies**
This course provides a solid foundation in program content and methodology for the teaching of social studies. It explores curricular content, modifications, development of hands-on learning experiences, integration of content area standards, and the impact of new technology. Effective instructional methodologies for teaching social studies are addressed.
ECH 526 ..............................................................................................................2 credits
**Methods of Teaching in Early Childhood: Physical Education**
This course provides a foundation in content and methodology for the teaching of physical education, including movement and health, for children birth through age eight. It focuses on understanding and using developmentally effective practices in teaching and integrating movement, physical activity, and physical education in early childhood settings. Curricular content, modifications, development of hands-on learning experiences, integration of content area standards, and the impact of new technology are explored.
ECH 598 ..............................................................................................................4 credits
**Early Childhood Student Teaching Part A**
This course emphasizes the practical application of educational theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The course also provides a forum for open discussion and problem solving based on student teaching classroom experiences.
ECH 599 ..............................................................................................................4 credits
**Early Childhood Student Teaching Part B**
This course will focus on the design and implementation of the Teacher Work Sample. It also provides students practical guidance in securing a teaching position. Students will examine resumes and cover letters, teaching applications, and interview strategies. Assistance in preparing an employment portfolio will be provided. This seminar also provides a forum for open discussion and problem solving based on early childhood student teaching classroom experiences.
The University of Phoenix offers Professional Certificate programs to organizations and individuals with professional development or specialized training needs. The programs effectively blend theory and practice, enabling the individual to rapidly become a more effective manager or specialist.

Certificate programs are currently available in several fields: technology, education, call center professional, human resource management, health care, and project management.

A Credit Bearing Certificate program is one that bears University of Phoenix credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each College.

**Admission Requirements**

All applicants are expected to meet the following admission requirements:

- Signed Certificate Application
- Applicants whose native language is not English must have either:
  - Achieved a minimum score of 213 on the computer-based test (cBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  - or-
  - Achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  - or-
  - Achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
  - or-
  - Achieved a minimum score of 75 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam within two years of application to the University.
  - or-
  - Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
- The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:
  - Successful completion of 30 transferable academic semester credits at a regionally or nationally accredited college or university in the United States.
  - or-
  - Successful completion of 30 transferable academic semester credits at a recognized college or university in a country in which English is the official language.
- U.S. high school diploma or GED administered in English.
- Equivalent of a U.S. high school diploma from a country in which English is the official language.
- Only students who reside within the United States and its territories are eligible to enroll into a University of Phoenix bachelor or master of education program.
- Applicants who reside in the United States must meet one of the following requirements:
  - Be a legal resident of the United States
  - Have been granted permanent residency
  - Have a valid visa that does not prohibit educational studies
  - Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
  - Have been granted asylum along with copy of passport and I-94 bearing the stamp indicating the issue and expiration dates of the Asylee status.
- Applicants who reside in Canada must meet one of the following requirements:
  - Be a legal resident of Canada
  - Be a landed immigrant
  - Have a valid visa that does not prohibit educational studies
- A signed Enrollment/Disclosure Agreement.

Students are subject to all other University policies and procedures and additional requirements may be applied to specific programs at the discretion of the Dean.
CERTIFICATE PROGRAMS FOR THE UNIVERSITY OF PHOENIX SCHOOL OF BUSINESS - UNDERGRADUATE

Project Management

The following certificate program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The project management course sequence focuses on the professional success of its students. It emphasizes real-world application with assignments designed to apply the newfound skills and knowledge to the workplace. Practical study materials, team activities, and presentations to the class foster teamwork, critical thinking, self-confidence, and application of project technical and leadership skills on a real-time basis. This program is consistent with generally accepted project management principles, including the project management processes and knowledge areas.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/pm.

Course work requiring prerequisites are identified by a ~ symbol following the course number.

Required Course of Study for the PM

CPMGT 300 ~ ........................................................................3 credits
CPMGT 301 ~ ........................................................................3 credits
CPMGT 302 ~ ........................................................................3 credits
CPMGT 303 ~ ........................................................................3 credits
CPMGT 304 ~ ........................................................................3 credits
CPMGT 305 ~ ........................................................................3 credits
CPMGT Capstone

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the PM

All applicants to this certificate program are expected to meet the following additional admission requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
- Applicants must have access to a suitable work environment for the completion of course assignments.

Certificate Completion Requirements for the PM

Credit Bearing Certificate completion requirements are the following:

- Completion of a minimum of 18 credits.
- A minimum program grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their certificate program.

Residency Requirements and Course Waivers for the PM

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 3 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following course in the required course of study may not be waived: CPMGT 305

Course Descriptions for the PM

CPMGT 300 ........................................................................3 credits

Project Management

This course examines project management roles and environments, the project life cycle, and various techniques of work planning, and control and evaluation to achieve project objectives. The tools currently available to project managers are illustrated in this course through the use of Microsoft® Project® software.

CPMGT 301 ........................................................................3 credits

Strategic Portfolio and Project Management

This course provides students with insight into the management of an organization’s strategic project portfolio. Students will learn the value of aligning a project’s goals and objectives with the organization’s strategies and stakeholders’ interests. In addition, this course will illustrate how project teams are used to accomplish continuous improvement and to facilitate change within the organization. Students will also examine the characteristics of global and virtual project management.
CPMGT 302 ................................................................. 3 credits
Procurement and Risk Management
This course explores the procurement planning process, contracting methods and phases, outsourcing, contract administration, and the external environment of the procurement management processes. The course also addresses risk management applied to both project and procurement management processes.

CPMGT 303 ................................................................. 3 credits
Project Estimating and Control Techniques
To be successful, project managers must analyze alternative project decisions by relying heavily on project estimating and control tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance. Students work in groups to analyze program parameters and work situations.

CPMGT 304 ................................................................. 3 credits
Leading Projects in Organizations
This course provides students with an overview of organizational behavior as it relates to project management. It introduces various techniques and processes that will help students develop effective communication and interpersonal skills to successfully manage project teams. In addition, numerous leadership and motivation theories are presented as well as techniques that minimize stress in the project environment. Furthermore, project decision-making processes and techniques that facilitate effective and efficient project change management are addressed in this course. Students will also examine the influence of globalization, technology, and future trends in project management.

CPMT 305 ................................................................. 3 credits
Project Management Capstone
This course is the capstone of the Professional Certificate in Project Management. Students will demonstrate project management skills learned via the preparation of a project plan and presentation of that plan to the executive board in a role-play environment. Key project management concepts and processes studied in the prior five courses will be integrated and applied to the class project.

Human Resource Management
The following certificate program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

The Certificate Program in Human Resource Management provides education in areas which the human resource professional faces daily; from legal matters to staff recruitment and development. This program is designed for those who have functional responsibility to carry out the duties of an organization’s human resource department; seasoned human resource staff members wishing to keep current; newcomers to the field requiring new knowledge and skills; and specialists wanting to broaden their knowledge.

Major topic areas covered include the role of human resources, employment practices, employee and labor relations, compensation, benefits, safety and health, and employee development. Participants acquire knowledge and skills that are essential in addressing the challenges of the human resource profession.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/hrm.

Employee Development
HRM 498 ~ ......................................................... 3 credits
Strategic Human Resource Management and Emerging Issues
The University reserves the right to modify the required course of study.
Additional Admission Requirements for the HRM
All applicants to this certificate program are expected to meet the following additional admission requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate or CHSPE (California High School Proficiency Examination) certificate.
- Applicants must have access to a suitable work environment for the completion of course assignments.

Certificate Completion Requirements for the HRM
- Completion of a minimum of 18 credits.
- A minimum grade point average (GPA) of 2.0.
- All students must complete the minimum number of credits required by their certificate program.
- The certificate awarded for this program will read as follows: Human Resource Management.

Residency Requirements and Course Waivers for the HRM
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 3 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of ‘C’ (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following course may not be waived: HRM 498

Course Descriptions for the HRM

HRM 300 .................................................................................3 credits

Fundamentals of Human Resource Management
This course explores the critical role of human resources in achieving business results. The course will help students to have a solid understanding of the fundamentals of human resource management and its strategic relevance in business today. This course will provide students with a critical perspective on the development of human capital in the context of a unified system of attracting, retaining and developing talent that creates and supports the vision and values of the organization. Students will develop an understanding of the critical business implications for human resource professionals today.

HRM 324 .................................................................................3 credits

Employee Law
This course provides an overview of federal statutes and state regulated areas that impact the personnel function. Among the topics addressed are EEO and Affirmative Action, OSHA, ERIŠA, FMLA, and ADA; employee privacy issues (polygraph testing, drug and alcohol testing, employer searching and monitoring); and wrongful discharge.

HRM 326 .................................................................................3 credits

Total Compensation
This course explores topics in basic total compensation design and decision-making. It will provide the student with knowledge and skills required for planning, developing, and administering total compensation programs that are compliant with government laws and regulations. Topics include: wage decisions, budgeting, benefits, incentive plans, and retirement plans.

HRM 420 .................................................................................3 credits

Human Resource Risk Management
This course introduces students to risk management in a human resources department context. The course introduces basic risk management concepts that the student can apply to HR responsibilities of an organization to avoid or mitigate potential liabilities. Topics will include health and safety, security, crisis management, legal compliance, employment and discrimination issues.

HRM 434 .................................................................................3 credits

Employment Law
This course provides an overview of federal statutes and state regulated areas that impact the personnel function. Among the topics addressed are EEO and Affirmative Action, OSHA, ERIŠA, FMLA, and ADA; employee privacy issues (polygraph testing, drug and alcohol testing, employer searching and monitoring); and wrongful discharge.

HRM 498 .................................................................................3 credits

Strategic Human Resource Management and Emerging Issues
This course focuses on strategic HR management and key issues that are opportunities and challenges for the HR function. The course explores how to align human resource management (HRM) with business strategies, and the emerging issues facing business. Students will evaluate the HRM competencies and leadership skills needed for a strategic HRM plan. Students will examine what strategic HRM planning is and how to do it, as well as learning how to manage the necessary change in emerging business environments. The course will define the new roles and expectations of companies for the HRM functions.
Graduate Health Care Informatics Certificate
The following certificate program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

This certificate program is designed for health care and nurse professionals interested in pursuing or advancing in careers associated with health care informatics and technology. Individuals with little or no background in Informatics receive an overview of informatics as it relates to delivery within a health care facility. The program is designed to provide the learner with current knowledge in concepts of health care informatics, systems life cycle, and data management. The 10 credit-bearing specialization is available as a certificate program for post-baccalaureate students. The four courses in the informatics specialization certificate program are available at campuses offering nursing or health care degree programs using a variety of delivery methods.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/hci.
Course work requiring prerequisites are identified by a ~ symbol following the course number.

Required Course of Study for the HCI
HCS 504 Introduction to Graduate Study in Health Sciences/Nursing
HCI 500 Concepts of Health Care Informatics
HCI 510 Systems Life Cycle
HCI 520 Data Management and Design

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the HCI
All applicants to this certificate program are expected to meet the following additional admission requirements:
• Completion of an undergraduate degree or the entire University program grade point average (GPA) of 2.5 or better verified by providing an official transcript.
• A minimum of one year of full-time post high school healthcare work experience.
• Current employment in a nursing or healthcare role or access to an appropriate healthcare organization environment in which to complete the work related course assignments.

Certificate Completion Requirements for the HCI
Credit Bearing Certificate completion requirements are the following:
• Completion of a minimum of 10 credits
• A minimum University program grade point average (GPA) of 3.0.

Residency Requirements and Course Waivers for the HCI
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 7 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 3 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.

In order to waive a course in a HCI Certificate Program, the student must have completed a previous course which meets the following criteria:
• The course must have been completed and transcripted from a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past five years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following course will not be waived from the certificate program: HCS 504.

Course Descriptions for the HCI
HCS 504 Introduction to Graduate Study in Health Sciences/Nursing
This course provides new graduate students in the college with an introduction to strategies for success within the University’s adult learning model. Topics include program standards and objectives, graduate-level oral and written communication, locating, evaluating, and citing scholarly resources, and purposes and use of portfolios.
HCI 500 Concepts of Health Care Informatics
This course will introduce the student to the basic concepts of health care informatics and health information management. It will build on a historical foundation of informatics and roles of the informatics specialist.
HCI 510 Systems Life Cycle
This course will focus on the selection and implementation of an information system within a health facility. The course will review the phases of the life cycle: planning, analysis, design, implementation and evaluation.
HCI 520 Data Management and Design
This course will provide an overview of the understanding of how data, information and knowledge provides the foundation for healthcare information systems. The course will focus on the concepts of information and knowledge in relation to databases, systems operations and information systems.
CERTIFICATE PROGRAMS FOR THE COLLEGE OF NURSING

Academic Progression Requirements for all Current Nursing Programs (excluding BSN/I)

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 10 panel, plus alcohol drug test.

• For purposes of this policy, the following definitions apply:
  • Drug testing means the scientific analysis of urine, blood, breath, saliva, hair, tissue, and other specimens from the human body for the purpose of detecting the use of drugs or alcohol.
  • Reasonable suspicion means evidence which forms a reasonable basis for concluding that it is more likely than not that a person is impaired by alcohol or drugs or has engaged in substance abuse. Facts which could give rise to reasonable suspicion include, but are not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, difficulty in maintaining balance, marked changes in personality or job performance, and unexplained accidents, without reasonable justification. Such evidence may come from a professional or expert opinion, layperson opinion, scientific tests, or other sources or methods.
  • Illegal drug means any drug which is not legally obtainable; any drug which is legally obtainable but has not been legally obtained; any prescribed drug not legally obtained; any prescribed drug not being used for the prescribed purpose or by the person for whom it was prescribed; any over-the-counter drug being used at a dosage level other than that recommended by the manufacturer, or being used for a purpose other than the purpose intended by the manufacturer; and any drug being used for a purpose or by a person not in accordance with bona fide medical therapy. Examples of illegal drugs include, but are not limited to, stimulants; depressants; narcotic or hallucinogenic drugs; cannabis substances, such as marijuana and hashish; cocaine; heroin; methamphetamine; phencyclidine (PCP); and so-called designer drugs and look-alike drugs.
  • Impaired means that a person’s mental or physical capabilities are reduced below his or her normal levels without reasonable justification. An impaired student manifests deterioration in the level of function as compared to that previously observed, or the student does not function at a level normally expected under the prevailing circumstances. Impairment may exist in one or more multiple domains, including psychomotor activity and skills, conceptual or factual recall, integrative or synthetic thought processes, judgment, attentiveness, demeanor and attitudes as manifested in speech or actions. Impairment will include addiction to and/or physical dependence upon alcohol or illegal drugs.
  • Substance abuse means:
    • the consumption, possession, or distribution of alcohol or illegal drugs by any nursing student while on University or affiliated clinical site premises or while participating in any University (or affiliated clinical site) sponsored or related activity, including any nursing-related course or clinical training activity.
    • a nursing student’s use of alcohol or any drug in such a way that the student’s performance in any nursing course, including activities at any clinical site, is impaired.
  • Prior to being assigned to a clinical placement and as a prerequisite for placement at any agency or health care facility the nursing student shall sign an agreement:
    • to abide by the drug policies and drug testing policies of the University and each agency or health care facility in which a student is assigned as applicable,
    • to submit to any “for cause” drug testing required by the University and testing required by each agency or health care facility the nursing student obtains clinical hours, and
    • to release a copy of any and all drug test results to the University of Phoenix, Dean/Associate Dean of Nursing, other appropriate University officials, and to any State Board(s) of Nursing in which the student holds a nursing license or certificate, where required by the relevant State Board(s) of Nursing.
  Failure to sign such agreement is grounds for refusal for student admission and progression in the program.

The College of Nursing requires students to obtain a 10 panel, plus alcohol drug test if the student’s behavior in the clinical, classroom or laboratory setting creates facts that give rise to a reasonable suspicion of substance abuse, or indicates they are impaired by alcohol or drugs.

If the results of the 10 panel, plus alcohol drug test is negative for alcohol or illegal drugs:
  • The student shall meet with their Campus College Chair, Director of Nursing, or NP Program Manager within 24 hours or by the first business day following the test results to discuss the circumstances surrounding suspected behavior.
  • The Campus College Chair, Director of Nursing, or NP Program Manager will counsel the student regarding return to the classroom and clinical agency. The preliminary investigation will cease and the student will be released from further action at that time.
  • The Campus College Chair, Director of Nursing, or NP Program Manager will arrange for the student to make up the missed clinical hours.

If the results of the 10 panel, plus alcohol drug test is positive for alcohol or illegal drugs:
  • A full review by the Office of Dispute Management and Apollo Ethics and Compliance shall be conducted. Students who test positive for alcohol or illegal drugs will not be permitted to return to any clinical setting pending conclusion of the review. The findings may result in student dismissal from the nursing program and expulsion from the University.
• The results of the positive test for alcohol or illegal drugs shall be reported to the applicable State Board(s) of Nursing, if required by the applicable State Board(s) of Nursing. by the Campus College Chair, Director of Nursing, or NP Program Manager.
• If the results of the 10 panel, plus alcohol drug test(s) are positive for a prescribed drug(s) but not those that would be defined as illegal in the definitions above:
  • The student shall, within three (3) business days, obtain a written statement from their treating, licensed health care provider (MD, DO, HMD, ND/NMD, NP or PA) stating that:
    • the drug level is within prescribed limits.
    • the level does not indicate abuse.
    • the student’s use of the drug as prescribed will not interfere with safe practice in the clinical area.

This statement must be provided to the Campus College Chair, Director of Nursing, or NP Program Manager. If the statement is approved, then the test result will be deemed acceptable and not failed for these purposes.

• The failure of a student to provide the above statement or a health care provider’s inability to provide a statement meeting the requirements above shall be treated as a positive test for an illegal drug.
• Students who refuse to submit to a “for-cause” drug test will not be allowed to return to any clinical setting pending conclusion of a full review by the Office of Dispute Management and Apollo Ethics and Compliance. The findings may result in dismissal from the nursing program and expulsion from the University. The results of a positive test for illegal drugs as defined herein or a refusal to undergo a required drug test will be reported to the applicable State Board of Nursing where required by the applicable State Board(s) of Nursing’s statute(s) or regulation(s).

• Students must also adhere to any other additional policies prescribed by the clinical agency. It is the sole responsibility of the student to read and acknowledge the requirements of the clinical health care facility in addition to University policy.
• All costs associated with the drug test, including any transportation costs to or from the drug testing facility, will be the responsibility of the student.
• University of Phoenix, College of Nursing, campus officials may be required to report all failed drug tests to each State Board of Nursing in which the student holds a nursing license or certificate. Campus officials shall report test results to all applicable State Boards of Nursing as described in the applicable Board’s statutes and/or regulations.

Graduate Nursing/Health Care Education Certificate

The following certificate program may be offered at these University of Phoenix campus locations: Online. The availability of programs and concentrations depend on student demand and other factors. Not all programs may be available to all residents of all states. Students may want to consider completing certain courses in the Online classroom at Online rates if the program is available via the Online modality in their state. Please contact your enrollment advisor for more information.

This course series is designed for nursing and health care professionals interested in pursuing or advancing in careers as faculty in higher educational settings. Those with no background in higher education receive a strong foundation for the many dimensions of the faculty role. Current educators can update or expand their knowledge in curriculum development, assessment and evaluation, and instructional strategies.

This credit-bearing certificate program is for post-baccalaureate students. The four courses in the education specialization/certificate program are available at campuses offering nursing or health care degree programs using on ground and/or Flexnet delivery, as well as through the online campus.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at http://www.phoenix.edu/programs/nhce.

Course work requiring prerequisites are identified by a ~ symbol following the course number.

Required Course of Study for the NHCE

HSN 548................................................................................... 3 credits
Role of the Health Care/Nursing Educator

HSN 540................................................................................... 3 credits
Using Effective Teaching Strategies

HSN 544................................................................................... 3 credits
Design and Process of Curriculum Development

HSN 552................................................................................... 3 credits
Assessment and Evaluation of Learning

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the NHCE

All applicants to this certificate program are expected to meet the following additional admission requirements:

• Completion of an undergraduate degree or the entire University of Phoenix BSN or BSHCS Required Course of Study with a minimum GPA of 2.5 or better verified by providing an official transcript.
• A minimum of one year full-time post-high school health care work experience.
• Current employment in a nursing or health care role or access to an appropriate healthcare organization environment in which to complete the work related course assignments.
Certificate Completion Requirements for the NHCE
Credit Bearing Certificate completion requirements are the following:
• Completion of a minimum of 12 credits.
• A minimum program grade point average (GPA) of 3.0.

Minimum Grade Requirements for the NHCE
• Students in this program are required to achieve a minimum grade of “C” (2.0) in the following courses: HSN 540, HSN 544, HSN 548 and HSN 552. A “C−” grade is not acceptable. Students who fail to receive a minimum grade of “C” in any of the following courses will be scholastically disqualified from the University.
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have retaken the course which placed them on scholastic disqualification, satisfied the grade requirement, and fulfilled any additional criteria for reentry, as determined by the faculty member and the Campus College Chair or appropriate Dean.

Residency Requirements and Course Waivers for the NHCE
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 6 credits in the Required Course of Study, must be completed at University of Phoenix.
Students in this program may waive a maximum of 6 credits from their required course of study on the basis of regionally or approved nationally accredited transferable coursework.
In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Course Descriptions for the NHCE
HSN 548 .................................................................................. 3 credits
Role of the Health Care/Nursing Educator
Responsibilities of faculty within various higher education settings are explored. Trends and issues that impact the educator role within changing health care and educational environments are discussed. Topics such as technological, legal, ethical, and professional dynamics are included.
HSN 540 .................................................................................. 3 credits
Teaching and Learning Strategies
This course will focus on the concepts of learning, cognitive, and psychomotor learning, and the principles of adult learning. Selection and development of teaching strategies that enhance and facilitate learning will be explored.
HSN 544 .................................................................................. 3 credits
Design and Process of Curriculum Development
Development of curriculum for programs in higher education settings are examined. This course focuses on curriculum planning and design, as well as development of individual courses and their relationship to program mission, objectives, and outcomes.
HSN 552 .................................................................................. 3 credits
Assessment and Evaluation of Learning
Methods of assessing learning in higher education are analyzed and applied in different learning situations. Processes and problems related to course learning assessments as well as evaluating programmatic outcomes are examined. Designing measures to evaluate learner and curricular outcomes are addressed.

Certificate Awards
Upon completion of all courses in a certificate program and submission of the Request for Certificate form, a certificate of completion and a certificate posted transcript will be processed.

Accreditation and Affiliations
The following agencies have supported the development of the certificate program that relates to their specific field:
• The Society for Human Resource Management (SHRM)
• Project Management Institute (PMI), Globally Registered Education Provider (R.E.P)
• Call Center Industry Advisory Council (CIAC)
