<td>COMMUNICATION SKILLS FOR GRADUATE STUDY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course provides students with an introduction to strategies for academic success at the graduate level. Topics include oral and written communication, methods for finding and evaluating course resources, critical thinking, program standards, stress and time management, and collaborative processes.</td>
</tr>
<tr>
<td>COM 705</td>
<td>COMMUNICATION STRATEGIES</td>
<td>1</td>
<td>School of Advanced Studies</td>
<td>This 3-week, online course provides incoming doctoral students with an introduction to advanced communication strategies to demonstrate their readiness to take next steps in their intellectual doctoral journey through iterative improvements to critical thinking and writing skills by applying faculty feedback, writing resources, and personal insights to a doctoral-level writing assignment.</td>
</tr>
<tr>
<td>COM 705A</td>
<td>COMMUNICATION STRATEGIES</td>
<td>1</td>
<td>School of Advanced Studies</td>
<td>The purpose of this course is to provide Doctor of Philosophy (PhD) students with an introduction to doctoral level communication strategies for academic success. Topics include self and scholarly discovery, scholarly writing competencies, and peer-collaboration.</td>
</tr>
<tr>
<td>COM PAS23</td>
<td>COMMUNICATIONS FOR PUBLIC ADMINISTRATORS</td>
<td>3</td>
<td>College of Criminal Justice and Security</td>
<td>This course prepares students to lead change in the public sector. Students will apply leadership theories in the public sector considering the unique role of shared decision making between career, appointed and elected officials in a political environment. Other topics include culture in the public sector, power, group behavior, financial and nonfinancial motivation, and workplace conflict.</td>

<td>3</td>
<td>College of Education</td>
<td>In this course, teachers define, clarify, and reflect on their role as a leader. They explore leadership processes that utilize collaboration, coaching, mentoring, and inclusion. Additionally, they examine broad educational issues, as well as school-based issues and determine possibilities for initiating, sustaining, and building upon systemic change.</td>
</tr>
<tr>
<td>CUR 515</td>
<td>CRITICAL THINKING AND INNOVATIVE SKILLS</td>
<td>3</td>
<td>College of Education</td>
<td>Learners in this course explore the development and application of critical thinking skills for all academic content areas in elementary, middle school, and high school settings. Participants identify the educational needs of students by exploring current instructional theories, models, and strategies; and state, local, and national standards as they relate to developing critical thinking skills in classroom teaching. Prospective educators develop skills in selecting and adapting delivery methods and behavior management plans for diverse individual students and student populations.</td>
</tr>
<tr>
<td>CUR 516</td>
<td>CURRICULUM THEORY AND INSTRUCTIONAL DESIGN</td>
<td>4</td>
<td>College of Education</td>
<td>In this course, learners focus on applying theory and systematic approaches to design and implementation of instruction for diverse adult learners. Learners identify and analyze trends, issues, models, methods, various instructional strategies, technology, and classroom management strategies in instructional design for adults. In addition, learners design an instructional unit, applying research-based best practices and employing instructional design models.</td>
</tr>
<tr>
<td>CUR 518</td>
<td>MULTICULTURAL STRATEGIES FOR THE ADULT LEARNER</td>
<td>3</td>
<td>College of Education</td>
<td>In this course, learners acquire a rich and deep framework to understand what diversity means in the workplace, in the training and development environment, and in the higher education classroom. Learners explore dimensions of diversity which include race, gender, age, ethnicity, sexual orientation, gender identity and expression, religion, education, and socioeconomic status. Learners acquire an awareness of diversity and understand how to design, deliver, and evaluate training and education programs that are sensitive to the challenges and opportunities that a multicultural context presents.</td>

<td>ADVOCATING FOR LEARNING</td>
<td>3</td>
<td>College of Education</td>
<td>Learners examine dispositions and beliefs regarding teaching and learning for all students. This course includes discussions about supportive and engaging learning environments, along with collaboration with other professionals to develop strategies that promote student learning. Using assessment data, learners will differentiate instruction and employ appropriate strategies for students. Learners will explore advocacy through course materials, practical exercises and engaging group activities.</td>
</tr>
<tr>
<td>CUR 525</td>
<td>ETHICAL ISSUES IN EDUCATION</td>
<td>3</td>
<td>College of Education</td>
<td>Learners examine the ethical framework and challenges of teachers and teacher leaders in today’s schools. The professional educational leader fosters ethical practices and engages in purposeful ethical decision-making. Learners will ethically respond to social and political issues in education through case studies, field experiences, and other readings and interactions. Ethical leadership and decision-making will be analyzed and discussed to determine how educational leaders will be able to provide support to teachers, students, and other constituents with the purpose of improving current educational practices.</td>
</tr>
<tr>
<td>CUR 528</td>
<td>ASSESSMENT OF LEARNING</td>
<td>3</td>
<td>College of Education</td>
<td>Learners focus on developing the skills necessary to become effective assessors of adult learners in corporate training and in other adult education learning environments. Learners examine the fundamentals of planning, implementing, and learning. Additionally, learners explore purposes and methods of evaluation for courses, programs, and training.</td>
</tr>
</tbody>
</table>
| CUR 530    | ASSESSMENT AND EVALUATION MODELS           | 3       | College of Education | In this course, learners use assessment data through a systematic process to make informed decisions and to evaluate classroom and school-wide learning outcomes. Emphasis is placed on the design, implementation, and analysis of formative assessments while other types of assessments are explored. Learners will use this assessment knowledge to design and analyze a comprehensive assessment plan in a K-12 setting.                                                                                                                                                                                                                                                                                                                                所

<td>CUR 532</td>
<td>FACILITATING ONLINE LEARNING</td>
<td>3</td>
<td>College of Education</td>
<td>Learners explore practical strategies for aligning effective principles of instruction with the use of technology in adult learning and training environments. Learners develop the knowledge and skills required for effectively engaging adult learners in distance learning experiences using a variety of web-based course management and information systems. In addition, learners apply and evaluate audio, video, and collaborative technology tools; mobile learning technologies; and corporate online training techniques. Learners discuss essential aspects of learning in online training programs and classrooms such as engagement, time management, reflection, and assessment strategies.</td>
</tr>
<tr>
<td>CUR 535</td>
<td>RESEARCH FOR IMPROVED PRACTICE</td>
<td>4</td>
<td>College of Education</td>
<td>Learners examine the process of conducting their own classroom-based or school-based research. The course provides practical experience with action research components in the educational setting for everyday instruction. Learners will use research and data to enhance the instructional environment and to promote lifelong learning.</td>
</tr>
<tr>
<td>CUR 540</td>
<td>METHODS OF COACHING IN THE INSTRUCTIONAL SETTING</td>
<td>3</td>
<td>College of Education</td>
<td>This course provides an examination of how systemic processes, experiential learning, and coaching strategies positively affect teaching and learning outcomes. Learners examine the interchangeable competencies of coaching and mentoring including roles, fostering relationships, ethical guidelines, building learning communities, effective communication, self-reflective problem solving, conflict resolution, facilitating learning, and accountability. Learners will be equipped with content knowledge, real life application opportunities, tools, and specific strategies that can be applied in both instructional leadership and coaching situations.</td>
</tr>
<tr>
<td>CUR 545</td>
<td>USING TECHNOLOGY FOR TEACHING AND LEARNING</td>
<td>3</td>
<td>College of Education</td>
<td>Learners evaluate technology use and technology integration for teaching and learning while considering the value of current technologies and tools as part of an interactive experience in a 21st century classroom. Learners will review the considerations and responsibilities of using and maintaining technology in today’s schools, including safety, ethics, resources, and financial needs. Using the knowledge gained in this course, learners will determine how they will advocate and be change-agents for technology integration within their districts, schools, classrooms, and the community.</td>

<td>ENGAGING IN COMMUNITIES OF PRACTICE</td>
<td>College of Education</td>
<td>Learning communities are a method for the organization and operation of schools that will best meet the academic needs of students. In this course, learners examine the components of developing and maintaining school-based communities of practice to improve student achievement and assist with school improvement planning. Learners will identify resources to help them initiate, plan, and maintain communities of practice.</td>
<td></td>
</tr>
<tr>
<td>CUR 555</td>
<td>PROFESSIONAL LEARNING FOR CONTINUOUS IMPROVEMENT</td>
<td>College of Education</td>
<td>Learners will examine the relationship of professional and personal learning to school, teacher, and student need. Learners will gain an array of effective ideas, strategies, plans, methods, and tools on designing and implementing professional development to promote the intellectual and self-reflective development of teachers, as they collaborate to raise student achievement. Topics include components of high-quality staff development and learning networks.</td>
<td></td>
</tr>
<tr>
<td>CUR 711</td>
<td>DEVELOPMENTAL AND LEARNING THEORIES</td>
<td>School of Advanced Studies</td>
<td>Theories on the physical, social, emotional, and intellectual development of learners across the lifespan are the focus of this course. These theories and their effect on the educational process and the design and implementation of instructional programs will be examined.</td>
<td></td>
</tr>
<tr>
<td>CUR 712</td>
<td>CURRICULUM THEORY</td>
<td>School of Advanced Studies</td>
<td>This course examines historical, current, and cross-cultural theories of curriculum. With a foundation in the major theorists and tenets of their theories, learners analyze curriculum documents for evidence of the various theories, investigate implications of theories on educational programming, and interpret the interaction of these theories with public policy.</td>

<td>School of Advanced Studies</td>
<td>This course provides an overview of the historical and current theories of curriculum, development, and learning. Students examine the effects these theories have on the educational process, curriculum design, and the implementation of instructional programs. With a foundation in the major theorists and tenets of their theories, students analyze curriculum processes and procedures, investigate implications of the theories for educational programming, and interpret the interaction of these theories with public policy.</td>
</tr>
<tr>
<td>CUR 721</td>
<td>CURRICULUM DESIGN</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>In this course, students focus on the creation of systemic models of curriculum design and delivery, including consideration of schedule, structure, stakeholder involvement, and end products. Students will also analyze the implicit, hidden, cultural, and institutional aspects of existing curricular models to inform their own development approach.</td>
</tr>
<tr>
<td>CUR 722</td>
<td>INSTRUCTIONAL MODELS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course analyzes the models and process of instruction. Effective instructional models are explored as they relate to teaching strategies and learner outcomes. Instructional models for diverse populations, improvement of instructional programs, and staff development are of special focus.</td>
</tr>
<tr>
<td>CUR 723</td>
<td>ASSESSMENT OF STUDENT LEARNING</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course explores student assessment methods utilized in learning organizations. The merits and faults of these methods are debated. Among the key topics are outcomes-based assessment - such as standardized achievement and criterion assessment, as well as the influence of leadership styles on these outcomes.</td>

<td>EARLY CHILDHOOD GROWTH AND DEVELOPMENT</td>
<td>3</td>
<td>College of Education</td>
<td>This course examines the theories, concepts, and trends related to early childhood growth and development from prenatal development through the early school years. It examines the physical, social, emotional, cognitive, and language development of children from birth through age 8. The course focuses on defining the various stages as they impact instructional practices and decisions in the context of the early learning environment.</td>
</tr>
<tr>
<td>ECH 211</td>
<td>INSTRUCTIONAL STRATEGIES FOR EARLY CHILDHOOD EDUCATION</td>
<td>3</td>
<td>College of Education</td>
<td>This course focuses on the theoretical models that underlie teaching and learning in the early childhood setting. Students examine appropriate methods for teaching all young children, explore lesson plan designs, analyze the most effective, research-based teaching strategies to promote student learning, and develop a lesson plan.</td>
</tr>
<tr>
<td>ECH 300</td>
<td>ORIENTATION TO EARLY CHILDHOOD EDUCATION</td>
<td>0</td>
<td>College of Education</td>
<td>This course is designed to provide an orientation to the primary components of the Teacher Education Program for Early Childhood. Students will be introduced to the program’s progression and degree completion requirements. Field Experience, E-Portfolio, Student Teaching, Teacher Work Sample, and technology resources will be discussed.</td>
</tr>
<tr>
<td>ECH 301</td>
<td>FOUNDATIONS OF EARLY CHILDHOOD EDUCATION</td>
<td>3</td>
<td>College of Education</td>
<td>This course provides an overview of early childhood education for children, birth through age 8. Topics include theories and history of early childhood education, play theories, program types and models, and public policy trends. The course examines the significance of developmentally effective learning experiences throughout early childhood programs.</td>
</tr>
<tr>
<td>ECH 302</td>
<td>EXCEPTIONALITIES OF THE YOUNG CHILD</td>
<td>3</td>
<td>College of Education</td>
<td>This course provides an overview of the exceptional young child in early childhood education who may require accommodations and adaptations. The course focuses on developmentally-effective methods and techniques used for the identification, assessment, and instruction of children with special needs from birth to age 8. Legal structures, public policy, and information related to current practices serving exceptional young children in early childhood are also examined.</td>
</tr>
<tr>
<td>ECH 321</td>
<td>DEVELOPMENTALLY-EFFECTIVE LEARNING ENVIRONMENTS</td>
<td>3</td>
<td>College of Education</td>
<td>This course examines developmentally-effective strategies used in implementing and managing a positive and active learning environment within the framework of a diverse early childhood population. Topics include models of classroom management, establishing expectations and procedures, motivating children, family communication, managing off-task behaviors, technology integration, and materials management and record keeping. Students will develop an individual classroom management plan for an early childhood setting.</td>
</tr>
<tr>
<td>ECH 390</td>
<td>EARLY CHILDHOOD STUDENT TEACHING SEMINAR</td>
<td>1</td>
<td>College of Education</td>
<td>This course focuses on the professional aspects of teaching. Students are introduced to the Teacher Work Sample that will be created during student teaching. Students will engage in self-evaluation to develop their own professional growth plans for inclusion in their portfolios. The character qualifications for becoming a teacher will be assessed through a personal interview, using letters of character reference, and a written reflective paper on the desire and reasons for joining the profession.</td>

Students are introduced to various types of action research and to the elements of the action research process, including identifying a problem, determining a problem statement and a purpose, conducting a literature review, planning for the collection and the analysis of data, and creating a plan of action. Methods for collecting, evaluating, and analyzing data are discussed. Students identify ethical issues related to research as well, including a professional code of ethics, confidentiality, and research using human subjects. In addition, they synthesize and apply the content of the course by writing a proposal for an action research study.</td>
</tr>
<tr>
<td>EDL 500</td>
<td>PERSONAL LEADERSHIP</td>
<td>3</td>
<td>College of Education</td>
<td>This course focuses on developing a personal philosophy of leadership. Students engage in self-assessment activities that reveal how individual values and beliefs directly influence personal leadership. Students examine their own organization and stakeholders who may play a role in their journey in school leadership. Aspects of effective communication are also addressed as students explore contemporary leadership theorists and popular beliefs behind organizations and school systems that will help build a foundation for personal growth.</td>
</tr>
<tr>
<td>EDL 501</td>
<td>ORIENTATION TO TEACHER LEADERSHIP</td>
<td>0</td>
<td>College of Education</td>
<td>This course is designed to provide an orientation to the primary components of the Teacher Leadership Program. Students will be introduced to the program's degree completion requirements. Course overviews, field experience, E-Portfolios, and technology resources will be discussed. Check with your local campus to see if this course is necessary.</td>

<td>CULTURAL COMPETENCY</td>
<td>3</td>
<td>College of Education</td>
<td>Culturally responsive teachers facilitate and support learning for all students regardless of their diversities. This course deepens candidates' understanding of teaching and learning through examination of the diverse make-up of today's communities, schools, and classrooms. Through personal reflection and identification of theoretically sound and culturally responsive pedagogy, this course prepares the candidate to model, mentor, and lead efforts in creating a school climate that effectively addresses the learning needs of all students.</td>
</tr>
<tr>
<td>EDL 510</td>
<td>TEACHER LEadership IN A GLOBAL SOCIETY</td>
<td>3</td>
<td>College of Education</td>
<td>This course focuses on contemporary theories of school reform and effective teacher leadership in a global society. Performance indicators and dispositions as related to evaluation or decision making are explored. Candidates examine components of effective teacher leadership, including empowering others, building collaborative organizational cultures, and making informed decisions for strategic planning, while creating a vision of change. They also explore how effective leadership provides them with multiple opportunities to critically analyze and apply various leadership styles. Course content reflects research-based frameworks on leadership and leadership processes that will assist candidates in becoming effective teacher leaders. Candidate participate in a theoretical and applied learning approach, which incorporates research and reflective writing activities, case studies, self-assessment, and collaborative team projects that are closely aligned with the National Board Professional Teaching Standards.</td>
</tr>
<tr>
<td>EDL 515</td>
<td>ORGANIZATIONAL LEADERSHIP</td>
<td>3</td>
<td>College of Education</td>
<td>This course focuses on the principles of organizational leadership. It examines the origins and components of effective organizations, as well as frames of leadership. Candidates apply their knowledge of these frames in reflecting on their organization. Additionally, they learn the skills to reframe their organization, provide leadership in turbulent times, and become agents and advocates of change.</td>
</tr>
<tr>
<td>EDL 520</td>
<td>INSTRUCTIONAL LEADERSHIP</td>
<td>3</td>
<td>College of Education</td>
<td>This course is designed to provide professional teachers an introduction to instructional leadership. Candidates utilize an instrument of self-assessment and explore opportunities for leadership with reference to theoretical and practical aspects of school improvement. Candidates create a leadership plan that outlines long-term and short-term goals for continuous development of their leadership skills. In addition, they evaluate instructional practices, determine the effectiveness of teaching within the school curriculum, and propose appropriate strategies to improve instructional performance as outlined in research and theory as &quot;best practices.&quot;</td>

<td>School of Advanced Studies</td>
<td>This course introduces and examines the major functions traditionally housed in the academic wing of a given institution. Specifically, the following faculty roles and responsibilities will be addressed: those in institutional governance, those in curriculum development and design, those in curriculum delivery, those in student recruitment and retention, and those in institutional advancement. Delivery methods; relationship between curriculum and finances (subsidizing); selection, development, termination of programs; responsiveness to the marketplace; using data to make curricular decisions; Student learning outcomes (balancing with budgetary constraints); politics and curriculum.</td>
</tr>
<tr>
<td>EDU 702</td>
<td>HISTORY OF EDUCATION IN THE AMERICAS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>An in-depth analysis of the development of education in Canada, Central America, South American nations, and the United States will form the basis of this course. Topics will include indigenous educational perspectives, the development of education (K-post-secondary), major forces affecting educational development at all levels, and the political, social, economic, and cultural contexts of educational development. Public and private endeavors in education through the 20th century will be presented.</td>
</tr>
<tr>
<td>EDU 703</td>
<td>STUDENT AFFAIRS ADMINISTRATION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course will explore the history, philosophy, and purposes of student affairs administration, examining both its theoretical and practical foundations. Students will investigate issues and problems currently facing student affairs administration in the ever-changing educational climate and focus on the future of the profession.</td>

<td>UNDERSTANDING THE INFRASTRUCTURE OF HIGHER EDUCATION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course will examine the evolution of the Higher Education Academy from an organizational, political, philosophical, cultural, economic, and policy-oriented point of view. Students will become familiar with the campus culture through the evolution of various campus models that impact how departments function on-campus and work collaboratively to support the institution’s mission and educate students.</td>
</tr>
<tr>
<td>EDU 705</td>
<td>THE INCLUSIVE CAMPUS: ADDRESSING DIFFERING STUDENT NEEDS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course will provide an overview of the various physical, mental, social, cultural, and economic factors that contribute to the uniqueness of students with individual differing abilities as related to campus culture and climate. Drawing from current topics and research in higher education administration, the behavior of and trends related to the needs of this student population will be examined.</td>
</tr>
<tr>
<td>EDU 706</td>
<td>COMPARATIVE MODELS OF HIGHER EDUCATION ADMINISTRATION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course will present a comparative perspective of educational systems that exist in today’s world. Introducing the relationship between culture and education, the course will present a brief historical analysis of the social, political, economic, and development antecedents to educational systems. Cross-national comparative analysis, educational borrowing and transfer, and current trends and transfer in the British, French, German, Russian, U.S., and hybrid systems that serve as the basic models for higher education throughout the world. In the culmination of this course, learners will investigate the trends in unifying systems into a global synthesis of higher education. China and Eastern philosophy.</td>
</tr>
<tr>

<td>CORE FUNCTIONS OF HIGHER EDUCATION ADMINISTRATION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course examines the major features of the three core functional areas of modern higher education. The course focuses on the administration of higher education institutions and includes the 1) student experience, including student development and learning; 2) faculty and staff issues, including RPT (retention, promotion, and tenure), faculty and staff development, curriculum, governance; and 3) infrastructure concerns, including planning, technology, and facilities.</td>
</tr>
<tr>
<td>EDU 712</td>
<td>HISTORY OF EDUCATION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course will present the learner with a comprehensive survey of the purposes and educational developments from ancient civilizations in Africa (Egypt, Babylonia, Assyria, Persia), Asia (China, Indus Valley), Greece, and Rome through the 20th century. Hindu, Jewish, Muslim, Christian, and Buddhist traditions, Zhou Dynasty, Medieval Renaissance Reformation, Enlightenment, Industrial, and Post-Industrial educational developments will be studied as a prelude to investigating comparative educational systems.</td>
</tr>
<tr>
<td>EDU 724</td>
<td>STUDENT DEVELOPMENT THEORY</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course will foster an enhanced understanding of college students through an examination of the psychosocial, cultural, cognitive-structural, and identity theories related to college student development. Application and use of theory to everyday practice and a diverse population of students in higher education will be discussed.</td>
</tr>
<tr>

<td>College of Health Sciences and Nursing</td>
<td>This course offers the student the foundational knowledge and skills to communicate effectively in a variety of health care workplace settings. The student will discuss social and cultural influences on communication efforts, examine channels of communication including internal, external, and technology related communication, and the impact of consumer and interdisciplinary communication.</td>
</tr>
<tr>
<td>HCA 240</td>
<td>HEALTH &amp; DISEASES: UNDERSTANDING PATHOS OF PATHOLOGY</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course introduces the student to the basic principles of illness and disease commonly seen in the health care environment. Topics may include infectious and noninfectious diseases, environmental health, and the promotion of good health practices. In addition, students will be introduced to common disease and medical procedure terminology.</td>
</tr>
<tr>
<td>HCA 250</td>
<td>THE PSYCHOLOGY OF HEALTH</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>In this course, the student is introduced to the psychological factors that relate to maintaining a healthy workplace. The course also exposes the student to management elements of cultural diversity, collaboration, and healthy behaviors.</td>
</tr>
<tr>
<td>HCA 260</td>
<td>HEALTH CARE'S LAW AND ETHICS ENVIRONMENT</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course is designed as an introduction to the laws and ethics of providing health care services. The course is also intended to familiarize the student with state and federal health regulation. Since ethics and laws are both dynamic, emphasis is placed on discussing some of the dramatic changes in health care delivery, such as managed care, patient self-determination, medical record keeping, and various laws that impact health care employment.</td>

<tr>
<td>HCIS 420</td>
<td>INFORMATION SYSTEMS RISK MANAGEMENT IN HEALTH CARE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course identifies and defines the types of risks that information systems professionals need to consider during the development and implementation of health care information systems. This course will survey remedies and prevention techniques available to address risk and security management. Health care organizational policies and current regulatory considerations will also be examined relative to development, implementation, and use of computer-based information systems.</td>
</tr>
<tr>
<td>HCP 210</td>
<td>INTRO TO PHARMACY PRACTICE: THE ALCHEMY OF HEALTH CARE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course provides students the opportunity to explore fundamental career skills and knowledge associated with pharmacy procedures. Courses include pharmacy ethics, terminology, route and dosage formulations, and operations in community and institutional settings. A review of the 200 most commonly distributed medications includes origins, therapeutic usage, generic names, and naming systems. Students examine basic procedures and equipment requirements for compounding and sterile preparation.</td>
</tr>
<tr>
<td>HCP 220</td>
<td>PHARMACY CALCULATIONS: JUST FOR GOOD MEASURE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>Fundamental math skills required in pharmaceutical calculations are covered in this course. Topics review basic math skills-number systems, fractions, decimals, ratios, proportion, and percents-and conversion of measurement systems-metric, apothecary, apothecary, and household. Students interpret prescriptions, analyze drug labeling, calculate drug dosages, and distinguish procedures and equipment for oral, injectable, and intravenous medications.</td>

<td>LONG-TERM CARE ADMINISTRATION</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course introduces students to the organization and management of long-term care. The impact of state and federal regulations are analyzed, as well as issues surrounding funding services are discussed. Students will examine the health services needed for current and future populations needing long-term care.</td>
</tr>
<tr>
<td>HCS 438</td>
<td>STATISTICAL APPLICATIONS</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>The emphasis in this statistical applications course is on thinking about research issues in a statistically sound and practical fashion. Students will learn how to formulate and ask the right questions, how to collect data effectively, how to summarize and interpret information, and how to understand the limitations of statistical inferences.</td>
</tr>
<tr>
<td>HCS 440</td>
<td>ECONOMICS: THE FINANCING OF HEALTH CARE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course provides an overview of the economics of healthcare. The various payers are examined, including private, state, and federal entities. Issues such as the cost effectiveness of prevention, the management of patients and their diseases, as well as the cost of treatment settings are discussed. Third party reimbursement from various sources, ranging from for-profit insurance carriers to charitable donations, are reviewed. The health care system’s use of grant funding and research dollars is described.</td>
</tr>
<tr>
<td>HCS 446</td>
<td>FACILITY PLANNING</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course will introduce students to the legal and regulatory challenges of facility planning and development. Students will analyze facility designs, discuss further health care consumer utilization trends, and as well as examining the regulatory compliance requirements.</td>

<td>HEALTH ADMINISTRATION CAPSTONE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>Students in this course summarize their learning and formulate strategies to manage various challenges they will encounter in the healthcare environment. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.</td>
</tr>
<tr>
<td>HCS 451</td>
<td>HEALTH CARE QUALITY MANAGEMENT AND OUTCOMES ANALYSIS</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course examines the relationships between health care quality and organizational performance management. The student is introduced to the rationale for performance management and quality improvement tools used in health care. Methods for assuring quality in process and outcome management are described. Changing trends in the provision and reimbursement of health care services are reviewed.</td>
</tr>
<tr>
<td>HCS 455</td>
<td>HEALTH CARE POLICY: THE PAST AND THE FUTURE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course examines the role of federal, state, and local government in the development of health care policy and regulation involving both the private and public sectors. The resulting impact of policy and regulation on healthcare systems is discussed. The role of health care systems will be reviewed as well as the various aspects involving the delivery of services.</td>
</tr>
<tr>
<td>HCS 456</td>
<td>RISK MANAGEMENT</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course introduces students to issues related to risk management in health care. Concepts will include the tasks of the risk manager, regulatory requirements, and risk factors unique to the health care industry.</td>

<td>CONCEPTS OF POPULATION HEALTH</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course addresses the epidemiological and sociological perspectives and techniques for analyzing the health status of populations. Topics focus on disease trends, distribution and detriments of health and disease, models and concepts of health and wellness, and the development of a proactive response to community health issues.</td>
</tr>
<tr>
<td>HCS 539</td>
<td>MARKETING FOR HEALTH CARE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course examines marketing principles as they are applied within various health delivery systems. Special attention is focused on consumer behavior, market segmentation, environmental scanning, and identification of new market opportunities. The role of social marketing, data base research, and evaluation design and interpretation are addressed.</td>
</tr>
<tr>
<td>HCS 542</td>
<td>HEALTH CARE RESEARCH</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course focuses on the application of health care research methods. Emphasis will be placed on using evidenced based concepts to analyze current health care workplace issues, including the development of an effective research question, literature reviews, and concepts related to data design and collection.</td>
</tr>
<tr>
<td>HCS 545</td>
<td>HEALTH LAW AND ETHICS</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>Students analyze current ethical and bioethical issues in healthcare and the legal foundations of the health industry. Students will explore topics that include legal aspects of legislation, regulation, and ethics and their impact on stakeholders.</td>
</tr>
<tr>
<td>HCS 548</td>
<td>FOUNDATIONS OF GERONTOLOGY</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course introduces students to the field of gerontology and focuses on the aspect of aging. Emphasis will be placed on the basic conceptual and theoretical perspectives on aging using a multidisciplinary framework. Students will uncover the myths and stereotypes of aging, demographic changes occurring in the U.S., available programs and services, and current issues affecting older adults.</td>
</tr>
<tr>
<td>HCS 549</td>
<td>EVALUATION METHODOLOGY</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course provides the student with the research methodology for health services research. Models of evaluation are examined and components such as stakeholder analysis, cost benefit effectiveness, decision-modeling, and statistical techniques are applied to decision making in health care organizations.</td>
</tr>
<tr>
<td>HCS 550</td>
<td>HEALTH CARE POLICY</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course will provide students with an understanding of how health care policy influences systems and the delivery of care. Policymakers who influence the health status of a society will be identified as well as the role of economic health, interest groups, and the various levels of government involved in policymaking will be examined. Challenges, stakeholder impact, and organizational behavior, all caused by policy requirements, will be identified.</td>
</tr>
<tr>
<td>HCS 551</td>
<td>BIOLOGICAL AND PSYCHOLOGICAL ASPECTS OF AGING</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course examines the physical process of aging and the effects on physical and mental health. These topics are applied to disease prevention, health maintenance, and selected disorders that effect health and independent living. Public policy and program development issues will also be addressed to promote the health of the aging population.</td>

<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course surveys social, political, and economic events that shaped the United States from its first inhabitants to 1865. Students delve into historical events in North American history ranging from Spanish and English colonization to the fight for an individual, American independence, culture, and government, to the Civil War. This course equips students with a general understanding of important early historical events that have played a role in our current social, political, and economic environment.</td>
</tr>
<tr>
<td>HIS 120CA</td>
<td>U.S. HISTORY 1865 TO 1945</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course recounts the story of our country by looking at the experiences of the many diverse races and nationalities that, woven together, have created the United States of America. Students will learn to appreciate the contributions various peoples have made to the American culture. Emphasis will be placed on how both compromise and conflict have played major parts in American history.</td>
</tr>
<tr>
<td>HIS 125</td>
<td>US HISTORY FROM 1865 TO 1945</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course examines U.S. social, political, and economic events between 1865 and 1945. Students will learn to appreciate the significance of key historical events and figures, including the rise of big business, urbanization, World War I, the Great Depression, and World War II. This course equips students with a general understanding of how important historical events impact future development of the United States.</td>

<tr>
<td>IM 305</td>
<td>DATA MODELING</td>
<td>College of Information Systems and Technology</td>
<td>This course provides an in-depth look at several intermediate design and architecture concepts. The course covers the design method used in the creation of a relational database, the required steps to reengineer a database, and several tools and techniques used through the database design process.</td>
<td></td>
</tr>
<tr>
<td>IND 701</td>
<td>INDEPENDENT STUDY I</td>
<td>School of Advanced Studies</td>
<td>The content and assessment of independent study courses will be determined via a learning contract between the learner and a requested faculty member. This learning contract will be forwarded to the program’s chair for review. Independent studies can be either concept or methods-based, and regardless of content they must culminate with the development of a major project that demonstrates learning at the doctoral level. Examples of major projects include publication-quality papers, complete chapter drafts of the dissertation proposal, or other rigorous demonstrations of learning.</td>
<td></td>
</tr>
<tr>
<td>INT 626</td>
<td>CAPSTONE</td>
<td>College of Criminal Justice and Security</td>
<td>Students will select and examine (with instructor approval) a critical area of redress in the intelligence community (IC). Students will develop and produce a capstone position paper that identifies, critically analyzes, and makes appropriate recommendations that addresses the identified issues.</td>
<td></td>
</tr>
<tr>
<td>ISCOM 305</td>
<td>SYSTEMS OPERATIONS MANAGEMENT</td>
<td>School of Business</td>
<td>This course outlines the main components of effective systems operations management. This includes effectively managing data collection, inventory optimization, operational procedures, information technology resources, and operational components for effective decision making.</td>

<td>College of Information Systems and Technology</td>
<td>This course introduces the student to C C++ programming. The syntax and semantics of the C C++ programming language are used to produce simple computer programs.</td>
</tr>
<tr>
<td>IT 235</td>
<td>IMAGE EDITING AND IMPLEMENTATION</td>
<td>3</td>
<td>College of Information Systems and Technology</td>
<td>Design elements such as basic composition, style, use of color, textures, graphic manipulation, photographic re-touching and text font design are introduced. File formats, sizing and packaging for export are covered in this class. Concepts such as pre-press production and printing are introduced. Imaging program, Adobe Photoshop Elements is required for this class.</td>
</tr>
<tr>
<td>IT 236</td>
<td>INTRO TO WEB DESIGN I</td>
<td>3</td>
<td>College of Information Systems and Technology</td>
<td>Introduction to web design concepts are taught, with an emphasis on producing viable web pages in a business and e-business contexts. Topics such as web page construction, layout, ease of navigation and performance are combined in the production of esthetically appealing web pages that implement artistic qualities in their use of style and color. The concept of XML coding and its linkage with HTML coded outputs are covered. The program, Macromedia Studio MX 2004 with Flash Pro MX 2004 Pro is used for the assignments in this class.</td>
</tr>
<tr>
<td>IT 237</td>
<td>INTRO TO WEB DESIGN II</td>
<td>3</td>
<td>College of Information Systems and Technology</td>
<td>Webpage creation using Hypertext markup language (HTML) will be employed. Focus will be on creating robust, well formatted, esthetically pleasing text-based web pages. Discussion of how to publish completed page to the web as well as advertisement of this page on the web will be covered.</td>
</tr>
<tr>
<td>IT 238</td>
<td>WEB SYSTEMS</td>
<td>3</td>
<td>College of Information Systems and Technology</td>
<td>This course builds upon a foundational understanding of Web design and examines professional Web development technologies. Topics include dynamic hypertext markup language (DHMTL), interactive technologies, advanced use of presentational technologies and Web 2.0. Emphasis is placed upon the appropriate use of Web programming tools and professional development standards.</td>
</tr>
<tr>
<td>IT 240</td>
<td>INTRO TO LAN TECHNOLOGIES</td>
<td>3</td>
<td>College of Information Systems and Technology</td>

<td>RESEARCH FOR JOURNALISM</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course focuses on the research methods employed in journalistic writing and reporting. The goal of this course is to enhance the understanding of the characteristics of credible sources and accurate information. Information will be assembled and evaluated to support journalistic goals by interpreting information needs, choosing accurate and unbiased sources, and selecting relevant and reliable information. The importance of employing ethical practices to research techniques is emphasized throughout the course.</td>
</tr>
<tr>
<td>JRN 330</td>
<td>JOURNALISTIC WRITING I</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course focuses on understanding journalistic writing styles. The course begins by categorizing historical media and associating past writing styles with current 21st century styles. Differences will be identified in writing for various audiences and for print, digital, and broadcast media. The rationale for using certain writing styles will be illustrated and expressed. Throughout the course, the roles of research, editing, and ethics in journalistic writing will be emphasized.</td>
</tr>
<tr>
<td>JRN 340</td>
<td>JOURNALISTIC WRITING II</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course focuses on the application of the diverse journalistic writing techniques used by today’s changing media landscape. The goal is to enhance storytelling skills by informing and engaging audiences using various delivery methods. Written media messages will be designed and assessed by determining which writing styles should be utilized given the target audience. Within the new convergent media landscape, credible resources will be identified, materials evaluated, and details of written work summarized. The association between research and responsible writing will be explored, as writing strategies to craft effective messages are developed. The role of ethics in journalism is emphasized throughout the course.</td>
</tr>
<tr>
<td>JRN 350</td>
<td>CONTROVERSIAL ISSUES IN JOURNALISM</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course examines the rise of social media and the immediacy in which controversial issues are communicated in journalism. This course focuses on developing the writer reporter’s ability to critically examine and react to specific media elements, including public opinion, trends, celebrity commentary, and the public’s need to know. Emphasis is placed on understanding the nature and characteristics of thought-provoking mass media occurrences. Concepts of idea generation and storytelling in an ethical and personally responsible manner are highlighted.</td>

<td>LDR 532</td>
<td>LEADING ORGANIZATIONAL DEVELOPMENT IN THE PUBLIC SECTOR</td>
<td>3</td>
<td>College of Criminal Justice and Security</td>
<td>This course prepares students to lead change in the public sector. Students will apply leadership theories in the bureaucratic public sector considering the unique role of power and politics. Other topics, at the state and local level, include culture in the public sector, group behavior, financial and nonfinancial motivation, and workplace conflict.</td>
</tr>
<tr>
<td>LDR 535</td>
<td>LEADING CHANGE</td>
<td>3</td>
<td>School of Business</td>
<td>This course applies leadership concepts to create organizational change. Students will create a plan to lead an organizational change in which they have no direct authority over necessary decisions. Other topics include leadership theories, organizational theory, levels of organizational change, and transformation leadership.</td>
</tr>
<tr>
<td>LDR 706</td>
<td>LEADERSHIP, MANAGEMENT, AND SUPERVISION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course investigates building teamwork and commitment, coaching and mentoring, collective bargaining and contract negotiations, and delegating. Upon completion of this course, learners will have the following competencies: the ability to plan work teams and increase the effectiveness of their work, use coaching to improve the work of the underachiever as well as continued growth of all employees, arrange and participate in collective bargaining and contract negotiations, and delegate work to subordinates.</td>
</tr>
<tr>
<td>LDR 711A</td>
<td>LEADERSHIP THEORY AND PRACTICE</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>In this course students explore their role as a scholar, practitioner, and leader from historical, theoretical, and applications-based content and framework-all within the context of critical reasoning, writing, and research. Students will develop doctoral-level critical analysis, evaluation, and synthesis skills as these apply in leadership practices within their organizations.</td>

<td>ETHICAL LEADERSHIP AND THE LEGAL LANDSCAPE</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course evaluates research on how legal environments in the global economy shape decision-making and ethical issues that emerge from disparate legal systems and practices. Topics include contemporary legal and ethical issues that impact the environment and workplace such as technology, social media, advertising, harassment, and diversity. The relationships among the law, corporate ethical standards and global business practices are analyzed.</td>
</tr>
<tr>
<td>LDR 722</td>
<td>ETHICAL LEADERSHIP AND THE LAW IN THE GLOBAL ENVIRONMENT</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course evaluates ethical and risk management issues emerging from disparate legal systems and practices in the global environment, with an emphasis on current world events. Topics include decision-making, cultural implications, and the management of economic, financial, and political risk. The relationships among the law, corporate ethical standards, and global business practices are analyzed.</td>
</tr>
<tr>
<td>LDR 726</td>
<td>THE DYNAMICS OF GROUP AND TEAM LEADERSHIP</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>Upon completion of this course, learners will be prepared to use advanced leadership strategies for group communications, team building, and coaching skills to attain organizational objectives. Learners explore large group and smaller team dynamics and the ways in which the role of a leader is required to affect behavior. Emphasis is placed on the growing dependency on self-directed work teams in the workplace.</td>
</tr>
<tr>
<td>LDR 731</td>
<td>CONTEMPORARY ISSUES IN LEADERSHIP</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course explores successful leadership and controversial issues surrounding how and why senior leaders set and deploy organizational values, short and long-term directions, and performance expectations that create a balanced value in global organizations. The focus is on business results that encompass organizational learning; stakeholder satisfaction; and overall budgetary, financial, and market performance.</td>

<tr>
<td>LEO 563</td>
<td>LAW ENFORCEMENT INTELLIGENCE OPERATIONS</td>
<td>3</td>
<td>College of Criminal Justice and Security</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course examines the basic tools utilized in addressing criminal activity and security issues, relating to the gathering of intelligence. This course provides students with knowledge and resources to effectively identify, gather, and analyze information obtained through either human or electronic means. Students will comprehend the resources available for conducting investigations. Through examination of organizations comprising the intelligence community students will recognize how public and private sector partnerships can promote efficiency and effectiveness.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>LEO 573</td>
<td>ORGANIZATIONAL PERFORMANCE, ANALYSIS, AND DECISION MAKING</td>
<td>3</td>
<td>College of Criminal Justice and Security</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course explores methods to track and measure an organization’s overall performance and how to use the data collected to align and actuate future decisions. Topics include empirical practices in performance measurement, mining, and filtering data; effectively communicating research results, and application of innovative knowledge for future decision making. Students also study modern evaluation methods to analyze neoteric organizational decisions.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>LEO 583</td>
<td>STRATEGIC PLANNING FOR THE LAW ENFORCEMENT SECTOR</td>
<td>3</td>
<td>College of Criminal Justice and Security</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course will introduce students to the tools and practical measures for successfully designing and implementing a strategic plan for law enforcement organizations. Students will learn strategic approaches that allow evaluation and measurement of fiscal responsibility, accountability, productivity, customer satisfaction, and cohesiveness of mission, with the intent of identifying best practices and overall organizational effectiveness.</td>

<td>MAT 116</td>
<td>ALGEBRA 1A</td>
<td>3</td>
<td>College of Humanities and</td>
<td>This course introduces basic algebra concepts and assists in building skills for performing specific mathematical operations and problem solving. Students will solve equations, evaluate algebraic expressions, solve and graph linear equations and linear inequalities, graph lines, and solve systems of linear equations and linear inequalities. These concepts and skills will serve as a foundation for subsequent business coursework. Applications to real-world problems are also explored throughout the course. This course is the first half of the college algebra sequence, which is completed in MAT 117, Algebra 1B.</td>
</tr>
<tr>
<td>MAT 117</td>
<td>ALGEBRA 1B</td>

<td>MAT 219</td>
<td>INTRODUCTION TO COLLEGE ALGEBRA</td>
<td>Humanities and Sciences</td>
<td>This course introduces algebraic concepts providing a solid foundation for college algebra. Topics range from properties of real numbers, the order of operations, and algebraic expressions to solving equations and inequalities. Additional topics include polynomials, factoring methods, rational and radical expressions as well as graphing and functions.</td>
<td></td>
</tr>
<tr>
<td>MAT 220</td>
<td>COLLEGE ALGEBRA</td>
<td>Humanities and Sciences</td>
<td>This course presents traditional concepts in college algebra. Topics include linear, polynomial, rational, radical, exponential and logarithmic functions, systems of equations, sequences, and series.</td>
<td></td>
</tr>
<tr>
<td>MAT 230</td>
<td>STATISTICS</td>
<td>Humanities and Sciences</td>
<td>This course surveys descriptive and inferential statistics with emphasis on practical applications of statistical analysis. The principles of collecting, analyzing, and interpreting data are covered. It examines the role of statistical analysis, statistical terminology, the appropriate use of statistical techniques, and interpretation of statistical findings through applications and functions of statistical methods.</td>
<td></td>
</tr>
<tr>
<td>MAT 504</td>
<td>ADOLESCENT PSYCHOLOGY</td>
<td>Education</td>
<td>This course provides an overview of adolescent development, including the biological, cognitive, and social changes during the period between childhood and adulthood. The psychosocial developmental period is explored, and current trends and methods of teaching and learning in a middle school are examined and practiced.</td>

<td>MIDDLE SCHOOL FOUNDATIONS AND PHILOSOPHY</td>
<td>3</td>
<td>College of Education</td>
<td>This course examines middle level education. It evaluates the structure of middle schools and their characteristics, including curriculum, instruction, and learning in middle level education. It also addresses issues such as managing the middle level environment. Students in this course will demonstrate knowledge through application, analysis, and observation of middle level environments.</td>
</tr>
<tr>
<td>MATH 500</td>
<td>MATHEMATICS: CURRICULUM AND ASSESSMENT</td>
<td>3</td>
<td>College of Education</td>
<td>This course explores curriculum, instructional techniques, and assessment strategies related to mathematics instruction. Participants identify the educational needs of students by investigating current instructional theory, National Council of Teachers of Mathematics Standards, and social issues that impact the mathematics classroom. Participants also develop skills in selecting and adapting instruction for diverse student populations with emphasis on classroom management skills as they relate to mathematics instruction.</td>
</tr>
<tr>
<td>MATH 501</td>
<td>MATHEMATICS: LINEAR ALGEBRA</td>
<td>3</td>
<td>College of Education</td>
<td>The purpose of this course is to provide an introduction to linear algebra, a branch of mathematics dealing with matrices and vector spaces. This course describes the use of linear algebra as a compilation of diverse, but interrelated ideas that provide a way of analyzing and solving problems in many applied fields. Linear algebra has three sides: computational techniques, concepts, and applications. One of the goals of this course is to help you master all facets of the subject and see the interplay among them. The material presented in this course involves theorems, proofs, formulas, and computations of various kinds.</td>
</tr>
<tr>
<td>MATH 502</td>
<td>MATHEMATICS: GEOMETRY</td>
<td>3</td>
<td>College of Education</td>
<td>This course is designed to have students demonstrate the ability to use fundamental concepts of geometry including definitions, basic constructions, tools of geometry, and to recognize geometry as an axiomatic system.</td>

<tbody>
<tr>
<td>MLFC 560</td>
<td>HISTORICAL AND CULTURAL PERSPECTIVES OF THE MILITARY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course focuses on understanding the historical and cultural perspectives of the military. The unique characteristics of military life, the effect on individuals in military families, and the differences between required service during the draft and voluntary service since the early 1970s are presented. Issues such as military jargon, differences between the services, rank and pay-grade categories, and culture are covered. In addition, the course provides an overview of the need for additional mental health services and trained mental health professionals who can work with military families. Ethical and legal issues involved in counseling military families are also introduced.</td>
</tr>
<tr>
<td>MLFC 561</td>
<td>DEPENDENCY AND ADDICTIONS</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course addresses addiction concepts and counseling practices. Topics include an overview of dependency theories, major substances of abuse, assessment, diagnosis, treatment modalities, special topics, and working with diverse populations.</td>
</tr>
<tr>
<td>MLFC 565</td>
<td>FAMILY, COUPLE AND CHILD COUNSELING</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course is an overview of models in the intervention and treatment of children, adolescents, and families. Students address integrative approaches to assessment and diagnosis in family therapy and explore systemic approaches to treatment of issues common to families and children in clinical settings. Additionally, students contrast fundamental assumptions of systems theory with intrapsychic theories.</td>
</tr>
<tr>
<td>MLFC 566</td>
<td>GRIEF LOSS AND TRANSITION ISSUES FOR MILITARY FAMILIES</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course focuses on the transitions that military family members face regularly and discusses the experiences of bereavement and grief usually associated with these transitions. Frequent family disruptions, such as the deployment cycle and its effect on the family, are reviewed. A foundational model is presented where all transitions are understood by clinicians and by the families with which they are working. Coping and counseling strategies are presented to assist families through the cycles and transitions. Trauma and posttraumatic stress issues are also presented.</td>

<td>COUNSELING MILITARY FAMILIES</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course focuses on the strengths, vulnerabilities, and capabilities of a military family, including the unique aspects of guard and reserve families. The family systems model is used to address issues that different family members face, including spouses, children, and families of unmarried service members. Parenting issues relevant to military families are also addressed. During the course, local resources are explored to assist families throughout their military service.</td>
</tr>
<tr>
<td>MLFC 568</td>
<td>ASSESSMENT AND INTERVENTION STRATEGIES FOR MILITARY FAMILIES</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>The focus of this course is on the assessments and interventions used to work with military families. When providing assessments and interventions, it is crucial to understand that the military has a distinct culture. This course explores how professionals can address the stigma associated with service members seeking mental health care, which may deter them from receiving therapy. Ethically and culturally appropriate, theory-based assessment and interventions strategies are explored. In addition, current research on best practices is considered, and case conceptualizations are required.</td>

This course defines and provides a context for the classroom teacher to teach and assess K-8 students in the area of physical education and health based on a scope and sequence, and on state and national standards. This course includes framework-based teaching strategies effective in helping K-8 students develop a variety of motor skills and abilities, recognize the importance of a healthy lifestyle, gain knowledge of human movement, learn the rules and strategies of games and sports, and develop self-confidence and self-worth. This course also includes framework-based teaching strategies effective in helping K-8 students achieve the goals of lifelong health; understand growth and development; and utilize health-related information, products, and services. Instructional approaches for the integration of physical education and health with other content areas are explored.

This course focuses on the methodology and assessment strategies that enhance learning at the secondary level. Integrated content, interdisciplinary teaching, and curriculum and assessment issues are emphasized. Multiple perspectives of students as learners of secondary content, along with current research on pedagogy, are explored. This course provides students with an opportunity to develop the ability to use and evaluate instructional and curricular materials and appropriate assessment strategies.

This course examines second language acquisition theories, strategies, and the nature of cognitive and affective language development to assist the secondary teacher of the English Language Learner student. The course focuses on language acquisition development within alternative language service programs, and it provides the basis for effective instructional strategies including methods, techniques, and materials to be used with linguistically diverse secondary students. It examines the critical elements of learning issues associated with linguistically diverse students, including the learning styles and interconnected variables that interact in second language learning, thought processes, and the relationship to content mastery. The course also focuses on the structure and use of the English language to ensure oral and written accuracy and correct punctuation and intonation for those working with linguistically diverse secondary populations.

<td>College of Education</td>
<td>This course is designed to prepare students to teach science at the secondary school level. To meet this objective, students will explore the instructional methods in science content areas in middle level and high school settings. Participants will identify the educational needs of secondary students by exploring current instructional theory; national, state, and local standards; and social issues that impact the science classroom. The course also helps prospective educators develop skills in selecting and adapting instruction and management plans for diverse student populations.</td>

<td>CALCULUS II</td>
<td>4</td>
<td>College of Humanities and Sciences</td>
<td>This course examines integral calculus topics. Students are presented with integration techniques for functions of one variable and more applications of definite integrals. Students explore numerical techniques of integration. Students also examine the area function, Riemann sums and indefinite integrals, and apply these to real-life problems. The course concludes with the fundamental theorem of calculus.</td>
</tr>
<tr>
<td>MTH 330</td>
<td>MATHEMATICAL REASONING</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course presents an introduction to advanced mathematical concepts and applications. Students examine truth tables and develop competence with formal logical proof techniques. Students investigate number systems and also explore mathematical language, functions, and trigonometry.</td>
</tr>
<tr>
<td>MTH 360</td>
<td>LINEAR ALGEBRA</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course provides a survey of the concepts related to linear algebra. Students examine the geometry of vectors, matrices, and linear equations, including Gauss-Jordan elimination. Students explore the concepts of linear independence, rank, and linear transformations. Vector spaces, bases, and change of bases are discussed, including orthogonality and the Gram-Schmidt process. In addition, students investigate determinants, eigenvalues, and eigenvectors.</td>
</tr>
<tr>
<td>MTH 380</td>
<td>CALCULUS III</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course builds on the concepts presented in MTH 310 Calculus I and MTH 320 Calculus II. Students examine functions of more than one variable, curves in space, and Newtonian mechanics in three-dimensions. Students explore partial derivatives and differentials as well as local and global extrema. In addition, students use differentiation techniques for functions of many variables.</td>

<tr>
<td>MTH 506</td>
<td>METHODS OF TEACHING MATHEMATICS</td>
<td>3</td>
<td>Education</td>
<td>This course focuses on the methodology and assessment strategies that enhance learning in preschool through eighth-grade mathematics. Topics include an overview of mathematics content and process standards, developmentally effective instructional strategies, assessment, and classroom and materials management.</td>
</tr>
<tr>
<td>MTH 530</td>
<td>LINEAR ALGEBRA</td>
<td>3</td>
<td>Education</td>
<td>The purpose of this course is to provide an introduction to linear algebra, a branch of mathematics dealing with matrices and vector spaces. This course describes the use of linear algebra as a compilation of diverse, but interrelated ideas that provide a way of analyzing and solving problems in many applied fields. Linear algebra has three sides: computational techniques, concepts, and applications. One of the goals of this course is to help you master all of these facets of the subject and see the interplay among them. The material presented in this course involves theorems, proofs, formulas, and computations of various kinds.</td>
</tr>
<tr>

<tr>
<td>NSE 721</td>
<td>THEORIES OF NURSING EDUCATION</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course examines historical and current theories as a basis for the nursing education curriculum. With a foundation based in major theorists and tenets of the theories, learners analyze select curricula for evidence of the various theories, investigate implications of the theories applied to nursing education and interpret the interaction of the theories with current and evolving public policy.</td>
</tr>
<tr>
<td>NSE 722</td>
<td>INSTRUCTIONAL DESIGN AND CURRICULUM DEVELOPMENT</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course analyzes the models and processes of instruction in nursing education programs. Effective instructional models explore the relationship of theories, standards, teaching strategies and learner outcomes. The importance of curriculum design, delivery, and evaluation are related to program outcomes. Instructional models for diverse populations, improvement of programs, and staff development are a special focus. Learners synthesize systemic teaching-learning models that include schedule, structure, stakeholder involvement, and curricular outcomes. Explication of implicit, hidden, cultural, and institutional aspects of curriculum design and delivery inform the learner's development approach.</td>

<tr>
<td>NSG 300</td>
<td>INTRODUCTION TO THE SCHOOL OF NURSING</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This introductory course to the School of Nursing is designed to orient students to the nursing curriculum and program. Students will receive an introduction to the simulation laboratory. Students will develop strategies for achieving educational goals that assist them to be successful in the undergraduate program. Strategies for success will include improving test-taking skills, utilizing case studies, and studying test questions that are similar to those of the NCLEX-RN Examination.</td>
</tr>
<tr>
<td>NSG 301</td>
<td>TRANSITION TO BACCALAUREATE STUDIES</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course introduces baccalaureate students to the nursing program and curriculum. Topics include critical thinking, collaboration, research, academic honesty, APA guidelines, and communication skills. A key focus is introducing students to professional nursing resources and university resources designed for student success.</td>
</tr>
<tr>
<td>NSG 320</td>
<td>PROFESSIONAL NURSING ROLE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course provides an overview of nursing and is designed for the practical vocational nurse to begin transitioning into professional nursing. Historical influences on professional nursing are explored. Critical thinking, clinical judgment, and professional values and responsibilities are examined in the context of the scope of practice for the professional nurse. The nursing process and concepts crucial to role transition are introduced, along with behaviors related to professional and academic accountability. Benner's Theory of novice to expert and the role of the generalist will be explored.</td>

<td>PHYSICAL ASSESSMENT</td>
<td>4</td>
<td>College of Health Sciences and Nursing</td>
<td>This course builds from previous practical or vocational nursing competencies, knowledge, and skills. It provides the nursing student with the skills in physical, psychosocial, and spiritual assessment of patients across the life span. History taking and data collection are emphasized. Laboratory experiences are included to develop an application of anatomy and physiology concepts to body systems under the supervision of a qualified faculty member. This course includes 30 clinical hours and 8 lab hours.</td>
</tr>
<tr>
<td>NSG 340</td>
<td>MEDICAL SURGICAL NURSING I: ACUTE</td>
<td>5</td>
<td>College of Health Sciences and Nursing</td>
<td>This course builds on previous nursing knowledge and skills to expand into the professional nursing roles related to the medical surgical client experiencing acute health care problems. Management of safe patient care using the nursing process and Watson’s Theory of Human Caring is addressed. Watson’s Theory will be used by the student to apply critical thinking pathways to individual health problems. Students are required to successfully complete 75 clinical hours to pass the course that includes immersive simulation learning.</td>
</tr>
<tr>
<td>NSG 345</td>
<td>MEDICAL SURGICAL NURSING II: COMPLEX AND GERIATRICS</td>
<td>5</td>
<td>College of Health Sciences and Nursing</td>
<td>This course focuses on the care of patients with chronic complex medical surgical conditions. Students will develop their role of the generalist RN in assessing and managing the continuum of care with the adult and geriatric patient. Students are required to successfully complete 75 clinical hours to pass the course that includes immersive simulation learning.</td>
</tr>
<tr>
<td>NSG 391</td>
<td>PROFESSIONAL NURSING PRACTICE</td>
<td>3</td>
<td>College of Health Sciences and Nursing</td>
<td>This course focuses on the professional role and discipline of nursing. Students will examine the image of nursing and develop strategies for improvement. Standards of professional practice will be discussed in relation to the profession, role, and value behavior.</td>

</table>

This course is a comprehensive view of the psychosocial and physiological aspects of sexual health in our contemporary society. The student will have opportunities to explore numerous relevant topics including love, intimacy, and relationships; sex and marketing; sexual diseases; sexual abuse; gender identity and sex roles; and socio-cultural influences and values in decision making. The course is designed for the student to understand attitudes and behaviors as they relate to sexual well-being and integrity.

This course introduces the study of major psychological disorders as defined in the DSM-IV-TR, including their diagnoses, causes, and treatments. It covers such subjects as depression, bipolarity, anxiety, panic, somatoform, dissociation, substance abuse, anorexia, schizophrenia, and childhood disorders, as well as gender and cultural differences.

This course introduces the study of major psychological disorders as defined in the DSM 5, including their diagnoses, causes, and treatments. It covers such subjects as depression, bipolarity, anxiety, panic, somatoform, dissociation, substance abuse, anorexia, schizophrenia, and childhood disorders, as well as gender and cultural differences.

This course is a study of the development of the individuals from conception through adulthood. Theories and factual content underlying current thinking and research are examined, as well as the processes and influences affecting the developing person. The focus is on biological, social, emotional, and intellectual aspects across the lifespan, and individual application is emphasized.

<td>PSYCH 535</td>
<td>MULTICULTURAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course provides students with an in depth focus on cultural factors and cross-cultural perspectives in the field of psychology. Students learn to identify and consider cultural variables in the application of psychological theories and practices. Multicultural issues and valued diversity are the main content focus throughout the course.</td>
</tr>
<tr>
<td>PSYCH 540</td>
<td>RESEARCH METHODOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course is an overview of the fundamentals of research methods applicable to the broad field of psychology. Topics include research design, quantitative and qualitative forms of analysis, ethical issues in research, and appropriate documentation of research processes and outcomes. Students become critical evaluators of research, with emphasis placed on engaging the students in analytical reading of research literature in psychology and the application of skills in conducting primary behavioral research.</td>
</tr>
<tr>
<td>PSYCH 545</td>
<td>SURVEY OF PROFESSIONAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course surveys various professional activities in psychology and the legal and ethical responsibilities of the psychology professional. Students learn underlying ethical principles relevant to a broad range of issues in the field of psychology, as well as to interpret and act upon various situations appropriately and effectively. Content includes issues such as subject and client rights, confidentiality, duty to warn and protect, dual relationships, supervision and consulting, ethics with special populations, and ethical decision-making models.</td>
</tr>
<tr>
<td>PSYCH 550</td>
<td>PSYCHOLOGY OF LEARNING</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course examines major theories of learning with relevance to instrumental and classical (Pavlovian) conditioning, cognitive learning processes, motivation, affect, and memory. The students will explore relevant research on traditional and contemporary issues in learning, with an emphasis is on human learning from both behavioral and cognitive perspectives.</td>

<td>SOCIAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course covers the basic theoretical foundations and recurrent themes in social psychology, including attitudes, stereotyping, conformity, power, aggression, prosocial behavior, the social self, emotions, group dynamics, and inter-group relations. Emphasis is on recent empirical and theoretical developments and includes models of social cognition that are a focus of contemporary social psychological theories.</td>
</tr>
<tr>
<td>PSYCH 560</td>
<td>COGNITIVE PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course surveys what modern cognitive psychology says about problem solving and reasoning, memory, language, imagery, and the processes and pathology of language and thought. Cognitive models of information processing in humans and animals are reviewed.</td>
</tr>
<tr>
<td>PSYCH 570</td>
<td>ORGANIZATIONAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course is an in-depth look at organizational psychology and therefore covers the organizational side of the field, including the impact of the organizations on the individual and on groups of individuals. The dynamics and cultural characteristics of organizations are identified and described in-depth, and organizational development and change are given particular emphasis as well.</td>
</tr>
<tr>
<td>PSYCH 575</td>
<td>PHYSIOLOGICAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course is a survey of biological and biochemical correlates of behavior, focusing on the structure and function of the central nervous system, the autonomic nervous system, and the endocrine system as they relate to psychological processes of sensation, drive, emotion, learning, and memory.</td>

<td>DEVELOPMENTAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course examines biological and environmental influences on human development across the lifespan. The biological foundations of human growth and development are presented along with major theories of cognitive, social and emotional development. Current research in developmental psychology is presented as students explore both opportunities and challenges that people face as they age. Social, cultural, systemic and ethical issues related to research and practice are also addressed.</td>
</tr>
<tr>
<td>PSYCH 610</td>
<td>RESEARCH METHODS IN PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course is an overview of the fundamentals of research methods applicable to the broad field of psychology. Topics include research design, quantitative and qualitative forms of analysis, ethical issues in research, and appropriate documentation of research processes and outcomes. Students will learn to critically read and evaluate psychological studies and apply their knowledge of research design and methodology to a variety of problems and issues in the field of psychology.</td>
</tr>
<tr>
<td>PSYCH 620</td>
<td>MULTICULTURAL AND SOCIAL ISSUES IN PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course provides students with an in-depth investigation of cross-cultural issues and perspectives in the field of psychology. Students learn to identify and consider cultural and systemic variables in psychological theory, research and practice. Multicultural issues, social dynamics, social justice and valued diversity are emphasized.</td>
</tr>
<tr>
<td>PSYCH 625</td>
<td>STATISTICS FOR THE BEHAVIOR SCIENCES</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course presents fundamental statistical concepts and tools for understanding and analyzing data from studies in the social and behavioral sciences. Topics include measures of central tendency and dispersion, probability theory, data distributions, significance testing and statistical inference. Students will learn how to analyze and interpret data from psychological studies using descriptive statistics, correlational methods, t-tests and analysis of variance procedures.</td>

<td>ELEMENTS OF HEALTH PSYCHOLOGY AND BEHAVIORAL HEALTH</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course is an overview of the field of health psychology and the origins of the biopsychosocial model from a historical perspective, including the biological, psychological and social contexts of the science. It provides students with information about the biological foundations of health and illness, as well as current research in health psychology. The dangers of &quot;unscientific&quot; applications and the importance of using critical thinking and evidence-based research when formulating strategies are described.</td>
</tr>
<tr>
<td>PSYCH 627</td>
<td>ILLNESS PREVENTION AND HEALTH PROMOTION</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course examines research on the basic relationships between behavior and health, including stress, eating and obesity, substance abuse, and chronic illness such as cardiovascular disease, cancer and HIV-AIDS. Students will learn the major concepts of illness prevention and health promotion, with a focus on both personal behavioral factors and sociocultural determinants. Special attention will be given to the disparities in health status and prevention efforts with regard to race, gender, ethnicity, and socioeconomic status.</td>
</tr>
<tr>
<td>PSYCH 628</td>
<td>EVIDENCE-BASED INTERVENTIONS IN BEHAVIORAL HEALTH</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>This course provides a description of those therapeutic interventions which are based on outcome studies. Students will learn practical assessment and intervention strategies for the major disorders where health psychology plays a role, including chronic stress and pain, obesity and eating disorders, substance abuse, HIV and AIDS, diabetes and hypertension, insomnia and cancer. Methods will include self-monitoring, relaxation and meditation techniques, stimulus control, self-management, and cognitive-behavioral therapies. Complementary and alternative therapies which have shown clinical efficacy will also be described.</td>
</tr>
<tr>
<td>PSYCH 629</td>
<td>INTRODUCTION TO INDUSTRIAL ORGANIZATIONAL PSYCHOLOGY</td>
<td>3</td>
<td>College of Social Sciences</td>
<td>In this course, students will be introduced to the domains of the Industrial Organizational (I-O) Psychology concentration. Topics include an overview of the four primary domains of I-O psychology, human resource management, factors influencing employee performance, organization development, and research relevance within the I-O field of study. Students will gain an understanding of the evolution of the I-O field of study from the foundations of the field to the present day, the various ways that I-O psychologists contribute to organizations, the unique contributions of I-O psychology to the broader scientific community, and the main ethical issues likely to be encountered in the field. This course covers a wide variety of topics with the goal of exposing students to the main issues influenced by I-O psychologists.</td>

### PXTP 2015
**PRAXIS II TEST PREPARATION - MATHEMATICS CONTENT KNOWLEDGE**
- **Credit Hours:** 1
- **Department:** College of Education
- **Description:** In this course, participants review the math concepts and topics found on the Praxis II Mathematics Content Knowledge exam. Participants practice working timed math problems by hand, quickly and correctly. Additionally, opportunities to determine personal strategies for successful test-taking are provided. Participants receive information on testing strategies, vocabulary, formulas, and other subject-specific information required in the following domains: - Domain I: Algebra and Number Theory - Domain II: Measurement, Geometry, and Trigonometry - Domain III: Functions and Calculus - Domain IV: Data Analysis and Statistics, and Probability - Domain V: Matrix Algebra and Discrete Mathematics Opportunities to take practice tests, to review test questions by analyzing both correct and incorrect answers, and to use the information gathered from analysis and practice assessments help students prepare for the exam.

### PXTP 2020
**PRAXIS II ELEMENTARY ED CONTENT KNOWLEDGE TEST PREP**
- **Credit Hours:** 0
- **Department:** College of Education
- **Description:** This course prepares students for the Praxis II® Elementary Education Test by reviewing key social studies, language arts, science, and mathematics topics. Students review the specific areas of study found on the exam.

### PXTP 2025
**PRAXIS II TEST PREPARATION - ELEMENTARY ED CONTENT KNOWLEDGE**
- **Credit Hours:** 1
- **Department:** College of Education
- **Description:** In this course, participants review the concepts and topics found on the Praxis II® Elementary Ed Content Knowledge exam. Participants practice for the exam by reviewing key social studies, language arts, science, and mathematics topics. Participants receive information on testing strategies, vocabulary, formulas, and other subject-specific information required in the following domains: - Domain I - Reading Language Arts - Domain II - Mathematics - Domain III - Social Studies - Domain IV - Science Opportunities to take practice tests, to review test questions by analyzing both correct and incorrect answers, and to use the information gathered from analysis and practice assessments help students prepare for the exam.

</table>
RDG 536 READING METHODS: PRIMARY 3 College of Education
This course explores current theories and methods to support the literacy development of pre-kindergarten through third grade children. Participants explore foundations of language and literacy, children's transitions from oral language to concepts of print, and the techniques, technology, and texts to build a community of readers and writers using a balanced, integrated approach. Participants analyze effective ways to plan for, differentiate, extend, and assess children's literacy learning while respecting differences in experiential background, language, culture, and special learning needs.

RDG 537 CURRICULUM CONST AND ASSMT: READING AND LANGUAGE ARTS 4 College of Education
This course focuses on the most current research, theory, and methods of reading instruction, while providing students with the background knowledge in language arts necessary to prepare an integrated unit of instruction. Various instructional and assessment techniques, including research-based phonics, are modeled. A practical application project, based on work with a student in a K-8 school setting, is incorporated into the course requirements.

RDG 537CA CURRICULUM CONST AND ASSMT: READING AND LANGUAGE ARTS 4 College of Education
This course focuses on the design and delivery of a comprehensive reading language arts program of systematic instruction in reading, writing, listening, and speaking in multiple subject classrooms. Emphasis is placed on instructional planning, design, delivery and assessment as well as universal access and differentiated instruction. Candidates use this knowledge to prepare an integrated unit of instruction. Guided field experience, based on work with a student in a K-8 school setting, is incorporated into the course requirements.

<tr>
<td>RES 725</td>
<td>DESCRIPTIVE AND COMPARATIVE DATA ANALYSIS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course focuses on statistical analysis methods and reporting of results when describing and comparing data from groups. Learners will explore the assumptions, advantages, limitations, and appropriate applications of these quantitative approaches. The methods covered will include comparison of means for various forms of data including multiple means using methods of basic and advanced factorial ANOVA. Multivariate comparisons will also be explored under conditions of multiple independent and dependent variables using techniques including Hotelling’s T, MANOVA and related techniques. Depending on the learners' needs other approaches may be covered.</td>
</tr>
<tr>
<td>RES 726</td>
<td>CORRELATIONAL METHODS OF ANALYSIS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course focuses on statistical approaches to analysis and reporting when examining bivariate and multivariate relationships among variables. Learners will explore the underlying assumptions, advantages, limitations and appropriate application of correlation regression based approaches to data analysis. The course will cover basic correlation methods, simple and multiple regression techniques, and advanced multivariate procedures including factor analysis and structural equation models. Depending on the learners' needs, other approaches may be covered.</td>
</tr>
<tr>
<td>RES 727</td>
<td>APPROACHES TO PHENOMENOLOGICAL INQUIRY AND DATA ANALYSIS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course is designed to provide advanced graduate students with instruction in qualitative phenomenological approaches as applied to social science research. The course will emphasize individual and group interviewing as techniques for phenomenological data collection. Focus is placed on analysis approaches appropriate for and relevant to phenomenological research.</td>

</tr>
<tr>
<td>RES 741</td>
<td>TESTING AND MEASUREMENT</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>A comprehensive overview of the psychological tests and measurements used by I-O psychology practitioners. Basic psychometric principles, such as reliability, validity, and standardization, will be explored. Students will also learn about the steps involved in test development and considerations surrounding the interpretation of test scores. Professional and ethical standards and guidelines for testing are reviewed.</td>
</tr>
<tr>
<td>RES 745</td>
<td>GROUNDED THEORY METHODS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>This course is designed to provide advanced graduate students with instruction in qualitative approaches as applied to social science research, where the research objective is the development of theory. Building upon an existing understanding of qualitative inquiry, students explore the concept of data within grounded theory as well as the techniques and processes traditionally found within grounded theory, such as the constant comparative method. Focus is placed on the steps and procedures for analyzing data within a grounded theory context.</td>
</tr>
<tr>
<td>RES 746</td>
<td>MIXED METHODS</td>
<td>3</td>
<td>School of Advanced Studies</td>
<td>The Mixed-Methods course focuses on both conceptual issues surrounding the use of mixed methods in business, education, nursing and social science research and the analysis of data using mixed methods. The course will involve scrutiny of published mixed-method research throughout, and uses published research for reference purposes throughout the course. Students are expected to develop skills in mixed-method research by engaging in actual analysis of data using mixed methods. Thus, the course will blend conceptualization, design, and analysis. Content of the course represents a clear recognition of the importance of mixed methods in research and the growing importance of a solid knowledge of both quantitative and qualitative approaches -- and their blending -- to actually design and conduct meaningful doctoral level research.</td>
</tr>
</tbody>
</table>
RES 750 | APPROACHES TO RESEARCH: QUANTITATIVE QUALITATIVE I | 3 | School of Advanced Studies | In this course, students will learn about foundational quantitative and qualitative research designs and their appropriateness for achieving a study’s objectives. Topics include research methods and design, the development of problem statements, purpose statements, research questions, and hypotheses. Learners will create the foundational components of a concept paper for the two topics identified by the student during PSYCH 720R.

RES 751 | APPROACHES TO RESEARCH: QUANTITATIVE QUALITATIVE II | 3 | School of Advanced Studies | In this course, students will critically evaluate the two research topics developed into draft concept papers during RES 750 to determine which topic is most viable for their dissertation study. After selecting a topic, students will more deeply examine quantitative and qualitative research designs, including key methodological approaches. They will continue to develop key components of their dissertation concept paper and focus on a brief review of the literature, a summary of the theoretical or conceptual framework, and a justification of their research methods and design choices.

RES 752 | RESEARCH CONSTRUCTS AND DESIGN | 3 | School of Advanced Studies | In this course, students will synthesize the cumulative knowledge gained in RES 750 and RES 751 to prepare their dissertation concept paper for final review and evaluation. The concept paper will be expanded to ensure a brief discussion of the study population, the sampling strategy, and the methodological approach of data collection and analysis. The contents of the concept paper will be critically reviewed by the student for alignment with the School of Advanced Studies Dissertation Criteria and Rating Scale.

RES 760 | MEASUREMENT OF CONSTRUCTS | 3 | School of Advanced Studies | The purpose of this course is to guide learners in the integration of information learned in previous courses (i.e., residency, research courses, testing and measurement) that relates to measurement and dissertation issues and apply the information to the initial working draft of the dissertation (developed in Research Constructs and Design). The final outcome of this course will be used as an initial draft of the introduction and literature review of the dissertation.

<tr>
<td>SCI 201</td>
<td>SURVEY OF ALTERNATIVE MEDICINE</td>
<td>1</td>
<td>College of Humanities and Sciences</td>
<td>This course examines the traditions and recent developments within the field of alternative medicine, and includes a comparison of Western and Eastern diagnostic systems. Through a highly interactive and experiential format, participants will overview a comprehensive range of physical, psychological, and energy therapies resulting in insight, awareness, and appreciation for diverse approaches to medicine.</td>
</tr>
<tr>
<td>SCI 209</td>
<td>OCEANOGRAPHY</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course examines the linkages between the evolution of earth and water masses. Students will focus on the physical, chemical, biological and geological aspects of the ocean processes.</td>
</tr>
<tr>
<td>SCI 220</td>
<td>HUMAN NUTRITION</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course introduces the basic concepts of food and nutrition to highlight ways that students can integrate good nutrition into their lifestyles. Principles of digestion and absorption, the function of nutrients, lifecycle nutritive needs, disease prevention, diet modifications, and weight management are covered. Practical application of these principles to the students' lives is emphasized.</td>
</tr>
<tr>
<td>SCI 230</td>
<td>INTRODUCTION TO LIFE SCIENCE</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course introduces the student to scientific ideologies and concepts that not only shape our biological world, but also shape us as humans. Through a variety of comprehensive assessments and relevant discussions, students examine the scientific method, the dynamics of inheritance, and the affect humans have on the environment. Topics include the biology of cells, energy systems, and evolution.</td>

<td>3</td>
<td>College of Humanities and Sciences</td>
<td>SCI 241 introduces students to the world of human nutrition. Students examine the components included in a healthy, balanced diet, and develop strategies to meet their changing nutritional needs throughout the various stages of life. Specific topics for the course include: the digestion process, functions and health benefits of specific nutrients, weight management and fitness, and the effects of nutritional deficiencies.</td>
</tr>
<tr>
<td>SCI 250</td>
<td>MICROBIOLOGY</td>
<td>4</td>
<td>College of Health Sciences and Nursing</td>
<td>This course will instruct students on the fundamentals of microbiology. Topics will include introduction to the biology of microorganisms, including structure, function, metabolism, growth, genetics, diversity and host-parasite relationships. Also, examples of how microorganism are relevant to the needs, activities, and role of the health of individuals is discussed. Students will explore principles of applied microbiology and apply these scientific principles to case studies and lab experiences.</td>
</tr>
<tr>
<td>SCI 256</td>
<td>PEOPLE, SCIENCE AND THE ENVIRONMENT</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This in-depth environmental science course examines how people use science to understand how they relate to the environment. The course explores relationships between people and ecosystems, and the science behind how ecosystems work. It reviews the historical development of the environmental movement, interactions between humans and natural ecosystems, and more specifically, the role of a growing population and associated pressures on natural resources. This course further examines how economics, natural systems, and conservation are interrelated. The many forms of pollution as well as types of energy resources are addressed. This course challenges students to consider the impact of lifestyle choices on environmental sustainability.</td>
</tr>
<tr>
<td>SCI 275</td>
<td>ENVIRONMENTAL SCIENCE</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course focuses on the causes, impacts, and solutions to environmental issues. Students will identify global environmental issues, as well as develop and critique environmental action plans. Topics addressed include ecosystems, energy, populations, resources, pollution, and sustainability.</td>

<td>This course explores the assessment and evaluation of K-12 student learning outcomes in STEAM. The focus is on using a variety of assessments for evaluating integrated STEAM standards education. Various assessment types are compared for STEAM processes, products, and performances (content). Special consideration is given to both formative and summative assessments. Participants prepare STEAM assessments and tools for processes, products, and performances (content) in current classroom settings.</td>
</tr>
<tr>
<td>STEM 500</td>
<td>OVERVIEW OF STEM</td>
<td>3</td>
<td>College of Education</td>
<td>This course presents a very broad overview of Science, Technology, Engineering, and Mathematics (STEM) integration into K-12 instruction. Foundational concepts of national and international influences leading to the creation of STEM are explored. Participants examine integration of Common Core State Standards, Next Generation Science Standards, and applicable technology standards to various content areas.</td>
</tr>
<tr>
<td>STEM 501</td>
<td>CURRICULUM AND INSTRUCTION IN STEM EDUCATION</td>
<td>3</td>
<td>College of Education</td>
<td>This course focuses on researching, analyzing, and applying curricular theory and philosophy of best practices in the 21st century classroom for implementing STEM education. Special attention is given to STEM specific instructional strategies such as project based assessment, inquiry based learning, and conceptual change. Participants focus on planning and practical applications, differentiated instruction, collaboration, and the use of technology in the development of effective K-12 learning environments.</td>
</tr>
<tr>
<td>STEM 502</td>
<td>CRITICAL THINKING IN STEM</td>
<td>3</td>
<td>College of Education</td>
<td>This course provides participants with the skills to evaluate and use instructional methods, curricular materials, and resources for critical thinking development in STEM. Multiple perspectives of K-12 students as learners of STEM related content areas are explored. Participants identify the needs of students by exploring instructional models to develop skills in selecting and adapting delivery methods for diverse students.</td>

<td>ASSESSMENT STRATEGIES FOR STEM EDUCATION</td>
<td>3</td>
<td>College of Education</td>
<td>This course explores the assessment and evaluation of K-12 student learning outcomes in STEM. The focus is on using multiple assessment tools and the construction of performance and project-based assessments. Participants examine a variety of data to inform instructional practice as well as evaluate the effectiveness of the assessment tools.</td>
</tr>
<tr>
<td>STR 581</td>
<td>STRATEGIC PLANNING &amp; IMPLEMENTATION</td>
<td>3</td>
<td>School of Business</td>
<td>This course integrates concepts from all prior courses in the program. Students apply the concepts of strategic planning and implementation to create sustainable competitive advantage for an organization. Other topics include environmental scanning, strategic analysis, corporate social responsibility, implementation, evaluation, and risk management.</td>
</tr>
<tr>
<td>STR GMS81</td>
<td>INTERNATIONAL STRATEGIC PLANNING &amp; IMPLEMENTATION</td>
<td>3</td>
<td>School of Business</td>
<td>This capstone course integrates international concepts from all prior courses in the program. Students apply the concepts of internationalizing strategic planning and implementation to create sustainable competitive advantage for an organization presented across borders. Other topics include environmental scanning, strategic analysis, corporate social responsibility, implementation, evaluation, risk management, and direct foreign investment.</td>
</tr>
<tr>
<td>STR SB581</td>
<td>IMPLEMENTING BUSINESS STRATEGY</td>
<td>3</td>
<td>School of Business</td>
<td>This course integrates concepts from all prior courses in the program. Students apply the concepts of strategic planning and implementation to develop a business plan for a small or start-up business. Other topics include environmental scanning, strategic analysis, social responsibility, implementation, evaluation, and risk management.</td>

<td>SUSTAINABLE ECOSYSTEMS</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>In this course, students evaluate the principles of sustainable practices in aquatic and terrestrial environments. Students analyze the factors that govern ecosystems sustainability which include density-dependent regulations, mechanisms of biodiversity, invasive species, and equilibrium dynamics. The impact of human activities and management practices on the environment is examined. Emphasis is placed on applying ecological theory to restore and manage habitats and populations.</td>
</tr>
<tr>
<td>SUS 380</td>
<td>SUSTAINABLE PLANNING AND</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>In this course, students evaluate strategies that lead to the promotion of sustainable development, planning, and land use. Students develop a sustainable land use plan for natural and human-dominated landscapes and its impact on socioeconomic issues. Upon completion of the course, students are able to apply management strategies and relevant land use practices to achieve sustainability.</td>
</tr>
<tr>
<td>SUS 385</td>
<td>SUSTAINABLE OCEAN USE</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>In this course, students evaluate the principles of sustainable ocean use. Students analyze the environmental and economic role of the oceans. The sources and impact of ocean environmental degradation are examined. Topics include fisheries, aquaculture, natural resources and uses, and pollution. Sustainable management practices are analyzed by examining global environmental policies and regulations.</td>

<td>TECHNOLOGY SURVIVAL FOR EDUCATORS</td>
<td>3</td>
<td>College of Education</td>
<td>This course provides educators with survival strategies when incorporating technology into the P-12 classroom. Managing and integrating portable devices, cloud computing, and web-based applications are introduced. Participants examine basic computer maintenance and troubleshooting, personal and professional productivity, and issues regarding the safe and ethical use of technology.</td>
</tr>
<tr>
<td>TECH 504</td>
<td>MULTIMEDIA FOR EDUCATORS</td>
<td>2</td>
<td>College of Education</td>
<td>In this course, participants select, use, and design multimedia resources that enhance teaching and student learning. Multimedia categories such as still images, text, audio, video, and interactive components are explored. Participants also evaluate differentiated instructional delivery methods to promote a student-centered learning environment that meets the needs of a diverse student population. In addition, participants learn strategies for teaching students to create their own presentations. Legal and ethical considerations, such as copyright and fair use, are also addressed in the course.</td>
</tr>
<tr>
<td>TECH 505</td>
<td>PRESENTATION TECHNOLOGY FOR EDUCATORS</td>
<td>3</td>
<td>College of Education</td>
<td>In this course, participants explore various presentation tools for creating effective presentations. Participants develop presentations and instructional materials to enhance their students' learning. The course emphasizes the integration of features such as animation, speaker notes, multimedia, charts, Web 2.0 tools, and the Internet. Presentation design and delivery best practices are also covered.</td>
</tr>
<tr>
<td>TECH 507</td>
<td>TECHNOLOGY INTEGRATION FOR EDUCATORS</td>
<td>3</td>
<td>College of Education</td>
<td>This course is designed to prepare educators to integrate technology for engaging and effective P-12 student learning across the content areas. Participants incorporate technology-based instructional strategies into student-centered learning, using the National Educational Technology Standards and fair use guidelines. Digital tools and resources, software applications, and assessment are also examined.</td>

<td>2</td>
<td>College of Education</td>
<td>This course introduces classroom teachers and building administrators to effective and responsible social media implementation in K-12 classrooms. The emergence of social media as a viable tool for learning will be explored, and implementation considerations will be determined. Legal and ethical issues regarding social media use in schools will be examined. Participants will devise a social media application plan for school-wide integration.</td>
</tr>
<tr>
<td>TECH 509</td>
<td>USING WEB TOOLS IN THE CLASSROOM</td>
<td>1</td>
<td>College of Education</td>
<td>This course introduces K-12 teachers to a variety of web tools that can be used to enhance instruction. The evolution of the Internet to an interactive tool for collaboration and information sharing is examined. Tools for collaborating and sharing as well as tools that can be used to enhance classroom management are explored. Participants design instructional activities that incorporate a variety of web tools to enhance learning.</td>
</tr>
<tr>
<td>TECH 510</td>
<td>USING APPS IN THE CLASSROOM</td>
<td>1</td>
<td>College of Education</td>
<td>This course introduces K-12 teachers to the use of apps in the classroom. A variety of apps to supplement classroom instruction are examined. Tools to support students and teachers in creating original apps are also explored. Participants design an original app to supplement instruction.</td>
</tr>
<tr>
<td>TECH 511</td>
<td>USING GOOGLE TOOLS IN THE CLASSROOM</td>
<td>1</td>
<td>College of Education</td>
<td>This course introduces K-12 teachers to the use of Google tools in the classroom. A variety of Google tools to support classroom communication and collaboration are examined. Tools for learning, creating, and solving problems are also explored. Participants create original instructional products and lesson plans using Google tools.</td>

<td>FOUNDATIONS OF MASS COMMUNICATIONS</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course is a survey of the basic theories upon which our scientific understanding of mass communication is based. Ethical and related problems of mass communication will be studied from contemporary and historical viewpoints, as well as a critical analysis of the performance of the mass media.</td>
</tr>
<tr>
<td>XCOM 285</td>
<td>ESSENTIALS OF MANAGERIAL COMMUNICATION</td>
<td>3</td>
<td>College of Humanities and Sciences</td>
<td>This course introduces students to the foundations of communication in a business setting. Students are exposed to various topics related to interpersonal and group communication with an eye toward applications in an office or virtual office setting. Students will develop skills in various forms of written communication, including memos, emails, business letters, and reports. Communication ethics and cross-cultural communications are also explored. Upon completing the course, students will have an awareness of their personal communication style and be able to identify areas for further exploration of communication as a business skill.</td>
</tr>
<tr>
<td>XECO 212</td>
<td>PRINCIPLES OF ECONOMICS</td>
<td>3</td>
<td>School of Business</td>
<td>This course introduces the fundamental theories of microeconomics and macroeconomics. The economic principles studied in this course apply to everyday life as students research an industry, debate issues with trade agreements, discuss the effects of a shift in labor supply and demand, and discuss the strengths and weaknesses of the Consumer Price Index calculation. In particular, students research an industry affected by the economy and perform an economic analysis of the chosen industry.</td>
</tr>
<tr>
<td>XMGT 216</td>
<td>ORGANIZATIONAL ETHICS AND SOCIAL RESPONSIBILITY</td>
<td>3</td>
<td>School of Business</td>
<td>This course provides a foundational perspective for socially responsible management practices in business. Special emphasis is placed on the interrelated nature of ethics, moral, legal, and social issues in managing individuals, groups, and the organization within a business environment.</td>
</tr>
<tr>
<td>XMGT 230</td>
<td>MANAGEMENT THEORY AND PRACTICE</td>
<td>3</td>
<td>School of Business</td>
<td>This course explores the rich field of management in theory and practice, and as both a science and an art. Students learn to apply management concepts to current workplace issues. Other topics include increasing competitive forces, expectations for successful performance of employees and organizations, and achieving desired business goals.</td>
</tr>
